(3) SECRETARY STANDARDS.—If the NAIC does not make the modifications described in paragraph (2) within the period specified in such paragraph, the Secretary of Health and Human Services shall make the modifications described in such paragraph and such modifications shall be considered to be part of that Regulation for the purposes of section 1882 of the Social Security Act.

(4) DATE SPECIFIED.—

(A) IN GENERAL.—Subject to subparagraph (B), the date specified in this paragraph for a State is the earlier of—

(i) the date the State changes its statutes or regulations to conform its regulatory program to the changes made by this section, or

(ii) 1 year after the date the NAIC or the Secretary first makes the modifications under paragraph (2) or (3), respectively.

(B) ADDITIONAL LEGISLATIVE ACTION REQUIRED.—In the case of a State which the Secretary identifies as—

(i) requiring State legislation (other than legislation appropriating funds) to conform its regulatory program to the changes made in this section, but

(ii) having a legislature which is not scheduled to meet in 1994 in a legislative session in which such legislation may be considered,

the date specified in this paragraph is the first day of the first calendar quarter beginning after the close of the first legislative session of the State legislature that begins on or after January 1, 1994. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

TITLE XI—AUTHORIZATION FOR ADDITIONAL ASSISTANCE TO DISTRESSED COMMUNITIES

Subtitle A—National Public-Private Partnership Programs

SEC. 11001. NATIONAL PUBLIC-PRIVATE PARTNERSHIP PROGRAMS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that public-private partnerships between government and community-based organizations offer an opportunity to empower residents of low-income distressed communities and to forge innovative solutions to the challenges confronting these communities, and that increased resources should be invested in such partnerships.

(b) AUTHORIZATION OF APPROPRIATIONS.—To promote national public-private partnerships, there are authorized to be appropriated—

(1) with respect to the Head Start program under the Head Start Act (42 U.S.C. 9831 et seq.)—

(A) $40,000,000 for fiscal year 1993;
(B) $42,000,000 for fiscal year 1994;
(C) $44,000,000 for fiscal year 1995;
(D) $46,000,000 for fiscal year 1996;
(E) $49,000,000 for fiscal year 1997;
(F) $51,000,000 for fiscal year 1998;
(G) $54,000,000 for fiscal year 1999;
(H) $56,000,000 for fiscal year 2000;
(I) $59,000,000 for fiscal year 2001; and
(J) $62,000,000 for fiscal year 2002;

(2) with respect to the community health centers program under sections 329, 330, 340 and 340A of the Public Health Service Act (42 U.S.C. 254c)—

(A) $20,000,000 for fiscal year 1993;
(B) $21,000,000 for fiscal year 1994;
(C) $22,000,000 for fiscal year 1995;
(D) $23,000,000 for fiscal year 1996;
(E) $24,000,000 for fiscal year 1997;
(F) $26,000,000 for fiscal year 1998;
(G) $27,000,000 for fiscal year 1999;
(H) $28,000,000 for fiscal year 2000;
(I) $30,000,000 for fiscal year 2001; and
(J) $31,000,000 for fiscal year 2002;

(3) with respect to the National Community Economic Partnership program established under chapter 3 of subtitle C—

(A) $40,000,000 for fiscal year 1993;
(B) $42,000,000 for fiscal year 1994;
(C) $44,000,000 for fiscal year 1995;
(D) $46,000,000 for fiscal year 1996;
(E) $49,000,000 for fiscal year 1997;
(F) $51,000,000 for fiscal year 1998;
(G) $54,000,000 for fiscal year 1999;
(H) $56,000,000 for fiscal year 2000;
(I) $59,000,000 for fiscal year 2001; and
(J) $62,000,000 for fiscal year 2002;

(4) with respect to the Job Corps program under part B of title IV of the Job Training Partnership Act (29 U.S.C. 1692 et seq.)—

(A) $40,000,000 for fiscal year 1993;
(B) $42,000,000 for fiscal year 1994;
(C) $44,000,000 for fiscal year 1995;
(D) $46,000,000 for fiscal year 1996;
(E) $49,000,000 for fiscal year 1997;
(F) $51,000,000 for fiscal year 1998;
(G) $54,000,000 for fiscal year 1999;
(H) $56,000,000 for fiscal year 2000;
(I) $59,000,000 for fiscal year 2001; and
(J) $62,000,000 for fiscal year 2002;

(5) with respect to the Enterprise Capital Access Fund Demonstration Program established under section 11261—

(A) $20,000,000 for fiscal year 1993;
(B) $21,000,000 for fiscal year 1994;
(C) $22,000,000 for fiscal year 1995;
(D) $23,000,000 for fiscal year 1996;
(E) $24,000,000 for fiscal year 1997;
(F) $26,000,000 for fiscal year 1998;
(G) $27,000,000 for fiscal year 1999;
(H) $28,000,000 for fiscal year 2000;
(I) $30,000,000 for fiscal year 2001; and
(J) $31,000,000 for fiscal year 2002;

(6) with respect to the Youthbuild program under subtitle D of title IV of the Cranston-Gonzalez National Affordable Housing Act—

(A) $10,000,000 for fiscal year 1993;
(B) $11,000,000 for fiscal year 1994;
(C) $11,000,000 for fiscal year 1995;
(D) $12,000,000 for fiscal year 1996;
(E) $12,000,000 for fiscal year 1997;
(F) $13,000,000 for fiscal year 1998;
(G) $13,000,000 for fiscal year 1999;
(H) $14,000,000 for fiscal year 2000;
(I) $15,000,000 for fiscal year 2001; and
(J) $16,000,000 for fiscal year 2002; and

(7) with respect to the Neighborhood Reinvestment Corporation established under title VI of the Housing and Community Development Act of 1978—

(A) $10,000,000 for fiscal year 1993;
(B) $11,000,000 for fiscal year 1994;
(C) $11,000,000 for fiscal year 1995;
(D) $12,000,000 for fiscal year 1996;
(E) $12,000,000 for fiscal year 1997;
(F) $13,000,000 for fiscal year 1998;
(G) $13,000,000 for fiscal year 1999;
(H) $14,000,000 for fiscal year 2000;
(I) $15,000,000 for fiscal year 2001; and
(J) $16,000,000 for fiscal year 2002.

(c) AVAILABILITY OF AMOUNTS.—The amounts appropriated for programs pursuant to paragraphs (1), (2), (4), (6), and (7) of subsection (b) shall be available only for projects or activities that directly and principally benefit the residents of tax enterprise zones designated pursuant to section 1391 of the Internal Revenue Code of 1986. Of the amounts appropriated for programs pursuant to paragraphs (3) and (5) of subsection (b), 50 percent shall be available only for projects or activities that directly and principally benefit the residents of such zones.

Subtitle B—Block Grant Funding for Eligible Programs

SEC. 11101. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated for assistance under section 11102, $320,000,000 for fiscal year 1993, $325,000,000 for fiscal year 1994, $332,000,000 for fiscal year 1995, $337,000,000 for fiscal year 1996, $341,000,000 for fiscal year 1997, and such sums as may be necessary for each of the fiscal years 1998 through 2002, except that amounts authorized under this subsection for each of the fiscal years 1998 through 2002 shall not be less than the amount of the revenue loss estimates to result as a result of enterprise zone tax preferences under section 1391 of the Internal Revenue code of 1986 less the amounts authorized by section 11101(b).

SEC. 11102. ALLOCATION OF AMOUNTS AMONG TAX ENTERPRISE ZONES.

(a) IN GENERAL.—Except as provided in subsection (d), the interagency council established under section 11106 of this Act shall make any amounts appropriated pursuant to section

11101(a) available under this subtitle to provide assistance on behalf of each tax enterprise zone designated under section 1391 of the Internal Revenue Code of 1986 for which an application under section 11105 of this Act has been approved by the interagency council.

(b) ALLOCATION BETWEEN URBAN AND RURAL ZONES.—Of the amounts available each fiscal year under this title for tax enterprise zones, 70 percent shall be available for urban tax enterprise zones and 30 percent shall be available for rural development investment zones.

(c) DIVISION AMONG URBAN AND RURAL ZONES.—

(1) URBAN ZONES.—The amounts available each fiscal year under this title for urban tax enterprise zones shall be allocated so as to reserve an equal amount for each urban zone that may be designated prior to the end of the calendar year beginning during the fiscal year for which such amounts were made available, pursuant to the annual limits on zones specified in section 1391 of the Internal Revenue Code of 1986.

(2) RURAL ZONES.—The amounts available each fiscal year under this title for rural development investment zones shall be allocated so as to reserve an equal amount for each rural development investment zone that may be designated prior to the end of the calendar year beginning during the fiscal year for which such amounts were made available, pursuant to the annual limits on zones specified in section 1391 of the Internal Revenue Code of 1986.

(d) SET-ASIDE.—Of the amounts appropriated pursuant to section 11101 for fiscal year 1993, not less than $5,000,000 shall be made available by the Interagency Council for the Access to Jobs/Reverse Community Demonstration Program authorized under section 11207.

(e) AVAILABILITY.—Notwithstanding any other provision of law, amounts appropriated pursuant to authorizations under this title shall remain available until the end of the fiscal year following the year for which such amounts are appropriated.

SEC. 11103. USE OF AMOUNTS.

(a) IN GENERAL.—The assistance allocated under section 11102 on behalf of each tax enterprise zone (as defined in section 1391 of the Internal Revenue Code of 1986) shall be available only for carrying out selected programs within the tax enterprise zone, in accordance with the application of the tax enterprise zone approved under section 11105 and subject to the provisions of this section.

(b) ALLOCATION AMONG PROGRAM CATEGORIES.—

(1) IN GENERAL.—Except as provided in paragraph (2), of the total amount of assistance provided under this subtitle on behalf of a tax enterprise zone for any fiscal year, the sum of the amounts used to carry out selected programs referred to under any one of paragraphs (1) through (5) of section 11104 may not exceed 20 percent of such total amount.

(2) WAIVER OF CAPS.—Pursuant to a request contained in an application under section 11105, the interagency council may provide that the requirement under paragraph (1) shall not apply with respect to amounts used to carry out selected programs under the application, except that of the total amount of assistance provided under this subtitle on behalf of such tax enterprise zone for any fiscal year, the sum of the amounts used to carry out selected programs referred to under any single paragraph under section 11104 may not exceed 30 percent of such total amount and may not be less than 5 percent of such total amount.

(c) ALLOCATION AMONG JOB TRAINING PROGRAMS.—In any fiscal year, of the sum of the amounts of assistance provided under this subtitle on behalf of a tax enterprise zone that are used to carry out any of the job training programs under section 11104(2), not less than 25 percent shall be used for assistance under the Young Adult Employment Demonstration program referred to in section 11104(2)(A) of this Act.

(d) PROVISION OF ASSISTANCE.—Upon the approval of an application under section 11105 for a tax enterprise zone, the appropriate Federal agency head for each selected program under the approved application shall make available on behalf of the enterprise zone (under such program and through the appropriate eligible entity), from amounts available on behalf of such zone pursuant to section 11102, the amount of assistance determined in accordance with the approved application.

(e) SUPPLEMENTATION REQUIREMENT.—Any amounts provided under this subtitle shall be in supplement to, and shall not supplant, any Federal, State, local, or private funds from other sources already used, or committed for use, for programs, projects, activities, and services assisted under this subtitle or comparable to such programs, projects, activities, and services. Federal agency heads shall not reduce the usual allocations with respect to any jurisdiction under any of the eligible programs described in section 11104 because such jurisdiction allocates funds under this title to any of such programs.

SEC. 11104. ELIGIBLE PROGRAMS.

Assistance may be provided under this subtitle for carrying out the following activities, projects, and programs:

(1) CRIME AND CRIMINAL JUSTICE.—

(A) Community policing projects and activities under the Edward Byrne Memorial State and Local Law Enforcement Assistance Program under part E of title I of the Omnibus Crime Control and Safe streets Act of 1968 (42 U.S.C. 3751 et seq.), but only if the Community Policing; Cop on the Beat Act of 1991 is not enacted by November 1, 1992. If the Community Policing; Cop on the Beat Act of 1991 is enacted prior to November 1, 1992, funds under this subtitle shall be available through the Community Policing; Cop on the Beat Act of 1991.

(B) Chapter B of subpart 2 of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968.

(C) Projects and activities under chapter 1 of subtitle B of title III of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11801 et seq.) but only if the Juvenile Justice and Delinquency Act of 1974 is not amended to provide for Juvenile Drug Trafficking Grants and Gang Prevention Grants prior to November 1, 1992. If the Juvenile Justice and Delinquency Act of 1974 is so amended prior to such date, funds under this subtitle shall be made available through the Juvenile Drug Trafficking Grants and Gang Prevention Grants.

(2) JOB TRAINING.—

(A) The Young Adult Employment Demonstration program under part K of title IV of the Job Training Partnership Act (as added by section 11211 of this Act).

(B) The Job Corps program under part B of title IV of the Job Training Partnership Act (29 U.S.C. 1691 et seq.).

(C) Title II of the Job Training Partnership Act (29 U.S.C. 1601 et seq.).

(D) The American Conservation and Youth Corps program under subtitle C of title I of the National and Community Service Act of 1990 (42 U.S.C. 12541 et seq.).

(E) The Access to Jobs/Reverse Commuting Demonstration Program established under section 11263.

(3) EDUCATION.—

(A) The programs under the Carl D. Perkins Vocational Educational and Applied Technology Education Act (20 U.S.C. 2301 et seq.).

(B) Projects under the Comprehensive Child Development Act (42 U.S.C. 9881 et seq.).

(C) Activities under the Child Care and Development Block Grant Act (42 U.S.C. 9858 et seq.).

(D) The programs under chapter 1 of title I of the Elementary and Secondary Education Act of 1965.

(E) The TRIO programs under part A of title IV of the Higher Education Act of 1965 (20 U.S.C. 1C70 et seq.).

(F) The programs under the Adult Education Act (20 U.S.C. 1201 et seq.).

(G) Literacy activities authorized under the National Literacy Act of 1991.

(4) HEALTH, NUTRITION AND FAMILY ASSISTANCE.—

(A) The special supplemental food program for women, infants, and children under section 17 of the Child Nutrition Act of 1966.

(B) The following programs under the Public Health Service Act (42 U.S.C. 201 et seq.):

(i) Capacity expansion of substance abuse treatment facilities.

(ii) Substance abuse treatment for individuals under criminal justice supervision.

(iii) Substance abuse treatment for pregnant and postpartum women.

(iv) Community prevention grants regarding substance abuse.

(v) Substance abuse treatment improvement grants.

(C) The programs under title XXVI of the Public Health Service Act (42 U.S.C. 300ff-21 et seq.)

(D) The family support programs under subtitle F of title VII of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 1148 et seq.).

(E) Projects for high risk youth under section 517 of the Public Health Service Act (42 U.S.C. 290bb-23).

(F) Emergency child protective service grants under section 107 of the Child Abuse Prevention and Treatment Act (42 U.S.C. 5106a).

(G) Family support centers and family resource and support programs under sections 933 and 934(d) of the Augustus F. Hawkins Human Services Reauthorization Act of 1990 (Public Law 101-501).

(5) HOUSING AND COMMUNITY DEVELOPMENT.—

(A) The community development block grant program under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.).

(B) The public and Indian housing modernization program under section 14 of the United States Housing Act of 1937 (42 U.S.C. 14371).

(C) The public and assisted housing drug elimination program under chapter 2 of subtitle C of title V of the Anti-Drug Abuse Act of 1988 (42 U.S.C. 11901 et seq.).

(D) Contracts for rental assistance attached to structures pursuant to paragraph (2) of section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f).

(E) The HOME investment partnership program under title II of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12721 et seq.).

(F) The self-help housing technical assistance grant program under section 523 of the Housing Act of 1949 (42 U.S.C. 1490c).

(G) Rural housing preservation grants under section 533 of the Housing Act of 1949 (42 U.S.C. 1490m).

(H) Rural rental housing loans under section 515 of the Housing Act of 1949 (42 U.S.C. 1485).

(I) Rural rental housing assistance payments under section 521(a)(2) of the Housing Act of 1949 (42 U.S.C. 1490a).

(J) Rural water and waste disposal grants pursuant to paragraphs (2) and (6) of section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) and water and waste facility loans and grants under section 306C of such Act.

(K) Private business enterprise grants under section 310B(c) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926).

(L) Loan guarantees under section 108 of the Housing and Community Development Act (as amended by section 11202 of this Act).

(M) Outreach and assistance for socially disadvantaged farmers and ranchers under section 2501 of the Food, Agriculture, and Trade Act of 1990.

(N) Public Housing Family Investment Centers under section 22 of the United States Housing Act of 1937 (42 U.S.C. 1437t).

SEC. 11105. APPLICATION FOR FUNDING.

(a) Establishment of Application Process.—The interagency council shall establish, by regulation, a procedure for a single comprehensive application to be submitted to the council for each tax enterprise zone designated under section 1391 of the Internal Revenue Code of 1986 for the purpose of making amounts available under this subtitle on behalf of such tax enterprise zones. The interagency council shall provide for the form and manner of such applications, and shall require the applications to be made by the State, unit of local government, or economic development agency chartered by the State that submitted the nomination for designation of the area designated as a tax enterprise zone and submitted promptly after such designation.

(b) Local Coordination.—

(1) Purposes.—The interagency council shall provide that each application under this section shall be developed in coordination and consultation with a local coordinating board under paragraph (2), which shall ensure that the programs, projects, activities, and services under section 11104(1) carried out with amounts provided under this subtitle are sufficiently coordinated with the other programs, projects, activities, and services assisted under this subtitle, and that all such programs, projects, activities, and services are coordinated with law enforcement efforts within the area nominated for designation as a tax enterprise zone.

(2) Membership.—The local coordinating board referred to in paragraph (1) shall include representatives of units of local government within such area, representatives of law enforcement agencies having jurisdiction within such area, residents of the area, community leaders, including local business persons, bankers, architects and planners, representatives of school boards, and representatives of nonprofit community-based organizations such as community development corporations and community action agencies.

(c) Contents.—Each application under the procedure established under this section shall contain the following information:

(1) A list of the programs referred to under section 11104 for which funding is requested and a general description of the types of activities to be carried out with such assistance.

(2) A statement documenting the percentage of the total amount of any funding received under this subtitle that will be used for each selected program.

(3) A statement documenting the entities that will receive any assistance provided for the selected programs on behalf of the tax enterprise zone and the entities' eligibility for such assistance.

(4) A statement documenting the membership of the local coordinating board organized pursuant to the requirement under subsection (b) and describing the coordination between the programs, projects, activities, and services assisted under this title and local law enforcement efforts in the tax enterprise zone.

(5) A request for any waiver of the requirement under section 11103(b)(1) and a statement documenting the rationale for such waiver.

(6) A statement documenting any other Federal, State, and local resources for the community in which the tax enterprise zone is located that will be dedicated to the types of programs, projects, activities, and services to be assisted under this subtitle.

(7) A statement documenting a strong commitment by community-based organizations in the tax enterprise zone for carrying out the selected programs and similar programs, projects, activities, and services.

(8) A statement documenting any private sector resources, including corporate contributions and individual commitments, to supplement assistance provided under this subtitle.

(9) A statement documenting the efforts made by the local jurisdiction containing the tax enterprise zone to encourage local financial institutions to satisfy their obligations under the Community Reinvestment Act of 1977 (12 U.S.C. 2901 et seq.) by making loans to enterprise zone businesses with emphasis on startup and other small business concerns (as defined in section 3(a) of the Small Business Act (15 U.S.C. 632(a)) and the commitments made by local financial institutions in response to these efforts.

(10) A statement demonstrating a balanced, comprehensive plan for the tax enterprise zone, that addresses removing violent offenders from the neighborhood streets, supports drug and crime prevention, improves health, education and other social services, and promotes neighborhood revitalization through strategies to create jobs and other economic opportunities which assist families to become self sufficient. Such strategies shall include improvements in infrastructure, public facilities, and affordable housing opportunities embodying good urban design and neighborhood planning principles that contribute to the creation of wholesome and attractive social, economic, and physical environments.

(11) A statement demonstrating that any amounts requested for selected programs are part of an integrated and comprehensive plan for the use of Federal, State, local, and private resources to accomplish specific goals and measurable outcomes for neighborhood revitalization.

(d) Review.—In reviewing each application submitted under this section, each member of the council shall review the portion of the application concerning any request or eligibility for assistance under any selected program under the jurisdiction of such member to determine whether providing assistance under this subtitle pursuant to such application will comply with the laws and regulations applicable to such program.

(e) Approval and Disapproval.—

(1) Timing.—The council shall review each application promptly upon receipt and shall approve or disapprove the application not later than the expiration of the 30-day period beginning upon such receipt.

(2) Standards for Approval.—The council shall approve an application if the council determines that the assistance requested for the selected programs under the application will assist in the economic development of the tax enterprise zone, that the eligible entities identified in the application are capable and qualified to receive and administer the assistance pursuant to the application, and that the information, documentation, or evidence required under subsection (c) is sufficient in the determination of the council.

(3) Disapproval and Resubmission.—If, pursuant to review under this section, the council determines that the application of a tax enterprise zone is incomplete or unsatisfactory, the council shall, before the expiration of the period referred to in paragraph (1)—

(A) notify the entity submitting the application of the reasons for the failure to approve the application;

(B) notify the entity submitting the application that the application may be resubmitted during the period referred to in subparagraph (C); and

(C) permit such entity to resubmit a corrected or amended application during the 30-day period beginning on notification under this paragraph.

(4) Review of Resubmitted Application.—The council shall review and approve or disapprove any application resubmitted under paragraph (3) before the expiration of the 15-day period beginning upon such resubmission. Any application resubmitted under paragraph (3) that is disapproved may be resubmitted before the expiration of the 15-day period beginning upon such disapproval and shall be subject to review under the provisions of this paragraph.

(f) Public Comment.—An applicant under this section, in conjunction with the relevant local coordinating board, shall ensure that there are adequate opportunities for public comment concerning the application submitted under this section, including—

(1) furnishing citizens with information concerning the amount of funds available pursuant to this subtitle and the range of activities that may be undertaken with such funds;

(2) holding one or more public hearings to obtain the views of citizens on community needs; and

(3) providing citizens with reasonable access to any application filed pursuant to this section and to records regarding the use of funds received pursuant to this subtitle.

SEC. 11106. INTERAGENCY COUNCIL.

(a) Establishment.—There is hereby established an interagency council to provide assistance under this subtitle.

(b) Membership.—The members of the council shall be the Secretary of Agriculture, the Secretary of Education, the Secretary of Health and Human Services, the Secretary of Housing and Urban Development, the Secretary of Labor, the Director of the Office of National Drug Control Policy, the Attorney General of the United States and the Chairperson of the Commission on National and Community Service.

(c) Duties.—The council shall—

(1) review and approve applications submitted under section 11105;

(2) direct the appropriate Federal agency head to provide assistance under the selected programs under approved applications using amounts available pursuant to this subtitle; and

(3) carry out any other responsibilities of the council as provided under this subtitle.

SEC. 11107. DEFINITIONS.

For purposes of this subtitle:

(1) The term "appropriate Federal agency head" means, with respect to each program referred to in section 11104, the head of the Federal agency or other Federal official responsible for administering such program.

(2) The term "approved application" means an application under section 11105 for assistance provided under this subtitle that is approved by the interagency council and which meets the public comment requirements under section 11105(f).

(3) The term "eligible entity" means, with respect to a selected program under an application under section 11105, an entity in the tax enterprise zone that is eligible to receive and administer amounts under the program and is designated under the application to receive and administer amounts provided for the program pursuant to this subtitle.

(4) The terms "interagency council" and "council" mean the interagency council established under section 11106.

(5) The term "selected program" means, with respect to a tax enterprise zone, any of the programs identified in an application under section

11105 for which funding under this subtitle is requested.

(6) The term "tax enterprise zone" means an urban tax enterprise zone, a rural development investment zone designated under section 1391 of the Internal Revenue Code of 1986.

SEC. 11108. STUDY AND REPORT.

(a) GENERAL STUDY.—The council shall conduct a study to identify—

(1) any alternative methods or systems for allocation of amounts made available pursuant to this subtitle among tax enterprise zones; and

(2) any problems experienced in the implementation and administration of the provisions of this subtitle, including identification of any provisions of law or regulations relating to the programs referred to in section 11104 for which a waiver would facilitate carrying out the purposes of this subtitle.

(b) REPORT.—Not later than the expiration of the 1-year period beginning on the date of the enactment of this Act, the council shall submit to the Congress a report regarding the study conducted under subsection (a), which shall include any recommendations for improving the program for assistance under this subtitle.

SEC. 11109. REGULATIONS.

The council shall issue any regulations necessary to carry out this subtitle not later than the expiration of the 60-day period beginning on the date of the enactment of this Act.

Subtitle C—Other Programs

CHAPTER 1—COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

SEC. 11201. WAIVER OF PUBLIC SERVICES CAP UNDER COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM.

Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)) is amended—

(1) by inserting "(A)" before "unless such unit"; and

(2) by inserting before the semicolon at the end the following: ", or (B) unless unit of general local government is located within or contains a tax enterprise zone (as designated under section 1391 of the Internal Revenue Code of 1986), in which case such unit of general local government may use, in addition to such 15 percent of the amount of any assistance provided to the unit (or in the case of nonentitled communities, 15 percent statewide) under this title, including program income, an additional 15 percent of such amount of assistance for activities under this paragraph within such enterprise zone".

SEC. 11202. EMERGENCY COMMUNITY DEVELOPMENT LOAN GUARANTEE AUTHORITY.

Section 108 of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new subsection:

"(q) In addition to amounts provided under subsection (a), the Secretary may enter into commitments during each of the fiscal years 1993 through 1997 to guarantee notes and obligations with an aggregate principal amount in each fiscal year of $2,000,000,000. The guarantee authority under this subsection shall be effective only to the extent approved or provided for in appropriations Acts, subject only to the absence of qualified applicants or proposed activities and the provisions of this Act, except that the provisions of subsection (k) shall not apply with respect to any guarantees and commitments to guarantee pursuant to authority provided under this subsection.".

CHAPTER 2—YOUNG ADULT EMPLOYMENT DEMONSTRATION PROGRAM

SEC. 11211. ESTABLISHMENT OF YOUNG ADULT EMPLOYMENT DEMONSTRATION PROGRAM.

(a) IN GENERAL.—Title IV of the Job Training Partnership Act (29 U.S.C. 1671 et seq.) is amended by adding at the end the following new part:

"PART K—YOUNG ADULT EMPLOYMENT DEMONSTRATION PROGRAM

"SEC. 499I. STATEMENT OF PURPOSE.

"It is the purpose of the Young Adult Employment Demonstration program under this part to—

"(1) ensure access to education and job training assistance for youth and young adults residing in tax enterprise zones;

"(2) make provisions for a comprehensive range of education, training, and employment services to disadvantaged youth and young adults in tax enterprise zones who are not currently served or are underserved by Federal education and job training programs;

"(3) enable communities located in or containing tax enterprise zones to establish and meet goals for improving the opportunities available to youth and young adults within the tax enterprise zone; and

"(4) facilitate the coordination of comprehensive services to serve such youth and young adults.

"SEC. 499J. PROGRAM AUTHORIZED.

"(a) ESTABLISHMENT OF PROGRAM.—The Secretary is authorized to establish a program of Young Adult Employment Demonstration grants to provide comprehensive services to youth and young adults living in tax enterprise zones.

"(b) ELIGIBILITY FOR GRANTS.—

"(1) RECIPIENTS.—The Secretary may only award grants under this part to—

"(A) the participating community for a target area that is located with in a service delivery area; or

"(B) grantees designated under sections 401 and 402, or a consortium of such grantees and the State, when the target area is located in an Indian reservation, Alaskan Native village, or migrant or seasonal farmworker community.

"(2) NUMBER OF GRANTS.—The Secretary may award not more than 25 grants during the first fiscal year the program is authorized.

"(c) RENEWABILITY OF GRANTS.—Grants awarded under this part shall be for a 1-year period and shall be renewable for each of the 2 succeeding fiscal years if the Secretary determines the grant recipient complied with conditions of the grant during the previous fiscal year.

"(d) FACTORS FOR AWARDS.—In awarding grants under this part, the Secretary shall consider the quality of the proposed project, the goals to be achieved, the likelihood of the project's successful implementation, the extent of community support and other Federal and non-Federal funds available for similar purposes, and the new State, local, or private resources.

"(e) SELECTION REQUIREMENTS.—In awarding grants under subsection (b), the Secretary shall not approve an application unless the application contains assurances that the applicant will use funds from a grant to provide job training, education, services, stipends (only to individuals age 17 to 30), and needs-related payments in accordance with sections 499K and 499L.

"SEC. 499K. APPLICATION.

"(a) ELIGIBILITY TO APPLY.—Participating communities shall be eligible to apply for a Young Adult Employment Demonstration grant under this part.

"(b) CONTENTS OF APPLICATION.—Each participating community desiring a grant under this part shall, through the individuals described in subsection (c), submit an application to the Secretary at such time in such manner and accompanied by such information as the Secretary may reasonably require. Each such application shall—

"(1) include a comprehensive plan for the Young Adult Employment Demonstration initiative designed to achieve identifiable goals for youth and young adults in the target area;

"(2) set forth measurable program goals and outcomes, which may include increasing the proportion of—

"(A) youth completing high school or its equivalent,

"(B) youth and young adults entering into postsecondary institutions, apprenticeships, or other advanced training programs;

"(C) youth and young adults placed in jobs; or

"(D) eligible youth and young adults participating in education, training, and employment services;

"(3) include supporting goals for the target area such as increasing security and safety, or reducing the number of drug-related arrests;

"(4) provide assurances that the conditions set forth in section 499L will be met;

"(5) demonstrate how the participating community will make use of the resources, expertise, and commitment of institutions of higher education, educational agencies, and vocational and technical schools and institutes;

"(6) attempt to ensure that all youth and young adults in the target areas have access to a coordinated and comprehensive range of education and training opportunities which serve the broadest range of interests and needs of youth and young adults and simultaneously mobilize the diverse range of education and training providers in the participating community;

"(7) include support services necessary for successful participation by eligible youth and young adults, including child care, transportation, and assistance in resolving personal or family crises such as those related to substance abuse, homelessness, migration, and family violence;

"(8) include a system of common intake, individualized assessment, and case management;

"(9) include an estimate of the expected number of youth and young adults in the target area to be served;

"(10) include a description of the resources available in the participating community from private, local government, State and Federal sources which will be used to achieve the goals of the program;

"(11) provide evidence of support for accomplishing the stated goals of the participating community from—

"(A) local elected officials,

"(B) the local school system,

"(C) postsecondary education and training institutions,

"(D) the applicable private industry council,

"(E) local community leaders,

"(F) business,

"(G) labor organizations, and

"(H) other appropriate organizations; and

"(12) provide assurances that the target area includes, to the maximum extent possible, the poorest neighborhoods in the community, such as those with substantial numbers of public housing facilities.

"(c) SUBMISSION OF APPLICATION.—The application for funds for a participating community may only be submitted to the Secretary by—

"(1) the mayor of a city or the chief elected official in a metropolitan statistical area, after the Governor of the State has had an opportunity to comment on the application;

"(2) the chief elected official of a nonmetropolitan county or the designated chief elected official of contiguous nonmetropolitan counties, after the Governor of the State has had an opportunity to comment on the application; or

"(3) the grantee designated under sections 401 or 402, or jointly by the grantee and the Governor or the State in which such grantee is located, in applications for Native American or migrant or seasonal worker communities.

"SEC. 499L. GRANT AGREEMENT.

"Each grant recipient under this part shall enter into an agreement with the Secretary. Each such agreement shall describe how—

"(1) the recipient will designate a target area that will be the focus of the demonstration project and which shall have a population of not more than 25,000 (or upon approval of the Secretary, a population of not more than 75,000), except that in the event that the population of an area from which a high school draws a substantial portion of its enrollment exceeds this limit, the target area may encompass such boundary;

"(2) funds provided under this part will be used to support education, training, and supportive activities selected from a set of youth program models designated by the Secretary or from alternative models described in the application and approved by the Secretary, such as—

"(A) nonresidential learning centers;

"(B) alternative schools;

"(C) combined summer remediation, work experience and work readiness training, and school-to-work/apprenticeship/post-secondary education program;

"(D) teen parent programs;

"(E) special programs administered by community colleges;

"(F) youth centers;

"(G) initiatives aimed at increased rural student enrollment in post-secondary institutions;

"(H) public-private collaborations to ensure private sector employment and continued learning opportunities for youth; and

"(I) initiatives that combine community and youth service opportunities with education and training activities;

"(3) funds received under this section will be used for services to youth and young adults age 14 to 30 at the time of enrollment;

"(4) the local educational agency and any other educational agency which operates secondary schools in the target area provide activities and resources to promote the educational goals specified in the application;

"(5) the participating community will provide activities and local resources to promote the goals specified in the application;

"(6) the participating community shall undertake outreach and recruitment efforts in the target area to encourage, to the maximum extent possible, participation by those disadvantaged youth and young adults who are currently unserved or underserved by education and training programs, including targeted measures specifically designed to enlist the participation of minority youth and young adults, particularly those under the jurisdiction of the child welfare, juvenile justice, and criminal justice systems;

"(7) the participating community will carry out special efforts to establish coordination with Federal, State, or local programs that serve the target population; and

"(8) funds provided under this part shall be used to pay stipends for participant support in paid work experience and classroom training programs when such programs are combined with other education and training activities.

"SEC. 499M. JOB GUARANTEES.

"(a) PROGRAM AUTHORITY.—The Secretary shall permit a number of the grant recipients under this part to enter into an agreement to provide, in accordance with this section, a job guarantee program to youth meeting prior school attendance and performance standards.

"(b) GUARANTEE AGREEMENTS.—A grant recipient providing a job guarantee program shall enter into an agreement with the Secretary. Such agreement shall—

"(1) provide that the program be available to youth aged 16 to 19 who undertake a commitment to continue and complete their high school education;

"(2) require the grant recipient to guarantee employment to each youth undertaking that commitment if such youth meets school attendance and performance standards for the previous school semester, as established by the Secretary in consultation with the Secretary of Education;

"(3) provide that the grant recipient will make additional services available to support the undertaking of any such youth, which shall include counseling, job development and placement, and support services (including child care and transportation);

"(4) specify the conditions under which funds provided under this part may be used to provide wage subsidies of up to 50 percent through employers, which shall—

"(A) encourage subsidies to employers who provide advanced or specialized training, or who provide a structured and integrated learning experience involving the school and employer; and

"(B) limit the duration of such subsidies to not more than 1 year;

"(5) require that the employment provided to any such youth shall not exceed 15 hours per week during the school year;

"(6) permit employment to continue through the summer following high school graduation, or until the youth reaches age 19, whichever is later; and

"(7) contain such other terms and conditions as the Secretary requires by regulation.

"(c) SELECTION OF GRANT RECIPIENTS.—In determining which grant recipients to permit to enter into an agreement under this section, the Secretary shall seek to target funds to high poverty areas.

"(d) YOUTH ELIGIBILITY.—All youth age 16 to 19, regardless of income, residing in the eligible high poverty area shall be eligible to participate in the job guarantee.

"(e) PRIVATE FUNDS.—Nothing in this section shall be construed to prohibit the grant recipient from raising funds to augment such grant if such funds are utilized under the conditions of this grant, except that such funds shall not be used for administration purposes.

"SEC. 499N. PAYMENTS AND MATCHING REQUIREMENT.

"(a) PAYMENTS.—In any fiscal year, the grant awarded under this part to a grant recipient shall be determined according to the amount to be provided for the program pursuant to designation of the program as a selected program under an application made on behalf of a tax enterprise zone under section 105 of the Revenue Act of 1992, and shall be of sufficient size and scope to carry out an effective program.

"(b) MATCHING REQUIREMENT.—A grant recipient shall provide non-Federal funds in an amount equal to 10 percent of the funds from such grant, an in-kind contribution equivalent to such percent (as determined by the Secretary), or a combination thereof.

"SEC. 499O. REPORTING.

"The Secretary is authorized to establish such reporting procedures as necessary to carry out the purposes of this part.

"SEC. 499P. FEDERAL RESPONSIBILITIES.

"(a) ASSISTANCE IN IMPLEMENTATION.—The Secretary shall provide technical assistance in the implementation of this project in participating communities.

"(b) INDEPENDENT EVALUATION.—The Secretary shall provide for a thorough, independent evaluation of the activities assisted under this part. Such evaluation shall include an assessment of—

"(1) the impact on youth and young adults residing in target areas, including their rates of school completion, enrollment in advanced education or training, and employment;

"(2) the extent to which participating communities fulfilled the goal of guaranteeing access to appropriate education, training, and supportive services to all eligible youth and young adults residing in target areas who seek to participate;

"(3) the effectiveness of guaranteed access to comprehensive services combined with outreach and recruitment efforts in enlisting the participation of previously unserved or underserved youth and young adults residing in target areas; and

"(4) the effectiveness of efforts to integrate service delivery in target areas, including systems of common intake, assessment, and case management.

"(c) REPORT.—The Secretary shall prepare a report describing the results of the independent evaluation conducted pursuant to subsection (b).

"(d) RESERVATION OF FUNDS.—The Secretary may reserve not more than 5 percent of the amounts to be used for assistance under this part in each fiscal year to carry out the provisions of this section.

"SEC. 499Q. DEFINITIONS.

"For the purposes of this part—

"(1) The term 'participating community' means—

"(A) a city, when referring to an urban area that is located within or contains a tax enterprise zone;

"(B) a nonmetropolitan county or contiguous nonmetropolitan counties, that is located within or contains a tax enterprise zone; and

"(C) a section 401 or 402 grantee, or consortia of the State and section 401 or 402 grantee, when referring to Indian reservation, Alaska Native village, and migrant or seasonal farmworker community, that are located within or contain a tax enterprise zone.

"(2) The term 'high poverty area' means (A) an urban census tract, a nonmetropolitan county, an Indian reservation, or an Alaskan Native village, with a poverty rate of 30 percent or more as determined by the Secretary based on the latest Bureau of the Census estimates, or (B) a migrant or seasonal farmworker community.

"(3) The term 'target area' means a high poverty area (or portion thereof) or set of contiguous high poverty areas, that is located within a tax enterprise zone and will be the focus of the program under this part in a participating community.

"(4) The term 'tax enterprise zone' has the meaning given the term in section 107 of the Revenue Act of 1992.".

(b) TECHNICAL AMENDMENTS.—The Job Training Reform Amendments of 1992 (Public Law 102–367) is amended—

(1) in section 406, by striking "adding at the end" and inserting "inserting after part G";

(2) in section 407, by striking "adding at the end" and inserting "inserting after part H"; and

(3) in section 408, by striking "adding at the end" and inserting "inserting after part I".

CHAPTER 3—NATIONAL COMMUNITY ECONOMIC PARTNERSHIP

SEC. 11221. SHORT TITLE; FINDINGS AND PURPOSE.

(a) SHORT TITLE.—This chapter may be cited as the "National Community Economic Partnership Act of 1992".

(b) FINDINGS.—Congress finds that

(1) the cities, towns, small communities and rural areas throughout the United States face critical social and economic problems arising in part from a lack of economic growth in community based economies;

(2) the crisis facing local economies has resulted in—

(A) a growing percentage of the workforce earning poverty level wages, even though they work full time and year round;

(B) the percentage of the labor force living below the poverty line increasing from 25.7 percent in 1979 to 31.5 percent in 1987;

(C) population losses, rising unemployment and a decline of the farm sector and of many other rural industries (such as timber, oil, gas, and mining) contribute to the decline of rural economies;

(D) with respect to rural areas, 31.9 percent of the workforce falling below the poverty line in 1979, with that percentage rising to 42.1 percent in 1987;

(E) with respect to urban areas, 23.4 percent of the workforce falling below the poverty line in 1979, with that percentage rising to 28.9 percent in 1987; and

(F) the average wage and salary income of the 90 percent of the population with the lowest incomes, between 1977 and 1988, falling 3.5 percent in contrast to the richest 1 percent of the population whose incomes more than doubled in that time period.

(3) the future well being of the United States and the well-being of its citizens depends on the establishment and maintenance of viable community development enterprises;

(4) meeting the goal of establishing and maintaining viable community development enterprises requires—

(A) increased public and private investment in business development activities, especially in the small business sector which generates the majority of new jobs as evidenced by the fact that between 1980 and 1986, enterprises with less than 100 employees accounted for more than 50 percent of the jobs created in the U.S.;

(B) increased investment and technical assistance to existing community based enterprises as evidenced by the fact that during the first half of the 1980's, more than 75 percent of the total net new jobs in the United States came from the expansion of existing businesses;

(C) a substantial expansion and greater continuity in the scope of Federal programs that support community based economic development strategies;

(D) the continuing efforts at Federal, State and local levels to coordinate the planning, implementation and evaluation of community economic development efforts; and

(E) the formation of a national commission, as an independent agency, to administer the various community development programs and serve as a focal point for Federal efforts to promote community based economic development; and

(5) community development corporations, due to their proven capacity and achievements in both the field of community based housing and economic development, are appropriate vehicles through which to advance a national community economic development program because—

(A) there are currently over 2000 community development corporations throughout the United States, operating projects that promote community based housing and economic development;

(B) community development corporations operate in every State and in virtually every major city in the United States, and account for many of the existing efforts undertaken to meet the needs of low income persons in both urban and rural communities;

(C) community development corporations have developed some 225,000 units of housing, with over 90 percent of these units for use by low income occupants;

(D) community development corporations have developed over 17,400,000 square feet of retail space, offices, industrial parks and other industrial developments in economically distressed communities;

(E) community development corporations have made loans to over 3000 enterprises, equity investments in 242 ventures and own and operate 427 businesses; and

(F) community development corporations commercial, industrial and business enterprise development activities have accounted for the creation and retention of nearly 90,000 jobs in the last five years.

(c) PURPOSE.—It is the purpose of this chapter to stimulate enterprise development in economically distressed urban and rural areas through public and private partnerships facilitated by community development corporations.

PART I—COMMUNITY ECONOMIC PARTNERSHIP INVESTMENT FUNDS

SEC. 11225. PURPOSE.

It is the purpose of this part to increase private investment in distressed local communities and to build and expand the capacity of local institutions to better serve the economic needs of local residents through the provision of financial and technical assistance to community development corporations.

SEC. 11226. PROVISION OF ASSISTANCE.

(a) AUTHORITY.—The Secretary of Health and Human Services (hereafter referred to in this chapter as the "Secretary") is authorized, in accordance with this part, to provide nonrefundable lines of credit to community development corporations for the establishment, maintenance or expansion of revolving loan funds to be utilized to finance projects intended to provide business and employment opportunities for low-income, unemployed, or underemployed individuals and to improve the quality of life in urban and rural areas.

(b) REVOLVING LOAN FUNDS.—

(1) COMPETITIVE ASSESSMENT OF APPLICATIONS.—In providing assistance under subsection (a), the Secretary shall establish and implement a competitive process for the solicitation and consideration of applications from eligible entities for lines of credit for the capitalization of revolving funds.

(2) ELIGIBLE ENTITIES.—To be eligible to receive a line of credit under this part an applicant shall—

(A) be a community development corporation;

(B) prepare and submit an application to the Secretary that shall include a strategic investment plan that identifies and describes the economic characteristics of the target area to be served, the types of business to be assisted and the impact of such assistance on low-income, underemployed, and unemployed individuals in the target area;

(C) demonstrate previous experience in the development of low-income housing or community or business development projects in a low-income community and provide a record of achievement with respect to such projects; and

(D) have secured one or more commitments from local sources for contributions (either in cash or in kind, letters of credit or letters of commitment) in an amount that is at least equal to the amount requested in the application submitted under subparagraph (B).

(3) EXCEPTION.—Notwithstanding the provisions of paragraph (2)(D), the Secretary may reduce local contributions to not less than 25 percent of the amount of the line of credit requested by the community development corporation if the Secretary determines such to be appropriate in accordance with section 11230.

SEC. 11227. APPROVAL OF APPLICATIONS.

(a) IN GENERAL.—In evaluating applications submitted under section 11226(b)(2)(B), the Secretary shall ensure that—

(1) the residents of the target area to be served (as identified under the strategic development plan) would have an income that is less than the median income for the area (as determined by the Secretary);

(2) the applicant community development corporation possesses the technical and managerial capability necessary to administer a revolving loan fund and has past experience in the development and management of housing, community and economic development programs;

(3) the applicant community development corporation has provided sufficient evidence of the existence of good working relationships with—

(A) local businesses and financial institutions, as well as with the community the corporation proposes to serve; and

(B) local and regional job training programs;

(4) the applicant community development corporation will target job opportunities that arise from revolving loan fund investments under this part so that 75 percent of the jobs retained or created under such investments are provided to—

(A) individuals with—

(i) incomes that do not exceed the Federal poverty line; or

(ii) incomes that do not exceed 80 percent of the median income of the area;

(B) individuals who are unemployed or underemployed;

(C) individuals who are participating or have participated in job training programs authorized under the Job Training Partnership Act (29 U.S.C. 1501 et seq.) or the Family Support Act of 1988 (Public Law 100–485);

(D) individuals whose jobs may be retained as a result of the provision of financing available under this part; or

(E) individuals who have historically been underrepresented in the local economy; and

(5) a representative cross section of applicants are approved including, large and small community development corporations, urban and rural community development corporations and community development corporations representing diverse populations.

(b) PRIORITY.—In determining which application to approve under this part the Secretary shall give priority to those applicants proposing to serve a target area—

(1) with a median income that does not exceed 80 percent of the median for the area (as determined by the Secretary); and

(2) with a high rate of unemployment, as determined by the Secretary or in which the population loss is at least 7 percent from April 1, 1980, to April 1, 1990, as reported by the Bureau of the Census.

SEC. 11228. AVAILABILITY OF LINES OF CREDIT AND USE.

(a) APPROVAL OF APPLICATION.—The Secretary shall provide a community development corporation that has an application approved under section 11227 with a line of credit in an amount determined appropriate by the Secretary, subject to the limitations contained in subsection (b).

(b) LIMITATIONS ON AVAILABILITY OF AMOUNTS.—

(1) MAXIMUM AMOUNT.—The Secretary shall not provide in excess of $2,000,000 in lines of credit under this part to a single applicant.

(2) PERIOD OF AVAILABILITY.—A line of credit provided under this part shall remain available over a period of time established by the Secretary, but in no event shall any such period of time be in excess of 3 years from the date on which such line of credit is made available.

(3) EXCEPTION.—Notwithstanding paragraphs (1) and (2), if a recipient of a line of credit under this part has made full and productive use of such line of credit, can demonstrate the need and demand for additional assistance, and can meet the requirements of section 11226(b)(2), the amount of such line of credit may be increased by not more that $1,500,000.

(c) AMOUNTS DRAWN FROM LINE OF CREDIT.—Amounts drawn from each line of credit under this part shall be used solely for the purposes described in section 11225 and shall only be drawn down as needed to provide loans, investments, or to defray administrative costs related to the establishment of a revolving loan fund.

(d) USE OF REVOLVING LOAN FUNDS.—Revolving loan funds established with lines of credit

provided under this part may be used to provide technical assistance to private business enterprises and to provide financial assistance in the form of loans, loan guarantees, interest reduction assistance, equity shares, and other such forms of assistance to business enterprises in target areas and who are in compliance with section 11227(a)(4).

SEC. 11229. LIMITATIONS ON USE OF FUNDS.

(a) Matching Requirement.—Not to exceed 50 percent of the total amount to be invested by an entity under this part may be derived from funds made available from a line of credit under this part.

(b) Technical Assistance and Administration.—Not to exceed 10 percent of the amounts available from a line of credit under this part shall be used for the provision of training or technical assistance and for the planning, development, and management of economic development projects. Community development corporations shall be encouraged by the Secretary to seek technical assistance from other community development corporations, with expertise in the planning, development and management of economic development projects. The Secretary shall assist in the identification and facilitation of such technical assistance.

(c) Local and Private Sector Contributions.—To receive funds available under a line of credit provided under this part, an entity, using procedures established by the Secretary, shall demonstrate to the community development corporation that such entity agrees to provide local and private sector contributions in accordance with section 11226(b)(2)(D), will participate with such community development corporation in a loan, guarantee or investment program for a designated business enterprise, and that the total financial commitment to be provided by such entity is at least equal to the amount to be drawn from the line of credit.

(d) Use of Proceeds From Investments.—Proceeds derived from investments made using funds made available under this part may be used only for the purposes described in section 11225 and shall be reinvested in the community in which they were generated.

SEC. 11230. PROGRAM PRIORITY FOR SPECIAL EMPHASIS PROGRAMS.

(a) In General.—The Secretary shall give priority in providing lines of credit under this part to community development corporations that propose to undertake economic development activities in distressed communities that target women, Native Americans, at risk youth, farmworkers, population-losing communities, very low-income communities, single mothers, veterans, refugees or that expand employee ownership of private enterprises and small businesses, and to programs providing loans of not more than $35,000 to very small business enterprises.

(b) Reservation of Funds.—Not less than 5 percent of the amounts made available under section 11247(a)(2)(A) may be reserved to carry out the activities described in subsection (a).

PART II—EMERGING COMMUNITY DEVELOPMENT CORPORATIONS

SEC. 11235. COMMUNITY DEVELOPMENT CORPORATION IMPROVEMENT GRANTS.

(a) Purpose.—It is the purpose of this section to provide assistance to community development corporations to upgrade the management and operating capacity of such corporations and to enhance the resources available to enable such corporations to increase their community economic development activities.

(b) Skill Enhancement Grants.—

(1) In general.—The Secretary shall award grants to community development corporations to enable such corporations to attain or enhance the business management and development skills of the individuals that manage such corporations to enable such corporations to seek the public and private resources necessary to develop community economic development projects.

(2) Use of funds.—A recipient of a grant under paragraph (1) may use amounts received under such grant—

(A) to acquire training and technical assistance from agencies or institutions that have extensive experience in the development and management of low-income community economic development projects; or

(B) to acquire such assistance from other highly successful community development corporations.

(c) Operating Grants.—

(1) In general.—The Secretary shall award grants to community development corporations to enable such corporations to support an administrative capacity for the planning, development, and management of low-income community economic development projects.

(2) Use of funds.—A recipient of a grant under paragraph (1) may use amounts received under such grant—

(A) to conduct evaluations of the feasibility of potential low-income community economic development projects that address identified needs in the low-income community and that conform to those projects and activities permitted under part I;

(B) to develop a business plan related to such a potential project; or

(C) to mobilize resources to be contributed to a planned low-income community economic development project or strategy.

(d) Applications.—A community development corporation that desires to receive a grant under this section shall prepare and submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(e) Amount Available for a Community Development Corporation.—Amounts provided under this section to a community development corporation shall not exceed $75,000 per year. Such corporations may apply for grants under this section for up to 3 consecutive years, except that such corporations shall be required to submit a new application for each grant for which such corporation desires to receive and compete on the basis of such applications in the selection process.

SEC. 11236. EMERGING COMMUNITY DEVELOPMENT CORPORATION REVOLVING LOAN FUNDS.

(a) Authority.—The Secretary is authorized to award grants to emerging community development corporations to enable such corporations to establish, maintain or expand revolving loan funds, to make or guarantee loans, or to make capital investments in new or expanding local businesses.

(b) Eligibility.—To be eligible to receive a grant under subsection (a), an entity shall—

(1) be a community development corporation;

(2) have completed not less than one nor more than two community economic development projects or related projects that improve or provide job and employment opportunities to low-income individuals;

(3) prepare and submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a strategic investment plan that identifies and describes the economic characteristics of the target area to be served, the types of business to be assisted using amounts received under the grant and the impact of such assistance on low-income individuals; and

(4) have secured one or more commitments from local sources for contributions (either in cash or in kind, letters of credit, or letters of commitment) in an amount that is equal to at least 10 percent of the amounts requested in the application submitted under paragraph (2).

(c) Use of the Revolving Loan Fund.—

(1) In general.—A revolving loan fund established or maintained with amounts received under this section may be utilized to provide financial and technical assistance, loans, loan guarantees or investments to private business enterprises to—

(A) finance projects intended to provide business and employment opportunities for low-income individuals and to improve the quality of life in urban and rural areas; and

(B) build and expand the capacity of emerging community development corporations and serve the economic needs of local residents.

(2) Technical assistance.—The Secretary shall encourage emerging community development corporations that receive grants under this section to seek technical assistance from established community development corporations, with expertise in the planning, development and management of economic development projects and shall facilitate the receipt of such assistance.

(3) Limitation.—Not to exceed 10 percent of the amounts received under this section by a grantee shall be used for training, technical assistance and administrative purposes.

(d) Use of Proceeds From Investments.—Proceeds derived from investments made with amounts provided under this section may be utilized only for the purposes described in this subchapter and shall be reinvested in the community in which they were generated.

(e) Amounts Available.—Amounts provided under this section to a community development corporation shall not exceed $500,000 per year.

PART III—RESEARCH AND DEMONSTRATION

SEC. 11241. RESEARCH AND DEMONSTRATION.

(a) Grants.—The Secretary shall award grants to organizations to enable such organizations to undertake programs involving research, testing, studies or demonstrations related to community economic development.

(b) Eligible Organizations.—To be eligible to receive a grant under this section, an entity shall—

(1) be a community development current corporation, university, fiscal intermediary or a nonprofit organization involved in community-based economic development activities; and

(2) prepare and submit to the Secretary an application at such time, in such manner and containing such information as the Secretary determines appropriate.

(c) Use of Funds.—Amounts received under a grant awarded under this section shall be made available for studies, reports, tests or demonstration projects that—

(1) identify current problems facing both urban and rural low-income communities or specific population groups within low-income communities and population-losing communities;

(2) identify solutions to the problems facing both urban and rural low-income communities or specific population groups within low-income communities;

(3) examine or critique current strategies being implemented to address economic issues facing low-income communities; and

(4) relate to any other matters determined appropriate by the Secretary.

(d) Maximum Amount of Grant.—A grant awarded under this section shall not exceed $50,000.

PART IV—MISCELLANEOUS PROVISIONS

SEC. 11245. JOINT PROGRAMS.

The Secretary shall develop and promulgate, in consultation with the heads of other Federal agencies, regulations designed to permit, where appropriate, the operation of joint programs under which activities supported with assistance provided under this chapter are coordi-

nated with community development activities supported with assistance provided under other programs administered by the Secretary and those administered by the heads of such agencies.

SEC. 11246. REPORTS.

(a) COMMUNITY DEVELOPMENT CORPORATIONS.—Not later than 2 years after the date on which assistance is provided to a community development corporation under part I or II, every 2 years thereafter, the community development corporation shall prepare and submit to the Secretary a report under this section. Such report shall include—

(1) the amount of funds received by the community development corporation;

(2) a summary of the uses of such funds;

(3) the number of jobs created or retained by the corporation;

(4) the number and type of new businesses started, including micro-businesses;

(5) the number of jobs created or retained for individuals identified in section 11227(a)(4);

(6) in the case of funds made available under part I, the source and amount of matching funds;

(7) in the case of revolving loan funds made available under part II, the amount of funds leveraged; and

(8) related human services and facilities provided as result of assistance provided under this chapter.

(b) SECRETARY.—Not later than 3 years after the date on which assistance is first provided under part I or II, and annually thereafter, the Secretary shall prepare and submit to the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives a report containing a summary of the reports received by the Secretary under subsection (a) for the period in which the report of the Secretary is submitted.

SEC. 11247. DEFINITIONS.

As used in this chapter:

(1) COMMUNITY DEVELOPMENT CORPORATION.—The term "community development corporation" means a private, nonprofit corporation whose board of directors is comprised of business, civic and community leaders, and whose principal purpose includes the provision of low-income housing or community economic development projects that primarily benefit low-income individuals and communities.

(2) LOCAL AND PRIVATE SECTOR CONTRIBUTION.—The term "local and private sector contribution" means the funds available at the local level (by private financial institutions, State and local governments) or by any private philanthropic organization and private, nonprofit organizations that will be committed and used solely for the purpose of financing private business enterprises in conjunction with amounts provided under this chapter.

(3) POPULATION-LOSING COMMUNITY.—The term "population-losing community" means any county in which the net population loss is at least 7 percent from April 1, 1980 to April 1, 1990, as reported by the Bureau of the Census.

(4) PRIVATE BUSINESS ENTERPRISE.—The term "private business enterprise" means any business enterprise that is engaged in the manufacture of a product, provision of a service, construction or development of a facility, or that is involved in some other commercial, manufacturing or industrial activity, and that agrees to target job opportunities stemming from investments authorized under this chapter to certain individuals.

(5) TARGET AREA.—The term "target area" means any area defined in an application for assistance under this chapter that has a population whose income does not exceed the median for the area within which the target area is located.

(6) VERY LOW-INCOME COMMUNITY.—The term "very low-income community" means a community in which the median income of the residents of such community does not exceed 50 percent of the median income of the area.

SEC. 11248. AUTHORIZATION OF APPROPRIATIONS.

(a) COMMUNITY ECONOMIC PARTNERSHIP INVESTMENT FUNDS AND EMERGING COMMUNITY DEVELOPMENT CORPORATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out parts I and II, $40,000,000 for fiscal year 1993, $100,000,000 for fiscal year 1994, and $125,000,000 for fiscal year 1995.

(2) EARMARKS.—Of the aggregate amount appropriated under paragraph (1) for each fiscal year—

(A) 60 percent shall be available to carry out part I; and

(B) 40 percent shall be available to carry out part II.

(3) AMOUNTS.—Amounts appropriated under paragraph (1) shall remain available for expenditure without fiscal year limitation.

(b) RESEARCH AND DEMONSTRATION.—There are authorized to be appropriated to carry out part III such sums as may be necessary for each of the fiscal years 1993 through 1995.

SEC. 11249. PROHIBITION.

None of the funds authorized under this chapter shall be used to finance the construction of housing.

SEC. 11250. EFFECTIVE DATE.

This chapter shall take effect as if included in the Omnibus Budget Reconciliation Act of 1990.

CHAPTER 4—MISCELLANEOUS PROGRAMS

SEC. 11261. ESTABLISHMENT OF ENTERPRISE CAPITAL ACCESS FUND.

(a) SHORT TITLE.—This section may be cited as the "Enterprise Capital Access Fund Demonstration Program".

(b) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Nation's urban and rural communities face critical social and economic problems stemming from lack of economic opportunity among low-income persons and persons living in poverty;

(B) the numbers of low-income persons and persons living in poverty has grown significantly over the last decade;

(C) lack of access to credit and other forms of capital is a significant factor in the disinvestment and decline of low-income and minority neighborhoods;

(D) changes in the banking system and financial markets have made access to credit in low-income and distressed communities increasingly more difficult to obtain as decisionmaking on credit has been removed from local communities;

(E) the restoration and maintenance of viable local economies will require improved access to credit, as well as public and private investment in economic and community development activities, business development, and low-income housing;

(F) indigenous community-based financial institutions can play a significant role in identifying and responding to community needs;

(G) the Federal Government needs to develop new models and institutions for facilitating local revitalization efforts and improving access to credit; and

(H) nonprofit financial intermediaries have proven effective in meeting the credit and other capital needs in low-income and distressed communities.

(2) PURPOSE.—The purpose of this section is to establish a demonstration program to promote reinvestment in low-income and chronically distressed neighborhoods through community-based nonprofit financial institutions that work cooperatively with residents and State and local government.

(c) DEFINITIONS.—For the purpose of this section, the following definitions shall apply:

(1) ELIGIBLE INTERMEDIARY.—The term "eligible intermediary" means a nonprofit organization that—

(A) is organized under Federal, State or local laws;

(B) has no part of its net earnings inuring to the benefit of any member, founder, contributor, or other person;

(C) complies with standards of financial accountability acceptable to the Secretary;

(D) controls, operates or is affiliated with an entity that provides credit or investment capital in a targeted geographic area;

(E) has as its primary mission the revitalization of low-income and chronically distressed neighborhoods or communities; and

(F) maintains, through significant representation on its governing board and otherwise, accountability to community residents.

(2) LOW-INCOME PERSONS.—The term "low-income persons" means persons whose incomes do not exceed 80 percent of the median for the area.

(3) SECRETARY.—The term "Secretary" means the Secretary of Housing and Urban Development.

(4) TARGETED GEOGRAPHIC AREA.—The term "targeted geographic area" means a geographically contiguous area of chronic economic distress as measured by unemployment, growth lag, the extent of poverty, per capita income, extent of blight and disinvestment, fiscal distress, or other indicators deemed appropriate by the Secretary, that has been identified by an eligible intermediary as an area to be served by it.

(d) AUTHORITY.—The Secretary shall carry out, in accordance with this section, a demonstration program to provide assistance in the form of capital and technical assistance grants to nonprofit financial intermediaries for the establishment, maintenance, and expansion of such institutions, to be utilized to finance business and employment opportunities, housing opportunities affordable to low-income persons, and neighborhood revitalization projects.

(e) APPLICATIONS.—The Secretary shall establish and implement a competitive process for the solicitation and consideration of applications from eligible intermediaries.

(f) SELECTION CRITERIA.—

(1) IN GENERAL.—Not later than 12 months after the date of enactment of this section, the Secretary shall select eligible intermediaries to participate in the demonstration program, based on—

(A) the capacity of the eligible intermediary to carry out the purposes of this title;

(B) the financial capacity of the eligible intermediary based on evaluations provided by a certified public accountant and criteria to be determined by the Secretary;

(C) the extent of need in the targeted geographic area identified by the eligible intermediary as the area it serves;

(D) the extent to which the lending services of the eligible intermediary are coordinated with other revitalization activities in the targeted geographic area;

(E) the previous experience and achievements of the eligible intermediary in the financing or development of low-income housing, in development of businesses and other employment opportunities, or in neighborhood revitalization activities;

(F) the extent to which the eligible intermediary has firm commitments from local sources to provide matching funds in an amount that is at least equal to the amount requested in the application;

(G) an appropriate geographic distribution of intermediaries among regions in the United States;

(H) the extent to which the eligible intermediary demonstrates a commitment to serve minority individuals and communities; and

(K) other criteria deemed appropriate by the Secretary.

(g) Capital Grants.—

(1) In general.—The Secretary shall make capital grants to eligible intermediaries.

(2) Use of grants.—Capital grants may be used by eligible intermediaries to increase the capital available for loans, loan guarantees, interest rate reduction activities, and other activities deemed appropriate by the Secretary that promote housing affordable to low-income persons and economic and community development activities that benefit low-income persons.

(3) Amount.—The maximum amount of Federal assistance an eligible intermediary can receive per fiscal year under this section is $1,000,000.

(h) Technical Assistance.—The Secretary is authorized to make grants to eligible intermediaries to provide technical assistance to borrowers.

(i) Training Program.—The Secretary shall establish, or contract to establish, an ongoing training program to assist eligible intermediaries and their staffs in developing the capacity to carry out the purposes of this title.

(j) Report.—The Secretary shall annually prepare and submit to Congress a report containing a summary of the activities carried out under this section and the findings and conclusions drawn from such activities.

(k) Duties of Eligible Intermediaries.—An eligible intermediary receiving assistance pursuant to this section shall—

(1) match any assistance awarded by the Secretary dollar-for-dollar with non-Federal sources of funds;

(2) ensure that not less than 70 percent of loans to individual borrowers are to persons whose incomes are at or below 80 percent of the area median income and are residents of the targeted geographic area served; and

(3) ensure that all loans made to nonprofit or for-profit organizations provide a direct benefit to persons who are residents of the targeted geographic area served.

(l) Office of Community Banking.—There is established within the Department of Housing and Urban Development an Office of Community Banking which is responsible for the implementation of this section.

(m) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section, $100,000,000 for fiscal year 1993 and $200,000,000 for fiscal year 1994. Any amounts appropriated pursuant to this paragraph shall remain available until expended.

SEC. 11262. HOPE FOR YOUTH: YOUTHBUILD.

(a) In General.—Title IV of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 1437aaa note et seq.) is amended by adding at the end the following new subtitle:

"Subtitle D—Establishment of Youthbuild

"SEC. 451. STATEMENT OF PURPOSE.

"It is the purpose of this subtitle—

"(1) to expand the supply of permanent affordable housing for homeless individuals and members of low- and very low-income families by harnessing the energies and talents of economically disadvantaged young adults;

"(2) to provide economically disadvantaged young adults with opportunities for meaningful work and service to their communities in helping to meet the housing needs of homeless individuals and members of low- and very low-income families;

"(3) to enable economically disadvantaged young adults to obtain the education and employment skills necessary to achieve economic self-sufficiency; and

"(4) to foster the development of leadership skills and commitment to community development among young adults in low-income communities.

"SEC. 452. PROGRAM AUTHORITY.

"(a) In General.—The Secretary is authorized to make—

"(1) planning grants to enable applicants to develop Youthbuild programs; and

"(2) implementation grants to enable applicants to carry out Youthbuild programs.

"(b) Authorization of Appropriations.—There are authorized to be appropriated for grants under this subtitle, $40,000,000 for fiscal year 1993 and $80,000,000 for fiscal year 1994. Any amount appropriated pursuant to this subsection shall remain available until expended.

"SEC. 453. PLANNING GRANTS.

"(a) Grants.—The Secretary is authorized to make planning grants to applicants for the purpose of developing Youthbuild programs under this subtitle. The amount of a planning grant under this section may not exceed $150,000, except that the Secretary may for good cause approve a grant in a higher amount.

"(b) Eligible Activities.—Planning grants may be used for activities to develop Youthbuild programs including—

"(1) studies of the feasibility of a Youthbuild program;

"(2) establishment of consortia between youth training and education programs and housing owners or developers, including any organizations specified in section 457(2), which will participate in the Youthbuild program;

"(3) identification and selection of a site for the Youthbuild program;

"(4) preliminary architectural and engineering work for the Youthbuild program;

"(5) identification and training of staff for the Youthbuild program;

"(6) planning for education, job training, and other services that will be provided as part of the Youthbuild program;

"(7) other planning, training, or technical assistance necessary in advance of commencing the Youthbuild program; and

"(8) preparation of an application for an implementation grant under this subtitle.

"(c) Application.—

"(1) Form and procedures.—An application for a planning grant shall be submitted by an applicant in such form and in accordance with such procedures as the Secretary shall establish.

"(2) Minimum requirements.—The Secretary shall require that an application contain at a minimum—

"(A) a request for a planning grant, specifying the activities proposed to be carried out, the schedule for completing the activities, the personnel necessary to complete the activities, and the amount of the grant requested;

"(B) a description of the applicant and a statement of its qualifications, including a description of the applicant's past experience with housing rehabilitation or construction and with youth and youth education and employment training programs, and its relationship with local unions and apprenticeship programs, and other community groups;

"(C) identification and description of potential sites for the program and the construction or rehabilitation activities that would be undertaken at such sites; potential methods for identifying and recruiting youth participants; potential educational and job training activities, work opportunities and other services for participants; and potential coordination with other Federal, State, and local housing and youth education and employment training activities including activities conducted by Indian tribes;

"(D) a certification by the public official responsible for submitting the comprehensive housing affordability strategy under section 105 of the Cranston-Gonzalez National Affordable Housing Act that the proposed activities are consistent with the approved housing strategy of the State or unit of general local government within which the project is located; and

"(E) a certification that the applicant will comply with the requirements of the Fair Housing Act, title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, and will affirmatively further fair housing.

"(d) Selection Criteria.—The Secretary shall, by regulation, establish selection criteria for a national competition for assistance under this section, which shall include—

"(1) the qualifications or potential capabilities of the applicant;

"(2) the potential of the applicant for developing a successful Youthbuild program;

"(3) the need for the prospective program, as determined by the degree of economic distress—

"(A) of the community from which participants would be recruited (such as poverty, youth unemployment, and number of individuals who have dropped out of high school); and

"(B) of the community in which the housing proposed to be constructed or rehabilitated would be located (such as incidence of homelessness, shortage of affordable housing, and poverty); and

"(4) such other factors that the Secretary shall require that (in the determination of the Secretary) are appropriate for purposes of carrying out the program established by this subtitle in an effective and efficient manner.

"SEC. 454. IMPLEMENTATION GRANTS.

"(a) Grants.—The Secretary is authorized to make implementation grants to applicants for the purpose of carrying out Youthbuild programs approved under this subtitle.

"(b) Eligible Activities.—Implementation grants may be used to carry out Youthbuild programs, including—

"(1) architectural and engineering work;

"(2) acquisition, rehabilitation, acquisition and rehabilitation, or construction of housing and related facilities to be used for the purposes of providing homeownership under subtitle B and subtitle C of this title; residential housing for homeless individuals, and low- and very low-income families; or transitional housing for persons who are homeless, have disabilities, are ill, are deinstitutionalized, or have other special needs;

"(3) administrative costs of the applicant, which may not exceed 15 percent of the amount of assistance provided under this section, or such higher percentage as the Secretary determines is necessary to support capacity development by a private nonprofit organization;

"(4) education and job training services and activities including—

"(A) work experience and skills training, coordinated, to the maximum extent feasible, with preapprenticeship and apprenticeship programs, in the construction and rehabilitation activities described in subsection (b)(2);

"(B) services and activities designed to meet the educational needs of participants, including—

"(i) basic skills instruction and remedial education;

"(ii) bilingual education for individuals with limited-English proficiency;

"(iii) secondary education services and activities designed to lead to the attainment of a high school diploma or its equivalent; and

"(iv) counseling and assistance in attaining post-secondary education and required financial aid;

"(C) counseling services and related activities;

"(D) activities designed to develop employment and leadership skills, including support for youth councils; and

"(E) support services and need-based stipends necessary to enable individuals to participate in

the program and, for a period not to exceed 12 months after completion of training, to assist participants through support services in retaining employment;

"(5) wage stipends and benefits provided to participants;

"(6) funding of operating expenses and replacement reserves of the property covered by the Youthbuild program;

"(7) legal fees; and

"(8) defraying costs for the ongoing training and technical assistance needs of the recipient that are related to developing and carrying out the Youthbuild program.

"(c) APPLICATION.—

"(1) FORM AND PROCEDURE.—An application for an implementation grant shall be submitted by an applicant in such form and in accordance with such procedures as the Secretary shall establish.

"(2) MINIMUM REQUIREMENTS.—The Secretary shall require that an application contain at a minimum—

"(A) a request for an implementation grant, specifying the amount of the grant requested and its proposed uses;

"(B) a description of the applicant and a statement of its qualifications, including a description of the applicant's past experience with housing rehabilitation or construction and with youth and youth education and employment training programs, and its relationship with local unions and apprenticeship programs, and other community groups;

"(C) a description of the proposed site for the program;

"(D) a description of the educational and job training activities, work opportunities, and other services that will be provided to participants;

"(E) a description of the proposed construction or rehabilitation activities to be undertaken and the anticipated schedule for carrying out such activities;

"(F) a description of the manner in which eligible youths will be recruited and selected, including a description of arrangements which will be made with community-based organizations, State and local educational agencies, including agencies of Indian tribes, public assistance agencies, the courts of jurisdiction for status and youth offenders, shelters for homeless individuals and other agencies that serve homeless youth, foster care agencies, and other appropriate public and private agencies;

"(G) a description of the special outreach efforts that will be undertaken to recruit eligible young women (including young women with dependent children);

"(H) a description of how the proposed program will be coordinated with other Federal, State, and local activities and activities conducted by Indian tribes, including vocational, adult and bilingual education programs, job training provided with funds available under the Job Training Partnership Act and the Family Support Act of 1988, and housing and community development programs, including programs that receive assistance under section 106 of the Housing and Community Development Act of 1974;

"(I) assurances that there will be a sufficient number of adequately trained supervisory personnel in the program who have attained the level of journeyman or its equivalent;

"(J) a description of the applicant's relationship with local building trade unions regarding their involvement in training, and the relationship of the Youthbuild program with established apprenticeship programs;

"(K) a description of activities that will be undertaken to develop the leadership skills of participants;

"(L) a detailed budget and a description of the system of fiscal controls and auditing and accountability procedures that will be used to ensure fiscal soundness;

"(M) a description of the commitments for any additional resources to be made available to the program from the applicant, from recipients of other Federal, State or local housing and community development assistance who will sponsor any part of the construction, rehabilitation, operation and maintenance, or other housing and community development activities undertaken as part of the program, or from other Federal, State or local activities and activities conducted by Indian tribes, including, but not limited to, vocational, adult and bilingual education programs, and job training provided with funds available under the Job Training Partnership Act and the Family Support Act of 1988;

"(N) identification and description of the financing proposed for any—

"(i) rehabilitation;

"(ii) acquisition of the property; or

"(iii) construction;

"(O) identification and description of the entity that will operate and manage the property;

"(P) a certification by the public official responsible for submitting the comprehensive housing affordability strategy under section 105 of the Cranston-Gonzalez National Affordable Housing Act that the proposed activities are consistent with the approved housing strategy of the State or unit of general local government within which the project is located; and

"(Q) a certification that the applicant will comply with the requirements of the Fair Housing Act, title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, and will affirmatively further fair housing.

"(d) SELECTION CRITERIA.—The Secretary shall establish selection criteria for assistance under this section, which shall include—

"(1) the qualifications or potential capabilities of the applicant;

"(2) the feasibility of the Youthbuild program;

"(3) the potential for developing a successful Youthbuild program;

"(4) the need for the prospective project, as determined by the degree of economic distress of the community from which participants would be recruited (such as poverty, youth unemployment, number of individuals who have dropped out of high school) and of the community in which the housing proposed to be constructed or rehabilitated would be located (such as incidence of homelessness, shortage of affordable housing, poverty);

"(5) the apparent commitment of the applicant to leadership development, education, and training of participants;

"(6) the inclusion of previously homeless tenants in the housing provided;

"(7) the commitment of other resources to the program by the applicant and by recipients of other Federal, State or local housing and community development assistance who will sponsor any part of the construction, rehabilitation, operation and maintenance, or other housing and community development activities undertaken as part of the program, or by other Federal, State or local activities and activities conducted by Indian tribes, including, but not limited to, vocational, adult and bilingual education programs, and job training provided with funds available under the Job Training Partnership Act and the Family Support Act of 1988; and

"(8) such other factors as the Secretary determines to be appropriate for purposes of carrying out the program established by this subtitle in an effective and efficient manner.

"(e) PRIORITY FOR APPLICANTS WHO OBTAIN HOUSING MONEY FROM OTHER SOURCES.—The Secretary shall give priority in the award of grants under this section to applicants to the extent that they propose to finance activities described in paragraphs (1), (2), and (6) of subsection (b) from funds provided from Federal, State, local, or private sources other than assistance under this subtitle.

"(f) APPROVAL.—The Secretary shall notify each applicant, not later than 4 months after the date of the submission of the application, whether the application is approved or not approved.

"(g) COMBINED PLANNING AND IMPLEMENTATION GRANT APPLICATION PROCEDURE.—The Secretary shall develop a procedure whereby an applicant may apply at the same time and in a single application for a planning grant and an implementation grant, with receipt of the implementation grant conditioned on successful completion of the activities funded by the planning grant.

"SEC. 455. YOUTHBUILD PROGRAM REQUIREMENTS.

"(a) RESIDENTIAL RENTAL HOUSING.—Each residential rental housing project receiving assistance under this subtitle shall meet the following requirements:

"(1) OCCUPANCY BY LOW- AND VERY LOW-INCOME FAMILIES.—In the project—

"(A) at least 90 percent of the units shall be occupied, or available for occupancy, by individuals and families with incomes less than 60 percent of the area median income, adjusted for family size; and

"(B) the remaining units shall be occupied, or available for occupancy, by low-income families;

"(2) TENANT PROTECTIONS.—

"(A) LEASE.—The lease between a tenant and an owner of residential rental housing assisted under this subtitle shall be for not less than 1 year, unless by mutual agreement between the tenant and the owner, and shall contain such terms and conditions as the Secretary shall determine to be appropriate.

"(B) TERMINATION OF TENANCY.—An owner shall not terminate the tenancy or refuse to renew the lease of a tenant of residential rental housing assisted under this title except for serious or repeated violation of the terms and conditions of the lease, for violation of applicable Federal, State, or local law, or for other good cause. Any termination or refusal to renew must be preceded by not less than 30 days by the owner's service upon the tenant of a written notice specifying the grounds for the action.

"(C) MAINTENANCE AND REPLACEMENT.—The owner of residential rental housing assisted under this subtitle shall maintain the premises in compliance with all applicable housing quality standards and local code requirements.

"(D) TENANT SELECTION.—The owner of residential rental housing assisted under this subtitle shall adopt written tenant selection policies and criteria that—

"(i) are consistent with the purpose of providing housing for very low-income and low-income families and individuals;

"(ii) are reasonably related to program eligibility and the applicant's ability to perform the obligations of the lease;

"(iii) give reasonable consideration to the housing needs of families that would have a preference under section 6(c)(4)(A) of the United States Housing Act of 1937 (42 U.S.C. 1437d(c)(4)(A)); and

"(iv) provide for—

"(I) the selection of tenants from a waiting list in the chronological order of their application, to the extent practicable; and

"(II) the prompt notification in writing of any rejected applicant of the grounds for any rejection.

"(3) LIMITATION ON RENTAL PAYMENTS.—Tenants in each project shall not be required to pay rent in excess of that in accordance with section 3(a) of the Housing Act of 1937.

"(4) TENANT PARTICIPATION PLAN.—For each project owned by a nonprofit organization, the

organization shall provide a plan for and follow a program of tenant participation in management decisions.

"(5) PROHIBITION AGAINST DISCRIMINATION.—A unit in a project assisted under this subtitle may not be refused for leasing to a family holding tenant-based assistance under section 8 of the United States Housing Act of 1937 because of the status of the prospective tenant as a holder of such assistance.

"(b) TRANSITIONAL HOUSING.—Each transitional housing project receiving assistance under this subtitle shall adhere to the requirements regarding service delivery, housing standards, and rent limitations imposed on comparable housing receiving assistance under title IV of the Stewart B. McKinney Homeless Assistance Act.

"(c) LIMITATIONS ON PROFITS FOR RENTAL AND TRANSITIONAL HOUSING.—

"(1) MONTHLY RENTAL LIMITATION.—Aggregate monthly rental for each eligible project may not exceed the operating costs of the project (including debt service, management, adequate reserves, and other operating costs) plus a 6 percent return on the equity investment, if any, of the project owner.

"(2) PROFIT LIMITATIONS ON PARTNERS.—A nonprofit organization that receives assistance under this subtitle for a project shall agree to use any profit received from the operation, sale, or other disposition of the project for the purpose of providing housing for low- and moderate-income families. Profit-motivated partners in a nonprofit partnership may receive—

"(A) not more than a 6 percent return on their equity investment from project operations; and

"(B) upon disposition of the project, not more than an amount equal to their initial equity investment plus a return on that investment equal to the increase in the Consumer Price Index for the geographic location of the project since the time of the initial investment of such partner in the project.

"(d) HOMEOWNERSHIP.—Each homeownership project that receives assistance under this subtitle shall comply with the requirements of either subtitle B or subtitle C of this title.

"(e) RESTRICTIONS ON CONVEYANCE.—The ownership interest in a project that receives assistance under this subtitle may not be conveyed unless the instrument of conveyance requires a subsequent owner to comply with the same restrictions imposed upon the original owner.

"(f) CONVERSION OF TRANSITIONAL HOUSING.—The Secretary may waive the requirements of subsection (b) to permit the conversion of a transitional housing project to a permanent housing project only if such housing would meet the requirements for residential rental housing specified in this section.

"(g) PERIOD OF RESTRICTIONS.—A project that receives assistance under this subtitle shall comply with the requirements of this section for the remaining useful life of the property.

"SEC. 456. ADDITIONAL PROGRAM REQUIREMENTS.

"(a) ELIGIBLE PARTICIPANTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), an individual shall be eligible to participate in a Youthbuild program receiving assistance under this subtitle if such individual is—

"(A) 16 to 24 years of age, inclusive;

"(B) a very low-income individual or a member of a very low-income family; and

"(C) an individual who has dropped out of high school.

"(2) EXCEPTIONS.—Not more than 25 percent of the participants in a Youthbuild program receiving assistance under this subtitle may be individuals who do not meet the requirement of paragraph (1)(B) or (1)(C), but have educational needs despite the attainment of a high school diploma or its equivalent.

"(3) PARTICIPATION LIMITATION.—Any eligible individual selected for full-time participation in a Youthbuild program may be offered full-time participation for a period of not less than 6 months and not more than 24 months.

"(b) MINIMUM TIME DEVOTED TO EDUCATIONAL SERVICES AND ACTIVITIES.—A Youthbuild program receiving assistance under this subtitle must be structured so that 50 percent of the time spent by participants in the program is devoted to educational services and activities, such as those specified in section 454(b)(4)(B) through (F) of this subtitle.

"(c) AUTHORITY RESTRICTION.—No provision of this subtitle may be construed to authorize any agency, officer, or employee of the United States to exercise any direction, supervision, or control over the curriculum, program of instruction, administration, or personnel of any educational institution, school, or school system, or over the selection of library resources, textbooks, or other printed or published instructional materials by any educational institution or school system.

"(d) STATE AND LOCAL STANDARDS.—All educational programs and activities supported with funds provided under this subtitle shall be consistent with applicable State and local educational standards. Standards and procedures with respect to the awarding of academic credit and certifying educational attainment in such programs shall be consistent with applicable State and local educational standards.

"(e) WAGES, LABOR STANDARDS, AND NONDISCRIMINATION.—To the extent consistent with the provisions of this subtitle, sections 142, 143 and 167 of the Job Training Partnership Act, relating to wages and benefits, labor standards, and nondiscrimination, shall apply to the programs conducted under this subtitle as if such programs were conducted under the Job Training Partnership Act. Nothing in this section shall be construed to prevent recipients from using funds from other sources to pay reasonable wages and benefits at a higher level if appropriate.

"SEC. 457. DEFINITIONS.

"As used in this subtitle:

"(1) ADJUSTED INCOME.—The term 'adjusted income' has the meaning given the term in section 3(b) of the United States Housing Act of 1937.

"(2) APPLICANT.—The term 'applicant' means a public or private nonprofit agency, including—

"(A) a community-based organization;

"(B) an administrative entity designated under section 103(b)(1)(B) of the Job Training Partnership Act;

"(C) a community action agency;

"(D) a State and local housing development agency;

"(E) a community development corporation;

"(F) a State and local youth service and conservation corps; and

"(G) any other entity eligible to provide education and employment training under other Federal employment training programs.

"(3) COMMUNITY-BASED ORGANIZATION.—The term 'community-based organization' means a private nonprofit organization that—

"(A) maintains, through significant representation on the organization's governing board or otherwise, accountability to low-income community residents and, to the extent practicable, low-income beneficiaries of programs receiving assistance under this subtitle; and

"(B) has a history of serving the local community or communities where a program receiving assistance under this subtitle is located.

"(4) HOMELESS INDIVIDUAL.—The term 'homeless individual' has the same meaning given the term in section 103 of the Stewart B. McKinney Homeless Assistance Act.

"(5) HOUSING DEVELOPMENT AGENCY.—The term 'housing development agency' means any agency of a State or local government, or any private nonprofit organization that is engaged in providing housing for homeless or low-income families.

"(6) INCOME.—The term 'income' has the meaning given the term in section 3(b) of the United States Housing Act of 1937.

"(7) INDIAN TRIBE.—The term 'Indian tribe' has the same meaning given such term in section 102(a)(17) of the Housing and Community Development Act of 1974 (42 U.S.C. 5302(a)(17)).

"(8) INDIVIDUAL WHO HAS DROPPED OUT OF HIGH SCHOOL.—The term 'individual who has dropped out of high school' means an individual who is neither attending any school nor subject to a compulsory attendance law and who has not received a secondary school diploma or a certificate of equivalency for such diploma.

"(9) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' has the meaning given the term in section 1201(a) of the Higher Education Act of 1965.

"(10) LIMITED-ENGLISH PROFICIENCY.—The term 'limited-English proficiency' has the meaning given the term in section 7003 of the Bilingual Education Act.

"(11) LOW-INCOME FAMILY.—The term 'low-income family' has the meaning given the term 'lower income families' in section 3(b) of the United States Housing Act of 1937.

"(12) OFFENDER.—The term 'offender' means any adult or juvenile with a record of arrest or conviction for a criminal offense.

"(13) QUALIFIED NONPROFIT AGENCY.—The term 'qualified public or private nonprofit agency' means any nonprofit agency that has significant prior experience in the operation of projects similar to the Youthbuild program authorized under this subtitle and that has the capacity to provide effective technical assistance.

"(14) RELATED FACILITIES.—The term 'related facilities' includes cafeterias or dining halls, community rooms or buildings, appropriate recreation facilities, and other essential service facilities;

"(15) SECRETARY.—The term 'Secretary' means the Secretary of Housing and Urban Development.

"(16) STATE.—The term 'State' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, the Trust Territories of the Pacific Islands, or any other territory or possession of the United States.

"(17) TRANSITIONAL HOUSING.—The term 'transitional housing' means a project that has as its purpose facilitating the movement of homeless individuals and families to independent living within a reasonable amount of time. Transitional housing includes housing primarily designed to serve deinstitutionalized homeless individuals and other homeless individuals with mental or physical disabilities and homeless families with children.

"(18) VERY LOW-INCOME FAMILY.—The term 'very low-income family' has the meaning given the term in section 3(b) of the United States Housing Act of 1937.

"(19) YOUTHBUILD PROGRAM.—The term 'Youthbuild program' means any program that receives assistance under this subtitle and provides disadvantaged youth with opportunities for employment, education, leadership development, and training in the construction or rehabilitation of housing for homeless individuals and members of low- and very low-income families.

"SEC. 458. MANAGEMENT AND TECHNICAL ASSISTANCE.

"(a) SECRETARY ASSISTANCE.—The Secretary may enter into contracts with a qualified public

or private nonprofit agency to provide assistance to the Secretary in the management, supervision, and coordination of Youthbuild programs receiving assistance under this subtitle.

"(b) Sponsor Assistance.—The Secretary shall enter into contracts with a qualified public or private nonprofit agency to provide appropriate training, information, and technical assistance to sponsors of programs assisted under this subtitle.

"(c) Application Preparation.—Technical assistance may also be provided in the development of program proposals and the preparation of applications for assistance under this subtitle to eligible entities which intend or desire to submit such applications. Community-based organizations shall be given first priority in the provision of such assistance.

"(d) Reservation of Funds.—The Secretary shall reserve 5 percent of the amounts available for this subtitle in each fiscal year to carry out subsections (b) and (c) of this section.

"SEC. 459. CONTRACTS.

"Each Youthbuild program shall carry out the services and activities under this subtitle directly or through arrangements or under contracts with administrative entities designated under section 103(b)(1)(B) of the Job Training Partnership Act, with State and local educational agencies, institutions of higher education, State and local housing development agencies, or with other public agencies, including agencies of Indian tribes, and private organizations.

"SEC. 460. REGULATIONS.

"The Secretary shall issue any regulations necessary to carry out this subtitle.".

(b) Effective Date.—The amendment made by subsection (a) shall only take effect if the Housing and Community Development Act of 1992 is not enacted by December 1, 1992.

SEC. 11263. ACCESS TO JOBS/REVERSE COMMUTING DEMONSTRATION PROGRAM.

(a) Purpose.—It is the purpose of this section to—

(1) improve employment rates and earnings in inner-city areas by improving access to job sites for inner-city residents;

(2) improve the viability of businesses in enterprise zones as a result of the increased incomes and purchasing power of zone residents; and

(3) test differing approaches to achieving these goals and determine their effects.

(b) Establishment of Program.—

(1) In General.—The Secretary of Labor, in consultation with the Secretary of Transportation, shall establish a Reverse Commuting Demonstration Program to test the effects of assisting residents of poor inner-city areas to commute to job sites in other areas of the city or surrounding suburbs.

(2) Use of Non Set-Aside Funds.—Any applicant eligible for block grant funding under section 11105 of this Act that submits an application that meets the criteria in subsection (c) shall be approved by the Secretary of Labor, in consultation with the Secretary of Transportation, to utilize funds it receives under this title to carry out a program established under this section.

(3) Use of Set-Aside Funds.—The funds set-aside under section 11102(d) for the program under this section shall be used by the Secretary of Labor, in consultation with the Secretary of Transportation, to fund not more than six demonstration projects utilizing the program models described in subsection (d). Projects shall be selected on a competitive basis from applications that meet the requirements of subsection (c) that are submitted by applicants eligible for block grant funding under section 11105 of this Act.

(c) Application and Approval Criteria.—An application under this section shall provide information specified by the Secretary of Labor, in consultation with the Secretary of Transportation, that is sufficient to satisfy the Secretary that—

(1) the geographic area whose residents would be served by the program established by the applicant under this section is a low-income area that consists in whole or substantial part of an urban enterprise zone;

(2) one of the three program models described in subsection (d) will be used by the applicant;

(3) the data collection procedures that will be established by the applicant will be sufficient to enable the Secretary of Labor, in consultation with the Secretary of Transportation, to conduct an evaluation in accordance with subsection (e); and

(4) the applicant has the capability to perform adequately with respect to the program established and to meet such other criteria as the Secretary of Labor may prescribe.

(d) Program Models.—Applications approved under this section shall utilize one of the following program models:

(1) Adding Transportation Services to Existing Job Training and Placement Programs.—Under this model an applicant shall supplement existing training and placement programs through the establishment of new transportation services that are designed to—

(A) transport inner-city residents to job locations (such as van service between the zones and business parks or major employers, with the service being provided by a public agency, a private vendor, or a neighborhood organization);

(B) provide transportation counseling and assistance (such as the creation of car pools and provision of education on public transit routes); or

(C) provide a direct subsidy of public transit fares or private automobile expenses.

(2) Improving Public Transit Systems to Facilitate Access to Jobs/Reverse Commuting.—Under this model an applicant may—

(A) work with the relevant transit operator or agency to modify public transit routes and schedules to increase the accessibility of residents of inner-city areas to job locations (such as through the provision of express bus service to business parks at times coinciding with labor shifts or the provision of new connecting services to fill gaps that impede commuting from inner-city areas to jobs sites); or

(B) reimburse public transit operators for the costs of providing reduced fare programs to increase the access of inner city residents to employment opportunities.

An applicant under subparagraph (A) may request suburban employers to contribute to the costs of implementing such transit services.

(3) Establishing Regional Coalitions to Improve Inner-City Access to Jobs.—Under this model an applicant shall establish a regional coalition, which may include neighborhood organizations, employers and employers associations, transportation providers, and similar entities, to implement comprehensive strategies to improve the access of residents of inner-cities to jobs through modifications in job training and placement services, support services such as child care, and transportation services. An applicant under this model shall attempt to link job training program participants with job opportunities throughout as much of the metropolitan area as practicable, and transportation barriers between inner-city areas and job locations shall be identified and transportation services implemented to address these problems.

(e) Evaluation.—The Secretary of Labor, in consultation with the Secretary of Transportation, shall conduct a thorough evaluation of the program established under this section. Such evaluation shall include an assessment of—

(1) with respect to applicants adding transportation services to job training programs, the effect of the addition of such transportation services on employment rates, job retention, and earnings among residents of the demonstration project areas;

(2) with respect to applicants improving public transit systems, the effect of the improvements, on employment rates, job retention, and earnings;

(3) with respect to applicants establishing regional coalitions and implementing comprehensive strategies, the effects of such strategies on employment rates, job retention, and earnings; and

(4) the manner in which the adoption of such comprehensive strategies affect employment and earnings in urban enterprise zones, compared to other urban enterprise zones not initiating programs to improve inner-city access to suburban job locations.

(f) Other Funding Sources.—Nothing in this section shall be construed to prevent an approved applicant from raising funds for any program established under the application from other sources to augment the funds available under this Act.

(g) Definition.—As used in this section, the term "urban enterprise zone" means an area designated under section 1391 of the Internal Revenue Code of 1986.

SEC. 11264. STUDY OF INSURANCE AVAILABILITY IN CENTRAL CITIES AND DISTRESSED URBAN AREAS.

(a) In General.—Not later than 24 months after the date of enactment of this Act, the Comptroller General shall prepare and submit to Congress a report assessing the market availability of insurance (including insurance against crime, civil disorders and related perils) for businesses and residences located in central cities and distressed urban areas and the impact of the availability of such insurance on the economic development or redevelopment of such areas.

(b) Detail of Contents.—The report required under subsection (c) shall consider—

(1) whether insurance (including insurance against crime, civil disorders, and related perils) is available at affordable rates in central cities and distressed urban areas either through the private insurance market or through a suitable program adopted under Federal or State law;

(2) whether reinsurance (including reinsurance against crime, civil disorders, and related perils) is available at affordable rates in central cities and other distressed urban areas either through the private reinsurance market or through a suitable program adopted under State law;

(3) the factors most likely to explain any deficiencies in the availability of such insurance or reinsurance;

(4) whether any deficiencies in the availability of such insurance or reinsurance act as a deterrent or barrier to the economic development or redevelopment of central cities and distressed urban areas;

(5) whether the Federal Crime Insurance Program operated pursuant to part C of title XII of the National Housing Act (12 U.S.C. 1749bbb et seq.) adequately promotes the availability of insurance in central cities and distressed urban areas and whether the program should be modified to more effectively advance that goal;

(6) whether those State Fair Access to Insurance (FAIR) Plans that were established pursuant to section 1211 of title XII of the National Housing Act or other programs adopted by State governments effectively promote the availability of insurance in central cities and distressed urban areas;

(7) whether reenactment of a Federal Riot Reinsurance Program to promote the availability of insurance (including insurance against crime, civil disorders, and related perils) would effec-

tively promote the availability of insurance in central cities and distressed urban areas;

(8) whether other action by the Federal Government would be advisable to promote the availability of insurance (including insurance against crime, civil disorders, and related perils) in central cities and distressed urban areas in order to enhance the prospects for the economic development or redevelopment of such areas; and

(9) such other issues related to the availability of insurance in central cities and other distressed urban areas and the relationship of the availability of such insurance to the economic development or redevelopment of such areas as the Comptroller General considers appropriate.

(c) DEFINITIONS.—As used in this section,

(1) The term "affordable rates" shall have the meaning determined by the Comptroller General taking into consideration factors such as the nature and degree of risks involved, the protective devices employed, the extent of anticipated losses, the prevailing rates for similar coverages in adjacent or comparable areas, the economic importance of the various individual coverages, the type of property involved, and the relative abilities of the particular classes and types of insureds to pay the costs of coverages.

(2) The term "central city" means any political subdivision designated as a central city from time to time by the Office of Management and Budget.

(3) The term "distressed urban area" means an urban enterprise zone designated pursuant to section 1391 of the Internal Revenue Code of 1986 or any other urban area that has a high level of poverty, unemployment, or minority population share, as determined by the Comptroller General.

(d) REFERRAL.—The report required under subsection (a) shall, upon transmission to Congress, be referred in the Senate to the Committee on Banking, Housing, and Urban Affairs, and the Committee on Finance, and in the House of Representatives to the Committee on Banking, Finance, and Urban Affairs.

TITLE XII—HIGH SEAS DRIFTNET FISHERIES ENFORCEMENT

SEC. 12001. SHORT TITLE.

This title may be cited as the "High Seas Driftnet Fisheries Enforcement Act".

SEC. 12002. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) Large-scale driftnet fishing on the high seas is highly destructive to the living marine resources and ocean ecosystems of the world's oceans, including anadromous fish and other living marine resources of the United States.

(2) The cumulative effects of large-scale driftnet fishing pose a significant threat to the marine ecosystem, and slow-reproducing species like marine mammals, sharks, and seabirds may require many years to recover.

(3) Members of the international community have reviewed the best available scientific data on the impacts of large-scale pelagic driftnet fishing, and have failed to conclude that this practice has no significant adverse impacts which threaten the conservation and sustainable management of living marine resources.

(4) The United Nations, via General Assembly Resolutions numbered 44–225, 45–197, and most recently 46–215 (adopted on December 20, 1991), has called for a worldwide moratorium on all high seas driftnet fishing by December 31, 1992, in all the world's oceans, including enclosed seas and semi-enclosed seas.

(5) The United Nations has commended the unilateral, regional, and international efforts undertaken by members of the international community and international organizations to implement and support the objectives of the General Assembly resolutions.

(6) Operative paragraph (4) of United Nations General Assembly Resolution numbered 46–215 specifically "encourages all members of the international community to take measures individually and collectively to prevent large-scale pelagic driftnet fishing operations on the high seas of the world's oceans and seas".

(7) The United States, in section 307(1)(M) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1857(1)(M)), has specifically prohibited the practice of large-scale driftnet fishing by United States nationals and vessels both within the exclusive economic zone of the United States and beyond the exclusive economic zone of any nation.

(8) The Senate, through Senate Resolution 396 of the 100th Congress (approved on March 18, 1988), has called for a moratorium on fishing in the Central Bering Sea and the United States has taken concrete steps to implement such moratorium through international negotiations.

(9) Despite the continued evidence of a decline in the fishery resources of the Bering Sea and the multiyear cooperative negotiations undertaken by the United States, the Russian Federation, Japan, and other concerned fishing nations, some nations refuse to agree to measures to reduce or eliminate unregulated fishing practices in the waters of the Bering Sea beyond the exclusive economic zones of the United States and the Russian Federation.

(10) In order to ensure that the global moratorium on large-scale driftnet fishing called for in United Nations General Assembly Resolution numbered 46–215 takes effect by December 31, 1992, and that unregulated fishing practices in the waters of the Central Bering Sea are reduced or eliminated, the United States should take the actions described in this Act and encourage other nations to take similar action.

(b) POLICY.—It is the stated policy of the United States to—

(1) implement United Nations General Assembly Resolution numbered 46–215, approved unanimously on December 20, 1991, which calls for an immediate cessation to further expansion of large-scale driftnet fishing, a 50 percent reduction in existing large-scale driftnet fishing effort by June 30, 1992, and a global moratorium on the use of large-scale driftnets beyond the exclusive economic zone of any nation by December 31, 1992;

(2) bring about a moratorium on fishing in the Central Bering Sea, or an international conservation and management agreement to which the United States and the Russian Federation are parties that regulates fishing in the Central Bering Sea; and

(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation.

Subtitle A—High Seas Large-Scale Driftnet Fishing

SEC. 12021. DENIAL OF PORT PRIVILEGES AND SANCTIONS FOR HIGH SEAS LARGE-SCALE DRIFTNET FISHING.

(a) DENIAL OF PORT PRIVILEGES.—

(1) PUBLICATION OF LIST.—Not later than 30 days after the date of enactment of this Act and periodically thereafter, the Secretary of Commerce, in consultation with the Secretary of State, shall publish a list of nations whose nationals or vessels conduct large-scale driftnet fishing beyond the exclusive economic zone of any nation.

(2) DENIAL OF PORT PRIVILEGES.—The Secretary of the Treasury shall, in accordance with recognized principles of international law—

(A) withhold or revoke the clearance required by section 4197 of the Revised Statutes of the United States (46 App. U.S.C. 91) for any large-scale driftnet fishing vessel that is documented under the laws of the United States or of a nation included on a list published under paragraph (1); and

(B) deny entry of that vessel to any place in the United States and to the navigable waters of the United States.

(3) NOTIFICATION OF NATION.—Before the publication of a list of nations under paragraph (1), the Secretary of State shall notify each nation included on that list regarding—

(A) the effect of that publication on port privileges of vessels of that nation under paragraph (1); and

(B) any sanctions or requirements, under this Act or any other law, that may be imposed on that nation if nationals or vessels of that nation continue to conduct large-scale driftnet fishing beyond the exclusive economic zone of any nation after December 31, 1992.

(b) SANCTIONS.—

(1) IDENTIFICATIONS.—

(A) INITIAL IDENTIFICATIONS.—Not later than January 10, 1993, the Secretary of Commerce shall—

(i) identify each nation whose nationals or vessels are conducting large-scale driftnet fishing beyond the exclusive economic zone of any nation; and

(ii) notify the President and that nation of the identification under clause (i).

(B) ADDITIONAL IDENTIFICATIONS.—At any time after January 10, 1993, whenever the Secretary of Commerce has reason to believe that the nationals or vessels of any nation are conducting large-scale driftnet fishing beyond the exclusive economic zone of any nation, the Secretary of Commerce shall—

(i) identify that nation; and

(ii) notify the President and that nation of the identification under clause (i).

(2) CONSULTATIONS.—Not later than 30 days after a nation is identified under paragraph (1)(B), the President shall enter into consultations with the government of that nation for the purpose of obtaining an agreement that will effect the immediate termination of large-scale driftnet fishing by the nationals or vessels of that nation beyond the exclusive economic zone of any nation.

(3) PROHIBITION ON IMPORTS OF FISH AND FISH PRODUCTS AND SPORT FISHING EQUIPMENT.—

(A) PROHIBITION.—The President—

(i) upon receipt of notification of the identification of a nation under paragraph (1)(A); or

(ii) if the consultations with the government of a nation under paragraph (2) are not satisfactorily concluded within 90 days, shall direct the Secretary of the Treasury to prohibit the importation into the United States of fish and fish products and sport fishing equipment (as that term is defined in section 4162 of the Internal Revenue Code of 1986 (26 U.S.C. 4162)) from that nation.

(B) IMPLEMENTATION OF PROHIBITION.—With respect to an import prohibition directed under subparagraph (A), the Secretary of the Treasury shall implement such prohibition not later than the date that is 45 days after the date on which the Secretary has received the direction from the President.

(C) PUBLIC NOTICE OF PROHIBITION.—Before the effective date of any import prohibition under this paragraph, the Secretary of the Treasury shall provide public notice of the impending prohibition.

(4) ADDITIONAL ECONOMIC SANCTIONS.—

(A) DETERMINATION OF EFFECTIVENESS OF SANCTIONS.—Not later than 6 months after the date the Secretary of Commerce identifies a nation under paragraph (1), the Secretary shall determine whether—

(i) any prohibition established under paragraph (3) is insufficient to cause that nation to terminate large-scale driftnet fishing conducted

by its nationals and vessels beyond the exclusive economic zone of any nation; or

(ii) that nation has retaliated against the United States as a result of that prohibition.

(B) Certification.—The Secretary of Commerce shall certify to the President each affirmative determination under subparagraph (A) with respect to a nation.

(C) Effect of Certification.—Certification by the Secretary of Commerce under subparagraph (B) is deemed to be a certification under section 8(a) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1978(a)), as amended by this Act.

SEC. 12022. DURATION OF DENIAL OF PORT PRIVILEGES AND SANCTIONS.

Any denial of port privileges or sanction under section 12021 with respect to a nation shall remain in effect until such time as the Secretary of Commerce certifies to the President and the Congress that such nation has terminated large-scale driftnet fishing by its nationals and vessels beyond the exclusive economic zone of any nation.

SEC. 12023. REQUIREMENTS UNDER MARINE MAMMAL PROTECTION ACT OF 1972.

Section 101(a)(2) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371(a)(2)) is amended—

(1) in subparagraph (E)(i) by striking "July 1, 1992" and inserting in lieu thereof "January 1, 1993"; and

(2) in the last sentence by inserting ", except that, until January 1, 1994, the term 'driftnet' does not include the use in the northeast Atlantic Ocean of gillnets with a total length not to exceed 5 kilometers if the use is in accordance with regulations adopted by the European Community pursuant to the October 28, 1991, decision by the Council of Fisheries Ministers of the Community" immediately after "(16 U.S.C. 1822 note)".

SEC. 12024. DEFINITIONS

In this subtitle, the following definitions apply:

(1) Fish and Fish Products.—The term "fish and fish products" means any aquatic species (including marine mammals and plants) and all products thereof exported from a nation, whether or not taken by fishing vessels of that nation or packed, processed, or otherwise prepared for export in that nation or within the jurisdiction thereof.

(2) Large-Scale Driftnet Fishing.—

(A) In General.—Except as provided in subparagraph (B), the term "large-scale driftnet fishing" means a method of fishing in which a gillnet composed of a panel or panels of webbing, or a series of such gillnets, with a total length of two and one-half kilometers or more is placed in the water and allowed to drift with the currents and winds for the purpose of entangling fish in the webbing.

(B) Exception.—Until January 1, 1994, the term "large-scale driftnet fishing" does not include the use in the northeast Atlantic Ocean of gillnets with a total length not to exceed 5 kilometers if the use is in accordance with regulations adopted by the European Community pursuant to the October 28, 1991, decision by the Council of Fisheries Ministers of the Community.

(3) Large-Scale Driftnet Fishing Vessel.—The term "large-scale driftnet fishing vessel" means any vessel which is—

(A) used for, equipped to be used for, or of a type which is normally used for large-scale driftnet fishing; or

(B) used for aiding or assisting one or more vessels at sea in the performance of large-scale driftnet fishing, including preparation, supply, storage, refrigeration, transportation, or processing.

Subtitle B—Fisheries Conservation Programs

SEC. 12031. IMPORT RESTRICTIONS UNDER FISHERMEN'S PROTECTIVE ACT OF 1967.

(a) Products Subject to Restriction.—Section 8 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1978) is amended—

(1) in subsection (a)(4) by striking "fish products" and all that follows through "such duration", and inserting in lieu thereof "any products from the offending country for any duration";

(2) in subsection (c) by striking "fish products or wildlife products" and inserting in lieu thereof "products";

(3) in subsection (e)(2) by striking "fish products and wildlife products" and inserting in lieu thereof "products"; and

(4) in subsection (f)—

(A) in paragraph (1) by striking "fish products and wildlife products" and inserting in lieu thereof "products"; and

(B) in paragraph (5)—

(i) in the first sentence by striking "fish products and wildlife products" and inserting in lieu thereof "products"; and

(ii) in the second sentence by striking "Fish products and wildlife products" and inserting in lieu thereof "Products".

(b) Definitions.—Section 8(h) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1978(h)) is amended—

(1) by amending paragraph (2) to read as follows:

"(2) The term 'United States' means the several States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the Virgin Islands, and every other territory and possession of the United States.";

(2) in paragraph (3)—

(A) by inserting "bilateral or" immediately before "multilateral"; and

(B) by inserting ", including marine mammals" immediately after "protect the living resources of the sea";

(3) by striking paragraphs (4) and (6);

(4) by redesignating paragraphs (5) and (7) as paragraphs (4) and (5), respectively; and

(5) by amending paragraph (5), as so redesignated, to read as follows:

"(5) The term 'taking', as used with respect to animals to which an international program for endangered or threatened species applies, means to—

"(A) harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect; or

"(B) attempt to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect.".

SEC. 12032. ENFORCEMENT.

(a) In General.—Not later than 6 months after the date of the enactment of this Act, the Secretary of the department in which the Coast Guard is operating, the Secretary of Commerce, and the Secretary of Defense shall enter into an agreement under section 311(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1861(a)) in order to make more effective the enforcement of domestic laws and international agreements that conserve and manage the living marine resources of the United States.

(b) Terms.—The agreement entered into under subsection (a) shall include—

(1) procedures for identifying and providing the location of vessels that are in violation of domestic laws or international agreements to conserve and manage the living marine resources of the United States;

(2) requirements for the use of the surveillance capabilities of the Department of Defense; and

(3) procedures for communicating vessel locations to the Secretary of Commerce and the Coast Guard.

SEC. 12033. TRADE NEGOTIATIONS AND THE ENVIRONMENT.

It is the sense of the Congress that the President, in carrying out multilateral, bilateral, and regional trade negotiations, should seek to—

(1) address environmental issues related to the negotiations;

(2) modify articles of the General Agreement on Tariffs and Trade (referred to in this section as "GATT") to take into consideration the national environmental laws of the GATT Contracting Parties and international environmental treaties;

(3) secure a working party on trade and the environment within GATT as soon as possible;

(4) take an active role in developing trade policies that make GATT more responsive to national and international environmental concerns;

(5) include Federal agencies with environmental expertise during the negotiations to determine the impact of the proposed trade agreements on national environmental law; and

(6) periodically consult with interested parties concerning the progress of the negotiations.

Subtitle C—Fisheries Enforcement in Central Bering Sea

SEC. 12051. SHORT TITLE.

This subtitle may be cited as the "Central Bering Sea Fisheries Enforcement Act of 1992".

SEC. 12052. PROHIBITION APPLICABLE TO UNITED STATES VESSELS AND NATIONALS.

(a) Prohibition.—Vessels and nationals of the United States are prohibited from conducting fishing operations in the Central Bering Sea, except where such fishing operations are conducted in accordance with an international fishery agreement to which the United States and the Russian Federation are parties.

(b) Civil Penalties and Permit Sanctions.—A violation of this section shall be subject to civil penalties and permit sanctions under section 308 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1858).

SEC. 12053. PORT PRIVILEGES DENIAL FOR FISHING IN CENTRAL BERING SEA.

(a) Denial of Port Privileges.—The Secretary of the Treasury shall, after December 31, 1992, in accordance with recognized principles of international law—

(1) withhold or revoke the clearance required by section 4197 of the Revised Statutes of the United States (46 App. U.S.C. 91) for any fishing vessel documented under the laws of a nation that is included on a list published under subsection (b); and

(2) deny entry of such fishing vessel to any place in the United States and to the navigable waters of the United States.

(b) Publication of List.—Not later than 45 days after the date of enactment of this Act, the Secretary of Commerce, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall publish in the Federal Register a list of nations whose nationals or vessels conduct fishing operations in the Central Bering Sea, except where such fishing operations are in accordance with an international fishery agreement to which the United States and the Russian Federation are parties. The Secretary shall publish as an addendum to the list the name of each vessel documented under the laws of each listed nation which conducts fishing operations in the Central Bering Sea. A revised list shall be published whenever the list is no longer accurate, except that a nation may not be removed from the list unless—

(1) the nationals and vessels of that nation have not conducted fishing operations in the Central Bering Sea for the previous 90 days and the nation has committed, through a bilateral agreement with the United States or in any other manner acceptable to the Secretary of Commerce, not to permit its nationals or vessels to resume such fishing operations; or

(2) the nationals and vessels of that nation are conducting fishing operations in the Central

Bering Sea that are in accordance with an international fishery agreement to which the United States and the Russian Federation are parties.

(c) NOTIFICATION OF NATION.—Before the publication of a list of nations under subsection (b), the Secretary of State shall notify each nation included on that list and explain the requirement to deny the port privileges of fishing vessels of that nation under subsection (a) as a result of such publication.

SEC. 12054. DURATION OF PORT PRIVILEGES DENIAL.

Any denial of port privileges under section 12053 with respect to any fishing vessel of a nation shall remain in effect until such nation is no longer listed under section 12053(b).

SEC. 12055. RESTRICTION ON FISHING IN UNITED STATES EXCLUSIVE ECONOMIC ZONE.

(a) REGULATIONS.—Within 180 days after the date of enactment of this Act, after notice and public comment, the Secretary of Commerce shall issue regulations, under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) and any other applicable law, to prohibit—

(1) any permitted fishing vessel from catching, taking, or harvesting fish in a fishery under the geographical authority of the North Pacific Fishery Management Council if such vessel is owned or controlled by any person that also owns or controls a fishing vessel that is listed on the addendum under section 12053(b);

(2) any processing facility from receiving any fish caught, taken, or harvested in a fishery under the geographical authority of the North Pacific Fishery Management Council if such facility is owned or controlled by any person that also owns or controls a fishing vessel that is listed on the addendum under section 12053(b); and

(3) any permitted fishing vessel from delivering fish caught, taken, or harvested in a fishery under the geographic authority of the North Pacific Fishery Management Council to a processing facility that is owned or controlled by any person that also owns or controls a fishing vessel that is listed on the addendum under section 12053(b).

(b) REQUIREMENT FOR SUBMISSION OF DOCUMENTS.—The Secretary of Commerce shall require under any regulations issued under subsection (a) the submission of any affidavits, financial statements, corporate agreements, and other documents that the Secretary of Commerce determines, after notice and public comment, are necessary to ensure that all vessels and processing facilities are in compliance with this section.

(c) APPEALS; DURATION OF PROHIBITIONS.—The regulations issued under subsection (a) shall—

(1) establish procedures for a person to appeal a decision to impose a prohibition under subsection (a) on a vessel or processing facility owned or controlled by that person; and

(2) specify procedures for the removal of any prohibition imposed on a vessel or processing facility under subsection (a)—

(A) upon publication of a revised list under section 12053(b), and a revised addendum which does not include a fishing vessel owned or controlled by the person who also owns or controls the vessel or facility to which the prohibition applies; or

(B) on the date that is 90 days after such person terminates ownership and control in fishing vessels that are listed on the addendum under section 12053(b).

SEC. 12056. DEFINITIONS.

In this subtitle, the following definitions apply:

(1) CENTRAL BERING SEA.—The term "Central Bering Sea" means the central Bering Sea area which is more than 200 nautical miles seaward of the baselines from which the breadth of the territorial seas of the United States and the Russian Federation are measured.

(2) FISHING VESSEL.—The term "fishing vessel" means any vessel which is used for—

(A) catching, taking, or harvesting fish; or

(B) aiding or assisting one or more vessels at sea in the performance of fishing operations, including preparation, supply, storage, refrigeration, transportation, or processing.

(3) OWNS OR CONTROLS.—When used in reference to a vessel or processing facility—

(A) the term "owns" means holding legal title to the vessel or processing facility; and

(B) the term "controls" includes an absolute right to direct the business of the person owning the vessel or processing facility, to limit the actions of or replace the chief executive officer (by whatever title), a majority of the board of directors, or any general partner (as applicable) of such person, to direct the transfer or operations of the vessel or processing facility, or otherwise to exercise authority over the business of such person, but the term does not include the right simply to participate in those activities of such person or the right to receive a financial return, such as interest or the equivalent of interest, on a loan or other financing obligation.

(4) PERMITTED FISHING VESSEL.—The term "permitted fishing vessel" means any fishing vessel that is subject to a permit issued by the Secretary of Commerce under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(5) PERSON.—The term "person" means any individual (whether or not a citizen of the United States), any corporation, partnership, association, cooperative, or other entity (whether or not organized under the laws of any State), and any State, local, or foreign government, or any entity of such government or the Federal Government.

(6) PROCESSING FACILITY.—The term "processing facility" means any fish processing establishment or fish processing vessel that receives unprocessed fish.

SEC. 12057. TERMINATION.

This subtitle shall cease to have force and effect after the date that is 7 years after the date of enactment of this Act, except that any proceeding with respect to violations of section 12052 occurring prior to such termination date shall be conducted as if that section were still in effect.

Subtitle D—Miscellaneous Provisions

SEC. 12071. INTERMEDIARY NATIONS INVOLVED IN EXPORT OF CERTAIN TUNA PRODUCTS.

(a) INTERMEDIARY NATION DEFINED.—Section 3 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362) is amended by redesignating paragraphs (5) through (14) as paragraphs (6) through (15), respectively, and by inserting immediately after paragraph (4) the following new paragraph:

"(5) The term 'intermediary nation' means a nation that exports yellowfin tuna or yellowfin tuna products to the United States and that imports yellowfin tuna or yellowfin tuna products that are subject to a direct ban on importation into the United States pursuant to section 101(a)(2)(B).".

(b) EMBARGO ON IMPORTS FROM INTERMEDIARY NATIONS.—Section 101(a)(2)(C) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371(a)(2)(C)) is amended to read as follows:

"(C) shall require the government of any intermediary nation to certify and provide reasonable proof to the Secretary that it has not imported, within the preceding six months, any yellowfin tuna or yellowfin tuna products that are subject to a direct ban on importation to the United States under subparagraph (B);".

SEC. 12072. AUTHORITY TO EXTEND REEMPLOYMENT RIGHTS.

For purposes of employee rights and entitlements conferred by or pursuant to subchapter IV of chapter 35 of title 5, United States Code, the Secretary of State may, notwithstanding any other law or regulation, extend the reemployment rights of an employee of the United States who, as of January 1, 1992, was serving with the Intergovernmental Panel on Climate Change. Such extension may be made for 2 years, and may be further extended for 1 year, if the Secretary of State determines that such service is in the national interest and is necessary to facilitate the activities of the Intergovernmental Panel on Climate Change or any successor organization.

SEC. 12073. LIMITATION ON TERMS OF VOTING MEMBERS OF REGIONAL FISHERY MANAGEMENT COUNCILS.

Section 302(b)(3) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1852(b)(3)) is amended by striking "January 1, 1986" the second place it appears and inserting in lieu thereof "December 31, 1987".

SEC. 12074. OBSERVER FEE FOR NORTH PACIFIC FISHERIES RESEARCH PLAN.

Section 313(b)(2)(E) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1862(b)(2)(E)) is amended by striking "one percentum, of the" and inserting in lieu thereof "2 percent, of the unprocessed ex-vessel".

TITLE XIII—FEDERAL DEBT MANAGEMENT RESPONSIBILITY

SEC. 13001. RESTRICTION AND EVALUATION OF BORROWING AUTHORITY OF CERTAIN GOVERNMENT-RELATED CORPORATIONS.

(a) IN GENERAL.—Chapter 31 of title 31, United States Code (relating to the public debt), is amended by adding at the end the following new subchapter:

"SUBCHAPTER III—RESTRICTION AND EVALUATION OF BORROWING AUTHORITY OF CERTAIN GOVERNMENT-RELATED CORPORATIONS

"§3141. Limitation on use of proceeds of Treasury obligations to lend amounts to certain newly established Government-related corporations

"(a) IN GENERAL.—None of the proceeds of any obligation issued under subchapter I may be used to lend any amount to a newly established Government-related corporation under any authority of such corporation to borrow from the Treasury, unless—

"(1) such corporation is a qualified corporation, or

"(2) such borrowing is approved in advance in an appropriations Act.

"(b) NEWLY ESTABLISHED GOVERNMENT-RELATED CORPORATION.—For purposes of this section—

"(1) IN GENERAL.—The term 'newly established Government-related corporation' means any Government-related corporation which is established pursuant to any law enacted after December 31, 1992. The Congress may at any time alter, amend, or repeal any law establishing or governing the activities of such a corporation.

"(2) GOVERNMENT-RELATED CORPORATION.—The term 'Government-related corporation' means—

"(A) any corporation owned in whole or part by the Federal Government, and

"(B) any privately owned Government-sponsored enterprise.

"(c) QUALIFIED CORPORATION.—For purposes of this section, the term 'qualified corporation' means any newly established Government-related corporation which is hereafter designated in this subsection as a qualified corporation.

"(d) Required Provisions.—To be a qualified corporation under this section, the law establishing any privately-owned government-sponsored enterprise shall address issues of safety and soundness by including provisions for—

"(1) effective Federal supervision of safety and soundness and a significant cushion of capital; and

"(2) a requirement that such corporation achieve and maintain a high investment grade rating, as prescribed in subsection (e) below, throughout its corporate existence.

"(e) Rating.—

"(1) In general.—Not later than 1 year after the effective date of the law creating each new corporation subject to this Act, the Secretary of the Treasury shall, for each such corporation, contract with 2 nationally recognized statistical rating organizations—

"(A) to assess the likelihood that the corporation will not be able to meet its obligations from its own resources with an assumption that there is no recourse to any implicit Government guarantee and to express that likelihood as a traditional credit rating; and

"(B) to review the rating of the corporation as frequently as the Secretary determines is appropriate, but not less than annually.

"(2) Comments.—The Secretary of the Treasury shall submit comments to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Ways and Means of the House of Representatives on any difference between the evaluation of the rating organizations and that of the Secretary, with special attention to capital adequacy and shall report on any actions the Secretary deems appropriate to assure that each corporation continuously maintains a high investment grade rating.

"(3) Requirement.—Each such corporation shall achieve and maintain throughout its corporate existence 1 of the 2 highest investment grade ratings awarded by each statistical rating organization described in paragraph (4). The Secretary of the Treasury may waive the requirements of this paragraph by published order on such terms and conditions and for such periods of times as the Secretary deems appropriate.

"(4) Definition.—For the purposes of this section, the term 'nationally recognized statistical rating organization' means any entity effectively recognized by the Division of Market Regulation of the Securities and Exchange Commission as a nationally recognized statistical rating organization for the purposes of the capital rules for broker-dealers.

"(f) Reports.—The Comptroller General of the United States and the Office of Management and Budget each shall report to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Ways and Means of the House of Representatives upon the adequacy of provisions for effective Federal supervision of safety and soundness, including the adequacy of capital standards, contained in any bill to create a privately owned government-sponsored enterprise. Each report shall also recommend provisions to be included in such bill to assure compliance with subsection (e) of this Act.

"§3142. Annual report on impact of borrowing by Government-related corporations on public debt

"(a) General Requirement.—The Secretary of the Treasury shall annually prepare and submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Ways and Means of the House of Representatives a report setting forth the impact of the issuance or guarantee of securities by Government-related corporations (as defined in section 3141(b)(2)) on—

"(1) the rate of interest and amount of discount offered on obligations issued by the Secretary under subchapter I, and

"(2) the marketability of such obligations.

"(b) Deadline.—The report required by subsection (a) shall be submitted to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Ways and Means of the House of Representatives by October 1 of the 1st calendar year beginning after the date of the enactment of this section, and by each October 1 thereafter.".

(b) Clerical Amendment.—The table of sections for chapter 31 of title 31, United States Code, is amended by adding at the end the following new items:

"SUBCHAPTER III—RESTRICTION AND EVALUATION OF BORROWING AUTHORITY OF CERTAIN GOVERNMENT-RELATED CORPORATIONS

"3141. Limitation on use of proceeds of Treasury obligations to lend amounts to certain newly established Government-related corporations.

"3142. Annual report on impact of borrowing by Government-related corporations on public debt.".

From the Committee on Ways and Means, for consideration of the House bill, and the Senate amendment, and modifications committed to conference:

Dan Rostenkowski,
Sam Gibbons,
J.J. Pickle,
Charles B. Rangel,
Pete Stark,
Guy Vander Jagt,

Provided, that solely for consideration of sections 6211–6214 and 7101–7162 of the House bill, and sections 6211–6214, 7107–7177, and 7180–7181 of the Senate amendment, Mr. Downey is appointed in lieu of Mr. Stark and Mr.. Shaw is appointed in lieu of Mr. Crane.

Thomas J. Downey,

Provided, that solely for consideration of sections 6201 and 7001–7014 of the House bill and sections 6201, 7001–7006, 7178 and 7179 of the Senate amendment, Mr. Jacobs is appointed in lieu of Mr. Stark and Mr. Bunning is appointed in lieu of Mr. Crane.

Andrew Jacobs, Jr.,
Jim Bunning,

Provided, that solely for consideration of sections 2171–2185, 6220–6251, and title XIV–XVI of the Senate amendment, Mr. Gradison is appointed in lieu of Mr. Crane.

Willis D. Gradison, Jr.,

Provided, that solely for consideration of title V of the House bill, and title V of the Senate amendment, Mr. Schulze is appointed in lieu of Mr. Crane.

Richard T. Schulze,

Pursuant to the authority granted on September 30, the Chair announces the following modifications in the appointment of conferees on H.R. 11, Revenue Act of 1992:

As additional conferees from the Committee on Agriculture, for consideration of sections 7123, 7126 and title VIII of the House bill, and sections 7171 and 7173 and title VIII of the Senate amendment, and modifications committed to conference:

E de la Garza,
Robin Tallon,

As additional conferees from the Committee on Banking, Finance and Urban Affairs, for consideration of title VIII of the House bill, and title VIII of the Senate amendment, and modifications committed to conference:

Henry Gonzalez,
Mary Rose Oakar,
Chalmers P. Wylie,

As additional conferees from the Committee on Banking, Finance and Urban Affairs, for consideration of section 9212 of the Senate amendment, and modifications committed to conference:

Esteban E. Torres,
Carroll Hubbard,

As additional conferees from the Committee on Banking, Finance and Urban Affairs, for consideration of section 9232 of the Senate amendment, and modifications committed to conference:

Frank Annunzio,
Carroll Hubbard,

As additional conferees from the Committee on Education and Labor, for consideration of sections 7123 and 7125 of the House bill, and sections 2173, 4246, 7102, 7134(c), 7142–7143, 7151, 7171, 7172, and 7176 of the Senate amendment, and modifications committed to conference:

William D. Ford,
Pat Williams,
M.G. Martinez,
Carl C. Perkins,

As additional conferees from the Committee on Education and Labor, for consideration of title VIII of the House bill, and title VIII of the Senate amendment, and modifications committed to conference:

William D. Ford,
Joseph M. Gaydos,

As additional conferees from the Committee on Energy and Commerce, for consideration of sections 7104, 7123, 7125, and 7126 of the House bill, and sections 2171–2173, 2175, 2177–2185, 6220, 6231–6251, 7109, 7121, 7136, 7171–7174, 10011(b), 10201, 14111–14140, titles XI, XV, and XVI of the Senate amendment, and modifications committed to conference:

John D. Dingell,
Cardiss Collins,
Henry A. Waxman,
Gerry Sikorski,
Terry L. Bruce,

Provided, that solely for consideration of sections 10011(b) and 10201 and title XI of the Senate amendment, Mr. Markey, Mr. Synar, and Mr. Boucher are appointed in lieu of Mr. Waxman, Mr. Sikorski, and Mr. Bruce:

Ed Markey,
Mike Synar,
Rick Boucher,

As additional conferees from the Committee on Energy and Commerce, for consideration of title VIII of the House bill, and title VIII of the Senate amendment, and modifications committed to conference:

John D. Dingell,
Henry A. Waxman,

As additional conferees from the Committee on the Judiciary, for consideration of title VIII of the House bill, and title VIII of the Senate amendment, and modifications committed to conference:

Jack Brooks,
Charles Schumer,

As additional conferees from the Committee on the Judiciary, for consideration of section 9204 of the Senate amendment, and modifications committed to conference:

Jack Brooks,
Don Edwards,
Mike Synar,
John Bryant,
Harley O. Staggers,

As additional conferees from the Committee on the Judiciary, for consideration of title X of the Senate amendment, and modifications committed to conference:

Jack Brooks,
Charles Schumer,
William J. Hughes,
John Bryant,
George E. Sangmeister,
F. James Sensenbrenner, Jr.,
Steven Schiff,
Jim Ramstad,

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of titles XII and XIII of the Senate amendment, and modifications committed to conference:

GERRY E. STUDDS,
CARROLL HUBBARD,
WILLIAM J. HUGHES,
BILLY TAUZIN,
JOLENE UNSOELD,
BOB DAVIS,
DON YOUNG,

As additional conferees from the Committee on Ways and Means, for consideration of sections 7123, 7125, 7126, and title VII of the House bill, and sections 2173, 7171, 7173, titles VIII and X of the Senate amendment, and modifications committed to conference:

ANDREW JACOBS, JR.,
HAROLD E. FORD,
ED JENKINS,
TOM DOWNEY,
FRANK GUARINI,
MARTY RUSSO,
DON PEASE,
Managers on the Part of the House.

LLOYD BENTSEN,
MAX BAUCUS,
DAVID BOREN,
GEORGE MITCHELL,
DAVID PRYOR,
BOB PACKWOOD,
WILLIAM V. ROTH, JR.,
JOHN C. DANFORTH,
JOHN H. CHAFEE,

From the Committees on Banking, Housing, and Urban Affairs; the Judiciary; and Labor, and Human Resources, for the consideration of title 8 of the Senate amendment only:

EDWARD M. KENNEDY,
DON RIEGLE,
JOE BIDEN,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 11) to amend the Internal Revenue Code of 1986 to provide tax incentives for the establishment of tax enterprise zones, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clerical changes.

And the Senate agrees to the same.

I. ECONOMIC DEVELOPMENT IN DISTRESSED AREAS—ENTERPRISE ZONES

Present Law

The Internal Revenue Code does not contain general rules that target specific geographic areas for special Federal income tax treatment. Within certain Code sections, however, there are definitions of targeted areas for limited purposes (e.g., low-income housing credit and qualified mortgage bond provisions target certain economically distressed areas). In addition, present law provides favorable Federal income tax treatment for certain U.S. corporations that operate in Puerto Rico, the U.S. Virgin Islands, or a possession of the United States to encourage the conduct of trades or businesses within these areas.

House Bill

Designation of tax enterprise zones

In general

A total of 50 tax enterprise zones may be designated before the end of 1996. Tax enterprise zones are either urban tax enterprise zones or rural development investment zones, and are to be designated from areas nominated by State and local governments,[1] a State-chartered economic development corporation, or a governing body of an Indian reservation.

The Secretary of Housing and Urban Development (HUD) may designate 25 urban tax enterprise zones (up to 8 zones selected in 1992 through 1993, 7 zones in 1994, 6 zones in 1995, and 4 zones in 1996). Any shortfall in designations of zones may be carried forward to the next year, but not beyond 1996.

The Secretary of Agriculture (in consultation with the Secretary of Commerce) may designate 25 rural development investment zones (at least one of which must be located on an Indian reservation). The maximum number of rural development investment zones designated each year is the same as with urban tax enterprise zones.

Zone designations generally will remain in effect for 15 years.[2]

Eligibility criteria for urban tax enterprise zones

To be eligible for designation as an urban tax enterprise zone, a nominated area is required to have all of the following characteristics: (1) a population of at least 4,000; (2) a condition of pervasive poverty, unemployment, and general economic distress (which may include distress from a high incidence of crime and narcotics use); (3) with respect to size, (a) does not exceed 20 square miles, (b) consists of not more than three noncontiguous parcels within the same metropolitan area, and (c) is located entirely within one State; (4) an unemployment rate of at least 1.5 times the national unemployment rate; (5) poverty rates of at least 20 percent in each of 90 percent of the area's census tracts; (6) does not include any portion of a central business district (as such term is used for purposes of the most recent Census of Retail Trade); and (7) a satisfactory course of action (described below) adopted by the State and local governments designed to promote economic development in the nominated area.

Eligibility criteria for rural development investment zones

To be nominated as a rural development investment zone, an area is required to be either outside a standard metropolitan statistical area (within the meaning of section 143(k)(2)(B)) or determined by the Secretary of Agriculture (after consultation with the Secretary of Commerce) to be a rural area. To be eligible for designation, a rural development investment zone is required to possess the following four characteristics: (1) a population of at least 1,000; (2) a condition of general economic distress; (3) with respect to size, (a) does not exceed 10,000 square miles, (b) is located within not more than four contiguous counties, (c) consists of not more than three noncontiguous parcels, and (d) is located entirely within one State (unless located on one or more Indian reservations); and (4) a satisfactory course of action (described below) adopted by the State and local governments for the nominated area. In addition, a rural area is required to meet at least two of the following requirements: (1) an unemployment rate of at least 1.5 times the national unemployment rate; (2) poverty rates of at least 20 percent in each of 90 percent of the area's census tracts (or equivalent areas for nonmetropolitan areas); (3) a decline in employment (as measured by total wages) of more than five percent over the five-year period prior to the zone's designation; and (4) a decline in population of 10 percent or more over the period from 1980 to 1990.

Course of action

In order for a nominated area to be eligible for designation as a tax enterprise zone, the local government and State in which the area is located are required to agree in writing that they will adopt (or continue to follow) a specified course of action designed to reduce burdens borne by employers or employees in the area. A specified course of action may include one or more of the following actions with respect to a nominated area: (1) direct provision by the State or local government of property insurance to businesses that are unable to purchase comparable insurance coverage, or that are able to purchase such coverage only at a cost which is significantly higher than the statewide average cost of such coverage; (2) reduced tax rates or fees; (3) increased delivery of local public services; (4) actions to reduce government paperwork requirements; (5) involvement in the program by public or private entities (e.g., community groups), including a written commitment to provide jobs and job training, and technical, financial, or other assistance to employers, employees, and residents of the area; (6) special preferences given to minority contractors; (7) donations of surplus land to neighborhood organizations agreeing to operate businesses on the land; (8) programs to encourage employers to purchase health insurance for employees on a pooled basis; (9) programs to encourage local financial institutions to satisfy their obligations under the Community Reinvestment Act of 1977 (12 U.S.C. 2901 et seq.) by making loans to area businesses (with emphasis on start-up firms and certain other small businesses); and (10) special preferences for projects within the area in allocations of the State's low-income housing credit ceiling and private activity bonds ceiling.

Programs that serve as part of the required course of action undertaken by the State and local government may not be funded with proceeds from any Federal program (other than discretionary proceeds).[3] In evaluating courses of action agreed to by State and local governments, the Secretary of HUD (or, in the case of a rural development investment zone, the Secretary of Agriculture) is to take into account the past efforts of the State or local government in reducing the various burdens borne by employers and employees in the nominated area.[4]

---

[1] For purposes of the House bill, the term "local government" means any county, city, town, township, parish, village, or other general purpose political subdivision of a State (and certain combinations of such political subdivisions).

[2] The designation of an area as a tax enterprise zone may be revoked if the Secretary of HUD (or, in the case of a rural development investment zone, the Secretary of Agriculture) determines after a hearing on the record involving officials of the State or local government involved that (1) the boundaries of the area have been modified, or (2) the State or local government is not complying substantially with the commitments made as part of the required course of action (described below).

[3] For this purpose, "discretionary proceeds" are funds such as community development block grants, the use of which is not restricted to a tax enterprise zone.

Selection process and criteria

All designated tax enterprise zones are to be selected from nominated areas on the basis of the following criteria (each of which will be given equal weight): (1) the strength and quality of promised contributions by State and local governments in their course of action relative to their fiscal ability; (2) the effectiveness and enforceability of the guarantees that the promised course of action actually will be implemented; (3) the level of commitments (including expected future commitments) by private entities of additional resources to the economy of the nominated area, including the creation of new or expanded business activities; (4) the average ranking (relative to other nominated areas) with respect to (a) in the case of a nominated urban tax enterprise zone, the degree of poverty and unemployment, or (b) in the case of a nominated rural development investment zone, two of the following criteria that give the area a higher average ranking—poverty, unemployment, job loss, or population loss; and (5) the potential for revitalization of the nominated area (including the potential reduction in the incidence of crime and narcotics use and traffic), taking into account particularly the number of jobs to be created or retained.

Rules

Within four months after the date of enactment, the Secretary of HUD and the Secretary of Agriculture are required to promulgate rules (by notice or regulation) regarding: (1) procedures for nominating tax enterprise zones; (2) the method for comparing the enumerated selection criteria; and (3) recordkeeping requirements to assist in the preparation of studies to be submitted to Congress (described below).

Tax incentives

Employer wage credit

A 15-percent credit against income tax liability is available to all employers for the first $20,000 of wages paid or incurred by an employer for services performed by an employee while that employee both (1) resides in a tax enterprise zone (i.e., his or her principal place of abode is within a tax enterprise zone), and (2) performs substantially all employment services for the employer within the tax enterprise zone in a trade or business of the employer.

The wage credit is available with respect to a qualified employee who meets the two criteria above, regardless of the number of other employees who work for the employer or whether the employer meets the definition of an "enterprise zone business" (which applies for the other tax incentives described below).

Qualified wages include the first $20,000 of wages (generally defined as for FUTA purposes). Thus, the maximum credit per employee is $3,000 per year. Wages paid to a qualified employee continue to be eligible for the credit if the employee earns more than $20,000, although only the first $20,000 of wages are eligible for the credit.[5]

The credit is allowed with respect to full-time and part-time employees. However, if an employee is terminated less than one year after initial employment, the amount of credits previously claimed by the employer with respect to that employee generally is recaptured (unless the employee voluntarily leaves, becomes disabled, or is fired due to misconduct). In addition, wages are not eligible for the credit if attributable to services rendered by an employee during the first year he or she begins work for the employer if any portion of such wages is taken into account in determining the targeted jobs tax credit (TJTC) under present-law section 51.

Wages are not eligible for the credit if paid to certain relatives or dependents of the employer (described under present-law section 51(i)(1)) or, if the employer is a corporation, certain relatives of a person who owns more than 50 percent of the corporation. In addition, wages are not eligible for the credit if paid to a person who owns more than five percent of the stock of the employer (or if the employer is not a corporation, more than five percent of the capital or profits interests in the employer).

The wage credit provided for by the House bill is not refundable, and an employer's deduction otherwise allowed for wages paid is reduced by the amount of the credit claimed for the taxable year. The credit is subject to the general business credit limitations of section 38 and, therefore, may not be used to reduce tentative minimum tax.[6]

The House bill further provides that each employer shall take reasonable steps to notify all employees whose wages qualify for the employer wage credit of their eligibility to receive advance refundability of the earned income tax credit (EITC).

Investment incentives

Definition of "enterprise zone business."—The House bill provides five investment incentives and special rules for redevelopment bonds that apply only with respect to trades or businesses that satisfy the definition of an "enterprise zone business." An enterprise zone business is defined as either a "qualified business entity" or a "qualified proprietorship."

A qualified business entity is defined as any corporation or partnership if for the taxable year: (1) every trade or business of the entity is the active conduct of a qualified business within a tax enterprise zone; (2) at least 80 percent of the total gross income of the entity is derived from the active conduct of such business; (3) substantially all of the use of the tangible property of the entity (whether owned or leased) occurs within a tax enterprise zone; (4) substantially all of the services performed for the entity by its employees are performed in a tax enterprise zone; (5) at least one-third of the employees of the entity are residents of a tax enterprise zone; (6) less than five percent of the average of the aggregate unadjusted bases of the property of the entity is attributable to nonqualified financial property;[7] and (7) less than five percent of the average of the aggregate unadjusted bases of the property of the entity is attributable to collectibles not held primarily for sale to customers in the ordinary course of such business.

A qualified proprietorship is defined as any qualified business that is carried on by an individual as a proprietorship if for the taxable year: (1) at least 80 percent of the total gross income of the individual from such business is derived from the active conduct of such business within a tax enterprise zone; (2) substantially all of the use of the tangible property in such business (whether owned or leased) occurs within a tax enterprise zone; (3) substantially all of the services performed for such business by the employees of the business are performed in a tax enterprise zone; (4) at least one-third of such employees are residents of a tax enterprise zone; and (5) less than five percent of the average of the aggregate unadjusted bases of the property that is used in the business is attributable to (a) nonqualified financial property (as defined above), or (b) collectibles not held primarily for sale to customers in the ordinary course of such business.

A qualified business is defined as any trade or business other than a trade or business that consists predominantly of the development or holding of intangibles for license or sale. The rental of real property located in a tax enterprise zone to others is treated as a qualified business if and only if: (1) in the case of residential rental property (as defined in section 168(e)(2)), either (a) the property was originally placed in service after the designation of the area as a tax enterprise zone, or (b) the property is rehabilitated (as determined under the principles of section 42(e)(3)) after the designation of the area as a tax enterprise zone; or (2) in the case of real property that is not residential rental property, the lessee of the property is an enterprise zone business.

In addition, the rental of tangible personal property to others is treated as a qualified business if and only if substantially all of the rental of such property is by enterprise zone businesses or by residents of a tax enterprise zone.

Increased section 179 expensing.—The $10,000 expensing allowance under section 179 for certain depreciable business property is increased to $20,000 for an enterprise zone business. As under present law, the section 179 expensing allowance is phased out for taxpayers with qualifying investment in excess of $200,000 during any taxable year (i.e., the $20,000 amount is phased out for an enterprise zone business with investment during any taxable year between $200,000 and $220,000).

---

[4] The House bill provides that the required course of action may not include any action to assist any establishment in relocating from one area to another. However, this limitation is not to be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary if (1) the establishment of the new branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where the existing business entity conducts business operations, and (2) there is no reason to believe that the new branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where the existing business entity conducts business operations.

[5] To prevent avoidance of the $20,000 limit, all employees of a controlled group of corporations (or partnerships or proprietorships under common control) are treated as employed by a single employer. In addition, special rules are provided to deal with changes of business ownership (or the form of business) of the employer.

[6] No portion of the unused business credit for any taxable year that is attributable to the employer wage credit may be carried back to a taxable year ending before the date of enactment of the bill.

[7] Nonqualified financial property is defined as debt, stock, partnership interests, options, futures contracts, forward contracts, warrants, notional principal contracts, annuities, and other similar property that is specified as nonqualified financial property in regulations to be issued by the Treasury Department. Nonqualified financial property, however, does not include (1) reasonable amounts of working capital held in cash, cash equivalents, or debt instruments with a term of 18 months or less; or (2) accounts or notes receivable that are acquired in the ordinary course of the qualified business for services rendered or from the sale of property held primarily for sale to customers of the qualified business.

In the case of an enterprise zone business that is a component member of a controlled group of corporations, the $20,000 amount is to apply only if all components members of the group are enterprise zone businesses. In addition, if for any taxable year an individual elects the $10,000 section 179 expensing allowance with respect to property of a business that is not an enterprise zone business, then the $20,000 amount allowed such individual under section 179 with respect to property of an enterprise zone business is to be reduced by the amount taken into account under section 179 with respect to property of the business that is not an enterprise zone business. As under present law, the $20,000 expensing limitation is to apply at both the partnership and partner level.

The increased expensing allowance applies for purposes of the alternative minimum tax (i.e., it is not treated as an adjustment for purposes of the alternative minimum tax).

Capital gain exclusion.—In the case of an individual, an exclusion from gross income is provided for 50 percent of any long-term capital gain recognized on the sale or exchange of a "qualified zone asset" held for more than five years.[8] The term "qualified zone asset" means the following property: (1) "qualified zone business property," meaning tangible property acquired by the taxpayer[9] after the date of zone designation, provided that the original use of such property in the tax enterprise zone commences with the taxpayer[10] and substantially all of the use of such property during substantially all of the taxpayer's holding period was in a tax enterprise zone and in an enterprise zone business of the taxpayer; (2) "qualified zone stock," meaning stock in a domestic corporation that, at the time of issuance[11] and during substantially all of the taxpayer's holding period, was an enterprise zone business, provided that such stock was acquired by the taxpayer on original issue from the corporation solely in exchange for cash[12]; and (3) "qualified zone partnership interests," meaning partnership interests acquired solely in exchange for cash in a partnership which, at the time such interest was acquired[13] and during substantially all of the taxpayer's holding period, was an enterprise zone business.

A special rule provides that, in the case of property that is "substantially renovated," such property need not be acquired by the taxpayer after the date of zone designation, nor need the original use of such property in the zone commence with the taxpayer. For purposes of this special rule, property is treated as "substantially renovated" if, during any 24-month period beginning after the date of zone designation, additions to basis with respect to such property in the hands of the taxpayer exceed the greater of (1) an amount equal to the adjusted basis at the beginning of such 24-month period in the hands of the taxpayer, or (2) $5,000. Thus, substantially renovated real estate located in a tax enterprise zone may constitute qualified zone business property. The House bill specifically provides, however, that "qualified zone business property" shall not include land which is not an integral part of an enterprise zone business.

In addition, the House bill treats as a qualified zone asset property which was a qualified zone asset in the hands of a prior owner, provided that at the time of acquisition, and during substantially all of the subsequent purchaser's holding period, the property is used (or is an ownership interest) in an enterprise zone business.[14]

The House bill includes a 10-year safe-harbor, pursuant to which property that ceases to be a qualified zone asset because the property is no longer used in (or no longer represents an ownership interest in) an enterprise zone business after the 10-year period beginning on the date that the taxpayer acquired such property will continue to be treated as a qualified zone asset. Under this rule, the amount of gain eligible for the 50-percent exclusion is not to exceed the amount which would be qualified capital gain had the property been sold on the date of such cessation.

The House bill contains several special rules that apply to pass-thru entities, which are defined as partnerships, S corporations, regulated investment companies, and common trust funds. In the case of a sale or exchange of an interest in a pass-thru entity that was not an enterprise zone business during substantially all of the period that the taxpayer held the interest, the 50-percent capital gain exclusion is to apply to the extent that the gain is attributable to amounts that would have been long-term capital gain on qualified zone assets had the assets been sold for their fair market value on the date of the sale or exchange of the interest in the pass-thru entity. This rule is to apply only if the interest in the pass-thru entity was held by the taxpayer for more than five years. In addition, this rule is to apply only to qualified zone assets that were held by the pass-thru entity for more than five years and throughout the period that the taxpayer held the interest in the pass-thru entity.[15]

In addition, the 50-percent capital gain exclusion is to apply to any amount that is included in gross income by reason of holding an interest in a pass-thru entity that was not an enterprise zone business during substantially all of the period that the taxpayer held the interest if the amount is attributable to long-term capital gain recognized on the sale or exchange of a qualified zone asset held by the pass-thru entity for more than five years. This rule is to apply only to qualified zone assets that were acquired and disposed of by the pass-thru entity while the taxpayer held an interest in the pass-thru entity.[16]

The House bill also limits the amount of gain that qualifies for the 50-percent exclusion in the case of a sale or exchange of an interest in a partnership or stock in an S corporation that was an enterprise zone business during substantially all of the period that the taxpayer held such interest or stock. The gain that qualifies for the 50-percent exclusion is to be determined without regard to any land or intangible asset if such land or intangible asset was not used as an integral part of an enterprise zone business organized as a partnership or S corporation.

The House bill provides that in the case of a transfer of a qualified zone asset by gift, at death, or from a partnership to a partner that held an interest in the partnership at the time that the qualified zone asset was acquired, the transferee is to be treated (1) as having acquired the asset in the same manner as the transferor and (2) as having held the asset during any continuous period immediately preceding the transfer during which the asset was held (or treated under this provision as held) by the transferor.

Capital gain deferral.—At the election of an individual, long-term capital gain that is derived from the sale or exchange of any "qualified zone asset" (as defined above for purposes of the 50-percent capital gain exclusion provision) may be deferred if the proceeds of the sale or exchange are reinvested in another qualified zone asset. Gain is to be recognized only to the extent that (1) the amount realized from the sale or exchange, exceeds (2) the cost of any qualified zone asset that is purchased[17] directly by the individual during the six-month period beginning on the date of the sale or exchange (and that has not been previously taken into account under the provision). A qualified zone asset is not to include any timber, coal, or iron ore.

Capital gain that is eligible for the nonrecognition treatment includes long-term capital gain that is derived from the sale or exchange of a qualified zone asset to the extent attributable to: (1) in the case of stock or a partnership interest, the period during which the corporation or partnership was an enterprise zone business; or (2) in the case of any other qualified zone asset, the period during which substantially all of the use of the property was in an enterprise zone business. Eligible enterprise zone capital gain does not include any gain from any installment sale if such gain is taken into account under the installment method.

The basis of any qualified zone asset the purchase of which results in the nonrecognition of gain under this provision (defined as "qualified zone replacement asset") is reduced by the amount of gain that is not recognized by reason of the provision. In addition, if, at any time during the 10-year period beginning on the date that the qualified zone replacement asset was purchased by the taxpayer, the asset ceases to be a qualified zone asset, then the taxpayer is treated as disposing of such asset. The amount of gain taken into account with respect to such a deemed disposition is not to exceed the lesser of: (1) the amount of gain not recognized under the provision by reason of the purchase of such qualified zone replacement asset; or (2) the excess of the fair market value of the asset as of the first day of the taxable year in which the deemed disposition occurs over the adjusted basis of such asset as of such day.

---

[8] The 50-percent capital gains exclusion provision (and deferral provision discussed below) do not apply to any gain which would be treated as ordinary income under section 1250 if that section applied to all depreciation rather than the additional depreciation.

[9] The property must be acquired by the taxpayer by "purchase" within the meaning of present-law section 179(d)(2).

[10] Thus, used property may constitute "qualified zone business property" if the property has not been used in a tax enterprise zone prior to the taxpayer's use of the property within the zone.

[11] In the case of a new corporation, it is sufficient if the corporation is being organized for purposes of being an enterprise zone business.

[12] Qualified zone stock does not include any stock acquired from a corporation which made a substantial stock redemption or distribution (without a bona fide business purpose therefor) in an attempt to avoid the purposes of the provisions. A similar rule also applies with respect to qualified zone partnership interests.

In addition, qualified zone stock for purposes of the capital gains exclusion and deferral provisions does not include any stock with respect to which the taxpayer elected to claim a deduction upon purchase (as described below).

[13] In the case of a new partnership, it is sufficient if the partnership is being organized for purposes of being an enterprise zone business.

[14] The termination or revocation of a tax enterprise zone designation will not, by itself, result in property failing to be treated as a qualified zone investment. However, capital gain eligible for the 50-percent exclusion does not include any gain attributable to periods after the termination or revocation of a tax enterprise zone designation.

[15] The amount of gain to which this rule applies is also limited based on the interest of the taxpayer in the pass-thru entity on the date that the qualified zone asset was acquired.

[16] The amount of gain to which this rule applies is also limited based on the interest of the taxpayer in the pass-thru entity on the date that the qualified zone asset was acquired.

[17] The term "purchase" has the meaning given that term by section 179(d)(2).

The statute of limitations on the assessment of tax that is attributable to any gain to which an election under this provision applies is not to expire until three years after the date that the Internal Revenue Service is notified by the electing individual of either: (1) the individual's cost of purchasing any qualified zone replacement asset; (2) the individual's intention of not purchasing any qualified zone replacement asset; or (3) the individual's failure to purchase any qualified zone replacement asset within the six-month period following the sale or exchange to which the gain relates.

The elective deferral of capital gain applies to an individual's distributive share of eligible enterprise zone capital gain recognized by a partnership. In addition, the capital gain deferral applies for purposes of the alternative minimum tax.

Ordinary loss treatment for certain property.—Loss on any property that is a qualified zone asset (as defined above) at the time that the loss is sustained is treated as an ordinary loss to the extent that the loss is attributable to the period that the property was held by the taxpayer as a qualified zone asset.

The ordinary loss treatment applies only to qualified zone assets that satisfy a holding-period requirement. In the case of a qualified zone asset that is stock or a partnership interest, the taxpayer must have held the stock or partnership interest throughout the two-year period ending on the date that the loss is sustained. In case of a qualified zone asset that is tangible property, the property must have been held and used by the taxpayer in an enterprise zone business throughout the two-year period (or, in the case of real property,[18] five-year period) ending on the date that the loss is sustained.

Any loss that is treated as an ordinary loss under this provision is not to be taken into account in applying section 1231. In addition, any loss that is treated as an ordinary loss under this provision is to be treated as attributable to a trade or business of the taxpayer for purposes of the net operating loss deduction of section 172. Finally, the ordinary loss treatment is to apply for purposes of the alternative minimum tax.

Deduction for purchase of enterprise zone stock.—An individual is allowed an above-the-line deduction for the amount paid in cash during any taxable year to purchase "enterprise zone stock." The amount allowed as a deduction for any taxable year is limited to $25,000. If the amount paid during any taxable year for enterprise zone stock exceeds the $25,000 limitation, then the excess amount may be carried over and deducted in succeeding taxable years. The aggregate amount of the deductions allowed under the provision with respect to any individual may not exceed $250,000.[19]

"Enterprise zone stock" is defined as stock of a corporation if: (1) the stock is acquired on original issue from the corporation; (2) at the time of issue, the corporation is a qualified enterprise zone issuer; and (3) the amount of issue of which the stock is a part does not exceed the amount of the enterprise zone limit allocated to the issue (as described below). Stock of a corporation is to qualify as enterprise zone stock, however, only to the extent that the proceeds of such issuance are used by the issuer during the 12-month period following the issuance to purchase property (1) that is depreciable under section 168, (2) the original use of which within a tax enterprise zone commences with the issuer,[20] and (3) substantially all of the use of which is in a tax enterprise zone.

A qualified enterprise zone issuer is defined as any domestic C corporation if: (1) the corporation is an enterprise zone business, or, in the case of a newly formed corporation, the corporation is being organized for the purpose of being an enterprise zone business; (2) the corporation does not have more than one class of stock; (3) the sum of (a) the money, (b) the aggregate unadjusted bases of the property owned by the corporation, and (c) the value (as determined under Treasury regulations) of the assets leased to the corporation, does not exceed $5 million;[21] and (4) more than 20 percent of the total value and total voting power of the stock of the corporation is owned by individuals (directly or through partnerships or trusts) or by estates.

The amount of stock issued during any calendar year that may qualify as enterprise zone stock is limited to $30 million for each tax enterprise zone. As part of the tax enterprise zone nomination process, the State and local governments in which the tax enterprise zone is located are required to designate a local governmental official who is responsible for allocating the $30 million limit to stock issued during the calendar year by qualified enterprise zone issuers of the particular tax enterprise zone.

The basis of any enterprise zone stock is reduced by the amount of the deduction allowed with respect to the stock. Special recapture rules also apply to enterprise zone stock with respect to which a deduction was allowed. First, such stock (and any other property the basis of which is determined by reference to the adjusted basis of such stock) is treated as section 1245 property and the deduction allowed under this provision is treated as a depreciation deduction for purposes of applying section 1245. Consequently, the gain recognized upon the disposition of such stock generally is treated as ordinary income to the extent of the deduction allowed under this provision.

Second, if enterprise zone stock with respect to which a deduction was allowed under this provision (or any other property the basis of which is determined by reference to the adjusted basis of such stock) is disposed of within 5 years after the date that the stock was purchased by the taxpayer and section 1245 applies to such a disposition by reason of the first recapture rule, then the taxpayer is required to pay interest on the amount of tax that would have otherwise been due if a deduction had not been allowed for the purchase of the enterprise zone stock.

The recapture rules also apply if, during the 10-year period beginning on the date that the enterprise zone stock was purchased by the taxpayer, the issuer of the stock ceases to be a qualified enterprise zone issuer.[22] In such a case, the taxpayer is treated as disposing of the stock during the taxable year in which the cessation occurs at a price equal to the fair market value of the stock as of the first day of such taxable year.

The deduction for the purchase of enterprise zone stock is allowed to individuals who purchase such stock through a partnership or an S corporation. In such a case, the $25,000 annual limitation and the $250,000 lifetime limitation apply only at the partner or shareholder level. The deduction for the purchase of enterprise zone stock is not allowed to estates or trusts. Finally, the deduction for the purchase of enterprise zone stock is allowed for purposes of the alternative minimum tax.

Regulatory authority.—The Treasury Department is authorized to issue such regulations as may be necessary or appropriate to carry out the purposes of the enterprise zone tax incentives, including: (1) regulations that limit the tax benefits where the tax benefits in combination with benefits provided under other Federal programs would result in an activity being 100 percent or more subsidized by the Federal government; (2) regulations that prevent the abuse of the enterprise zone tax incentives; and (3) regulations that provide relief for inadvertent failures to qualify as an enterprise zone business.

Expansion of qualified redevelopment bond rules

Automatic qualification of tax enterprise zones

Qualified redevelopment bonds are tax-exempt private activity bonds, 95 percent or more of the net proceeds of which are used to finance redevelopment purposes in "designated blighted areas." Under present law, designated blighted areas are geographic areas designated by local governments pursuant to State authorizing legislation. The designation of these areas must be based on the substantial presence in the areas of factors such as excessive vacant land on which structures were previously located; abandoned or vacant buildings; substandard structures; vacancies; and delinquencies in the payment of real property taxes. Present law also restricts the maximum percentage of a jurisdiction that may be designated as blighted and includes both minimum and maximum sizes for each area, including special rules designed to facilitate use of these bonds in rural areas.

The House bill provides that a tax enterprise zone will qualify automatically as a designated blighted area eligible for qualified redevelopment bond financing during the first 60 months following the month of the designation of the zone. Thus, qualified redevelopment bonds may be issued to finance both present-law and newly expanded redevelopment purposes within these zones during this 60-month period, without the present-law necessity of a local designation as a blighted area pursuant to a State statute authorizing such designation.

---

[18] For this purpose, the term "real property" means any property which is section 1250 property (as defined in section 1250(c)).

[19] For purposes of the $25,000 annual limitation and the $250,000 lifetime limitation, an individual and all members of his or her family (as defined in section 267(c)(4)) are treated as a single individual.

[20] Thus, a corporation may use the proceeds of the stock issuance to purchase or construct new property or to purchase property previously used outside the tax enterprise zone.

[21] This determination is to be made as of the date that the stock is issued and is to include any amount received by the corporation in exchange for the stock.

[22] The determination of whether an issuer of stock ceases to be a qualified enterprise zone issuer is to be made without regard to the requirement that the sum of (a) the money, (b) the aggregate unadjusted bases of the property owned by the corporation, and (c) the value (as determined under Treasury regulations) of the assets leased to the corporation does not exceed $5 million. In addition, a corporation is not treated as ceasing to satisfy the definition of a qualified enterprise zone issuer solely by reason of the termination or revocation of the tax enterprise zone designation.

Expansion of eligible redevelopment purposes

In general.—Redevelopment purposes eligible for bond-financing under present law are: (1) acquisition by a governmental unit of real property located in a designated blighted area, provided that the acquiring governmental unit has the power to exercise eminent domain with respect to the property; (2) clearing and preparation of the acquired real property for redevelopment; (3) rehabilitation of real property within a designated blighted area; and (4) relocation of occupants of structures on the real property acquired with bond proceeds.

In addition to the purposes eligible for qualified redevelopment bond financing under present law, the bill allows all or any portion of the proceeds of qualified redevelopment bonds issued for use in a tax enterprise zone during the 60-month period following its designation to be used to finance certain loans to enterprise zone businesses (as defined above) for property used in the business. The aggregate amount of loans (from all bond issues) may not exceed $2.5 million per business.[23]

Redevelopment purposes eligible for financing with these bond-financed loans to enterprise zone businesses are limited to: acquisition of land and other real property located in the tax enterprise zone; rehabilitation of existing land or other real property in the zone; construction of new depreciable real property in the zone; and, acquisition or construction of certain depreciable tangible personal property. All bond-financed property must be used in an enterprise zone business and substantially all of the use of the property must be in the tax enterprise zone for which the bonds are issued.

Qualified redevelopment bonds issued under this provision may not be used to make loans or otherwise finance property eligible under present law for financing with other categories of tax-exempt private activity bonds. For example, proceeds of these bonds may not be used to finance housing (rental or owner-occupied) or farmland because that property may be financed with the proceeds of exempt-facility bonds for qualified residential rental property, qualified mortgage and qualified veterans' mortgage bonds, or qualified small-issue bonds for first-time farmers, each of which presently targets the Congressionally intended beneficiaries of tax-exempt bonds for those purposes. However, for qualified redevelopment bonds issued under this provision, the bill waives the present-law restriction on financing retail food facilities (i.e., restaurants).

Additional qualifications

Loan origination.—The amount of bond proceeds to be used to make loans to enterprise zone businesses must be irrevocably designated by the issuer when the bonds are issued, and any designated proceeds that are not used to make qualified loans to enterprise zone businesses within 18 months after the bonds are issued must be used to redeem bonds (in the same manner as described below on the rules restricting recycling of loan repayments). For purposes of this requirement, a loan is deemed made when funds are disbursed to the borrowing enterprise zone business that is to be the ultimate user of the proceeds.

Additional restriction on purpose arbitrage.—Notwithstanding their use to make loans to multiple parties, qualified redevelopment bonds issued under these rules will not be treated as "program" bonds under any Treasury Department arbitrage rules. Thus, permitted purpose arbitrage earnings on any issue of these bonds may not exceed 0.125 percentage points plus administrative costs allowable under Treasury regulations.

Further, to ensure the maximum interest rate subsidy to enterprise zone businesses receiving loans financed with these bonds, the bill provides that the effective rate of interest on bond-financed loans to the businesses may not exceed the yield on the issue by more than 0.125 percentage points. In determining the effective rate of interest on these loans, all points, fees, charges, and other amounts borne by the enterprise zone business are taken into account.[24]

Recycling not permitted.—All repayments of principal on loans financed with these bonds must be used to redeem bonds that are part of the issue no later than the close of the first semiannual period beginning after the date the repayment is received. The redemption requirement does not apply to require amounts of less than $250,000 to be used to redeem bonds, but those amounts (of unoriginated loan proceeds or repayments) are aggregated with future repayments in applying the requirement in subsequent semiannual periods.

Liberalization of bond security requirements

Notwithstanding any private payments made with respect to use of qualified redevelopment bond proceeds, present law requires the primary security for the bonds to be (a) taxes of general applicability imposed by a general purpose governmental unit, or (b) incremental property tax revenues which are reserved exclusively for debt service on the bonds.

The House bill expands the present-law rules requiring local governments to pledge tax revenues as primary security for repayment of qualified redevelopment bonds to allow two additional sources of local government security to be provided for bonds issued during the first 60 months after a zone's designation. First, general purpose governmental units in which tax enterprise zones are located may directly guarantee repayment of the bonds (e.g., by a pledge of their full faith and credit or through other loan guarantee programs funded and operated by them). Second, the governmental units may purchase a letter of credit or bond insurance as security for repayment of the bonds. To ensure that such a credit enhancement device provided under the second rule is a local government contribution to the tax enterprise zone, the bill provides that any public law or Treasury Department regulation otherwise allowing recovery of credit enhancement costs through arbitrage earnings will not apply to the cost of these credit enhancement devices.

Penalty for failure to continue as zone business or to use bond-financed property in the zone business

Under present law, interest on loans financed with tax-exempt private activity bonds, including qualified redevelopment bonds, becomes nondeductible if certain changes in the use of bond-financed property occur (the "change-in-use rules"). If an enterprise zone business receiving a loan financed with qualified redevelopment bond proceeds ceases to qualify as such during any period when the financing is outstanding, or if less than substantially all[25] of the use of bond-financed property continues to be by the business in the tax enterprise zone, a prohibited change in use occurs under the tax-exempt bond rules.[26] Accordingly, interest on all loans to the nonqualifying business, or on loans to finance property that ceases to be used by the business in the tax enterprise zone, becomes nondeductible, effective from the first day of the taxable year in which the disqualification or cessation of use occurs.

Further, if less than substantially all of the use of bond-financed property continues to be in the tax enterprise zone or the borrower ceases to be an enterprise zone business at any time within 10 years after the financing is provided, a penalty of 1.25 percent of the face amount of *all* qualified redevelopment bond financing provided to the business removing the property is imposed. This penalty is in addition to the loss of interest deductions, described above.

The House bill provides that the change-in-use and 1.25-percent penalties are waived in the case of borrowers that cease to qualify as enterprise zone businesses or that cease to use bond-financed property in the zone in that business as a result of bankruptcy. It is intended that the Treasury Department may waive these penalties in the case of violations caused by circumstances beyond the control of the borrower if the violations are corrected within a reasonable period after the business has reason to know of them.

It is further intended that tax-exemption of the interest on qualified redevelopment bonds used to finance loans to enterprise zone businesses not be affected by events giving rise to loss of interest deductions or the 1.25 percent penalty, provided that the issuer of the bonds reasonably expects when loans are originated that (1) all property to be financed will continue to be used in the zone throughout its useful life (or the zone designation period, if shorter) and (2) each business to which loans are made will continue to qualify as a tax enterprise zone business throughout the designation period.

Partial exemption from State volume limitations

Under present law, issuance of qualified redevelopment bonds, like most other tax-exempt private activity bonds, are subject to annual State private activity bond volume limitations. Qualified redevelopment bonds issued during the first 60 months after a tax enterprise zone's designation to finance zone redevelopment purposes are allowed a 50 percent exclusion from the otherwise applicable State private activity bond volume limitations.

Credit for contributions to certain community development corporations

The House bill also provides a credit for qualified cash contributions made to certain community development corporations (CDCs). If a taxpayer makes a qualified contribution, the credit may be claimed by the taxpayer for each taxable year during a 10-year period beginning with the taxable year during which the contribution was made. The credit that may be claimed for each year is equal to five percent of the amount of the contribution to the CDC. Thus, during the 10-year credit period, the taxpayer may claim aggregate credit amounts totalling 50 percent of the contribution.

---

[23] All persons or entities that are related parties under section 52 are treated as a single enterprise zone business in applying the $2.5 million limit.

[24] The House bill provides that credit report fees which do not exceed the fees charged generally for similar loans not financed with tax-exempt bonds may be excluded from this calculation.

[25] The term "substantially all" is defined as under the other tax enterprise zone rules, which may not coincide with the pre-1986 or any current tax-exempt bond meaning for that term.

[26] Expiration of a zone designation period due solely to passage of time does not result in imposition of this change-in-use penalty.

For purposes of this provision, a qualified contribution is defined as any transfer of cash that meets the following requirements: (1) it is made to one of up to 10 CDCs selected by the Secretary of HUD, provided that the contribution is made during the five-year period after the CDC is so selected by the Secretary of HUD; (2) the amount is available for use by the CDC for at least 10 years;[27] (3) the contribution is to be used by the CDC to provide qualified low-income assistance[28] within its operational area; and (4) the CDC designates the contribution as eligible for the credit. The aggregate amount of contributions which may be designated by a selected CDC as eligible for the credit may not exceed $2 million.

Prior to January 1, 1994, the Secretary of HUD may select up to 10 CDCs as eligible to participate in the program (subject to the availability of eligible CDCs).[29] To be selected, a CDC must have the following characteristics: (1) it must be a tax-exempt charity described in section 501(c)(3) of the Code; (2) its principal purposes must include promoting employment and business opportunities for individuals who are residents of its operational area; and (3) its operational area must (a) meet the geographic limitations that would apply if the area were designated as a tax enterprise zone, (b) have an unemployment rate that is not less than the national average, and (c) have a median family income which does not exceed 80 percent of the median family income of residents within the jurisdiction of the local government.[30]

The credit is subject to the general business credit limitations of section 38 and, therefore, may not be used to reduce tentative minimum tax.

Studies

The Secretary of the Treasury and the Comptroller General each are directed to submit an interim report by July 1, 1997, and a final report by July 1, 2002, to Congress analyzing the effectiveness of the tax enterprise zones.

Effective date

Under the House bill, tax enterprise zone designations may be made only during calendar years 1992 through 1996. The tax incentives provided for tax enterprise zones generally are available during the period that the designation remains in effect, which generally covers the 15-year period after the designation first becomes effective. The provisions that expand tax-exempt financing rules apply to bonds issued after the date of the bill's enactment and within 60 months after the designation of the tax enterprise zone in which the bond proceeds are to be used. For purposes of the qualified CDC contribution credit, the Secretary of HUD may select during calendar years 1992 and 1993 a total of 10 CDCs eligible to receive qualified contributions.

SENATE AMENDMENT

Designation of tax enterprise zones

In general

The Senate amendment provides that a total of 115 tax enterprise zones may be designated (subject to availability of eligible zones) during 1993 through 1996. Tax enterprise zones are urban tax enterprise zones or rural development investment zones, and are to be designated from areas nominated by State and local governments.

The Secretary of Housing and Urban Development (HUD) may designate 75 urban tax enterprise zones (up to 11 zones designated in 1993, 14 zones in 1994, 25 zones in 1995, and 25 zones in 1996).[31] Any shortfall in designations of zones may be carried forward to the following year, but not beyond 1996.

The Secretary of Agriculture (in consultation with the Secretary of the Interior) will designate 40 rural development investment zones (up to 8 zones designated in 1993, 8 zones in 1994, 12 zones in 1995, and 12 zones in 1996).[32] Any shortfall in designations of zones may be carried forward to the following year, but not beyond 1996.

Zone designations generally will remain in effect for 10 years. An area's zone designation may be revoked if the local government or State significantly modifies the boundaries or does not comply with its agreed-upon course of action for the zone (described below).

Eligibility criteria for zones

The eligibility criteria for urban tax enterprise zones and rural development investment zones generally are the same as the House bill (except as noted below). To be eligible for designation as a tax enterprise zone, a nominated area is required to have all of the following characteristics: (1) a population of at least 20,000 (10,000 in the case of an urban zone in a city with a population of less than 500,000, and 5,000 in the case of a rural zone); (2) a condition of unemployment and general distress (indicated by factors such as high crime rates, or designation of the area as a disaster area or high-intensity drug trafficking area ("HIDTA") under the Anti-Drug Abuse Act of 1988); (3) is one contiguous area; (4) is located within not more than two States; (5) poverty rates of at least 25 percent in each of the area's census tracts; (6) poverty rates of at least 35 percent in each of at least 80 percent of the area's census tracts; and (7) a satisfactory course of action (described below) adopted by the State and local governments designed to promote economic development in the nominated area.

Course of action

In order for a nominated area to be eligible for designation as a tax enterprise zone, the local government and State in which the area is located are required to agree in writing that they will adopt (or continue to follow) a specified course of action designed to reduce burdens borne by employers or employees in the area.

A course of action must include the following actions with respect to a nominated area: (1) certification by the State insurance commissioner (or similar official) that basic commercial property insurance of a type comparable to that insurance generally in force in urban or rural areas (whichever is applicable) throughout the State is available to businesses within the nominated area; (2) a program to ensure the necessary rehabilitation of publicly owned property; (3) a commitment to increase the level, or efficiency of delivery, of local public services (such as public safety protection); (4) involvement in the program by public or private entities (e.g., community groups), including a commitment to provide jobs and job training, and technical, financial, or other assistance to employers, employees, and residents of the area; (5) special preferences granted to contractors owned and operated by socially and economically disadvantaged groups, in connection with activity in the zone; (6) certain programs to encourage local financial institutions to make loans to area businesses, with emphasis on small and locally owned businesses; and (7) special preferences for projects within the area in allocations of the State's low-income housing credit ceiling and private activity bonds ceiling.

In addition, the required course of action may include the following: (1) a reduction of tax rates or fees applying within the zone; (2) donations of surplus land to community organizations agreeing to operate businesses on the land; and (3) programs to encourage employers to purchase health insurance for employees on a pooled basis.

Programs which serve as part of the required course of action may be implemented by both government and nongovernmental entities, but may not be funded with proceeds from any Federal program (other than discretionary proceeds, such as community development block grants, the use of which is not restricted to a zone). In evaluating courses of action agreed to by the State or local government, past efforts of those governments with respect to the nominated area are to be taken into account.

Selection process and criteria

All designated tax enterprise zones are to be selected from nominated areas on the basis of the following factors: (1) the strength and quality of promised contributions by State and local governments relative to their fiscal ability; (2) the effectiveness and enforceability of the guarantees that the promised course of action will be implemented, including the specificity with which the commitments enumerated in the course of action are described in order that it could be determined annually by the applicable Secretary whether such commitments actually are being carried out; (3) the level of commitments by private entities of additional resources to the economy of the nominated area, including the creation of new or expanded business activities; and (4) the relative levels (compared to other nominated areas) of unemployment, general distress, and poverty in the nominated area.

Tax incentives

Employer wage credit

A 30-percent credit against income tax liability is available to all employers for the first $15,000 of wages paid to each employee who (1) is a zone resident (i.e., his or her principal place of abode is within the zone), and (2) performs substantially all employment services within the zone in a trade or business of the employer.[33]

---

[27] The contribution to the CDC must be available for use by the CDC for up to a 10-year period, but need not meet the requirements of a "contribution or gift" for purposes of section 170. In other words, a contribution eligible for the credit under the bill may be made in the form of a 10-year loan (or other long-term investment), the principal of which is to be returned to the taxpayer after the 10-year period. However, in the case of a donation of cash made by a taxpayer to an eligible CDC, the taxpayer would be allowed to claim a charitable contribution deduction (subject to the present-law rules under section 170) and, in addition, could claim the credit under the bill's provisions.

[28] The House bill defines "qualified low-income assistance" as assistance (1) which is designed to provide employment and business opportunities to individuals who are residents of the operational area of the CDC, and (2) which is approved by the Secretary of HUD.

[29] At least four of the selected CDCs must operate in rural areas.

[30] In selecting CDCs, the Secretary of HUD must give priority to corporations with a demonstrated record of performance in administering community development programs that target at least 75 percent of the jobs emanating from their investment funds to low income or unemployed individuals.

[31] At least 40 of the urban tax enterprise zones are to be located in cities with a population of less than 500,000.

[32] The Senate amendment also provides that no area within any Indian reservation may be designated as a tax enterprise zone. (Under the Senate amendment, certain tax incentives may apply to businesses located within Indian reservations. See infra.)

The maximum credit per qualified employee is $4,500 per year. Wages paid to a qualified employee continue to be eligible for the credit if the employee earns more than $15,000, although only the first $15,000 of wages are eligible for the credit. The wage credit is available with respect to a qualified employee, regardless of the number of other employees who work for the employer or whether the employer meets the definition of an "enterprise zone business" (which applies for the investment tax incentives described below).

Qualified wages include the first $15,000 of "wages," defined as (1) salary and wages as generally defined for FUTA purposes, and (2) certain training and educational expenses paid on behalf of a qualified employee, provided that (a) the expenses are paid to an unrelated third party and are excludable from gross income of the employee under present-law section 127, or (b) in the case of an employee under age 19, the expenses are incurred by the employer in operating a youth training program in conjunction with local education officials.

The credit is allowed with respect to both full-time and part-time employees. However, the employee must be employed by the employer for a minimum period of at least 90 days or 120 hours of service. Wages are not eligible for the credit if paid to certain relatives of the employer or, if the employer is a corporation, certain relatives of a person who owns more than 50 percent of the corporation. In addition, wages are not eligible for the credit if paid to a person who owns more than five percent of the stock (or capital or profits interests) of the employer.

To be eligible for the wage credit, an employer is required to notify all employees eligible to receive advance refundability of the earned income tax credit (EITC) of the availability of such advance refundability.

For certain small employers, the credit is refundable (and may be used to reduce tentative minimum tax). For this purpose, the term "small employers" is defined as employers with gross receipts not greater than $2 million during the preceding taxable year, although refundability is phased out for employers with gross receipts between $1 million and $2 million. For employers that are not "small employers," the credit is not refundable. For such employers, the credit is subject to the general business credit limitations (sec. 38) and, therefore, may not be used to reduce tentative minimum tax.

An employer's deduction otherwise allowed for wages is reduced by the amount of credit claimed for that taxable year.

Expansion of targeted jobs tax credit

The present-law targeted jobs tax credit (TJTC) is expanded so that a person who resides in a tax enterprise zone is treated as a member of a targeted group for purposes of that credit. However, the TJTC credit rate for tax enterprise zone residents is 30 percent (rather than the regular TJTC credit rate of 40 percent). Thus, employers located outside tax enterprise zones are entitled to claim the 30-percent TJTC credit on up to $6,000 of qualified first-year wages paid to employees who reside within a tax enterprise zone.[34]

As under present-law, an employer's deduction otherwise allowed for wages is reduced by the amount of TJTC claimed for that taxable year.

Definition of "enterprise zone business"

The investment tax incentives described below (but not the labor incentives described above) are available only with respect to trade or business activities that satisfy the criteria for an "enterprise zone business." An "enterprise zone business" is defined as a corporation or partnership (or proprietorship) if for the taxable year: (1) every trade or business of the corporation or partnership is the active conduct of a qualified business within a tax enterprise zone[35]; (2) at least 80 percent of the total gross income is derived from the active conduct of a qualified business within a zone; (3) substantially all of the use of its tangible property occurs within a zone; (4) substantially all of its intangible property is used in, and exclusively related to, the active conduct of such business; (5) substantially all of the services performed by employees are performed within a zone; (6) at least one-third of the employees are residents of the zone; (7) less than five percent of the average of the aggregate unadjusted bases of the property of such entity is attributable to certain financial property; and (8) less than five percent of the average of the aggregate unadjusted bases of the property of such entity is attributable to collectibles not held primarily for sale to customers in the ordinary course of an active trade or business.

A "qualified business" is defined as any trade or business other than a trade or business that consists predominantly of the development or holding of intangibles for sale or license, a business consisting of the operation of a facility described in present-law section 144(c)(6)(B), and certain large farming operations if the aggregate unadjusted bases of the assets of the farm exceed $500,000. In addition, the leasing to others of any structure or building located within a tax enterprise zone is treated as a qualified business only if at least 50 percent of the gross rental income from the building or structure is derived from enterprise zone businesses. The rental of tangible personal property to others is not a qualified business unless substantially all of the rental of such property is by enterprise zone businesses or by residents of a tax enterprise zone.

Increased section 179 expensing

Certain enterprise zone businesses are allowed to expense 100 percent of the first $10,000 of investment in "qualified zone property." In addition, 50 percent of the next $40,000 of such investment also may be expensed.

"Qualified zone property" is defined as depreciable tangible property (including buildings), provided that: (1) such property was acquired by the taxpayer (but not from a related party) after the zone designation took effect; (2) the original use of the property in the zone commences with the taxpayer; and (3) substantially all of the use of the property is in the zone in the active conduct of a trade or business by the taxpayer in the zone. In the case of property which is substantially renovated by the taxpayer, however, such property need not be acquired by the taxpayer after zone designation nor originally used by the taxpayer within the zone if during any 24-month period after zone designation the additions to the taxpayer's basis in such property exceed 100 percent of the taxpayer's basis in such property at the beginning of the period or $5,000 (whichever is greater).

The expensing allowance is phased out for taxpayers with investment in depreciable business property during the taxable year totalling $200,000 to $250,000. As under present-law section 179, all component members of a controlled group are treated as one taxpayer for purposes of the expensing allowance and application of the phaseout (sec. 179(d)(6)). The increased expensing allowance is allowed for purposes of the alternative minimum tax (i.e., it is not treated as an adjustment for purposes of the alternative minimum tax). The expensing allowance is recaptured if the property is not used predominantly in an enterprise zone business (under rules similar to present-law section 179(d)(10)).

Accelerated depreciation

An enterprise zone business is to determine depreciation deductions with respect to "qualified zone property"[36] (defined above) by using the following recovery periods:

3-year property	2 years
5-year property	3 years
7-year property	4 years
10-year property	6 years
15-year property	9 years
20 year property	12 years
Nonresidential real property	20 years

The shorter recovery periods allowed for qualified zone property of enterprise zone businesses are not allowed for alternative minimum tax purposes.

Ordinary loss treatment

Loss incurred by an individual or corporate taxpayer on disposition of certain property used in an enterprise zone business is treated as ordinary loss. The provision applies to tangible property used in an enterprise zone business for at least two years (five years in the case of real property). Loss on disposition of a stock or partnership interest in an enterprise zone business held by an individual for at least two years also is treated as ordinary loss. Ordinary loss treatment is not available under the provision for intangible property, other than stock or partnership interests in enterprise zone businesses.

Stock interests eligible for the ordinary loss treatment must be acquired by the individual taxpayer on original issue from the corporation solely in exchange for cash at a time when the corporation was an enterprise zone business (or was being organized for the purpose of being an enterprise zone business) and, during substantially all of the taxpayer's holding period, the corporation qualified as an enterprise zone business.[37]

---

[33] The credit is not available, however, with respect to any individual employed at any facility described in present-law section 144(c)(6)(B) (i.e., a private or commercial golf course, country club, massage parlor, hot tub facility, suntan facility, racetrack or other facility used for gambling, or any store the principal business of which is the sale of alcoholic beverages for consumption off premises). In addition, the credit is not available with respect to any individual employed by a trade or business the principal activity of which is farming (within the meaning of subparagraphs (A) or (B) of section 2032A(e)(5)), but only if, as of the close of the preceding taxable year, the sum of the aggregate unadjusted bases of assets of the farm exceed $500,000.

[34] Employers located within a tax-enterprise zone are not allowed to claim the TJTC with respect to an employee if any of such employee's wages were taken into account in determining the employer's enterprise zone wage credit for that taxable year.

[35] This requirement does not apply to a business carried on by an individual as a proprietorship.

[36] Accelerated depreciation is available with respect to property that is not expensed under section 179.

[37] Under the Senate amendment, stock is not eligible for the ordinary loss treatment if the basis of such stock had been reduced under the stock

Similar rules would apply to an interest in a partnership that was an enterprise zone business. Property used in an enterprise zone business is eligible for the ordinary loss treatment if the property (1) meets the definition of "qualified zone property" (defined above), or (2) is land which is an integral part of an enterprise zone business.

The ordinary loss treatment applies only to losses that are attributable to the period that the property is used in an enterprise zone business. The ordinary loss treatment is to apply for purposes of computing alternative minimum tax.

Stock expensing

An individual is allowed a 50-percent deduction for the amount paid in cash during the taxable year to purchase certain stock in an enterprise zone business. The amount of the deduction is limited to $20,000 per year (with a $200,000 lifetime cap).[38] The deduction is allowed to an individual as an above-the-line deduction (regardless of whether the individual claims the standard deduction).

Stock qualifies for the expensing deduction only if it was acquired on original issue[39] from a domestic C corporation that: (1) meets the definition of an enterprise zone business; (2) does not have more than one class of stock outstanding; (3) the sum of (a) the unadjusted bases of the assets owned by the corporation and (b) the value of leased assets does not exceed $2 million; (4) more than 20 percent of the total value and total voting power of the stock of the corporation is owned by individuals (directly or through partnerships or trusts) or by estates; and (5) the cash paid for the stock is used by the issuing corporation within 12 months to acquire qualified zone property (as defined above).

For purposes of the $20,000 annual limitation and the $200,000 lifetime cap, an individual and members of his or her family are treated as a single individual.

The basis of stock for which a deduction is claimed under the provision is reduced by the amount of the deduction. In addition, gain on disposition of the stock is treated as ordinary income to the extent of the amount allowed as a deduction, and interest is payable on certain premature dispositions. The deduction is allowed for purposes of the alternative minimum tax.

Low-income housing credit expansion

For purposes of the low-income housing credit (LIHC), tax enterprise zones automatically qualify as "difficult to develop" areas, within which the eligible basis of buildings for purposes of computing the credit is 130 percent of the cost basis.

Qualified enterprise zone facility bonds

In general

The Senate amendment authorizes a new category of exempt-facility private activity bonds, qualified enterprise zone facility bonds, for use in areas certified as eligible to be enterprise zones. Qualified enterprise zone facility bonds are bonds 95 percent or more of the net proceeds of which are used to finance qualified zone property (as generally defined under the amendment) for a qualified enterprise zone business[40] and land located in the zone the use of which is an integral part of such a business.

Unlike the other tax incentives provided for designated tax enterprise zones, these bonds may be issued for use in all areas that are *eligible* for designation as one of the 115 tax designated tax enterprise zones, regardless of whether the appropriate Secretary designates the area such. However, an area is eligible for use of these new exempt-facility bonds only if an application is made to the appropriate Secretary for such a designation and that Secretary certifies that the application demonstrates that the area meets the eligibility criteria enumerated above for designation (including the required course of action by the State and local governments).

Qualified enterprise zone facility bonds may be issued for use in an area only during the 60-month period following the earlier of (a) the date the zone is certified by the appropriate Secretary as an eligible area, or (b) the date on which the zone is designated a tax enterprise zone.

Prompt expenditure required

The proceeds of qualified enterprise zone facility bonds must be spent no later than 18 months after the date on which the bonds are issued. Tax-exemption on the bond interest will not be affected if this expenditure requirement is not satisfied, however, if (a) all unspent proceeds as of the end of the 18-month period are used to redeem bonds that are a part of the issue during the succeeding six months, and (b) the issuer pays a penalty equal to three percent per year of the unspent proceeds for the period beginning on the date the bonds are issued and ending on the date the unspent proceeds are used to redeem bonds.

Special rules on issue size and use to finance certain facilities

The aggregate face amount of a qualified enterprise zone bond issue may not exceed the excess of $1 million over all outstanding prior issues of such bonds with respect to any qualified enterprise zone business which is a principal user of the bond proceeds. For purposes of this determination, all businesses that are related parties, within the meaning of section 52(a) or (b) are treated as a single business.

The Senate amendment exempts qualified enterprise zone facility bonds from the general restrictions on financing the acquisition of existing property (sec. 147(d)). Additionally, these bonds may not be used to finance the acquisition of farmland, including such land for use by certain first-time farmers (sec. 147(c)(2)).

Penalty for failure to continue as zone business or to use bond-financed property in the zone business

The Senate amendment extends change-in-use rules to qualified enterprise zone facility bonds. Accordingly, interest on all bond-financed loans to a business that no longer qualifies as an enterprise zone business, or on loans to finance property that ceases to be used by the business in the enterprise zone, becomes nondeductible, effective from the first day of the taxable year in which the disqualification or cessation of use occurs.

Further, if less than substantially all of the use of bond-financed property continues to be in the enterprise zone or the borrower ceases to be an enterprise zone business at any time within 10 years after the financing is provided, a penalty of 1.25 percent of the face amount of all qualified enterprise zone facility bond financing provided to the borrower is imposed. This penalty is in addition to the loss of interest deductions, described above.

The Senate amendment provides that the change-in-use and 1.25-percent penalties are waived in the case of borrowers that cease to qualify as enterprise zone businesses or that cease to use bond-financed property in the zone in that business as a result of bankruptcy, or solely as a result of a zone's ceasing to be eligible as such (e.g., as a result of the passage of time). Further, it is intended that the Treasury Department may waive these penalties in the case of violations caused by circumstances beyond the control of the borrower if the violations are corrected within a reasonable period after the business has reason to know of them.

Partial exemption from State volume limitations

Qualified enterprise zone facility bonds are allowed a 50-percent exclusion from the otherwise applicable State private activity bond volume limitations.

Exception from bank pro rata interest deduction disallowance

The Senate amendment provides that the general rule requiring banks to forego a portion of their otherwise allowable interest expense deduction if they invest in tax-exempt bonds does not apply to investments in qualified enterprise zone facility bonds, if the issuer elects.

Rules

Within four months after the date of enactment, the Secretaries of HUD, Agriculture, and Interior are required to promulgate rules (by notice or regulation) regarding: (1) procedures for nominating areas for designation as tax enterprise zones; (2) the method for comparing the enumerated selection criteria; and (3) recordkeeping requirements to assist in the preparation of studies to be submitted to Congress (described below). Such rules must provide that State and local governments shall have no less than five months after issuance to submit their applications for zone designation before such applications are evaluated and compared and any area is designated as a tax enterprise zone.

Study

The Senate amendment provides for a study to be conducted under the auspices of the National Academy of Sciences, analyzing the effectiveness of the tax incentives in the tax enterprise zones. An interim report of this study is required to be submitted to Congress by July 1, 1997, and a final report by July 1, 2000. The Secretary of the Treasury (in consultation with the Secretaries of Housing and Urban Development, Agriculture, and Interior) is directed to contract with the National Academy of Sciences within three months after the date of enactment to conduct this study.

Indian employment and investment incentives

In general

Under the Senate amendment, businesses located on Indian reservations generally are

---

expensing provision described below. In addition, stock is not eligible for the ordinary loss treatment if such stock was acquired from a corporation which made a substantial stock redemption or distribution (without a bona fide business purpose therefor) in an attempt to avoid the purposes of the provision.

[38] Thus, in order for an individual to claim the maximum $20,000 per-year deduction, the individual must purchase $40,000 of qualified stock during the taxable year.

Individuals are permitted to carry excess amounts (above the $20,000 per year limit) to the next taxable year (subject to the $200,000 lifetime cap).

[39] Stock is not eligible for the expensing deduction if such stock was acquired from a corporation which made a substantial stock redemption or distribution (without a bona fide business purpose therefor) in an attempt to avoid the purposes of the provision.

[40] For purposes of the tax-exempt bond provisions, the term qualified enterprise zone business includes a business located in a certified enterprise zone area (see below) that satisfies with respect to the certified area in which it is located all of the criteria applicable to such businesses that are located in designated tax enterprise zones.

allowed a credit against income tax liability for certain investments (the "Indian reservation credit") and a credit against income tax liability for certain wages and health insurance costs (the "Indian employment credit").

Indian reservation credit

A credit against income tax liability is allowed for investments in certain property that is located or used within an Indian reservation which has a level of unemployment that is significantly greater than the national average. In general, the amount of the credit allowed a taxpayer for any taxable year equals the sum of: (1) 10 percent of the qualified investment in "reservation personal property" placed in service by the taxpayer during the taxable year; and (2) 15 percent of the qualified investment in "new reservation construction property" and "reservation infrastructure investment" placed in service by the taxpayer during the taxable year.

The full amount of the credit is allowed only if the Indian unemployment rate[41] on the applicable Indian reservation exceeds 300 percent of the national average unemployment rate at any time during the calendar year in which the property is placed in service or during either of the immediately preceding two calendar years.[42] If the Indian unemployment rate on the applicable Indian reservation exceeds 150 percent but does not exceed 300 percent of the national average unemployment rate at any time during the relevant calendar years, then only 50 percent of the otherwise allowable credit is allowed. If the Indian unemployment rate on the applicable Indian reservation does not exceed 150 percent of the national average unemployment rate at any time during the relevant calendar years, then no credit is allowed.

For purposes of the credit, "reservation personal property" is defined as property: (1) for which a depreciation deduction is allowable under section 168 of the Code; (2) which is not nonresidential real property, residential rental property, or any other real property with a class life of more than 12.5 years; (3) which is used by the taxpayer predominantly in the active conduct of a trade or business within an Indian reservation; and (4) which is not used or located outside the Indian reservation on any regular basis.

In addition, "new reservation construction property" is defined as property: (1) which is nonresidential real property, residential rental property, or any other real property with a class life of more than 12.5 years; (2) which is located in an Indian reservation; (3) which is used by the taxpayer predominantly in the active conduct of a trade or business within an Indian reservation; and (4) which is originally placed in service by the taxpayer.

Further, "reservation infrastructure investment" is defined as property: (1) for which a depreciation deduction is allowable under section 168 of the Code (whether real or personal property); (2) which benefits the tribal infrastructure; (3) which is available to the general public; and (4) which is placed in service in connection with the taxpayer's active conduct of a trade or business within an Indian reservation. The term "reservation infrastructure investment" is to include otherwise qualifying property that is used or located outside an Indian reservation only if the purpose of the property is to connect to existing tribal infrastructure in the reservation (including, but not limited to, roads, power lines, water systems, railroad spurs, and communications facilities).

Notwithstanding the above definitions, property is not to qualify for the Indian reservation credit if the property is acquired (directly or indirectly) by the taxpayer from a person who is related to the taxpayer (within the meaning of section 465(b)(3)(C) of the Code). In addition, property is not to qualify for the credit if the property (or any portion thereof) is placed in service for purposes of conducting or housing certain gaming activities.

In the case of reservation personal property and new reservation construction property, the qualified investment for purposes of determining the amount of the credit is the taxpayer's basis in the property. In the case of reservation infrastructure investment, the qualified investment for purposes of determining the amount of the credit is the amount expended by the taxpayer for the acquisition or construction of the property.

The basis of new reservation construction property is reduced by the full amount of the credit allowed with respect to the property. The basis of reservation personal property and reservation infrastructure investment is reduced by only 50 percent of the credit allowed with respect to the property. The Indian reservation credit is recaptured (i.e., the amount of tax due is increased) if the property with respect to which the taxpayer claimed the credit is disposed of by the taxpayer, or, in the case of reservation personal property, is removed from the Indian reservation, converted, or otherwise ceases to be reservation personal property with respect to the taxpayer.

Indian employment credit

A credit against income tax liability is also allowed to employers for certain wages and health insurance costs paid or incurred by the employer with respect to certain employees. In general, the amount of the credit allowed an employer for any taxable year equals 10 percent[43] of the sum of (1) the wages paid or incurred by the employer for services performed by an employee while the employee is a qualified employee ("qualified wages"); and (2) the amount paid or incurred by the employer for health insurance (other than health insurance provided pursuant to a salary reduction arrangement) to the extent that such amount is attributable to coverage provided to an employee while the employee is a qualified employee ("qualified employee health insurance costs").

The amount of the credit allowed an employer for any taxable year, however, is limited to an amount equal to the credit rate multiplied by the excess (if any) of (1) the sum of the qualified wages and qualified health insurance costs paid or incurred by the employer during the taxable year with respect to employees whose wages (which are paid or incurred by the employer) for such taxable year do not exceed the amount determined at an annual rate of $30,000 (as adjusted for inflation for years beginning after 1991), over (2) the sum of the qualified wages and qualified health insurance costs paid or incurred by the employer (or any predecessor) during the 1991 calendar year with respect to employees whose wages (which are paid or incurred by the employer or any predecessor) for such taxable year do not exceed the amount determined at an annual rate of $30,000.[44] For purposes of this limitation, all employees of a controlled group of corporations (or partnerships or proprietorships under common control) are treated as employed by a single employer.

In general, an individual is a qualified employee of an employer for any period only if: (1) the individual is an enrolled member of an Indian tribe or the spouse of an enrolled member of an Indian tribe;[45] (2) substantially all of the services performed during such period by the employee for such employer are performed within an Indian reservation; (3) the principal place of abode of the employee while performing such services is on or near the Indian reservation within which the services are performed; and (4) the employee began work for such employer on or after July 1, 1992.

An employee is not to be treated as a qualified employee for any period after the date that is 7 years after the day on which the employee first began work for the employer. In addition, an employee is not to be treated as a qualified employee for any taxable year of the employer if the total amount of wages paid or incurred by the employer with respect to such employee during such taxable year (whether or not for services rendered within the Indian reservation) exceeds an amount determined at an annual rate of $30,000 (as adjusted for inflation for years beginning after 1991). Further, an employee is to be treated as a qualified employee for a taxable year of the employer only if more than 50 percent of the wages paid by the employer to such employee during such taxable year are for services performed in a trade or business of the employer.

A qualified employee is not to include certain relatives or dependents of the employer (described under present-law section 51(i)(1)) or, if the employer is a corporation, certain relatives of a person who owns more than 50 percent of the corporation. In addition, a qualified employee is not to include any person who owns more than five percent of the stock of the employer (or if the employer is not a corporation, more than five percent of the capital or profits interests in the employer). Finally, a qualified employee is not to include any individual if the services performed by the individual for the employer involve certain gaming activities or are performed in a building housing such gaming activities.

---

[41] The Indian unemployment rate is to be based on the number of Indians unemployed and able to work and is to be certified by the Secretary of the Interior.

[42] A special rule applies to qualifying property that has (or is a component of a project that has) an estimated construction period of more than two years or a cost of more than $1 million. With respect to such property, the relevant unemployment rate is the rate during the calendar year in which the taxpayer enters into a binding agreement to make a qualified investment (or, if earlier, the first calendar year in which the taxpayer has expended at least 10 percent of the qualified investment) or during the immediately preceding calendar year.

[43] If at least 85 percent of the employees of the employer are Indian employees, then the amount of the credit for such taxable year is to be determined by using a 30-percent rate rather than the 10-percent rate.

[44] In the case of a short taxable year, the qualified wages and the qualified health insurance costs paid or incurred by the employer are to be annualized and the limitation for such taxable year is to equal the otherwise applicable limitation determined using such annualized amounts multiplied by a fraction, the numerator of which is the number of days in the taxable year and the denominator of which is 365.

[45] For this purpose, an Indian tribe is defined as any Indian tribe, band, nation, pueblo, or other organized group or community, including any Alaska Native village, or regional or village corporation, as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et. seq.), as in effect on the date of enactment of the provision, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

The Indian employment credit is allowed with respect to full-time and part-time employees. However, if an employee is terminated less than one year after the date of initial employment, the amount of credits previously claimed by the employer with respect to that employee generally is recaptured (unless the employee voluntarily leaves, becomes disabled, or is fired due to misconduct).

The employment credit is not refundable and is subject to the general business credit limitations of section 38. Consequently, the credit may not be used to reduce tentative minimum tax.

Effective date

Under the Senate amendment, tax enterprise zone designations will be made only during calendar years 1993 through 1996. The tax incentives are available during the period that the designation remains in effect, which generally will be for 10 years after the designation first becomes effective.

The Indian reservation credit applies to property placed in service after December 31, 1992, and the Indian employment credit applies to wages paid or incurred after December 31, 1992.

CONFERENCE AGREEMENT

Tax enterprise zones

The conference agreement generally follows the House bill, with the following modifications.

The required course of action (which must be agreed to by the State and local governments nominating an area for designation as a tax enterprise zone) is modified to include as one of the possible components of such course of action that the State insurance commissioner (or similar State official) certifies that basic commercial property insurance of a type comparable to that insurance generally in force in urban or rural areas, whichever is applicable, throughout the State is available to businesses within the tax enterprise zone. In addition, the conference agreement clarifies that the course of action may include the giving of special preference to contractors owned and operated by members of any socially and economically disadvantaged group (within the meaning of section 8(a) of the Small Business Act (15 U.S.C. 637(a)), in connection with an activity any part of which occurs within the tax enterprise zone.

The conference agreement also clarifies that the "general distress" which is required for an area to be eligible for zone designation may be indicated by factors such as high crime rates, high vacancy rates, or designation of an area as a disaster area or high-intensity drug trafficking area ("HIDTA") under the Anti-Drug Abuse Act of 1988.

The selection criteria to be employed by the Secretary of HUD and the Secretary of Agriculture in designating tax enterprise zones from among nominated areas are clarified to include consideration of the specificity with which the commitments made by the State and local governments as part of the course of action are described, in order that the applicable Secretary will be better able to determine annually whether such commitments are, in fact, being carried out.

No enterprise zone may contain any part of an Indian reservation.[46] The conference agreement provides separate tax incentives for businesses operating in Indian reservations (as described below).

The tax incentives generally available under the conference agreement in tax enterprise zones (i.e., the wage credit and various capital incentives) are not available with respect to (1) any facility described in present-law section 144(c)(6)(B),[47] or (2) a trade or business the principal activity of which is farming,[48] but only if, as of the close of the taxable year, the sum of (a) the aggregate unadjusted bases (or, if greater, the fair market value) of assets owned by the taxpayer which are used in the farming business, and (b) the aggregate value of assets leased by the taxpayer for use in such business, exceeds $500,000.[49]

For purposes of the employer wage credit, the conferees intend that employers will undertake reasonable measures to verify an employee's residence within the tax enterprise zone, so that the employer will be able to substantiate any wage credit claimed under the bill. It is further intended that the Treasury Department will issue regulations prescribing procedures to be followed for verification of an employee's residence.

The definition of an "enterprise zone business" is modified to include the requirement that substantially all of the intangible property of the entity (or the intangible property of the business in the case of an individual proprietorship) be used in, and exclusively related to, the active conduct of such business.[50] In addition, the conference agreement clarifies that, for purposes of determining whether a business carried on by an individual as a proprietorship qualifies as an enterprise zone business, the term "employee" includes the proprietor.

For purposes of the $20,000 section 179 expensing allowance for certain enterprise zone businesses, the requirement is deleted that all component members of a controlled group of corporations be enterprise zone businesses. Thus, although all component members of a controlled group need not be enterprise zone businesses, under present-law section 179(d)(6), component members of a controlled group are treated as one taxpayer for purposes of the $20,000 limitation and application of the $200,000 to $220,000 phase-out range.

An individual is allowed a 50-percent deduction for the amount paid in cash for the purchase of certain enterprise zone stock (as defined in the House bill). The deduction is limited to $25,000 per year, with a $250,000 lifetime cap. Thus, in order for an individual to claim the maximum $25,000 per-year deduction, the individual must purchase $50,000 of qualified enterprise zone stock during the taxable year. In addition, the conference agreement eliminates the $30 million limit contained in the House bill on the total amount of stock that, for each calendar year, is eligible for the deduction. The conference agreement also eliminates the requirement that a local government official be designated for each zone with responsibility for allocating the $30 million limit to particular stock issuances. Therefore, all stock which meets the definition of "enterprise zone stock" is eligible for the 50-percent deduction (if the individual purchaser so elects) during the life of a zone, subject to the purchaser's $25,000 annual deduction limit and $250,000 lifetime cap.[51]

The conference agreement clarifies that, for purposes of the 50-percent capital gains exclusion and capital gains deferral provisions, the term "enterprise zone business" does not include any trade or business of producing property of a character subject to the allowance for depletion under present-law section 611. The conference agreement also clarifies that the special rule contained in the House bill which defines "qualified zone business property" as including certain substantially renovated property applies to property which is substantially improved by the taxpayer and any land on which such property is located. Property shall be treated as "substantially improved" if, during any 24-month period beginning on the date on which the designation of the tax enterprise zone took effect, additions to basis with respect to such property in the hands of the taxpayer exceed the greater of (i) an amount equal to the adjusted basis at the beginning of such 24-month period in the hands of the taxpayer, or (ii) $5,000.

The conference agreement adopts the requirement from the House bill that the Secretaries of HUD and Agriculture must, within four months after enactment, issue rules establishing procedures for nominating areas for designation as tax enterprise zones, a method for comparing the enumerated selection criteria, and certain recordkeeping requirements. Such rules must also provide that States and local governments have at least 30 days after such rules are published to file applications for nominated areas before such applications are evaluated and compared with one another and any area is designated as a tax enterprise zone.

The conference agreement deletes the requirement that the Secretary of the Treasury and General Accounting Office (GAO) conduct a study of the tax enterprise zones, and, instead, provides for a study to be conducted under the auspices of the National Academy of Sciences, analyzing the effectiveness of the incentives provided for tax enterprise zones (and the other assistance provided by the bill for tax enterprise zones) in achieving the purposes of the legislation. An interim report of this study is required to be submitted to Congress by July 1, 1997, and a final report by July 1, 2002. The Secretary of the Treasury (in consultation with the Secretaries of HUD and Agriculture) is directed to contract with the National Academy of Sciences within three months after the date of enactment to conduct this study.

Indian employment and investment incentives

In general

The conference agreement generally follows the Senate amendment with respect to the tax benefits provided to businesses located on Indian reservations. Under the conference agreement, businesses located on Indian reservations[52] generally are allowed a credit against income tax liability for certain investments (the "Indian reservation credit") and a credit against income tax liability for certain wages and health insurance costs (the "Indian employment credit").

---

[46] The conference agreement deletes the requirement of the House bill that at least one rural development investment zone be located on an Indian reservation.

[47] Facilities described in section 144(c)(6)(B) include a private or commercial golf course, country club, massage parlor, hot tub facility, suntan facility, racetrack or other facility used for gambling, or any store the principal business of which is the sale of alcoholic beverages for consumption off premises.

[48] For this purpose, the term "farming" is defined under subparagraphs (A) or (B) of present-law section 2032A(e)(5).

[49] The conference agreement contains anti-abuse rules to prevent avoidance of the $500,000 limitation through the use of related entities.

[50] This provision was included in the Senate amendment and parallels the rule governing tangible property contained in the House bill.

[51] The conference agreement provides that an individual, and such individual's spouse and minor children, are treated as one person for purposes of the $25,000 annual deduction limit and $250,000 lifetime cap.

The purchase of stock does not qualify for the 50-percent deduction if such stock was acquired from a corporation which made a substantial stock redemption or distribution (without a bona fide business purpose therefor) in an attempt to avoid the purposes of the provision.

Indian reservation credit

A credit against income tax liability is allowed for investments in certain property that is located or used within an Indian reservation which has a level of unemployment that greatly exceeds the national average. In general, the amount of the credit allowed a taxpayer for any taxable year equals the sum of: (1) 10 percent of the qualified investment in "reservation personal property" placed in service by the taxpayer during the taxable year; and (2) 15 percent of the qualified investment in "new reservation construction property" and "reservation infrastructure investment" placed in service by the taxpayer during the taxable year.

The full amount of the credit is allowed only if the Indian unemployment rate[53] on the applicable Indian reservation exceeds 300 percent of the national average unemployment rate at any time during the calendar year in which the property is placed in service or during either of the immediately preceding two calendar years.[54] If the Indian unemployment rate on the applicable Indian reservation exceeds 150 percent but does not exceed 300 percent of the national average unemployment rate at any time during the relevant calendar years, then only half of the otherwise allowable credit may be claimed (i.e., the credit rates are 7.5 percent and 5 percent). If the Indian unemployment rate on the applicable Indian reservation does not exceed 150 percent of the national average unemployment rate at any time during the relevant calendar years, then no credit is allowed.

For purposes of the credit, "reservation personal property" is defined as property: (1) for which a depreciation deduction is allowable under section 168 of the Code; (2) which is not nonresidential real property, residential rental property, or any other real property with a class life of more than 12.5 years; (3) which is used by the taxpayer predominantly in the active conduct of a trade or business within an Indian reservation; and (4) which is not used or located outside the Indian reservation on any regular basis.

In addition, "new reservation construction property" is defined as property: (1) which is nonresidential real property, residential rental property, or any other real property with a class life of more than 12.5 years for which a depreciation deduction is allowable under section 168 of the Code; (2) which is located in an Indian reservation; (3) which is used by the taxpayer predominantly in the active conduct of a trade or business within an Indian reservation;[55] and (4) which is originally placed in service by the taxpayer.

Further, "reservation infrastructure investment" is defined as property: (1) for which a depreciation deduction is allowable under section 168 of the Code (whether real or personal property); (2) which benefits the tribal infrastructure; (3) which is available to the general public; and (4) which is placed in service in connection with the taxpayer's active conduct of a trade or business within an Indian reservation. The term "reservation infrastructure investment" is to include otherwise qualifying property that is used or located outside an Indian reservation only if the purpose of the property is to connect to existing tribal infrastructure in the reservation (including, but not limited to, roads, power lines, water systems, railroad spurs, and communications facilities).

Notwithstanding the above definitions, property is not to qualify for the Indian reservation credit if the property is acquired (directly or indirectly) by the taxpayer from a person who is related to the taxpayer (within the meaning of section 465(b)(3)(C) of the Code). In addition, property is not to qualify for the credit if the property (or any portion thereof) is placed in service for purposes of conducting or housing certain gaming activities.[56] Finally, property is not to qualify for the Indian reservation credit if the energy credit or the rehabilitation credit is allowed with respect to the property.

In the case of reservation personal property and new reservation construction property, the qualified investment for purposes of determining the amount of the credit is the taxpayer's basis in the property. In the case of reservation infrastructure investment, the qualified investment for purposes of determining the amount of the credit is the amount expended by the taxpayer for the acquisition or construction of the property. The at-risk rules of section 49 of the Code are also to apply in determining the amount of the qualified investment for purposes of the Indian reservation credit.

The basis of new reservation construction property is reduced by the full amount of the credit allowed with respect to the property. The basis of reservation personal property and reservation infrastructure investment is reduced by only 50 percent of the credit allowed with respect to the property. The Indian reservation credit is recaptured (i.e., the amount of tax due is increased) if, before the end of the applicable recovery period with respect to the property, the property is disposed of by the taxpayer, or, in the case of reservation personal property, is removed from the Indian reservation, converted, or otherwise ceases to be reservation personal property with respect to the taxpayer.

Indian employment credit

A credit against income tax liability is also allowed to employers for certain wages and health insurance costs paid or incurred by the employer with respect to certain employees. In general, the amount of the credit allowed an employer for any taxable year equals 10 percent[57] of the sum of (1) the wages paid or incurred by the employer for services performed by an employee while the employee is a qualified employee ("qualified wages");[58] and (2) the amount paid or incurred by the employer for health insurance (other than health insurance provided pursuant to a salary reduction arrangement) to the extent that such amount is attributable to coverage provided to an employee while the employee is a qualified employee ("qualified employee health insurance costs").

The amount of the credit allowed an employer for any taxable year, however, is limited to an amount equal to the credit rate multiplied by the excess (if any) of (1) the sum of the qualified wages and qualified health insurance costs paid or incurred by the employer during the taxable year with respect to employees whose wages (which are paid or incurred by the employer) for such taxable year do not exceed the amount determined at an annual rate of $30,000 (as adjusted for inflation for years beginning after 1992), over (2) the sum of the qualified wages and qualified health insurance costs paid or incurred by the employer (or any predecessor) during the 1992 calendar year with respect to employees whose wages (which are paid or incurred by the employer or any predecessor) for such taxable year do not exceed the amount determined at an annual rate of $30,000.[59] For purposes of this limitation, all employees of a controlled group of corporations (or partnerships or proprietorships under common control) are treated as employed by a single employer.

In general, an individual is a qualified employee of an employer for any period only if: (1) the individual is an enrolled member of an Indian tribe or the spouse of an enrolled member of an Indian tribe;[60] (2) substantially all of the services performed during such period by the employee for such employer are performed within an Indian reservation; (3) the principal place of abode of the employee while performing such services is on or near the Indian reservation within which the services are performed; and (4) the employee began work for such employer on or after January 1, 1993.

---

[52] For purposes of the Indian employment and investment incentives, the term "Indian reservation" means a reservation as defined in (1) section 3(d) of the Indian Financing Act of 1974 (25 U.S.C. 1452(d)), as in effect on the date of enactment of the provision, or (2) section 4(10) of the Indian Child Welfare Act of 1978 (25 U.S.C. 1903(10)), as in effect on the date of enactment of the provision.

[53] The Indian unemployment rate is to be based on the number of Indians unemployed and able to work and is to be certified by the Secretary of the Interior.

[54] A special rule applies to qualifying property that has (or is a component of a project that has) an estimated construction period of more than two years or a cost of more than $1 million. With respect to such property, the relevant unemployment rate is the rate during the calendar year in which the taxpayer enters into a binding agreement to make a qualified investment (or, if earlier, the first calendar year in which the taxpayer has expended at least 10 percent of the qualified investment) or during the immediately preceding calendar year.

[55] The active conduct of a trade or business for purposes of the Indian reservation credit is to include the rental to others of real property located in an Indian reservation. In addition, the credit for new reservation construction property is allowed with respect to otherwise qualifying property that is used to furnish lodging.

[56] The limitation applies to class I, II, or III gaming as defined in section 4 of the Indian Regulatory Act (25 U.S.C. 2703), as in effect on the date of enactment of the provision.

[57] If, for the entire taxable year of the employer, at least 85 percent of the employees of the employer are enrolled members of an Indian tribe or spouses of enrolled members of an Indian tribe, then the amount of the credit for such taxable year is to be determined by using a 30-percent rate rather than the 10-percent rate.

[58] Wages are not eligible for the credit if attributable to services rendered by an employee during the first year he or she begins work for the employer if any portion of such wages is taken into account in determining the targeted jobs tax credit (TJTC) under present-law section 51.

[59] In the case of a short taxable year, the qualified wages and the qualified health insurance costs paid or incurred by the employer are to be annualized and the limitation for such taxable year is to equal the otherwise applicable limitation determined using such annualized amounts multiplied by a fraction, the numerator of which is the number of days in the taxable year and the denominator of which is 365.

[60] For this purpose, an Indian tribe is defined as any Indian tribe, band, nation, pueblo, or other organized group or community, including any Alaska Native village, or regional or village corporation, as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et. seq.), as in effect on the date of enactment of the provision, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

An employee is not to be treated as a qualified employee for any period after the date that is 7 years after the day on which the employee first began work for the employer. In addition, an employee is not to be treated as a qualified employee for any taxable year of the employer if the total amount of wages paid or incurred by the employer with respect to such employee during such taxable year (whether or not for services rendered within the Indian reservation) exceeds an amount determined at an annual rate of $30,000 (as adjusted for inflation for years beginning after 1992). Further, an employee is to be treated as a qualified employee for a taxable year of the employer only if more than 50 percent of the wages paid or incurred by the employer to such employee during such taxable year are for services performed in a trade or business of the employer.

A qualified employee is not to include certain relatives or dependents of the employer (described under present-law section 51(i)(1)) or, if the employer is a corporation, certain relatives of a person who owns more than 50 percent of the corporation. In addition, a qualified employee is not to include any person who owns more than five percent of the stock of the employer (or if the employer is not a corporation, more than five percent of the capital or profits interests in the employer). Finally, a qualified employee is not to include any individual if the services performed by the individual for the employer involve certain gaming activities or are performed in a building housing such gaming activities.[61]

The Indian employment credit is allowed with respect to full-time and part-time employees. However, if an employee is terminated less than one year after the date of initial employment, the amount of credits previously claimed by the employer with respect to that employee generally is recaptured (unless the employee voluntarily leaves, becomes disabled, or is fired due to misconduct).

An employer's deduction otherwise allowed for wages is reduced by the amount of the credit claimed for the taxable year. The conference agreement also provides that the employment credit is not refundable. Finally, the Indian employment credit is subject to the general business credit limitations of section 38,[62] and, therefore, the credit may not be used to reduce tentative minimum tax.

Effective date

The Indian reservation credit applies to property placed in service after December 31, 1992, and the Indian employment credit applies to wages paid or incurred after December 31, 1992.

II. ECONOMIC GROWTH INCENTIVES

A. INDIVIDUAL RETIREMENT ARRANGEMENTS (IRAS)

1. Modify IRA deduction

PRESENT LAW

Under present law, an individual that is not an active participant in an employer-sponsored retirement plan (and whose spouse also is not an active participant in such a plan) may make deductible contributions to an individual retirement arrangement (IRA) up to the lesser of $2,000 or 100 percent of compensation. The amounts held in an IRA, including earnings on contributions, generally are not included in taxable income until withdrawn.

If the individual (or the individual's spouse) is an active participant in an employer-sponsored retirement plan, the $2,000 deduction limit is phased out over certain adjusted gross income (AGI) levels. The limit is phased out between $40,000 and $50,000 for married taxpayers, and between $25,000 and $35,000 for single taxpayers. An individual may make nondeductible IRA contributions (up to the contribution limit) to the extent the individual is not permitted to make deductible IRA contributions.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment increases the income limits on IRA eligibility for active participants in employer-sponsored plans from $40,000 to $120,000 for married taxpayers and from $25,000 to $80,000 for single taxpayers. As under present law, the limits are phased out over $10,000 (so that, initially, active participants in employer-sponsored plans with AGI of $130,000 (married) and $90,000 (single) are ineligible). In addition, the active participant rule is modified so that a person is not considered to be an active participant because his or her spouse is an active participant in an employer-sponsored retirement plan. The income limits are indexed for inflation.

The IRA contribution limit is indexed in increments of $500. In addition, the limit on contributions (deductible and nondeductible) to IRAs is coordinated with the limit on elective deferrals to a qualified cash or deferred arrangement (sec. 401(k) plan), tax-sheltered annuity (sec. 403(b) annuity), simplified employee pension (SEP), or a section 501(c)(18) plan. Under the coordinated limit, IRA contributions cannot exceed the difference (if any) between the limit on elective deferrals and the amount in fact deferred. For purposes of the coordinated limit for IRA deductions and elective deferrals, the limit on elective deferrals to a section 403(b) tax-sheltered annuity is the limit described in section 402(g)(1), as modified under 402(g)(4) ($9,500 in 1992). For example, if the limit were in effect in 1992, a taxpayer who elected to defer $8,000 under a 401(k) plan could contribute only $728 to an IRA, since the limit on elective deferrals to a 401(k) plan is $8,728 in 1992. (A taxpayer who elected to defer $5,000 under a 401(k) plan could still only contribute $2,000 (indexed) to an IRA.)

Effective date.—The provision applies to taxable years beginning after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with the following modifications.

The conference agreement increases the income limits on IRA eligibility for participants in employer-sponsored plans from $40,000 to $100,000 for married taxpayers and from $25,000 to $75,000 for single taxpayers. As under present law, the limits are phased out over $10,000 (so that, initially, participants in employer-sponsored plans with AGI of $110,000 (married) and $85,000 (single) are ineligible). The income limits are indexed for inflation in $20,000 increments.

Effective date.—The provision applies to taxable years beginning after December 31, 1994.

2. Special IRAs

PRESENT LAW

Under present law, certain individuals may make deductible contributions to an IRA up to the lesser of $2,000 or 100 percent of compensation. The amounts held in an IRA, including earnings on contributions, generally are not included in taxable income until withdrawn.

Withdrawals from an IRA (other than withdrawals of nondeductible contributions) are includible in gross income. In addition, amounts withdrawn prior to age 59½, death, or disability are subject to an additional 10-percent income tax, unless the withdrawals are in the form of substantially equal periodic payments over the life (or life expectancy) of the IRA owner or over the joint lives (or life expectancies) of the IRA owner and his or her beneficiary.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment permits individuals to establish and maintain new "special IRAs" to which they can make nondeductible contributions. The same eligibility income limits that apply to deductible IRAs also apply to special IRAs. Withdrawals from a special IRA are not includible in income if attributable to contributions that have been held in the special IRA for at least 5 years. The limits on contributions to deductible IRAs and special IRAs are coordinated.

The Senate amendment also permits an individual whose AGI for the taxable year does not exceed the lower end of the income eligibility limits (initially, $80,000 for singles and $120,000 for marrieds) to make transfers from deductible IRAs to special IRAs without imposition of the 10-percent tax on early withdrawals. These limits apply whether or not the individual or his or her spouse are active participants in an employer-sponsored retirement plan. The amount transferred to a special IRA generally is includible in income in the year withdrawn from the deductible IRA. However, in the case of a transfer before January 1, 1994, the transferred amount is includible in income ratably over the 4-taxable year period beginning in the taxable year in which the distribution was made.

Effective date.—The provision generally applies to taxable years beginning after December 31, 1993. However, the provision permitting transfers from deductible IRAs to special IRAs is effective for taxable years beginning after December 31, 1992. Thus, special IRAs can be established and maintained in taxable years beginning before January 1, 1994, only with funds transferred from a deductible IRA.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with the following modifications.

The conference agreement provides that the same eligibility income limits that apply to deductible IRAs also apply to special IRAs. Thus, initially, the income limits on special IRA eligibility for participants in employer-sponsored plans are $100,000 for married taxpayers and $75,000 for single taxpayers (phased out over $10,000 dollars).

The conference agreement permits individuals whose AGI for the taxable year does not exceed the upper end of the new income eligibility limits (initially, $85,000 for single taxpayers and $110,000 for married taxpayers) to make transfers from deductible IRAs to special IRAs without imposition of the 10-percent tax on early withdrawals. These limits apply whether or not the individual or his or her spouse are active participants in an employer-sponsored retirement plan. The AGI limits do not apply to transfers from one special IRA to another special IRA.

---

[61] The limitation applies to class I, II, or III gaming as defined in section 4 of the Indian Regulatory Act (25 U.S.C. 2703), as in effect on the date of enactment of the provision.

[62] No portion of the unused business credit for any taxable year that is attributable to the Indian employment credit may be carried back to a taxable year ending before the date of enactment of the provision.

The conference agreement also clarifies that a direct trustee-to-trustee transfer from one special IRA to another will not be treated as a distribution, consistent with the treatment of a direct trustee-to-trustee transfer from one deductible IRA to another (see Rev. Rul. 78-406).

Effective date.—Same as the Senate amendment. The new eligibility income limits, and the coordinated limit on IRA contributions and elective deferrals, apply to special IRAs beginning in 1994. Transfers from deductible IRAs to special IRAs are subject to the income limits applicable to such transfers beginning in 1993.

3. Penalty-free distributions

PRESENT LAW

Under present law, withdrawals from an IRA (other than withdrawals of nondeductible contributions) are includible in gross income. In addition, amounts withdrawn prior to age 59-½, death, or disability are subject to an additional 10-percent income tax, unless the withdrawals are in the form of substantially equal periodic payments over the life (or life expectancy) of the IRA owner or over the joint lives (or life expectancies) of the IRA owner and his or her beneficiary. The 10-percent additional tax also applies to early withdrawals from tax-qualified retirement plans and tax-sheltered annuities.

There is an exception to the additional 10-percent income tax on early withdrawals for distributions from a tax-qualified retirement plan or tax-sheltered annuity that do not exceed the amount allowable as a deduction for medical care for the year. This exception does not apply to IRAs.

HOUSE BILL

No provision.

SENATE AMENDMENT

First-time home purchasers

The Senate amendment allows withdrawals from an IRA and from amounts attributable to elective deferrals under (1) a cash or deferred arrangement (sec. 401(k) plan), (2) a tax-sheltered annuity (sec. 403(b) annuity), or (3) a section 501(c)(18) plan without imposition of the 10-percent additional income tax on early withdrawals (and without disqualification of the 401(k) plan or 403(b) annuity) to the extent the amount withdrawn is used to pay qualified acquisition, construction, or reconstruction costs with respect to a principal residence of a first-time homebuyer who is the taxpayer, the taxpayer's spouse, or the taxpayer's child or grandchild.

A first-time homebuyer is any individual (and if married, such individual's spouse) who (1) did not own an interest in a principal residence during the 3 years prior to the purchase of a home and (2) is not in an extended period for rolling over gain from the sale of a principal residence. In the case of certain homebuyers described in Code sec. 143(i)(1)(C) whose family incomes do not exceed $15,000, ownership of land subject to certain contracts for deed described in such section does not disqualify the homebuyer from being considered a first-time homebuyer. In addition, an individual whose principal residence was destroyed or substantially damaged by Hurricane Andrew, Hurricane Iniki, or Typhoon Omar is treated as a first-time homebuyer if the individual rebuilds it or acquires another home to replace it.

Education expenses

The Senate amendment allows withdrawals from an IRA and from amounts attributable to elective deferrals under (1) a cash or deferred arrangement (sec. 401(k) plan), (2) a tax-sheltered annuity (sec. 403(b) annuity), or (3) a section 501(c)(18) plan without imposition of the 10-percent additional income tax on early withdrawals to the extent the amount withdrawn is used to pay qualified higher education expenses of the taxpayer, or the taxpayer's spouse, children or grandchildren.

Medical expenses

The Senate amendment extends to IRAs the present-law exception to the early withdrawal tax for distributions from tax-qualified plans and tax-sheltered annuities for certain medical expenses and expands the exception (as applied both to IRAs and other plans) to apply to medical expenses of the taxpayer's child, grandchild, or ancestor whether or not such person otherwise qualifies as the taxpayer's dependent.

Long-term unemployment

The Senate amendment provides that the 10-percent early withdrawal tax does not apply to withdrawals from IRAs made by an individual after separation from employment if (1) the individual has received unemployment compensation for 12 consecutive weeks and (2) the withdrawal is made during the taxable year during which the unemployment compensation is received or the succeeding taxable year.

American-made automobiles

The Senate amendment exempts withdrawals during 1992 and 1993 from an IRA and from amounts attributable to elective deferrals under (1) a cash or deferred arrangement (sec. 401(k) plan), (2) a tax-sheltered annuity (sec. 403(b) annuity), or (3) a section 501(c)(18) plan from the 10-percent additional income tax on early withdrawals to the extent the amount withdrawn is used to purchase a new American-made automobile.

5-year holding period

The Senate amendment provides that the present-law rule permitting penalty-free IRA withdrawals after an individual reaches 59-½ does not apply in the case of amounts attributable to contributions made during the previous 5 years. The provision does not apply to amounts rolled over from tax-qualified plans or tax-sheltered annuities. For purposes of applying the rule, distributions are treated as having been made first from the earliest contributions (and earnings) remaining in the account, and then from other contributions in the order in which made.

Effective dates

The provisions generally are effective for withdrawals after December 31, 1992. The provision requiring a 5-year holding period to avoid withdrawal penalties for distributions from IRAs after age 59-½ applies to contributions (and earnings allocable thereto) made after December 31, 1993.

CONFERENCE AGREEMENT

First-time home purchasers

The conference agreement follows the Senate amendment.

Education expenses

The conference agreement follows the Senate amendment.

Medical expenses

The conference agreement follows the Senate amendment.

Long-term unemployment

The conference agreement follows the Senate amendment.

American-made automobiles

The conference agreement does not include the provision in the Senate amendment.

5-year holding period

The conference agreement follows the Senate amendment.

Effective dates

The conference agreement follows the Senate amendment.

B. EXTENSION OF CERTAIN EXPIRING TAX PROVISIONS

1. Extension of exclusion for employer-provided educational assistance

PRIOR LAW

An employee's gross income and wages for income and employment tax purposes did not include amounts paid or incurred by the employer for education assistance provided to the employee if such amounts are paid or incurred pursuant to an educational assistance program that meets certain requirements. This exclusion, which expired with respect to amounts paid after June 30, 1992, was limited to $5,250 of educational assistance with respect to an individual during a calendar year.

In the absence of this exclusion, an employee generally would be required to include in income and wages, for income and employment tax purposes, the value of educational assistance provided by an employer to the employee, unless the cost of such assistance qualified as a deductible job-related expense of the employee.

HOUSE BILL

The exclusion for employer-provided educational assistance is extended from July 1, 1992, through December 31, 1993.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

SENATE AMENDMENT

The exclusion for employer-provided educational assistance is extended from July 1, 1992, through September 30, 1993. The exclusion is available with respect to amounts paid by the employer before October 1, 1993.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

CONFERENCE AGREEMENT

The conference agreement extends the exclusion for employer-provided education assistance for one year, through June 30, 1993. For years beginning in 1993, only payments by the employer before July 1, 1993, are taken into account.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

2. Exclusion for employer-provided group legal services and tax exemption for group legal services organizations

PRIOR LAW

Certain amounts contributed by an employer to and benefits provided under a qualified group legal services plan were excluded from an employee's gross income for income and employment tax purposes. The exclusion was limited to an annual premium value of $70. The exclusion expired June 30, 1992.

Prior law provided tax-exempt status for an organization the exclusive function of which is to provide legal services or indemnification against the cost of legal services as part of a qualified group legal services plan. The tax exemption for such an organization expired June 30, 1992.

HOUSE BILL

The House bill extends the exclusion from income for employer-provided group legal services and the tax exemption for group legal services organizations through December 31, 1993.

Effective date.—Taxable years beginning after June 30, 1992.

SENATE AMENDMENT

The Senate amendment extends the exclusion from income for employer-provided group legal services and the tax exemption for group legal services organizations through September 30, 1993.

In the case of a taxable year beginning in 1993, only amounts paid before October 1, 1993, for coverage for periods before October 1, 1993, shall be taken into account in determining the amount excluded.

Effective date.—Taxable years beginning after June 30, 1992.

CONFERENCE AGREEMENT

The conference agreement does not extend the exclusion for employer-provided group legal services or the exemption for group legal services organizations.

3. Extend health insurance deduction for self-employed individuals

PRIOR LAW

Prior law provided a deduction for 25 percent of the amount paid for health insurance for a self-employed individual (e.g., a partner in a partnership or a sole proprietor) and the individual's spouse and dependents. The 25-percent deduction was also available to more than 2-percent shareholders of S corporations. The amount of expenses in excess of the deductible amount could be taken into account in determining whether the individual is entitled to a medical expense deduction (sec. 213).

The 25-percent deduction expired for taxable years beginning after June 30, 1992. In the case of years beginning in 1992, only amounts paid before July 1, 1992, for coverage before July 1, 1992, may be taken into account in determining the amount of the deduction.

HOUSE BILL

The House bill extends the 25-percent deduction from July 1, 1992, through December 31, 1992.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

SENATE AMENDMENT

The Senate amendment extends the 25-percent deduction from July 1, 1992, through December 31, 1993. After that, the Senate amendment increases the deduction to 100 percent, and extends it through May 15, 1994. The deduction expires after May 15, 1994.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

CONFERENCE AGREEMENT

The conference agreement extends the 25-percent deduction for 12 months, through June 30, 1993. In the case of years beginning in 1993, only amounts paid before July 1, 1993, for coverage before July 1, 1993, may be taken into account in determining the amount of the deduction.

Effective date.—The provision is effective for taxable years ending after June 30, 1992.

4. Qualified mortgage bonds and mortgage credit certificates

PRESENT LAW

Qualified mortgage bonds

Qualified mortgage bonds ("QMBs") are bonds the proceeds of which are used to finance the purchase, or qualifying rehabilitation or improvement, of single-family, owner-occupied residences located within the jurisdiction of the issuer of the bonds. Persons receiving QMB loans must satisfy principal residence, purchase price, borrower income, first-time homebuyer, and other requirements. An exception is provided for qualified home improvement loans (not in excess of $15,000) from the first-time homebuyer requirement. Part or all of the interest subsidy provided by QMBs is recaptured if the borrower experiences substantial increases in income and disposes of the subsidized residence within nine years after it was purchased.

The volume of QMBs that a State may issue is limited by an annual State private activity bond volume limit.

Mortgage credit certificates

Qualified governmental units may elect to exchange private activity bond volume authority for authority to issue mortgage credit certificates ("MCCs"). MCCs entitle home buyers to nonrefundable income tax credits for a specified percentage of the interest paid on mortgage loans on their principal residences. Once issued, an MCC remains in effect as long as the loan remains outstanding and the residence being financed continues to be the MCC-recipient's principal residence. MCCs are subject to the same targeting requirements as QMBs. MCCs also are subject to the same recapture rules as QMBs.

Expiration

Authority to issue QMBs and to elect to trade in private activity bond volume authority to issue MCCs expired after June 30, 1992.

HOUSE BILL

Extension

The House bill permanently extends the authority to issue QMBs and to elect to trade in bond volume authority to issue MCCs.

Effective date.—The extension of the QMB and MCC programs is effective for bonds issued after June 30, 1992.

Housing affordability programs

The House bill also clarifies the treatment of certain housing affordability programs. Specifically, it provides that, in high housing cost areas, the fact that an issuer of QMBs or MCCs also provides certain second mortgage loans to homebuyers in conjunction with QMB or MCC financing will not preclude availability of the QMB- or MCC-assistance on the purchase of a residence.

Effective date.—The provision relating to the treatment of certain housing affordability programs applies to QMB and MCC financing provided after the date of enactment.

Contracts for deed

The House bill also provides that, in the case of certain homebuyers whose family incomes do not exceed fifty percent of applicable median family income, ownership of land subject to certain contracts for deed does not violate the requirement that QMB- and MCC-financed homebuyers be first-time homebuyers and that the financing provided be for new mortgages. Thus, QMB-financed loans may be made (and MCCs to be granted) to individuals who own and maintain their principal residence on land subject to these contracts for deed provided that the homebuyers satisfy (1) all requirements of the QMB and MCC programs but for the otherwise applicable contract for deed and (2) the special income limit. These loans may be used to repay the contract for deed and to finance a new residence on the land.

Effective date.—The provision relating to certain contracts for deed applies to QMB and MCC financing provided after the date of enactment.

Natural disaster areas

No provision.

SENATE AMENDMENT

Extension

The Senate amendment extends the authority to issue QMBs and to elect to trade in bond volume authority to issue MCCs for 15 months (through September 30, 1993).

Effective date.—Same as the House bill.

Housing affordability programs

No provision.

Contracts for deed

The Senate amendment is the same as the House bill except that: (1) the holders are not required to live on the land currently, and (2) the income limit is $15,000 indexed for inflation after 1992.

Effective date.—Same as the House bill.

Natural disaster areas

For damaged residences affected by Hurricane Andrew, Hurricane Iniki and Typhoon Omar, the $15,000 limitation for qualified home improvement loans is waived.

Effective date.—Same as the House bill.

CONFERENCE AGREEMENT

Extension

The conference agreement follows the House bill.

Housing affordability programs

The conference agreement follows the House bill.

Contracts for deed

The conference agreement follows the Senate amendment.

Natural disaster areas

The conference agreement follows the Senate amendment.

5. Qualified small-issue bonds

PRESENT LAW

Interest on small issues of private activity bonds issued by States or local governments ("qualified small-issue bonds") is excluded from gross income if certain conditions are met. First, at least 95 percent of the bond proceeds must be used to finance manufacturing facilities or certain agricultural land or equipment. Second, the bond issue must have an aggregate face amount of $1 million or less, or alternatively the aggregate face amount of the issues, together with the aggregate amount of certain related capital expenditures during the six-year period beginning three years before the date of the issue and ending three years after that date, must not exceed $10 million.

Issuance of qualified small-issue bonds, like most other private activity bonds, is subject to annual State volume limitations and to other rules.

Authority to issue qualified small-issue bonds expired after June 30, 1992.

HOUSE BILL

Extension

The House bill permanently extends the authority to issue qualified small-issue bonds.

Effective date.—The provision is effective for bonds issued after June 30, 1992.

Capitalization

No provision.

SENATE AMENDMENT

Extension

The Senate amendment extends the authority to issue qualified small-issue bonds for 15 months (through September 30, 1993).

Effective date.—The extension is effective for bonds issued after June 30, 1992.

Capitalization

The Senate amendment increases allowable aggregate capitalization from $10 million to $20 million; however, all capital expenditures in excess of the present-law $10 million maximum may not be financed directly or indirectly with the proceeds of tax-exempt bonds.

Effective date.—The provision relating to aggregate capitalization is effective for capital expenditures after the date of enactment.

CONFERENCE AGREEMENT

Extension

The conference agreement follows the Senate amendment (i.e., extends authority to issue these bonds for 15 months, from June 30, 1992 until September 30, 1993).

Capitalization

The conference agreement follows the Senate amendment.

6. Research and Experimentation Tax Credit

PRESENT LAW

The research tax credit provides a 20-percent credit to the extent that a taxpayer's qualified research expenditures for the current year exceed its base amount for that year. The credit expired after June 30, 1992.

The base amount for the current year generally is computed by multiplying the taxpayer's "fixed-base percentage" by the average amount of the taxpayer's gross receipts for the four preceding years. If a taxpayer both incurred qualified research expenditures and had gross receipts during each of at least three years from 1984 through 1988, then its "fixed-base percentage" is the ratio that its total qualified research expenditures for the 1984–1988 period bears to its total gross receipts for that period (subject to a maximum ratio of .16). All other taxpayers (such as "start-up" firms) are assigned a fixed-base percentage of .03.

In computing the credit, a taxpayer's base amount may not be less than 50 percent of its current-year qualified research expenditures.

Qualified research expenditures eligible for the credit consist of: (1) "in-house" expenses of the taxpayer for research wages and supplies used in research; (2) certain time-sharing costs for computer use in research; and (3) 65 percent of amounts paid by the taxpayer for contract research conducted on the taxpayer's behalf. Expenditures attributable to research that is conducted outside the United States do not enter into the credit computation. In addition, the credit is not available for research in the social sciences, arts, or humanities, nor is it available for research to the extent funded by any grant, contract, or otherwise by another person (or governmental entity).

In addition, the 20-percent tax credit also applies to the *excess* of (1) 100 percent of corporate cash expenditures (including grants or contributions) paid for university basic research *over* (2) the sum of (a) the greater of two fixed research floors plus (b) an amount reflecting any decrease in nonresearch giving to universities by the corporation as compared to such giving during a fixed-base period, as adjusted for inflation.

Deductions for qualified research expenditures allowed to a taxpayer under section 174 are reduced by an amount equal to 100 percent of the taxpayer's research credit determined for that year.

HOUSE BILL

The House bill extends the research tax credit for 18 months (i.e., for qualified research expenditures and university basic research expenditures incurred through December 31, 1993).

In extending the research tax credit, the committee report to the House bill states that it wishes to reaffirm Congressional intent that neither the enactment of the credit in 1981 nor the "targeting" modifications to the credit in 1986 affect the definition of "research or experimental expenditures" for purposes of section 174. Thus, the various new credit limitations enacted in the Tax Reform Act of 1986 (such as the "process of experimentation" requirement) apply in determining eligibility for the credit (in taxable years beginning after December 31, 1985), and do not determine eligibility of product development costs under section 174.

Effective date.—The provision applies to qualified expenditures incurred during the period July 1, 1992, through December 31, 1993.

SENATE AMENDMENT

The Senate amendment extends the research tax credit for 15 months (i.e., for qualified research expenditures and university basic research expenditures incurred through September 30, 1993).

The Senate amendment also provides that, if the first taxable year for a taxpayer in which it had both gross receipts and qualified research expenditures began after 1983, then the taxpayer will be treated as a start-up firm with a fixed based percentage of .03.

Effective date.—The provision applies to qualified expenditures incurred during the period July 1, 1992, through September 30, 1993. The amendment to the start-up firm rules is effective for taxable years beginning after September 30, 1992.

CONFERENCE AGREEMENT

The conference agreement extends the research credit for 12 months (i.e., for qualified research expenditures and university basic research expenditures incurred during the period July 1, 1992, through June 30, 1993).

The conference agreement includes the modification to the start-up firm rules contained in the Senate Amendment. In addition, the conferees adopt the language from the House bill committee report regarding the effect on section 174 of the enactment of the research credit in 1981 and the targeting modifications to the credit in 1986.

Effective date.—The provision applies to qualified expenditures incurred during the period July 1, 1992, through June 30, 1993. The amendment to the start-up firm rules is effective for taxable years beginning after September 30, 1992.

7. Extension of the low-income housing tax credit

a. Extension of credit

PRESENT LAW

A tax credit is allowed in annual installments over ten years for qualifying newly constructed or substantially rehabilitated low-income rental housing. The credit expired after June 30, 1992.

HOUSE BILL

The House bill permanently extends the low-income housing credit.

SENATE AMENDMENT

The Senate amendment extends the credit for 15 months (through September 30, 1993).

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

b. Maximum rent

PRESENT LAW

The maximum rent that may be charged a family in a low-income housing credit unit depends on the number of bedrooms in that unit. Prior to 1990, maximum allowable rent was determined on the basis of the actual family size of the occupants.

HOUSE BILL

The House bill allows an irrevocable election by the owner of a building placed-in-service before 1990 to use either apartment size or family size in determining maximum allowable rent. This election must be made within 180 days after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill except that availability of the election is limited to taxpayers who enter into a compliance monitoring agreement with the housing credit agency.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

c. Community service areas

PRESENT LAW

Generally, the basis on which the low-income housing credit is computed is determined as a percentage of the eligible basis of a qualified low-income building that is attributable to low-income rental units.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that community service buildings in projects in qualified census tracts are included in eligible basis as functionally related and subordinate facilities if (a) the size of the facilities is commensurate with tenant needs, (b) the use of the facilities is predominantly (although not exclusively) by tenants and employees of the project owner, and (c) no more than 20 percent of the housing project's eligible basis is attributable to such facilities.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

d. Limit on eligible basis

PRESENT LAW

There is no explicit requirement that allocating agencies consider the reasonableness of development and operating costs in allocating credits.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment requires that the allocating agency take the reasonableness of the developmental and operational costs of a project into account in determining its credit allocation.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

e. Ten-year anti-churning rule

PRESENT LAW

The low-income housing credit is not allowed with respect to buildings that have been previously placed in service within ten years of placement in service for credit purposes. Waivers from the ten-year rule may be granted by the Treasury Department under certain circumstances (e.g., certain buildings which are substantially assisted, financed, or operated under section 221(d)(3) of the National Housing Act).

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment authorizes the Treasury Department to grant waivers from the credit's ten-year anti-churning rule for certain projects substantially assisted, financed, or operated under section 221(d)(4) of the National Housing Act.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

f. Minimum set-aside rule: De minimis errors

PRESENT LAW

Under the general low-income tenant occupancy requirement, a residential rental project qualifies for the tax credit only if at least: (1) 20 percent or more of the aggregate residential rental units in the project are occupied by individuals with incomes of 50 percent or less of area median income or (2) 40 percent or more of the aggregate residential rental units in the project are occupied by individuals with incomes of 60 percent or less of area median income.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment authorizes the Treasury Department to provide a waiver of penalties for de minimis errors in the application of the low-income tenant occupancy requirement.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

g. Minimum set-aside rule: annual recertification

PRESENT LAW

Generally, tenant incomes must be annually recertified to meet the low-income tenant occupancy requirements regardless of whether the building is entirely devoted to low-income tenants.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment authorizes the Treasury Department to grant a waiver from the annual recertification of tenant income for tenants in buildings, if the buildings are occupied entirely by low-income tenants.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

h. Student housing

PRESENT LAW

A housing unit generally is not eligible for the low-income housing tax credit if the tenants are full-time students who are not married individuals filing joint returns. Exceptions to this rule allow the credit to be claimed on housing units occupied by persons who are enrolled in certain job training programs or by students who are receiving Aid to Families with Dependent Children (AFDC) payments.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that a housing unit occupied entirely by full-time students may qualify for the credit if the full-time students are a single parent and his or her minor children and none of the tenants is a dependent of a third party. The amendment also codifies the present-law exception regarding married students filing joint returns (which continues to apply to all buildings placed in service since original enactment of the low-income housing credit by the Tax Reform Act of 1986).

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

i. State credit authority limitation

PRESENT LAW

Each State receives an annual low-income housing credit volume ceiling of $1.25 per resident. To qualify for the credit, a building owner generally must receive a credit allocation from the appropriate State credit authority. An exception is provided for property which is substantially financed with the proceeds of tax-exempt bonds subject to the State's private-activity bond volume limitation.

That portion of a State's credit authority which is unallocated in the year in which it originally arises may be carried forward and added to the State's credit authority for the subsequent calendar year. If allocations in the subsequent year exceed that year's annual credit authority, but do not exhaust the sum of that year's annual credit authority plus any credit authority carried forward from the preceding year, any remaining carried-forward credit authority is allocated in the next subsequent year to the national pool.

HOUSE BILL

No provision.

SENATE AMENDMENT

For purposes of the carryforward rule, the Senate amendment treats credits carried forward from previous years as used before current year credits.

CONFERENCE AGREEMENT

The conference agreement does not follow the Senate amendment.

j. Waivers in the event of a natural disaster

PRESENT LAW

Under present law the Secretary of the Treasury has no explicit authority to waive credit requirements in the event of a natural disaster.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate bill the Secretary of the Treasury may waive certain credit requirements in cases related to Hurricane Andrew, Hurricane Iniki and Typhoon Omar.

(1) The Secretary may waive for two years the requirement that a building which qualifies under the 10-percent test of sec. 42(h)(1)(E) must be placed in service by the end of the second calendar year after the calendar year in which the allocation is made.

(2) The Secretary may waive until income information is reasonably obtainable the requirement that a prospective tenant provide written verification of the prospective tenant's income for purposes of determining eligibility under the credit rules.

(3) The Secretary may waive the (general) area median gross income requirements (Sec. 42(g)(1)) for tenants if that tenant's income is initially 140 percent or less of that requirement.

(4) The Secretary may waive the prohibition against short-term leases (six months or less) of credit units.

(5) The Secretary may waive the prohibition that credit properties may not have been previously placed-in-service for 10 years before the placement-in-service for the credit.

(6) The Secretary may increase an otherwise qualifying States share of the National pool if a natural disaster occurred in that State.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

k. Effective dates

PRESENT LAW

The credit expired after June 30, 1992.

HOUSE BILL

The provision relating to the extension of the credit is effective after June 30, 1992. The provision relating to maximum rent is effective on the date of enactment.

SENATE AMENDMENT

The provision relating to the extension of the credit is effective after June 30, 1992. The provisions relating to modification of the credit are also effective after June 30, 1992 except in three cases. The three provisions relating to the Treasury Department's authority to grant waivers are effective on date of enactment. The provision relating to the credit carryforward rules is effective on or after January 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with regard to the extension and maximum rent provisions and follows the Senate amendment with regard to the provision allowing waivers in the event of natural disasters.

8. Extension of targeted jobs tax credit

PRESENT LAW

Tax credit

The targeted jobs tax credit is available on an elective basis for hiring individuals from several targeted groups. No wages are taken into account for purposes of the credit unless the eligible employee is employed by the employer for the lesser of 90 days or 120 hours. The credit expired for individuals who began work for an employer after June 30, 1992.

Authorization of appropriations

Appropriations were authorized for administration and publicity expenses relating to the credit through June 30, 1992. These monies are to be used by the Internal Revenue Service and the Department of Labor to inform employers of the credit program.

HOUSE BILL

Extension

The House bill permanently extends the targeted jobs tax credit and the authorization for appropriations.

Economically disadvantaged youth

The House bill expands the definition of economically disadvantaged youth to include 23- and 24-year olds.

Long-term unemployed

No provision.

Residents of enterprise zones

No provision.

Minimum employment requirement

No provision.

Effective date.—The provision is effective for individuals who begin work for an employer after June 30, 1992.

SENATE AMENDMENT

Extension

The Senate amendment extends the targeted jobs tax credit and the authorization for appropriations for 15 months (through September 30, 1993).

Economically disadvantaged youth

No provision.

Long-term unemployed

The Senate amendment adds a new category of long-term unemployed individuals.

Residents of enterprise zones

The Senate amendment adds a new category of residents of Federally designated enterprise zones.

Minimum employment requirement

Under the Senate amendment, the 120-hour component of the minimum employment requirement is repealed.

Effective date.—The provision is effective for individuals who begin work for an employer after June 30, 1992.

Conference Agreement

Extension

The conference agreement follows the House bill.

Economically disadvantaged youth

The conference agreement follows the House bill.

Long-term unemployed

The conference agreement does not follow the Senate amendment.

Residents of enterprise zones

The conference agreement does not follow the Senate amendment.

Minimum employment requirement

The conference agreement does not follow the Senate amendment.

Effective date.—The conference agreement follows the House bill and the Senate amendment.

9. Tax credit for orphan drug clinical testing expenses

Present Law

The orphan drug tax credit provides a 50-percent nonrefundable tax credit for a taxpayer's qualified clinical testing expenses paid or incurred in the testing of certain drugs for rare diseases, generally referred to as "orphan drugs." Qualified testing expenses are costs incurred to test an orphan drug after the drug has been approved for human testing by the Food and Drug Administration (FDA) but before the drug has been approved for sale by the FDA. Present law defines a rare disease or condition as one that (1) affects less than 200,000 persons in the United States or (2) affects more than 200,000 persons, but there is no reasonable expectation that businesses could recoup the costs of developing a drug for it from U.S. sales of the drug. These rare diseases and conditions include Huntington's disease, myoclonus, ALS (Lou Gehrig's disease), Tourette's syndrome, and Duchenne's dystrophy (a form of muscular dystrophy).

The orphan drug tax credit expired after June 30, 1992.

House Bill

No provision.

Senate Amendment

The Senate amendment extends the orphan drug tax credit for 15 months (i.e., for qualified clinical testing expenses incurred through September 30, 1993).

Effective date.—The provision is effective for expenses incurred during the period July 1, 1992, through September 30, 1993.

Conference Agreement

The conference agreement follows the Senate amendment, except that the orphan drug tax credit is extended for 12 months (i.e., for qualified clinical testing expenses incurred during July 1, 1992, through June 30, 1993).

10. Excise Tax on Certain Vaccines for the Vaccine Injury Compensation Trust Fund

Present Law

The Vaccine Injury Compensation Trust Fund ("Vaccine Trust Fund") provides a source of revenue to compensate individuals who are injured (or die) as a result of the administration of certain vaccines: diphtheria, pertussis, and tetanus ("DPT"); diphtheria and tetanus ("DT"); measles, mumps, and rubella ("MMR"); and polio. The Vaccine Trust Fund provides the funding source for the National Vaccine Injury Compensation Program ("Program"), which provides a substitute, Federal "no-fault" insurance system for the State-law tort and private liability insurance systems otherwise applicable to vaccine manufacturers.

Under the Program, all persons who were immunized with a covered vaccine after the effective date of the Program, October 1, 1988, are prohibited from commencing a civil action in State court for vaccine-related damages unless they first file a petition with the United States Claims Court, where such petitions are assigned to a special master and governed by streamlined procedural rules designed to expedite the proceedings.[1] In these cases, the Federal Government is the respondent party in the proceedings, and the claimant generally must show only that certain medical conditions (or death) followed the administration of a covered vaccine and that the first onset of symptoms occurred within a prescribed time period.[2] Compensation under the Program generally is limited to actual and projected unreimbursed medical, rehabilitative, and custodial expenses, lost earnings, pain and suffering (or, in the event of death, a recovery for the estate) up to $250,000, and reasonable attorney's fees.[3] Only if the final settlement under the Program is rejected may the claimant proceed with a civil tort action in the appropriate State court, where recovery generally will be governed by State tort law principles,[4] subject to certain limitations and specifications imposed by the National Childhood Vaccine Injury Act of 1986.[5]

The Vaccine Trust Fund is funded by a manufacturer's excise tax on DPT, DT, MMR, and polio vaccines (and any other vaccines used to prevent these diseases). The excise tax per dose is $4.56 for DPT, $0.06 for DT, $4.44 for MMR, and $0.29 for polio vaccines.

The vaccine excise tax will expire after the later of: (1) December 31, 1992; or (2) the date on which the Vaccine Trust Fund revenues exceed the projected liabilities with respect to compensable injuries from vaccines administered before October 1, 1992. Amounts in the Vaccine Trust Fund are available for the payment of compensation under the Program with respect to vaccines administered after September 30, 1988, and before October 1, 1992.

House Bill

Extension of excise tax and Program funding

The present-law excise taxes imposed on certain vaccines are extended for two years (i.e., through December 31, 1994). Authorization for compensation to be paid from the Vaccine Trust Fund for certain damages resulting from vaccines administered after September 30, 1988, and before October 1, 1992, also is extended for two years (i.e., for vaccines administered after September 30, 1988, and before October 1, 1994).[6]

Study

In addition, the Secretary of the Treasury, in consultation with the Secretary of Health and Human Services, is directed to conduct a study of: (1) the estimated amount that will be paid from the Vaccine Trust Fund with respect to vaccines administered after September 30, 1988, and before October 1, 1994; (2) the rates of vaccine-related injury or death with respect to various types of vaccines; (3) new vaccines and immunization practices being developed or used for which amounts may be paid from the Vaccine Trust Fund; (4) whether additional vaccines should be included in the Program; and (5) the appropriate treatment of vaccines produced by State governmental entities. The Secretary of the Treasury must submit a report detailing his findings not later than January 1, 1994, to the House Committee on Ways and Means and the Senate Committee on Finance.

Effective Date

The provisions are effective on the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

11. Permanent extension of general fund transfer to Railroad Retirement Tier 2 Fund

Present Law

The proceeds from the income taxation of railroad retirement Tier 2 benefits are transferred from the general fund of the Treasury to the Railroad Retirement Account. This transfer applies only to proceeds from the taxation of benefits which have been received prior to October 1, 1992. Proceeds from the taxation of benefits received after this date remain in the general fund.

House Bill

The transfer of proceeds from the income taxation of railroad retirement Tier 2 benefits from the general fund of the Treasury to the Railroad Retirement Account is made permanent.

---

[1] Persons who received vaccines before the Program's effective date of October 1, 1988 ("retrospective cases") also may be eligible for compensation under the Program if they had not yet received compensation and elected to file a petition with the United States Claims Court on or before January 31, 1991. Under the Program, awards in retrospective cases are somewhat limited compared to "prospective cases" (i.e., those where the vaccine was administered on or after October 1, 1988). Awards in retrospective cases are not paid out of the Vaccine Trust Fund but are paid out of funds specially authorized by Congress. See 42 U.S.C. sec. 300aa–15(i), (j) (appropriating $80 million for fiscal year 1989 and for each subsequent year).

[2] Compensation may not be awarded, however, if there is a preponderance of the evidence that the claimant's condition or death resulted from factors unrelated to the vaccine in question.

[3] 42 U.S.C. sec. 300aa–15.

The conferees wish to clarify their understanding that amounts received by a claimant from the Vaccine Trust Fund constitute damages received on account of personal injuries or sickness for purposes of the exclusion from gross income provided by the general rules of section 104(a)(2).

[4] In most State proceedings, significant issues arise whether injuries suffered by a child after immunization were, in fact, caused by the vaccine administered and whether the manufacturer was at fault in either the manufacture or marketing of the vaccine.

[5] Title III, P.L. 99-660. This Act preempts State tort law to a limited extent by imposing limits on recovery from vaccine manufacturers. Among the limitations are a prohibition on compensation if the injury or death resulted from side effects that were unavoidable; a presumption that manufacturers are not negligent in manufacturing or marketing vaccines if they complied, in all material respects, with Federal Food and Drug Administration requirements; and limits on punitive damage awards.

[6] The committee report to the House bill states that it is intended that the Secretary of the Treasury expeditiously (within 60 days of enactment) adopt rules for purposes of section 4221 for determining when exported vaccines which will be administered to individuals not eligible for compensation under the program are not subject to tax.

Effective date.—The provision is effective beginning September 30, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

12. Extension and modification of credit for producing fuel from nonconventional sources

PRESENT LAW

The production of fuels from certain nonconventional sources is eligible for a production credit equal to $3 per barrel or Btu oil barrel equivalent.[1] The credit amount generally is adjusted for inflation, except for gas produced from a tight formation. To qualify for the credit, specified fuels must be produced domestically from a well drilled, or a facility placed in service, before January 1, 1993, and sold before January 1, 2003.

Qualified fuels include (1) oil produced from shale and tar sands, (2) gas produced from geopressured brine, Devonian shale, coal seams, a tight formation, or biomass (i.e., any organic material other than oil, natural gas, or coal (or any product thereof)), and (3) liquid, gaseous, or solid synthetic fuels produced from coal (including lignite), including such fuels when used as feedstocks. The amount of the credit is determined without regard to any production attributable to a property from which gas from Devonian shale, coal seams, geopressured brine, or a tight formation was produced in marketable quantities before 1980.

For purposes of the credit, oil produced from shale is considered a qualifying fuel only if it is liquid oil obtained from shale rock after the retorting (heating) process but before hydrogenation, refining, or any other process subsequent to retorting.[2] Shale oil produced by other means does not qualify.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends the section 29 credit placed in service date for wells and facilities for eight months. Thus, production from wells drilled and facilities placed in service after December 31, 1979 and before September 1, 1993 qualifies for the credit if sold before January 1, 2003. In addition, the Senate amendment generally treats facilities that produce either (1) gas from biomass or (2) liquid, gaseous, or solid synthetic fuels from coal as being placed in service before September 1, 1993 if the facility is actually placed in service before January 1, 1997 pursuant to a binding written contract in effect before January 1, 1996 and at all times thereafter until the facility is placed in service. Production from such facilities qualifies for the credit if sold before January 1, 2008. Production from facilities that produce coke or coke gas, however, qualifies for the credit only if (1) the original use of the facility commences with the taxpayer, or (2) the taxpayer owns the facility on December 31, 1992 and at all times thereafter.

The Senate amendment also modifies the operation of the credit in several respects. First, the Senate amendment generally allows the credit, at the present-law rate (adjusted for inflation as provided under present law), only for the first 42 million cubic feet of gas produced from any well during a taxable year. Except for production of certain coal seams gas and gas from tight formations (as discussed below), no credit is allowed for production in excess of this level. For purposes of applying the per-well production limitation in the case of gas produced from Devonian shale where wells are operated under a unitization agreement and production from the unit's wells is not separately metered, total production from the unit is apportioned ratably to all the producing wells in the unit.

In the case of either gas produced from a tight formation or coal seams gas if captured from the de-stressed zone associated with any full-seam extraction of coal which extends above and below mined-out coal seams (so-called "gob gas"), the Senate amendment allows a lesser credit, equal to $2.25 per barrel of oil equivalent (not indexed for inflation), for annual production between 42 million and 550 million cubic feet from a well.

Second, the Senate amendment provides that the first 7,125 barrels of annual oil production from a well in the Bakken shale formation qualifies for the credit. In this case, the credit applies regardless of the production method employed to extract the oil from this formation.

Effective date.—Production from wells drilled, and facilities placed in service, after December 31, 1992. Thus, for example, the limitation on the credit based on production from a well applies only to production from wells drilled after that date. Production from wells drilled prior to 1993 continues to qualify for the credit as under present law.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

13. Allocation and Apportionment of Research Expenses (secs. 861-864 of the Code)

PRESENT LAW

U.S. persons are taxable on their worldwide income, including their foreign income. Foreign source taxable income equals foreign source gross income less the expenses, losses and other deductions properly apportioned or allocated to that income. The Internal Revenue Code generally articulates only the broad principles of how expenses reduce U.S. and foreign source gross income, leaving the Treasury Department to provide detailed rules for the task of allocating and apportioning expenses.

Treasury regulations issued in 1977 described methods for allocating expenses between U.S. and foreign source income, including rules for the allocation of research and development (R&D) expenses. Upon issuance of these regulations, a significant dispute regarding the appropriate allocation of R&D expenses developed between taxpayers and the Treasury Department. This unresolved dispute between taxpayers and the Treasury Department precipitated Congressional involvement on this issue, and since 1981, the R&D allocation regulations have been subject to a series of eight statutory suspensions and temporary modifications. The current temporary statutory provision is applicable generally for the first six months of the first taxable year beginning after August 1, 1991, and among other rules, automatically allocates 64 percent of U.S. performed R&D to U.S. source income, and generally permits a greater amount of taxable income to be classified as foreign source than under the 1977 regulations. This will increase the benefits of the foreign tax credit to many taxpayers.

On June 24, 1992, it was announced that the Treasury Department and the IRS have undertaken a review of the R&D allocation regulations, and that in light of this review, the IRS temporarily will not require that taxpayers apply those regulations (Rev. Proc. 92-56, 1992-28 I.R.B. 7). According to this Revenue Procedure, taxpayers would not be required to apply the R&D allocation regulations with respect to R&D expenses incurred during what would ordinarily be an 18-month transition period—that is, the last six months of the taxpayer's first taxable year beginning after August 1, 1991 and the immediately succeeding taxable year—provided that such deductions are allocated and apportioned in accordance with a method based on the temporary statutory provision, described above, applicable generally for the first six months of the first taxable year beginning after August 1, 1991. The Revenue Procedure states that this transition method is not intended to suggest any views about the proper allocation and apportionment of R&D expenses, and that it is intended solely to provide taxpayers with transition relief and to minimize audit controversy and facilitate business planning during the conduct of the regulatory review.

HOUSE BILL

The House bill contains no provision on the allocation and apportionment of R&D expenses. However, the Report of the Committee on Ways and Means to accompany H.R. 11 states that the committee believes that the Treasury Department has broad authority under current law to revise the current R&D allocation regulations. The report states that according to the Treasury Department's *General Explanations of the President's Budget Proposals Affecting Receipts* (January 1992), the Administration believes in providing tax incentives to increase the performance of U.S.-based research activities. The report further states that since the Administration has indicated its support of an allocation system that provides incentives to increase the performance of U.S.-based research activities, the committee expects, and in the strongest terms, urges the Treasury Department to revise its permanent regulations in a manner consistent with the Administration's stated objectives and proposals, as set forth in the Treasury explanation. The report states that the committee believes that such a revision would be consistent both with current law regulatory authority and with the stated goals of the Administration.

The report states that the committee further urges the Treasury Department, when revising its regulations, to take into consideration that taxpayers, in appropriate circumstances, are required for business purposes to conduct significant amounts of R&D at foreign sites and should not be penalized by the allocation rules.

The report states that the committee expects and requests the Treasury Department to issue regulations immediately, to be effective for all periods after the termination of the current temporary rules.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and Senate amendment. The conferees adopt the views expressed in the House report.

---

[1] A barrel-of-oil equivalent generally means that amount of the qualifying fuel which has a Btu content of 5.8 million.

[2] Senate Report No. 96-394, 96th Cong., 1st Sess., at 87.

C. INVESTMENT IN REAL ESTATE

1. Modification of the passive loss rules for certain real estate persons

PRESENT LAW

The passive loss rules limit deductions and credits from passive trade or business activities. Deductions attributable to passive activities, to the extent they exceed income from passive activities, generally may not be deducted against other income, such as wages, portfolio income, or business income that is not derived from a passive activity. A similar rule applies with respect to credits from passive activities. Deductions and credits suspended under these rules are carried forward to the next taxable year, and are allowed in full when the taxpayer disposes of his entire interest in the passive activity to an unrelated person.

Passive activities are defined to include trade or business activities in which the taxpayer does not materially participate. Rental activities (including rental real estate activities) are also treated as passive activities, regardless of the level of the taxpayer's participation.

HOUSE BILL

The House bill treats a taxpayer's rental real estate activities in which he materially participates as not subject to limitation under the passive loss rules if the taxpayer meets eligibility requirements relating to real property trades or businesses in which the taxpayer performs services.

Real property trade or business means any real property development, redevelopment, construction, reconstruction, acquisition, conversion, rental, operation, management, leasing, or brokerage trade or business.

An individual meets the eligibility requirements if more than half of the personal services the taxpayer performs in a trade or business are in real property trades or businesses in which he materially participates. Personal services performed as an employee are not treated as performed in a real estate trade or business unless the person performing the services has more than a 5 percent ownership interest in the employer.

A closely held C corporation meets the eligibility requirements if more than 50 percent of its gross receipts for the taxable year are derived from real property trades or businesses in which the corporation materially participates.

Effective date.—The provision is effective with respect to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that under the amendment, if the taxpayer meets eligibility requirements with respect to real property trades or businesses in which he performs services, then the taxpayer's net loss from rental real estate activities in which the taxpayer materially participates generally is allowed to offset income from real property trade or business activities. The portion of the taxpayer's passive activity loss allowed under the Senate amendment may not exceed the lesser of (1) the taxpayer's net income from real property trade or business activities which are not passive activities, or (2) the taxpayer's taxable income (determined without regard to this provision). A similar rule applies with respect to passive activity credits. The Senate amendment does not apply to closely held C corporations.

Effective date.—Same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, with a modification to the effective date. The provision is effective with respect to taxable years beginning after December 31, 1992.

2. Changes relating to real estate investments by pension funds and others

a. Modification of the rules related to debt-finance income (sec. 2111 of the bill and sec. 514 of the Code)

PRESENT LAW

In general, a qualified pension trust or an organization that is otherwise exempt from Federal income tax is taxed on any income from a trade or business that is unrelated to the organization's exempt purposes (Unrelated Business Taxable Income or "UBTI") (sec. 511). Certain types of income, including rents, royalties, dividends, and interest are excluded from UBTI, except when such income is derived from "debt-financed property." Income from debt-financed property generally is treated as UBTI in proportion to the amount of debt financing (sec. 514(a)).

An exception to the rule treating income from debt-financed property as UBTI is available to pension trusts, educational institutions, and certain other exempt organizations (collectively referred to as "qualified organizations") that make debt-financed investments in real property (sec. 514(c)(9)(A)). Under this exception, income from investments in real property is not treated as income from debt-financed property. Mortgages are not considered real property for purposes of the exception.

The real property exception to the debt-financed property rules is available for investments in debt-financed property, only if the following six restrictions are satisfied: (1) the purchase price of the real property is a fixed amount determined as of the date of the acquisition (the "fixed price restriction"); (2) the amount of the indebtedness or any amount payable with respect to the indebtedness, or the time for making any payment of any such amount, is not dependent (in whole or in part) upon revenues, income, or profits derived from the property (the "participating loan restriction"); (3) the property is not leased by the qualified organization to the seller or to a person related to the seller (the "leaseback restriction"); (4) in the case of a pension trust, the seller or lessee of the property is not a disqualified person (the "disqualified person restriction"); (5) the seller or a person related to the seller (or a person related to the plan with respect to which a pension trust was formed) is not providing financing in connection with the acquisition of the property (the "seller-financing restriction"); and (6) if the investment in the property is held through a partnership, certain additional requirements are satisfied by the partnership (the "partnership restrictions") (sec. 514(c)(9)(B)(i) through (vi)).

HOUSE BILL

Relaxation of the leaseback and disqualified person restrictions

The bill relaxes the leaseback and disqualified person restrictions to permit a limited leaseback of debt-financed real property to the seller (or a person related to the seller) or to a disqualified person.[1] The exception applies only where (1) no more than 25 percent of the leasable floor space in a building is leased back to the seller (or related party) or to the disqualified person, and (2) the lease is on commercially reasonable terms.

Relaxation of the seller-financing restriction

The bill relaxes the seller-financing restriction to permit seller financing on terms that are commercially reasonable. The bill grants authority to the Treasury Department to issue regulations for the purpose of determining commercially reasonable financing terms.

The bill does not modify the present-law fixed price and participating loan restrictions. Thus, for example, income from real property acquired with financing where the timing or amount of payment is based on revenue, income, or profits from the property generally will continue to be treated as income from debt-financed property, unless some other exception applies.

Relaxation of the fixed price and participating loan restriction for property foreclosed on by financial institutions

The bill relaxes the fixed price and participating loan restrictions for certain sales of real property foreclosed upon by financial institutions.[2] The relaxation of these rules is limited to cases where: (1) a qualified organization acquires the property from a financial institution that acquired the real property by foreclosure (or after an actual or imminent default), or was held by the financial institution at the time that it entered into conservatorship or receivership; (2) the property is not a capital asset of the financial institution; (3) the stated principal amount of the seller financing does not exceed the financial institution's outstanding indebtedness (including accrued but unpaid interest) with respect to the property at the time of foreclosure; and (4) the value of any participation feature at the time of sale does not exceed 30 percent of the value of the property.

The bill grants authority to the Treasury Department to issue regulations for the purpose of clarifying these limitations. In particular, these regulations are expected to establish standards for determining what constitutes a participation feature and how to determine whether the value of a participation feature at the time of sale exceeds 25 percent of the value of the property. For example, a participation feature that provides the seller with less than a 25 percent interest in net proceeds, net income, or gain on sale of the property is expected to be valued at less than 25 percent of the value of the property.

Effective date

The provision is effective for acquisitions on or after June 25, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that financial institutions are defined to include government corporations that succeed to the rights and interests of a receiver or conservator.

The Senate amendment is effective for acquisitions on or after July 28, 1992. The provision also is effective for leases entered into on or after July 28, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment except that the provision is effective for acquisitions on or after October 1, 1992.

b. Special rules for investments in partnerships

PRESENT LAW

In general, the character of a partner's distributive share of partnership income is the same as if the income had been directly realized by the partner. Thus, whether a tax-exempt organization's share of income from a partnership (other than from a publicly-traded partnership) is treated as unrelated business income depends on the underlying character of the income (sec. 512(c)(1)). In addition, as noted above, the real property exception for investments in debt-financed property depends on whether the sec. 514(c)(9)(B)(i) through (vi) restrictions are satisfied.

---

[1] As under present law, a leaseback to a disqualified person remains subject to the prohibited transaction rules set forth in section 4975.

[2] For this purpose, financial institutions include financial institutions in conservatorship or receivership and certain affiliates of financial institutions.

Furthermore, a tax-exempt organization's distributive share of gross income from a publicly-traded partnership (that is not otherwise treated as a corporation) automatically is treated as UBTI (sec. 512(c)(2)(A)). The organization's share of the partnership deductions is allowed in computing the organization's taxable unrelated business income (sec. 512(c)(2)(B)).

HOUSE BILL

Elimination of the section 514(c)(9)(B) restrictions for investments through certain large partnerships

The bill eliminates the six section 514(c)(9)(B) restrictions for qualified organizations that invest in real property through certain "large" partnerships.

A "large" partnership is a partnership having at least 250 partners that satisfies the following three tests: (1) interests in the partnership are registered with the Securities and Exchange Commission; (2) a significant percentage (at least 50 percent) of each class of interests is owned by taxable individuals; and (3) a principal purpose of the partnership allocations is not tax avoidance. Partnership interests that are subject to the same terms are considered to be in the same class, regardless of whether the interests are subject to different ownership restrictions (a partnership can therefore monitor the 50-percent ownership restriction by requiring that designated interests be held only by taxable persons).

Repeal of the automatic UBTI rule for publicly-traded partnerships

The bill repeals the rule that automatically treats income from publicly-traded partnerships as UBTI. Thus, under the provision, investments in publicly-traded partnerships are treated the same as investments in other partnerships for purposes of the UBTI rules.

Effective date

The provision is effective for partnership interests acquired on or after June 25, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, with the modifications that (1) individual retirement accounts are excluded from the calculation of the requirement of 50 percent taxable partners. In addition, the provision is effective for partnership years ending after July 28, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment except that the provision is effective for partnership years ending on or after October 1, 1992.

c. Permit title-holding companies to receive small amounts of UBTI (sec. 2113 of the bill and secs. 501(c)(2) and (c)(25) of the Code)

PRESENT LAW

Section 501(c)(2) provides tax-exempt status to certain corporations organized for the exclusive purpose of holding title to property and turning over any income from the property to one or more related tax-exempt organizations. Section 501(c)(25) provides tax-exempt status to certain corporations and trusts that are organized for the exclusive purposes of acquiring and holding title to real property, collecting income from such property, and remitting the income therefrom to no more than 35 shareholders or beneficiaries that are: (1) qualified pension, profit-sharing, or stock bonus plans (sec. 401(a)); (2) governmental pension plans (sec. 414(d)); (3) the United States, a State or political subdivision, or governmental agencies or instrumentalities; or (4) tax-exempt charitable, educational, religious, or other organizations described in section 501(c)(3). However, the IRS has taken the position that a title-holding company described in section 501(c)(2) or 501(c)(25) will lose its tax-exempt status if it generates any amount of certain types of UBTI.[3]

HOUSE BILL

The bill permits a title-holding company that is exempt from tax under sections 501(c)(2) or 501(c)(25) to receive UBTI up to 10 percent of its gross income for the taxable year, provided that the UBTI is incidentally derived from the holding of real property. For example, income generated from parking or operating vending machines located on real property owned by a title-holding company generally would qualify for the 10-percent de minimis rule, while income derived from an activity that is not incidental to the holding of real property (e.g., manufacturing) would not qualify. In cases where unrelated income is incidentally derived from the holding of real property, receipt by a title-holding company of such income (up to the 10-percent limit) will not jeopardize the title-holding company's tax-exempt status, but nonetheless, will be subject to tax as UBTI.

In addition, the bill provides that a section 501(c)(2) or 501(c)(25) title-holding company will not lose its tax-exempt status if UBTI that is incidentally derived from the holding of real property exceeds the 10-percent limitation, provided that the title-holding company establishes to the satisfaction of the Secretary of the Treasury that the receipt of UBTI in excess of the 10-percent limitation was inadvertent and reasonable steps are being taken to correct the circumstances giving rise to such excess UBTI.

Effective date.—The provision is effective for taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with a clarification that the 10 percent limitation applies only to income that would have resulted in disqualification without regard to this new provision.

d. Exclusion from UBTI of any gains from the disposition of property acquired from financial institutions in conservatorships or receiverships (sec. 2114 of the bill and sec. 512(b) of the Code)

PRESENT LAW

In general, gains or losses from the sale, exchange or other disposition of property are excluded from UBTI (sec. 512(b)(5)). However, gains or losses from the sale, exchange or other disposition of property held primarily for sale to customers in the ordinary course of a trade or business are not excluded from UBTI (the "dealer UBTI rule") (sec. 512(b)(5)(B)).

HOUSE BILL

The bill provides an exception to the dealer UBTI rule by excluding gains from the sale, exchange or other disposition of certain real property and mortgages acquired from financial institutions that are in conservatorship or receivership. Only real property and mortgages owned by a financial institution (or that was security for a loan extended by the financial institution) at the time that the institution entered conservatorship or receivership are eligible for the exception.

The exclusion is limited to properties designated as disposal property within six months of acquisition, and disposed of within two-and-a-half years of acquisition. The two-and-a-half year disposition period may be extended by the Secretary if an extension is necessary for the orderly liquidation of the property. No more than one-third by value of properties acquired in a single transaction may be designated as disposal property.

The exclusion is not available for properties that are developed in any significant manner (thus, for example, property that is developed by the securing of zoning permits is not eligible for the exception).

Effective date.—The provision is effective for property acquired on or after June 25, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill with the modification that the amendment permits: (1) designations of disposal property within nine months of acquisition (rather than six months), (2) one-half by value (rather than one-third by value) of properties to be designated as disposal property, and (3) improvement and development of disposal property to the extent that the aggregate expenditures on development do not exceed 20 percent of the net selling price of the property (rather than prohibit significant development activity).

The provision is effective for property acquired on or after July 28, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment except that the provision is effective for acquisitions on or after October 1, 1992.

e. Exclusion of loan commitment fees and certain option premiums from UBTI (sec. 2115 of the bill and sec. 512(b) of the Code)

PRESENT LAW

Income from a trade or business that is unrelated to an exempt organization's purpose generally is UBTI. Passive income such as dividends, interest, royalties, and gains or losses from the sale, exchange or other disposition of property generally is excluded from UBTI (sec. 512(b)). In addition, gains on the lapse or termination of options on securities are explicitly exempted from UBTI (sec. 512(b)(5)).

Present law is unclear on whether loan commitment fees and premiums from unexercised options on real estate are UBTI.

HOUSE BILL

The bill provides that loan commitment fees and premiums from unexercised options on real estate are excluded from UBTI. For purposes of this provision, loan commitment fees are non-refundable charges made by a lender to reserve a sum of money with fixed terms for a specified period of time. These charges are to compensate the lender for the risk inherent in committing to make the loan (e.g., for the lender's exposure to interest rate changes and for potential lost opportunities).

---

[3] IRS Notice 88-121, 1988-2 C.B. 457. See also Treas. Reg. sec. 1.501(c)(2)-1(a).

Effective date.—The provision is effective for premiums or loan commitment fees that are received on or after June 25, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill except that the provision is effective for premiums or loan commitment fees that are received on or after July 28, 1992.

CONFERENCE REPORT

The conference agreement follows the Senate amendment except that the provision is effective for premiums or loan commitment fees that are received on or after October 1, 1992.

f. Relaxation of limitations on investments in real estate investment trusts by pension funds (sec. 2116 of the bill and sec. 856(h) of the Code)

PRESENT LAW

A real estate investment trust ("REIT") is not taxed on income distributed to shareholders. A corporation does not qualify as a REIT if at any time during the last half of its taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by five or fewer individuals ("the five or fewer rule"). A domestic pension trust is treated as a single individual for purposes of this rule.

Dividends paid by a REIT are not UBTI,[4] unless the stock in the REIT is debt-financed. Depending on its character, income earned by a partnership may be UBTI (sec. 512(c)). Special rules treat debt-financed income earned by a partnership as UBTI (sec. 514(c)(9)(B)(vi)).

HOUSE BILL

Qualification as a REIT

The bill provides that a pension trust generally is not treated as a single individual for purposes of the five-or-fewer rule. Rather, the bill treats beneficiaries of the pension trust as holding stock in the REIT in proportion to their actuarial interests in the trust. This rule does not apply if disqualified persons, within the meaning of section 4975(e)(2) (other than by reason of subparagraphs (B) and (I)), together own five percent or more of the value of the REIT stock and the REIT has earnings and profits attributable to a period during which it did not qualify as a REIT.[5]

In addition, the bill provides that a REIT cannot be a personal holding company and, therefore, is not subject to the personal holding company tax on its undistributed income.

Unrelated business taxable income

Under the bill, certain pension trusts owning more than 10 percent of a REIT must treat a percentage of dividends from the REIT as UBTI. This percentage is the gross income derived from an unrelated trade or business (determined as if the REIT were a pension trust) divided by the gross income of the REIT for the year in which the dividends are paid. Dividends are not treated as UBTI, however, unless this percentage is at least five percent.

The UBTI rule applies only if the REIT qualifies as a REIT by reason of the above modification of the five or fewer rule. Moreover, the UBTI rule applies only if (1) one pension trust owns more than 25 percent of the value of the REIT, or (2) a group of pension trusts individually holding more than 10 percent of the value of the REIT collectively own more than 50 percent of the value of the REIT.

Effective date

The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate Amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment except for a change in the formula for determining the percentage of dividends from the REIT that must be treated as UBTI. Under the conference agreement, the percentage is the modified gross income derived from an unrelated trade or business (determined as if the REIT were a pension trust) divided by the modified gross income of the REIT for the year in which the dividends are paid. Modified gross income is defined as gross income less deductions directly connected with such income. These deductions include depreciation, interest (if paid on debt that was incurred in order to acquire or carry the property), real estate taxes, and direct operating expenses such as utilities, management fees, repairs, maintenance and lease commissions.

3. Tax credit for first-time homebuyers

PRESENT LAW

There is no tax credit for the purchase of a principal residence under present law.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, individuals who purchase a principal residence are eligible to receive a tax credit equal to 10 percent of the purchase price of the residence, up to a maximum credit of $2,500. The credit applies to a principal residence if (1) the taxpayer acquires such residence on or after July 28, 1992, and before January 1, 1993, or (2) the taxpayer enters into a binding contract to acquire such residence on or after July 28, 1992, and before January 1, 1993, and the taxpayer purchases and occupies such residence before April 1, 1993. One-half of the credit is allowed in the taxable year in which the purchase occurs and the other half is allowed in the following taxable year. Only one tax credit may be claimed per residence. Manufactured homes can qualify as a principal residence under the same rules as under present law, regardless of whether they are treated as real or personal property under State law.

First-time homebuyers are defined as individuals who did not have a present interest in a residence in the 3 years preceding the purchase of a home. If an individual is deferring tax on gain from the sale of a previous principal residence and is permitted an extended rollover period (Code sec. 1034), he or she is not considered a first-time homebuyer until after the end of the extended rollover period.

In the case of certain homebuyers described in Code sec. 143(i)(1)(C) whose family incomes do not exceed $15,000, ownership of land subject to certain contracts for deed described in such section does not disqualify the homebuyer as being considered a first-time homebuyer.

The first-time homebuyer credit is nonrefundable, and thus is available only to the extent the taxpayer has income tax liability to offset. However, any unused portion of the credit may be carried forward (but not beyond the fifth taxable year after the taxable year of purchase) and applied against future income tax liability.

The credit is recaptured if the residence on which the credit was claimed is sold or otherwise disposed of within 3 years of the date the residence was purchased. The recapture rule does not apply, however, to dispositions by reason of the taxpayer's death or divorce. If the taxpayer sells the residence within 3 years but purchases a new home within the rollover period, the credit is recaptured to the extent the taxpayer would have claimed a smaller credit on the new residence had it been purchased during the period when the credit was available.

Effective date.—The provision is effective for purchases on or after July 28, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

4. Treatment of certain real property business indebtedness of individuals

PRESENT LAW

The discharge of indebtedness generally gives rise to gross income to the debtor taxpayer. Present law provides exceptions to this general rule. Among the exceptions are rules providing that income from the discharge of indebtedness of the taxpayer is excluded from income if the discharge occurs in a title 11 case, the discharge occurs when the taxpayer is insolvent, or in the case of certain farm indebtedness. The amount excluded from income under these exceptions is applied to reduce tax attributes of the taxpayer. Prior law also provided an elective exception for the discharge of certain qualified business indebtedness; this exception was repealed by the 1986 Act.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides an election to individual taxpayers to exclude from gross income certain income from discharge of qualified real property business indebtedness. The amount so excluded cannot exceed the basis of certain depreciable real property of the taxpayer and is treated as a reduction in the basis of that property.

Qualified real property business indebtedness is indebtedness that (1) is incurred or assumed in connection with real property used in a trade or business (2) is secured by that real property, and (3) with respect to which the taxpayer has made an election under this provision. Indebtedness incurred or assumed on or after July 30, 1992 is not qualified real property business indebtedness unless it is either (1) debt incurred to refinance qualified real property business incurred or assumed before that date (but only to the extent the amount of such debt does not exceed the amount of debt being refinanced), or (2) qualified acquisition indebtedness. Qualified real property business indebtedness does not include qualified farm indebtedness.

Qualified acquisition indebtedness is debt incurred to acquire, construct or substantially improve real property that is secured by such debt, and debt resulting from the refinancing of qualified acquisition debt, to the extent the amount of such debt does not exceed the amount of debt being refinanced.

The amount excluded under the provision with respect to the discharge of any qualified real property business indebtedness may not exceed the excess of (1) the outstanding principal amount of such debt (immediately before the discharge), over (2) the fair market value (immediately before the discharge) of the business real property which is security for the debt. For this purpose, the fair market value of the property is reduced by the outstanding principal amount of any other qualified real property indebtedness secured by the property immediately before the discharge.

---

[4] See Rev. Rul. 66-151, 1966-1 C.B. 151.

[5] Moreover, as under present law, any investment by a pension trust must be in accordance with the fiduciary rules of the Employee Retirement Income Security Act ("ERISA") and the prohibited transaction rules of the Code and ERISA.

For example, assume that on July 30, 1992, Individual J owns a building worth $150,000, used in his trade or business, that is subject to a first mortgage securing a debt of J's of $110,000 and a second mortgage securing a second debt of J's of $90,000. J is neither a bankrupt nor insolvent and neither debt is qualified farm indebtedness. J agrees with his second mortgagee to reduce the second mortgage debt to $30,000, resulting in discharge of indebtedness income in the amount of $60,000. Under the provision, assuming that J has sufficient basis in business real property to absorb the reduction (see below), J can elect to exclude $50,000 of that discharge from gross income. This is because the principal amount of the discharged debt immediately before the discharge (i.e., $90,000) exceeds the fair market value of the property securing it (i.e., $150,000 of free and clear value less $110,000 of other qualified business real property indebtedness or $40,000) by $50,000. The remaining $10,000 of discharge is included in gross income.

The amount excluded under the provision may not exceed the aggregate adjusted bases (determined as of the first day of the next taxable year or, if earlier, the date of disposition) of depreciable real property held by the taxpayer immediately before the discharge, determined after any reductions under subsections (b) and (g) of section 108. Depreciable real property acquired in contemplation of the discharge is treated as not held by the taxpayer immediately before the discharge.

The amount of debt discharge excluded under the provision is applied, using the rules of section 1017 (as modified by the Senate amendment), to reduce the basis of business real property held by the taxpayer at the beginning of the taxable year following the taxable year in which the discharge occurs. The election under 1017(b)(3) to treat inventory as qualified property does not apply. If the taxpayer disposes of real property (in the transaction that gave rise to the discharge or otherwise) prior to the first day of the next taxable year, then the reduction in basis of such property is made as of the time immediately before the disposition.

In the case of discharge of indebtedness of a partnership, the determination of whether indebtedness is qualified real property indebtedness is made at the partnership level. For example, if partnership debt is discharged, the determination of whether the debt was incurred or assumed in connection with real property used in a trade or business is made by reference to the trade or business of the partnership and real property owned by the partnership. The election to apply the provision is made at the partner level, however, on a partner by partner basis. An interest of a partner in a partnership that owns depreciable real property is treated as depreciable real property to the extent of the partner's proportionate interest in the depreciable real property held by the partnership. The partnership's basis in depreciable real property with respect to such partner is correspondingly reduced.

If depreciable real property, the basis of which was reduced under this provision, is disposed of, then for purposes of determining the amount of recapture under section 1250: (1) any such basis reduction is treated as a deduction allowed for depreciation, and (2) the determination of what would have been the depreciation adjustment under the straight line method is made as if there had been no such reduction. Thus, the amount of the basis reduction that is recaptured as ordinary income is reduced over the time the taxpayer continues to hold the property, as the taxpayer foregoes depreciation deductions due to the basis reduction.

Effective date.—The provision is effective with respect to discharges after December 31, 1991 in taxable years ending after that date.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The conference agreement clarifies the application of the provision to S corporations. Because the taxable income of an S corporation is computed in the same manner as an individual (sec. 1363(b)), this provision applies to income from the discharge of indebtedness of an S corporation. The exclusion and basis reduction are both made at the S corporation level (sec. 108(d)(7)). If an amount is excluded from the income of an S corporation under this provision, the income flowing through to the shareholders will be reduced and the shareholders' basis in their stock will likewise be reduced in relation to the income and basis the shareholders would have if present law continued to apply. Where the reduced basis in the corporation's depreciable property later results in additional income (or a smaller loss) to the corporation because of reduced depreciation or additional gain (or smaller loss) on the disposition of the property, the additional income (or smaller loss) will flow through to the shareholders at that time and will then result in a larger increase (or smaller reduction) in the shareholders' basis than if present law continued to apply. Thus, the provision simply defers income to the shareholders.

The conference agreement also clarifies the treatment of the deemed distribution (under Code section 752) arising from the reduction in a partner's share of partnership liabilities attributable to the discharge of partnership debt. The allocation of an amount of debt discharge income to a partner results in that partner's basis in the partnership being increased by such amount (sec. 705). The reduction in the partner's share of partnership liabilities caused by the debt discharge also results in a deemed distribution (under sec. 752) which in turn results in a reduction (under sec. 733) of the partners's basis in his partnership interest. This section 733 basis reduction is separate from any reduction in basis of the partner's interest that occurs as a result of treating the partnership interest as depreciable real property to the extent of the partner's proportionate interest in the depreciable real property held by the partnership (as provided under the Senate amendment).

D. LUXURY EXCISE TAX; DIESEL FUEL EXCISE TAX ON MOTORBOATS

1. Repeal of luxury excise tax on boats, aircraft, jewelry, and furs; Indexing of luxury excise tax on automobiles

PRESENT LAW

Present law imposes a ten-percent excise tax on the portion of the retail price of the following items that exceeds the thresholds specified: automobiles above $30,000; boats above $100,000; aircraft above $250,000; jewelry above $10,000; and furs above $10,000.

The tax applies to sales before January 1, 2000.

HOUSE BILL

Repeal of tax on boats, aircraft, jewelry, and fur

The House bill repeals the luxury excise tax imposed on boats, airplanes, jewelry, and furs.

Indexing of tax on automobiles

The House bill modifies the luxury excise tax on automobiles to provide that the $30,000 threshold is indexed annually for inflation occurring after 1990. Consequently, the applicable threshold for 1992 will be $30,000 increased by the 1991 inflation rate.

Equipment installed for use by disabled individuals

The House bill provides that the luxury excise tax does not apply to the cost of a part or accessory installed on a passenger vehicle to enable or assist an individual with a disability to operate the vehicle, or to enter or exit the vehicle, in order to compensate for the effect of the disability. This exception does not apply to accessories commonly available from the manufacturer or dealer, such as power steering, power door locks, power seats, or power windows.

Effective date

The repeal of the luxury excise taxes on boats, aircraft, jewelry, and furs is effective for sales on or after January 1, 1992. The indexation of the threshold applicable to automobiles is effective for sales on or after July 1, 1992. The provision relating to the purchase of accessories or modifications by disabled persons is effective for purchases after December 31, 1990.

Persons entitled to a refund may request it from the seller from whom they purchased the taxed item, who then obtains the refund as provided under present-law Code section 6416.

SENATE AMENDMENT

Repeal of tax on boats, aircraft, jewelry, and fur

The Senate amendment is the same as the House bill.

Indexing of tax on automobiles

The Senate amendment is the same as the House bill.

Equipment installed for use by disabled individuals

The Senate amendment is the same as the House bill.

Treatment of demonstrator vehicles

The Senate amendment exempts automobile dealers from paying the luxury tax on demonstrator vehicles used for purposes other than test drives. Under the provision, the tax, if any, is to be assessed and paid on the sales price of the car when the car is sold.

Effective date

The effective date of the Senate amendment is identical to the House bill with respect to boats, airplanes, jewelry, furs, automobiles, and equipment installed for use by disabled individuals. The provision relating to the use before sale of demonstrator vehicles is effective for vehicle use beginning after June 30, 1992.

Persons entitled to a refund may request it from the seller from whom they purchased the taxed item, who then obtains the refund as provided under present-law Code section 6416.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment with respect to the repeal of the tax on boats, aircraft, jewelry, and furs, the indexing of the tax on automobiles, and the treatment of equipment installed for use by disabled individuals. The conference agreement follows the Senate amendment with respect to the treatment of demonstrator vehicles. In addition, the conference agreement modifies the effective date with respect to the indexation of the threshold applicable to automobiles to be effective for sales on or after October 1, 1992.

2. Impose excise tax on diesel fuel used in noncommercial boats

PRESENT LAW

Federal excise taxes generally are imposed on gasoline and special motor fuels used in highway transportation and by boats (14 cents per gallon). A Federal excise tax also is imposed on diesel fuel (20 cents per gallon) used in highway transportation. Diesel fuel used in trains generally is taxed at 2.5 cents per gallon.

The revenues from these taxes, minus 2.5 cents per gallon, are deposited in the Highway Trust Fund ("HTF") through September 30, 1995; all the revenues from these taxes are deposited in the HTF from October 1, 1995 through September 30, 1999. The revenues attributable to the taxes on boat and small engine gasoline fuels deposited in the HTF are transferred to the Aquatic Resources Trust Fund. Revenues from the remaining 2.5 cents per gallon are retained in the General Fund through September 30, 1995, after which time the 2.5 cents-per-gallon portion of the taxes (including the tax on diesel fuel used in trains) is scheduled to expire.

An additional 0.1-cent-per-gallon tax applies to these fuels to finance the Leaking Underground Storage Trust Fund ("LUST Fund"), generally through December 31, 1995.

Diesel fuel used in boats is not taxed.

HOUSE BILL

The House bill extends the diesel fuel excise taxes to diesel fuel used by boats. Fuel used by boats for commercial fishing, transportation for compensation or hire, or for business use other than predominantly for entertainment, amusement, or recreation, remains exempt.

As under the President's budget proposal, the tax is collected at the same point in the distribution chain as the highway diesel fuel tax (i.e., on sale to a retailer). However, to prevent unnecessary tax-paid sales followed by refunds, retailers that sell diesel fuel exclusively to boats that are exempt from the tax are permitted to buy and sell the fuel tax-free.

The revenues from the taxes on diesel fuel used by boats will be retained in the General Fund.

The tax will expire after September 30, 1997.

Effective date.—The provision is effective after September 30, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment with the modification that the provision is effective after December 31, 1992.

E. OTHER INCENTIVES

1. Corporate alternative minimum tax: elimination of ACE depreciation adjustment

PRESENT LAW

Under present law, a corporation is subject to an alternative minimum tax ("AMT") which is payable, in addition to all other tax liabilities, to the extent that it exceeds the corporation's regular income tax liability. Alternative minimum taxable income ("AMTI") is the corporation's taxable income increased by the corporation's tax preferences and adjusted by determining the tax treatment of certain items in a manner which negates the deferral of income resulting from the regular tax treatment of those items. For a corporation, the amount of AMT paid in a year may be carried forward as a credit and used to reduce the corporation's regular tax liability (but not below the corporation's tentative minimum tax for the year).

One of the adjustments that is made to taxable income to arrive at AMTI relates to depreciation. Depreciation on most personal property to which the modified ACRS system adopted in 1986 applies is calculated using the 150-percent declining balance method (switching to straight line in the year necessary to maximize the deduction) over the life described in Code section 168(g) (generally the ADR class life of the property).

For taxable years beginning after 1989, AMTI is increased by an amount equal to 75 percent of the amount by which adjusted current earnings ("ACE") exceeds AMTI (as determined before this adjustment). The ACE adjustment replaced the book-income adjustment applicable to tax years 1987 through 1989. In general, ACE equals AMTI with additional adjustments that generally follow the rules presently applicable to corporations in computing their earnings and profits. For purposes of ACE, depreciation is computed using the straight-line method over the class life of the property. Thus, a corporation generally must make two depreciation calculations for purposes of the AMT—once using the 150-percent declining balance method and again using the straight-line method.

HOUSE BILL

Effective for property placed in service in taxable years beginning after the date of enactment, the House bill would eliminate the depreciation component of ACE for corporate AMT purposes. Thus, in computing ACE, a corporation would use the same depreciation methods and lives that it uses in computing AMTI (generally, the 150-percent declining balance method for tangible personal property).

Effective date.—The provision is effective for property placed in service in taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Exclusion for seed capital gain of individuals from certain small business stock

PRESENT LAW

Ordinary income of an individual is taxed at a maximum marginal rate of 31 percent. Net capital gain of an individual is taxed at the same rates applicable to ordinary income, subject to a maximum marginal rate of 28 percent.

The Tax Reform Act of 1986 repealed a provision allowing a noncorporate taxpayer a deduction for 60 percent of its net capital gain for the taxable year.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that taxpayers (other than C corporations) are allowed a capital gains exclusion for gain realized on the sale or exchange of certain small business stock held for more than five years. The exclusion is 50% for stock held for more than five years, 60% for more than six years, 70% for more than seven years, 80% for more than eight years, 90% for more than nine years, and 100% for more than ten years.

In order to qualify for the exclusion, the stock must be that of a domestic corporation (other than a corporation engaged in certain disqualified activities), the corporation must satisfy an active business test, the basis of the corporation's assets must not exceed $5 million, and the stock must be originally issued to the taxpayer.

The exclusion is not a preference for purposes of the alternative minimum tax.

Effective date.—Stock issued six months after the date of enactment. In addition, taxpayers can elect to mark to market appreciated small business stock issued before the effective date in order to qualify future gain from the sale of such stock for the exclusion.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

3. Employer tax credit for FICA paid on tip income

PRESENT LAW

Under present law, all employee tip income is treated as employer-provided wages for purposes of the Federal Unemployment Tax Act (FUTA) and the Federal Insurance Contributions Act (FICA). For purposes of the minimum wage provisions of the Fair Labor Standards Act (FLSA), reported tips are treated as employer-provided wages to the extent they do not exceed one-half of such minimum wage.

HOUSE BILL

The House bill provides a business tax credit (sec. 38) in an amount equal to the employer's FICA tax obligation (7.65 percent) attributable to reported tips in excess of those treated as wages for purposes of satisfying the minimum wage provisions of the FLSA. To prevent double dipping, no deduction is allowed for any amount taken into account in determining the credit. The bill prohibits carryback of unused FICA credits (sec. 39) to a taxable year ending before the date of enactment.

Effective date.—Tips received and wages paid after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the senate amendment.

Effective date.—Taxes paid after December 31, 1992.

III. OFFSETTING REVENUE INCREASES

A. GENERAL PROVISIONS

1. Mark to market accounting method for dealers in securities

PRESENT LAW

A taxpayer that is a dealer in securities is required for Federal income tax purposes to maintain an inventory of securities held for sale to customers. A dealer in securities is allowed for Federal income tax purposes to determine (or value) the inventory of securities held for sale based on: (1) the cost of the securities; (2) the lower of the cost or market value of the securities; or (3) the market value of the securities.

If the inventory of securities is determined based on cost, unrealized gains and losses with respect to the securities are not taken into account for Federal income tax purposes. If the inventory of securities is determined based on the lower of cost or market value, unrealized losses (but not unrealized gains) with respect to the securities are taken into account for Federal income tax purposes. If the inventory of securities is determined based on market value, both unrealized gains and losses with respect to the securities are taken into account for Federal income tax purposes.

For financial accounting purposes, the inventory of securities generally is determined based on market value.

HOUSE BILL

In general

The House bill provides two general rules (the "mark-to-market rules") that apply to certain securities that are held by a dealer in securities. First, any such security that is inventory in the hands of the dealer is required to be included in inventory at its fair market value. Second, any such security that is not inventory in the hands of the dealer and that is held as of the close of any taxable year is treated as sold by the dealer for its fair market value on the last business day of the taxable year and any gain or loss is required to be taken into account by the dealer in determining gross income for that taxable year.[1]

If gain or loss is taken into account with respect to a security by reason of the second mark-to-market rule, then the amount of gain or loss subsequently realized as a result of a sale, exchange, or other disposition of the security, or as a result of the application of the mark-to-market rules, is to be appropriately adjusted to reflect such gain or loss. In addition, the bill authorizes the Treasury Department to promulgate regulations that provide for the application of the second mark-to-market rule at times other than the close of a taxable year or the last business day of a taxable year.

The mark-to-market rules described above apply only for purposes of determining the amount of gain or loss that is taken into account by a dealer in securities for any taxable year. Thus, for example, the mark-to-market rules do not apply in determining the character of any gain or loss and do not begin a new holding period for any security.[2] As a further example, the mark-to-market rules do not apply in determining whether gain or loss is recognized by any other taxpayer that may be a party to a contract with a dealer in securities.

Definitions

A dealer in securities is defined as any taxpayer that either (1) regularly purchases securities from, or sells securities to, customers in the ordinary course of a trade or business, or (2) regularly offers to enter into, assume, offset, assign, or otherwise terminate positions in securities with customers in the ordinary course of a trade or business.

A security is defined as: (1) any share of stock in a corporation; (2) any partnership or beneficial ownership interest in a widely held or publicly traded partnership or trust; (3) any note, bond, debenture, or other evidence of indebtedness; (4) any interest rate, currency, or equity notional principal contract (but not any other notional principal contract such as a notional principal contract that is based on the price of oil, wheat, or other commodity); and (5) any evidence of an interest in, or any derivative financial instrument in, a security described in (1) through (4) above or any currency, including any option, forward contract, short position, or any similar financial instrument in such a security or currency.

In addition, a security is defined to include any position if: (1) the position is not a security described in the preceding paragraph; (2) the position is a hedge with respect to a security described in the preceding paragraph; and (3) before the close of the day on which the position was acquired or entered into (or such other time as the Treasury Department may specify in regulations), the position is clearly identified in the dealer's records as a hedge with respect to a security described in the preceding paragraph. A security, however, is not to include a contract to which section 1256(a) of the Code applies.

A hedge is defined as any position that reduces the dealer's risk of interest rate or price changes or currency fluctuations, including any position that is reasonably expected to become a hedge within 60 days after the acquisition of the position.

Exceptions to the mark-to-market rules

Notwithstanding the definition of security, the mark-to-market rules generally do not apply to: (1) any security that is held for investment;[3] (2) any evidence of indebtedness that is acquired (including originated) by a dealer in the ordinary course of a trade or business of the dealer but only if the evidence of indebtedness is not held for sale; (3) any security which is a hedge with respect to a security that is not subject to the mark-to-market rules (*i.e.*, any security that is a hedge with respect to a security held for investment or that is a hedge with respect to an evidence of indebtedness described in (2)); and (4) any security which is a hedge with respect to a position, right to income, or a liability that is not a security in the hands of the taxpayer.[4]

The exceptions to the mark-to-market rules for certain hedges do not apply to any security that is held by a taxpayer in its capacity as a dealer in securities, except as otherwise provided in regulations to be promulgated by the Treasury Department. Thus, except as otherwise provided in regulations to be promulgated by the Treasury Department, the exceptions to the mark-to-market rules for certain hedges do not apply to (1) any security that is held for sale in the ordinary course of a trade or business, or (2) any security that is entered into with customers in the ordinary course of a trade or business.

In addition, the exceptions to the mark-to-market rules do not apply unless, before the close of the day on which the security (including any evidence of indebtedness) is acquired, originated, or entered into (or such other time as the Treasury Department may specify in regulations),[5] the security is clearly identified in the dealer's records as being described in one of the exceptions listed above.[6]

It is anticipated that the identification rules with respect to hedges will be applied in such a manner as to minimize the imposition of additional accounting burdens on dealers in securities. For example, it is understood that certain dealers in securities use accounting systems which treat certain transactions entered into between separate business units as if such transactions were entered into with unrelated third parties. It is anticipated that for purposes of the mark-to-market rules, such an accounting system generally will provide an adequate identification of hedges with third parties.

In addition to clearly identifying a security as qualifying for one of the exceptions to the mark-to-market rules listed above, a dealer must continue to hold the security in a capacity that qualifies the security for one of the exceptions listed above. If at any time after the close of the day on which the security was acquired, originated, or entered into (or such other time as the Treasury Department may specify in regulations), the security is not held in a capacity that qualifies the security for one of the exceptions listed above, then the mark-to-market rules are to apply to any changes in value of such security that occur after the security no longer qualifies for an exception.[7]

---

[1] For purposes of this provision, a security is treated as sold to a person that is not related to the dealer even if the security is a contract between the dealer and a related person. Thus, for example, sections 267 and 707(b) of the Code are not to apply to any loss that is required to be taken into account under this provision.

[2] For purposes of determining whether capital gain or loss that is recognized by reason of the mark-to-market rules is short-term or long-term, the holding period is treated as ending on the date that the security is treated as sold under the mark-to-market rules. Thus, for example, if, on August 1, 1992, a calendar year securities dealer acquires a security which is a capital asset subject to the mark-to-market rules, the amount of any gain or loss recognized on December 31, 1992, by reason of the mark-to-market rules would be short-term gain or loss. If such security continues to be held on December 31, 1993, the amount of gain or loss recognized by reason of the mark-to-market rules would be long-term gain or loss.

[3] To the extent provided in regulations to be promulgated by the Treasury Department, the exception to the mark-to-market rules for a security that is held for investment is not to apply to any notional principal contract or any derivative financial instrument that is held by a dealer in such securities.

[4] For purposes of the mark-to-market rules, debt issued by a taxpayer is not a security in the hands of such taxpayer.

[5] It is anticipated that the Treasury regulations will permit a floor specialist to identify a security as held for investment before the close of the seventh business day following the day that the security is acquired (see sec. 1236(d)). In addition, it is anticipated that the Treasury regulations will permit a dealer that originates evidences of indebtedness in the ordinary course of a trade or business to identify such evidences of indebtedness as not held for sale based on the accounting practices of the dealer but in no event later than the date that is 30 days after the date that any such evidence of indebtedness is originated. Further, it is anticipated that the Treasury regulations will permit a dealer that enters into commitments to acquire mortgages to identify such commitments as being held for investment if the dealer acquires the mortgages and holds the mortgages as investments. It is anticipated that this identification of commitments to acquire mortgages will occur within a reasonable period after the acquisition of the mortgages but in no event later than the date that is 30 days after the date that the mortgages are acquired.

[6] A security is to be treated as clearly identified in a dealer's records as being described in one of the exceptions listed above if all of securities of the taxpayer that are not so described are clearly identified in the dealer's records as not being described in such exception.

For example, assume that, in the ordinary course of its trade or business, a bank originates loans that are sold if the loans satisfy certain conditions. In addition, assume that (1) the bank determines whether a loan satisfies the conditions within 30 days after the loan is made, and (2) if a loan satisfies the conditions for sale, the bank records the loan in a separate account on the date that the determination is made. For purposes of the bill, the bank is a dealer in securities with respect to the loans that it holds for sale. In addition, by identifying these loans as held for sale, the bank is considered to have identified all other loans as not held for sale. Consequently, the loans that are not held for sale are not subject to the mark-to-market rules.

[7] Any gain or loss that is attributable to the period that the security was not subject to the mark-to-market rules generally is to be taken into account

Improper identification

The bill provides that if (1) a dealer identifies a security as qualifying for an exception to the mark-to-market rules but the security does not qualify for that exception, or (2) a dealer fails to identify a position that is not a security as a hedge of a security but the position is a hedge of a security, then the mark-to-market rules are to apply to any such security or position, except that loss is to be recognized under the mark-to-market rules prior to the disposition of the security or position only to the extent of gain previously recognized under the mark-to-market rules (and not previously taken into account under this provision) with respect to the security or position.

Other rules

The bill provides that the uniform cost capitalization rules of section 263A of the Code and the rules of section 263(g) of the Code that require the capitalization of certain interest and carrying charges in the case of straddles do not apply to any security to which the mark-to-market rules apply because the fair market value of a security should include the costs that the dealer would otherwise capitalize.

In addition, the bill provides that (1) the mark-to-market rules do not apply to any section 988 transaction (generally, a foreign currency transaction) that is part of a section 988 hedging transaction, and (2) the determination of whether a transaction is a section 988 transaction is to be made without regard to whether the transaction would otherwise be mark-to-market under the bill.

The bill also authorizes the Treasury Department to promulgate regulations which provide for the treatment of a hedge that reduce a dealer's risk of interest rate or price changes or currency fluctuations with respect to securities that are subject to the mark-to-market rules as well as with respect to securities, positions, rights to income, or liabilities that are not subject to the mark-to-market rules. It is anticipated that the Treasury regulations may allow taxpayers to treat any such hedge as not subject to the mark-to-market rules provided that such treatment is consistently followed from year to year.

Finally, the bill authorizes the Treasury Department to promulgate such regulations as may be necessary or appropriate to carry out the provisions of the bill, including rules to prevent the use of year-end transfers, related persons, or other arrangements to avoid the provisions of the bill.

Effective Date

The provision applies to taxable years ending on or after December 31, 1992. A taxpayer that is required to change its method of accounting to comply with the requirements of the provision is treated as having initiated the change in method of accounting and as having received the consent of the Treasury Department to make such change.

The net amount of the section 481(a) adjustment is to be taken into account over a 10-taxable year period beginning with the first taxable year ending on or after December 31, 1992, to the extent that such amount does not exceed the net amount of the section 481(a) adjustment that would have been determined had the change in method of accounting occurred for the last taxable year beginning before March 20, 1992. The net amount of such section 481(a) adjustment is to be taken into account as follows: (1) 17 percent for the first taxable year ending on or after December 31, 1992; (2) 10 percent for each of the seven succeeding taxable years; and (3) 6.5 percent for the final two taxable years in the 10-taxable year period.

The excess (if any) of (1) the net amount of the section 481(a) adjustment for the first taxable year ending on or after December 31, 1992, over (2) the net amount of the section 481(a) adjustment that would have been determined had the change in method of accounting occurred for the last taxable year beginning before March 20, 1992, is to be taken into account ratably over a 4-taxable year period beginning with the first taxable year ending on or after December 31, 1992.

The principles of section 8.03(1) and (2) of Rev. Proc. 92-20, 1992-12 I.R.B. 10, are to apply to the section 481(a) adjustment. It is anticipated that section 8.03(1) of Rev. Proc. 92-20 will be applied by taking into account all securities of a dealer that are subject to the mark-to-market rules (including those securities that are not inventory in the hands of the dealer). In addition, it is anticipated that net operating losses will be allowed to offset the section 481(a) adjustment, tax credit carryforwards will be allowed to offset any tax attributable to the section 481(a) adjustment, and, for purposes of determining liability for estimated taxes, the section 481(a) adjustment will be taken into account ratably throughout the taxable year in question.

In determining the amount of the section 481(a) adjustment for taxable years beginning before the date of enactment of the mark-to-market rules, the identification requirements are to be applied in a reasonable manner. It is anticipated that any security that was identified as being held for investment under section 1236(a) of the Code as of the last day of the taxable year preceding the taxable year of change is to be treated as held for investment for purposes of the mark-to-market rules. It is also anticipated that any other security that was held as of the last day of the taxable year preceding the taxable year of change is to be treated as properly identified if the dealer's records as of such date support such identification.[8]

Finally, no addition to tax is to be made under section 6654 or 6665 of the Code for any underpayment of estimated tax that is due before the date of enactment of the mark-to-market rules to the extent that the underpayment is attributable to the enactment of the mark-to-market rules. The amount of the first required payment of estimated tax that is due on or after the date of enactment of the mark-to-market rules is to be increased by the amount of estimated tax that was not previously paid by reason of the preceding sentence.

SENATE AMENDMENT

In general

The Senate amendment provides two general rules (the "mark-to-market rules") that apply to certain securities that are held by a dealer in securities. First, any such security that is inventory in the hands of the dealer is required to be included in inventory at its fair market value. Second, any such security that is not inventory in the hands of the dealer and that is held as of the close of any taxable year is treated as sold by the dealer for its fair market value on the last business day of the taxable year and any gain or loss is required to be taken into account by the dealer in determining gross income for that taxable year.[9]

If gain or loss is taken into account with respect to a security by reason of the second mark-to-market rule, then the amount of gain or loss subsequently realized as a result of a sale, exchange, or other disposition of the security, or as a result of the application of the mark-to-market rules, is to be appropriately adjusted to reflect such gain or loss. In addition, the Senate amendment authorizes the Treasury Department to promulgate regulations that provide for the application of the second mark-to-market rule at times other than the close of a taxable year or the last business day of a taxable year.

The mark-to-market rules do not apply for purposes of determining the holding period of any security. In addition, the mark-to-market rules do not apply in determining whether gain or loss is recognized by any other taxpayer that may be a party to a contract with a dealer in securities.

Character of gain or loss

Any gain or loss taken into account under the provision (or any gain or loss recognized with respect to a security that would be subject to the provision if held at the end of the year) generally is treated as ordinary gain or loss. This character rule does not apply to any gain or loss allocable to any period during which the security (1) is a hedge of a position, right to income, or a liability that is not subject to a mark-to-market rule under the provision, or (2) is held by the taxpayer other than in its capacity as a dealer in securities. In addition, the character rule does not apply to any security that is improper identified (as described in detail below) by the taxpayer.

No inference is intended as to the character of any gain or loss recognized in taxable years prior to the enactment of this provision or any gain or loss recognized with respect to any property to which this character rule does not apply.

Definitions

A dealer in securities is defined as any taxpayer that either (1) regularly purchases securities from, or sells securities to, customers in the ordinary course of a trade or business, or (2) regularly offers to enter into, assume, offset, assign, or otherwise terminate positions in securities with customers in the ordinary course of a trade or business.

A security is defined as: (1) any share of stock in a corporation; (2) any partnership or beneficial ownership interest in a widely-held or publicly-traded partnership or trust; (3) any note, bond, debenture, or other evidence of indebtedness; (4) any interest rate, currency, or equity notional principal contract (but not any other notional principal contract such as a notional principal contract that is based on the price of oil, wheat, or other commodity); and (5) any evidence of an interest in, or any derivative financial instrument in any currency or in a security described in (1) through (4) above, including any option, forward contract, short position, or any similar financial instrument in such a security or currency.

---

at the time that the security is actually sold (rather than treated as sold by reason of the mark-to-market rules).

[8] In addition, it is anticipated that in order for any security that is held on the date of enactment of the mark-to-market rules to qualify for one of the exceptions to the mark-to-market rules, the security must be identified as being described in one of the exceptions within a reasonable period after the date of enactment but in no event later than the date that is 30 days after the date of enactment.

[9] For purposes of this provision, a security is treated as sold to a person that is not related to the dealer even if the security is itself a contract between the dealer and a related person. Thus, for example, sections 267 and 707(b) of the Code are not to apply to any loss that is required to be taken into account under this provision.

In addition, a security is defined to include any position if: (1) the position is not a security described in the preceding paragraph; (2) the position is a hedge with respect to a security described in the preceding paragraph; and (3) before the close of the day on which the position was acquired or entered into (or such other time as the Treasury Department may specify in regulations), the position is clearly identified in the dealer's records as a hedge with respect to a security described in the preceding paragraph.

A security, however, is not to include a contract to which section 1256(a) of the Code applies, unless such contract is a hedge of a security to which the provision applies. The special character rule of the Senate amendment (rather than the special character rule of section 1256(a)) will apply to any such contract that is a hedge of a security to which the provision applies.

A hedge is defined as any position that reduces the dealer's risk of interest rate or price changes or currency fluctuations, including any position that is reasonably expected to become a hedge within 60 days after the acquisition of the position.

Exceptions to the mark-to-market rules

Notwithstanding the definition of security, the mark-to-market rules generally do not apply to: (1) any security that is held for investment;[10] (2) any evidence of indebtedness that is acquired (including originated) by a dealer in the ordinary course of its trade or business but only if the evidence of indebtedness is not held for sale; (3) any security that is acquired by a floor specialist of a national securities exchange or a market maker of the National Association of Security Dealers Automated Quotation System, in connection with the specialist's or market maker's duties as a specialist or market maker;[11] (4) any security which is a hedge with respect to a security that is not subject to the mark-to-market rules (i.e., any security that is a hedge with respect to (a) a security held for investment, (b) an evidence of indebtedness described in (2) or (c) a security of a floor specialist or a market maker described in (3)); and (5) any security which is a hedge with respect to a position, right to income, or a liability that is not a security in the hands of the taxpayer.[12]

To extent provided in regulations to be promulgated by the Treasury Department, the exceptions to the mark-to-market rules for certain hedges do not apply to any security that is held by a taxpayer in its capacity as a dealer in securities. Thus, regulations may provide that the exceptions to the mark-to-market rules for certain hedges do not apply to securities that are entered into with customers in the ordinary course of a trade or business. A hedge that is identified as not subject to the mark-to-market rules will not be considered to be held for sale in the ordinary course of a trade or business.

In addition, the exceptions to the mark-to-market rules do not apply unless, before the close of the day on which the security (including any evidence of indebtedness) is acquired, originated, or entered into (or such other time as the Treasury Department may specify in regulations),[13] the security is clearly identified in the dealer's records as being described in one of the exceptions listed above.[14]

It is anticipated that the identification rules with respect to hedges will be applied in such a manner as to minimize the imposition of additional accounting burdens on dealers in securities. For example, it is understood that certain dealers in securities use accounting systems which treat certain transactions entered into between separate business units as if such transactions were entered into with unrelated third parties. It is anticipated that for purposes of the mark-to-market rules, such an accounting system generally will provide an adequate identification of hedges with third parties.

In addition to clearly identifying a security as qualifying for one of the exceptions to the mark-to-market rules listed above, a dealer must continue to hold the security in a capacity that qualifies the security for one of the exceptions listed above. If at any time after the close of the day on which the security was acquired, originated, or entered into (or such other time as the Treasury Department may specify in regulations), the security is not held in a capacity that qualifies the security for one of the exceptions listed above, then the mark-to-market rules are to apply to any changes in value of such security that occur after the security no longer qualifies for an exception.[15]

Improper identification

The Senate amendment provides that if (1) a dealer identifies a security as qualifying for an exception to the mark-to-market rules but the security does not qualify for that exception, or (2) a dealer fails to identify a position that is not a security as a hedge of a security but the position is a hedge of a security, then the mark-to-market rules are to apply to any such security or position, except that loss is to be recognized under the mark-to-market rules prior to the disposition of the security or position only to the extent of gain previously recognized under the mark-to-market rules (and not previously taken into account under this provision) with respect to the security or position.

Other rules

The Senate amendment provides that the uniform cost capitalization rules of section 263A of the Code and the rules of section 263(g) of the Code that require the capitalization of certain interest and carrying charges in the case of straddles do not apply to any security to which the mark-to-market rules apply because the fair market value of a security should include the costs that the dealer would otherwise capitalize.

In addition, a security subject to the provision is not to be treated as sold and reacquired for purposes of section 1091 of the Code. Section 1092 of the Code will apply to any loss recognized under the mark-to-market rules (but will have no effect if all the offsetting positions that make up the straddle are subject to the mark-to-market rules).

Furthermore, the Senate amendment provides that (1) the mark-to-market rules do not apply to any section 988 transaction (generally, a foreign currency transaction) that is part of a section 988 hedging transaction, and (2) the determination of whether a transaction is a section 988 transaction is to be made without regard to whether the transaction would otherwise be marked-to-market under the Senate amendment.

---

[10] To the extent provided in regulations to be promulgated by the Treasury Department, the exception to the mark-to-market rules for a security that is held for investment is not to apply to any notional principal contract or any derivative financial instrument that is held by a dealer in such securities.

[11] A floor specialist is defined as a person who (1) is a member of a national securities exchange, (2) is registered as a specialist with the exchange, and (3) meets the requirements for specialists established by the Securities and Exchange Commission.

A market maker is defined as a person who (1) is registered as a market maker with the National Association of Security Dealers, with respect to a security that is included in National Association of Security Dealers Automated Quotation System (NASDAQ), and (2) as of the last day of the taxable year, has been actively and regularly engaged as a market maker in the security for the lesser of (a) two years or (b) the period beginning 61 days after the security was first included on the NASDAQ and ending on such last day.

[12] For purposes of the mark-to-market rules, debt issued by a taxpayer is not a security in the hands of such taxpayer.

[13] It is anticipated that the Treasury regulations will permit a dealer that originates evidences of indebtedness in the ordinary course of a trade or business to identify such evidences of indebtedness as not held for sale based on the accounting practices of the dealer but in no event later than the date that is 30 days after the date that any such evidence of indebtedness is originated. Further, it is anticipated that the Treasury regulations will permit a dealer that enters into commitments to acquire mortgages to identify such commitments as being held for investment if the dealer acquires the mortgages and holds the mortgages as investments. It is anticipated that this identification of commitments to acquire mortgages will occur within a reasonable period after the acquisition of the mortgages but in no event later than the date that is 30 days after the date that the mortgages are acquired.

[14] A security is to be treated as clearly identified in a dealer's records as being described in one of the exceptions listed above if all of securities of the taxpayer that are not so described are clearly identified in the dealer's records as not being described in such exception.

For example, assume that, in the ordinary course of its trade or business, a bank originates loans that are sold if the loans satisfy certain conditions. In addition, assume that (1) the bank determines whether a loan satisfies the conditions within 30 days after the loan is made, and (2) if a loan satisfies the conditions for sale, the bank records the loan in a separate account on the date that the determination is made. For purposes of the Senate amendment, the bank is a dealer in securities with respect to the loans that it holds for sale. In addition, by identifying these loans as held for sale, the bank is considered to have identified all other loans as not held for sale. Consequently, the loans that are not held for sale are not subject to the mark-to-market rules.

[15] Any gain or loss that is attributable to the period that the security was not subject to the mark-to-market rules generally is to be taken into account at the time that the security is actually sold (rather than treated as sold by reason of the mark-to-market rules).

Conversely, different rules apply to a security that originally is held by the taxpayer in a capacity that subjects the security to the mark-to-market rules, but later becomes otherwise eligible for an exception from the mark-to-market rules. For example, assume that a security to which the mark-to-market rules apply is hedged (and thus the hedge is subject to the mark-to-market rules) and the security (but not the hedge) is sold before year end. In such case, the "naked" hedge generally will be subject to the mark-to-market rules at the year end.

However, the Treasury Department has authority to issue regulations that would allow the taxpayer to identify, on the date the security is sold, the "naked" hedge as a security to which one of the exceptions to the mark-to-market rules (assuming the "naked" hedge otherwise qualifies for the exception). In making this identification, it is anticipated that the taxpayer would be required to apply the mark-to-market rules to the "naked" hedge as of the date of the sale of the security, take any resulting gain or loss into account for the taxable year of sale, and treat the "naked" hedge as a security to which the exceptions to the mark-to-market rules apply.

Whether or not the taxpayer is allowed under regulations to make the identification described above (and whether or not the taxpayer makes the identification), any gain or loss attributable to the period after the date of sale of the security will not be subject to the special character rule of the Senate amendment if the hedge is not held by the taxpayer in its capacity as a dealer during such period. Thus, if the "naked" hedge is a capital asset in the hands of the taxpayer, any gain or loss recognized with respect to the "naked" hedge that is attributable to the period after the date of sale of the security will be capital gain or loss.

The Senate amendment also authorizes the Treasury Department to promulgate regulations which provide for the treatment of a hedge that reduce a dealer's risk of interest rate or price changes or currency fluctuations with respect to securities that are subject to the mark-to-market rules as well as with respect to securities, positions, rights to income, or liabilities that are not subject to the mark-to-market rules. It is anticipated that the Treasury regulations may allow taxpayers to treat any such hedge as not subject to the mark-to-market rules provided that such treatment is consistently followed from year to year.

Finally, the Senate amendment authorizes the Treasury Department to promulgate such regulations as may be necessary or appropriate to carry out the provisions of the amendment, including rules to prevent the use of year-end transfers, related persons, or other arrangements to avoid the provisions of the amendment. Such authority includes coordinating the mark-to-market rules with the original issue discount rules.

Effective Date

The provision applies to taxable years ending on or after December 31, 1992. A taxpayer that is required to change its method of accounting to comply with the requirements of the provision is treated as having initiated the change in method of accounting and as having received the consent of the Treasury Department to make such change.

The net amount of the section 481(a) adjustment is to be taken into account ratably over a 7-taxable year period beginning with the first taxable year ending on or after December 31, 1992, to the extent that such amount does not exceed the net amount of the section 481(a) adjustment that would have been determined had the change in method of accounting occurred for the last taxable year beginning before March 20, 1992.

The excess (if any) of (1) the net amount of the section 481(a) adjustment for the first taxable year ending on or after December 31, 1992, over (2) the net amount of the section 481(a) adjustment that would have been determined had the change in method of accounting occurred for the last taxable year beginning before March 20, 1992, is to be taken into account ratably over a 4-taxable year period beginning with the first taxable year ending on or after December 31, 1992.

The principles of section 8.03(1) and (2) of Rev. Proc. 92-20, 1992-12 I.R.B. 10, are to apply to the section 481(a) adjustment. It is anticipated that section 8.03(1) of Rev. Proc. 92-20 will be applied by taking into account all securities of a dealer that are subject to the mark-to-market rules (including those securities that are not inventory in the hands of the dealer). In addition, it is anticipated that net operating losses will be allowed to offset the section 481(a) adjustment, tax credit carryforwards will be allowed to offset any tax attributable to the section 481(a) adjustment, and, for purposes of determining liability for estimated taxes, the section 481(a) adjustment will be taken into account ratably throughout the taxable year in question.

In determining the amount of the section 481(a) adjustment for taxable years beginning before the date of enactment of the mark-to-market rules, the identification requirements are to be applied in a reasonable manner. It is anticipated that any security that was identified as being held for investment under section 1236(a) of the Code as of the last day of the taxable year preceding the taxable year of change is to be treated as held for investment for purposes of the mark-to-market rules. It is also anticipated that any other security that was held as of the last day of the taxable year preceding the taxable year of change is to be treated as properly identified if the dealer's records as of such date support such identification.[16]

Finally, no addition to tax is to be made under section 6654 or 6665 of the Code for any underpayment of estimated tax that is due before the date of enactment of the mark-to-market rules to the extent that the underpayment is attributable to the enactment of the mark-to-market rules. The amount of the first required payment of estimated tax that is due on or after the date of enactment of the mark-to-market rules is to be increased by the amount of estimated tax that was not previously paid by reason of the preceding sentence.

CONFERENCE REPORT

The conference agreement generally follows the Senate amendment with the following modifications.

The conference agreement deletes the exception for any security that is acquired by a floor specialist of a national securities exchange or a market maker of the National Association of Security Dealers Automated Quotation System, in connection with the specialist's or market maker's duties as a specialist or market maker.

The Senate amendment provides an exception to the mark-to-market rules for any evidence of indebtedness that is acquired (including originated) by a dealer in the ordinary course of its trade or business but only if the evidence of indebtedness is not held for sale. The conference agreement provides that the exception also will apply to any obligation to acquire any evidence of indebtedness described in the preceding sentence if such obligation is entered into in the ordinary course of the taxpayer's trade or business and is not held for sale.

In addition, under the conference agreement, the special character rule does not apply to any gain or loss with respect to any security allocable to any period during which the security is held by the taxpayer other than in connection with its activities as a dealer in securities. Thus, the special character rule generally applies to an instrument or position that is held as a hedge of a security to which the special character rule applies (so long as the hedge also meets the other requirements of the special character rule.)

The conferees understand that hedging transactions are also important to the management of risks by businesses that are not subject to these mark-to-market rules. The conferees also understand that there has been increased uncertainty concerning the tax treatment of such hedging transactions following a decision by the Supreme Court in 1988, *Arkansas Best Corp. v. Commissioner*, 485 U.S. 212 (1988). That decision held that a taxpayer could not claim an ordinary loss from the sale of subsidiary stock that purportedly had been acquired for the purpose of preserving the business reputation of the taxpayer. The decision's scope, and its effect on hedging transactions, is unclear.

The level of uncertainty regarding the tax treatment of hedging transactions is a matter of concern to the conferees. Such uncertainty may have a dampening effect on taxpayers entering into a variety of desirable business hedging transactions. The conferees believe this is a significant issue and hope that appropriate steps can be taken to address this matter.

Finally, the conference agreement provides that the net amount of the adjustments required to be taken into account by the taxpayer under section 481 of the Code is to be taken into account ratably over a 4-taxable year period beginning with the first taxable year ending on or after December 31, 1992.

2. Tax treatment of certain FSLIC financial assistance

PRESENT LAW AND BACKGROUND

A taxpayer may claim a deduction for a loss on the sale or other disposition of property only to the extent that the taxpayer's adjusted basis for the property exceeds the amount realized on the disposition and the loss is not compensated for by insurance or otherwise (sec. 165 of the Code). In the case of a taxpayer on the specific charge-off method of accounting for bad debts, a deduction is allowable for the debt only to the extent that the debt becomes worthless and the taxpayer does not have a reasonable prospect of being reimbursed for the loss. If the taxpayer accounts for bad debts on the reserve method, the worthless portion of a debt is charged against the taxpayer's reserve for bad debts, potentially increasing the taxpayer's deduction for an addition to this reserve.

A special statutory tax rule, enacted in 1981, excluded from a thrift institution's income financial assistance received from the Federal Savings and Loan Insurance Corporation (FSLIC), and prohibited a reduction in the tax basis of the thrift institution's assets on account of the receipt of the assistance. Under the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), taxpayers generally were required to reduce certain tax attributes by one-half the amount of financial assistance received from the FSLIC pursuant to certain acquisitions of financially troubled thrift institutions occurring after December 31, 1988. These special rules were repealed by the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), but still apply to transactions that occurred before May 10, 1989.

In September 1990, the Resolution Trust Corporation (RTC), in accordance with the requirements of FIRREA, issued a report to Congress and the Oversight Board of the RTC on certain FSLIC-assisted transactions (the "1988/89 FSLIC transactions"). The report recommended further study of the covered loss and other tax issues relating to these transactions. A March 4, 1991 Treasury Department report on tax issues relating to the 1988/89 FSLIC transactions concluded that deductions should not be allowed for losses that are reimbursed with exempt FSLIC assistance.

HOUSE BILL

Any FSLIC assistance with respect to any loss of principal, capital, or similar amount upon the disposition of an asset shall be taken into account as compensation for such loss for purposes of section 165 of the Code. Any FSLIC assistance with respect to any debt shall be taken into account for purposes of determining whether such debt is worthless (or the extent to which such debt is worthless) and in determining the amount of any addition to a reserve for bad debts. For this purpose, FSLIC assistance means any assistance or right to assistance with respect to a domestic building and loan association

---

[16] In addition, it is anticipated that in order for any security that is held on the date of enactment of the mark-to-market rules to qualify for one of the exceptions to the mark-to-market rules, the security must be identified as being described in one of the exceptions within a reasonable period after the date of enactment but in no event later than the date that is 30 days after the date of enactment.

(as defined in section 7701(a)(19) of the Code without regard to subparagraph (C) thereof) under section 406(f) of the National Housing Act or section 21A of the Federal Home Loan Bank Act (or under any similar provision of law).

The provision does not apply to any financial assistance to which the amendments made by section 1401(a)(3) of FIRREA apply.

No inference is intended as to prior law or as to the treatment of any item to which this provision does not apply.

Effective date.—The provision applies to financial assistance credited on or after March 4, 1991, with respect to (1) assets disposed of and charge-offs made in taxable years ending on or after March 4, 1991; and (2) assets disposed of and charge-offs made in taxable years ending before March 4, 1991, but only for purposes of determining the amount of any net operating loss carryover to a taxable year ending on or after March 4, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the Senate amendment provides that no addition to tax is to be made under section 6654 or 6665 of the Code for any underpayment of estimated tax that is due before the date of enactment of the provision to the extent that the underpayment is attributable to the treatment of any FSLIC assistance credited before such date in manner other than that provided by this provision. The amount of the first required payment of estimated tax that is due on or after the date of enactment of the provision is to be increased by the amount of estimated tax that was not previously paid by reason of the preceding sentence. However, in providing this relief, no inference is intended as to prior law, the effect of the provision on prior law, or the treatment of any item to which this provision does not apply.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Require taxpayers to include rental value of residence in income without regard to period of rental.

PRESENT LAW

Gross income for purposes of the Internal Revenue Code generally includes all income from whatever source derived, including rents. The Code (sec. 280A(g)) provides a *de minimis* exception to this rule where a dwelling unit is used during the taxable year by the taxpayer as a residence and such dwelling unit is actually rented for less than 15 days during the taxable year. In this case, the income from such rental is not included in gross income and no deductions arising from such rental use are allowed as a deduction.

HOUSE BILL

No provision (However H.R. 2735 as passed by the House includes a provision similar to the Senate amendment.).

SENATE AMENDMENT

Generally, the Senate amendment repeals the 15-day rule of 280A(g) except that if the taxpayer rents (at a rate not greater than the reasonable commercial rate) his or her principal residence for less than 15 days for the purpose of providing accommodations to visitors to an event for which commercial accommodations can provide no more than one-half of the needed accommodations, then the current-law exclusion (and denial of deductions) applies.

Effective date.—The provision applies to taxable years beginning after date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

4. Increase recovery period for depreciation of nonresidential real property

PRESENT LAW

A taxpayer is allowed to recover, through annual depreciation allowances, the cost or other basis of nonresidential real property (other than land) that is used in a trade or business or that is held for the production of rental income. For regular tax purposes, the amount of the depreciation deduction allowed with respect to nonresidential real property for any taxable year generally is determined by using the straight-line method and a recovery period of 31.5 years. For alternative minimum tax purposes, the amount of the depreciation deduction allowed with respect to nonresidential real property for any taxable year is determined by using the straight-line method and a recovery period of 40 years.

HOUSE BILL

The House bill requires the depreciation deduction allowed with respect to nonresidential real property for regular tax purposes to be determined by using a recovery period of 40 years. The House bill does not change the determination of the depreciation deduction allowed with respect to nonresidential real property for alternative minimum tax purposes.

Effective date.—The provision of the House bill relating to real property depreciation generally applies to property placed in service on or after June 25, 1992. The provision does not apply to property that is placed in service by a taxpayer before January 1, 1995, if (1) the taxpayer or a qualified person entered into a binding written contract to purchase or construct the property before June 25, 1992, or (2) construction of the property was commenced by or for the taxpayer or a qualified person before June 25, 1992. For this purpose, a qualified person is defined as any person who transfers his or her rights in such a contract or in the property to the taxpayer, but only if the property is not placed in service by such person before such rights are transferred to the taxpayer.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the Senate amendment generally applies to property placed in service on or after July 28, 1992. The provision of the Senate amendment does not apply to property that is placed in service by a taxpayer before January 1, 1995, if (1) the taxpayer or a qualified person entered into a binding written contract to purchase or construct the property before July 28, 1992, or (2) construction of the property was commenced by or for the taxpayer or a qualified person before July 28, 1992. For this purpose, a qualified person is defined as any person who transfers his or her rights in such a contract or in the property to the taxpayer, but only if the property is not placed in service by such person before such rights are transferred to the taxpayer.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

The conferees intend that a contract is to be considered binding for purposes of the effective date if subject to a condition, as long as the condition is not within the control of either party to the agreement or a predecessor of either party to the agreement. Similarly, a commitment letter will not fail to constitute a binding contract merely because it is subject to the customary closing conditions, such as acceptable final documentation and opinions of counsel.

5. Deduction for moving expenses

PRESENT LAW

An employee or self-employed individual may claim a deduction from gross income for certain expenses incurred as a result of moving to a new residence in connection with beginning work at a new location (sec. 217). The deduction is not subject to the floor which generally limits a taxpayer's allowable miscellaneous itemized deductions only to those amounts which exceed 2 percent of his or her adjusted gross income. Any amount received directly or indirectly by such individual as a reimbursement of moving expenses must be included in the taxpayer's gross income as compensation (sec. 82). The taxpayer may offset this income by deducting the moving expenses that would otherwise qualify as deductible items under sec. 217.

Deductible moving expenses are the expenses of transporting the taxpayer and members of his household, as well as his household goods and personal effects, from the old to the new residence; the cost of meals and lodging en route; the expenses for pre-move househunting trips; temporary living expenses for up to 30 days in the general location of the new job; and certain expenses related to either the sale or settlement of a lease on the old residence or the purchase of a new residence in the general location of the new job.

The moving expense deduction is subject to a number of limitations. A maximum of $1,500 can be deducted for pre-move househunting and temporary living expenses in the general location of the new job. A maximum of $3,000 (reduced by any deduction claimed for househunting or temporary living expenses) can be deducted for certain qualified expenses for the sale and purchase of a residence or settlement of a lease. If both a husband and wife begin new jobs in the same general location, the move is treated as a single commencement of work. If a husband and wife file separate returns, the maximum deductible amounts available to each is one-half the amounts otherwise allowed.

Also, in order for a taxpayer to claim a moving expense deduction, his new principal place of work has to be at least 35 miles farther from his former residence than was his former principal place of work (or his former residence, if he has no former place of work).

HOUSE BILL

Pre-move househunting and temporary living expenses

The $1,500 limit ($4,500 limit for foreign moves) on pre-move househunting and temporary living expenses in the general location of the new job is repealed. The $3,000 limit on the sum of pre-move househunting expenses, temporary living expenses, and qualified expenses for the sale and purchase of a residence or settlement of a lease is retained. For foreign moves, this latter limit is reduced to $5,000.

Overall cap on deductible expenses

An overall $5,000 cap is imposed on allowable moving expenses (including expenses subject to the limit for househunting, temporary living, and qualified settlement expenses) for each qualified move (including foreign moves).

Treatment of reimbursed expenses

To the extent that moving expenses are reimbursed and included in the gross income of the taxpayer under section 82, the taxpayer is allowed an above-the-line deduction in computing adjusted gross income under section 62.

Treatment of unreimbursed expenses

To the extent that moving expenses are unreimbursed, the deduction is made subject to the 2-percent floor on miscellaneous itemized deductions.

Deduction for expenses for the sale or purchase of a residence or settlement of a lease

No provision.

Deduction for certain meals and entertainment expenses

No provision.

Effective date.—The House bill is effective for taxable years beginning after December 31, 1992.

SENATE AMENDMENT

Pre-move househunting and temporary living expenses

No provision.

Overall cap on deductible expenses

The Senate amendment imposes an overall cap of $19,000 as imposed on otherwise allowable moving expenses.

Treatment of reimbursed expenses

No provision.

Treatment of unreimbursed expenses

No provision.

Deduction for expenses for the sale or purchase of a residence or the settlement of a lease

The Senate amendment denies the deduction for the expenses for the sale or purchase of a residence or the settlement of a lease.

Deduction for certain meals and entertainment expenses

The Senate amendment denies the deduction for the otherwise allowable expenses for meals and entertainment expenses.

Effective date.—Same as the House bill.

CONFERENCE AGREEMENT

Pre-move househunting and temporary living expenses

The conference agreement does not follow the House bill.

Overall cap on deductible expenses

The conference agreement provides for an overall cap of $10,000 on moving expenses and increases the mileage limit from 35 to 60 miles.

Treatment of reimbursed expenses

The conference agreement does not follow the House bill.

Treatment of unreimbursed expenses

The conference agreement does not follow the House bill.

Deduction for expenses for the sale or purchase of a residence or the settlement of a lease

The conference agreement follows the Senate amendment.

Deduction for certain meals and entertainment expenses

The conference agreement follows the Senate amendment.

Effective date.—The provisions are effective for taxable years beginning after December 31, 1992.

6. Classification of certain interests in corporations as stock or indebtedness

PRESENT LAW

There presently is no definition in the Internal Revenue Code or the income tax regulations which can be used to determine whether an interest in a corporation constitutes debt or equity for Federal income tax purposes. The characterization of an investment in a corporation as debt or equity for Federal income tax purposes generally is determined under principles developed in case law by reference to numerous factors intended to identify the economic substance of the investor's interest in the corporation.

HOUSE BILL

No provision in H.R. 11. However, section 3 of H.R. 5641 as passed by the House contains a provision similar to the Senate amendment.

SENATE AMENDMENT

The Senate amendment provides that the characterization (as of the time of issuance) of a corporate instrument as stock or debt by the corporate issuer is binding on the issuer and on all holders. This characterization, however, is not binding on the Secretary of the Treasury. Neither a holder nor an issuer is excused from any interest or penalties that might result under present law from an improper characterization.

Except as provided in regulations, a holder who treats such instrument in a manner inconsistent with such characterization must disclose the inconsistent treatment on such holder's tax return.

The Secretary of the Treasury is authorized to require such information as is deemed necessary to implement the provision.

Effective date.—Instruments issued after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include the H.R. 5641 provision or the Senate amendment. However, the conference agreement on H.R. 776 includes the Senate amendment.

7. Treatment of pre-contribution gain in certain partnership redemptions

PRESENT LAW

If property contributed to a partnership by a partner is subsequently distributed to another partner within 5 years of the contribution, the contributing partner generally recognizes gain as if the property had been sold for its fair market value at the time of the distribution. Present law generally does not require a partner who contributes appreciated property to a partnership to recognize pre-contribution gain upon a subsequent distribution of other property to that partner even if the value of that other property exceeds the partner's basis in his partnership interest.

HOUSE BILL

The House bill requires a partner who contributes appreciated property to a partnership to include pre-contribution gain in income to the extent that the value of other property distributed by the partnership to that partner exceeds his adjusted basis in his partnership interest. Generally, the character of the gain is determined by reference to the character of the net pre-contribution gain. Appropriate basis adjustments are to be made in the basis of the distributee partner's interest in the partnership and the partnership's basis in the contributed property to take account of gain recognized by the distributee partner.

Effective date.—The provision applies to partnership distributions on or after June 25, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill or the Senate amendment. (However, the conference agreement on H.R. 776 includes the House bill and the Senate amendment.)

8. Deny deduction relating to travel expenses paid or incurred in connection with travel of taxpayer's spouse or dependents

PRESENT LAW

In general, a taxpayer is permitted a deduction for all ordinary and necessary expenses paid or incurred during the taxable year (1) in carrying on any trade or business and (2) in the case of an individual, for the production of income. Such deductible expenses may include reasonable travel expenses paid or incurred while away from home, such as transportation costs and the cost of meals and lodging.

In the case of ordinary and necessary business expenses, if a taxpayer travels to a destination and while at that destination engages in both business and personal activities, travel expenses to and from such destination are deductible only if the trip is related primarily to the taxpayer's trade or business. If the trip is primarily personal in nature, expenses while at the destination that are properly allocable to the taxpayer's trade or business are deductible even though the traveling expenses to and from the destination are not deductible (Treas. reg. sec. 1.162-2(b)(1)).

Under Treasury regulations, if the taxpayer's spouse accompanies the taxpayer on a business trip, expenses attributable to the spouse's travel are not deductible unless it is adequately shown that the spouse's presence on the trip has a bona fide business purpose (Treas. reg. sec. 1.162-2(c)). The performance of some incidental service by the spouse does not cause the expenses to qualify as deductible business expenses. Under the regulations, the same rules apply to any other members of the taxpayer's family who accompany the taxpayer on such a trip.

In general, business expenses other than unreimbursed employee business expenses are deductible above-the-line and are not subject to the 2-percent floor on miscellaneous itemized deductions. Expenses for the production of income other than rental or royalty income are generally deductible below-the-line (if the activity does not constitute a trade or business) and are subject to the 2-percent floor on miscellaneous itemized deductions.

Gross income does not include the value of a working condition fringe (sec. 132(d)). A "working condition fringe" is any property or service provided to an employee of an employer to the extent that if an employee paid for the property or service, the amount paid would be deductible as an ordinary and necessary business expense (sec. 162) or a depreciation expense (sec. 167).

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment denies a deduction for travel expenses paid or incurred with respect to a spouse, dependent, or other individual accompanying a person on business travel, unless (a) the spouse, dependent, or other individual accompanying the person is a bona fide employee of the person paying or reimbursing the expenses, (b) the travel of the spouse, dependent, or other individual is for a bona fide business purpose, and (c) the expenses of the spouse, dependent, or other individual would otherwise be deductible. No inference is intended as to the deductibility of these expenses under present law.

Effective date.—The provision is effective for amounts paid or incurred after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

9. Deny deduction for travel expenses paid or incurred in connection with employment lasting one year or more

PRESENT LAW

Unreimbursed ordinary and necessary travel expenses paid or incurred by an individual in connection with temporary employment away from home (e.g., transportation costs, and the cost of meals and lodging) are generally deductible, subject to the two-percent floor on miscellaneous itemized deductions. Travel expenses paid or incurred in connection with indefinite employment away from home, however, are not deductible.[1]

The position of the Internal Revenue Service as to whether employment is temporary or indefinite is as follows:

1. If a taxpayer anticipates employment to last for less than one year, whether such employment is temporary or indefinite will be determined on the basis of the facts and circumstances.

2. If a taxpayer anticipates employment to last for one year or more and that employment does, in fact, last for one year or more, there is a presumption that the employment is not temporary but rather is indefinite, and that the taxpayer is not away from home during the indefinite period of employment. However, under certain circumstances, this one-year presumption of indefiniteness may be rebutted where the employment is expected to, and does, last for one year or more, but less than two years.

3. An expected or actual stay of two years or longer will be considered an indefinite stay, regardless of any other facts and circumstances.[2]

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment treats a taxpayer's employment away from home in a single location as indefinite rather than temporary if it lasts for one year or more. Thus, no deduction would be permitted for travel expenses paid or incurred in connection with such employment. As under present law, if a taxpayer's employment away from home in a single location lasts for less than one year, whether such employment is temporary or indefinite would be determined on the basis of the facts and circumstances.

Effective date.—The amendment is effective for costs paid or incurred after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

10. Modify definition of applicable high yield discount obligations

PRESENT LAW

A taxpayer generally may deduct the amount of interest paid or accrued within the taxable year on indebtedness issued by the taxpayer. Original issue discount (OID) is the excess of the stated redemption price at maturity over the issue price of a debt instrument. The issuer of a debt instrument with OID generally accrues and deducts, as interest, the discount over the life of the obligation, even though the amount of the interest may not be paid until the maturity of the instrument.

Special rules apply to applicable high yield discount obligations. A certain portion of the yield on an applicable high yield discount obligation is treated as a dividend and is not deductible and another portion is not deductible until paid. An applicable high yield discount obligation is one that: (1) has a maturity date more than 5 years from the date of issue; (2) has a yield to maturity at least equal to the applicable Federal rate plus 5 percentage points; and (3) has significant OID. An instrument has significant OID if, for any accrual period ending after the date 5 years after the date of issue, the aggregate amount of interest taken into account as income under the instrument exceeds the sum of the aggregate amount of interest paid plus the product of the issue price of the instrument and its yield to maturity.

HOUSE BILL

No provision in H.R. 11. However, H.R. 5650 as passed by the House, contains a provision identical to the provision of the Senate amendment.

SENATE AMENDMENT

The Senate amendment provides that an applicable high yield discount obligation is one that: (1) has a maturity date more than 4 years (rather than 5 years) from the date of issuance; (2) has a yield to maturity at least equal to the applicable Federal rate plus 5 percentage points; and (3) has significant OID. An instrument has significant OID if, for any accrual period ending after the date 4 years (rather than 5 years) after the date of issue, the aggregate amount of interest taken into account as income under the instrument exceeds the sum of the aggregate amount of interest paid plus the product of the issue price of the instrument and its yield to maturity.

Effective date.—The provision is effective for obligations issued after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the provision in H.R. 5650 and the Senate amendment.

11. Deny Deduction for Club Dues

PRESENT LAW

No deduction is permitted for club dues unless the taxpayer establishes that his or her use of the club was primarily for the furtherance of the taxpayer's trade or business and the specific expense was directly related to the active conduct of that trade or business. No deduction is permitted for an initiation or similar fee that is payable only upon joining a club if the useful life of the fee extends over more than one year. Such initiation fees are nondeductible capital expenditures.[1]

HOUSE BILL

Under the bill, no deduction is permitted for club dues. This rule applies to all types of clubs: business, social, athletic, luncheon, or sporting clubs. Specific business expenses (e.g., meals) incurred at a club would be deductible only to the extent they otherwise satisfy present-law standards for deductibility.

Effective date.—The provision is effective for club dues paid after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that the provision is effective for club dues paid after December 31, 1992.

12. Increase casualty loss deductible from $100 to $500

PRESENT LAW

Individuals may deduct losses of property not connected with a trade or business or a transaction entered into for profit if the loss arises from theft or from fire, storm, shipwreck, or other casualty. Only the amount of the loss in excess of $100 per casualty loss can be deducted. In addition, the casualty losses of a taxpayer for a taxable year may be deducted only to the extent that the sum of such losses (determined after application of the $100 threshold to each loss) exceeds 10 percent of the taxpayer's adjusted gross income (AGI).

HOUSE BILL

No provision in H.R. 11. (However, H.R. 2735 as passed by the House contains the same provision as included in the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement increases to $500 the threshold for deducting casualty losses. The $500 threshold is indexed for inflation (with rounding to the nearest $10) for taxable years beginning after 1993. As under present law, the amount of casualty losses above the threshold are allowed as a deduction only to the extent that their sum exceeds 10 percent of the individual's AGI.

Effective date.—The provision is effective for taxable years beginning after December 31, 1992.

13. Substantiation of business meal and entertainment expenses

PRESENT LAW

No deduction is allowed with respect to business meal and entertainment expenses (as well as other specified items) unless the taxpayer substantiates by adequate records or by sufficient evidence corroborating the taxpayer's own statement (1) the amount of the expense, (2) the time and place of the expense, (3) the business purpose of the expense, and (4) the business relationship to the taxpayer of the persons entertained.

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that a taxpayer shall not be treated as meeting the substantiation requirements imposed on business meal and entertainment expenses unless the amount of the expense is shown on a receipt which is prepared by the provider of such services and which is provided at the time of the expense (or within a reasonable period thereafter). For example, under the conference agreement a taxpayer would not be treated as meeting these substantiation requirements if the taxpayer obtained a blank receipt from a restaurant and the taxpayer filled in the amount of the expense.

The conference agreement does not alter the present-law rules that permit the Secretary to issue regulations providing that some or all of the substantiation requirements shall not apply in the case of an expense which does not exceed an amount prescribed pursuant to those regulations; the conference agreement provides that a taxpayer shall not be treated as meeting the substantiation requirements under certain

[1] *Kenneth D. Smith*, 24 TCM 899 (1965).

circumstances, while the regulations provide that the substantiation requirements shall not apply in certain circumstances.

Effective date.—The provision is effective on the date of enactment.

14. Treatment of passive activity losses and credits in certain discharges of indebtedness

PRESENT LAW

The discharge of indebtedness generally gives rise to gross income to the debtor taxpayer. Present law provides exceptions to this general rule. Among the exceptions are rules providing that income from the discharge of indebtedness of the taxpayer is excluded from income if the discharge occurs in a title 11 case, the discharge occurs when the taxpayer is insolvent, or in the case of certain farm indebtedness (Code sec. 108(a)(1)). The amount excluded from income under these exceptions is applied to reduce tax attributes of the taxpayer. The tax attributes reduced (in order) are net operating losses and carryovers, carryovers to or from the year of discharge in determining the general business credit, net capital losses for the year of discharge and capital loss carryovers to the year of discharge, and the basis of certain property of the taxpayer. The amount of the reduction is generally a dollar for each dollar excluded, except that for credit carryovers, the reduction is 33⅓ cents for each dollar excluded.

Under present law, the passive loss rules limit deductions and credits from passive trade or business activities. Deductions attributable to passive activities, to the extent they exceed income from passive activities, generally may not be deducted against other income, such as wages, portfolio income, or business income that is not derived from a passive activity. A similar rule applies with respect to credits from passive activities. Deductions and credits suspended under these rules are carried forward to the next taxable year, and are allowed in full when the taxpayer disposes of his entire interest in the passive activity to an unrelated person. Passive losses and credits are not tax attributes reduced under the rule relating to exclusion of discharge of indebtedness income.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment adds passive activity loss and credit carryovers from the taxable year of the discharge to the list of tax attributes that are reduced in the case of a discharge of indebtedness of the taxpayer that is excludable from income under Code section 108(a)(1). The amount of the reduction is generally one dollar for each dollar excluded, except that the reduction in the case of passive activity credits is 33⅓ cents for each dollar excluded.

Effective date.—The provision applies with respect to taxable years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

15. Repeal the stock-for-debt exception to cancellation of indebtedness income

PRESENT LAW

Gross income generally includes cancellation of indebtedness (COD) income. Taxpayers in title 11 cases and insolvent taxpayers, however, generally exclude COD income from gross income but reduce tax attributes by the amount of COD income. The amount of COD income that an insolvent taxpayer excludes cannot exceed the amount by which the taxpayer is insolvent.

The amount of COD income generally is the difference between the adjusted issue price of the debt being cancelled and the amount of cash and the value of any property used to satisfy the debt. Thus, for purposes of determining the amount of COD income of a debtor corporation that transfers stock to a creditor in satisfaction of its indebtedness, the corporation generally is treated as realizing COD income equal to the excess of the adjusted issue price of the debt over the fair market value of the stock. However, if the debtor corporation is in a title 11 case or is insolvent, the excess of the debt discharged over the fair market value of the transferred stock generally does not constitute COD income (the stock-for-debt exception).[1] Thus, a corporate debtor that qualifies for the stock-for-debt exception is not required to reduce its tax attributes as a result of the debt discharge. The stock-for-debt exception does not apply to the issuance of certain preferred stock, nominal or token shares of stock, or stock to unsecured creditors on a relatively disproportionate basis. In the case of an insolvent debtor not in a title 11 case, the exception applies only to the extent the debtor is insolvent.

HOUSE BILL

No provision in H.R. 11. However, section 203 of H.R. 5674 as passed by the House repeals the stock-for-debt exception. Thus, regardless of whether a debtor corporation is insolvent or in bankruptcy, the transfer of its stock in satisfaction of its indebtedness will be treated as if the corporation satisfied the indebtedness with an amount of money equal to the fair market value of the stock that had been transferred.

Effective date.—Stock transferred after July 9, 1992, other than a transfer in a title 11 or similar case filed on or before July 9, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows H.R. 5674, except that the effective date is modified to provide as follows: The provision applies to stock transferred in satisfaction of any indebtedness after July 9, 1992, unless (1) the transfer is in a title 11 or similar case filed on or before July 9, 1992, (2) the transfer occurs on or before December 31, 1993, and the transfer is pursuant to a binding contract in effect on July 9, 1992, or (3) the transfer occurs on or before December 31, 1993, and the taxpayer had filed with the SEC on or before July 9, 1992, a registration statement which proposed a stock for debt exchange with respect to such indebtedness, and which discussed the possible application of the stock-for-debt exception to such exchange.

16. Increase base tax rate on ozone-depleting chemicals

PRESENT LAW

An excise tax is imposed on certain ozone-depleting chemicals. The amount of tax generally is determined by multiplying the base tax rate applicable for the calendar year by an ozone-depleting factor assigned to the chemical. Certain chemicals are subject to a reduced rate of tax for years prior to 1994.

Between 1992 and 1995 there are two base tax rates applicable, depending upon whether the chemicals were initially listed in the Omnibus Budget Reconciliation Act of 1989 or whether they were newly listed in the Omnibus Budget Reconciliation Act of 1990. The base tax rate applicable to initially listed chemicals is $1.67 per pound for 1992, $2.65 per pound for 1993 and 1994, and an additional 45 cents per pound per year for each year thereafter. The base tax rate applicable to newly listed chemicals is $1.37 per pound for 1992, $1.67 per pound for 1993, $3.00 per pound for 1994, $3.10 per pound for 1995, and an additional 45 cents per pound per year for each year thereafter.

HOUSE BILL

No provision.

SENATE AMENDMENT

Base tax amount.—The Senate amendment increases the base tax amount of both initially listed chemicals and newly listed chemicals by $0.15 per pound for 1992, by $0.25 per pound for 1993, by $0.35 per pound for 1994, and by $0.45 per pound for 1995. For each year after 1995, the increase in the base tax amount is $0.45 per pound.

Rigid foam insulation and halons.—The Senate amendment reduces the applicable percentage used in the computation of the tax applied to chemicals used in rigid foam insulation and for certain halons in 1992 and 1993. For chemicals used in rigid foam insulation, the provision reduces the applicable percentage from 15 percent to 13.76 percent for 1992, and reduces the applicable percentage from 10 percent to 8.33 percent for 1993. For Halon-1211 the new applicable percentages are 4.58 percent for 1992 and 2.78 percent for 1993. For Halon-1301 the new applicable percentages are 1.38 percent for 1992 and 0.83 percent for 1993. For Halon-2402 the new applicable percentages are 2.29 percent for 1992 and 1.39 percent for 1993. The effect of this provision is to continue present-law rates on these chemicals for 1992 and 1993.

Medical sterilants.—The Senate amendment provides for a reduced rate of tax for certain ozone-depleting chemicals used as medical sterilants for 1992 and 1993. The applicable percentage for such chemicals for 1992 is 91.76 percent and is 55.67 percent for 1993.

Effective date.—The provision is effective for taxable chemicals sold or used on or after October 1, 1992. Floor stocks taxes are imposed on taxed chemicals held on the effective dates of changes in the base tax rate.

CONFERENCE AGREEMENT

The conference agreement does not contain the provision. (However, the conference agreement on H.R. 776 includes increases in the tax on ozone-depleting chemicals.)

17. Modify depreciation of water utility property

PRESENT LAW

In general, property that is used in the gathering, treatment, and commercial distribution of water is assigned a class-life of 50 years. Consequently, the depreciation deductions for such property for regular tax purposes generally are determined by using a 20-year recovery period and the 150-percent declining balance method switching to the straight-line method for the taxable year in which the depreciation deduction would be maximized.

---

[1] In addition, if the debtor corporation issues both stock and other consideration to a creditor in satisfaction of indebtedness, the non-stock consideration is generally treated as satisfying an amount of debt equal to the value of such consideration, with the stock being considered as satisfying the remainder. Thus, if such transaction qualifies for the stock-for-debt exception, the entire amount of COD income realized by the debtor corporation in the transaction generally is excluded from gross income.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment requires the depreciation deductions allowed for regular tax purposes with respect to water utility property to be determined by using a recovery period of 25 years and the straight-line method. For this purpose, water utility property is defined as property that is an integral part of the gathering, treatment, and commercial distribution of water and that (without regard to the provision) would be 20-year property.

Effective date.—The provision generally applies to property placed in service after December 31, 1992. The provision, however, does not apply to property that is acquired or constructed pursuant to a binding contract in effect on December 31, 1992, and at all times thereafter until the property is placed in service.

CONFERENCE AGREEMENT

The conference agreement does not contain the provision of the Senate amendment.

B. EXTENSION OF EXISTING PROVISIONS

1. Five-year extension of top estate and gift tax rates

PRESENT LAW

The Federal estate and gift taxes are unified so that a single progressive rate schedule is applied to an individual's cumulative gifts and bequests. The generation-skipping transfer tax is computed by reference to the maximum Federal estate tax rate.

For 1992, the Federal estate and gift tax rates begin at 18 percent on the first $10,000 of taxable transfers and reach 55 percent on taxable transfers in excess of $3 million. For transfers occurring after 1992, the maximum Federal estate and gift tax rates are scheduled to decline to 50 percent on taxable transfers over $2.5 million.

In addition, the benefit of the graduated rates and the unified credit is phased-out at a 5-percent rate for taxable transfers that exceed $10,000,000 and do not exceed $21,040,000 ($18,340,000 in the case of decedents dying, and gifts made, after 1992).

HOUSE BILL

The House bill would defer for five years the estate and gift tax rate reductions that were scheduled to take effect after 1992 until after 1997. Also, the rate of tax on generation skipping transfers would remain at 55 percent until after 1997.

Effective date.—The provision is effective for decedents dying, gifts made, and generation skipping transfers occurring after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Extension of personal exemption phaseout

PRESENT LAW

Present law permits a personal exemption deduction from gross income for an individual, the individual's spouse, and each dependent. For 1992, the amount of this deduction is $2,300 for each exemption claimed. This exemption amount is adjusted for inflation. The deduction for personal exemptions is phased out for taxpayers with adjusted gross income (AGI) above a threshold amount (indexed for inflation) which is based on filing status. For 1992, the threshold amounts are $157,900 for married taxpayers filing joint returns, $78,950 for married taxpayers filing separate returns, $131,550 for unmarried taxpayers filing as head of household, and $105,250 for unmarried taxpayers filing as single.

The total amount of exemptions which may be claimed by a taxpayer is reduced by 2 percent for each $2,500 (or portion thereof) by which the taxpayer's AGI exceeds the applicable threshold (the phaseout rate is 4 percent for married taxpayers filing separate returns). Thus, the personal exemptions claimed are phased out over a $122,500 range, beginning at the applicable threshold.

This provision does not apply to taxable years beginning after December 31, 1996.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends permanently the present-law personal exemption phaseout applicable to higher-income individuals.

Effective date.—The provision is effective for taxable years beginning in 1997 and thereafter.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

3. Extension of itemized deduction limitation

PRESENT LAW

Under present law, individuals who do not elect the standard deduction may claim itemized deductions (subject to certain limitations) for certain nonbusiness expenses incurred during the taxable year. Among these deductible expenses are unreimbursed medical expenses, casualty and theft losses, charitable contributions, qualified residence interest, State and local income and property taxes, unreimbursed employee business expenses, and certain other miscellaneous expenses.

Certain itemized deductions are allowed only to the extent that the amount exceeds a specified percentage of the taxpayer's adjusted gross income (AGI). Unreimbursed medical expenses for care of the taxpayer and the taxpayer's spouse and dependents are deductible only to the extent that the total of these expenses exceeds 7.5 percent of the taxpayer's AGI. Nonbusiness casualty or theft losses are deductible only to the extent that the amount of loss arising from each casualty or theft exceeds $100 and only to the extent that the net amount of casualty and theft losses exceeds 10 percent of the taxpayer's AGI. Unreimbursed employee business expenses and certain other miscellaneous expenses are deductible only to the extent that the total of these expenses exceeds 2 percent of the taxpayer's AGI.

The total amount of otherwise allowable itemized deductions (other than medical expenses, casualty and theft losses, and investment interest) is reduced by 3 percent of the amount of the taxpayer's AGI in excess of a specified threshold. This threshold is $105,250 in 1992 (indexed for inflation). Under this provision, otherwise allowable itemized deductions may not be reduced by more than 80 percent. In computing the reduction of total itemized deductions, all present-law limitations applicable to such deductions are first applied and then the otherwise allowable total amount of deductions is reduced in accordance with this provision.

The reduction of otherwise allowable itemized deductions does not apply to taxable years beginning after December 31, 1995.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends permanently the present-law itemized deduction limitation applicable to higher-income individuals.

Effective date.—The provision is effective for taxable years beginning in 1996 and thereafter.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

C. ESTIMATED TAX PROVISIONS

1. Modify individual estimated tax requirements

PRESENT LAW

Under present law, an individual taxpayer generally is subject to an addition to tax for any underpayment of estimated tax. An individual generally does not have an underpayment of estimated tax if he or she makes timely estimated tax payments at least equal to: (1) 100 percent of the tax liability of the prior year (the "100 percent of last year's liability safe harbor") or (2) 90 percent of the tax liability of the current year. Income tax withholding from wages is considered to be a payment of estimated taxes.

In addition, under a special rule, for taxable years beginning after 1991 and before 1997, a taxpayer that has an adjusted gross income (AGI) in the current year that exceeds the taxpayer's AGI in the prior year by more than $40,000 ($20,000 in the case of a separate return by a married individual) and (2) the taxpayer has an AGI in excess of $75,000 in the current year ($37,500 in the case of a separate return by a married individual) generally may not use the 100 percent of last year's liability safe harbor.

HOUSE BILL

The special rule that denies the use of the 100 percent of last year's liability safe harbor is repealed. In addition, the 100 percent of last year's liability safe harbor is modified to be 115 percent of last year's liability safe harbor.

Thus, under the House bill, an individual generally does not have an underpayment of estimated tax if he or she makes timely estimated tax payments at least equal to: (1) 115 percent of the tax liability of the prior year or (2) 90 percent of the tax liability of the current year.

Effective date.—The provision is effective for estimated tax payments applicable to taxable years beginning after December 31, 1992. An individual may elect to use 115 percent of last year's liability safe harbor for the individual's taxable year beginning in 1992.

SENATE AMENDMENT

Same as the House bill, except that the Senate amendment provides a 120 percent of last year's liability safe harbor (rather than the 115 percent of last year's liability safe harbor provided in the House bill).

Effective date.—The provision is effective for estimated tax payments applicable to taxable years beginning after December 31, 1992. The Senate amendment does not contain the election to use the safe harbor for 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Modify estimated tax payment rules for large corporations

PRESENT LAW

A corporation is subject to an addition to tax for any underpayment of estimated tax. For taxable years beginning after June 30, 1992 and before 1997, a corporation does not have an underpayment of estimated tax if it makes four equal timely estimated tax payments that total at least 97 percent of the tax liability shown on the return for the current taxable year. A corporation may estimate its current year tax liability based upon a method that annualizes its income through the period ending with either the month or the quarter ending prior to the estimated tax payment date.

For taxable years beginning after 1996, the 97-percent requirement becomes a 91-percent requirement. The present-law 97-percent and 91-percent requirements were added by the Unemployment Compensation Amendments of 1992.

A corporation that is not a "large corporation" generally may avoid the addition to tax if it makes four timely estimated tax payments each equal to at least 25 percent of its tax liability for the preceding taxable year (the "100 percent of last year's liability safe harbor"). A large corporation may use this rule with respect to its estimated tax payment for the first quarter of its current taxable year. A large corporation is one that had taxable income of $1 million or more for any of the three preceding taxable years.

HOUSE BILL

For taxable years beginning after 1996, a corporation that does not use the 100 percent of last year's liability safe harbor for its estimated tax payments is required to base its estimated tax payments on 95 percent (rather than 91 percent) of its current year tax liability, whether such liability is determined on an actual or annualized basis.

The House bill does not change the present-law availability of the 100 percent of last year's liability safe harbor for large or small corporations.

In addition, the House bill modifies the rules relating to income annualization for corporate estimated tax purposes. Under the bill, annualized income is to be determined based on the corporation's activity for the first 3 months of the taxable year (in the case of the first and second estimated tax installments); the first 6 months of the taxable year (in the case of the third estimated tax installment); and the first 9 months of the taxable year (in the case of the fourth estimated tax installment). Alternatively, a corporation may elect to determine its annualized income based on the corporation's activity for either: (1) the first 3 months of the taxable year (in the case of the first estimated tax installment); the first 4 months of the taxable year (in the case of the second estimated tax installment); the first 7 months of the taxable year (in the case of the third estimated tax installment); and the first 10 months of the taxable year (in the case of the fourth estimated tax installment); or (2) the first 3 months of the taxable year (in the case of the first estimated tax installment); the first 5 months of the taxable year (in the case of the second estimated tax installment); the first 8 months of the taxable year (in the case of the third estimated tax installment); and the first 11 months of the taxable year (in the case of the fourth estimated tax installment). An election to use either of the annualized income patterns described in (1) or (2) above must be made on or before the due date of the second estimated tax installment for the taxable year for which the election is to apply, in a manner prescribed by the Secretary of the Treasury.

Effective date.—The provision is effective for estimated tax payments with respect to taxable years beginning after December 31, 1992.

SENATE AMENDMENT

For taxable years beginning after 1992, a corporation that does not use the 100 percent of last year's liability safe harbor for its estimated tax payments is required to base its estimated tax payments on 100 percent (rather than 97 percent or 91 percent) of its current year tax liability, whether such liability is determined on an actual or annualized basis.

The Senate amendment does not change the present-law availability of the 100 percent of last year's liability safe harbor for large or small corporations.

The Senate amendment also modifies the rules relating to income annualization for corporate estimated tax purposes in the same manner as the House bill.

Effective date—The provision is effective for estimated tax payments with respect to taxable years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

D. ADMINISTRATIVE PROVISIONS

1. Expansion of 45-day interest-free period for certain refunds

PRESENT LAW

No interest is paid by the Government on a refund arising from an income tax return if the refund is issued by the 45th day after the later of the due date for the return (determined without regard to any extensions) or the date the return is filed (sec. 6611(e)).

There is no parallel rule for refunds of taxes other than income taxes (i.e., employment, excise, and estate and gift taxes), for refunds of any type of tax arising from amended returns, or for claims for refunds of any type of tax.

If a taxpayer files a timely original return with respect to any type of tax and later files an amended return claiming a refund, and if the IRS determines that the taxpayer is due a refund on the basis of the amended return, the IRS will pay the refund with interest computed from the due date of the original return.

HOUSE BILL

No provision.

SENATE AMENDMENT

No interest is to be paid by the Government on a refund arising from any type of original tax return if the refund is issued by the 45th day after the later of the due date for the return (determined without regard to any extensions) or the date the return is filed.

A parallel rule applies to amended returns and claims for refunds: if the refund is issued by the 45th day after the date the amended return or claim for refund is filed, no interest is to be paid by the Government for that period of up to 45 days (interest would continue to be paid for the period from the due date of the return to the date the amended return or claim for refund is filed). If the IRS does not issue the refund by the 45th day after the date the amended return or claim for refund is filed, interest would be paid (as under present law) for the period from the due date of the original return to the date the IRS pays the refund.

A parallel rule also applies to IRS-initiated adjustments (whether due to computational adjustments or audit adjustments). With respect to these adjustments, the IRS is to pay interest for 45 fewer days than it otherwise would.

Effective date.—The extension of the 45-day processing rule is effective for returns required to be filed (without regard to extensions) on or after October 1, 1992. The amended return rule is effective for amended returns and claims for refunds filed on or after October 1, 1992 (regardless of the taxable period to which they relate). The rule relating to IRS-initiated adjustments is applicable to refunds paid on or after October 1, 1992 (regardless of the taxable period to which they relate).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except as to the effective date.

Effective date.—The extension of the 45-day processing rule is effective for returns required to be filed (without regard to extensions) on or after January 1, 1993. The amended return rule is effective for amended returns and claims for refunds filed on or after January 1, 1994 (regardless of the taxable period to which they relate). The rule relating to IRS-initiated adjustments is applicable to refunds paid on or after January 1, 1994 (regardless of the taxable period to which they relate).

2. Reporting of amounts of property tax reimbursements paid to sellers of residences

PRESENT LAW

Individual taxpayers who itemize deductions may deduct State and local real property taxes. Under Code section 164(d)(1), if real property is sold during any real property tax year, the part of the real property tax that is properly allocable to that part of the year that ends on the day before the date of sale is treated as imposed on the seller. The part of the real property tax that is properly allocable to that part of the year that begins on the date of sale is treated as imposed on the buyer.

Under present law, real estate transactions are required to be reported on a return to the IRS and on statements to the customers. In general, the primary responsibility for reporting is on the "real estate reporting person," that is, the person responsible for closing the transactions, including any title company or attorney who closes the transaction. If there is no person responsible for closing the transaction, the real estate reporting person is the first person who exists in the following order: the mortgage lender, the seller's broker, the buyer's broker, or such other person designated in regulations prescribed by the Secretary.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5638 as passed by the House contains a provision identical to that in the Senate amendment below.)

SENATE AMENDMENT

The Senate amendment provides that in the case of a real estate transaction involving a residence, the real estate reporting person is required to include on an information return and on the customer statements the portion of any real property tax that is treated as a tax imposed on the purchaser.

Effective date.—The provision is effective for transactions after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

3. Require reporting of taxpayer identification numbers of parties in seller-financed mortgage transactions

PRESENT LAW

Taxpayers are generally allowed an itemized deduction from adjusted gross income for the amount of qualified residence interest paid. If qualified residence interest is paid to an individual, the name and address (but not the taxpayer identification number)[1] of the interest recipient must be reported on Schedule A of the payor's tax return.

Individuals receiving taxable interest in excess of $400 are required to report the amounts received and the names (but not the addresses or taxpayer identification numbers) of the payors on Schedule B of the payee's tax return.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that if any taxpayer claims a deduction for qualified residence interest on any seller-provided financing, such taxpayer (the buyer) shall include on his or her tax return the name, address, and taxpayer identification number of the person (the seller) to whom the interest is paid or accrued. In general, this information must be furnished on Schedule A of the buyer's tax return for every year in which the buyer deducts this interest.

If any person receives or accrues interest from seller-provided financing, such person (the seller) shall include on his or her tax return the name, address, and taxpayer identification number of the person (the buyer) from whom the interest is received or accrued. In general, this information must be furnished on Schedule B of the seller's tax return for every year in which the seller is required to include this interest in income.

If any person involved in seller-provided financing is required to include on his or her tax return the taxpayer identification number of another person, such other person is required to furnish his or her taxpayer identification number to such person. Information would not be required to be reported under this provision to the extent it would be duplicative of existing information reporting requirements.

Failure to meet the requirements for information reporting described above are subject to information reporting penalties under section 6723. In general, these penalties are $50 for each failure.

Effective date.—The provision is effective for taxable years beginning after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

E. TAXABLE YEAR ELECTION FOR PARTNERSHIPS, S CORPORATIONS, AND PERSONAL SERVICE CORPORATIONS

PRESENT LAW

In general

A partnership is generally required for Federal income tax purposes to use the taxable year that is used by a majority of its partners. An S corporation is generally required for Federal income tax purposes to use the calendar year as its taxable year. A personal service corporation also is generally required for Federal income tax purposes to use the calendar year as its taxable year.[1]

A partnership, S corporation, or personal service corporation, however, may elect to use a taxable year other than the required taxable year. In the case of a partnership, S corporation, or personal service corporation that is adopting a taxable year or changing a taxable year, the taxable year that may be elected generally may not result in a deferral period of more than three months. For this purpose, the deferral period generally is the number of months between (1) the beginning of the taxable year of the partnership, S corporation, or personal service corporation, and (2) the close of the first required taxable year that ends within such year.

A partnership, S corporation, or personal service corporation is required to obtain the approval of the Internal Revenue Service in order to change to a taxable year other than the required taxable year. A partnership, S corporation, or personal service corporation that terminates an election to use a taxable year other than the required taxable year may not make an election for any subsequent taxable year.

An election may not be made by a partnership, S corporation, or personal service corporation that is part of a tiered structure other than a tiered structure that is comprised of one or more partnerships or S corporations, all of which have the same taxable year. An electing partnership, S corporation, or personal service corporation that becomes part of a proscribed tiered structure is considered to have terminated its election.

Required payment for electing partnerships and S corporations

A partnership or S corporation that elects a taxable year other than the required taxable year is required to make a payment to the Internal Revenue Service (a "required payment") that is designed to compensate the Federal government for the deferral of tax that results from the use of a taxable year other than the required taxable year. The amount of the required payment for any taxable year for which an election is in effect (an "applicable election year") equals the excess (if any) of (1) the highest rate of tax in effect under section 1 of the Code plus 1 percentage point multiplied by the net base year income of the partnership or S corporation, over (2) the net required payment balance. The net required payment balance is the aggregate amount of required payments less refunds of required payments for all preceding taxable years for which an election was in effect.

The required payment is due on May 15 of the calendar year that follows the calendar year in which the applicable election year began. The required payment is required to be refunded by the Internal Revenue Service if certain conditions are satisfied. No interest is required to be paid by the Internal Revenue Service with respect to a refund of a required payment.

Minimum distribution requirement for electing personal service corporations

A personal service corporation that elects a taxable year other than the required taxable year is required to satisfy a minimum distribution requirement that applies to applicable amounts paid by the personal service corporation.[2] If the minimum distribution requirement is not satisfied for any taxable year for which a taxable year election is in effect, the deduction otherwise allowed for applicable amounts paid or incurred during such taxable year is limited to the applicable amounts paid during the deferral period of the taxable year multiplied by a ratio, the numerator of which is the number of months in the taxable year and the denominator of which is the number of months in the deferral period of the taxable year.

The minimum distribution requirement is satisfied with respect to a taxable year only if the applicable amounts paid or incurred during the deferral period of the taxable year equal or exceed the lesser of (1) the applicable amounts paid during the preceding taxable year multiplied by a ratio, the numerator of which is the number of months in the deferral period of the taxable year and the denominator of which is the number of months in the taxable year, or (2) the applicable percentage of the adjusted taxable income for the deferral period of the taxable year.

A net operating loss carryback is not allowed to or from a taxable year of a personal service corporation for which a taxable year election is in effect.

HOUSE BILL

In general

The House bill allows a partnership, S corporation, or personal service corporation to elect any taxable year without regard to the length of the deferral period of the taxable year elected. If a partnership, S corporation, or personal service corporation, however, has annual reports or statements that (1) ascertain the income, profit, or loss of the entity, and (2) are used for credit purposes or are provided to the partners, shareholders, or other proprietors of the entity, then the entity may only elect a taxable year that covers the same period as such annual reports or statements.

The House bill also repeals the provision of present law that prohibits a partnership, S corporation, or personal service corporation from electing a taxable year other than the required taxable year if an earlier taxable year election has been terminated. The House bill requires a partnership, S corporation, or personal service corporation to obtain the approval of the Internal Revenue Service in order to change a taxable year (including, unlike present law, a change to the required taxable year).

It is anticipated that the Internal Revenue Service will provide a procedure by which a partnership, S corporation, or personal service corporation may expeditiously obtain the approval of the Internal Revenue Service in order to change a taxable year (for example, by timely filing a form with the Internal Revenue Service). It is anticipated that this "automatic consent" procedure will only apply to a partnership, S corporation, or personal service corporation that has not changed its taxable year within the past 6 calendar years, except that the 6-year limitation will not apply to any partnership, S corporation, or personal service corporation that has changed its taxable year in order to comply with the taxable year requirements contained in the Tax Reform Act of 1986.

It is also anticipated that the "automatic consent" procedure will require any net operating loss of a personal service corporation that arises in a short period required to effect a change in taxable year to be deducted ratably over a 6-year period beginning with the first taxable year after the short period. In addition, it is anticipated that the "automatic consent" procedure will require any excess of deductions over income of a partnership or S corporation that arises in a short period required to effect a change in taxable year to be taken into account by the partners or shareholders over a 6-year period beginning with the taxable year of the partners or shareholders that includes the last day of the first taxable year of the partnership or S corporation that occurs after the short period.

---

[1] An individual's taxpayer identification number is generally that individual's Social Security number.

[1] For this purpose, a personal service corporation is defined as a C corporation the principal activity of which is the performance of services if (1) the services are substantially performed by employee-owners, and (2) more than 10 percent of the stock of the corporation is owned by employee-owners.

[2] The term "applicable amount" generally is defined as any amount paid to an employee-owner that is includible in the gross income of the employee-owner other than any dividend paid by the personal service corporation or any gain from the sale or exchange of property by the employee-owner to the personal service corporation.

The House bill also provides that a taxable year election is to remain in effect until the partnership, S corporation, or personal service corporation terminates its election and changes to the required taxable year.[3] A change from a taxable year that is not a required taxable year to another taxable year that is not a required taxable year is not treated as a termination of the taxable year election unless the taxable year is allowable by reason of a business purpose.

The House bill provides that a partnership, S corporation, or personal service corporation is not to be considered part of a tiered structure solely because a trust the beneficiaries of which use the calendar year owns an interest in the partnership, S corporation, or personal service corporation. Consequently, an election of a taxable year other than the required taxable year may be made by a partnership, S corporation, or personal service corporation with respect to which a trust owns an interest if all of the beneficiaries of the trust use the calendar year and the partnership, S corporation, or personal service corporation is not otherwise considered to be part of a proscribed tiered structure.

Required payment for electing partnerships and S corporations

The House bill increases the amount of the required payment that must be made by a partnership or S corporation that elects a taxable year other than the required taxable year (including any partnership or S corporation that has an election in effect on the date of enactment of the bill). Under the House bill, the amount of the required payment for any applicable election year equals the excess (if any) of (1) the highest rate of tax in effect under section 1 of the Code as of the close of the first required taxable year ending within the applicable election year plus 2 percentage points, multiplied by the net base year income of the partnership or S corporation, over (2) the net required payment balance.

In addition, the House bill requires an additional required payment for any new applicable election year of a partnership or S corporation. For this purpose, a new applicable election year is defined as any applicable election year that either (1) immediately follows a taxable year for which a taxable year election was not in effect, or (2) covers a different period than the preceding taxable year by reason of a change in the taxable year elected. If, however, the applicable election year described in the preceding sentence is a short taxable year that does not include the last day of a required taxable year, then the new applicable election year is the taxable year immediately following the short taxable year.

In the case of a new applicable election year that does not result from a change in the taxable year elected, the amount of the additional required payment equals 75 percent of the amount of the required payment for such applicable election year (determined without regard to the additional required payment). In the case of a new applicable election year that results from a change in the taxable year elected, the amount of the additional required payment equals 75 percent of the excess (if any) of (1) the amount of the required payment for such applicable election year (determined without regard to the additional required payment), over (2) the amount of the required payment for such applicable election year (determined without regard to the additional required payment) determined by using the deferral ratio and the deferral period that applied to the taxable year that was used prior to the change.[4]

The additional required payment is required to be made on or before September 15 of the calendar year in which the new applicable election year begins. A partnership or S corporation that fails to make the additional required payment by the due date of such payment is treated as having terminated the taxable year election and changed to the required taxable year.

In determining the net base year income of a partnership or S corporation for purposes of the required payment (including the additional required payment), the base year is defined as the first taxable year of 12 months (or 52–53 weeks) of the partnership or S corporation that precedes the applicable election year.[5] In addition, in the case of a new applicable election year, the net income for the base year is to be increased by the excess (if any) of (1) the applicable payments taken into account in determining net income for the base year, over (2) 120 percent of the average amount of applicable payments made during the 3 taxable years immediately preceding the base year.[6]

The House bill also requires interest to be paid by the Internal Revenue Service with respect to a refund of a required payment but only for the period that begins on the date that the refund is payable and that ends on the date of the payment of the refund.

Minimum distribution requirement for electing personal service corporations

The House bill modifies the minimum distribution requirement that must be satisfied by a personal service corporation that elects a taxable year other than the required taxable year (including a personal service corporation that has an election in effect on the date of enactment of the bill). The minimum distribution requirement is satisfied with respect to a taxable year only if the applicable amounts paid during the deferral period of the taxable year equal or exceed the lesser of (1) 110 percent of the applicable amounts paid during the first preceding taxable year of 12 months (or 52–53 weeks)[7] multiplied by a ratio, the numerator of which is the number of months in the deferral period of the taxable year and the denominator of which is 12, or (2) 110 percent of the applicable percentage of the adjusted taxable income for the deferral period of the taxable year.

The House bill also permits a personal service corporation to carry back a net operating loss from a taxable year for which a taxable year election was not in effect to a taxable year for which a taxable year election was in effect.

Effective date

The provision of the House bill relating to the taxable year election applies to taxable years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

F. WITHHOLDING PROVISIONS

1. Withholding on supplemental wage payments

PRESENT LAW

Under Treasury regulations (Treas. Reg. sec. 31.3402(g)-1), withholding on supplemental wage payments (such as bonuses, commissions, and overtime pay) that are not paid concurrently with wages (or that are paid concurrently with wages, but are separately stated) for a payroll period may be done at a rate of 20 percent (at the employer's election).

HOUSE BILL

No provision.

SENATE AMENDMENT

The elective withholding rate on supplemental wage payments is increased from 20 percent to 28 percent.

Effective date.—The provision is effective for payments of supplemental wages made after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Withholding on certain gambling winnings

PRESENT LAW

In general, proceeds from a wagering transaction are subject to withholding at a rate of 20 percent if such proceeds exceed $1,000 and if the amount of such proceeds is at least 300 times as large as the amount wagered. The proceeds from a wagering transaction are determined by subtracting from the amount received the amount wagered. Any non-monetary proceeds that are received are taken into account at fair market value.

In the case of State-conducted lotteries, proceeds from a wager are subject to withholding at a rate of 20 percent if such proceeds exceed $5,000, regardless of the odds of the wager. This rule applies only if the wager is placed with the State agency conducting the lottery or with its authorized agents or employees.

In the case of sweepstakes, wagering pools, or lotteries other than State-conducted lotteries, proceeds from a wager are subject to withholding at a rate of 20 percent if such proceeds exceed $1,000, regardless of the odds of the wager.

No withholding tax is imposed on winnings from a slot machine, bingo, or keno.

---

[3] As under present law, a taxable year election is also terminated if: (1) the entity becomes part of a proscribed tiered structure; or (2) a partnership or S corporation willfully fails to comply with the required payment rules described below. In addition, the House bill authorizes the Treasury Department to issue regulations which provide for the termination of a taxable year election if the entity does not comply with the annual financial statement requirement described above.

[4] In the case of a new applicable election year that results from a change in the taxable year elected, an additional required payment is required only if the deferral period of the new applicable election year exceeds the deferral period of the former applicable election year.

[5] The Treasury Department is authorized to promulgate regulations that provide for the application of the required payment rules if there is no taxable year of 12 months (or 52–53 weeks) of the partnership or S corporation that precedes the applicable election year. It is anticipated that these regulations will annualize the results of any short taxable year that is used as the base year.

[6] In the event that there are not 3 taxable years immediately preceding the base year, the provision is to apply based on the number of taxable years immediately preceding the base year.

[7] The Treasury Department is authorized to promulgate regulations that provide for the application of the minimum distribution requirement if there is no preceding taxable year of 12 months (or 52–53 weeks) of the personal service corporation. It is anticipated that these regulations will annualize the results of any short year that is taken into account for purposes of these rules.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5660 as passed by the House contains the same provision as included in the Senate amendment.)

SENATE AMENDMENT

The Senate amendment increases the rate of withholding on gambling winnings from 20 percent to 28 percent.

Effective date.—The provision is effective for payments made after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

3. Increase backup withholding rate

PRESENT LAW

Under section 3406, a payor is required to withhold on "reportable payments", such as interest and dividends, at a rate of 20 percent if: (i) the payee fails to furnish his TIN to the payor; (ii) the IRS notifies the payor that the payee's TIN is incorrect; (iii) a notified payee underreporting has occurred (as described in section 3406(c)); or (iv) a payee certification failure with respect to reportable payments has occurred (as described in section 3406(d)).

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment increases the rate of withholding with respect to backup withholding from 20 percent to 31 percent.

Effective date.—The amendment is effective for amounts paid after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

IV. SIMPLIFICATION PROVISIONS

A. PROVISIONS RELATING TO INDIVIDUALS

1. Rollover of gain on sale of a principal residence

PRESENT LAW

No gain is recognized on the sale of a principal residence if a new residence at least equal in cost to the sales price of the old residence is purchased and used by the taxpayer as his or her principal residence within a specified period of time (sec. 1034). This replacement period generally begins two years before and ends two years after the date of sale of the old residence. The basis of the replacement residence is reduced by the amount of any gain not recognized on the sale of the old residence by reason of section 1034.

In general, nonrecognition treatment is available only once during any two-year period. In addition, if the taxpayer purchases more than one residence during the replacement period and such residences are each used as the taxpayer's principal residence within two years after the date of sale of the old residence, only the last residence so used is treated as the replacement residence.

Special rules apply, however, if residences are sold in order to relocate for employment reasons. First, the number of times nonrecognition treatment is available during a two-year period is not limited. Second, if a residence is sold within two years after the sale of the old residence, the residence sold is treated as the last residence used by the taxpayer and thus as the only replacement residence.

The determination whether property is used by a taxpayer as a principal residence depends upon all the facts and circumstances in each case, including the good faith of the taxpayer. No safe harbor is provided for sales of principal residences incident to divorce or marital separation.

HOUSE BILL

Multiple rollovers

Under the House bill, gain is rolled over from one residence to another residence in the order the residences are purchased and used, regardless of the taxpayer's reasons for the sale of the old residence. In addition, gain may be rolled over more than once within a two-year period. Thus, the rules that formerly applied only if a taxpayer sold his residence in order to relocate for employment purposes will apply in all cases. As under present law, the basis of each succeeding residence is reduced by the amount of gain not recognized on the sale of the prior residence.

Effective date.—The provision applies to sales of old residences (within the meaning of section 1034) after the date of enactment.

Rollovers in the case of divorce or separation

The House bill provides a safe harbor in the determination of principal residence in certain cases incident to divorce or marital separation. Specifically, the bill provides that a residence is treated as the taxpayer's principal residence at the time of sale if (1) the residence is sold pursuant to a divorce or marital separation and (2) the taxpayer used such residence as his or her principal residence at any time during the two-year period ending on the date of sale.

Effective date.—The provision applies to sales of old residences (within the meaning of section 1034) after the date of enactment.

Rollovers in the case of frozen assets

No provision. (However, H.R. 5639 as passed by the House contains a provision similar to the Senate amendment.)

SENATE AMENDMENT

Multiple rollovers

No provision.

Rollovers in the case of divorce or separation

The Senate amendment is the same as the House bill.

Rollovers in the case of frozen assets

The Senate amendment suspends the running of the two-year period after the date of sale of the old residence (referred to in sec. 1034 (a) and (c) other than (c)(4)) during any time that the taxpayer has frozen deposits during the two-year period beginning on the date of sale of the old residence. The period as suspended may not extend beyond the date that is four years after the date of sale of the old residence. A taxpayer is treated as having frozen deposits if the taxpayer's deposit in a financial institution may not be withdrawn due to: (1) the bankruptcy or insolvency of the financial institution or, (2) any requirement imposed by the State in which the financial institution is located by reason of the bankruptcy or insolvency (or threat thereof) of one or more financial institutions located in the State.

For purposes of this provision, the taxpayer and the taxpayer's spouse are treated as one taxpayer if the old residence and the new residence are each used by the taxpayer and the taxpayer's spouse as their principal residence.

Effective date.—The provision relating to frozen assets applies to any residence sold or exchanged after December 31, 1990, and any residence sold or exchanged before that date if the two-year rollover period had not expired before January 1, 1991.

CONFERENCE AGREEMENT

Multiple rollovers

The conference agreement follows the House bill.

Rollovers in the case of divorce and separation

The conference agreement follows the House bill and the Senate amendment.

Rollovers in the case of frozen assets

The conference agreement generally follows the Senate amendment, with the following modifications. The suspension of the running of the two-year period is triggered if the taxpayer has substantial frozen deposits during the two-year period beginning on the date of sale of the old residence. A taxpayer is treated as having substantial frozen deposits if the taxpayer's deposit in a financial institution may not be withdrawn for a period of at least five days due to: (1) the bankruptcy or insolvency of the financial institution or, (2) any requirement imposed by the State in which the financial institution is located by reason of the bankruptcy or insolvency (or threat thereof) of one or more financial institutions located in the State.

The aggregate amount of frozen deposits must exceed 50 percent of the adjusted sales price (under Code sec. 1034(b)) of the old residence less the amount of any indebtedness of the taxpayer which was secured by the old residence.

2. De minimis exception to passive loss rules

PRESENT LAW

The passive loss rules limit deductions and credits from passive trade or business activities. Deductions from passive activities, to the extent they exceed income from passive activities, generally may not be deducted against other income, such as wages, portfolio income, or business income that is not from a passive activity. Deductions that are suspended under this rule are carried forward and treated as deductions from passive activities in the next year. The suspended losses from a passive activity are allowed in full when a taxpayer disposes of the entire interest in the passive activity to an unrelated person.

Passive activities are defined to include trade or business activities in which the taxpayer does not materially participate. Material participation requires a taxpayer to be involved in the operations of the activity on a regular, continuous and substantial basis.

Rental activities are also included in the definition of passive activities. A special rule permits the deduction of up to $25,000 of losses from certain rental real estate activities in which the taxpayer actively participates (even though the activities are considered passive) for taxpayers with adjusted gross incomes of $100,000 or less. This deduction is phased out for taxpayers with adjusted gross incomes between $100,000 and $150,000. A rental activity is defined as any activity where payments are principally for the use of tangible property.

HOUSE BILL

The House bill creates a $200 de minimis exception to the rule disallowing net passive activity losses. Under the exception, a taxpayer who is an individual and whose total net passive activity losses for the year do not exceed $200 for the taxable year generally may deduct such losses for the year. The exception also applies to estates for the first two taxable years following the decedent's death. Similarly to the present-law rules applicable to the $25,000 exception, the amount under the exception provided in the bill is $100 in the case of a married taxpayer filing a separate return, and the exception is not available in the case of a married taxpayer filing a separate return who does not live apart from his spouse at all times during the taxable year.

The $200 exception is available only for taxpayers with net passive activity losses totalling $200 or less; a taxpayer with $300 of passive losses for the year, for example, is not eligible for the $200 exception. The $200 exception is applied after determining the taxpayer's net passive activity loss for the year (which includes taking into account suspended losses from prior years), but before taking the $25,000 allowance for rental real estate. Thus, for example, if a taxpayer has $500 of losses from rental real estate, he is not eligible for the $200 exception but may be eligible for the $25,000 exception (assuming he otherwise meets the requirements of the $25,000 exception). In all other respects, the $200 exception is applied after all other applicable rules under the passive loss rule.

The $200 exception does not apply with respect to passive activity credits.

The $200 exception does not apply with respect to items from publicly traded partnerships, to which the passive loss rule has separate application under present law.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

3. Permit payment of taxes by credit card

PRESENT LAW

Payment of taxes may be made by checks or money orders, to the extent and under the conditions provided by regulations.

HOUSE BILL

The House bill permits payment of taxes by credit card, to the extent and under the conditions provided by regulations.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement generally follows the House bill, with a number of modifications.

In general

The Internal Revenue Service is engaged in a long-term modernization of its information systems, the Tax Systems Modernization (TSM) Program. This modernization is intended to address deficiencies in the current IRS information systems and to plan effectively for future information system needs and requirements. The systems changes are designed to reduce the burden on taxpayers, generate additional revenue through improved voluntary compliance, and achieve productivity gains throughout the IRS. One key element of this program is electronic filing of tax returns.

At the present time, increasing reliance is being placed upon electronic funds transfers for payment of obligations. In light of this, the Internal Revenue Service seeks to integrate these payment methods in its TSM program, including electronic filing of returns, as well as into its traditional collection functions. The conference agreement allows the IRS to accept electronic funds transfers, including those arising from credit cards and debit cards, for the payment of taxes. The IRS contemplates that it will proceed to negotiate contracts for these purposes with one or more private sector card systems.

Billing error resolution

In the course of processing these transactions, it will be necessary to resolve billing errors and other disputes. The Internal Revenue Code contains mechanisms for the determination of tax liability, defenses and other taxpayer protections, and the resolution of disputes with respect to those liabilities. The Truth-in-Lending Act contains provisions for determination of credit card liabilities, defenses and other consumer protections, and the resolution of disputes with respect to these liabilities.

The conference agreement excludes credit card issuers and processing mechanisms from the resolution of tax liability, but makes IRS subject to the Truth-in-Lending provisions insofar as those provisions impose obligations and responsibilities with regard to the "billing error" resolution process. It is not intended that consumers obtain additional ways to dispute their tax liabilities under the Truth-in-Lending provisions.

The conference agreement also specifically includes the use of debit cards in this provision and provides that the corresponding defenses and "billing error" provisions of the Electronic Fund Transfer Act will apply in a similar manner.

The conference agreement adds new section 6311(d)(3) to the Code. This section describes the circumstances under which section 161 of the Truth-in-Lending Act ("TILA") and section 908 of the Electronic Fund Transfer Act ("EFTA") apply to disputes that may arise in connection with payments of internal revenue taxes made by credit card or debit card. Subsections (A) through (C) recognize that "billing errors" relating to the credit card account, such as an error arising from a credit card transaction posted to a cardholder's account without the cardholder's authorization, an amount posted to the wrong cardholder's account, or an incorrect amount posted to a cardholder's account as a result of a computational error or numerical transposition, are governed by the billing error provisions of section 161 of TILA. Similarly, subsections 6311(d)(3) (A)–(C) provide that errors such as those described above which arise in connection with payments of internal revenue taxes made by debit card, are governed by section 908 of EFTA.

The Internal Revenue Code provides that refunds are only authorized to be paid to the person who made the overpayment (generally the taxpayer). Subsection 6311(d)(3)(E), however, provides that where a taxpayer is entitled to receive funds as a result of the correction of a billing error made under section 161 of TILA in connection with a credit card transaction, or under section 908 of EFTA in connection with a debit card transaction, the Internal Revenue Service is authorized to utilize the appropriate credit card or debit card system to initiate a credit to the taxpayer's credit card or debit card account. The Internal Revenue Service may, therefore, provide such funds through the taxpayer's credit card or debit card account rather than directly to the taxpayer.

On the other hand, subsections 6311(d)(3) (A)–(C) provide that any alleged error or dispute asserted by a taxpayer concerning the merits of the taxpayer's underlying tax liability or tax return is governed solely by existing tax laws, and is not subject to section 161 or section 170 of TILA, section 908 of EFTA, or any similar provisions of State law. Absent the exclusion from section 170 of TILA, in a collection action brought against the cardholder by the card issuer the cardholder might otherwise assert as a defense that the Internal Revenue Service had incorrectly computed his tax liability. A collection action initiated by a credit card issuer against the taxpayer/cardholder would be an inappropriate vehicle for the determination of a taxpayer's tax liability, especially since the United States would not be a party to such an action.

Similarly, without the exclusion from section 161 of TILA and section 908 of EFTA, a taxpayer could contest the merits of his tax liability by putting the charge which appears on the credit card bill in dispute. Pursuant to TILA or EFTA, the taxpayer's card issuer would have to investigate the dispute, thereby finding itself in the middle of a dispute between the Internal Revenue Service and the taxpayer. The conferees believe that it is improper to attempt to resolve tax disputes through the billing process. The conferees note that the taxpayer retains the traditional, existing remedies for resolving tax disputes, such as resolving the dispute administratively with the Internal Revenue Service, filing a petition with the Tax Court after receiving a statutory notice of deficiency, or paying the disputed tax and filing a claim for refund (and subsequently filing a refund suit if the claim is denied or not acted upon).

Creditor status

The Truth-in-Lending Act imposes various responsibilities and obligations on creditors. Although the definition of the term "creditor" set forth in 15 U.S.C. sec. 1602 is limited, and would generally not include the Internal Revenue Service, in the case of an open-end credit plan involving a credit card, the card issuer and any person who honors the credit card are, pursuant to 15 U.S.C. sec. 1602(f), creditors.

In addition, 12 CFR sec. 226.12(e) provides that the creditor must transmit a credit statement to the card issuer within 7 business days from accepting the return or forgiving the debt. The conferees are concerned that the response deadlines otherwise imposed by 12 CFR sec. 226.12(e), if applicable, would be difficult for the Internal Revenue Service to comply with (given the volume of payments the Service is likely to receive in peak periods). This could subject the Service to unwarranted damage actions.

Consequently, the conferees have generally provided an exception to creditor status for the Internal Revenue Service.

Privacy protections

The conference agreement also addresses privacy questions that arise from the IRS' participation in credit card processing systems. The conferees believe that taxpayers expect that the maximum possible protection of privacy will be accorded any transactions they have with the IRS. Accordingly, the conference agreement provides the greatest possible protection of taxpayers' privacy that is consistent with developing and operating an efficient tax administration system. The conferees expect that principle will be fully observed in the implementation of this provision.

A key privacy issue is the use and redisclosure of tax information by financial institutions for purposes unrelated to the processing of credit card charges, i.e., marketing and related uses. To accept credit card charges by taxpayers, the IRS will have to disclose tax information to financial institutions to obtain payment and to resolve billing disputes. To obtain payment, the IRS will have to disclose, at a minimum, information on the "credit slip," i.e., the dollar amount of the payment and the taxpayer's credit card number.

The resolution of billing disputes may require the disclosure of additional tax information to financial institutions. In most cases, providing a copy of the credit slip and verifying the transaction amount will be sufficient. Conceivably, financial institutions could require some information regarding the underlying liability even where the dispute concerns a "billing dispute" matter. This additional information would not necessarily be shared as widely as the initial payment data. In lieu of disclosing further information, the IRS may elect to allow disputed amounts to be charged back to the IRS and to reinstate the corresponding tax liability.

Credit card transaction information, including the identification of individual purchases, is routinely used by financial institutions for evaluating the creditworthiness of customers, determining the profitability of accounts, and targeting customers for offers of additional credit, banking services or other products. Additionally, some financial institutions may share such information with private credit bureaus who, in turn, may sell such information to direct mail marketers and others. The computerization of these records makes it very easy to extract subcategories of customers according to whatever particular profile is desired (*e.g.*, customers within a single zip code who make a specified dollar amount of purchases at certain stores).

Despite the language in most cardholder agreements that permits redisclosure of credit card transaction information, the public may be largely unaware of how widely that information is shared. Without use and redisclosure restrictions, taxpayers may discover that some traditionally confidential tax information might be widely disseminated to direct mail marketers and others.

The conferees intend that credit or debit card transaction information will generally be restricted to those uses necessary to process payments and resolve billing errors, as well as other purposes that are specified in the statute. The conference agreement directs the Secretary to issue published procedures on what constitutes authorized uses and disclosures. The conferees anticipate that the Secretary's published procedures will prohibit the use of transaction information for marketing tax-related services by the issuer or any marketing that targets only those who use their credit card to pay their taxes. The conferees also anticipate that the published procedures will prohibit the sale of transaction information to a third party.

Effective date

The provision is effective nine months after the date of enactment. The IRS may, in this interim period, conduct internal tests and negotiate with card issuers, but may not accept credit or debit cards for payment of tax liability.

4. Election by parent to claim unearned income of certain children on parent's return

PRESENT LAW

The net unearned income of a child under 14 years of age is taxed to the child at the parents' statutory rate. Net unearned income means unearned income less the sum of $600 and the greater of: (1) $600 or, (2) if the child itemizes deductions, the amount of allowable deductions directly connected with the production of the unearned income. The dollar amounts are adjusted for inflation.

In certain circumstances, a parent may elect to include a child's unearned income on the parent's income tax return if the child's income is less than $5,000. A parent making this election must include the gross income of the child in excess of $1,000 in income for the taxable year. In addition, the parent must report an additional tax liability equal to the lesser of (1) $75 or (2) 15 percent of the excess of the child's income over $500. The dollar amounts for the election are not adjusted for inflation.

A person claimed as a dependent cannot claim a standard deduction exceeding the greater of $600 or such person's earned income. For alternative minimum tax purposes, the exemption of a child under 14 years of age generally cannot exceed the sum of such child's earned income plus $1,000. The $600 amount is adjusted for inflation but the $1,000 amount is not.

HOUSE BILL

The House bill adjusts for inflation the dollar amounts involved in the election to claim unearned income on the parent's return. It likewise indexes the $1,000 amount used in computing the child's alternative minimum tax.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

5. Simplified foreign tax credit limitation for individuals

PRESENT LAW

In order to compute the foreign tax credit, a taxpayer computes foreign source taxable income and foreign taxes paid in each of the applicable separate foreign tax credit limitation categories. In the case of an individual, this requires the filing of IRS Form 1116, designed to elicit sufficient information to perform the necessary calculations.

In many cases, individual taxpayers who are eligible to credit foreign taxes may have only a modest amount of foreign source gross income, all of which is income from investments (e.g., dividends from a foreign corporation subject to foreign withholding taxes or dividends from a domestic mutual fund that can pass through its foreign taxes to the shareholder (see sec. 853)). Taxable income of this type ordinarily is subject to the single foreign tax credit limitation category known as passive income. However, under certain circumstances, the Code treats investment-type income (e.g., dividends and interest) as income in several other separate limitation categories (e.g., high withholding tax interest income, general limitation income) designed to accomplish certain policy objectives or forestall certain abuses. For this reason, any taxpayer with foreign source gross income is required to provide sufficient detail on Form 1116 to ensure that foreign source taxable income from investments, as well as all other foreign source taxable income, is allocated to the correct limitation category.

HOUSE BILL

The House bill allows individuals with no more than $200 of creditable foreign taxes, and no foreign source income other than income that is in the passive basket, to elect a simplified foreign tax credit limitation equal to the lesser of 25 percent of the individual's foreign source gross income or the amount of the creditable foreign taxes paid or accrued by the individual during the taxable year. (It is intended that an individual electing this simplified limitation calculation not be required to file Form 1116 in order to obtain the benefit of the credit.) A person who elects the simplified foreign tax credit limitation is not allowed a credit for any foreign tax not shown on a payee statement (as that term is defined in sec. 6724(d)(2)) furnished to him or her. Nor is the person entitled to treat any excess credits for a taxable year to which the election applied as a carryover to another taxable year. Because the limitation for a taxable year to which the election applies can be no more than the creditable foreign taxes actually paid for the taxable year, it is also the case under the House bill that no excess credits from another year can be carried over to the taxable year to which the election applies.

For purposes of the simplified limitation, passive income generally is defined to include all types of income that would be foreign personal holding company income under the subpart F rules, plus income inclusions from passive foreign corporations (as defined by the House bill), so long as the income is shown on a payee statement furnished to the individual. Thus, for purposes of the simplified limitation, passive income includes all dividends, interest (and income equivalent to interest), royalties, rents, and annuities; net gains from dispositions of property giving rise to such income; net gains from certain commodities transactions; and net gains from foreign currency transactions that give rise to foreign currency gains and losses as defined in section 988. The statutory exceptions to treating these types of income as passive for foreign tax credit limitation purposes, such as the exceptions for high-taxed income and high-withholding-tax interest, are not applicable in determining eligibility to use the simplified limitation.

Although an estate or trust generally computes taxable income and credits in the same manner as in the case of an individual (Code sec. 641(b); Treas. Reg. sec. 1.641(b)(1)), the simplified limitation does not apply to an estate or trust.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, with one modification.

Under the Senate amendment, the simplified foreign tax credit limitation is available to married individuals filing joint tax returns with up to $400 of creditable foreign taxes, and no foreign source income other than income that is in the passive basket.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Personal transactions by individuals in foreign currency

PRESENT LAW

When a U.S. taxpayer with a U.S. dollar functional currency makes a payment in a foreign currency, gain or loss (referred to as "exchange gain or loss") arises from any change in the value of the foreign currency relative to the U.S. dollar between the time the currency was acquired (or the obligation to pay was incurred) and the time that the payment is made. Gain or loss results because foreign currency, unlike the U.S. dollar, is treated as property for Federal income tax purposes.

Exchange gain or loss can arise in the course of a trade or business or in connection with an investment transaction. Exchange gain or loss can also arise where foreign currency was acquired for personal use. For example, the IRS has ruled that a taxpayer who converts U.S. dollars to a foreign currency for personal use—while traveling abroad—realizes exchange gain or loss on reconversion of appreciated or depreciated foreign currency (Rev. Rul. 74-7, 1974-1 C.B. 198).

Prior to the Tax Reform Act of 1986 (the "1986 Act"), most of the rules for determining the Federal income tax consequences of foreign currency transactions were embodied in a series of court cases and revenue rulings issued by the Internal Revenue Service ("IRS"). Additional rules of limited application were provided by Treasury regulations and, in a few instances, statutory bills. Pre-1986 law was believed to be unclear regarding the character, the timing of recognition, and the source of gain or loss due to fluctuations in the exchange rate of foreign currency. The result of prior law was uncertainty of tax treatment for many legitimate transactions, as well as opportunities for tax-motivated transactions. Therefore, in 1986 Congress determined that a comprehensive set of rules should be provided for the U.S. tax treatment of transactions involving "nonfunctional currencies;" that is, currencies other than the taxpayer's "functional currency."

However, the 1986 Act provisions designed to clarify the treatment of currency transactions, primarily found in section 988, apply to transactions entered into by an individual only to the extent that expenses attributable to such transactions would be deductible under section 162 (as a trade or business expense) or section 212 (as an expense of producing income, other than expenses incurred in connection with the determination, collection, or refund of taxes). Therefore, the principles of pre-1986 law continue to apply to personal currency transactions.[1]

HOUSE BILL

In a case where an individual acquires nonfunctional currency and then disposes of it in a personal transaction, and where exchange rates have changed in the intervening period, the House bill provides for nonrecognition of an individual's resulting exchange gain not exceeding $200. The House bill does not change the treatment of resulting exchange losses. It is understood that under other Code provisions, such losses typically are not deductible by individuals (e.g., sec. 165(c)).

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

7. Tax treatment of certain combat pay

PRESENT LAW

Exclusion for combat pay

Gross income does not include certain combat pay of members of the Armed Forces (Code sec. 112). If enlisted personnel serve in a combat zone during any part of any month, military pay for that month is excluded from gross income. In addition, if enlisted personnel are hospitalized as a result of injuries, wounds, or disease incurred in a combat zone, military pay for that month is also excluded from gross income; this exclusion is limited, however, to hospitalization during any month beginning not more than two years after the end of combat in the zone. In the case of commissioned officers, these exclusions from income are limited to $500 per month of military pay.

With respect to service in the combat zone designated for purposes of the Vietnam conflict, the exclusion from income for compensation while hospitalized does not apply to any month after January 1978.

Income tax withholding

There is no income tax withholding with respect to military pay for a month in which a member of the Armed Forces of the United States is entitled to the benefits of section 112 (sec. 3401(a)(2)). With respect to enlisted personnel, this income tax withholding rule parallels the exclusion from income under section 112: there is total exemption from income tax withholding and total exclusion from income. With respect to officers, however, the withholding rule is not parallel: there is total exemption from income tax withholding, although the exclusion from income is limited to $500 per month.

Combat zone designation for Persian Gulf

On January 21, 1991, President Bush signed Executive Order 12744, designating the Persian Gulf Area as a combat zone. The designation was retroactive to January 17, 1991, and continues in effect until termination by another Executive Order.

POWs/MIAs

Treasury regulations provide that a member of the Armed Forces in active service in a combat zone who becomes a prisoner of war or missing in action is deemed to continue in active service for the period for which the member is entitled to prisoner-of-war or missing-in-action status for military pay purposes (Treas. Reg. sec. 1.112-1(i)).

In the case of the Vietnam conflict only, members of the Armed Forces and civilian employees of the Federal Government may claim an exclusion from income for all their active service compensation for any month during any part of which they are in "missing status." In order to be classified in "missing status," a person must be in active service and officially determined to be (1) missing, (2) missing in action, (3) interned in a foreign country, (4) captured, beleaguered, or besieged by a hostile force or (5) detained in a foreign country against his or her will. A person absent from his or her post of duty without authorization is not eligible for the "missing status" exclusion.

HOUSE BILL

Increase combat pay exclusion for commissioned officers

No provision.

Exclude military pay of Persian Gulf POWs/MIAs from gross income

No provision.

Clarify tax treatment for service in Vietnam

No provision.

Make income tax withholding rules parallel to rules for exclusion from income for combat pay

The House bill makes the income tax withholding exemption rules parallel to the rules providing an exclusion from income for combat pay.

Effective date.—The provision is effective as of January 1, 1993.

SENATE AMENDMENT

Increase combat pay exclusion for commissioned officers

The Senate amendment increases the exclusion from income in the case of commissioned officers to $2,000 per month of military pay. For taxable years beginning after December 31, 1994, the $2,000 amount will be indexed for inflation (with rounding to the nearest $50).

Effective date.—The provision is effective for service in a combat zone after December 31, 1993.

Exclude military pay of Persian Gulf POWs/MIAs from gross income

The Senate amendment extends the exclusion from income for those in "missing status" to members of the Armed Forces and civilian employees of the Federal Government in "missing status" as a result of the Persian Gulf conflict.

Effective date.—The provision applies to compensation for services performed on or after January 1, 1991.

Clarify tax treatment for service in Vietnam

For purposes of the exclusion from income for combat pay, the Senate amendment treats May 7, 1975, as the date of termination of combatant activities in the combat zone designated for purposes of the Vietnam conflict.

No change is made to the exclusion from income for active service compensation for members of the Armed Forces and civilian employees of the Federal Government for any month during any part of which they are in "missing status" as a result of the Vietnam conflict.

Effective date.—The provision is effective as of the date of enactment.

Make income tax withholding rules parallel to rules for exclusion from income for combat pay

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

Increase combat pay exclusion for commissioned officers

The conference agreement follows the Senate amendment.

Exclude military pay of Persian Gulf POWs/MIAs from gross income

The conference agreement follows the Senate amendment.

Clarify tax treatment for service in Vietnam

The conference agreement follows the Senate amendment.

Make income tax withholding rules parallel to rules for exclusion from income for combat pay

The conference agreement follows the House bill and the Senate amendment.

8. Expanded access to simplified income tax returns

PRESENT LAW

There are three principal tax forms that are utilized by individual taxpayers: Form 1040EZ, Form 1040A, and Form 1040.

HOUSE BILL

The House bill provides that the Secretary of the Treasury (or his delegate) shall take such actions as may be appropriate to expand access to simplified individual income tax forms and otherwise to simplify the individual income tax returns.

The bill also requires that the Secretary submit a report to the Congress on the actions undertaken pursuant to this bill, together with any recommendations he may deem advisable.

---

[1] See, e.g., Rev. Rul. 90-79, 1990-2 C.B. 187 (where the taxpayer purchased a house in a foreign country, financed by a foreign currency loan, and the currency appreciates before the house is sold and the loan is repaid, the taxpayer's exchange loss on repayment of the loan is not deductible under sec. 165 and does not offset taxable gain on the sale of the house).

Effective date.—The report is due no later than one year after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill. In addition, the Senate amendment specifies that the Secretary study expanding access to Form 1040A.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

9. Simplification of tax treatment of rural letter carriers' vehicle expenses

PRESENT LAW

A taxpayer who uses his or her automobile for business purposes may deduct the business portion of the actual operation and maintenance expenses of the vehicle, plus depreciation (subject to the limitations of sec. 280F). If the taxpayer is an employee and these expenses are not reimbursed, the deduction is subject to the two-percent floor. Alternatively, the taxpayer may elect to utilize a standard mileage rate in computing the deduction allowable for business use of an automobile that has not been fully depreciated. Under this election, the taxpayer's deduction equals the applicable rate multiplied by the number of miles driven for business purposes and is taken in lieu of deductions for depreciation and actual operation and maintenance expenses.

An employee of the U.S. Postal Service may compute his or her deduction for business use of an automobile in performing services involving the collection and delivery of mail on a rural route by using, for all business use mileage, 150 percent of the standard mileage rate.

HOUSE BILL

The House bill repeals the special rate of 150 percent of the standard mileage rate. In its place, the bill provides that the rate of reimbursement provided by the Postal Service to rural letter carriers is considered to be equivalent to their expenses. The rate of reimbursement that is considered to be equivalent to their expenses is the rate of reimbursement contained in the 1991 collective bargaining agreement, which may in the future be increased by no more than the rate of inflation.

Effective date.—The provision is effective for taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate agreement.

10. Simplification of earned income tax credit

PRESENT LAW

Eligible low-income workers are able to claim a refundable earned income tax credit (EITC) of up to 17.6 percent of the first $7,520 of earned income for 1992 (18.4 percent for taxpayers with more than one qualifying child). The maximum amount of credit for 1992 is $1,324 ($1,384 for taxpayers with more than one qualifying child). This maximum credit is reduced by 12.57 percent of earned income (or adjusted gross income, if greater) in excess of $11,840 (13.14 percent for taxpayers with more than one qualifying child). The EITC is totally phased out for workers with earned income (or adjusted gross income, if greater) over $22,370. The maximum amount of earned income on which the EITC may be claimed and the income threshold for the phaseout of the EITC are indexed for inflation. Earned income consists of wages, salaries, other employee compensation, and net self-employment income.

The credit rates for the EITC change over time under present law, as shown in the following table.

Year	One qualifying child—		Two or more qualifying children—	
	Credit rate	Phase-out rate	Credit rate	Phase-out rate
1992	17.6	12.57	18.4	13.14
1993	18.5	13.21	19.5	13.93
1994 and after	23.0	16.43	25.0	17.86

A supplemental young child credit is available to taxpayers with qualifying children under the age of one year. This young child credit rate is 5 percent and the phase-out rate is 3.57 percent. It is computed on the same income base as the ordinary EITC. The maximum supplemental young child credit for 1992 is $376. If a taxpayer claims the supplemental young child credit, the child that qualifies the taxpayer for such credit is not a qualifying individual for purposes of the dependent care tax credit (sec. 21).

A supplemental health insurance credit is available to taxpayers who provide health insurance coverage for their qualifying children. This health insurance credit rate is 6 percent and the phase-out rate is 4.285 percent. It is computed on the same income base as the ordinary EITC, but the credit claimed cannot exceed the out-of-pocket cost of the health insurance coverage. In addition, the taxpayer is denied an itemized deduction for medical expenses of qualifying insurance coverage up to the amount of credit claimed. The maximum supplemental health insurance credit for 1992 is $451.

HOUSE BILL

The House bill repeals the supplemental young child credit and the supplemental health insurance credit and increases the basic EITC rate for taxpayers with two or more qualifying children as shown in the following table.

Year	One qualifying child—		Two or more qualifying children—	
	Credit rate	Phase-out rate	Credit rate	Phase-out rate
1992	17.6	12.57	22.2	15.84
1993	18.5	13.21	23.3	16.64
1994 and after	23.0	16.43	28.8	20.58

Effective date.—The provision is effective for taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment permits taxpayers to include all health insurance expenses as medical expenses, subject to the 7.5 percent of adjusted gross income floor on deductible medical expenses, regardless of whether these expenses had been used to claim the health insurance component of the EITC. The amendment also permits a self-employed taxpayer to claim the allowable deduction for health insurance costs and to use the full amount of these expenses that are related to coverage of dependent children to claim the health insurance component of the EITC.

The Senate amendment also permits taxpayers with a qualifying child under the age of 1 year to claim both the young child supplemental EITC and the dependent care tax credit for expenses related to care of the qualifying child.

Effective date.—Same as the House bill.

CONFERENCE AGREEMENT

The conference agreement generally follows the Senate amendment with the provision effective for taxable years beginning after December 31, 1992.

11. Extension of the earned income tax credit to military personnel stationed overseas

PRESENT LAW

Eligible low-income workers are able to claim a refundable earned income tax credit (EITC) of up to 17.6 percent of the first $7,520 of earned income for 1992 (18.4 percent for taxpayers with more than one qualifying child). The maximum amount of credit for 1992 is $1,324 ($1,384 for taxpayers with more than one qualifying child). This maximum credit is reduced by 12.57 percent of earned income (or adjusted gross income, if greater) in excess of $11,840 (13.14 percent for taxpayers with more than one qualifying child). The EITC is totally phased out for workers with earned income (or adjusted gross income, if greater) over $22,370. The maximum amount of earned income on which the EITC may be claimed and the income threshold for the phaseout of the EITC are indexed for inflation. Earned income consists of wages, salaries, other employee compensation, and net self-employment income.

The credit rates for the EITC change over time under present law, as shown in the following table.

Year	One qualifying child—		Two or more qualifying children—	
	Credit rate	Phase-out rate	Credit rate	Phase-out rate
1992	17.6	12.57	18.4	13.14
1993	18.5	13.21	19.5	13.93
1994 and after	23.0	16.43	25.0	17.86

In order to claim the EITC, a taxpayer must have at least one qualifying child. A qualifying child must meet a relationship test, an age test, and a residence test. Part of the residence test requires that a qualifying child must have the same principal place of abode as the taxpayer, and that this principal place of abode must be located in the United States.

A supplemental young child credit is available to taxpayers with qualifying children under the age of one year. This young child credit rate is 5 percent and the phase-out rate is 3.57 percent. It is computed on the same income base as the ordinary EITC.

A supplemental health insurance credit is available to taxpayers who provide health insurance coverage for their qualifying children. This health insurance credit rate is 6 percent and the phase-out rate is 4.285 percent. It is computed on the same income base as the ordinary EITC, but the credit claimed cannot exceed the out-of-pocket cost of the health insurance coverage.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends the EITC to United States military personnel stationed overseas. For purposes of determining whether a qualifying child meets the residence test, a member of the military stationed outside the United States on extended active duty would be considered as maintaining a place of abode in the United States.

The Senate amendment also requires that military personnel receive annual reports of earned income (which includes amounts received as basic allowances for housing and subsistence). This increased information reporting is intended to allow military personnel claiming the EITC to more accurately determine the actual amount of EITC to which they are entitled.

Effective date.—Extension of the EITC to military personnel stationed overseas is effective for taxable years beginning after December 31, 1992. The increased information reporting is effective for remuneration paid after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

B. PENSION SIMPLIFICATION

1. Simplified distribution rules

PRESENT LAW

In general

Under present law, as amended by the Unemployment Compensation Amendments of 1992 (P.L. 102-318) (the Unemployment Act) for years after 1992, a distribution of benefits from a tax-favored retirement arrangement generally is includible in gross income in the year it is paid or distributed under the rules relating to the taxation of annuities. A tax-favored retirement arrangement includes (1) a qualified pension plan (sec. 401(a)), (2) a qualified annuity plan (sec. 403(a)), and (3) a tax-sheltered annuity (sec. 403(b)). Special rules apply in the case of lump-sum distributions from a qualified plan, distributions that are rolled over to an individual retirement arrangement (IRA), and employer-provided death benefits.

The Unemployment Act provides that any portion of a distribution from a qualified pension or annuity plan or a tax-sheltered annuity (other than a minimum required distribution) can be rolled over tax free to an individual retirement arrangement (IRA) or another qualified plan or annuity, unless the distribution is one of a series of substantially equal payments made (1) over the life or life expectancy of the participant (or the joint lives or life expectancies of the participant and his or her beneficiary), or (2) over a specified period of 10 years or more.

A plan must provide the participant the option of having an eligible rollover distribution transferred directly from the plan to an IRA or another plan. If the participant does not elect the direct transfer option, then withholding is required at a rate of 20 percent.

Special rules for lump-sum distributions

Lump-sum distributions from qualified plans and annuities are eligible for special 5-year forward income averaging. A taxpayer is permitted to make an election with respect to a lump-sum distribution received on or after the employee attains age 59½ to use 5-year forward income averaging under the tax rates in effect for the taxable year in which the distribution is made. Only one such election on or after age 59½ may be made with respect to any employee.

Special transition rules in the Tax Reform Act of 1986 are available with respect to an employee who attained age 50 before January 1, 1986. Under these rules, an individual, trust, or estate may elect to use 5-year forward income averaging (using present-law rates) or 10-year forward income averaging (using prior-law rates) with respect to a single lump-sum distribution, without regard to whether the employee has attained age 59½. In addition, an individual, trust, or estate receiving a lump-sum distribution with respect to such an employee may elect to retain the capital gains character of the pre-1974 portion of the lump-sum distribution (using a tax rate of 20 percent).

Under present law, a 15 percent excise tax is imposed on excess distributions from qualified plans (sec. 4980A). Excess distributions are aggregate distributions from qualified retirement plans made with respect to an individual during any calendar year to the extent the distributions exceed the greater of (1) $150,000, or (2) $112,500 (indexed). A special higher ceiling applies for purposes of determining excess distributions for any calendar year in which an individual receives a lump-sum distribution to which special 5- or 10-year forward income averaging applies. The higher ceiling is 5 times the otherwise applicable ceiling for the calendar year ($750,000 in 1992).

Employer-provided death benefits

Under present law, the beneficiary or estate of a deceased employee generally can exclude up to $5,000 in benefits paid by or on behalf of an employer by reason of the employee's death (sec. 101(b)).

Recovery of basis

Qualified plan distributions other than lump-sum distributions generally are includible in gross income in the year they are paid or distributed under the rules relating to taxation of annuities (sec. 402). Amounts received as an annuity generally are includible in income in the year received, except to the extent they represent the return of the recipient's investment in the contract (i.e., basis) (sec. 72). Under present law, a pro-rata basis recovery rule generally applies, so that the portion of any annuity payment that represents nontaxable return of basis is determined by applying an exclusion ratio equal to the employee's total investment in the contract divided by the total expected payments over the term of the annuity.

The total expected payments depend on the form of the payment, e.g., a single-life annuity, an annuity with payments guaranteed for a specified number of years, or a joint and survivor annuity. For example, if benefits are paid in the form of an annuity during the life of the employee, the expected payments are calculated by multiplying the annual payment amount by the employee's life expectancy on the annuity starting date. If benefits are paid in the form of a joint and survivor annuity, then the total expected return depends on the life expectancies of both the primary annuitant and the person who is to receive the survivor annuity. The IRS has issued tables of life expectancies that are used to calculate expected returns.

Under a simplified alternative method provided by the Internal Revenue Service (IRS) (Notice 88-118) for payments from or under qualified retirement arrangements, the taxable portion of qualifying annuity payments is determined under a simplified exclusion ratio method. Under the simplified method, the portion of each annuity payment that represents nontaxable return of basis is equal to the employee's total investment in the contract (including the $5,000 death benefit exclusion under section 101(b), to the extent applicable), divided by the number of anticipated payments listed in a table published by the IRS. The number of anticipated payments listed in the table is based on the employee's age on the annuity starting date. The simplified method is available if (1) the annuity payments depend on the life expectancy of the recipient (or the joint lives of the recipient and his or her beneficiary), and (2) the recipient is less than age 75 on the annuity starting date or there are fewer than 5 years of guaranteed payments under the annuity.

Under both the pro rata and simplified alternative methods, in no event can the total amount excluded from income as nontaxable return of basis be greater than the recipient's total investment in the contract.

Required distributions

Present law provides uniform minimum distribution rules generally applicable to all types of tax-favored retirement vehicles, including qualified plans and annuities, IRAs, and tax-sheltered annuities.

Under present law, a qualified plan is required to provide that the entire interest of each participant will be distributed beginning no later than the participant's required beginning date (sec. 401(a)(9)). The required beginning date is generally April 1 of the calendar year following the calendar year in which the plan participant or IRA owner attains age 70½.

HOUSE BILL

Eligible rollover distributions and trustee-to-trustee transfers

The House bill contains provisions relating to rollover and trustee-to-trustee transfers that are substantially the same as the provisions enacted in the Unemployment Act (other than the 20 percent withholding provision).

Special rules for lump-sum distributions

The bill repeals the special 5-year forward income averaging rule. The bill preserves the transition rules adopted in the Tax Reform Act of 1986.

Employer-provided death benefits

The bill repeals the exclusion from gross income of up to $5,000 in employer-provided death benefits.

Recovery of basis

Under the bill, the portion of an annuity distribution from a qualified retirement plan, qualified annuity, or tax-sheltered annuity that represents nontaxable return of basis generally is determined under a method similar to the present-law simplified alternative method provided by the Internal Revenue Service. Under the simplified method provided in the bill, the portion of each annuity payment that represents nontaxable return of basis generally is equal to the employee's total investment in the contract as of the annuity starting date, divided by the number of anticipated payments determined by reference to the age of the participant listed in the table set forth in the bill. The number of anticipated payments listed in the table is based on the employee's age on the annuity starting date. If the number of payments is fixed under the terms of the annuity, that number is to be used instead of the number of anticipated payments listed in the table.

The simplified method does not apply if the primary annuitant has attained age 75 on the annuity starting date unless there are fewer than 5 years of guaranteed payments under the annuity. If in connection with commencement of annuity payments, the recipient receives a lump-sum payment that is not part of the annuity stream, such payment is taxable under the rules relating to annuities (sec. 72) as if received before the annuity starting date, and the investment in the contract used to calculate the simplified exclusion ratio for the annuity payments is reduced by the amount of the payment. As under present law, in no event will the total amount excluded from income as nontaxable return of basis be greater than the recipient's total investment in the contract.

Minimum required distributions

No provision.

Effective dates

The provisions are generally effective for years beginning after December 31, 1992.

SENATE AMENDMENT

Eligible rollover distributions and trustee-to-trustee transfers

No provision.

Special rules for lump-sum distributions

The Senate amendment is the same as the House bill with respect to averaging. The Senate amendment modifies the operation of the tax on excess distributions.

Under the Senate amendment, the special higher ceiling (5 times the otherwise applicable ceiling) for purposes of determining the excise tax on excess distributions from qualified plans applies for any calendar year in which an individual receives a lump-sum distribution from a qualified plan, without regard to whether special 5- or 10-year forward income averaging applies. An individual can make such an election only once. The election is not available if the special higher ceiling applied to an individual in a taxable year prior to the effective date of the provision.

Employer-provided death benefits

The Senate amendment is the same as the House bill.

Recovery of basis

The Senate amendment is the same as the House bill.

Minimum required distributions

The Senate amendment modifies the rule that requires all participants in qualified plans to commence distributions by age 70½ without regard to whether the participant is still employed by the employer and generally replaces it with the rule in effect prior to the Tax Reform Act. Under the amendment, distributions generally are required to begin by April 1 of the calendar year following the later of (1) the calendar year in which the employee attains age 70½ or (2) the calendar year in which the employee retires. However, in the case of a 5-percent owner of the employer, distributions are required to begin no later than the April 1 of the calendar year following the year in which the 5-percent owner attains age 70½. Distributions from an IRA are required to begin no later than April 1 of the calendar year following the year in which the IRA owner attains age 70½.

In addition, in the case of an employee (other than a 5-percent owner) who retires in a calendar year after attaining age 70½, the Senate amendment generally requires the employee's accrued benefit to be actuarially increased to take into account the period after age 70½ in which the employee was not receiving benefits under the plan. Thus, under the amendment, the employee's accrued benefit is required to reflect the value of benefits that the employee would have received if the employee had retired at age 70½ and had begun receiving benefits at that time.

Effective date

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

Eligible rollover distributions and trustee-to-trustee transfers

The conference agreement does not contain the provisions in the House bill.

Special rules for lump-sum distributions

The conference agreement follows the House bill and the Senate amendment with respect to averaging, and the Senate amendment with respect to the modification of the excess distribution tax.

Employer-provided death benefits

The conference agreement follows the House bill and the Senate amendment.

Recovery of basis

The conference agreement follows the House bill and the Senate amendment.

Minimum required distributions

The conference agreement follows the Senate amendment.

Effective dates

The conference agreement follows the House bill and the Senate amendment.

2. Increased access to pension plans

a. Plans of small employers

PRESENT LAW

Under present law, certain employers (other than tax-exempt and governmental employers) can establish a simplified employee pension (SEP) for the benefit of their employees under which the employees can elect to have contributions made to the SEP or to receive the contributions in cash (sec. 408(k)(6)). If an employee elects to have contributions made on the employee's behalf to the SEP, the contribution is not treated as having been distributed or made available to the employee. In addition, the contribution is not treated as an employee contribution merely because the SEP provides the employee with such an election. Therefore, an employee is not required to include in income currently the amounts the employee elects to have contributed to the SEP. Elective deferrals under a SEP are to be treated in the same manner as elective deferrals under a qualified cash or deferred arrangement and, thus, are subject to the $8,728 (for 1992) cap on elective deferrals.

The election to have amounts contributed to a SEP or received in cash is available only if at least 50 percent of the employees of the employer elect to have amounts contributed to the SEP. In addition, such election is available for a taxable year only if the employer maintaining the SEP had 25 or fewer eligible employees at all times during the prior taxable year.

Under present law, elective deferrals under SEPs are subject to nondiscrimination standards. The amount eligible to be deferred as a percentage of each highly compensated employee's compensation (i.e., the deferral percentage) is limited by the average deferral percentage (based solely on elective deferrals) for all nonhighly compensated employees who are eligible to participate. The deferral percentage for each highly compensated employee (taking into account only the first $222,220 (indexed) of compensation) cannot exceed 125 percent of the average deferral percentage for all other eligible employees. Nonelective SEP contributions may not be combined with the elective SEP deferrals for purposes of this test. An employer may not make any other SEP contributions conditioned on elective SEP deferrals. If the 125-percent test is not satisfied, rules similar to the rules applicable to excess contributions to a cash or deferred arrangement are applied.

If any employee is eligible to make elective SEP deferrals, all employees satisfying the participation requirements must be eligible to make elective SEP deferrals. An employee satisfies the participation requirements if the employee (1) has attained age 21, (2) has performed services for the employer during at least 3 of the immediately preceding 5 years, and (3) received at least $363 (indexed) in compensation from the employer for the year. An employee can participate even though he or she is also a participant in one or more other qualified retirement plans sponsored by the employer. However, SEP contributions are added to the employer's contribution to the other plans on the participant's behalf in applying the limits on contributions and benefits (sec. 415).

HOUSE BILL

No provision.

SENATE AMENDMENT

Simplified employee pensions (SEPs)

The Senate amendment conforms the eligibility requirements for SEP participation to the rules applicable to pension plans generally by providing that contributions to a SEP must be made with respect to each employee who has at least one year of service with the employer.

The Senate amendment modifies the rules relating to salary reduction SEPs by providing that such SEPs may be established by employers with 100 or fewer employees. The Senate amendment also repeals the requirement that at least half of eligible employees actually participate in a salary reduction SEP.

The Senate amendment also provides that an employer is deemed to satisfy the nondiscrimination requirements applicable to salary reduction SEPs if the plan satisfies the safe harbor nondiscrimination rules applicable to qualified cash or deferred arrangements and employees are notified of the availability and features of the SEP.

PRIME ("private retirement incentives matched by employers") accounts

The Senate amendment creates another simplified retirement plan targeted to small businesses called the PRIME ("private retirement incentives matched by employers") account (new sec. 408(p)). A PRIME account is an individual retirement plan with respect to which employees can make salary reduction contributions of up to $3,000 per year, with a 100 percent employer match up to 3 percent of the employee's compensation contributed to the account. No nondiscrimination rules apply to PRIME accounts. Simplified reporting requirements apply. PRIME accounts are subject to the same spousal consent rules applicable to defined contribution plans.

Only employers who normally employ fewer than 100 employees and who do not maintain a qualified plan or a SEP may establish PRIME accounts for their employees. All employees of the employer who have at least one year of service and who are reasonably expected to work at least 1,200 hours during the year must be eligible to participate in the PRIME account. All contributions to an employee's PRIME account are fully vested. Additional early withdrawal penalties apply to preretirement withdrawals during the first 3 years of participation.

A common trust fund or common investment fund of PRIME account assets generally is treated as a common trust fund or common investment fund of assets of a trust exempt from taxation under section 501(a) which is described in section 401(a). Accordingly, PRIME accounts can be invested by financial organizations in collective investment funds to the same extent, and under the same conditions, as qualified retirement plans. Any load or other fees imposed by any financial organization maintaining a PRIME account must be reasonable.

Effective date

The provisions apply to years beginning after December 31, 1993.

CONFERENCE AGREEMENT

Simplified employee pensions

The conference agreement follows the Senate amendment, except that the conference agreement does not adopt the provision in the Senate amendment that modifies the 3-out-of-5 year SEP eligibility rules, and does not apply the section 401(k) safe harbor rule to salary reduction SEPs.

PRIME accounts

The conference agreement does not follow the Senate amendment.

b. Repeal of limitation on ability of nongovernmental tax-exempt employers to maintain cash or deferred arrangements

PRESENT LAW

Under present law, if a tax-qualified profit-sharing or stock bonus plan meets certain requirements, then an employee is not required to include in income any employer contributions to the plan merely because the employee could have elected to receive the amount contributed in cash (sec. 401(k)). Plans containing this feature are referred to as cash or deferred arrangements. Tax-exempt organizations are generally prohibited from establishing qualified cash or deferred arrangements. Because of this limitation, many of such employers are precluded from maintaining broad-based, funded, elective deferral arrangements for their employees.

HOUSE BILL

The House bill allows nongovernmental tax-exempt organizations to maintain cash or deferred arrangements. As under present law, the limitation on the amount that may be deferred by an individual participating in both a cash or deferred arrangement and another elective deferral arrangement applies.

Effective date.—The provision applies to nongovernmental tax-exempt organizations with respect to years beginning after December 31, 1992. The provision does not affect the ability of certain State and local government employers to maintain qualified cash or deferred arrangements that were adopted before May 6, 1986.

SENATE AMENDMENT

The Senate amendment is the same as the House bill. In addition, the Senate amendment clarifies that any organization, including an Indian tribe, previously denied eligibility on the ground that they are a tax-exempt organization (and not because they are a State or local government or agency or instrumentality thereof) is eligible to maintain a cash or deferred arrangement for its employees under the bill. As under present law, the limitation on the amount that may be deferred by an individual participating in both a cash or deferred arrangement and another elective deferral arrangement applies.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

c. Duties of master and prototype plan sponsors

PRESENT LAW

The Internal Revenue Service (IRS) master and prototype program is an administrative program under which trade and professional associations, banks, insurance companies, brokerage houses, and other financial institutions can obtain IRS approval of model retirement plan language and then make these preapproved plans available for adoption by their customers, investors, or association members. Rules regarding who can sponsor master and prototype programs, the prescribed format of the model plans, and other matters relating to the program are contained in revenue procedures and other administrative pronouncements of the IRS.

The IRS also maintains related administrative programs that authorize advance approval of model plans prepared by law firms and others, i.e., the regional prototype plan program and volume submitter program.

HOUSE BILL

The House bill authorizes the IRS to define the duties of organizations that sponsor master and prototype, regional prototype, and other preapproved plans, including mass submitters. These duties would become a condition of sponsoring preapproved plans. The bill is not intended to be interpreted as diminishing the IRS's administrative authority with respect to the master and prototype, regional prototype, or similar programs, including the authority to define who is eligible to sponsor prototype plans, or to create other rules relating to these programs. Rather, it is intended to create a system of sponsor accountability, subject to IRS monitoring, that will give adopters of master and prototype and other preapproved plans a level of protection, comparable to that in the regional prototype plan program, against failure of master and prototype and other plan sponsors to fulfill certain obligations.

The bill thus authorizes the IRS to prescribe duties of sponsors of prototype and other preapproved plans that include, but are not limited to, maintaining annually current lists of adopting employers and providing certain annual notices to adopting employers and to the IRS. While reflecting the IRS's own requirements in its regional prototype plan procedure, the bill does not require the IRS to mandate a master and prototype accountability system that is identical to the regional prototype plan procedure. The bill also authorizes the IRS to prescribe such other reasonable duties as are consistent with the objective of protecting adopting employers from a sponsor's failure to amend a plan in a timely manner or to communicate amendments or other notices required by the IRS's procedures.

The bill authorizes the IRS to define the duties of preapproved plan sponsors that relate to providing administrative services to the plans of adopting employers. This authorization is not intended to obligate sponsors to undertake the complete day-to-day administration of the plans they sponsor (although it does not preclude the IRS from mandating the performance of specific functions), but rather to protect employers against loss of qualification merely because they are unaware of the need to arrange for such services, or the unavailability of professional assistance from parties familiar with the sponsor's plan.

It is thus intended that, at a minimum, sponsors should (1) advise adopting employers that failure to arrange for administrative services to the plan may significantly increase the risk of disqualification and resulting sanctions, and (2) furnish employers with the name of firms that are familiar with the plan and can provide professional administrative service. This is not intended to preclude the sponsor from providing that service itself.

The bill should not be construed as creating fiduciary relationships or responsibilities under Title I of ERISA that would not exist in the absence of the provision.

To the extent deemed reasonably necessary to carry out the purposes of this provision of the bill, the Secretary is authorized to issue regulations that permit the relaxation of the anti-cutback rules contained in ERISA (sec. 204(g)) and the Code (sec. 411(d)(6)) when employers replace an individually designed plan with an IRS model plan, provided that the rights of participants to accrued benefits under the individually designed plan are not significantly impaired. This discretion will facilitate the shift by employers from individually designed plans to IRS model plans.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Nondiscrimination provisions

a. Simplification of nondiscrimination tests applicable under sections 401 (k) and (m)

PRESENT LAW

A profit-sharing or stock bonus plan, a pre-ERISA money purchase pension plan, or a rural cooperative plan may include a qualified cash or deferred arrangement (sec. 401(k)). Under such an arrangement, an employee may elect to have the employer make payments as contributions to a plan on behalf of the employee, or to the employee directly in cash. Contributions made at the election of the employee are called elective deferrals. The maximum annual amount of elective deferrals that can be made by an individual is $8,728 for 1992. This dollar limit is indexed annually for inflation. A special nondiscrimination test applies to cash or deferred arrangements.

The special nondiscrimination test applicable to elective deferrals under qualified cash or deferred arrangements is satisfied if the actual deferral percentage (ADP) for eligible highly compensated employees for a plan year is equal to or less than either (1) 125 percent of the ADP of all nonhighly compensated employees eligible to defer under the arrangement, or (2) the lesser of 200 percent of the ADP of all eligible nonhighly compensated employees or such ADP plus 2 percentage points. The ADP for a group of employees is the average of the ratios (calculated separately for each employee in the group) of the contributions paid to the plan on behalf of the employee to the employee's compensation.

Employer matching contributions and after-tax employee contributions under qualified defined contribution plans are subject to a special nondiscrimination test similar to the special nondiscrimination test applicable to qualified cash or deferred arrangements.

The special nondiscrimination test for employer matching contributions and after-tax employee contributions is satisfied for a plan year if the actual contribution percentage (ACP) for eligible highly compensated employees does not exceed the greater of (1) 125 percent of the ACP for all other eligible employees, or (2) the lesser of 200 percent of the contribution percentage for all other eligible employees, or such percentage plus 2 percentage points. The ACP for a group of employees for a plan year is the average of the ratios (calculated separately for each employee in the group) of the sum of matching and employee contributions on behalf of each such employee to the employee's compensation for the year.

To determine the amount of excess contributions and the employees to whom they are allocated, the elective deferrals of highly compensated employees are reduced in the order of their actual deferral percentage beginning with those highly compensated employees with the highest actual deferral percentages.

HOUSE BILL

Look-back rule

The House bill modifies the present-law nondiscrimination test applicable to elective deferrals and employer matching and after-tax employee contributions to require the use of the average deferral percentage for nonhighly compensated employees for the preceding plan year to be used in determining the permitted average deferral percentage for highly compensated employees for the current year. In the case of the first plan year of a qualified cash or deferred arrangement, the average deferral percentage for nonhighly compensated employees for the previous year is deemed to be 3 percent or, at the election of the employer, the average deferral percentage for the first plan year.

Safe harbor for cash or deferred arrangements

In general.—The bill adds alternative methods of satisfying the special nondiscrimination requirements applicable to elective deferrals and employer matching contributions. Under these safe harbor rules, a cash or deferred arrangement is treated as satisfying the actual deferral percentage test if the plan of which the arrangement is a part (or any other plan of the employer maintained with respect to the employees eligible to participate in the cash or deferred arrangement) meets (1) one of two contribution requirements and (2) a notice requirement. A plan satisfies the safe harbor with respect to matching contributions if (1) the plan meets the contribution and notice requirements under the safe harbor for cash or deferred arrangements and (2) the plan satisfies a special limitation on matching contributions. These safe harbors permit a plan to satisfy the special nondiscrimination tests through plan design, rather than through the testing of actual contributions.

Contribution requirements.—A plan satisfies the contribution requirements under the safe harbor rule for qualified cash or deferred arrangements if (1) the plan satisfies a matching contribution requirement or (2) the employer makes a nonelective contribution to a defined contribution plan of at least 3 percent of an employee's compensation on behalf of each nonhighly compensated employee who is eligible to participate in the arrangement without regard to whether the employee makes elective contributions under the arrangement.

A plan satisfies the matching contribution requirement if, under the arrangement: (1) the employer makes a matching contribution on behalf of each nonhighly compensated employee that is not less than (a) 100 percent of the employee's elective contributions up to 3 percent of compensation and (b) 50 percent of the employee's elective contributions from 3 to 5 percent of compensation; and (2) the level of match for highly compensated employees is not greater than the match rate for nonhighly compensated employees at any level of compensation.

Alternatively, if the matching contribution requirement is not satisfied at some level of employee compensation, the requirement is deemed to be satisfied if (1) the level of employer matching contributions does not increase as employee elective contributions increase and (2) the aggregate amount of matching contributions with respect to elective contributions up to that level of compensation at least equals the amount of matching contributions that would be made if matching contributions satisfied the percentage requirements. For example, the alternative test is satisfied if an employer matches 125 percent of an employee's elective contributions up to the first 3 percent of compensation, 25 percent of elective deferrals from 3 to 4 percent of compensation, and provides no match thereafter. This is because the employer match does not increase with the employee's contributions and the aggregate amount of matching contributions is at least equal to the matching contributions required under the general safe harbor rule.

Under the safe harbor, an employee's rights to employer matching contributions or nonelective contributions used to meet the contribution requirements are required to be 100-percent vested.

An arrangement does not satisfy the contribution requirements unless the requirements are met without regard to the permitted disparity rules (sec. 401(l)) and contributions used to satisfy the contribution requirements are not taken into account for purposes of determining whether an employer's plan satisfies the permitted disparity rules.

Employer matching and nonelective contributions used to satisfy the contribution requirements of the safe harbor rules are nonforfeitable and subject to the restrictions on withdrawals that apply to an employee's elective deferrals under a qualified cash or deferred arrangement (sec. 401(k)(2) (B) and (C)).

The matching or nonelective contribution safe harbor requirements are deemed satisfied if the employer maintains another qualified plan that meets such requirements.

Notice requirement.—The notice requirement is satisfied if each employee eligible to participate in the arrangement is given written notice within a reasonable period before any year of the employee's rights and obligations under the arrangement. This notice must be sufficiently accurate and comprehensive to apprise the employee of his or her rights and obligations and must be written in a manner calculated to be understood by the average employee eligible to participate.

Alternative method of satisfying special nondiscrimination test for matching contributions

The bill provides a safe harbor method of satisfying the special nondiscrimination test applicable to employer matching contributions. Under this safe harbor, a plan is treated as meeting the special nondiscrimination test if (1) the plan meets the contribution and notice requirements applicable under the safe harbor method of satisfying the special nondiscrimination requirement for qualified cash or deferred arrangements, and (2) the plan satisfies a special limitation on matching contributions.

The limitation on matching contributions is satisfied if (1) the matching contributions on behalf of any employee may not be made with respect to employee contributions or elective deferrals in excess of 6 percent of compensation and (2) the level of an employer's matching contribution does not increase as an employee's contributions or elective deferrals increase.

Effective date

The provision is effective for plan years beginning after December 31, 1992.

SENATE AMENDMENT

Look-back rule

The Senate amendment is the same as the House bill.

Safe harbor for cash or deferred arrangements

The Senate amendment is the same as the House bill.

Alternative method of satisfying special nondiscrimination test for matching contributions

The Senate amendment is the same as the House bill.

Distribution of excess contributions

Under the Senate amendment, the total amount of excess contributions is determined in the same manner as under present law, but the distribution of excess contributions is required to be made on the basis of the amount of contribution by, or on behalf of, each highly compensated employee. Thus, under the Senate amendment, excess contributions are deemed attributable first to those highly compensated employees who have made the greatest dollar amount of elective deferrals under the plan.

For example, assume that an employer maintains a qualified cash or deferred arrangement under section 401(k). Assume further that the actual deferral percentage ("ADP") for the eligible nonhighly compensated employees is 2 percent. In addition, assume the following facts with respect to the eligible highly compensated employees:

Employee	Compensation	Deferral	Deferral (percent)
A	$200,000	$7,000	3.5
B	200,000	7,000	3.5
C	70,000	7,000	10.0
D	70,000	5,250	7.5
E	70,000	2,100	3.0
F	70,000	1,750	2.5

Under these facts, the highly compensated employees' (A and B) ADP is 5 percent, which fails to satisfy the special nondiscrimination requirements.

Under present law, the highly compensated employees with the highest deferral percentages would have their deferrals reduced until the ADP of the highly compensated employees is 4 percent. Accordingly, C and D would have their deferrals reduced to $4,025 (i.e., a deferral percentage of 5.75 percent). Thus, the reduction under present law would be $2,975 for C and $1,225 for D, for a total reduction of $4,200.

Under the Senate amendment, the amount of the total reduction is calculated in the same manner as under present law so that the total reduction remains $4,200. However, this total reduction of $4,200 is allocated to highly compensated employees based on the employees with the largest contributions. Thus, A, B, and C would each be reduced by $1,400 from $7,000 to $5,600. The ADP test would not be performed again.

Effective date

The provision is effective for plan years beginning after December 31, 1993.

CONFERENCE AGREEMENT

Look-back rule

The conference agreement follows the House bill and the Senate amendment.

Safe harbor for cash or deferred arrangements

The conference agreement follows the House bill and the Senate amendment.

Alternative method of satisfying special nondiscrimination test for matching contributions

The conference agreement follows the House bill and the Senate amendment.

Distribution of excess contributions

The conference agreement follows the Senate amendment, but clarifies that it is intended that the modified distribution method also applies to excess contributions that are treated as distributed to an employee and then contributed by the employee to the plan (recharacterization). In addition, it is intended that the Secretary interpret and apply the section 401(k) and 401(m) nondiscrimination tests in a manner consistent with the modified distribution rule. For example, a plan will not fail to be a qualified cash or deferred arrangement merely because the plan fails to satisfy the section 401(k) nondiscrimination test after excess contributions are distributed or recharacterized under the modified distribution rule.

Effective date

The conference agreement follows the Senate amendment.

b. Definition of highly compensated employee and family aggregation rules

PRESENT LAW

In general

For purposes of the rules applying to qualified retirement plans under the Code, an employee, including a self-employed individual, is treated as highly compensated with respect to a year if, at any time during the year or the preceding year, the employee: (1) was a 5-percent owner of the employer; (2) received more than $93,518 in annual compensation from the employer; (3) received more than $62,345 in annual compensation from the employer and was one of the top-paid 20 percent of employees during the same year; or (4) was an officer of the employer who received compensation greater than $56,111. These dollar amounts are adjusted annually for inflation at the same time and in the same manner as the adjustments to the dollar limit on benefits under a defined benefit pension plan (sec. 415(d)). If, for any year, no officer has compensation in excess of $56,111 (indexed), then the highest paid officer of the employer for such year is treated as a highly compensated employee.

An employee is not treated as in the top-paid 20 percent, as an officer, or as receiving $93,518 or $62,345 solely because of the employee's status during the current year, unless such employee also is among the 100 employees who have received the highest compensation during the year.

Election to use simplified method

Employers are permitted to elect to determine their highly compensated employees under a simplified method. Under this method, an electing employer may treat employees who received more than $62,345 in annual compensation from the employer as highly compensated employees in lieu of applying the $93,518 threshold and without regard to whether such employees are in the top-paid group of the employer. This election is available only if at all times during the year the employer maintained business activities and employees in at least 2 geographically separate areas.

Family aggregation rules

A special rule applies with respect to the treatment of family members of certain highly compensated employees. Under the special rule, if an employee is a family member of either a 5-percent owner or 1 of the top 10 highly compensated employees by compensation, then any compensation paid to such family member and any contribution or benefit under the plan on behalf of such family member is aggregated with the compensation paid and contributions or benefits on behalf of the 5-percent owner or the highly compensated employee in the top 10 employees by compensation. Therefore, such family member and employee are treated as a single highly compensated employee. An individual is considered a family member if, with respect to an employee, the individual is a spouse, lineal ascendant or descendant, or spouse of a lineal ascendant or descendant of the employee.

Similar family aggregation rules apply with respect to the $228,860 limit on compensation that may be taken into account under a qualified plan (sec. 401(a)(17)) and for deduction purposes (sec. 404(l)). However, under such provisions, only the spouse of the employee and lineal descendants of the employee who have not attained age 19 are taken into account.

HOUSE BILL

The House bill replaces the present-law test for determining who is a highly compensated employee with a simplified test. The bill provides that an employee is highly compensated for a year if, at any time during the year or the preceding year, the employee (1) was a 5-percent owner of the employer, or (2) received compensation in excess of $62,345. This dollar amount is adjusted annually for inflation at the same time and in the same manner as the adjustments to the dollar limit on benefits under a defined benefit pension plan (sec. 415(d)). An employee is not treated as receiving $62,345 solely because of the employee's status during the current year, unless such employee also is among the 100 employees who have received the highest compensation during the year.

Under the bill, if no employee is treated as being highly compensated under the rules described above, then the employee with the highest compensation for the year is generally treated as a highly compensated employee. However, this rule does not apply in the case of a plan maintained by tax-exempt organization if the plan (1) provides a nonforfeitable right to 100 percent of an employee's accrued benefit, (2) covers a fair section of employees, determined on the basis of their compensation, and (3) was in effect on February 1, 1992, and at all times thereafter.

The bill repeals the family aggregation rules.

Effective date.—The provision is effective for years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment provides that an employee is highly compensated with respect to a year if the employee (1) was a 5-percent owner of the employer at any time during the year or the preceding year, or (2) had compensation for the preceding year in excess of the dollar limit for the preceding year. The dollar limit is $50,000 (indexed). The $50,000 threshold is adjusted for cost-of-living increases in the same manner as the limitations on contributions and benefits (sec. 415(d)). Under the Senate amendment, as under present law, the dollar limit in effect (i.e., the indexed value of $50,000) for 1992 is $62,345. For example, in determining whether an employee is highly compensated in 1993, the employee's compensation for 1992 would be compared to the 1992 dollar limit, i.e., $62,345.

Under the Senate amendment, if no employee is a 5-percent owner or has compensation in excess of $50,000 (indexed), then the highest paid officer for the year is treated as a highly compensated employee. This special rule does not apply for purposes of the nondiscrimination rules applicable to elective deferrals, matching contributions, and employee contributions (secs. 401(k) and (m)), and does not apply with respect to employees of tax-exempt organizations and State and local governments (sec. 457(e)(1)).

The Senate amendment repeals the family aggregation rules.

Effective date.—The provision is effective for years beginning after December 31, 1993, except that an employer may elect not to have the provision apply to years beginning in 1994.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that there are no exceptions from the special rule that provides that if no employee is a 5-percent owner or has compensation in excess of $50,000 (indexed), then the highest paid officer for the year is treated as a highly compensated employee.

Effective date.—The provision is effective for years beginning after December 31, 1993.

c. Election to treat base pay as compensation

PRESENT LAW

Present law provides a definition of compensation that is to be used for nondiscrimination testing purposes (sec. 414 (s)). Under this definition, compensation generally is defined as compensation used for purposes of the limits on contributions and benefits (sec. 415). Pursuant to statutory authority, final regulations provide alternative permissible definitions of compensation. The regulations permit certain items, such as bonuses and similar payments, to be excluded from the definition of compensation.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment permits an employer to elect to use base pay as a permissible definition of compensation for purposes of all provisions which specifically refer to section 414(s) of the Code. It is intended that base pay is defined generally as under Treasury regulations. Thus, subject to the applicable facts and circumstances, the employer could exclude from the definition of compensation, on a consistent basis, certain types of compensation, including (but not limited to) one or more of the following: any type of additional compensation for employees working outside their regularly scheduled duties (such as overtime pay, premiums for shift differential, and call-in premiums); bonuses; or reimbursements or other expense allowances, fringe benefits (cash and noncash), moving expenses, deferred compensation, and welfare benefits. It is intended that the resulting definition may not discriminate in favor of highly compensated employees. The election applies for purposes of all applicable provisions and to all employees, and may be revoked only with the consent of the Secretary.

Effective date.—The provision is effective for years beginning after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

d. Modification of additional participation requirements

PRESENT LAW

Under present law, a plan is not a qualified plan unless it benefits no fewer than the lesser of (a) 50 employees of the employer or (b) 40 percent of all employees of the employer (sec. 401(a)(26)). This requirements may not be satisfied by aggregating comparable plans, but may be applied separately to different lines of business of the employer. A line of business of the employer does not qualify as a separate line of business unless it has at least 50 employees.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that the minimum participation rule (sec. 401(a)(26)) applies only to defined benefit pension plans (not defined contribution plans). Under the Senate amendment, a defined benefit pension plan is not a qualified plan unless it benefits no fewer than the lesser of 25 employees or 40 percent of all employees of the employer. However, a plan maintained by an employer with only 2 employees must cover both. The excludable employee rule applies as under present law. As an illustration of the operation of the modification of the minimum participation rule, assume that an employer has 150 nonexcludable employees. Under present law, any plan of the employer is required to cover a minimum of 50 employees. Under the Senate amendment, any defined benefit plan of the employer is required to cover a minimum of 25 employees.

In the case of an employer with only 2 employees, the minimum participation rule under the Senate amendment is satisfied only if the plan covers both employees.

The Senate amendment provides that the requirement that a line of business has at least 50 employees does not apply in determining whether a plan satisfied the minimum participation rule on a separate line of business basis.

Effective date.—The provision is generally effective for years beginning after December 31, 1991. An employer may elect to have the provision apply as if it were included in section 1112(b) of the Tax Reform Act of 1986.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the conference agreement does not reduce the number of employees that must be covered under a plan in order to satisfy the minimum participation rule. Thus, under the conference agreement, in general, a defined benefit plan must benefit no fewer than the lesser of 50 employees or 40 percent of all employees of the employer.

Effective date.—The provision is effective for years beginning after December 31, 1991.

4. Miscellaneous pension simplification

a. Definition of leased employee

PRESENT LAW

An individual (a leased employee) who performs services for another person (the recipient) may be required to be treated as the recipient's employee for various employee benefit provisions, even if the individual is not a common law employee. This leased employee relationship may exist if the services are performed pursuant to an agreement between the recipient and a third person (the leasing organization) who is otherwise treated as the individual's employer (sec. 414(n)). The individual is to be treated as the recipient's employee only if the individual has performed services for the recipient on a substantially full-time basis for a year, and the services are of a type historically performed by employees in the recipient's business field.

An individual who otherwise would be treated as a recipient's leased employee will not be treated as such an employee if the individual participates in a safe harbor plan maintained by the leasing organization meeting certain requirements. This exception does not apply if more than 20 percent of an employer's nonhighly compensated workforce is leased.

HOUSE BILL

Under the House bill, the present-law "historically performed" test is replaced with a new rule defining who must be considered a leased employee. Under the bill, an individual is not considered a leased employee unless the services are performed under any significant direction or control by the service recipient. As under present law, the determination of whether someone is a leased employee is made after determining whether the individual is a common-law employee of the service recipient. Thus, an individual who is not a common-law employee of the service recipient may nevertheless be a leased employee of the service recipient. Similarly, the fact that a person is or is not found to perform services under the significant direction or control of the recipient for purposes of the employee leasing rules is not relevant in determining whether the person is or is not a common-law employee of the recipient for other tax purposes.

Whether services are performed by an individual under any significant direction or control by the service recipient depends on the facts and circumstances.

Effective date.—The provision is effective for years beginning after December 31, 1992, except that the changes do not apply to relationships that have been previously determined by an IRS ruling not to involve leased employees. In applying the leased employee rules to years beginning before the effective date, it is intended that the Secretary use a reasonable interpretation of the statute to apply the leasing rules to prevent abuse.

SENATE AMENDMENT

Under the Senate amendment, the present-law historically performed test is repealed and replaced with a new rule defining who must be considered a leased employee. This change is made because the proposed regulations under the leased employee rules (sec. 414(n)) are overly broad in defining who may be a leased employee. Under the provision, the proposed regulations are no longer valid. One of the principal purposes for adopting the new control test is to relieve the unnecessary hardship and uncertainty created for employers in these circumstances. It is intended that the Secretary interpret and apply the control test in a manner that is targeted to prevent clear abuses.

Under the provision, an individual is not considered a leased employee unless the individual is under the control of the recipient organization. The determination of whether an individual is controlled by the employer is based on all the facts and circumstances. Among the factors that are relevant in this determination are whether the recipient organization: (1) prescribes the individual's work methods; (2) supervises the individual; (3) sets the individual's working hours; and (4) sets the individual's level of compensation. Other factors that may be considered include those that are relevant for determining whether the employer is responsible for employment taxes on the compensation paid to the individual. The Secretary may designate other relevant factors. It is not necessary that all these factors indicate that the individual is under the control of the employer in order to find that such individual is a leased employee. Nor is it necessary that the recipient organization be responsible for employment taxes in order to find that the individual is a leased employee because, if the recipient organization is liable for employment taxes, the individual is an employee of the organization who generally must be taken into account. The provision does not alter the definition of a common-law employee, nor the rules that such employees are to be taken into account unless specifically excluded.

The changes made by this provision are not intended to broaden the scope of the leased employee rules. Thus, to the extent an individual is not a leased employee under present law, such employee generally will not be a leased employee under the provision. For example, in those specific situations where the Internal Revenue Service has ruled that service relationships do not involve "leased employees" under the test of present law requiring the services to be of a type historically performed, in the business field of the recipient, by employees, the recipients of those rulings may continue to rely on them.

Effective date.—The provision is effective for years beginning after December 31, 1983.

CONFERENCE AGREEMENT

The conference agreement generally follows the House bill. Under the conference agreement, as under the House bill, the present-law "historically performed" test is replaced with a new rule defining who must be considered a leased employee. Under the conference agreement, an individual is not considered a leased employee unless such services are performed under significant direction or control by the service recipient. As under present law, the determination of whether someone is a leased employee is made after determining whether the individual is a common-law employee of the service recipient. Thus, an individual who is not a common-law employee of the service recipient may nevertheless be a leased employee of the service recipient. Similarly, the fact that a person is or is not found to perform services under significant direction or control of the recipient for purposes of the employee leasing rules is not determinative of whether the person is or is not a common-law employee of the recipient.

Whether services are performed by an individual under significant direction or control by the service recipient depends on the facts and circumstances. Factors that are relevant in determining whether significant direction or control exists include whether the individual is required to comply with instructions of the service recipient about when, where, and how he or she is to perform the services, whether the services must be performed by a particular person, whether the individual is subject to the supervision of the service recipient, and whether the individual must perform services in the order or sequence set by the service recipient. Factors that would generally not be relevant in determining whether such direction or control exists include whether the service recipient has the right to hire or fire the individual and whether the individual works for others.

For example, an individual who works under the direct supervision of the service recipient would be considered to be subject to significant direction or control of the service recipient even if another company hired and trained the individual, had the ultimate (but unexercised) legal right to control the individual, paid his wages, withheld his employment and income taxes, and had the exclusive right to fire him. Thus, for example, temporary secretaries, receptionists, word processing personnel and similar office personnel who are subject to the day-to-day control of the employer in essentially the same manner as a common law employee are treated as leased employees if the period of service threshold is reached.

On the other hand, an individual who is a common-law employee of Company A who performs services for Company B on the business premises of the Company B under the supervision of Company A would generally not be considered to be under significant direction or control of Company B. The supervision by Company A must be more than nominal, however, and not merely a mechanism to avoid the literal language of the direction or control test.

An example of the situation in the preceding paragraph might be a work crew that comes into a factory to install, repair, maintain, or modify equipment or machinery at the factory, and that includes a supervisor who is an employee of the equipment (or equipment repair) company and who has the authority to direct and control the crew, and who actually does exercise such direction and control. In this situation, the supervisor and his or her crew are not the leased employees of the manufacturer, even if the supervisor is in frequent communication with the employees of the manufacturer and even if the supervisor and his or her crew are required to comply with the safety and environmental precautions of the manufacturer.

Under the direction or control test, clerical and similar support staff (e.g., secretaries and nurses in a doctor's office) generally would be considered to be subject to significant direction or control of the service recipient and would be leased employees provided the other requirements of section 414(n) are met. On the other hand, outside professionals who maintain their own businesses (e.g., lawyers and accountants) generally would not be considered to be subject to such primary control. However, the Secretary is encouraged to continue efforts to prevent abuses in the leased manager area.

In many cases, the "historically performed" test is overly broad, and results in the unintended treatment of individuals as leased employees. One of the principal purposes for changing the leased employee rules is to relieve the unnecessary hardship and uncertainty created for employers in these circumstances. However, it is not intended that the direction or control test enable employers to engage in abusive practices. Thus, it is intended that the Secretary interpret and apply the leased employee rules in a manner so as to prevent abuses. This ability to prevent abuses under the leasing rules is in addition to the present-law authority of the Secretary under section 414(o). For example, one potentially abusive situation exists where the benefit arrangements of the service recipient overwhelmingly favor its highly compensated employees, the employer has no or very few nonhighly compensated common-law employees, yet the employer makes substantial use of the services of nonhighly compensated individuals who are not its common-law employees.

Effective date.—The provision is effective for years beginning after December 31, 1992, except that the changes do not apply to relationships that have been previously determined by an IRS ruling not to involve leased employees. In applying the leased employee rules to years beginning before the effective date, it is intended that the Secretary use a reasonable interpretation of the statute to apply the leasing rules to prevent abuse. Relationships that would not be treated as involving leased employees under the standard adopted in the conference agreement are conclusively presumed to be nonabusive.

b. Cost-of-living adjustments

PRESENT LAW

The rules relating to qualified plans contain a number of dollar limits that are indexed annually for cost-of-living adjustments (e.g., the dollar limit on benefits under a defined benefit plan (sec. 415(b)), the limit on elective deferrals under a qualified cash or deferred arrangement (sec. 402(g)), and the dollar amounts used in determining highly compensated employees (sec. 414(q)). The Secretary publishes annually a list of the amounts applicable under each provision for the year.

HOUSE BILL

The House bill provides that the cost-of-living adjustment with respect to any calendar year is based on the increase in the applicable index as of the close of the calendar quarter ending September 30 of the preceding calendar year. Thus, adjusted dollar limits will be published before the beginning of the calendar year to which they apply.

In addition, the bill provides that the dollar limits determined after application of the cost-of-living adjustments are generally rounded to the nearest $1,000. Dollar limits relating to elective deferrals and elective contributions to simplified employee pensions (SEPs) are rounded to the nearest $100.

Effective date.—The provision is effective for years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

c. Plans covering self-employed individuals

PRESENT LAW

Prior to the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) different rules applied to retirement plans maintained by incorporated employers and unincorporated employers (such as partnerships and sole proprietors). In general, plans maintained by unincorporated employers were subject to special rules in addition to the other qualification requirements of the Code. Most, but not all, of this disparity was eliminated by TEFRA. Under present law, certain special aggregation rules apply to plans maintained by owner-employees that do not apply to other qualified plans (sec. 401(d)(1) and (2)).

HOUSE BILL

The House bill eliminates the special aggregation rules that apply to plans maintained by self-employed individuals that do not apply to other qualified plans.

Effective date.—The provision is effective for years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

d. Alternative full funding limitation

PRESENT LAW

Under present law, subject to certain limitations, an employer may make deductible contributions to a defined benefit pension plan up to the full funding limitation. The full funding limitation is generally defined as the excess, if any, of (1) the lesser of (a) the accrued liability under the plan (including normal cost) or (b) 150 percent of the plan's current liability, over (2) the lesser of (a) the fair market value of the plan's assets, or (b) the actuarial value of the plan's assets (sec. 412(c)(7)).

The Secretary may, under regulations, adjust the 150-percent figure contained in the full funding limitation to take into account the average age (and length of service, if appropriate) of the participants in the plan (weighted by the value of their benefits under the plan). In addition, the Secretary is authorized to prescribe regulations that apply, in lieu of the 150 percent of current liability limitation, a different full funding limitation based on factors other than current liability. The Secretary may exercise this authority only in a manner so that in the aggregate, the effect on Federal budget receipts is substantially identical to the effect of the 150-percent full funding limitation.

HOUSE BILL

In general

The bill provides that an employer may elect to disregard the 150-percent limitation if each plan in the employer's control group is not top-heavy and the average accrued liability of active participants under the plan for the immediately preceding 5 plan years is at least 80 percent of the plan's total accrued liability (the "alternative full funding limitation"). The Secretary is required to adjust the 150-percent full funding limitation (in the manner specified under the bill) for employers that do not use the alternative full funding limit to ensure that the election by employers to disregard the 150-percent limit does not result in a substantial reduction in Federal revenues for any fiscal year.

Notice requirement

Under the bill, employers electing to apply the alternative limitation generally must notify the Secretary by January 1 of the calendar year preceding the calendar year in which the election period begins. Under a special transition rule, in the case of any election period beginning on or after July 1, 1992, and before January 1, 1994, the notice requirement is deemed satisfied if the Secretary is notified of the election by October 1, 1992. In addition, the Secretary is required, by January 1, 1993, to notify defined benefit plans that have not made an election to apply the alternative limitation of any adjustment to the 150-percent full funding limitation required under the provision.

To the extent a defined benefit plan sponsor makes a contribution to a defined benefit plan with respect to the transition period that exceeds the full-funding limitation, as adjusted by the Secretary for the transition period, the sponsor is required to offset the excess contribution against allowable contributions to the plan in subsequent quarters in the taxable year of the sponsor. If no subsequent contributions may be made for the taxable year, the trustee of the defined benefit plan must return the excess contribution to the sponsor in that taxable year or the subsequent taxable year.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

In general

The conference agreement follows the House bill and the Senate amendment.

Notice requirement

The conference agreement follows the House bill and the Senate amendment, except that relevant dates under the special transition rule are changed. Under the conference agreement, in the case of any election period beginning on or after January 1, 1993, and before January 1, 1994, the notice requirement is deemed satisfied if the Secretary is notified of the election by April 1, 1993. In addition, the Secretary is required, by July 1, 1993, to notify defined benefit plans that have not made an election to apply the alternative limitation of any adjustment to the 150-percent full funding limitation required under the provision.

Effective date.—The provision is effective on January 1, 1993.

e. In-service distributions from rural cooperative plans

PRESENT LAW

Under present law, a qualified cash or deferred arrangement can permit withdrawals by participants only after the earlier of (1) the participant's separation from service, death, or disability, (2) termination of the arrangement, (3) in the case of a profit-sharing or stock bonus plan, the attainment of age 59½, or (4) in the case of a profit-sharing or stock bonus plan to which section 402(a)(8) applies, upon hardship of the participant (sec. 401(k)(2)(B)). In the case of a rural cooperative qualified cash or deferred arrangement, which is part of a money purchase pension plan, withdrawals by participants cannot occur upon attainment of age 59½ or upon hardship.

HOUSE BILL

The House bill provides that a rural cooperative plan that includes a qualified cash or deferred arrangement will not be treated as violating the qualification requirements merely because the plan permits distributions to plan participants after the attainment of age 59½.

Effective date.—The provision is effective for distributions after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill (age 59½ is changed to 59 under another provision of the Senate amendment).

Effective date.—The provision is effective as if included in section 1011(k)(5) of the Technical and Miscellaneous Revenue act of 1988.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

f. Special rule for plans covering pilots

PRESENT LAW

Under present law, for purposes of determining whether a qualified pension plan satisfies the minimum coverage requirements, in the case of trust established pursuant to a collective bargaining agreement between airline pilots and one or more employers, all employees not covered by the collective bargaining agreement are disregarded (sec. 410(b)(3)(B)). This provision applies only in the case of a plan that provides contributions or benefits for employees whose principal duties are customarily performed aboard aircraft in flight. Thus, a collectively bargained plan covering only airline pilots is tested separately for purposes of the minimum coverage requirements.

HOUSE BILL

The House bill provides that, in the case of a plan established by one or more employers to provide contributions or benefits for air pilots employed by one or more common carriers engaged in interstate or foreign commerce or air pilots employed by carriers transporting mail for or under contract with the United States government, all employees who are not air pilots are excluded from consideration in testing whether the plan satisfies the minimum coverage requirements. In addition, the bill provides that this exception does not apply in the case of a plan that provides contributions or benefits for employees who are not air pilots or for air pilots whose principal duties are not customarily performed aboard aircraft in flight.

Effective date.—The provision is effective for years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

g. Elimination of special vesting rule for multiemployer plans

PRESENT LAW

Under present law, except in the case of multiemployer plans, a plan is not a qualified plan unless a participant's employer-provided benefit vests at least as rapidly as under 1 of 2 alternative minimum vesting schedules. A plan satisfies the first schedule if a participant acquires a nonforfeitable right to 100 percent of the participant's accrued benefit derived from employer contributions upon the participant's completion of 5 years of service. A plan satisfies the second schedule if a participant has a nonforfeitable right to at least 20 percent of the participant's accrued benefit derived from employer contributions after 3 years of service, 40 percent at the end of 4 years of service, 60 percent at the end of 5 years of service, 80 percent at the end of 6 years of service, and 100 percent at the end of 7 years of service.

In the case of multiemployer plan, a participant's accrued benefit derived from employer contributions is required to be 100 percent vested no later than upon the participant's completion of 10 years of service. This special rule applies only to employees covered by the plan pursuant to a collective bargaining agreement.

HOUSE BILL

The House bill conforms the vesting rules for multiemployer plans to the rules applicable to other qualified plans.

Effective date.—The provision is effective for plan years beginning on or after the earlier of (1) the later of January 1, 1993, or the date on which the last of the collective bargaining agreements pursuant to which the plan is maintained terminates, or (2) January 1, 1995, with respect to participants with an hour of service after the effective date.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that the effective date is delayed one year.

h. Treatment of deferred compensation plans of State and local governments and tax-exempt organizations

PRESENT LAW

Constructive receipt

Under a general principle of the Federal income tax system, individuals are taxed currently not only on compensation actually received, but also on compensation constructively received during the taxable year. An individual is treated as having constructively received compensation during the current taxable year if the compensation would have been payable during the current taxable year but for the individual's election to defer receipt of the compensation to a later taxable year.

An exception to this rule applies to compensation deferred under an eligible unfunded deferred compensation plan (a sec. 457 plan) of a tax-exempt or State or local governmental employer.

Under a section 457 plan, an employee who elects to defer the receipt of current compensation will be taxed on the amounts deferred when such amounts are paid or made available. In general, amounts deferred under a section 457 plan may not be made available to an employee before the earlier of (1) the calendar year in which the participant attains age 70-1/2, (2) when the participant is separated from service with the employer, or (3) when the participant is faced with an unforeseeable emergency. Amounts that are made available to an employee upon separation from service are includible in gross income in the taxable year in which they are made available.

Under present law, benefits under a section 457 plan are not treated as made available if the participant may elect to receive a lump sum payable after separation from service and within 60 days of the election. This exception to the general rules is available only if the total amount payable to the participant under the plan does not exceed $3,500 and no additional amounts may be deferred under the plan with respect to the participant.

Coordinated contribution limit

Under present law, the limit on elective deferrals to a qualified cash-or-deferred arrangement (sec. 401(k) plan), simplified employee pension (SEP), or section 501(c)(18) plan is $8,728 (indexed) (sec. 402(g)(1)). The limit on elective deferrals to a tax-sheltered annuity (sec. 403(b) annuity) is the greater of $9,500 or the limit under section 402(g)(1). The limit on contributions to a nonqualified deferred compensation plan of State and local governments and tax-exempt organizations (sec. 457 plan) generally is $7,500.

In addition, section 457 provides a coordinated contribution limit under which qualified elective deferrals are treated as contributions to a section 457 plan for purposes of the section 457 contribution limit, so that the sum of contributions to all such plans is limited to $7,500. Thus, an individual that participates, for example, in both a section 457 plan and a section 401(k) plan may contribute no more than a total of $7,500 to both plans. However, an individual who participates only in a 401(k) plan may contribute up to $8,728 (indexed) to such plan.

HOUSE BILL

The House bill makes three changes to the rules governing unfunded deferred compensation plans (sec. 457 plans) of tax-exempt and governmental employers.

First, the bill permits in-service distributions of accounts that do not exceed $3,500 if no amount has been deferred under the section 457 plan with respect to the account for 2 years and there has been no prior distribution under this cash-out rule.

Second, the bill increases the number of elections that can be made with respect to the time distributions must begin under a section 457 plan. The bill provides that the amount payable to a participant under a section 457 plan is not to be treated as made available merely because the participant may elect to defer commencement of distributions under the plan if (1) the election is made after amounts may be distributed under the plan but before the actual commencement of benefits, and (2) the participant makes only 1 such additional election. This additional election is permitted without the need for financial hardship, and the election can only be to a date that is after the date originally selected by the participant.

Finally, the bill provides for indexing of the dollar limit on deferrals.

Effective date.—The provisions are effective for taxable years beginning after the date of enactment.

Senate Amendment

The Senate amendment provides that an individual who participates in both a section 457 plan and a section 401(k) plan, SEP, or section 501(c)(18) plan may contribute no more than a total of $8,728 (indexed) to both plans. An individual who participates in both a section 457 plan and a section 403(b) annuity may contribute no more than a total of $9,500 (or, if greater, the limit under section 402(g)(1)) to both plans. However, contributions to the section 457 plan still cannot exceed $7,500, as under present law.

Effective date.—The provision applies to years beginning after December 31, 1992.

Conference Agreement

The conference agreement follows the House bill.

i. Limits on contributions and benefits under governmental plans

Present Law

Present law imposes limits on contributions and benefits under qualified plans based on the type of plan (sec. 415). The limits apply to plans maintained by private and public employers. Certain special rules apply to governmental plans.

In the case of a defined contribution plan, the annual additions to the plan with respect to each plan participant are limited to the lesser of (1) 25 percent of compensation, or (2) $30,000. The limit on the annual benefits payable by a defined benefit pension plan is generally the lesser of (1) 100 percent of compensation, or (2) $112,221 for 1992. The dollar limit is increased annually for inflation. The dollar limit is reduced actuarially if payment of benefits is to begin before the social security retirement age, and increased if benefits are to begin after that age.

Under special rules for plans maintained by State or local governments, such plans may provide benefits greater than those permitted by the limits on benefits applicable to plans maintained by private employers.

House Bill

The House bill makes the following modifications to the limits on contributions and benefits as applied to governmental plans: (1) compensation includes employer contributions to certain employee plans under a salary reduction arrangement; (2) the 100 percent of compensation limitation does not apply; and (3) the defined benefit pension plan limitation does not apply to certain disability and survivor benefits. The provision also permits State and local government employers to maintain excess benefit plans (i.e., plans that provide benefits that cannot be provided under a qualified plan due to the limits on contributions and benefits) without regard to the limits on unfunded deferred compensation arrangements of State and local government employers (sec. 457). Benefits provided by such plans are subject to the same tax rules applicable to excess plans maintained by private employers (e.g., sec. 83).

Effective date.—The provision is effective for years beginning after the date of enactment. Governmental plans are treated as if in compliance with the requirements of section 415 for years beginning on or before the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

j. Use of 501(c)(21) black lung trust assets to fund retiree health benefits

Present Law

A qualified black lung benefit trust described in section 501(c)(21) of the Internal Revenue Code is exempt from federal income taxation. In addition, a deduction is allowed for contributions to a qualified black lung benefit trust to the extent such contributions are necessary to fund the trust.

Under present law, no assets of a qualified black lung benefit trust may be used for, or diverted to, any purpose other than (i) to satisfy labilities, or pay insurance premiums to cover liabilities, arising under the Black Lung Acts, (ii) to pay administrative costs of operating the trust, or (iii) investment in U.S., State, or local securities and obligations, or in time demand deposits in a bank or insured credit union.

Under present law, excess trust assets may be paid into the national Black Lung Disability Trust Fund, or into the general fund of the U.S. Treasury.

House Bill

The House bill allows excess assets in qualified black lung benefit trusts to be used to pay accident and health benefits or premiums for insurance for such benefits (including administrative and other incidental expenses relating to such benefits) for retired coal miners and their spouses and dependents. The amount of assets available for such purpose is subject to a yearly limit as well as an aggregate limit. The yearly limit is be the amount of assets in excess of 110 percent of the present value of the liability for black lung benefits determined as of the close of the preceding taxable year of the trust. The aggregate limit is the amount of assets in excess of 110 percent of the present value of the liability for black lung benefits determined as of the close of the taxable year of the trust ending prior to the effective date, plus earnings thereon. Each of these determinations is required to be made by an independent actuary.

The amounts used to pay retiree accident or health benefits are not includible in the income of the company, nor is a deduction allowed for such amounts.

Effective date.—The provision is effective for taxable years beginning after December 31, 1991.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement does not include the House bill provision or the Senate amendment. (However, the conference agreement on H.R. 776 includes the provision).

k. Definition of employer reversion

Present Law

Under present law, employer reversions from qualified pension plans are generally subject to an excise tax. In some cases, Federal regulations require that a portion of any reversion from a plan maintained by a government contractor be paid to the United States. Such amounts are subject to the excise tax on reversions.

House Bill

The House bill provides that, for purposes of the excise tax, an employer reversion does not include certain amounts paid to the Federal government by reason of certain government contracting regulations.

Effective date.—The provision is effective on the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

l. Clarification of application of health care continuation rules to savings and loan associations

Present Law

Under the health care continuation (COBRA) rules, persons who are covered under a group health plan are required to be offered the opportunity to continue to participate for a specified period of time in a group health plan of the employer (or a plan of successor employer) despite the occurrence of a qualifying event that otherwise would terminate such participation. Qualified beneficiaries are employees covered by the plan and the spouse and dependent children of a covered employee.

Qualifying events include termination of employment of a covered employee, the divorce or death of a covered employee, the covered employee becoming entitled to Medicare, and, in the case of a retired employee, the commencement of a bankruptcy proceeding under title 11 of the United States Code.

The period for which coverage is required to be continued depends on the qualifying event, and is generally either 18 months or 36 months. Persons electing continuation coverage can be required to pay for the coverage.

The health care continuation provisions are enforced under the Code by means of an excise tax (sec. 4980B).

The Federal Deposit Insurance Corporation Improvement Act of 1991 contained a provision clarifying the application of the health care continuation rules in the case of failed depository institutions. In general, the provision provides that the Federal Deposit Insurance Corporation (FDIC), a bridge bank, or any successor of a failed depository institution is required to provide continuation health care coverage to former employees of the failed institution. This provision is effective for plan years beginning on or after the date of enactment of the Act, regardless of whether the qualifying event occurred before, on, or after such date.

House Bill

Under the House bill, the obligations of bridge banks and successors to failed institutions are incorporated into the health care continuation provisions of the Code. The provision also provides that retired employees of a failed depository institution are entitled to the same continuation coverage rights as retirees of a company in bankruptcy.

Effective date.—The provision is effective as if included in section 451 of the Federal Deposit Insurance Corporation Improvement Act of 1991.

Senate Amendment

No provision.

Conference Agreement

The conference agreement generally follows the House bill, except that the conference agreement provides that former employees of a failed depository institution are entitled to the same continuation coverage rights as employees who are terminated. In addition, the conference agreement clarifies that successors to failed institutions are not required to provide continuation health care coverage to former employees of the failed institution if the FDIC or the Resolution Trust Corporation (RTC) elects to relieve the acquirer from such obligation.

Effective date.—Same as the House bill, except that, in addition, the conference agreement clarifies that in the case of the FDIC or any acquirer from the FDIC, the amendments made by this provision apply only to failed depository institutions for which a receiver or conservator is appointed after the date of enactment. Also, the conference agreement clarifies that coverage under the continuation plan maintained by the FDIC on June 25, 1992, and any other substantially similar plan maintained by the FDIC, is deemed to satisfy the obligations of the FDIC (and any acquirer) under the health care continuation provisions of the Code as well as section 451 of the FDIC Improvement Act of 1991 with respect to qualified individuals of failed depository institutions.

m. Elimination of half-year requirements

Present Law

Under present law, a number of employee plan rules refer to the age of an individual at a certain time. For example, distributions under a qualified pension plan are generally required to begin no later than the April 1 following the year in which an individual attains age 70-1/2 (sec. 401(a)(9)). Similarly, an additional income tax on early withdrawals applies to certain distributions from qualified pension plans and IRAs prior to the time the participant or IRA owner attains age 59-1/2 (sec. 72(t)).

House Bill

No provision.

Senate Amendment

The Senate amendment changes the half-year requirements to birthdate requirements. Those rules under present law that refer to age 59-1/2 are changed to refer to age 59, and those that refer to age 70-1/2 are changed to refer to age 70.

Effective date.—The provision applies to years beginning after December 31, 1993.

Conference Agreement

The conference agreement does not include the Senate amendment.

n. Penalties for failure to provide reports relating to pension payments

Present Law

Any person who fails to file an information report with the Internal Revenue Service on or before the prescribed filing date is subject to penalties for each failure. The general penalty structure provides that the amount of the penalty is to vary with the length of time within which the taxpayer corrects the failure, and allows taxpayers to correct a de minimis number of errors and avoid penalties entirely (sec. 6721). A different, flat-amount penalty applies for each failure to provide information reports to the IRS or statements to payees relating to pension payments (sec. 6652(e)).

House Bill[1]

The House bill incorporates into the general penalty structure the penalties for failure to provide information reports relating to pension payments to the IRS and to recipients. Thus, information reports with respect to pension payments would be treated in a similar fashion to other information reports.

Effective date.—The provision applies to returns and statements the due date for which is after December 31, 1992.

Senate Amendment

The Senate amendment is generally the same as the House bill, except that the class of reports to which the Senate amendment applies is slightly different, and no reporting is required with respect to designated distributions of less than $10.

Conference Agreement

The conference agreement follows the Senate amendment with modifications to conform it to the intent of the House bill. The conference agreement also modifies the penalty for failure to provide the notice required under section 402(f).

o. Contributions on behalf of disabled employees

Present Law

Under present law, an employer may elect to continue deductible contributions to a defined contribution plan on behalf of an employee who is permanently and totally disabled. For purposes of the limit on annual additions (sec. 415(c)), the compensation of a disabled employee is deemed to be equal to the annualized compensation of the employee prior to the employee's becoming disabled. Contributions are not permitted on behalf of disabled employees who were officers, owners, or highly compensated before they became disabled.

House Bill

No provision.

Senate Amendment

The Senate amendment provides that the special rule for contributions on behalf of disabled employees is applicable without an employer election and to highly compensated employees if the defined contribution plan provides for the continuation of contributions on behalf of all participants who are permanently and totally disabled.

Effective date.—The provision applies to years beginning after December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

p. Affiliation requirements for employers jointly maintaining a VEBA

Present Law

A voluntary employees' beneficiary association (VEBA) that satisfies certain requirements is entitled to tax-exempt status. The Code generally describes a VEBA as an association that provides for the payment of life, sick, accident, or other benefits to the members of such association or their dependents or designated beneficiaries, if no part of the net earnings of the association inures (other than through such payments) to the benefit of any private shareholder or individual. The requirements a VEBA must comply with in order to be tax exempt are further specified in regulations.

Under Treasury regulations, membership in a VEBA is required to be limited to individuals whose eligibility is determined by reference to objective standards that constitute an employment-related common bond. Such a common bond exists if eligibility is determined by the following standards: (1) employment by a common employer (or affiliated employers); (2) coverage under one or more collective bargaining agreements; (3) membership in a labor union (or in one or more locals of a national or international labor union); or (4) employment by one or more employers in the same line of business in the same geographic locale.

House Bill

No provision.

Senate Amendment

The Senate amendment provides that otherwise unrelated employers are treated as affiliated and, therefore, can maintain a tax-exempt VEBA if the employers (1) are in the same line of business, (2) act jointly to perform tasks which are integral to the activities of each of the employers, (3) act jointly to such an extent that the joint maintenance of a VEBA is not a major part of the joint activities, and (4) a substantial number of the employers are tax exempt.

Under the bill, employers are considered affiliated, for example, under the following circumstances. The employers participating in the VEBA are in the same line of business and belong to an association that provides to its members a significant amount of each of the following services: (1) research and development relating to the members' primary activity; (2) education and training of members' employees; and (3) public relations. In addition, the employers are sufficiently similar (e.g., subject to similar regulatory requirements) that the association's services provide material assistance to all of the employers. The employers also demonstrate the importance of their joint activities by having meetings at least annually attended by substantially all of the employers. Finally, the employers maintain a common retirement plan.

On the other hand, it is not intended that the mere existence of a trade association is a sufficient basis for the member-employers to be considered affiliated, even if they are in the same line of business. It is also not sufficient if the trade association publishes a newsletter and provides significant public relations services, but only provides nominal amounts, if any, of other services integral to the employers' primary activity.

A group of employers are also not considered affiliated under the bill by virtue of the membership of their employees in a professional association.

Effective date.—The provision applies to years beginning before, on, or after the date of enactment. The provision is intended as a clarification of present law. However, it is not intended to create any inference as to whether any part of the Treasury regulations affecting VEBAs, other than the affiliated employer rule, is or is not present law.

Conference Agreement

Under the conference agreement, employers are considered affiliated for purposes of the VEBA rules if substantially all such employers are section 501(c)(12) organizations of the same type.

For purposes of this provision, the term "section 501(c)(12) organization" means (1) any organization described in section 501(c)(12); (2) any organization providing a service that is the same type of service that is or could be provided by an organization described in clause (1); (3) any organization described in section 501(c)(4) or (6), provided that at least 80 percent of the members of the organization are section 501(c)(12) organizations described in clauses (1) or (2); and (4) any organization which is a national association of organizations described in clauses (1), (2), or (3).

An organization described in clause (2), but not in clause (1), will not be treated as a section 501(c)(12) organization with respect to a VEBA unless a substantial number of employers maintaining such VEBA are described in clause (1). Similarly, an organization described in clause (2) but not in clause (1) will not be considered to provide a service that is the same type of service as a service provided by an organization described in clause (1) unless that type of service is a primary function of the organization described in clause (1). Under clause (2), a service will not be considered one that could be provided unless there is a substantial likelihood that

---

[1] The penalty provision was inadvertently omitted from the House bill.

that same type of service would or could be provided by a section 501(c)(12) organization. Services are considered to be of the same type if they are the same or directly related to each other. For example, the generation of electricity is directly related to the provision of electricity to consumers.

Effective date.—Years beginning after December 31, 1992. The provision is not intended to create any inference as to present law.

q. Disaggregation of union plans

PRESENT LAW

Under present law, employees covered by a collective bargaining agreement are excluded from consideration in testing whether a qualified plan satisfies the minimum coverage and nondiscrimination tests. In addition, such employees are not counted for purposes of determining whether a line of business has at least 50 employees, the threshold number for designating a unit as a separate line of business for purposes of applying the coverage and nondiscrimination tests.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that an employer can elect to include union employees who benefit under the plan on the same terms as other employees in testing whether a plan satisfies the minimum coverage and nondiscrimination tests, and in applying the 50-employee test under the line of business rules.

Effective date.—The provision applies to years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

r. Uniform retirement age

PRESENT LAW

A qualified plan generally must provide that payment of benefits under the plan must begin no later than 60 days after the end of the plan year in which the participant reaches age 65. Also, for purpose of the vesting and benefit accrual rules, normal retirement age generally can be no later than age 65. For purposes of applying the limits on contributions and benefits (sec. 415), social security retirement age is generally used as retirement age. The social security retirement age as used for such purposes is presently age 65, but is scheduled to gradually increase.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that for purposes of the general nondiscrimination rule (sec. 401(a)(4)) the social security retirement age (as defined in sec. 415) is a uniform retirement age and that subsidized early retirement benefits and joint and survivor annuities based on an employee's social security retirement age (as defined in sec. 415) are treated as being available to employees on the same terms.

Effective date.—The provision is effective for years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with the clarification that subsidized early retirement benefits and joint and survivor annuities are not treated as not being available to employees on the same terms merely because they are based on an employee's social security retirement age.

s. National commission on private pension plans

PRESENT LAW

None.

HOUSE BILL

No provision.

SENATE AMENDMENT

The provision establishes a National commission on private pension plans to study national retirement income policy. The commission is directed to submit a report to the Congress by Labor Day 1994, the 20th anniversary of the enactment of the Employee Retirement Income Security Act of 1974, setting forth its findings and recommendations for increasing the level and security of private retirement savings.

The provision authorizes appropriations through fiscal year 1994 for such sums as may be necessary to carry out the provision.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

t. Full funding limitation of multiemployer plans

PRESENT LAW

Under the Internal Revenue Code, subject to certain limitations, an employer may make deductible contributions to a defined benefit pension plan up to the full funding limitation. The full funding limitation is generally defined as the excess, if any, of (1) the lesser of (a) the accrued liability under the plan (including normal cost) or (b) 150 percent of the plan's current liability, over (2) the lesser of (a) the fair market value of the plan's assets, or (b) the actuarial value of the plan's assets (sec. 412(c)(7)).

Plans subject to the minimum funding rules are required to make an actuarial valuation of the plan not less frequently than annually.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that the 150 percent of current liability limitation does not apply to multiemployer plans. In addition, the bill repeals the Internal Revenue Code annual valuation requirement for multiemployer plans and applies the prior-law rule that valuations generally be performed at least every 3 years.

Effective date.—The provision applies to years beginning after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the effective date is delayed one year.

u. Church pension plans

PRESENT LAW

Plans maintained by churches and certain church-controlled organizations are exempt from certain of the qualification requirements applicable to pension plans under the Code pursuant to the Employee Retirement Income Security Act of 1974 (as amended) (ERISA). For example, such plans are not subject to ERISA's vesting, coverage, and funding requirements. Church plans may elect to waive the exemption from the qualification rules.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that church plans that are subject to pre-ERISA vesting rules under present law are subject to ERISA's vesting rules in effect immediately before the enactment of the Tax Reform Act of 1986. Thus, benefits under such plans are required to vest at least as rapidly as under a 10-year cliff vesting schedule, or under a schedule that provides ratable vesting between 5 and 15 years of service.

In the case of a church plan maintained by more than one employer, if one or more organizations maintaining a church plan fails to satisfy the qualification requirements, the plan is not disqualified with respect to the other organizations maintaining the plan that meet such requirements.

The Senate amendment modifies the definition of highly compensated employee applicable to church plans by providing that a person is not considered an officer, shareholder, or person whose principal duties consist of supervising the work of other employees if the employee receives less than $50,000 of compensation (indexed). In addition, certain employees covered by a collective bargaining agreement (sec. 410(b)(3)(A)) would be excluded.

Tax-sheltered annuity contracts (sec. 403(b)) are permitted to make distributions on account of hardship. The Senate amendment modifies the definition of hardship so that it is the same as that used for purposes of the rule relating to cash or deferred arrangements (sec. 401(k)(2)).

The Senate amendment permits self-employed ministers to participate in the denominational church plan. Such ministers are disregarded in applying applicable nondiscrimination rules.

The Senate amendment provides that church plans do not have to maintain separate accounts under a section 401(h) account for employees who are key employees merely because they are officers with annual compensation greater than a certain amount. Any benefits provided under the account, however, must be taken into account for purposes of the limits on contributions and benefits as under present law.

The Senate amendment modifies the elective catch-up provision relating to section 403(b) annuities and retirement income accounts maintained by churches by repealing the limitation on the amount of such catch-up contributions based on years of service (sec. 402(g)(8)(A)(iii)).

The Senate amendment modifies the minimum distribution rules (sec. 401(a)(9)) to permit church plans to pay a benefit at year-end (the so-called "13th check") or to provide an annuity which increases slightly each year.

The Senate amendment expands the present-law exception to the age 70½ rule for church plans so that it applies to church plans as defined in section 414(e).

Effective date.—The vesting amendment is effective for years beginning after December 31, 1993. The amendment relating to plans maintained by more than one employer, the definition of highly compensated employee, self-employed ministers, and the forms of benefits under the minimum distribution rules are effective for years beginning on, after, or before December 31, 1991. The amendment relating to the definition of disability is effective for years beginning after December 31, 1988. The amendment relating to section 401(h) accounts is effective for years beginning after March 31, 1984. The amendment relating to catch-up contributions and the age 70½ rule is effective as if included in the provision of the Tax Reform Act of 1986 to which such amendment relates.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

v. Date for adoption of plan amendments

PRESENT LAW

Under regulations, plan amendments to reflect changes generally must be made within the remedial amendment period. Such period generally ends at the time prescribed by law for filing the income tax return of the employer for the employer's taxable year in which the change in law occurs. The plan must be operated in accordance with the law at all times, and any plan amendment must apply retroactively to the period following the effective date of the change which it reflects.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that any plan amendments required by the bill are not required to be made before the first day of the first plan year beginning on or after January 1, 1994, if the plan is operated in accordance with the applicable provision and the amendment is retroactive to the effective date of the applicable provision.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

C. PARTNERSHIP PROVISIONS

1. General partnership provisions

a. Simplified flow-through for large partnerships

PRESENT LAW

A partnership generally is treated as a conduit for Federal income tax purposes. Each partner takes into account separately his distributive share of the partnership's items of income, gain, loss, deduction or credit. The character of an item is the same as if it had been directly realized or incurred by the partner. Limitations affecting the computation of taxable income generally apply at the partner level.

HOUSE BILL

Under the House bill, the tax treatment of a large partnership (generally, a partnership with at least 250 partners, or an electing partnership with at least 100 partners) and its partners is modified. The bill provides that each partner takes into account separately the partner's distributive share of the following items, which are determined at the partnership level: (1) taxable income or loss from passive loss limitation activities; (2) taxable income or loss from other activities (e.g., portfolio income or loss); (3) net capital gain or loss to the extent allocable to passive loss limitation activities and other activities; (4) tax-exempt interest; (5) net alternative minimum tax adjustment separately computed for passive loss limitation activities and other activities; (6) general credits; (7) low-income housing credit; (8) rehabilitation credit; (9) credit for producing fuel from a nonconventional source; and (10) creditable foreign taxes and foreign source items.

All limitations and other provisions affecting the computation of taxable income or any credit generally are applied at the partnership (and not the partner) level. In addition, all elections affecting the computation of taxable income or any credit generally are made by the partnership.

The simplified reporting regime does not apply to service or commodity partnerships. In addition, special rules apply to large partnerships holding oil and gas properties.

For all partners contributing property to a large partnership, the bill replaces section 704(c) with a "deferred sale" approach. Under the bill, a large partnership takes a fair market value basis in the property, and the contributing partner's precontribution gain or loss is deferred until the occurrence of specified recognition events.

Effective date.—Partnership taxable years ending on or after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except for the following: (1) new section 737 of the Code, relating to the recognition of precontribution gain in the case of certain distributions to a contributing partner (sec. 3004 of the House bill and sec. 3013 of the Senate amendment) does not apply if the deferred sale rules apply; (2) under the deferred sale rules, if contributed property that is distributed to the contributing partner consists of an interest in an entity, such interest is taken into account (in determining whether precontribution gain or loss is triggered) to the extent that its value is attributable to property contributed to the entity after such interest was contributed to the partnership; and (3) the provisions generally apply to partnership taxable years ending on or after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

b. Simplified audit procedures for large partnerships

PRESENT LAW

In general

Prior to 1982, regardless of the size of a partnership, adjustments to a partnership's items of income, gain, loss, deduction, or credit had to be made in separate proceedings with respect to each partner individually. Because a large partnership sometimes had many partners located in different audit districts, adjustments to items of income, gains, losses, deductions, or credits of the partnership had to be made in numerous actions in several jurisdictions, sometimes with conflicting outcomes.

The Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") established unified audit rules applicable to all but certain small (10 or fewer partners) partnerships. These rules require the tax treatment of all "partnership items" to be determined at the partnership, rather than the partner, level. Partnership items are those items that are more appropriately determined at the partnership level than at the partner level, as provided by regulations.

Administrative proceedings

Under the TEFRA rules, a partner must report all partnership items consistently with the partnership return or must notify the IRS of any inconsistency. If a partner fails to report any partnership item consistently with the partnership return, the IRS may make a computational adjustment and immediately assess any additional tax that results.

The IRS may challenge the reporting position of a partnership by conducting a single administrative proceeding to resolve the issue with respect to all partners. But the IRS must still assess any resulting deficiency against each of the taxpayers who were partners in the year in which the understatement of tax liability arose.

Any partner of a partnership can request an administrative adjustment or a refund for his own separate tax liability. Any partner also has the right to participate in partnership-level administrative proceedings. A settlement agreement with respect to partnership items binds all parties to the settlement.

Tax Matters Partner

The TEFRA rules establish the "Tax Matters Partner" as the primary representative of a partnership in dealings with the IRS. The Tax Matters Partner is a general partner designated by the partnership or, in the absence of designation, the general partner with the largest profits interest at the close of the taxable year. If no Tax Matters Partner is designated, and it is impractical to apply the largest profits interest rule, the IRS may select any partner as the Tax Matters Partner.

Notice requirements

The IRS generally is required to give notice of the beginning of partnership-level administrative proceedings and any resulting administrative adjustment to all partners whose names and addresses are furnished to the IRS. For partnerships with more than 100 partners, however, the IRS generally is not required to give notice to any partner whose profits interest is less than one percent.

Adjudication of disputes concerning partnership items

After the IRS makes an administrative adjustment, the Tax Matters Partner (and, in limited circumstances, certain other partners) may file a petition for readjustment of partnership items in the Tax Court, the district court in which the partnership's principal place of business is located, or the Claims Court.

Statute of limitations

The IRS generally cannot adjust a partnership item for a partnership taxable year if more than 3 years have elapsed since the later of the filing of the partnership return or the last day for the filing of the partnership return.

HOUSE BILL

In general

The House bill creates a new audit system for large partnerships. The bill defines "large partnership" the same way for audit and reporting purposes (generally partnerships with at least 250 partners) except that certain oil and gas partnerships exempted from the large partnership reporting requirements are large partnerships for the audit rules.

As under present law, large partnerships and their partners are subject to unified audit rules. The tax treatment of "partnership items" are determined at the partnership, rather than the partner, level. The term "partnership items" is defined as under present law.

Unlike present law, however, partnership adjustments generally will flow through to the partners for the year in which the adjustment takes effect. Thus, the current-year partners' share of current-year partnership items of income, gains, losses, deductions, or credits will be adjusted to reflect partnership adjustments that take effect in that year. The adjustments generally will not affect prior-year returns of any partners (except in the case of changes to any partner's distributive shares).

In lieu of flowing an adjustment through to its partners, the partnership may elect to pay an imputed underpayment. The imputed underpayment generally is calculated by netting the adjustments to the income and loss items of the partnership and multiplying that amount by the highest tax rate (whether individual or corporate). A partner may not file a claim for credit or refund of his allocable share of the payment.

Regardless of whether a partnership adjustment flows through to the partners, an adjustment must be offset if it requires another adjustment in a year after the adjusted year and before the year the offsetted adjustment takes effect. For example, if a partnership expensed a $1,000 item in year 1, and it was determined in year 4 that the item should have been capitalized and amortized ratably over 10 years, the adjustment in year 4 would be $700, apart from any interest or penalty. (The $900 adjustment for the improper deduction would be offset by $200 of adjustments for amortization deductions.) The year 4 partners would be required to include an additional $700 in income for that year. The partnership may ratably amortize the remaining $700 of expenses in years 4–10.

In addition, the partnership, rather than the partners individually, generally is liable for any interest and penalties that result from a partnership adjustment. Interest is computed for the period beginning on the return due date for the adjusted year and ending on the earlier of the return due date for the partnership taxable year in which the adjustment takes effect or the date the partnership pays the imputed underpayment. Thus, in the above example, the partnership would be liable for 4 years' worth of interest (on a declining principal amount).

Penalties (such as the accuracy and fraud penalties) are determined on a year-by-year basis (without offsets) based on an imputed underpayment. All accuracy penalty criteria and waiver criteria (such as reasonable cause, substantial authority, etc.) are determined as if the partnership were a taxable individual. Accuracy and fraud penalties are assessed and accrue interest in the same manner as if asserted against a taxable individual.

Any payment (for Federal income taxes, interest, or penalties) that a large partnership is required to make is non-deductible.

If a partnership ceases to exist before a partnership adjustment takes effect, the former partners are required to take the adjustment into account, as provided by regulations. Regulations are also authorized to prevent abuse and to enforce efficiently the audit rules in circumstances that present special enforcement considerations (such as partnership bankruptcy).

Administrative proceedings

Under the large partnership audit rules, a partner is not permitted to report any partnership items inconsistently with the partnership return, even if the partner notifies the IRS of the inconsistency. The IRS could treat a partnership item that was reported inconsistently by a partner as a mathematical or clerical error and immediately assess any additional tax against that partner.

As under present law, the IRS could challenge the reporting position of a partnership by conducting a single administrative proceeding to resolve the issue with respect to all partners. Unlike under present law, however, partners will have no right individually to participate in settlement conferences or to request a refund.

Partnership representative

The bill requires each large partnership to designate a partner or other person to act on its behalf. If a large partnership fails to designate such a person, the IRS is permitted to designate any one of the partners as the person authorized to act on the partnership's behalf. After the IRS's designation, a large partnership could still designate a replacement for the IRS-designated partner.

Notice requirements

Unlike under present law, the IRS is not required to give notice to individual partners of the commencement of an administrative proceeding or of a final adjustment. Instead, the IRS is authorized to send notice of a partnership adjustment to the partnership itself by certified or registered mail. The IRS could give proper notice by mailing the notice to the last known address of the partnership, even if the partnership had terminated its existence.

Adjudication of disputes concerning partnership items

As under present law, an administrative adjustment could be challenged in the Tax Court, the district court in which the partnership's principal place of business is located, or the Claims Court. However, only the partnership, and not partners individually, can petition for a readjustment of partnership items.

If a petition for readjustment of partnership items is filed by the partnership, the court with which the petition is filed will have jurisdiction to determine the tax treatment of all partnership items of the partnership for the partnership taxable year to which the notice of partnership adjustment relates, and the proper allocation of such items among the partners. Thus, the court's jurisdiction is not limited to the items adjusted in the notice.

Statute of limitations

Absent an agreement to extend the statute of limitations, the IRS generally could not adjust a partnership item of a large partnership more than 3 years after the later of the filing of the partnership return or the last day for the filing of the partnership return. Special rules apply to false or fraudulent returns, a substantial omission of income, or the failure to file a return. The IRS would assess and collect any deficiency of a partner that arises from any adjustment to a partnership item subject to the limitations period on assessments and collection applicable to the year the adjustment takes effect (secs. 6248, 6501 and 6502).

Regulatory authority

The Secretary of the Treasury is granted authority to prescribe regulations as may be necessary to carry out the simplified audit procedure provisions, including regulations to prevent abuse of the provisions through manipulation. The regulations may include rules that address transfers of partnership interests, in anticipation of a partnership adjustment, to persons who are tax-favored (e.g., corporations with net operating losses, tax-exempt organizations, and foreign partners) or persons who are expected to be unable to pay tax (e.g., shell corporations). For example, if prior to the time a partnership adjustment takes effect, a taxable partner transfers a partnership interest to a nonresident alien to avoid the tax effect of the partnership adjustment, the rules may provide, among other things, that income related to the partnership adjustment is treated as effectively connected taxable income, that the partnership adjustment is treated as taking effect before the partnership interest was transferred, or that the former partner is treated as a current partner to whom the partnership adjustment is allocated.

Effective date

The provision applies to partnership taxable years ending on or after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the effective date is for partnership taxable years ending on or after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

c. Advance due date for furnishing information to partners of large partnerships

PRESENT LAW

A partnership required to file an income tax return with the IRS must also furnish an information return to each of its partners on or before the day on which the income tax return for the year is required to be filed, including extensions. Under regulations, a partnership must file its income tax return on or before the fifteenth day of the fourth month following the end of the partnership's taxable year (on or before April 15, for calendar year partnerships). This is the same deadline by which most individual partners file their tax returns.

HOUSE BILL

The House bill provides that a large partnership must furnish information returns to partners by the first March 15 following the close of the partnership's taxable year.

The bill also provides that, if the partnership is required to provide copies of the information returns to the IRS on magnetic media, each schedule (such as each Schedule K–1) with respect to each partner is treated as a separate information return with respect to the corrective periods and penalties that are generally applicable to all information returns.

Effective date.—Partnership taxable years ending on or after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the provision is effective for partnership taxable years ending on or after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

d. Partnership returns on magnetic media

PRESENT LAW

Partnerships are permitted, but not required, to provide the tax return of the partnership (Form 1065), as well as copies of the schedules sent to each partner (Form K–1), to the IRS on magnetic media.

HOUSE BILL

The House bill authorizes the IRS to require large partnerships and other partnerships with 250 or more partners to provide the tax return of the partnership (Form 1065), as well as copies of the schedules sent to each partner (Form K–1), to the IRS on magnetic media.

Effective date.—For partnerships that are large partnerships (as defined in the simplified reporting provision), the provision is effective for partnership taxable years ending on or after December 31, 1992. For partnerships that are not large partnerships (as defined) but that have 250 or more partners, the provision is effective for partnership taxable years ending on or after December 31, 1998.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the provision as applied to large partnerships (as defined) is effective for partnership taxable years ending on or after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. IRA filing requirements for income from certain unrelated trades and businesses

PRESENT LAW

Return filing requirements

An individual retirement account ("IRA") is a trust which generally is exempt from taxation except for the taxes imposed on income from an unrelated trade or business (sec. 408(e)(1)). Under regulations, a fiduciary of a trust that is exempt from taxation (but subject to the taxes imposed on income from an unrelated trade or business) generally is required to file a return on behalf of the trust for a taxable year if the trust has gross income of $1,000 or more included in computing unrelated business taxable income for that year (Treas. Reg. sec. 1.6012-3(a)(5)).

Unrelated business taxable income is the gross income (including gross income from a partnership) derived by an exempt organization from an unrelated trade or business, less certain deductions which are directly connected with the carrying on of such trade or business (sec. 512(a)(1)). In calculating unrelated business taxable income, exempt organizations (including IRAs) generally also are permitted a specific deduction of $1,000 (sec. 512(b)(12)).

For purposes of determining whether income is from an unrelated trade or business, the character of a partner's distributive share of partnership income generally is the same as if the income had been directly realized by the partner (sec. 512(c)).

Unified audits of partnerships

All but certain small partnerships are subject to unified audit rules established by the Tax Equity and Fiscal Responsibility Act of 1982. These rules require the tax treatment of all "partnership items" to be determined at the partnership, rather than the partner, level. Partnership items are those items that are more appropriately determined at the partnership level than at the partner level, including such items as gross income and deductions of the partnership.

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement modifies the filing threshold for an IRA with an interest in a partnership that is subject to the partnership-level audit rules. A fiduciary of such an IRA may treat the trust's share of partnership taxable income as gross income, for purposes of determining whether the trust meets the $1,000 gross income filing threshold. Thus, under the provision, a fiduciary of an IRA that receives taxable income from a partnership that is subject to partnership-level audit rules and gross income from any other unrelated trade or business will be required to file an income tax return where the sum of such taxable and gross income is $1,000 or more. A fiduciary of an IRA that receives taxable income from a partnership that is subject to partnership-level audit rules of less than $1,000 (before the $1,000 specific deduction) will not be required to file an income tax return if the IRA does not have any other income from an unrelated trade or business.

Effective date.—Taxable years ending on or after October 1, 1992.

3. Partnership proceedings under the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA)

a. Clarify the treatment of partnership items in deficiency proceedings

PRESENT LAW

TEFRA partnership proceedings must be kept separate from deficiency proceedings involving the partners in their individual capacities. Prior to the Tax Court's opinion in *Munro* v. *Commissioner*, 92 T.C. 71 (1989), the IRS computed deficiencies by assuming that all items that were subject to the TEFRA partnership procedures were correctly reported on the taxpayer's return. However, where the losses claimed from TEFRA partnerships were so large that they offset any proposed adjustments to nonpartnership items, no deficiency could arise from a non-TEFRA proceeding, and if the partnership losses were subsequently disallowed in a partnership proceeding, the non-TEFRA adjustments might be uncollectible because of the expiration of the statute of limitations with respect to nonpartnership items.

Faced with this situation in *Munro*, the IRS issued a notice of deficiency to the taxpayer that presumptively disallowed the taxpayer's TEFRA partnership losses for computational purposes only. Although the Tax Court ruled that a deficiency existed and that the court had jurisdiction to hear the case, the court disapproved of the methodology used by the IRS to compute the deficiency. Specifically, the court held that partnership items (whether income, loss, deduction, or credit) included on a taxpayer's return must be completely ignored in determining whether a deficiency exists that is attributable to nonpartnership items.

HOUSE BILL

The House bill overrules *Munro* and allows the IRS to return to its prior practice of computing deficiencies by assuming that all TEFRA items whose treatment has not been finally determined had been correctly reported on the taxpayer's return. This will eliminate the need to do special computations that involve the removal of TEFRA items from a taxpayer's return, and will restore to taxpayers a prepayment forum with respect to the TEFRA items. In addition, the bill provides a special rule to address the factual situation presented in *Munro*.

Specifically, the bill provides a declaratory judgment procedure in the Tax Court for adjustments to an oversheltered return. An oversheltered return is a return that shows no taxable income and a net loss from TEFRA partnerships. In such a case, the IRS is authorized to issue a notice of adjustment with respect to non-TEFRA items, notwithstanding that no deficiency would result from the adjustment. However, the IRS may only issue such a notice if a deficiency would have arisen in the absence of the net loss from TEFRA partnerships.

The Tax Court would be granted jurisdiction to determine the correctness of such an adjustment as well as to make a declaration with respect to any other item for the taxable year to which the notice of adjustment relates, except for partnership items and affected items which require partner-level determinations. No tax would be due upon such a determination, but a decision of the Tax Court would be treated as a final decision, permitting an appeal of the decision by either the taxpayer or the IRS. An adjustment determined to be correct would thus have the effect of increasing the taxable income that would be deemed to have been reported on the taxpayer's return. If the taxpayer's partnership items were then adjusted in a subsequent proceeding, the IRS would have preserved its ability to collect tax on any increased deficiency attributable to the nonpartnership items.

Alternatively, if the taxpayer chooses not to contest the notice of adjustment within the 90-day period, the bill provides that when the taxpayer's partnership items are finally determined, the taxpayer has the right to file a refund claim for tax attributable to the items adjusted by the earlier notice of adjustment for the taxable year. Although a refund claim is not generally permitted with respect to a deficiency arising from a TEFRA proceeding, such a rule is appropriate with respect to a defaulted notice of adjustment because taxpayers may not challenge such a notice when issued since it does not require the payment of additional tax.

In addition, the bill incorporates a number of provisions intended to clarify the coordination between TEFRA audit proceedings and individual deficiency proceedings. Under these provisions, any adjustment with respect to a non-partnership item that caused an increase in tax liability with respect to a partnership item would be treated as a computational adjustment and assessed after the conclusion of the TEFRA proceeding. Accordingly, deficiency procedures would not apply with respect to this increase in tax liability, and the statute of limitations applicable to TEFRA proceedings would be controlling.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

b. Permit the IRS to rely on partnership returns to determine the proper audit procedures

PRESENT LAW

TEFRA established unified audit rules applicable to all partnerships, except for partnerships with 10 or fewer partners, each of whom is a natural person (other than a nonresident alien) or an estate, and for which each partner's share of each partnership item is the same as that partner's share of every other partnership item. Partners in the exempted partnerships are subject to regular deficiency procedures.

HOUSE BILL

The House bill permits the IRS to apply the TEFRA audit procedures if, based on the partnership's return for the year, the IRS reasonably determines that those procedures should apply. Similarly, the bill permits the IRS to apply the normal deficiency procedures if, based on the partnership's return for the year, the IRS reasonably determines that those procedures should apply.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

c. Statute of limitations suspensions

i. Suspend statute when an untimely petition is filed

PRESENT LAW

In a deficiency case, section 6503(a) provides that if a proceeding in respect of the deficiency is placed on the docket of the Tax Court, the period of limitations on assessment and collection is suspended until the decision of the Tax Court becomes final, and for 60 days thereafter. The counterpart to this provision with respect to TEFRA cases is contained in section 6229(d). That section provides that the period of limitations is suspended for the period during which an action may be brought under section 6226 and, if an action is brought during such period, until the decision of the court becomes final, and for 1 year thereafter. As a result of this difference in language, the running of the statute of limitations in a TEFRA case will only be tolled by the filing of a timely petition whereas in a deficiency case, the statute of limitations is tolled by the filing of any petition, regardless of whether the petition is timely.

House Bill

The House bill conforms the suspension rule for the filing of petitions in TEFRA cases with the rule under section 6503(a) pertaining to deficiency cases. Under the provision, the statute of limitations in TEFRA cases would be suspended by the filing of any petition under section 6226, regardless of whether the petition is timely or valid, and the suspension will remain in effect until the decision of the court becomes final, and for one year thereafter. Hence, if the statute of limitations is open at the time that an untimely petition is filed, the limitations period will no longer continue to run and possibly expire while the action is pending before the court.

Effective date.—The provision is effective with respect to all cases in which the period of limitations has not expired under present law as of the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

ii. Suspend statute of limitations during bankruptcy proceedings

Present Law

The period for assessing tax with respect to partnership items generally is the longer of the periods provided by section 6229 or section 6501. For partnership items that convert to nonpartnership items, section 6229(f) provides that the period for assessing tax shall not expire before the date which is 1 year after the date that the items become nonpartnership items. Section 6503(h) provides for the suspension of the limitations period during the pendency of a bankruptcy proceeding. However, this provision only applies to the limitations periods provided in sections 6501 and 6502.

Under present law, because the suspension provision in section 6503(h) applies only to the limitations periods provided in section 6501 and 6502, some uncertainty exists as to whether section 6503(h) applies to suspend the limitations period pertaining to converted items provided in section 6229(f) when a petition naming a partner as a debtor in a bankruptcy proceeding is filed. As a result, the limitations period provided in section 6229(f) may continue to run during the pendency of the bankruptcy proceeding, notwithstanding that the IRS is prohibited from making an assessment against the debtor because of the automatic stay provisions of the Bankruptcy Code.

House Bill

The House bill clarifies that the statute of limitations is suspended for a partner who is named in a bankruptcy petition. The suspension period is for the entire period during which the IRS is prohibited by reason of the bankruptcy proceeding from making an assessment, and for 60 days thereafter. The provision is not intended to create any inference as to the proper interpretation of present law.

Effective date.—The provision is effective with respect to all cases in which the period of limitations has not expired under present law as of the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

iii. Extend statute of limitations for bankrupt TMPs

Present Law

Section 6229(b)(1)(B) provides that the statute of limitations is extended with respect to all partners in the partnership by an agreement entered into between the tax matters partner (TMP) and the IRS. However, Temp. Treas. Reg. secs. 301.6231(a)(7)–1T(l)(4) and 301.6231(c)–7T(a) provide that upon the filing of a petition naming a partner as a debtor in a bankruptcy proceeding, that partner's partnership items convert to nonpartnership items, and if the debtor was the tax matters partner, such status terminates. These rules are necessary because of the automatic stay provision contained in 11 U.S.C. sec. 362(a)(8). As a result, if a consent to extend the statute of limitations is signed by a person who would be the TMP but for the fact that at the time that the agreement is executed the person was a debtor in a bankruptcy proceeding, the consent would not be binding on the other partners because the person signing the agreement was no longer the TMP at the time that the agreement was executed.

House Bill

The House bill provides that unless the IRS is notified of a bankruptcy proceeding in accordance with regulations, the IRS can rely on a statute extension signed by a person who would be the tax matters partner but for the fact that said person was in bankruptcy at the time that the person signed the agreement. Statute extensions granted by a bankrupt TMP in these cases will be binding on all of the partners in the partnership. The provision is not intended to create any inference as to the proper interpretation of present law.

Effective date.—The provision is effective for extension agreements entered into after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

d. Expand small partnership exception from TEFRA

Present Law

TEFRA established unified audit rules applicable to all partnerships, except for partnerships with 10 or fewer partners, each of whom is a natural person (other than a nonresident alien) or an estate, and for which each partner's share of each partnership item is the same as that partner's share of every other partnership item. Partners in the exempted partnerships are subject to regular deficiency procedures.

House Bill

The House bill permits a small partnership to have a C corporation as a partner or to specially allocate items without jeopardizing its exception from the TEFRA rules. However, the bill retains the prohibition of present law against having a flow-through entity (other than an estate of a deceased partner) as a partner for purposes of qualifying for the small partnership exception.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

e. Exclude partial settlements from 1-year assessment rule

Present Law

The period for assessing tax with respect to partnership items generally is the longer of the periods provided by section 6229 or section 6501. For partnership items that convert to nonpartnership items, section 6229(f) provides that the period for assessing tax shall not expire before the date which is 1 year after the date that the items become nonpartnership items. Section 6231(b)(1)(C) provides that the partnership items of a partner for a partnership taxable year become nonpartnership items as of the date the partner enters into a settlement agreement with the IRS with respect to such items.

House Bill

The House bill provides that if a partner and the IRS enter into a settlement agreement with respect to some but not all of the partnership items in dispute for a partnership taxable year and other partnership items remain in dispute, the period for assessing any tax attributable to the settled items would be determined as if such agreement had not been entered into. Consequently, the limitations period that is applicable to the last item to be resolved for the partnership taxable year shall be controlling with respect to all disputed partnership items for the partnership taxable year. The provision is not intended to create any inference as to the proper interpretation of present law.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill, except that the effective date is for settlements entered into after the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment.

f. Extend time for filing a request for administrative adjustment where an agreement to extend the statute of limitations is entered

Present Law

If an agreement extending the statute is entered into with respect to a non-TEFRA statute of limitations, that agreement also extends the statute of limitations for filing refund claims (sec. 6511(c)). There is no comparable provision for extending the time for filing refund claims with respect to partnership items subject to the TEFRA partnership rules.

House Bill

The House bill provides that if a TEFRA statute extension agreement is entered into, that agreement also extends the statute of limitations for filing refund claims attributable to partnership items or affected items until 6 months after the expiration of the limitations period for assessments.

Effective date.—The provision is effective as if included in the amendments made by section 402 of the Tax Equity and Fiscal Responsibility Act of 1982.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

g. Provide innocent spouse relief for TEFRA proceedings

PRESENT LAW

In general, an innocent spouse may be relieved of liability for tax, penalties and interest if certain conditions are met (sec. 6013(e)). However, existing law does not provide the spouse of a partner in a TEFRA partnership with a judicial forum to raise the innocent spouse defense with respect to any tax or interest that relates to an investment in a TEFRA partnership.

HOUSE BILL

The House bill provides both a prepayment forum and a refund forum for raising the innocent spouse defense in TEFRA cases.

With respect to a prepayment forum, the bill provides that within 60 days of the date that a notice and demand for payment (or notice of computational adjustment) relating to partnership items is mailed to the spouse of a partner, the spouse may request that the assessment be abated. Upon receipt of such a request, the assessment will be abated and any reassessment will be subject to the deficiency procedures. If an abatement is requested, the statute of limitations will not expire before the date which is 60 days after the date of the abatement. If the spouse files a petition with the Tax Court, the Tax Court will only have jurisdiction to determine whether the requirements of section 6013(e) have been satisfied. In making this determination, the treatment of the partnership items that gave rise to the liability in question will be conclusive.

Alternatively, the bill provides that the spouse of a partner may file a claim for refund to raise the innocent spouse defense. The claim must be filed within 6 months from the date that the notice and demand (or notice of computational adjustment) is mailed to the spouse. If the claim is not allowed the spouse may file a refund action. For purposes of any claim or suit under this provision, the treatment of the partnership items that gave rise to the liability in question will be conclusive.

Effective date.—The provision is effective as if included in the amendments made by section 402 of the Tax Equity and Fiscal Responsibility Act of 1982.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the time period for filing a request for abatement or a claim for refund is started after the mailing of the notice of computational adjustment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

h. Determine penalties at the partnership level

PRESENT LAW

Partnership items include only items that are required to be taken into account under the income tax subtitle. Penalties are not partnership items since they are contained in the procedure and administration subtitle. As a result, penalties may only be asserted against a partner through the application of the deficiency procedures following the completion of the partnership-level proceeding.

HOUSE BILL

The House bill provides that the partnership level proceeding is to include a determination of the applicability of penalties at the partnership level. However, the bill allows partners to raise any partner-level defenses in a refund forum.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

i. Clarify jurisdiction of the Tax Court

PRESENT LAW

Improper assessment and collection activities by the IRS during the 150-day period for filing a petition or during the pendency of any Tax Court proceeding, "may be enjoined in the proper court." Present law may be unclear as to whether this includes the Tax Court.

For a partner other than the Tax Matters Partner to be eligible to file a petition for redetermination of partnership items in any court or to participate in an existing case, the period for assessing any tax attributable to the partnership items of that partner must not have expired. Since such a partner would only be treated as a party to the action if the statute of limitations with respect to them was still open, the law is unclear whether the partner would have standing to assert that the statute of limitations had expired with respect to them.

HOUSE BILL

The House bill clarifies that an action to enjoin premature assessments of deficiencies attributable to partnership items may be brought in the Tax Court. The bill also permits a partner to participate in an action or file a petition for the sole purpose of asserting that the period of limitations for assessing any tax attributable to partnership items has expired for that person. Additionally, the bill clarifies that the Tax Court has overpayment jurisdiction with respect to affected items.

Effective date.—The provision is effective for partnership taxable years ending after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

j. Treatment of premature petitions filed by certain partners

PRESENT LAW

The Tax Matters Partner is given the exclusive right to file a petition for a readjustment of partnership items within the 90-day period after the issuance of the notice of a final partnership administrative adjustment (FPAA). If the Tax Matters Partner does not file a petition within the 90-day period, certain other partners are permitted to file a petition within the 60-day period after the close of the 90-day period. There are ordering rules for determining which action goes forward and for dismissing other actions.

HOUSE BILL

The House bill treats premature petitions filed by certain partners within the 90-day period will be treated as being filed on the last day of the following 60-day period under specified circumstances, thus affording the partnership with an opportunity for judicial review that is not available under present law.

Effective date.—The provision is effective with respect to petitions filed after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

k. Clarify bond requirement for appeals from TEFRA proceedings

PRESENT LAW

A bond must be filed to stay the collection of deficiencies pending the appeal of the Tax Court's decision in a TEFRA proceeding. The amount of the bond must be based on the court's estimate of the aggregate deficiencies of the partners.

HOUSE BILL

The House bill clarifies that the amount of the bond should be based on the Tax Court's estimate of the aggregate liability of the parties to the action (and not all of the partners in the partnership). For purposes of this provision, the amount of the bond may be estimated by applying the highest individual rate to the total adjustments determined by the Tax Court and doubling that amount to take into account interest and penalties.

Effective date.—The provision is effective as if included in the amendments made by section 402 of the Tax Equity and Fiscal Responsibility Act of 1982.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

l. Suspend interest where there is a delay in computational adjustment resulting from TEFRA settlements

PRESENT LAW

Interest on a deficiency generally is suspended when a taxpayer executes a settlement agreement with the IRS and waives the restrictions on assessments and collections, and the IRS does not issue a notice and demand for payment of such deficiency within 30 days. Interest on a deficiency that results from an adjustment of partnership items in TEFRA proceedings, however, is not suspended.

HOUSE BILL

The House bill suspends interest where there is a delay in making a computational adjustment relating to a TEFRA settlement.

Effective date.—The provision is effective with respect to settlements entered into after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

m. Extend time for filing a request for administrative adjustment relating to worthless securities and bad debts (sec. 4316(b) (of the Senate amendment)

PRESENT LAW

The non-TEFRA statute of limitations for filing a claim for credit or refund generally is the later of (1) three years from the date the return in question was filed or (2) two years from the date the claimed tax was paid, whichever is later (sec. 6511(b)). However, an extended period of time, seven years from the date the return was due, is provided for filing a claim for refund of an overpayment resulting from a deduction for a worthless security or bad debt (sec. 6511(d)).

Under the TEFRA partnership rules, a request for administrative adjustment ("RAA") must be filed within three years after the later of (1) the date the partnership return was filed or (2) the due date of the partnership return (determined without regard to extensions) (sec. 6227(a)(1)). In addition, the request must be filed before a final partnership administrative adjustment ("FPAA") is mailed for the taxable year (sec. 6227(a)(2)). There is no special provision for extending the time for filing an RAA that relates to a deduction for a worthless security or an entirely worthless bad debt.

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides a special provision for extending the time for the filing of an RAA relating to the deduction by a partnership for a worthless security or bad debt. In these circumstances, in lieu of the three-year period provided in sec. 6227(a)(1), the period for filing an RAA will be seven years from the date the partnership return was due with respect to which the request is made (determined without regard to extensions). The RAA must still be filed before the FPAA is mailed for the taxable year.

Effective date.—The provision is effective as if included in the amendments made by section 402 of the Tax Equity and Fiscal Responsibility Act of 1992. The conferees understand that, in the past, the IRS issued FPAAs that reflected no administrative adjustment whatsoever to a partnership's tax return. This action created wasteful paperwork, and may have, in some cases truncated the appeals rights of individual partners. The conferees have therefore provided a special rule to permit partners who may have been adversely impacted by this past practice of the IRS to avail themselves of the extended period irrespective of whether an FPAA has been issued.

D. FOREIGN PROVISIONS

1. Deferral of tax on income earned through foreign corporations and exceptions to deferral

PRESENT LAW

U.S. citizens and residents and U.S. corporations (collectively, "U.S. persons") generally are taxed currently by the United States on their worldwide income. Income earned by a foreign corporation, the stock of which is owned in whole or in part by U.S. persons, generally is not taxed by the United States until the foreign corporation repatriates those earnings by payment to its U.S. stockholders.

The Code sets forth several regimes providing exceptions to the general rule deferring U.S. tax on income earned indirectly through a foreign corporation: the controlled foreign corporation rules (secs. 951-964); the foreign personal holding company rules (secs. 551-558); passive foreign investment company (PFIC) rules (secs. 1291-1297); the personal holding company rules (secs. 541-547); the accumulated earnings tax (secs. 531-537); and rules for foreign investment companies (sec. 1246) and electing foreign investment companies (sec. 1247). These separate regimes have complex and overlapping application to foreign corporations with U.S. stockholders.

HOUSE BILL

The House bill replaces the separate anti-deferral regimes of present law with a unified set of rules. The House bill retains the controlled foreign corporation rules as the foundation of its unified anti-deferral regime. It includes a modified version of the PFIC rules while eliminating the other regimes as redundant to one or the other.

The House bill creates a single definition of a passive foreign corporation (PFC) that will unify and replace the foreign personal holding company and PFIC definitions. The rules applicable to PFCs represent a hybrid of characteristics of the foreign personal holding company rules, the PFIC rules, and the controlled foreign corporation rules (subpart F), plus a new mark-to-market regime, as well as a variety of simplifying or technical changes to or clarifications of rules under the existing systems.

One such clarification provides that any foreign trade income of a foreign sales corporation does not constitute passive income for purposes of the PFIC definition.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, with three modifications.

First, the Senate amendment does not include the clarification of present law with respect to the income of foreign sales corporations.

Second, the Senate amendment includes a netting rule for the application of the PFC income and asset tests to sale and repurchase transactions in securities,[1] entered into by a foreign corporation that is engaged in the active conduct of a trade or business as a dealer in securities, and properly treated as offsetting agreements in a "matched book." Such offsetting agreements are referred to as "qualified matched transactions." Under the Senate amendment, offsetting debt liabilities and assets resulting from qualified matched transactions are netted, and only the net asset position (if any) is treated as an asset held by a foreign corporation for purposes of applying the PFC definition. Similarly, the Senate amendment provides that the offsetting interest expense and income resulting from qualified matched transactions is netted and the net income, if positive, is treated as an item of gross income under the PFC definition. The reduction in gross income or assets that may result from application of this provision to a corporation does not apply for any purpose other than testing a foreign corporation for PFC status.

Third, the Technical Explanation of the Senate Finance Committee amendment to H.R. 11 states that the committee intends that a study be conducted by the Treasury Department as to the tax treatment for purposes of the PFC rules of securities sale and repurchase transactions and securities lending and borrowing transactions, and the consequences and merits of possible changes in such tax treatment. The Technical Explanation further states that the committee intends that the Treasury study be completed within one year after the date of enactment of the bill.

CONFERENCE AGREEMENT

The conference agreement includes all provisions of both the House bill and the Senate amendment, plus certain technical corrections described below.

Specifically, the conference agreement includes the House bill's clarification of present law with respect to the income of foreign sales corporations, the Senate amendment's netting rule for the application of the PFC income and asset tests to income and assets arising from qualified matched transactions, and the Treasury Department study described in the Technical Explanation of the Senate Finance Committee amendment to H.R. 11.

The conferees anticipate that Treasury regulations will provide guidance as to what constitutes a "matched book;" what sale and repurchase transactions are considered to offset each other in a "matched book;" what constitutes the entry into matched book transactions in the active conduct of a trade or business of being a dealer in securities; and how the netting procedure will be carried out to arrive at amounts of gross income and assets for PFC definitional purposes.[2]

The conferees intend that, in practice, the effect of this provision shall be only to mitigate the effect of the PFC rules on a company insofar as it is actively engaged in the business of providing the services of a financial intermediary to unrelated parties, rather than used as a vehicle for investment in stock, securities, or other financial products on behalf of its shareholders or other related parties. The conferees are aware of other instances in the Code and regulations where it is necessary to draw similar distinctions, and invite the Treasury to consider whether any tests employed in those provisions are suitable in light of the purposes of provision.

For example, rules under subpart F may require a determination whether a foreign corporation is a regular dealer within the meaning of section 954(c)(1)(B) in stocks, securities, or derivative financial products during its taxable year. As another example, under the PFIC rules of present law (as under the PFC rules in the bill) a foreign corporation, to the extent provided in regulations, may be exempted from passive characterization of its interest income from the active conduct of a banking business. Guidance has been issued under this provision analogous to the guidance that might be issued under the matched-book provision. As a third example, guidance has been issued under the foreign tax credit limitation regulations for identifying financial services entities.

As in the cases of the PFIC bank rules and the foreign tax credit limitation rules on financial services entities, the conferees believe that the Treasury could consider a variety of activities that may indicate the existence of an active securities business.[3]

---

[1] The Technical Explanation of the Senate Finance Committee amendment to H.R. 11 sometimes refers to such sale and repurchase agreements by using two industry shorthand terms: "repo" and "reverse."

[2] The conferees are informed that shorthand terms other than "repo" and "reverse" may also be used to describe sale and repurchase transactions that, under the conference agreement, may be within the scope of the Treasury's authority to treat as parts of a qualified matched transaction. Although the conferees are aware that the terms "repo" and "reverse" were used to describe sale and repurchase transactions in the Technical Explanation of the Senate Finance Committee amendment to H.R. 11, the conferees do not intend that the application of the conference agreement be affected by the use of shorthand terms other than these to refer to transactions described in the conference agreement.

In addition, in appropriate circumstances, the Treasury might consider it relevant that a foreign corporation is or is not registered or authorized in the country in which it conducts its principal securities dealer operations to conduct the bona fide securities activities that it performs in that country, and is subject to the appropriate securities regulatory authorities of that jurisdiction.

The foregoing list of possible approaches and factors to take into account is not intended to be exclusive of other approaches or factors not mentioned. Nor is it intended to suggest that the presence of any of the factors mentioned above, or the passing or failing of any test existing under present law, must be used by Treasury to determine the outcome of the question whether a foreign corporation is engaged in the active conduct of a trade or business as a dealer in securities. The conferees do not intend to limit the Treasury's discretion to fashion rules suitable to the purposes of the provision.

The conference agreement also requires that the Secretary of the Treasury conduct a study as to the tax treatment for purposes of the PFC rules of securities sale and repurchase transactions and securities lending and borrowing transactions. The Secretary is required, not later than one year after the date of the enactment of the bill, to submit to the House Ways and Means Committee and the Senate Finance Committee a report on the required study, together with such recommendations as the Secretary may deem advisable.

In addition, the conference agreement includes technical corrections that ensure that two aspects of the bill will be understood and interpreted consistently with the intention expressed both in the Report of the House Ways and Means Committee to accompany H.R. 11 and in the Technical Explanation of the Senate Finance Committee amendment to H.R. 11. First, the conference agreement clarifies that the interest-charge regime does not apply so as to impose additional tax and interest on the portion of gain deemed attributable to years prior to the first year of the taxpayer's holding period for which the foreign corporation is a PFIC or PFC under the law then applicable. Second, the conference agreement clarifies that the interest-charge regime does not apply to a shareholder with respect to stock in a PFC that was subject to current inclusion of income (whether elective or mandatory) for all years for which the foreign corporation is a PFIC or PFC under the law then applicable.

2. Treatment of controlled foreign corporations

PRESENT LAW

Treatment of controlled foreign corporation earnings

In general

A U.S. shareholder generally treats dividends from a controlled foreign corporation as ordinary income from foreign sources that carries both direct and indirect foreign tax credits. Under look-through rules, the income and credits are subject to those foreign tax credit limitations which are consistent with the character of the income of the foreign corporation.

Several Code provisions result in similar tax treatment of a U.S. shareholder if it either disposes of the controlled foreign corporation stock, or the controlled foreign corporation realizes certain types of income (including income with respect to lower-tier controlled foreign corporations). First, under section 1248, gain resulting from the disposition by a U.S. person of stock in a foreign corporation that was a controlled foreign corporation with respect to which the U.S. person was a U.S. shareholder in the previous five years is treated as a dividend to the extent of allocable earnings.

Second, a controlled foreign corporation has subpart F income when it realizes gain on disposition of stock and, ordinarily, when it receives a dividend. Under sections 951 and 960, such subpart F income may result in taxation to the U.S. shareholder similar (but not identical) to that on a dividend from the controlled foreign corporation. In addition to provisions for characterizing income and credits in these situations, the Code also provides certain rules that adjust basis, or otherwise result in modifying the tax consequences of subsequent income, to account for these and other subpart F income inclusions.

Third, when in exchange for property any corporation (including a controlled foreign corporation) acquires stock in another corporation (including a controlled foreign corporation) controlled by the same persons that control the acquiring corporation, earnings of the acquiring corporation (and possibly the acquired corporation) may be treated under section 304 as having been distributed as a dividend to the seller.

For foreign tax credit separate limitation purposes, a controlled foreign corporation is not treated as a noncontrolled section 902 corporation with respect to any distribution out of its earnings and profits for periods during which it was a controlled foreign corporation and except as provided in regulations, the recipient of the distribution was a U.S. shareholder in such corporation.[1] The consequence of not being treated as a section 902 corporation is application of the so-called "look-through" rule. That is, dividends paid by such controlled foreign corporation to its U.S. shareholder are characterized for separate limitation purposes by reference to the character of the underlying earnings of the controlled foreign corporation.

Lower-tier controlled foreign corporations

For purposes of applying the separate foreign tax credit limitations, receipt of a dividend from a lower-tier controlled foreign corporation by an upper-tier controlled foreign corporation may result in a subpart F income inclusion for the U.S. shareholder that is treated as income in the same limitation category as the income of the lower-tier controlled foreign corporation. The income inclusion of the U.S. shareholder may carry deemed-paid credits for foreign taxes paid by the lower-tier controlled foreign corporation, and the basis of the U.S. shareholder in the stock of the first-tier controlled foreign corporation is increased by the amount of the inclusion. If, on the other hand, the upper-tier controlled foreign corporation sells stock of a lower-tier controlled foreign corporation, then the gain generally is also included in the income of the U.S. shareholder as subpart F income and the U.S. shareholder's basis in the stock of the first-tier controlled foreign corporation is increased to account for the inclusion, but the inclusion is not treated for foreign tax credit limitation purposes by reference to the nature of the income of the lower-tier controlled foreign corporation. Instead it generally is treated as passive income.

If subpart F income of a lower-tier controlled foreign corporation is included in the gross income of a U.S. shareholder, no provision of present law allows adjustment of the basis of the upper-tier controlled foreign corporation's stock in the lower-tier controlled foreign corporation.

Subpart F inclusions in year of disposition

The subpart F income earned by a foreign corporation during its taxable year is taxed to the persons who are U.S. shareholders of the corporation on the last day, in that year, on which the corporation is a controlled foreign corporation. In the case of a U.S. shareholder who acquired stock in a controlled foreign corporation during the year, such inclusions are reduced by all or a portion of the amount of dividends paid in that year by the foreign corporation to any person other than the acquirer with respect to that stock. The reduction is the lesser of the amount of dividends with respect to such stock received by other persons during the year or the amount determined by multiplying the subpart F income for the year by the proportion of the year during which the acquiring shareholder did not own the stock.

Distributions of previously taxed income

If in a year after the year of a subpart F income inclusion, a U.S. shareholder in the controlled foreign corporation receives a distribution from the corporation, the distribution may be deemed to come first out of the corporation's previously taxed income and, therefore, may be excluded from the U.S. shareholder's income. However, a distribution by a foreign corporation to a domestic corporation of earnings and profits previously taxed under subpart F is treated as an actual dividend, solely for purposes of determining the indirect foreign tax credit available to the domestic corporation (sec. 960(a)(3)).

---

[3] Such activities might include: (a) purchasing or selling stock, debt obligations, commodity futures or other securities or derivative financial products (including notional principal contracts) from or to unrelated persons, and holding stock, debt obligations and other securities as inventory for sale to customers; (b) arranging notional principal contracts and other hedging transactions for, or entering into such transactions or any other derivative financial products with, unrelated persons who are customers; (c) arranging foreign exchange transactions for, or engaging in foreign exchange transactions with, unrelated persons who are customers; (d) underwriting issues of stocks, debt obligations or other securities under best-efforts or firm-commitment agreements with unrelated persons; (e) purchasing, selling, discounting, or negotiating on a regular basis for unrelated persons notes, drafts, checks, bills of exchange, acceptances or other evidences of indebtedness; (f) lending stocks or securities to unrelated persons; (g) providing finance leasing (which would not qualify as active leasing income under sec. 954(c)(2)(A)) to unrelated persons; (h) engaging in hedging activities directly related to bona fide securities activities described in items (a) through (g) of this list; (i) servicing mortgages; (j) investment banking activities; (k) providing financial or investment advisory services, investment management services, fiduciary services, trust services, or custodial services to unrelated persons; (l) providing margin or other financing for customers secured by securities or money market instruments, including repurchase agreements, or financing in connection with any of the bona fide securities activities described in items (a) through (k) of this list; (m) disposing of any property (whether tangible or intangible, personal or real) that was used in the active conduct of the securities business, but only to the extent that the property was held in connection with a bona fide securities activity; and (n) any other activity that the Secretary may determine to be a bona fide securities activity that is commonly conducted by active foreign securities dealers in the ordinary course of their securities business.

[1] Under proposed regulations recently issued by the IRS, if a controlled foreign corporation distributes a dividend to an upper-tier controlled foreign corporation or to a United States shareholder that owns directly or indirectly more then 90 percent of the total combined voting power of the controlled foreign corporation at the time of the distribution, and the dividend is attributable to earnings and profits accumulated during a period in which the distributing corporation was a controlled foreign corporation but the 90 percent or more United States shareholder was not a United States shareholder of the corporation, the dividend generally would be treated as a dividend from a noncontrolled section 902 corporation. (Prop. Treas. Reg. sec. 1.904-4(g)(3)(ii).

In addition, the domestic corporation is permitted to increase its foreign tax credit limitation in the year of the distribution of previously taxed earnings and profits in an amount equal to the excess of the amount by which its foreign tax credit limitation for the year of the subpart F inclusion was increased as a result of that inclusion, over the amount of foreign taxes which were allowable as a credit in that year and which would not have been so allowable but for the subpart F inclusion (sec. 960(b)). The increase in the foreign tax credit limitation may not, however, exceed the amount of the foreign taxes taken into account under this provision with respect to the distribution of previously taxed earnings and profits. In order for this rule to apply, the domestic corporation either must have elected to credit foreign taxes in the year of the subpart F inclusion or must not have paid or accrued any foreign taxes in such year, and it must elect the foreign tax credit in the year of the distribution of previously taxed earnings and profits.

Treatment of United States source income earned by a controlled foreign corporation

As a general rule, subpart F income does not include income earned from sources within the United States if the income is effectively connected with the conduct of a U.S. trade or business by the controlled foreign corporation. This general rule does not apply, however, if the income is exempt from, or subject to a reduced rate of, U.S. tax pursuant to a provision of a U.S. treaty.

Indirect foreign tax credits

A U.S. corporation owning at least 10 percent of the voting stock of a foreign corporation is treated as if it had paid a share of the foreign income taxes paid by the foreign corporation in the year in which the foreign corporation's earnings and profits become subject to U.S. tax as dividend income of the U.S. shareholder (sec. 902(a)).

A U.S. corporation may also be deemed to have paid taxes paid by a second- or third-tier foreign corporation. That is, where a first-tier foreign corporation pays a dividend to a 10-percent-or-more U.S. corporate shareholder, then for purposes of deeming the U.S. corporation to have paid foreign tax, the first-tier foreign corporation may be deemed to have paid a share of the foreign taxes paid by a second-tier foreign corporation of which the first-tier foreign corporation owns at least 10 percent of the voting stock, and from which the first-tier foreign corporation received dividends. The same principle applies to dividends from a second-tier or third-tier foreign corporation. No taxes paid by a second- or third-tier foreign corporation are deemed paid by the first- or second-tier foreign corporation, respectively, unless the product of the percentage ownership of voting stock at each level from the U.S. corporation down equals at least 5 percent (sec. 902(b)). Under present law, foreign taxes paid below the third tier of foreign corporations are not eligible for the indirect foreign tax credit.

An indirect foreign tax credit generally is also available to a U.S. corporate shareholder meeting the requisite ownership threshold with respect to inclusions of subpart F income from controlled foreign corporations (sec. 960(a)).[2] Moreover, an indirect foreign tax credit may also be available to U.S. corporate shareholders with respect to inclusions of income from passive foreign investment companies.

Investments in U.S. property by controlled foreign corporations

As described above in Item D.1., investments by controlled foreign corporations in U.S. property (e.g., certain debt obligations of U.S. persons) are sometimes treated similarly to repatriations (sec. 951(a)(1)(B)). A controlled foreign corporation is not treated as having repatriated foreign earnings if it invests in an obligation of an unrelated U.S. corporation, as defined specially for this purpose (sec. 956(b)(2)(F)).

HOUSE BILL

In general

The House bill makes a number of modifications in the treatment of income derived from the disposition of stock in a controlled foreign corporation. The House bill provides deemed dividend treatment for gains on dispositions of lower-tier controlled foreign corporations. Where the lower-tier controlled foreign corporation previously earned subpart F income, the House bill permits the amount of gain taxed to the U.S. shareholder to be adjusted for previous income inclusions. Where proceeds from the sale of stock to a controlled foreign corporation that previously has earned subpart F income would be treated as a dividend under the principles of section 304, the House bill expressly permits exclusion of the deemed section 304 dividend from taxation to the extent of the previously taxed earnings and profits of the controlled foreign corporation from which the property was deemed to be distributed. (Appropriate basis adjustments also are permitted to be made.) Where a controlled foreign corporation (whether or not it is a lower-tier controlled foreign corporation) earns subpart F income in a year in which a U.S. shareholder sells its stock, in a transaction that does not result in the foreign corporation ceasing to be a controlled foreign corporation, the House bill contains statutory language providing for a proportional reduction in the taxation of the subpart F income in that year to the acquiring U.S. shareholder.

The House bill contains four additional provisions related to controlled foreign corporations. First, the House bill repeals the limitation on look-through treatment (for foreign tax credit separate limitation purposes) of dividends from controlled foreign corporations to U.S. shareholders out of earnings from periods in which the payor was a controlled foreign corporation, but the dividend recipient was not a U.S. shareholder of the controlled foreign corporation. Second, the House bill provides regulatory authority to develop a simplified mechanism for computing indirect foreign tax credits and increases in foreign tax credit limitations resulting upon certain distributions by controlled foreign corporations of previously taxed earnings and profits. Third, the House bill clarifies the effect of a treaty exemption or reduction of the branch profits tax on the determination of subpart F income. Fourth, the House bill extends application of the indirect foreign tax credit to fourth-, fifth-, and sixth-tier controlled foreign corporations where the necessary ownership thresholds (as extended under the House bill to these tiers) are satisfied.

Lower-tier controlled foreign corporations

Characterization of gain on stock disposition

The House bill provides that if a controlled foreign corporation is treated as having gain from the sale or exchange of stock in a foreign corporation, the gain is treated as a dividend to the same extent that it would have been so treated under section 1248 if the controlled foreign corporation were a U.S. person. This provision, however, does not affect the determination of whether the corporation whose stock is sold or exchanged is a controlled foreign corporation.

Thus, for example, if a U.S. corporation owns 100 percent of the stock a foreign corporation, which owns 100 percent of the stock of a second foreign corporation, then under the House bill, any gain of the first corporation upon a sale or exchange of stock of the second corporation is treated as a dividend for purposes of subpart F income inclusions to the U.S. shareholder, to the extent of earnings and profits of the second corporation attributable to periods in which the first foreign corporation owned the stock of the second foreign corporation while the latter was a controlled foreign corporation with respect to the U.S. shareholder.

As another example, assume that the U.S. corporation has always owned 40 percent of the voting stock and 60 percent of the value of all of the stock of a foreign corporation, which has always owned 40 percent of the voting stock and 60 percent of the value of all of the stock of a second foreign corporation. All the other stock of the foreign corporations has always been owned by foreign individuals unrelated to the U.S. corporation. In this case, the second foreign corporation has never been a controlled foreign corporation. Therefore, none of the gain of the first corporation upon a sale of stock of the second corporation is treated as a dividend.

Gain on disposition of stock in a related corporation created or organized under the laws of, and having substantial part of assets in a trade or business in, the same foreign country as the gain recipient, even if recharacterized as a dividend under the House bill, is not therefore excluded from foreign personal holding company income under the same-country exception that applies to actual dividends.

The House bill provides that for purposes of this provision, a controlled foreign corporation is treated as having sold or exchanged stock if, under any provision of subtitle A of the Code, the controlled foreign corporation is treated as having gain from the sale or exchange of such stock. Thus, for example, if a controlled foreign corporation distributes to its shareholder stock in a foreign corporation, and the distribution results in gain being recognized by the controlled foreign corporation under section 311(b) as if the stock were sold to the shareholder for fair market value, the House bill makes clear that for purposes of this provision, the controlled foreign corporation is treated as having sold or exchanged the stock.

The House bill also repeals a provision added to the Code by the Technical and Miscellaneous Revenue Act of 1988[3] (the "1988

---

[2] Unlike the indirect foreign tax credit for actual dividend distributions, the indirect credit for subpart F inclusions can be available to individual shareholders in certain circumstances if an election is made (sec. 962).

[3] P.L. 100-647, sec. 1012(a)(10).

Act") which, except as provided by regulations, requires a recipient of a distribution from a controlled foreign corporation to have been a United States shareholder of that controlled foreign corporation for the period during which the earnings and profits which gave rise to the distribution were generated in order to avoid treating the distribution as one coming from a noncontrolled section 902 corporation. Thus, under the House bill, a controlled foreign corporation is not treated as a noncontrolled section 902 corporation with respect to any distribution out of its earnings and profits for periods during which it was a controlled foreign corporation, whether or not the recipient of the distribution was a U.S. shareholder of the corporation when the earnings and profits giving rise to the distribution were generated.

Adjustments to basis of stock

The House bill also provides that when a lower-tier controlled foreign corporation earns subpart F income, and stock in that corporation is later disposed of by an upper-tier controlled foreign corporation, the resulting income inclusion of the U.S. shareholders are, under regulations, adjusted to account for previous inclusions, in a manner similar to the adjustments currently provided to the basis of stock in a first-tier controlled foreign corporation. Thus, just as the basis of a U.S. shareholder in a first-tier controlled foreign corporation rises when subpart F income is earned and falls when previously taxed income is distributed, so as to avoid double taxation of the income on a later disposition, it is intended that by regulation the subpart F income from gain on the disposition of a lower-tier controlled foreign corporation generally would be reduced by income inclusions of earnings that were not subsequently distributed by the lower-tier controlled foreign corporation. It is intended that the Secretary will have sufficient flexibility in promulgating regulations under this provision to permit adjustments only in those cases where, by virtue of the historical ownership structure of the corporations involved, the Secretary is satisfied that the inclusions for which adjustments can be made can be clearly identified.

For example, assume that a U.S person is the owner of all of the stock of a first-tier controlled foreign corporation which, in turn, is the sole shareholder of a second-tier controlled foreign corporation. In year 1, the second-tier controlled foreign corporation earns $100 of subpart F income which is included in the U.S. person's gross income for that year. In year 2, the first-tier controlled foreign corporation disposes of the second-tier controlled foreign corporation's stock and recognizes $300 of income with respect to the disposition. All of that income would constitute subpart F foreign personal holding company income. Under the House bill, the Secretary is granted regulatory authority to reduce the U.S. person's year 2 subpart F inclusion by $100—the amount of year 1 subpart F income of the second-tier controlled foreign corporation that was included, in that year, in the U.S. person's gross income. Such an adjustment would, in effect, allow for a step-up in the basis of the stock of the second-tier controlled foreign corporation to the extent of its subpart F income previously included in the U.S. person's gross income.

As another example, assume the same facts as in the preceding paragraph except that in year 2, the first-tier controlled foreign corporation distributes the stock of the second-tier controlled foreign corporation to the U.S. person. Assume that as a result of the distribution, the first-tier controlled foreign corporation recognizes taxable income of $300 under section 311(b). This income represents subpart F income, $100 of which is due to no adjustment having been made to the basis of the second-tier controlled foreign corporation's stock for its year 1 subpart F income. The House bill contemplates that in such a situation, the $300 of subpart F income would be reduced under regulations to $200 to account for the year 1 subpart F income inclusion.

Subpart F inclusions in year of disposition

If a U.S. shareholder acquires the stock of a controlled foreign corporation from another U.S. shareholder during a taxable year of the controlled foreign corporation in which it earns subpart F income, the House bill reduces the acquirer's subpart F inclusion for that year by a portion of the amount of the dividend deemed (under sec. 1248) to be received by the transferor. The portion by which the inclusion is reduced (as is currently the case if a dividend was paid to the previous owner of the stock) would not exceed the lesser of the amount of dividends with respect to such stock deemed received (under sec. 1248) by other persons during the year or the amount determined by multiplying the subpart F income for the year by the proportion of the year during which the acquiring shareholder did not own the stock.

Avoiding double inclusions in other cases

The House bill clarifies the appropriate scope of regulatory authority with respect to the treatment of cross-chain section 304 dividends out of the earnings of controlled foreign corporations that were previously included in the income of a U.S. shareholder under subpart F. The House bill contemplates that in such a case, the Secretary in his discretion may by regulation treat such dividends as distributions of previously taxed income, with appropriate basis adjustments. It is also anticipated that other occasions may arise where the exercise of similar regulatory authority may be appropriate to avoid double income inclusions, or an inclusion or exclusion of income without a corresponding basis adjustment. Therefore, the House bill states that, in addition to cases involving section 304, the Secretary may by regulation modify the application of subpart F in any other case where there would otherwise be a multiple inclusion of any item of income (or an inclusion or exclusion without an appropriate basis adjustment) by reason of the structure of a U.S. shareholder's holdings in controlled foreign corporations or by reason of other circumstances. The House bill is not intended to create any inference as to the application of present law in these cases.

Foreign tax credit in year of receipt of previously taxed income

With respect to the present-law provisions which permit a foreign tax credit to be claimed in the case of a distribution of previously taxed income, the House bill provides authority for Treasury regulations to establish a simplified method for computing the increase in foreign tax credit limitation that results from the application of these provisions. It is understood that the Secretary has regulatory flexibility in the determination of the amount of creditable foreign taxes on or with respect to the accumulated earnings and profits of a foreign corporation from which a distribution of previously taxed income is made, which were not deemed paid by the domestic corporation in a prior taxable year.

The House bill makes clear that the regulations may require taxpayers to use any simplified methods so established, rather than making the use of such methods elective by taxpayers. The House bill does not mandate, however, that regulations provide such simplified methods, or in the case that such methods are provided, that they be made uniformly applicable to all taxpayers.

For example, in certain situations the Treasury Secretary might deem it appropriate not to require taxpayers to trace specific items of previously taxed income of specific controlled foreign corporations and to associate those items with specific amounts of excess foreign tax credit limitation. Rather, regulations might allow for some sort of simplified approach for accounting for excess limitation amounts (allocated to the various foreign tax credit separate limitation categories from which they originally arose) and for utilization of portions of these amounts upon distributions of previously taxed income from the same categories.

Treatment of United States income earned by a controlled foreign corporation

The House bill provides that an exemption or reduction by treaty of the branch profits tax that would be imposed under section 884 on a controlled foreign corporation does not affect the general statutory exemption from subpart F income that is granted for U.S. source effectively connected income. For example, assume a controlled foreign corporation earns income of a type that generally would be subpart F income, and that income is earned from sources within the United States in connection with business operations therein. Further assume that repatriation of that income is exempted from the U.S. branch profits tax under a provision of an applicable U.S. income tax treaty. The House bill provides that, notwithstanding the treaty's effect on the branch tax, the income is not treated as subpart F income as long as it is not exempt from U.S. taxation (or subject to a reduced rate of tax) under any other treaty provision.

Indirect foreign tax credit

The House bill extends the application of the indirect foreign tax credit (secs. 902 and 960) to certain taxes paid or accrued by certain fourth-, fifth-, and sixth-tier foreign corporations. In general, three requirements must be satisfied by a foreign company at any of these tiers to qualify for the credit. First, the company must be a controlled foreign corporation. Second, the domestic corporation referred to in section 902(a) must be a U.S. shareholder (as defined in section 951(b)) with respect to the foreign company. Third, the product of the percentage ownership of voting stock at each level from the U.S. corporation down must equal at least 5 percent. The House bill limits the application of the indirect foreign tax credit below the third tier to taxes paid or incurred in taxable years during which the payor is a controlled foreign corporation. No inference is intended as to the availability of indirect foreign tax credits, under present law, for taxes paid by foreign corporations in the first three tiers, for periods prior to the time when the present-law ownership requirements were met as to those corporations. All foreign taxes paid below the sixth tier of foreign corporations remain ineligible for the indirect foreign tax credit.

Investments in U.S. property by controlled foreign corporations

The Ways and Means Committee report to accompany the House bill states the committee's understanding that a controlled foreign corporation is not treated as having repatriated foreign earnings if it invests in an obligation of an unrelated U.S. corporation. A similar rule, however, is not applicable to an investment in an obligation of an unrelated U.S. person other than a corporation. The report states that the committee requests that the Treasury Department study the tax treatment of investments by controlled foreign corporations in obligations of U.S. persons other than corporations, and produce a report of such study by December 31, 1992. The study is to include the Treasury's views as to whether those rules should be amended insofar as they relate to the treatment of investments by controlled foreign corporations in the obligations of U.S. persons other than corporations, along with a discussion of the merits and consequences of any such amendment.

Effective dates

Lower-tier controlled foreign corporations

The provision of the House bill treating gains on dispositions of stock in lower-tier controlled foreign corporations as dividends under section 1248 principles applies to gains recognized on transactions occurring after date of enactment of the House bill. The provision of the House bill that expands lookthrough treatment, for foreign tax credit limitation purposes, of dividends from controlled foreign corporations, is effective for distributions after the date of the House bill's enactment.

The House bill's provision providing for regulatory adjustments to U.S. shareholder inclusions, with respect to gains of controlled foreign corporations from dispositions of stock in lower-tier controlled foreign corporations that previously had subpart F income, is effective for determining inclusions for taxable years of U.S. shareholders beginning after December 31, 1992. Thus, the House bill permits regulatory adjustments to an inclusion occurring after the effective date to account for previous subpart F income inclusions occurring both prior to and subsequent to the effective date of the provision.

Subpart F inclusions in year of disposition

The provision of the House bill permitting dispositions of stock to be taken into consideration in determining a U.S. shareholder's subpart F inclusion for a taxable year is effective with respect to dispositions occurring after the date of enactment of the House bill.

Distributions of previously taxed income

The provision of the House bill allowing the Secretary to make regulatory adjustments to avoid double inclusions in cases such as those to which section 304 applies takes effect on the date the House bill is enacted.

Foreign tax credit in year of receipt of previously taxed income

The provision of the House bill granting regulatory authority to establish simplified methods for determining the amount of increase in foreign tax credit limitation resulting from a distribution of previously taxed income is effective as of the date of enactment of the House bill.

Treatment of United States source income earned by a controlled foreign corporation

The provision of the House bill concerning the effect of treaty exemptions from or reductions of the branch profits tax on the determination of subpart F income is effective for taxable years beginning after December 31, 1986.

Indirect foreign tax credit

The provision of the House bill which extends application of the indirect foreign tax credit to certain controlled foreign corporations below the third tier is effective for foreign taxes paid or incurred by controlled foreign corporations for taxable years of such corporations beginning after the date of enactment of the House bill.

In the case of any chain of foreign corporations the taxes of which would be eligible for the indirect foreign tax credit, under present law or under the House bill, but for the denial of indirect credits below the third or sixth tier, as the case may be, no liquidation, reorganization, or similar transaction in a taxable year beginning after the date of enactment of the House bill shall have the effect of permitting taxes to be taken into account under the indirect foreign tax credit provisions of the Code which could not have been taken into account under those provisions but for such transaction. As one example, no such transaction shall have the effect of permitting credits for taxes which, but for such transaction, would have been noncreditable (given the effective date provisions of the House bill) because they are taxes of a fourth-, fifth-, or sixth-tier corporation for a year beginning *before* the date that the House bill is enacted. No inference is intended regarding the creditability or noncreditability of such taxes under present law.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that it does not include the provision of the House bill that extends the application of the indirect foreign tax credit to taxes paid by certain fourth-, fifth-, and sixth-tier controlled foreign corporations.

In addition, the explanation of the Senate amendment does not include a request of Treasury to perform a study on investments by controlled foreign corporations in obligations of U.S. persons other than corporations.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with the following addition. Under the conference agreement, the Secretary is required to conduct a study of the tax treatment of investments by controlled foreign corporations in obligations of U.S. persons other than corporations. The study is to include the Treasury's views as to whether those rules should be amended insofar as they relate to the treatment of investments by controlled foreign corporations in the obligations of U.S. persons other than corporations, along with a discussion of the merits and consequences of any such amendment. A report detailing the results of the study, together with such recommendations as the Secretary may deem advisable, is to be submitted to the Committee on Ways and Means and the Committee on Finance not later than December 31, 1992.

3. Translation of foreign taxes into U.S. dollar amounts

PRESENT LAW

Translation of foreign taxes

Foreign income taxes paid in foreign currencies are required to be translated into U.S. dollar amounts using the exchange rate as of the time such taxes are paid to the foreign country or U.S. possession (sec. 986(a)(1)). This rule applies equally to foreign taxes paid directly by U.S. taxpayers, which are creditable only in the year paid or accrued (or during a carryover period), and to foreign taxes paid by foreign corporations that are deemed paid by a U.S. corporation, and hence creditable, in the year that the U.S. corporation receives a dividend or income inclusion.

Redetermination of foreign taxes

For taxpayers who utilize the accrual basis of accounting for determining creditable foreign taxes, accrued and unpaid foreign tax liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the exchange rate as of the last day of the taxable year of accrual.[1] In certain cases where a difference exists between the dollar value of accrued foreign taxes and the dollar value of those taxes when paid, a redetermination (or adjustment) of foreign taxes is required.[2] Generally, such an adjustment may be attributable to one of three causes. One such cause would be a refund of foreign taxes. Second, a foreign tax redetermination may be required because the amount of foreign currency units actually paid differs from the amount of foreign currency units accrued. These first two cases generally give rise to a so-called "section 905(c) regular adjustment." Third, a redetermination may arise due to fluctuations in the value of the foreign currency relative to the dollar between the date of accrual and the date of payment giving rise to a so-called "section 905(c) translation adjustment."

As a general matter, a redetermination of foreign tax paid or accrued directly by a U.S. person requires notification of the Internal Revenue Service and a redetermination of U.S tax liability for the taxable year for which the foreign tax was claimed as a credit. Exceptions to this rule apply for de minimis amounts of foreign tax redeterminations.[3] In the case of redeterminations of foreign taxes that qualify for the deemed-paid foreign tax credit under sections 902 and 960, taxpayers generally are required to make appropriate adjustments to the pools of earnings and profits and foreign taxes.[4]

HOUSE BILL

In general

The House bill sets forth two sets of operating rules for the translation of foreign taxes. The first set establishes new rules for the translation of certain accrued foreign taxes. The other set modifies the rules of present law for translating all other foreign taxes.

Translation of foreign taxes

Translation of certain accrued foreign taxes

With respect to taxpayers who take foreign income taxes into account when accrued for purposes of determining the foreign tax credit, the House bill generally permits foreign taxes to be translated at the average exchange rate for the taxable year to which such taxes relate. If tax in excess of the accrued amount is actually paid, such excess amount would be translated using the exchange rate in effect as of the time of payment.

This set of rules does not apply (1) to taxpayers that are not on the accrual basis for determining creditable foreign taxes, (2) with respect to taxes of an accrual-basis taxpayer that are actually paid in a taxable year prior to the year to which they relate, or (3) to the extent provided in regulations, to tax payments denominated in a currency determined to be an inflationary currency in accordance with such regulations. It is intended that the Secretary will have discretion to define "inflationary" for this purpose so as to take into account the particular need under this provision to avoid distortions in the computation of the foreign tax credit. In addition, as discussed in detail below, this set of rules does not apply to, and thus a redetermination of foreign tax is required for, any foreign income tax paid after the date two years after the close of the taxable year to which such taxes relate.

---

[1] Temp. Treas. Reg. sec. 1.905-3T(b)(1).

[2] Temp. Treas. Reg. sec. 1.905-3T(c).

[3] Temp. Treas. Reg. sec. 1.905-3T(d)(1).

[4] Temp. Treas. Reg. sec. 1.905-3T(d)(2); Notice 90-26, 1990-1 C.B. 336.

For example, assume that in year 1 a taxpayer accrues 1,000 units of foreign tax that relate to year 1. Further assume that as of the end of year 1 the tax is unpaid and the currency involved is not treated as inflationary by the Secretary for translation purposes. In this case, the House bill provides that the taxpayer would translate 1,000 units of accrued foreign tax into U.S. dollars at the average exchange rate for year 1.[5] If the 1,000 units of tax were paid by the taxpayer in either year 2 or year 3, no redetermination of foreign tax would be required. If, any portion of the tax so accrued remained unpaid as of the end of year 3, however, the taxpayer would be required to redetermine its foreign tax accrued in year 1 to account for the accrued but unpaid tax.

As another example, assume a taxpayer accrues 1,000 units of foreign tax in year 2, but pays the tax in year 1. Also assume that the tax relates to year 2. In this case, the taxpayer would translate the tax using the exchange rate as of the time the tax is paid (i.e., using the applicable year 1 exchange rate) since the tax is paid in a year prior to the year to which it relates.

As an illustration of what is meant by the taxable year to which taxes relate, assume that a foreign corporation is charged by a foreign government with an income tax of 100 units for 1993. Assume that the currency involved is not treated as inflationary by the Secretary for translation purposes under the House bill. Due to a contest between the foreign government and the corporation that ends in 1994, the 100 units of tax are not paid until 1994. Assume that under the U.S. rules governing accrual, the foreign tax accrues *for* 1993 but does not do so *until* 1994.[6] Under the House bill, the taxes will be translated at the rate in effect for 1993, because the taxes relate to 1993, even though they did not accrue until 1994. If instead the contest was over, and the taxes were accrued and paid, in 1998, the translation rate used would be that of 1998, rather than 1993, because 1998 is more than 2 years after the end of 1993. Now assume that the contest was over in 1998, but the taxes were deposited in 1994 and not accrued until 1998. These taxes are paid before the beginning of the year in which the taxes were accrued (1998), but after the year to which the taxes relate (1993). Thus, under the House bill, the taxes may be translated at the rate for the year (1993) to which the taxes relate. If the taxes are instead paid in 1996, under the House bill they will be translated at the relevant rate for 1996 because 1996 is more than 2 years after the end of 1993.

As an additional illustration of what is meant by the House bill as the taxable year to which taxes relate, assume that a foreign corporation accrues a foreign income tax of 100 units of noninflationary currency for 1993. Further assume that the actual amount of foreign tax liability of the foreign corporation for 1993 is 110 units, all of which is paid in 1994. Under the bill, the 110 units of foreign tax are translated at the rate in effect for 1993 because the taxes relate to 1993, even though the total tax liability for that year was not actually accrued by the taxpayer in 1993.

Finally, assume that under foreign law, a foreign income tax liability accrues in 1998 under a long-term contract method of accounting, but advance deposits of that liability are made in each of the years 1993 through 1997. Under the House bill, it is intended that if the payments in 1993 through 1997 are treated as relating to 1998, these payments are nevertheless to be translated at the relevant rates for 1993 through 1997. Although the bill provides a rule for the translation of the taxes in this case, no change is intended as to the application of present law accounting rules determining the year for which the taxes are eligible for credit or deduction for U.S. income tax purposes.

Translation of all other foreign taxes

Foreign taxes not eligible for application of the preceding rules generally are translated into U.S. dollars using the exchange rates as of the time such taxes are paid. The House bill grants the Secretary of the Treasury authority to issue regulations that would allow foreign tax payments made by a foreign corporation or by a foreign branch of a U.S. person to be translated into U.S. dollar amounts using an average U.S. dollar exchange rate for a specified period. It is anticipated that the applicable average exchange rate would be the rate as published by a qualified source of exchange rate information for the period during which the tax payments were made.

Redetermination of foreign taxes

As revised by the House bill, section 905(c) requires foreign tax redeterminations to occur in three cases: (1) if accrued taxes when paid (in foreign currency) differ from the amounts claimed (in foreign currency) as credits by the taxpayer, (2) if accrued taxes are not paid before the date two years after the close of the taxable year to which such taxes relate, and (3) if any tax paid is refunded in whole or in part. Thus, for example, the House bill provides that if at the close of the second taxable year after the close of the accrual year any tax so accrued has not yet been paid, a foreign tax redetermination under section 905(c) is required for the amount of such unpaid tax. That is, the accrual of any tax that is unpaid as of that date would be retroactively denied. In cases where a redetermination is required, as under present law, the House bill specifies that the taxpayer must notify the Secretary, who shall redetermine the amount of the tax for the year or years affected.

The House bill provides that in the case of accrued taxes not paid within the date two years after the close of the taxable year to which such taxes relate, whether or not such taxes were previously accrued, any such taxes if subsequently paid are taken into account for the taxable year in which paid, and no redetermination with respect to the original year of accrual is required on account of such payment. In such a case, those taxes would be translated into U.S. dollar amounts using the exchange rates in effect for the period during which such taxes are paid. Nothing in the House bill is intended to change present law as to the length of time after the year to which the redetermination relates within which redeterminations may be made or required.[7]

Effective date.—Effective for taxes paid (in the case of taxpayers using the cash basis for determining the foreign tax credit) or accrued (in the case of taxpayers using the accrual basis for determining the foreign tax credit) in taxable years beginning after December 31, 1991.

With respect to taxes of an accrual-basis taxpayer that relate to a taxable year beginning before January 1, 1992, the return for which (if one were due) would not yet be due on date of enactment (taking into account extensions of time to file), the House bill contemplates that the Secretary would, in appropriate circumstances, provide taxpayers with a reasonable average-rate method for translating such taxes that are not paid until after the effective date of the Act.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except for the effective date.

Effective date.—Effective for taxes paid (in the case of taxpayers using the cash basis for determining the foreign tax credit) or accrued (in the case of taxpayers using the accrual basis for determining the foreign tax credit) in taxable years beginning after December 31, 1991.

The Senate amendment's changes to the foreign tax redetermination rules apply to taxes which relate to taxable years beginning after December 31, 1991. Thus, for example, the redetermination rules under the Senate amendment do not apply to a foreign tax that relates to a taxable year beginning in or before 1991, even though it does not properly accrue until a taxable year beginning after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

4. Foreign tax credit limitation under the alternative minimum tax

PRESENT LAW

Computing foreign tax credit limitations requires the allocation and apportionment of deductions between items of foreign source and U.S. source income. Foreign tax credit limitations must be computed both for regular tax purposes and for purposes of the alternative minimum tax (AMT). Consequently, after allocating and apportioning deductions for regular tax foreign tax credit limitation purposes, additional allocations and apportionments generally must be performed in order to compute the AMT foreign tax credit limitation.

HOUSE BILL

The House bill permits taxpayers to elect to use as their AMT foreign tax credit limitation fraction the ratio of foreign source *regular* taxable income to entire alternative minimum taxable income, rather than the ratio of foreign source *alternative minimum* taxable income to entire alternative minimum taxable income. Foreign source regular taxable income may be used, however, only to the extent it does not exceed entire alternative minimum taxable income. In the event that foreign source regular taxable income does exceed entire alternative minimum taxable income, and the taxpayer has income in more than one foreign tax credit limitation category, the committee intends that the foreign source taxable income in each such category generally shall be reduced by a pro rata portion of that excess.

The election under the House bill is available only in the first taxable year beginning after December 31, 1992, for which the taxpayer claims an AMT foreign tax credit. A taxpayer will be treated, for this purpose, as claiming an AMT foreign tax credit for any taxable year for which the taxpayer chooses to have the benefits of the foreign tax credit, and in which the taxpayer is subject to the alternative minimum tax or would be subject to the alternative minimum tax but for the availability of the AMT foreign tax credit. The election applies to all subsequent taxable years, and may be revoked only with the permission of the Secretary of the Treasury.

---

[5] The same result would occur if the 1,000 units of tax were both accrued and paid in year 1.

[6] See, e.g., Rev. Rul. 84-125, 1984-2 C.B. 125.

[7] *See* sec. 6501(c)(5). *See also, e.g., Pacific Metals Corp. v. Commissioner*, 1 T.C. 1028 (1943); *Texas Co. (Caribbean) Ltd. v. Commissioner*, 12 T.C. 925 (1949).

Effective date.—The provision applies to taxable years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

5. Inbound and outbound transfers

PRESENT LAW

Outbound transfers

Corporate nonrecognition provisions

Certain types of exchanges relating to the organization, reorganization, and liquidation of a corporation can be made without recognition of gain to the corporation involved or to its shareholders. In 1932 Congress enacted an exception to the nonrecognition rules, which became section 367 of the 1954 Code, for the case where such an exchange involves a foreign corporation. The legislative history indicates that the exception was enacted in order to prevent tax avoidance that might have otherwise occurred upon the transfer of appreciated property outside U.S. tax jurisdiction.[1] Under that provision, in determining the extent to which gain (but not loss) was recognized in these exchanges, a foreign corporation was not considered a corporation unless it was established to the satisfaction of the IRS that the exchange was not in pursuance of a plan having as one of its principal purposes the avoidance of Federal income taxes.

The Code now provides that if a U.S. person transfers property to a foreign corporation in connection with certain corporate organizations, reorganizations, or liquidations, the foreign corporation will not, for purposes of determining the extent to which gain is recognized on such transfer, be considered to be a corporation (sec. 367(a)(1)). Various exceptions to the operation of this rule are provided, including a broad grant of authority to provide exceptions by regulation. The statutory language has changed substantially since 1932, but it has retained in large part its primary operative result—that of treating a foreign corporation as not a corporation. Since corporate status is essential to qualify for the tax-free organization, reorganization, and liquidation provisions, failure to satisfy the requirements of section 367 could result in the recognition of gain to the participant corporations and shareholders.

Excise tax on transfers to a foreign entity

At the same time that Congress enacted the original predecessor of current section 367, Congress also enacted an excise tax on outbound transfers that might not constitute income tax recognition events even after imposition of the anti-avoidance income tax rule adopted for corporate transactions. As in the case of the corporate nonrecognition override provision, the purpose of the excise tax was to check transfers of property in which there was a large appreciation in value to foreign entities for the purpose of avoidance of taxes on capital gains.[2] Therefore, as in the case of the corporate provision, the excise tax generally has been imposed only in certain cases where it has been believed necessary or appropriate to preserve U.S. tax on appreciated assets.

Under present law, the excise tax generally applies on transfers of property by a U.S. person to a foreign corporation—as paid-in surplus or as a contribution to capital—or to a foreign estate, trust, or partnership.[3] The tax is 35 percent of the amount of gain inherent in the property transferred, but not recognized for income tax purposes at the time of the transfer (sec. 1491). For income tax purposes, the basis of the property whose appreciation and transfer triggers the tax is not increased to account for imposition of the tax.

The excise tax does not apply in certain cases where the transferee is exempt from U.S. tax under Code sections 501-505 (sec. 1492(1)). In addition, the excise tax does not apply in some cases where income tax rules governing outbound transfers apply, either by their terms or by the election of the taxpayer. Thus, the excise tax does not apply to a transfer described in section 367, or to a transfer not described in section 367 but with respect to which the taxpayer elects (before the transfer) the application of principles similar to the principles of section 367 (sec. 1492(2)).

In addition, a taxpayer may elect (under regulations prescribed by the Secretary) to treat a transfer described in section 1491 as a sale or exchange of the property transferred and to recognize as gain (but not loss) in the year of the transfer the excess of the fair market value of the property transferred over the adjusted basis (for determining gain) of the property in the hands of the transferor (sec. 1057; Treas. Reg. sec. 7.0). To the extent that gain is recognized pursuant to the election in the year of the transfer, the transfer is not subject to the excise tax, and the basis of the property in the hands of the transferee will be increased by the amount of gain received (sec. 1492(3)). The legislative history of the elective income recognition provision indicates that the making of an election which has as one of its principle purposes the avoidance of Federal income taxes is not permitted.[4]

The excise tax is due at the time of the transfer (sec. 1494(a)). Under regulations, the excise tax may be abated, remitted, or refunded if the taxpayer, after the transfer, elects the application of principles similar to the principles of section 367 (sec. 1494(b)).

Inbound corporate transfers

Although the legislative history of the 1932 Act indicated a concern with outbound transfers, the statutory standard for determining that a transaction did not have as one of its principal purposes tax avoidance evolved through administrative interpretation into a requirement that, in the case of transfers into the United States by a foreign corporation, tax-free treatment generally would be permitted only if the U.S. tax on accumulated earnings and profits was paid. For example, in 1968, the IRS issued guidelines (Rev. Proc. 68-23, 1968-1 C.B. 821) as to when favorable rulings "ordinarily" would be issued. As a condition of obtaining a favorable ruling with respect to certain transactions, the section 367 guidelines required the taxpayer to agree to include certain items in income (the amount to be included was called the section 367 toll charge). For example, if the transaction involved the liquidation of a foreign corporation into a domestic parent corporation, a favorable ruling was issued if the domestic parent agreed to include in its income as a dividend for the taxable year in which the liquidation occurred the portion of the accumulated earnings and profits of the foreign corporation which were properly attributable to the domestic corporation's stock interest in the foreign corporation (Rev. Proc. 68-23, sec. 3.01(1); see also sec. 3.03(1)(b)).

Absence of a toll charge on accumulated earnings of a foreign corporation upon liquidation or asset reorganization into a U.S. corporation clearly would permit avoidance of tax. For example, if a U.S. corporation owns 100 percent of the stock of a U.S. subsidiary, no tax is imposed either on a dividend from the subsidiary to the parent (sec. 243) or the liquidation of the subsidiary into the parent (secs. 332 and 337). In each case, the earnings of the subsidiary already have been subject to U.S. tax jurisdiction, and the liquidation provisions allow nonrecognition of gain inherent in appreciated property of the subsidiary. On the other hand, if a U.S. corporation owns 100 percent of the stock of a foreign subsidiary, earnings of the subsidiary generally are not subject to current U.S. tax. Instead, tax generally is imposed on a dividend from the subsidiary to the parent, net of creditable foreign taxes. If a liquidation of the subsidiary could be accomplished tax-free under the Code, U.S. tax on its earnings would be avoided; more generally, the parent would be able to succeed to the basis and other tax attributes of the foreign corporation without having subjected to U.S. tax jurisdiction the earnings that gave rise to those tax attributes.

Outbound transfers since the Tax Reform Act of 1976

For purposes of the transactions described above, section 367 (and its predecessors) remained largely unchanged between 1932 and 1976. In 1976, however, a number of problems caused Congress to revise section 367. One result of the 1976 revision was to separate the provision into 2 sets of rules: one set dealing with outbound transfers, where the statutory aim is to prevent the removal of appreciated assets or inventory from U.S. tax jurisdiction prior to their sale (sec. 367(a)), and the other set dealing with both transfers into the United States and those which are exclusively foreign (sec. 367(b)).

Section 367(b) now provides, in part, that in the case of certain exchanges in connection with which there is no transfer of property described in section 367(a)(1), a foreign corporation will be considered to be a corporation except to the extent provided in regulations which are necessary or appropriate to prevent the avoidance of Federal income taxes.

Although it is clear that absence of a toll charge on accumulated earnings of a foreign corporation upon liquidation or reorganization into a U.S. corporation leads to avoidance of tax, and Congress in 1976 noted without disapproval the adoption of IRS positions that would prevent the avoidance of tax in these cases,[5] neither section 367(b) as revised in 1976, nor its predecessors, were drafted in such a way that directly causes tax to be imposed on foreign earnings.

---

[1] H.R. Rep. No. 708, 72d Cong., 1st Sess. 20 (1932).

[2] *Id.* at 52.

[3] The Internal Revenue Service has in the past wavered on the question whether this tax applies to a transfer to a foreign trust with respect to which the transferor is treated as the owner under the grantor trust rules. Compare Rev. Rul. 69-450, 1969-2 C.B. 168 (holding that such a transfer is subject to tax under section 1491); with Rev. Rul. 87-61, 1987-2 C.B. 219 (revoking Rev. Rul. 69-450, and holding that such a transfer is *not* subject to tax under section 1491).

[4] Staff of the Joint Committee on Taxation, 94th Cong., 2d Sess., *General Explanation of the Tax Reform Act of 1976*, at 226 (1976).

For example, assume that a U.S. corporation owns 100 percent of the stock of a liquidating foreign corporation, and, pursuant to regulations under section 367(b), the foreign corporation is not treated as a corporation for purposes of section 332. In that case, the U.S. corporation would be required under the Code to recognize the difference between the basis and the value of its stock in the foreign corporation. That gain, however, may be more or less than the accumulated earnings of the foreign corporation attributable to the period when the U.S. corporation owned the stock of the foreign corporation.

Perhaps as a result, neither the present temporary regulations nor the recently proposed regulations under section 367(b) mandate a tax based on the accumulated earnings of a foreign corporation that liquidates or reorganizes into a U.S. corporation. The temporary regulations allow the taxpayer to elect treatment of the foreign corporation as a corporation if the tax on earnings is paid. If the taxpayer chooses not to make the election, the foreign corporation is not treated as a corporation under the relevant nonrecognition provision (e.g., secs. 332, 354), but *is* treated as a corporation for other purposes, such as for purposes of the basis rules (secs. 334, 358, 362), and carryover provisions (sec. 381) (Temp. Treas. Reg. secs. 7.367(b)-5(b) and 7.367(b)-7(c)(2)). The proposed regulations generally require that the foreign corporation be treated as a corporation, and permit the taxpayer to elect either to pay the tax on earnings, or to pay tax on the gain; but if the latter option is chosen, adjustments must be made to either net operating loss carryovers, capital loss carryovers, or asset bases (Proposed Treas. Reg. sec. 1.367(b)-3(b)(2)).

HOUSE BILL

Outbound transfers

The House bill repeals the excise tax on outbound transfers. In its place, the bill requires the full recognition of gain on a transfer of property by a U.S. person to a foreign corporation as paid-in surplus, or as a contribution to capital, or to a foreign estate, trust, or partnership. The Secretary may, however, in lieu of applying this full recognition rule, provide regulations under which principles similar to the principles of section 367 shall apply to any such transfer. Moreover, the Secretary may provide rules under which recognition of gain will not be triggered by section 1491 in cases where the Secretary is satisfied that application of other Code rules (such as those relating to partnerships or trusts) will prevent the avoidance of tax consistent with the purposes of the bill. Full recognition of gain can also be avoided in the case of a transfer described in section 367.

Inbound transfers

The House bill provides that in the case of certain corporate organizations, reorganizations, and liquidations described in section 332, 351, 354, 355, 356, or 361 in which the status of a foreign corporation as a corporation is a condition for nonrecognition by a party to the transaction, income shall be recognized to the extent provided in regulations prescribed by the Secretary which are necessary or appropriate to prevent the avoidance of Federal income taxes. This provision is limited in its application, under the bill, so as not to apply to a transaction in which the foreign corporation is not treated as a corporation under section 367(a)(1). Thus, the bill permits the IRS to provide by regulations for recognition of income, without regard to the amount of gain that would be recognized in the absence of the relevant nonrecognition provision listed above. As under current law, such regulations will be subject to normal court review as to whether they are necessary or appropriate for the prevention of avoidance of Federal income taxes.

In addition, the bill clarifies that rules for income recognition under section 367(b) may also be applied in a case involving a transfer literally described in section 367(a)(1), where necessary or appropriate to prevent the avoidance of Federal income taxes.[6]

Effective date

The provision that amends the outbound rules and repeals the excise tax applies to transfers after date of enactment. The provision that amends section 367(b) applies to transfers after December 31, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. With regard to the provision on outbound transfers, the conferees anticipate that prior to the promulgation of regulations, the Secretary generally will continue to permit taxpayers to elect the application of principles similar to the principles of section 367, provided the election is made by the time for filing the income tax return for the taxable year of the transfer. By converting the excise tax to a recognition rule for income tax purposes, the conferees do not intend to affect the outcome of the question, should the Internal Revenue Service choose to revisit it, of whether tax may be incurred upon a transfer of appreciated property to a foreign trust with respect to which the transferor is treated as the owner under the grantor trust rules.

E. TREATMENT OF INTANGIBLES

1. Amortization of Goodwill and Certain Other Intangibles

PRESENT LAW

In determining taxable income for Federal income tax purposes, a taxpayer is allowed depreciation or amortization deductions for the cost or other basis of intangible property that is used in a trade or business or held for the production of income if the property has a limited useful life that may be determined with reasonable accuracy. No depreciation or amortization deductions are allowed with respect to goodwill or going concern value.

HOUSE BILL

In general

The bill allows an amortization deduction with respect to the capitalized costs of certain intangible property (defined as a "section 197 intangible") that is acquired by a taxpayer and that is held by the taxpayer in connection with the conduct of a trade or business or an activity engaged in for the production of income. The amount of the deduction is determined by amortizing the adjusted basis (for purposes of determining gain) of the intangible ratably over a 14-year period that begins with the month that the intangible is acquired.[1] No other depreciation or amortization deduction is allowed with respect to a section 197 intangible that is acquired by a taxpayer.

In general, the bill applies to a section 197 intangible acquired by a taxpayer regardless of whether it is acquired as part of a trade or business. In addition, the bill generally applies to a section 197 intangible that is treated as acquired under section 338 of the Code. The bill generally does not apply to a section 197 intangible that is created by the taxpayer if the intangible is not created in connection with a transaction (or series of related transactions) that involves the acquisition of a trade or business or a substantial portion thereof.

Except in the case of amounts paid or incurred under certain covenants not to compete (or under certain other arrangements that have substantially the same effect as covenants not to compete) and certain amounts paid or incurred on account of the transfer of a franchise, trademark, or trade name, the bill generally does not apply to any amount that is otherwise currently deductible (i.e., not capitalized) under present law.

No inference is intended as to whether a depreciation or amortization deduction is allowed under present law with respect to any intangible property that is either included in, or excluded from, the definition of a section 197 intangible. In addition, no inference is intended as to whether an asset is to be considered tangible or intangible property for any other purpose of the Internal Revenue Code.

Definition of section 197 intangible

In general

The term "section 197 intangible" is defined as any property that is included in any one or more of the following categories: (1) goodwill and going concern value; (2) certain specified types of intangible property that generally relate to workforce, information base, know-how, customers, suppliers, or other similar items; (3) any license, permit, or other right granted by a governmental unit or an agency or instrumentality thereof; (4) any covenant not to compete (or other arrangement to the extent that the arrangement has substantially the same effect as a covenant not to compete) entered into in connection with the direct or indirect acquisition of an interest in a trade or business (or a substantial portion thereof); and (5) any franchise, trademark, or trade name.

Certain types of property, however, are specifically excluded from the definition of the term "section 197 intangible." The term "section 197 intangible" does not include: (1) any interest in a corporation, partnership, trust, or estate; (2) any interest under an existing futures contract, foreign currency contract, notional principal contract, interest rate swap, or other similar financial contract; (3) any interest in land; (4) certain computer software; (5) certain interests in films, sound recordings, videotapes, books, or other similar property; (6) certain rights to receive tangible property or services; (7) certain interests in patents or copyrights; (8) any interest under an existing lease of tangible property; (9) any interest under an existing indebtedness (except for the deposit base and similar items of a financial institution); and (10) a franchise to engage in any professional sport, and any item acquired in connection with such a franchise.

---

[5] E.g., Staff of the Joint Comm. on Taxation, 94th Cong., 2d Sess., *General Explanation of the Tax Reform Act of 1976*, at 264 (1976).

[6] See Temp. Treas. Reg. sec. 7.367(b)-4(b); Proposed Treas. Reg. sec. 1.367(a)-3(a).

[1] In the case of a short taxable year, the amortization deduction is to be based on the number of months in such taxable year.

In addition, the Treasury Department is authorized to issue regulations that exclude certain rights of fixed duration or amount from the definition of a section 197 intangible.

Goodwill and going concern value

For purposes of the bill, goodwill is the value of a trade or business that is attributable to the expectancy of continued customer patronage, whether due to the name of a trade or business, the reputation of a trade or business, or any other factor.

In addition, for purposes of the bill, going concern value is the additional element of value of a trade or business that attaches to property by reason of its existence as an integral part of a going concern. Going concern value includes the value that is attributable to the ability of a trade or business to continue to function and generate income without interruption notwithstanding a change in ownership. Going concern value also includes the value that is attributable to the use or availability of an acquired trade or business (for example, the net earnings that otherwise would not be received during any period were the acquired trade or business not available or operational).

Workforce, information base, know-how, customer-based intangibles, supplier-based intangibles and other similar items

Workforce.—The term "section 197 intangible" includes workforce in place (which is sometimes referred to as agency force or assembled workforce), the composition of a workforce (for example, the experience, education, or training of a workforce), the terms and conditions of employment whether contractual or otherwise, and any other value placed on employees or any of their attributes. Thus, for example, the portion (if any) of the purchase price of an acquired trade or business that is attributable to the existence of a highly-skilled workforce is to be amortized over the 14-year period specified in the bill. As a further example, the cost of acquiring an existing employment contract (or contracts) or a relationship with employees or consultants (including but not limited to any "key employee" contract or relationship) as part of the acquisition of a trade or business is to be amortized over the 14-year period specified in the bill.

Information base.—The term "section 197 intangible" includes business books and records, operating systems, and any other information base including lists or other information with respect to current or prospective customers (regardless of the method of recording such information). Thus, for example, the portion (if any) of the purchase price of an acquired trade or business that is attributable to the intangible value of technical manuals, training manuals or programs, data files, and accounting or inventory control systems is to be amortized over the 14-year period specified in the bill. As a further example, the cost of acquiring customer lists, subscription lists, insurance expirations,[2] patient or client files, or lists of newspaper, magazine, radio or television advertisers is to be amortized over the 14-year period specified in the bill.

Know-how.—The term "section 197 intangible" includes any patent, copyright, formula, process, design, pattern, know-how, format, or other similar item. For this purpose, the term "section 197 intangible" is to include package designs, computer software, and any interest in a film, sound recording, video tape, book, or other similar property, except as specifically provided otherwise in the bill.[3]

Customer-based intangibles.—The term "section 197 intangible" includes any customer-based intangible, which is defined as the composition of market, market share, and any other value resulting from the future provision of goods or services pursuant to relationships with customers (contractual or otherwise) in the ordinary course of business. Thus, for example, the portion (if any) of the purchase price of an acquired trade or business that is attributable to the existence of customer base, circulation base, undeveloped market or market growth, insurance in force, mortgage servicing contracts, investment management contracts, or other relationships with customers that involve the future provision of goods or services, is to be amortized over the 14-year period specified in the bill. On the other hand, the portion (if any) of the purchase price of an acquired trade or business that is attributable to accounts receivable or other similar rights to income for those goods or services that have been provided to customers prior to the acquisition of a trade or business is not to be taken into account under the bill.[4]

In addition, the bill specifically provides that the term "customer-based intangible" includes the deposit base and any similar asset of a financial institution. Thus, for example, the portion (if any) of the purchase price of an acquired financial institution that is attributable to the checking accounts, savings accounts, escrow accounts and other similar items of the financial institution is to be amortized over the 14-year period specified in the bill.

Supplier-based intangibles.—The term "section 197 intangible" includes any supplier-based intangible, which is defined as the value resulting from the future acquisition of goods or services pursuant to relationships (contractual or otherwise) in the ordinary course of business with suppliers of goods or services to be used or sold by the taxpayer. Thus, for example, the portion (if any) of the purchase price of an acquired trade or business that is attributable to the existence of a favorable relationship with persons that provide distribution services (for example, favorable shelf or display space at a retail outlet), the existence of a favorable credit rating, or the existence of favorable supply contracts, is to be amortized over the 14-year period specified in the bill.[5]

Other similar items.—The term "section 197 intangible" also includes any other intangible property that is similar to workforce, information base, know-how, customer-based intangibles, or supplier-based intangibles.

Licenses, permits, and other rights granted by governmental units

The term "section 197 intangible" also includes any license, permit, or other right granted by a governmental unit or any agency or instrumentality thereof (even if the right is granted for an indefinite period or the right is reasonably expected to be renewed for an indefinite period).[6] Thus, for example, the capitalized cost of acquiring from any person a liquor license, a taxi-cab medallion (or license), an airport landing or takeoff right (which is sometimes referred to as a slot), a regulated airline route, or a television or radio broadcasting license is to be amortized over the 14-year period specified in the bill. For purposes of the bill, the issuance or renewal of a license, permit, or other right granted by a governmental unit or an agency or instrumentality thereof is to be considered an acquisition of such license, permit, or other right.

Covenants not to compete and other similar arrangements

The term "section 197 intangible" also includes any covenant not to compete (or other arrangement to the extent that the arrangement has substantially the same effect as a covenant not to compete; hereafter "other similar arrangement") entered into in connection with the direct or indirect acquisition of an interest in a trade or business (or a substantial portion thereof). For this purpose, an interest in a trade or business includes not only the assets of a trade or business, but also stock in a corporation that is engaged in a trade or business or an interest in a partnership that is engaged in a trade or business.

Any amount that is paid or incurred under a covenant not to compete (or other similar arrangement) entered into in connection with the direct or indirect acquisition of an interest in a trade or business (or a substantial portion thereof) is chargeable to capital account and is to be amortized ratably over the 14-year period specified in the bill. In addition, any amount that is paid or incurred under a covenant not to compete (or other similar arrangement) after the taxable year in which the covenant (or other similar arrangement) was entered into is to be amortized ratably over the remaining months in the 14-year amortization period that applies to the covenant (or other similar arrangement) as of the beginning of the month that the amount is paid or incurred.

For purposes of this provision, an arrangement that requires the former owner of an interest in a trade or business to continue to perform services (or to provide property or the use of property) that benefit the trade or business is considered to have substantially the same effect as a covenant not to compete to the extent that the amount paid to the former owner under the arrangement exceeds the amount that represents reasonable compensation for the services actually rendered (or for the property or use of property actually provided) by the former owner. As under present law, to the extent that the amount paid or incurred under a covenant not to compete (or other similar arrangement) represents additional consideration for the acquisition of stock in a corporation, such amount is not to be taken into account under this provision but, instead, is to be included as part of the acquirer's basis in the stock.

---

[2] Insurance expirations are records that are maintained by insurance agents with respect to insurance customers. These records generally include information relating to the type of insurance, the amount of insurance, and the expiration date of the insurance.

[3] See below for a description of the exceptions for certain patents, certain computer software, and certain interests in films, sound recordings, video tapes, books, or other similar property.

[4] As under present law, the portion of the purchase price of an acquired trade or business that is attributable to accounts receivable is to be allocated among such receivables and is to be taken into account as payment is received under each receivable or at the time that a receivable becomes worthless.

[5] See below, however, for a description of the exception for certain rights to receive tangible property or services from another person.

[6] A right granted by a governmental unit or an agency or instrumentality thereof that constitutes an interest in land or an interest under a lease of tangible property is excluded from the definition of a section 197 intangible. See below for a description of the exceptions for interests in land and for interests under leases of tangible property.

Franchises, trademarks, and trade names

The term "section 197 intangible" also includes any franchise, trademark, or trade name. For this purpose, the term "franchise" is defined, as under present law, to include any agreement that provides one of the parties to the agreement the right to distribute, sell, or provide goods, services, or facilities, within a specified area.[7] In addition, as provided under present law, the renewal of a franchise, trademark, or trade name is to be treated as an acquisition of such franchise, trademark, or trade name.[8]

The bill continues the present-law treatment of certain contingent amounts that are paid or incurred on account of the transfer of a franchise, trademark, or trade name. Under these rules, a deduction is allowed for amounts that are contingent on the productivity, use, or disposition of a franchise, trademark, or trade name only if (1) the contingent amounts are paid as part of a series of payments that are payable at least annually throughout the term of the transfer agreement, and (2) the payments are substantially equal in amount or payable under a fixed formula.[9] Any other amount, whether fixed or contingent, that is paid or incurred on account of the transfer of a franchise, trademark, or trade name is chargeable to capital account and is to be amortized ratably over the 14-year period specified in the bill.

Exceptions to the definition of a section 197 intangible

In general.—The bill contains several exceptions to the definition of the term "section 197 intangible." Several of the exceptions contained in the bill apply only if the intangible property is not acquired in a transaction (or series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion of a trade or business. It is anticipated that the Treasury Department will exercise its regulatory authority to require any intangible property that would otherwise be excluded from the definition of the term "section 197 intangible" to be taken into account under the bill under circumstances where the acquisition of the intangible property is, in and of itself, the acquisition of an asset which constitutes a trade or business or a substantial portion of a trade or business.

The determination of whether acquired assets constitute a substantial portion of a trade or business is to be based on all of the facts and circumstances, including the nature and the amount of the assets acquired as well as the nature and amount of the assets retained by the transferor. It is not intended, however, that the value of the assets acquired relative to the value of the assets retained by the transferor is determinative of whether the acquired assets constitute a substantial portion of a trade or business.

For purposes of the bill, a group of assets is to constitute a trade or business if the use of such assets would constitute a trade or business for purposes of section 1060 of the Code (i.e., if the assets are of such a character that goodwill or going concern value could under any circumstances attach to the assets). In addition, the acquisition of a franchise, trademark or trade name is to constitute the acquisition of a trade or business or a substantial portion of a trade or business.

In determining whether a taxpayer has acquired an intangible asset in a transaction (or series of related transactions) that involves the acquisition of assets that constitute a trade or business or a substantial portion of a trade or business, only those assets acquired in a transaction (or a series of related transactions) by a taxpayer (and persons related to the taxpayer) from the same person (and any related person) are to be taken into account. In addition, any employee relationships that continue (or covenants not to compete that are entered into) as part of the transfer of assets are to be taken into account in determining whether the transferred assets constitute a trade or business or a substantial portion of a trade or business.

Interests in a corporation, partnership, trust, or estate.—The term "section 197 intangible" does not include any interest in a corporation, partnership, trust, or estate. Thus, for example, the bill does not apply to the cost of acquiring stock, partnership interests, or interests in a trust or estate, whether or not such interests are regularly traded on an established market.[10]

Interests under certain financial contracts.—The term "section 197 intangible" does not include any interest under an existing futures contract, foreign currency contract, notional principal contract, interest rate swap, or other similar financial contract, whether or not such interest is regularly traded on an established market. Any interest under a mortgage servicing contract, credit card servicing contract or other contract to service indebtedness issued by another person, and any interest under an assumption reinsurance contract[11] is not excluded from the definition of the term "section 197 intangible" by reason of the exception for interests under certain financial contracts.

Interests in land.—The term "section 197 intangible" does not include any interest in land. Thus, the cost of acquiring an interest in land is to be taken into account under present law rather than under the bill. For this purpose, an interest in land includes a fee interest, life estate, remainder, easement, mineral rights, timber rights, grazing rights, riparian rights, air rights, zoning variances, and any other similar rights with respect to land. An interest in land is not to include an airport landing or takeoff right, a regulated airline route, or a franchise to provide cable television services.

Certain computer software.—The term "section 197 intangible" does not include computer software (whether acquired as part of a trade or business or otherwise) that (1) is readily available for purchase by the general public; (2) is subject to a non-exclusive license; and (3) has not been substantially modified. In addition, the term "section 197 intangible" does not include computer software which is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion of a trade or business.

For purposes of the bill, the term "computer software" is defined as any program (i.e., any sequence of machine-readable code) that is designed to cause a computer to perform a desired function. The term "computer software" includes any incidental and ancillary rights with respect to computer software that (1) are necessary to effect the legal acquisition of the title to, and the ownership of, the computer software, and (2) are used only in connection with the computer software. The term "computer software" does not include any data base or similar item (other than a data base or item that is in the public domain and that is incidental to the software)[12] regardless of the form in which it is maintained or stored.

If a depreciation deduction is allowed with respect to any computer software that is not a section 197 intangible, the amount of the deduction is to be determined by amortizing the adjusted basis of the computer software ratably over a 36-month period that begins with the month that the computer software is placed in service. For this purpose, the cost of any computer software that is taken into account as part of the cost of computer hardware or other tangible property under present law is to continue to be taken into account in such manner under the bill. In addition, the cost of any computer software that is currently deductible (*i.e.*, not capitalized) under present law is to continue to be taken into account in such manner under the bill.

Certain interests in films, sound recordings, video tapes, books, or other similar property.—The term "section 197 intangible" does not include any interest (including an interest as a licensee) in a film, sound recording, video tape, book, or other similar property (including the right to broadcast or transmit a live event) if the interest is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion of a trade or business.

Certain rights to receive tangible property or services.—The term "section 197 intangible" does not include any right to receive tangible property or services under a contract (or any right to receive tangible property or services granted by a governmental unit or an agency or instrumentality thereof) if the right is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion of a trade or business.

If a depreciation deduction is allowed with respect to a right to receive tangible property or services that is not a section 197 intangible, the amount of the deduction is to be determined in accordance with regulations to be promulgated by the Treasury Department. It is anticipated that the regulations may provide that in the case of an amortizable right to receive tangible property or services in substantially equal amounts over a fixed period that is not renewable, the cost of acquiring the right will be taken into account ratably over such fixed period. It is also anticipated that the regulations may provide that in the case of a right to receive a fixed amount of tangible property or services over an unspecified period, the cost of acquiring such right will be taken into account under a method that allows a deduction based on the amount of tangible property or services received during a taxable year compared to the total amount of tangible property or services to be received.

---

[7] Section 1253(b)(1) of the Code.

[8] Only the costs incurred in connection with the renewal, however, are to be amortized over the 14-year period that begins with the month that the franchise, trademark, or trade name is renewed. Any costs incurred in connection with the issuance (or an earlier renewal) of a franchise, trademark, or trade name are to continue to be taken into account over the remaining portion of the amortization period that began at the time of such issuance (or earlier renewal).

[9] Section 1253(d)(1) of the Code.

[10] A temporal interest in property, outright or in trust, may not be used to convert a section 197 intangible into property that is amortizable more rapidly than ratably over the 14-year period specified in the bill.

[11] See below for a description of the treatment of assumption reinsurance contracts.

[12] For example, a data base would not include a dictionary feature used to spell-check a word processing program.

For example, assume that a taxpayer acquires from another person a favorable contract right of such person to receive a specified amount of raw materials each month for the next three years (which is the remaining life of the contract) and that the right to receive such raw materials is not acquired as part of the acquisition of assets that constitute a trade or business or a substantial portion thereof (i.e., such contract right is not a section 197 intangible). It is anticipated that the taxpayer may be required to amortize the cost of acquiring the contract right ratably over the three-year remaining life of the contract. Alternatively, if the favorable contract right is to receive a specified amount of raw materials during an unspecified period, it is anticipated that the taxpayer may be required to amortize the cost of acquiring the contract right by multiplying such cost by a fraction, the numerator of which is the amount of raw materials received under the contract during any taxable year and the denominator of which is the total amount of raw materials to be received under the contract.

It is also anticipated that the regulations may require a taxpayer under appropriate circumstances to amortize the cost of acquiring a renewable right to receive tangible property or services over a period that includes all renewal options exercisable by the taxpayer at less than fair market value.

Certain interests in patents or copyrights.—The term "section 197 intangible" does not include any interest in a patent or copyright which is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion of a trade or business.

If a depreciation deduction is allowed with respect to an interest in a patent or copyright and the interest is not a section 197 intangible, then the amount of the deduction is to be determined in accordance with regulations to be promulgated by the Treasury Department. It is expected that the regulations may provide that if the purchase price of a patent is payable on an annual basis as a fixed percentage of the revenue derived from the use of the patent, then the amount of the depreciation deduction allowed for any taxable year with respect to the patent equals the amount of the royalty paid or incurred during such year.[13]

Interests under leases of tangible property.—The term "section 197 intangible" does not include any interest as a lessor or lessee under an existing lease of tangible property (whether real or personal).[14] The cost of acquiring an interest as a lessor under a lease of tangible property where the interest as lessor is acquired in connection with the acquisition of the tangible property is to be taken into account as part of the cost of the tangible property. For example, if a taxpayer acquires a shopping center that is leased to tenants operating retail stores, the portion (if any) of the purchase price of the shopping center that is attributable to the favorable attributes of the leases is to be taken into account as a part of the basis of the shopping center and is to be taken into account in determining the depreciation deduction allowed with respect to the shopping center.

The cost of acquiring an interest as a lessee under an existing lease of tangible property is to be taken into account under present law (see section 178 of the Code and Treas. Reg. sec. 1.162–11(a)) rather than under the provisions of the bill.[15] In the case of any interest as a lessee under a lease of tangible property that is acquired with any other intangible property (either in the same transaction or series of related transactions), however, the portion of the total purchase price that is allocable to the interest as a lessee is not to exceed the excess of (1) the present value of the fair market value rent for the use of the tangible property for the term of the lease,[16] over (2) the present value of the rent reasonably expected to be paid for the use of the tangible property for the term of the lease.

Interests under indebtedness.—The term "section 197 intangible" does not include any interest (whether as a creditor or debtor) under any indebtedness that was in existence on the date that the interest was acquired.[17] Thus, for example, the value of assuming an existing indebtedness with a below-market interest rate is to be taken into account under present law rather than under the bill. In addition, the premium paid for acquiring the right to receive an above-market rate of interest under a debt instrument may be taken into account under section 171 of the Code, which generally allows the amount of the premium to be amortized on a yield-to-maturity basis over the remaining term of the debt instrument. This exception for interests under existing indebtedness does not apply to the deposit base and other similar items of a financial institution.

Professional sports franchises.—The term "section 197 intangible" does not include a franchise to engage in professional baseball, basketball, football, or other professional sport, and any item acquired in connection with such a franchise. Consequently, the cost of acquiring a professional sports franchise and related assets (including any goodwill, going concern value, or other section 197 intangibles) is to be allocated among the assets acquired as provided under present law (see, for example, section 1056 of the Code) and is to be taken into account under the provisions of present law.

Regulatory authority regarding rights of fixed term or duration.— The bill authorizes the Treasury Department to issue regulations that exclude a right received under a contract, or granted by a governmental unit or an agency or instrumentality thereof, from the definition of a section 197 intangible if (1) the right is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business (or a substantial portion thereof) and (2) the right either (A) has a fixed duration or (B) is fixed as to amount[18] and properly amortizable (without regard to this provision) under a method similar to the unit of production method. Generally, it is anticipated that the mere fact that a taxpayer will have the opportunity to renew a contract or other right on the same terms as are available to others, in a competitive auction or similar process that is designed to reflect fair market value and in which the taxpayer is not contractually advantaged, will not be taken into account in determining the duration of such right or whether it is for a fixed amount.

For example, Company A enters into a license with Company B to use certain know-how developed by B. The license is for five years and provides that it cannot be renewed by A except on terms that are fully available to A's competitors and will reflect an arm's length price determined at the time of renewal. The license does not constitute a substantial portion of a trade or business and is not entered into as part of a transaction (or series of related transactions) that constitute the acquisition of a trade or business or substantial portion thereof. It is anticipated that in these circumstances the regulations will provide that the license is not a section 197 intangible because it is of fixed duration.

The regulations may also prescribe rules governing the extent to which renewal options and similar items will be taken into account for the purpose of determining whether rights are fixed in duration or amount.

It is also anticipated that such regulations may prescribe the appropriate method of amortizing the capitalized costs of rights which are excluded by such regulations from the definition of a section 197 intangible.

Exception for certain self-created intangibles

The bill generally does not apply to any section 197 intangible that is created by the taxpayer if the section 197 intangible is not created in connection with a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business or a substantial portion thereof.

For purposes of this exception, a section 197 intangible that is owned by a taxpayer is to be considered created by the taxpayer if the intangible is produced for the taxpayer by another person under a contract with the taxpayer that is entered into prior to the production of the intangible. For example, a technological process or other know-how that is developed specifically for a taxpayer under an arrangement with another person pursuant to which the taxpayer retains all rights to the process or know-how is to be considered created by the taxpayer.

The exception for "self-created" intangibles does not apply to the entering into (or renewal of) a contract for the use of a section 197 intangible. Thus, for example, the exception does not apply to the capitalized costs incurred by a licensee in connection with the entering into (or renewal of) a contract for the use of know-how or other section 197 intangible. These capitalized costs are to be amortized over the 14-year period specified in the bill.

In addition, the exception for "self-created" intangibles does not apply to: (1) any license, permit, or other right that is granted by a governmental unit or an agency or instrumentality thereof; (2) any covenant not to compete (or other similar arrangement) entered into in connection with the direct or indirect acquisition of an interest in a trade or business (or a substantial portion thereof); and (3) any franchise, trademark, or trade name. Thus, for example, the capitalized costs incurred in connection with the development or registration of a trademark or trade name are to be amortized over the 14-year period specified in the bill.

---

[13] See *Associated Patentees, Inc.*, 4 T.C. 979 (1945); and Rev. Rul. 67–136, 1967–1 C.B. 58.

[14] The bill provides that a sublease is to be treated in the same manner as a lease of the underlying property. Thus, the term "section 197 intangible" does not include any interest as a sublessor or sublessee of tangible property.

[15] The lease of a gate at an airport for the purpose of loading and unloading passengers and cargo is a lease of tangible property for this purpose. It is anticipated that such treatment will serve as guidance to the Internal Revenue Service and taxpayers in resolving existing disputes.

[16] In no event is the present value of the fair market value rent for the use of the tangible property for the term of the lease to exceed the fair market value of the tangible property as of the date of acquisition. The present value of such rent is presumed to be less than the value of the tangible property if the duration of the lease is less than the economic useful life of the property.

[17] For purposes of this exception, the term "interest under any existing indebtedness" is to include mortgage servicing rights to the extent that the rights are stripped coupons under section 1286 of the Code. See Rev. Rul. 91–46, 1991–34 I.R.B. 5 (August 26, 1991).

[18] For example, an emission allowance granted a public utility under Title IV of the Clean Air Act Amendments of 1990 is a right that is limited in amount within the meaning of this provision, because each allowance grants a right to a fixed amount of emissions.

Special rules

Determination of adjusted basis

The adjusted basis of a section 197 intangible that is acquired from another person generally is to be determined under the principles of present law that apply to tangible property that is acquired from another person. Thus, for example, if a portion of the cost of acquiring an amortizable section 197 intangible is contingent, the adjusted basis of the section 197 intangible is to be increased as of the beginning of the month that the contingent amount is paid or incurred. This additional amount is to be amortized ratably over the remaining months in the 14-year amortization period that applies to the intangible as of the beginning of the month that the contingent amount is paid or incurred.

Treatment of certain dispositions of amortizable section 197 intangibles

Special rules apply if a taxpayer disposes of a section 197 intangible that was acquired in a transaction or series of related transactions and, after the disposition,[19] the taxpayer retains other section 197 intangibles that were acquired in such transaction or series or related transactions.[20] First, no loss is to be recognized by reason of such a disposition. Second, the adjusted bases of the retained section 197 intangibles that were acquired in connection with such transaction or series of related transactions are to be increased by the amount of any loss that is not recognized. The adjusted basis of any such retained section 197 intangible is increased by the product of (1) the amount of the loss that is not recognized solely by reason of this provision, and (2) a fraction, the numerator of which is the adjusted basis of the intangible as of the date of the disposition and the denominator of which is the total adjusted bases of all such retained section 197 intangibles as of the date of the disposition.

For purposes of these rules, all persons treated as a single taxpayer under section 41(f)(1) of the Code are treated as a single taxpayer. Thus, for example, a loss is not to be recognized by a corporation upon the disposition of a section 197 intangible if after the disposition a member of the same controlled group as the corporation retains other section 197 intangibles that were acquired in the same transaction (or a series of related transactions) as the section 197 intangible that was disposed of. It is anticipated that the Treasury Department will provide rules for taking into account the amount of any loss that is not recognized due to this rule (for example, by allowing the corporation that disposed of the section 197 intangible to amortize the loss over the remaining portion of the 14-year amortization period).

Treatment of certain nonrecognition transactions

If any section 197 intangible is acquired in a transaction to which section 332, 351, 361, 721, 731, 1031, or 1033 of the Code applies (or any transaction between members of the same affiliated group during any taxable year for which a consolidated return is filed),[21] the transferee is to be treated as the transferor for purposes of applying this provision with respect to the amount of the adjusted basis of the transferee that does not exceed the adjusted basis of the transferor.

For example, assume that an individual owns an amortizable section 197 intangible that has been amortized under section 197 for 4 full years and has a remaining unamortized basis of $300,000. In addition, assume that the individual exchanges the asset and $100,000 for a like-kind amortizable section 197 intangible in a transaction to which section 1031 applies. Under the bill, $300,000 of the basis of the acquired amortizable section 197 intangible is to be amortized over the 10 years remaining in the original 14-year amortization period for the transferred asset and the other $100,000 of basis is to be amortized over the 14-year period specified in the bill.[22]

Treatment of certain partnership transactions

Generally, consistent with the rules described above for certain nonrecognition transactions, a transaction in which a taxpayer acquires an interest in an intangible held through a partnership (either before or after the transaction) will be treated as an acquisition to which the bill applies only if, and to the extent that, the acquiring taxpayer obtains, as a result of the transaction, an increased basis for such intangible.[23]

For example, assume that A, B and C each contribute $700 for equal shares in partnership P, which on January 1, 1993, acquires as its sole asset an amortizable section 197 intangible for $2,100. Assume that on January 1, 1997, (1) the sole asset of P is the intangible acquired in 1993, (2) the intangible has an unamortized basis of $1,500 and A, B, and C each have a basis of $500 in their partnership interests, and (3) D (who is not related to A, B, or C) acquires A's interest in P for $800. Under the bill, if there is no section 754 election in effect for 1997, there will be no change in the basis or amortization of the intangible and D will merely step into the shoes of A with respect to the intangible. D's share of the basis in the intangible will be $500, which will be amortized over the 10 years remaining in the amortization period for the intangible.

On the other hand, if a section 754 election is in effect for 1997, then D will be treated as having an $800 basis for its share of P's intangible. Under section 197, D's share of income and loss will be determined as if P owns two intangible assets. D will be treated as having a basis of $500 in one asset, which will continue to be amortized over the 10 remaining years of the original 14-year life. With respect to the other asset, D will be treated as having a basis of $300 (the amount of step-up obtained by D under section 743 as a result of the section 754 election) which will be amortized over a 14-year period starting with January of 1997. B and C will each continue to share equally in a $1,000 basis in the intangible and amortize that amount over the remaining 10-year life.

As an additional example, assume the same facts as described above, except that D acquires both A's and B's interests in P for $1,600. Under section 708, the transaction is treated as if P is liquidated immediately after the transfer, with C and D each receiving their pro rata share of P's assets which they then immediately contribute to a new partnership. The distributions in liquidation are governed by section 731. Under the bill, C's interest in the intangible will be treated as having a $500 basis, with a remaining amortization period of 10 years. D will be treated as having an interest in two assets: one with a basis of $1,000 and a remaining amortization period of 10 years, and the other with a basis of $600 and a new amortization period of 14 years.

As discussed more fully below, the bill also changes the treatment of payments made in liquidation of the interest of a deceased or retired partner in exchange for goodwill. Except in the case of payments made on the retirement or death of a general partner of a partnership for which capital is not a material income-producing factor, such payments will not be treated as a distribution of partnership income. Under the bill, however, if the partnership makes an election under section 754, section 734 will generally provide the partnership the benefit of a stepped-up basis for the retiring or deceased partner's share of partnership goodwill and an amortization deduction for the increase in basis under section 197.

For example, using the facts from the preceding examples, assume that on January 1, 1997, A retires from the partnership in exchange for a payment from the partnership of $800, all of which is in exchange for A's interest in the intangible asset owned by P. Under the bill, if there is a section 754 election in effect for 1997, P will be treated as having two amortizable section 197 intangibles: one with a basis of $1,500 and a remaining life of 10 years, and the other with a basis of $300 and a new life of 14 years.

Treatment of certain reinsurance transactions

The bill applies to any insurance contract that is acquired from another person through an assumption reinsurance transaction (but not through an indemnity reinsurance transaction).[24] The amount taken into account as the adjusted basis of such a section 197 intangible, however, is to equal the excess of (1) the amount paid or incurred by the acquirer/reinsurer under the assumption reinsurance transaction,[25] over (2) the amount of the specified policy acquisition expenses (as determined under section 848 of the Code) that is attributable to premiums received under the assumption reinsurance transaction. The amount of the specified policy acquisition expenses of an insurance company that is attributable to premiums received under an assumption reinsurance transaction is to be amortized over the period specified in section 848 of the Code.

---

[19] For this purpose, the abandonment of a section 197 intangible or any other event that renders a section 197 intangible worthless is to be considered a disposition of a section 197 intangible.

[20] These special rules do not apply to a section 197 intangible that is separately acquired (i.e., a section 197 intangible that is acquired other than in a transaction or a series of related transactions that involve the acquisition of other section 197 intangibles). Consequently, a loss may be recognized upon the disposition of a separately acquired section 197 intangible. In no event, however, is the termination or worthlessness of a portion of a section 197 intangible to be considered the disposition of a separately acquired section 197 intangible. For example, the termination of one or more customers from an acquired customer list or the worthlessness of some information from an acquired data base is not to be considered the disposition of a separately acquired section 197 intangible.

[21] The termination of a partnership under section 708(b)(1)(B) of the Code is a transaction to which this rule applies. In such a case, the bill applies only to the extent that the adjusted basis of the section 197 intangibles before the termination exceeds the adjusted basis of the section 197 intangibles after the termination. (See the example below in the discussion of "Treatment of Certain Partnership Transactions.")

[22] No inference is intended whether any asset treated as a section 197 intangible under the bill is eligible for like kind exchange treatment.

[23] This discussion is subject to the application of the anti-churning rules which are discussed below.

[24] An assumption reinsurance transaction is an arrangement whereby one insurance company (the reinsurer) becomes solely liable to policyholders on contracts transferred by another insurance company (the ceding company). In addition, for purposes of the bill, an assumption reinsurance transaction is to include any acquisition of an insurance contract that is treated as occurring by reason of an election under section 338 of the Code.

Treatment of amortizable section 197 intangible as depreciable property

For purposes of chapter 1 of the Internal Revenue Code, an amortizable section 197 intangible is to be treated as property of a character which is subject to the allowance for depreciation provided in section 167. Thus, for example, an amortizable section 197 intangible is not a capital asset for purposes of section 1221 of the Code, but an amortizable section 197 intangible held for more than one year generally qualifies as property used in a trade or business for purposes of section 1231 of the Code. As further examples, an amortizable section 197 intangible is to constitute section 1245 property, and section 1239 of the Code is to apply to any gain recognized upon the sale or exchange of an amortizable section 197 intangible, directly or indirectly, between related persons.

Treatment of certain amounts that are properly taken into account in determining the cost of property that is not a section 197 intangible

The bill does not apply to any amount that is properly taken into account under present law in determining the cost of property that is not a section 197 intangible. Thus, for example, no portion of the cost of acquiring real property that is held for the production of rental income (for example, an office building, apartment building or shopping center) is to be taken into account under the bill (i.e., no goodwill, going concern value or any other section 197 intangible is to arise in connection with the acquisition of such real property). Instead, the entire cost of acquiring such real property is to be included in the basis of the real property and is to be recovered under the principles of present law applicable to such property.

Modification of purchase price allocation and reporting rules for certain asset acquisitions

Sections 338(b)(5) and 1060 of the Code authorize the Treasury Department to promulgate regulations that provide for the allocation of purchase price among assets in the case of certain asset acquisitions. Under regulations that have been promulgated pursuant to this authority, the purchase price of an acquired trade or business must be allocated among the assets of the trade or business using the "residual method."

Under the residual method specified in the Treasury regulations, all assets of an acquired trade or business are divided into the following four classes: (1) Class I assets, which generally include cash and cash equivalents; (2) Class II assets, which generally include certificates of deposit, U.S. government securities, readily marketable stock or securities, and foreign currency; (3) Class III assets, which generally include all assets other than those included in Class I, II, or IV (generally all furniture, fixtures, land, buildings, equipment, other tangible property, accounts receivable, covenants not to compete, and other amortizable intangible assets); and (4) Class IV assets, which include intangible assets in the nature of goodwill or going concern value. The purchase price of an acquired trade or business (as first reduced by the amount of the assets included in Class I) is allocated to the assets included in Class II and Class III based on the value of the assets included in each class. To the extent that the purchase price (as reduced by the amount of the assets in Class I) exceeds the value of the assets included in Class II and Class III, the excess is allocable to assets included in Class IV.

It is expected that the present Treasury regulations which provide for the allocation of purchase price in the case of certain asset acquisitions will be amended to reflect the fact that the bill allows an amortization deduction with respect to intangible assets in the nature of goodwill and going concern value. It is anticipated that the residual method specified in the regulations will be modified to treat all amortizable section 197 intangibles as Class IV assets and that this modification will apply to any acquisition of property to which the bill applies.

Section 1060 also authorizes the Treasury Department to require the transferor and transferee in certain asset acquisitions to furnish information to the Treasury Department concerning the amount of any purchase price that is allocable to goodwill or going concern value. The bill provides that the information furnished to the Treasury Department with respect to certain asset acquisitions is to specify the amount of purchase price that is allocable to amortizable section 197 intangibles rather than the amount of purchase price that is allocable to goodwill or going concern value. In addition, it is anticipated that the Treasury Department will exercise its existing regulatory authority to require taxpayers to furnish such additional information as may be necessary or appropriate to carry out the provisions of the bill, including the amount of purchase price that is allocable to intangible assets that are not amortizable section 197 intangibles.

General regulatory authority

The Treasury Department is authorized to prescribe such regulations as may be appropriate to carry out the purposes of the bill including such regulations as may be appropriate to prevent avoidance of the purposes of the bill through related persons or otherwise. It is anticipated that the Treasury Department will exercise its regulatory authority where appropriate to clarify the types of intangible property that constitute section 197 intangibles.

Study

The Treasury Department is directed to conduct a continuing study of the implementation and effects of the bill, including effects on merger and acquisition activities (including hostile takeovers and leveraged buyouts). It is expected that the study will address effects of the legislation on the pricing of acquisitions and on the reported values of different types of intangibles (including goodwill). The Treasury Department is to report the initial results of such study as expeditiously as possible and no later than December 31, 1994. The Treasury Department is to provide additional reports annually thereafter.

Effective Date

In general

The provision generally applies to property acquired after the date of enactment of the bill. As more fully described below, however, a taxpayer may elect to apply the bill to all property acquired after July 25, 1991. In addition, a taxpayer that does not make this election may elect to apply present law (rather than the provisions of the bill) to property that is acquired after the date of enactment of the bill pursuant to a binding written contract in effect on the date of enactment of the bill and at all times thereafter until the property is acquired. Finally, special "anti-churning" rules may apply to prevent taxpayers from converting existing goodwill, going concern value, or any other section 197 intangible for which a depreciation or amortization deduction would not have been allowable under present law into amortizable property to which the bill applies.

Election to apply bill to property acquired after July 25, 1991

A taxpayer may elect to apply the bill to all property acquired by the taxpayer after July 25, 1991. If a taxpayer makes this election, the bill also applies to all property acquired after July 25, 1991, by any taxpayer that is under common control with the electing taxpayer (within the meaning of subparagraphs (A) and (B) of section 41(f)(1)) of the Code) at any time during the period that began on November 22, 1991, and that ends on the date that the election is made.[26]

The election is to be made at such time and in such manner as may be specified by the Treasury Department,[27] and the election may be revoked only with the consent of the Treasury Department.

Elective binding contract exception

A taxpayer may also elect to apply present law (rather than the provisions of the bill) to property that is acquired after the date of enactment of the bill if the property is acquired pursuant to a binding written contract that was in effect on the date of enactment of the bill and at all times thereafter until the property is acquired. This election may not be made by any taxpayer that is subject to either of the elections described above that apply the provisions of the bill to property acquired before the date of enactment of the bill.

The election is to be made at such time and in such manner as may be specified by the Treasury Department,[28] and the election may be revoked only with the consent of the Treasury Department.

Anti-churning rules

Special rules are provided by the bill to prevent taxpayers from converting existing goodwill, going concern value, or any other section 197 intangible for which a depreciation or amortization deduction would not have been allowable under present law into amortizable property to which the bill applies.

---

[25] The amount paid or incurred by the acquirer/reinsurer under an assumption reinsurance transaction is to be determined under the principles of present law. (See Treas. Reg. sec. 1.817-4(d)(2).)

[26] However, with certain exceptions, an amortization deduction is not to be allowed under the bill for goodwill, going concern value, or any other section 197 intangible for which a depreciation or amortization deduction would not be allowable but for the provisions of the bill if: (1) the section 197 intangible is acquired after July 25, 1991; and (2) either (a) the taxpayer or a related person held or used the intangible on July 25, 1991; (b) the taxpayer acquired the intangible from a person that held such intangible on July 25, 1991, and, as part of the transaction, the user of the intangible does not change; or (c) the taxpayer grants the right to use the intangible to a person (or a person related to such person) that held or used the intangible on July 25, 1991. See below for a more detailed description of these "anti-churning" rules.

[27] It is anticipated that the Treasury Department will require the election to be made on the timely filed Federal income tax return of the taxpayer for the taxable year that includes the date of enactment of the bill.

[28] It is anticipated that the Treasury Department will require the election to be made on the timely filed Federal income tax return of the taxpayer for the taxable year that includes the date of enactment of the bill.

Under these "anti-churning" rules, goodwill, going concern value, or any other section 197 intangible for which a depreciation or amortization deduction would not be allowable but for the provisions of the bill may not be amortized as an amortizable section 197 intangible if: (1) the section 197 intangible is acquired by a taxpayer after the date of enactment of the bill; and (2) either (a) the taxpayer or a related person held or used the intangible at any time during the period that begins on July 25, 1991, and that ends on the date of enactment of the bill; (b) the taxpayer acquired the intangible from a person that held such intangible at any time during the period that begins on July 25, 1991, and that ends on the date of enactment of the bill and, as part of the transaction, the user of the intangible does not change; or (c) the taxpayer grants the right to use the intangible to a person (or a person related to such person) that held or used the intangible at any time during the period that begins on July 25, 1991, and that ends on the date of enactment of the bill. The anti-churning rules, however, do not apply to the acquisition of any intangible by a taxpayer if the basis of the intangible in the hands of the taxpayer is determined under section 1014(a) (relating to property acquired from a decedent).

For purposes of the anti-churning rules, a person is related to another person if: (1) the person bears a relationship to that person which would be specified in section 267(b)(1) or 707(b)(1) of the Code if those sections were amended by substituting 20 percent for 50 percent; or (2) the persons are engaged in trades or businesses under common control (within the meaning of subparagraphs (A) and (B) of section 41(f)(1) of the Code). A person is treated as related to another person if such relationship exists immediately before or immediately after the acquisition of the intangible involved.

In addition, in determining whether the anti-churning rules apply with respect to any increase in the basis of partnership property under section 732, 734, or 743 of the Code, the determinations are to be made at the partner level and each partner is to be treated as having owned or used the partner's proportionate share of the partnership property. Thus, for example, the anti-churning rules do not apply to any increase in the basis of partnership property that occurs upon the acquisition of an interest in a partnership that has made a section 754 election if the person acquiring the partnership interest is not related to the person selling the partnership interest.[29]

These "anti-churning" rules are not to apply to any section 197 intangible that is acquired from a person with less than a 50-percent relationship to the acquirer to the extent that: (1) the seller recognizes gain on the transaction with respect to such intangible; and (2) the seller agrees, notwithstanding any other provision of the Code, to pay a tax on such gain which, when added to any other Federal income tax imposed on such gain, equals the product of such gain and the highest rate of tax imposed by section 1 or 11 of the Code, whichever is applicable. The seller is treated as satisfying the second requirement if the excess of (1) the total tax liability for the year of the transaction over (2) what its tax liability for such year would have been had the sale of the intangible (but not the remainder of the transaction) been excluded from the computation equals or exceeds the product of the gain on that asset times the relevant maximum rate.

The bill also contains a general anti-abuse rule that applies to any section 197 intangible that is acquired by a taxpayer from another person. Under this rule, a section 197 intangible may not be amortized under the provisions of the bill if the taxpayer acquired the intangible in a transaction one of the principal purposes of which is to (1) avoid the requirement that the intangible be acquired after the date of enactment of the bill or (2) avoid any of the anti-churning rules described above that are applicable to goodwill, going concern value, or any other section 197 intangible for which a depreciation or amortization deduction would not be allowable but for the provisions of the bill.

Finally, the special rules described above that apply in the case of a transactions described in section 332, 351, 361, 721, 731, 1031, or 1033 of the Code also apply for purposes of the effective date. Consequently, if the transferor of any section 197 property is not allowed an amortization deduction with respect to such property under this provision, then the transferee is not allowed an amortization deduction under this provision to the extent of the adjusted basis of the transferee that does not exceed the adjusted basis of the transferor. In addition, this provision is to apply to any subsequent transfers of any such property in a transaction described in section 332, 351, 361, 721, 731, 1031, or 1033.

SENATE AMENDMENT

The Senate amendment is the same as the House bill with the following modifications:

The straight line amortization period for an amortizable section 197 intangible is 16 years rather than 14 years.

Purchased mortgage servicing rights (not acquired with a trade or business or substantial portion thereof) are excluded from the definition of a section 197 intangible.

At the election of the taxpayer, the acquisition of certain intangibles from a "qualified research entity" is subject to present law rather than the bill.

The Treasury Department authority to issue regulations that apply present law rather than the bill to certain rights of fixed duration under a contract (or any right granted by a governmental entity) applies only if the fixed duration of the right is less than 16 years.

Under the Senate amendment, the term section 197 intangible does not include the amount of any fees for professional services, and any transaction costs, incurred by parties to a reorganization with respect to which any portion of the gain or loss is not recognized under part III of subchapter C.

The Senate amendment permits taxpayers to elect to settle the treatment of amortizable section 197 intangibles for all open taxable years, generally by amortizing 50 percent of the adjusted basis of such intangibles (using the amortization method and period claimed by the taxpayer on specified returns).

The Senate amendment does not require annual reports from the Treasury Department on the implementation and effects of the intangibles legislation.

The technical explanation of the Senate Amendment also clarifies certain technical points.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with the following modifications:

Treasury regulatory authority regarding rights of fixed duration or amount

The conference agreement adopts the Senate provision and technical explanation regarding the scope of Treasury regulatory authority to except from the definition of a section 197 intangible certain rights under a contract (or granted by a governmental entity). The agreement provides additional technical clarification regarding such rights.

Under the conference agreement, the Treasury Department is authorized to issue regulations that exclude a right received under a contract, or granted by a governmental unit or an agency or instrumentality thereof, from the definition of a section 197 intangible if (1) the right is not acquired in a transaction (or a series of related transactions) that involves the acquisition of assets which constitute a trade or business (or a substantial portion thereof) and (2) the right either (A) has a fixed duration of less than 14 years or (B) is fixed as to amount[30] and the cost is properly recoverable (without regard to this provision) under a method similar to the unit of production method.

Generally, it is anticipated that the mere fact that a taxpayer will have the opportunity to renew a contract or other right on the same terms as are available to others, in a competitive auction or similar process that is designed to reflect fair market value and in which the taxpayer is not contractually advantaged, will not be taken into account in determining the duration of such right or whether it is for a fixed amount. However, the fact that competitive bidding occurs at the time of renewal and that there are or may be modifications in price (or in terms or requirements relating to the right that increase the cost to the bidder) shall not be within the scope of the preceding sentence unless the bidding also actually produces a fair market value price comparable to the price that would obtain if the rights were purchased immediately after renewal from a person (other than the person granting the renewal) in an arm's length transaction. Furthermore, it is expected that, as under present law, the Treasury Department will take into account all the facts and circumstances, including any facts indicating an actual practice of renewals or expectancy of renewals.

For example, assume that Company A enters into a license with Company B to use certain know-how developed by B. In addition, assume that the license is for five years, that the license cannot be renewed by A except on terms that are fully available to A's competitors and that the price paid by A will reflect the arm's length price that a third party would pay A for the license immediately after renewal. Finally, assume that the license does not constitute a substantial portion of a trade or business and is not entered into as part of a transaction (or series of related transactions) that constitute the acquisition of a trade or business or substantial portion thereof. It is anticipated that in these circumstances the regulations will provide that the license is not a section 197 intangible because it is of fixed duration of less than 14 years.

---

[29] In addition to these rules, it is anticipated that rules similar to the anti-churning rules under section 168 of the Code will apply in determining whether persons are related. (See Prop. Treas. Reg. 1.168-4 (February 16, 1984).) For example, it is anticipated that a corporation, partnership, or trust that owned or used property at any time during the period that begins on July 25, 1991, and that ends on the date of enactment of the bill and that is no longer in existence will be considered to be in existence for purposes of determining whether the taxpayer that acquired the property is related to such corporation, partnership, or trust.

As a further example, it is anticipated that in the case of a transaction to which section 338 of the Code applies, the corporation that is treated as selling its assets will not to be considered related to the corporation that is treated as purchasing the assets if at least 80 percent of the stock of the corporation that is treated as selling its assets is acquired by purchase after July 25, 1991.

[30] For example, an emission allowance granted a public utility under Title IV of the Clean Air Act Amendments of 1990 is a right that is limited in amount within the meaning of this provision.

The regulations may also prescribe rules governing the extent to which renewal options and similar provisions will be taken into account for the purpose of determining whether rights are fixed in duration or amount. It is also anticipated that such regulations may prescribe the appropriate method of taking into account the capitalized costs of rights which are excluded by such regulations from the definition of a section 197 intangible.

Certain fees for professional services and transaction costs

The conference agreement adopts the Senate provision regarding fees for professional services and transaction costs, with a technical modification. The modification clarifies that the provision applies to any transaction with respect to which any portion of the gain or loss is not recognized under Part III of subchapter C of the Code, in addition to those transactions that are "reorganizations" as defined by section 368 of the Code.

The conferees have adopted this provision because of concern that some taxpayers might attempt to contend that the 14 year amortization provided by the provision applies to any such amounts that may be required to be capitalized under present law but that do not relate to any asset with a readily identifiable useful life.[31] The exception is provided solely to clarify that section 197 is not to be construed to provide 14-year amortization for any such amounts. No inference is intended that such amounts would (but for this provision) be properly characterized as amounts eligible for such 14-year amortization, nor is any inference intended that any amounts not specified in this provision should be so characterized. In addition, no inference is intended regarding the proper treatment of professional fees or transaction costs in other circumstances under present law.

Anti-churning rules

The agreement clarifies that amounts that are properly deductible pursuant to section 1253 under present law are to be treated for purposes of the anti-churning provision as amounts for which depreciation or amortization is allowable under present law.

Other technical clarifications

The conference agreement follows the technical explanation of the Senate amendment with respect to certain additional technical items.

Thus, with respect to the definition of "interests in land" that are excepted from the definition of a "section 197 intangible," the conferees intend to clarify that the costs of acquiring licenses, permits, and other rights relating to improvements to land, such as building construction or use permits, are to be taken into account in the same manner as the underlying improvement in accordance with present law.

In addition, with respect to the modifications made to section 1060 under the conference agreement, the conferees intend to clarify that there is no intention to codify any aspect of the existing regulations under section 1060 or other provisions. Furthermore, it is expected that the Treasury Department will review the operation of the regulations under sections 1060 and 338 in light of new section 197.

Report regarding backlog of pending cases

The purpose of the provision is to simplify the law regarding the amortization of intangibles. The severe backlog of cases in audit and litigation is a matter of great concern to the conferees; and any principles established in such cases will no longer have precedential value due to the provision contained in the conference agreement. Therefore, the conferees urge the Internal Revenue Service in the strongest possible terms to expedite the settlement of cases under present law. In considering settlements and establishing procedures for handling existing controversies in an expedient and balanced manner, the conferees strongly encourage the Internal Revenue Service to take into account the principles of the bill so as to produce consistent results for similarly situated taxpayers. However, no inference is intended that any deduction should be allowed in these cases for assets that are not amortizable under present law.

In addition, the conference agreement requires the Treasury Department to report annually to the House Ways and Means Committee and the Senate Finance Committee, regarding the volume of pending disputes in audit and litigation involving the amortization of intangibles and the progress made in resolving such disputes. It is expected that the report will also address the effects of the provision on the volume and nature of disputes regarding the amortization of intangibles. The first such report shall be made no later than December 31, 1993.

2. Modify special treatment of certain liquidation payments

PRESENT LAW

Payments for purchase of goodwill and accounts receivable

A current deduction generally is not allowed for a capital expenditure (*i.e.*, an expenditure that yields benefits beyond the current taxable year). The cost of goodwill acquired in connection with the assets of a going concern normally is a capital expenditure, as is the cost of acquiring accounts receivable. The cost of acquiring goodwill is recovered only when the goodwill is disposed of, while the cost of acquiring accounts receivable is taken into account only when the receivable is disposed of or becomes worthless.

Payments made in liquidation of partnership interest

The tax treatment of a payment made in liquidation of the interest of a retiring or deceased partner depends upon whether the payment is made in exchange for the partner's interest in partnership property. A liquidating payment made in exchange for such property is treated as a distribution by the partnership (sec. 736(b)). Such distribution generally results in gain to the retiring partner only to the extent that the cash distributed exceeds the partner's adjusted basis in his partnership interest.

A liquidating payment not made in exchange for the partner's interest in partnership property receives either of two possible treatments. If the amount of the payment is determined without reference to partnership income, it is treated as a guaranteed payment and is generally deductible (sec. 736(a)(2)). If the amount of payment is determined by reference to partnership income, the payment is treated as a distributive share of partnership income, thereby reducing the distributive shares of other partners (which is equivalent to a deduction) (sec. 736(a)(2)).

A special rule treats amounts paid for goodwill of the partnership (except to the extent provided in the partnership agreement) and unrealized receivables as not made in exchange for an interest in partnership property (sec. 736(b)(2)(B)). Thus, such amounts may be deductible. Unrealized receivables include unbilled amounts, accounts receivable, depreciation recapture, market discount, and certain other items (sec. 751(c)).

Sale or exchange of a partnership interest

The sale or exchange of a partnership interest results in capital gain or loss to the transferor partner, except to the extent that ordinary income or loss is recognized with respect to the partner's share of the partnership's unrealized receivables and substantially appreciated inventory items (sec. 741). It is often unclear whether a payment by a partnership to a retiring partner is made in sale or exchange of, or in liquidation of, a partnership interest.

HOUSE BILL

In general

The bill generally repeals the special treatment of liquidation payments made for goodwill and unrealized receivables. Thus, such payments would be treated as made in exchange for the partner's interest in partnership property, and not as a distributive share or guaranteed payment that could give rise to a deduction or its equivalent. The bill does not change present law with respect to payments made to a general partner in a partnership in which capital is not a material income-producing factor.[32] In addition, the bill does not affect the deductibility of compensation paid to a retiring partner for past services.

Unrealized receivables

The bill also repeals the special treatment of payments made for unrealized receivables (other than unbilled amounts and accounts receivable) for all partners. Such amounts would be treated as made in exchange for the partner's interest in partnership property. Thus, for example, a payment for depreciation recapture would be treated as made in exchange for an interest in partnership property, and not as a distributive share or guaranteed payment that could give rise to a deduction or its equivalent.

Effective date

The provision generally applies to partners retiring or dying on or after June 25, 1992. The provision does not apply to any partner who retires on or after June 25, 1992, if a written contract to purchase the partner's interest in the partnership was binding on June 24, 1992 and at all times thereafter until such purchase. For this purpose, a written contract is to be considered binding only if the contract specifies the amount to be paid for the partnership interest and the timing of any such payments.

SENATE AMENDMENT

The Senate amendment is the same as the House bill except for the effective date provision. The Senate amendment applies to partners retiring or dying on or after February 14, 1992 rather than on or after June 25, 1992.

---

[31] *See, e.g., INDOPCO, Inc. v. Commissioner*, 112 S. Ct. 1039 (1992)

[32] The determination of whether capital is a material income-producing factor would be made under principles of present and prior law (*e.g.*, sections 401(c)(2) and 911(d) of the Code and old section 1348(b)(1)(A) of the Code).

The technical explanation of the Senate amendment also provides additional clarification regarding when capital is a material income producing factor.

CONFERENCE AGREEMENT

The conference agreement follows the House bill but includes the technical explanation from the Senate amendment regarding when capital is a material income producing factor.

Thus, under the conference agreement, for purposes of this provision, capital is not a material income producing factor where substantially all the gross income of the business consists of fees, commissions, or other compensation for personal services performed by an individual. The practice of his or her profession by a doctor, dentist, lawyer, architect, or accountant will not, as such, be treated as a trade or business in which capital is a material income producing factor even though the practitioner may have a substantial capital investment in professional equipment or in the physical plant constituting the office from which such individual conducts his or her practice so long as such capital investment is merely incidental to such professional practice.

F. PROVISIONS RELATING TO SUBCHAPTER S CORPORATIONS

1. Determination of whether an S corporation has one class of stock

PRESENT LAW

Under present law, a small business corporation eligible to be an S corporation may not have more than one class of stock. Differences in voting rights are disregarded in determining whether a corporation has more than one class of stock. In addition, certain debt instruments may not be treated as a second class of stock for purposes of this rule.

On October 5, 1990, the Treasury Department issued proposed regulations[1] providing that a corporation has more than one class of stock if all of the outstanding shares of stock do not confer identical rights to distribution and liquidation proceeds, regardless of whether any differences in rights occur pursuant to the corporate charter, articles or bylaws, by operation of State law, by administrative action, or by agreement. The proposed regulations also provided that, notwithstanding that all outstanding shares of stock confer identical rights to distribution and liquidation proceeds, a corporation has more than one class of stock if the corporation makes non-conforming distributions (i.e., distributions that differ with respect to timing or amount with respect to each share of stock), with limited exceptions for certain redemptions and certain differences in the timing of distributions. The proposed regulations were to apply to taxable years beginning after December 31, 1982.

On August 8, 1991, the Treasury Department issued revised proposed regulations replacing the proposed regulations described above. The regulations were issued as final regulations on May 29, 1992 (Treasury Decision 8419). These regulations provide that a corporation is treated as having only one class of stock if all outstanding shares of stock confer identical rights to distribution and liquidation proceeds. Under the revised regulations, any distributions that differ in timing or amount are to be given appropriate tax effect in accordance with the facts and circumstances. These regulations generally apply to taxable years beginning after May 28, 1992.

HOUSE BILL

The House bill provides that a corporation is treated as having only one class of stock if all outstanding shares of stock of the corporation confer identical rights to distribution and liquidation proceeds. Applicable State law, taking into account legally enforceable rights under the corporate charter, articles or bylaws, administrative action, and agreements relating to distributions or liquidation proceeds with respect to shares, determines whether the outstanding shares confer different rights to distributions or liquidation proceeds.

Where an S corporation in fact makes distributions which differ as to timing or amount, the bill in no way limits the Internal Revenue Service from properly characterizing the transaction for tax purposes. For example, if a distribution is properly characterized as compensation, the Service could require it to be so treated for tax purposes. Similarly, if a payment appearing as compensation should be properly characterized as a distribution, the Service could require it to be so treated for purposes of computing taxable income.

Effective date.—The provision applies to taxable years beginning after December 31, 1982.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Authority to validate certain invalid elections

PRESENT LAW

Under present law, if the Internal Revenue Service determines that a corporation's Subchapter S election is inadvertently terminated, the Service can waive the effect of the terminating event for any period if the corporation timely corrects the event and if the corporation and shareholders agree to be treated as if the election had been in effect for that period. Present law does not grant the Internal Revenue Service the ability to waive the effect of an inadvertent invalid Subchapter S election.

In addition, under present law, a small business corporation must elect to be an S corporation no later than the 15th day of the third month of the taxable year for which the election is effective. The Internal Revenue Service may not validate a late election.

HOUSE BILL

Under the House bill, the authority of the Internal Revenue Service to waive the effect of an inadvertent termination is extended to allow the Service to waive the effect of an invalid election caused by an inadvertent failure to qualify as a small business corporation or to obtain the required shareholder consents (including elections regarding qualified subchapter S trusts), or both. It is intended that the Internal Revenue Service be reasonable in granting waivers of inadvertent invalid elections so that a corporation whose election was inadvertently invalid would be treated as an S corporation as if the election had been effective.[2]

The bill also allows the Internal Revenue Service to treat a late Subchapter S election as timely where the Service determines that there was reasonable cause for the failure to make the election timely. It is intended that the Internal Revenue Service adopt a standard similar to the standard currently set forth in Treasury regulation sec. 1.9100-1 in applying this provision.

Effective date.—The provision applies to taxable years beginning after December 31, 1982.[3]

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Treatment of distributions by S corporations during loss year

PRESENT LAW

Under present law, the amount of loss an S corporation shareholder may take into account for a taxable year cannot exceed the sum of shareholder's adjusted basis in his or her stock of the corporation and the adjusted basis in any indebtedness of the corporation to the shareholder. Any excess loss is carried forward.

Any distribution to a shareholder by an S corporation generally is tax-free to the shareholder to the extent of the shareholder's adjusted basis of his or her stock. The shareholder's adjusted basis is reduced by the tax-free amount of the distribution. Any distribution in excess of the shareholder's adjusted basis is treated as gain from the sale or exchange of the stock.

Under present law, income (whether or not taxable) and expenses (whether or not deductible) serve, respectively, to increase and decrease an S corporation shareholder's basis in the stock of the corporation. These rules appear to require that the adjustments to basis for items of both income and loss for any taxable year apply before the adjustment for distributions applies.[4]

These rules limiting losses and allowing tax-free distributions up to the amount of the shareholder's adjusted basis are similar in certain respects to the rules governing the treatment of losses and cash distributions by partnerships. Under the partnership rules (unlike the S corporation rules), for any taxable year, a partner's basis is first increased by items of income, then decreased by distributions, and finally is decreased by losses for that year.[5]

In addition, if the S corporation has accumulated earnings and profits,[6] any distribution in excess of the amount in an "accumulated adjustments account" will be treated as a dividend (to the extent of the accumulated earnings and profits). A dividend distribution does not reduce the adjusted basis of the shareholder's stock. The "accumulated adjustments account" generally is the amount of the accumulated undistributed post-1982 gross income less deductions.

HOUSE BILL

The House bill provides that the adjustments for distributions made by an S corporation during a taxable year are taken into account before applying the loss limitation for the year. Thus, distributions during a year reduce the adjusted basis for purposes of determining the allowable loss for the year, but the loss for a year does not reduce the adjusted basis for purposes of determining the tax status of the distributions made during that year.

---

[1] Proposed Treasury Regulation sec. 1.1361–1(l)(2).

[2] Thus, for example, the Internal Revenue Service would have authority to waive the effect of an invalid election in a situation such as that set forth in PLR 8807070 (Nov. 25, 1987) where the election was not valid because the election was filed before the issuance of a certificate of incorporation by the State.

[3] This is the effective date of the present-law provision regarding inadvertent terminations.

[4] See section 1366(d)(1)(A); H. Rep. 97-826, p. 17; S. Rep. 97-640, p. 18; Prop. Treas. Reg. sec. 1.1367-1(e).

[5] Treas. Reg. sec. 1.704-1(d)(2); Rev. Rul. 66-94, 1966-1 C.B. 166.

[6] An S corporation may have earnings and profits from years prior to its subchapter S election or from pre-1983 subchapter S years.

The bill also provides that in determining the amount in the accumulated adjustment account for purposes of determining the tax treatment of distributions made during a taxable year by an S corporation having accumulated earnings and profits, net negative adjustments (i.e., the excess of losses and deductions over income) for that taxable year are disregarded.

The following examples illustrate the application of these provisions:

Example 1.—X is the sole shareholder of A, a calendar year S corporation with no accumulated earnings and profits. X's adjusted basis in the stock of A on January 1, 1992, is $1,000 and X holds no debt of A. During the taxable year, A makes a distribution to X of $600, recognizes a capital gain of $200 and sustains an operating loss of $900. Under the bill, X's adjusted basis in the A stock is increased to $1,200 ($1,000 plus $200 capital gain recognized) pursuant to section 1368(d) to determine the effect of the distribution. X's adjusted basis is then reduced by the amount of the distribution to $600 ($1,200 less $600) to determine the application of the loss limitation of section 1366(d)(1). X is allowed to take into account $600 of A's operating loss, which reduces X's adjusted basis to zero. The remaining $300 loss is carried forward pursuant to section 1366(d)(2).

Example 2.—The facts are the same as in Example 1, except that on January 1, 1992, A has accumulated earnings and profits of $500 and an accumulated adjustments account of $200. Under the bill, because there is a net negative adjustment for the year, no adjustment is made to the accumulated adjustments account before determining the effect of the distribution under section 1368(c).

As to A, $200 of the $600 distribution is a distribution of A's accumulated adjustments account, reducing the accumulated adjustments account to zero. The remaining $400 of the distribution is a distribution of accumulated earnings and profits ("E&P") and reduces A's E&P to $100. A's accumulated adjustments account is then increased by $200 to reflect the recognized capital gain and reduced by $900 to reflect the operating loss, leaving a negative balance in the accumulated adjustment account on January 1, 1993, of $700 (zero plus $200 less $900).

As to X, $200 of the distribution is applied against A's adjusted basis of $1,200 ($1,000 plus $200 capital gain recognized), reducing X's adjusted basis to $1,000. The remaining $400 of the distribution is taxable as a dividend and does not reduce X's adjusted basis. Because X's adjusted basis is $1,000, the loss limitation does not apply to X, who may deduct the entire $900 operating loss. X's adjusted basis is then decreased to reflect the $900 operating loss. Accordingly, X's adjusted basis on January 1, 1993, is $100 ($1,000 plus $200 less $200 less $900).

Effective date.—These provisions apply to distributions made in taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

4. Treatment of S corporations as shareholders in C corporations

PRESENT LAW

Present law contains several provisions relating to the treatment of S corporations as corporations generally for purposes of the Internal Revenue Code.

First, under present law, the taxable income of an S corporation is computed in the same manner as in the case of an individual (sec. 1363(b)). Under this rule, the provisions of the Code governing the computation of taxable income which are applicable only to corporations, such as the dividends received deduction, do not apply to S corporations.

Second, except as otherwise provided by the Internal Revenue Code and except to the extent inconsistent with subchapter S, subchapter C (i.e., the rules relating to corporate distributions and adjustments) applies to an S corporation and its shareholders (sec. 1371(a)(1)). Under this second rule, provisions such as the corporate reorganization provisions apply to S corporations. Thus, a C corporation may merge into an S corporation tax-free.

Finally, an S corporation in its capacity as a shareholder of another corporation is treated as an individual for purposes of subchapter C (sec. 1371(a)(2)).

The Internal Revenue Service has taken the position that this rule prevents the tax-free liquidation of a C corporation into an S corporation because a C corporation cannot liquidate tax-free when owned by an individual shareholder.[7] Thus, a C corporation may elect S corporation status tax-free or may merge into an S corporation tax-free, but may not liquidate into an S corporation tax-free.[8] Also, the Service's reasoning would also prevent an S corporation from making an election under section 338 where a C corporation was acquired by an S corporation.

HOUSE BILL

The House bill repeals the rule that treats an S corporation in its capacity as a shareholder of another corporation as an individual. Thus, the liquidation of a C corporation into an S corporation will be governed by the generally applicable subchapter C rules, including the provisions of sections 332 and 337 allowing the tax-free liquidation of a corporation into its parent corporation. Following a tax-free liquidation, the built-in gains of the liquidating corporation may later be subject to tax under section 1374 upon a subsequent disposition. An S corporation will also be eligible to make a section 338 election (assuming all the requirements are otherwise met), resulting in immediate recognition of all the acquired C corporation's gains and losses (and the resulting imposition of a tax).

The repeal of this rule does not change the general rule governing the computation of income of an S corporation. For example, it does not allow an S corporation, or its shareholders, to claim a dividends received deduction with respect to dividends received by the S corporation, or to treat any item of income or deduction in a manner inconsistent with the treatment accorded to individual taxpayers.

No inference is intended regarding the present-law treatment of these transactions.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

5. S corporations permitted to hold subsidiaries

PRESENT LAW

Under present law, an S corporation may not be a member of an affiliated group of corporations (other than by reason of ownership in certain inactive corporations). The legislative history indicates that this rule was adopted to prevent the filing of consolidated returns by a group which includes an S corporation.[9]

HOUSE BILL

The House bill repeals the rule that an S corporation may not be a member of an affiliated group of corporations. Thus, an S corporation will be allowed to own up to 100 percent of the stock of a C corporation. However, an S corporation cannot be included in a group filing a consolidated return.

Under the bill, if an S corporation holds 100 percent of the stock of a C corporation that, in turn, holds 100 percent of the stock of another C corporation, the two C corporations may elect to file a consolidated return (if otherwise eligible), but the S corporation may not join in the election.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

6. Elimination of pre-1983 earnings and profits of S corporations

PRESENT LAW

Under present law, the accumulated earnings and profits of a corporation are not increased for any year in which an election to be treated as an S corporation is in effect. However, under the subchapter S rules in effect before revision in 1982, a corporation electing subchapter S for a taxable year increased its accumulated earnings and profits if its earnings and profits for the year exceeded both its taxable income for the year and its distributions out of that year's earnings and profits. As a result of this rule, a shareholder may later be required to include in his income the accumulated earnings and profits when it is distributed by the corporation. The 1982 revision to subchapter S repealed this rule for earnings attributable to taxable years beginning after 1982 but did not do so for previously accumulated S corporation earnings and profits.

HOUSE BILL

The House bill provides that if a corporation is an S corporation for its first taxable year beginning after December 31, 1991, the accumulated earnings and profits of the corporation as of the beginning of that year are reduced by the accumulated earnings and profits (if any) accumulated in any taxable year beginning before January 1, 1983, for which the corporation was an electing small business corporation under subchapter S. Thus, such a corporation's accumulated earnings and profits will be solely attributable to taxable years for which an S election was not in effect. This rule is generally consistent with the change adopted in 1982 limiting the S shareholder's taxable income attributable to S corporation earnings to his share of the taxable income of the S corporation.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

---

[7] See PLR 8818049, (Feb. 10, 1988).

[8] A tax is imposed with respect to LIFO inventory held by a C corporation becoming an S corporation.

[9] See S. Rpt. No. 1983 (85th Cong., 2d Sess., 1958), p. 88.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

7. Treatment of items of income in respect of a decedent held by an S corporation

PRESENT LAW

Income in respect of a decedent (IRD) generally consists of items of gross income that accrued during the decedent's lifetime but were not yet includible in the decedent's income before his death under his method of accounting. IRD is includible in the income of the person acquiring the right to receive such item. A deduction for the estate tax attributable to an item of IRD is allowed to the person who includes the item in gross income (sec. 691(c)).

The cost or basis of property acquired from a decedent is its fair market value at the date of death (or alternate valuation date if that date is elected for estate tax purposes). This basis often is referred to as a "stepped-up basis". Property that constitutes a right to receive IRD does not receive a stepped-up basis.

The basis of a partnership interest or corporate stock acquired from a decedent generally is stepped-up at death. Under Treasury regulations, the basis of a partnership interest acquired from a decedent is reduced to the extent that its value is attributable to items constituting IRD.[10] Although S corporation income is included in the income of the shareholders in a manner similar to the inclusion of partnership income in the income of the partners, no comparable regulation provides for a reduction in the basis of stock of an S corporation acquired from a decedent where the S corporation holds items of IRD on the date of death of a shareholder. Thus, under present law, the treatment of an item of IRD held by an S corporation is unclear.

HOUSE BILL

The House bill provides that a person acquiring stock in an S corporation from a decedent will treat as IRD his pro rata share of any item of income of the corporation which would have been IRD if that item had been acquired directly from the decedent. Where an item is treated as IRD, a deduction for the estate tax attributable to the item generally will be allowed under the provisions of section 691(c). The stepped-up basis in the stock will be reduced by the extent to which the value of the stock is attributable to items consisting of IRD. This basis rule is comparable to the present-law partnership rule.

No inference is intended regarding the present-law treatment of IRD in the case of S corporations.

Effective date.—The provision applies with respect to decedents dying after date of enactment of the bill.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

8. Certain trusts eligible to hold stock in S corporations

PRESENT LAW

Under present law, trusts other than grantor trusts, voting trusts, certain testamentary trusts (for a 60-day or two-year period) and "qualified subchapter S trusts" may not be shareholders in a S corporation. A "qualified subchapter S trust" is a trust which is required to have only one current income beneficiary (for life). All the income (as defined for local law purposes) must be currently distributed to that beneficiary. The beneficiary is treated as the owner of the portion of the trust consisting of the stock in the S corporation.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment allows stock in an S corporation to be held by certain trusts ("electing small business trust"). In order to qualify for this treatment, all beneficiaries of the trust must be individuals or estates (including the bankruptcy estate of an individual). No interest in the trust may be acquired by purchase. For this purpose, "purchase" means any acquisition of property with a cost basis (determined under section 1012). Thus, interests in the trust must be acquired by reason of gift, bequest, etc.

A trust must elect to be treated as an electing small business trust. An election applies to the taxable year for which made and can be revoked only with the consent of the Secretary of the Treasury or his delegate.

Each potential current beneficiary of the trust is counted as a shareholder for purposes of the 35-shareholder limitation (or if there were no potential current beneficiaries, the trust is treated as the shareholder). A potential current income beneficiary means any person, with respect to the applicable period, who is entitled to, or at the discretion of any person may receive, a distribution from the principal or income of the trust. Where the trust disposes of all the stock in an S corporation, any person who first became so eligible during the 60 days before the disposition shall not be treated as a potential current beneficiary.

A qualified subchapter S trust with respect to which an election under section 1361(d)(2) is in effect, and an exempt employee's described in section 401(a) are not eligible to qualify as an electing small business trust.

Treatment of items relating to S corporation stock

The portion of the trust which consists of stock in one or more S corporations is treated as a separate trust for purposes of computing the income tax attributable to the S corporation stock held by the trust. The trust is taxed at the highest individual rate (currently 31 percent) on this portion of the trust's income. The taxable income attributable to this portion includes (i) the items of income, loss, or deduction allocated to it as an S corporation shareholder under the rules of subchapter S, (ii) gain or loss from the sale of the S corporation stock, and (iii) to the extent provided in regulations, any state or local income taxes and administrative expenses of the trust properly allocable to the S corporation stock. Otherwise allowable capital losses are allowed only to the extent of capital gains.

In computing the trust's income tax on this portion of the trust, no deduction is allowed for amounts distributed to beneficiaries, and no deduction or credit is allowed for any item other than the items described above. This income is not included in the distributable net income of the trust, and thus is not included in the beneficiaries' income. No item relating to the S corporation stock may be apportioned to any beneficiary.

On the termination of all or any portion of an electing small business trust the loss carryovers or excess deductions referred to in section 642(h) are to be taken into account by the entire trust, subject to the usual rules on termination of the entire trust.

Treatment of remainder of items held by trust

In determining the tax liability with regard to the remaining portion of the trust, the items taken into account by the subchapter S portion of the trust are disregarded. Although distributions from the trust are deductible in computing the taxable income on this portion of the trust, under the usual rules of subchapter J, the trust's distributable net income does not include any income attributable to the S corporation stock.

Effective date.—The provision applies to taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not contain the provision in the Senate amendment.

G. ACCOUNTING PROVISIONS

1. Modifications to the look-back method for long-term contracts

PRESENT LAW

Taxpayers engaged in the production of property under a long-term contract generally must compute income from the contract under the percentage of completion method. Under the percentage of completion method, a taxpayer must include in gross income for any taxable year an amount that is based on the product of (1) the gross contract price and (2) the percentage of the contract completed as of the end of the year. The percentage of the contract completed as of the end of the year is determined by comparing costs incurred with respect to the contract as of the end of the year with the estimated total contract costs.

Because the percentage of completion method relies upon estimated, rather than actual, contract price and costs to determine gross income for any taxable year, a "look-back method" is applied in the year a contract is completed in order to compensate the taxpayer (or the Internal Revenue Service) for the acceleration (or deferral) of taxes paid over the contract term. The first step of the look-back method is to reapply the percentage of completion method using actual contract price and costs rather than estimated contract price and costs. The second step generally requires the taxpayer to recompute its tax liability for each year of the contract using gross income as reallocated under the look-back method. If there is any difference between the recomputed tax liability and the tax liability as previously determined for a year, such difference is treated as a hypothetical underpayment or overpayment of tax to which the taxpayer applies a rate of interest equal to the overpayment rate, compounded daily.[1] The taxpayer receives (or pays) interest if the net amount of interest applicable to hypothetical overpayments exceeds (or is less than) the amount of interest applicable to hypothetical underpayments.

The look-back method must be reapplied for any item of income or cost that is properly taken into account after the completion of the contract.

---

[10] Treas. Reg. sec. 1.742-1.

[1] The overpayment rate equals the applicable Federal short-term rate plus two percentage points. This rate is adjusted quarterly by the IRS. Thus, in applying the look-back method for a contract year, a taxpayer may be required to use five different interest rates.

The look-back method does not apply to any contract that is completed within two taxable years of the contract commencement date if the gross contract price does not exceed the lesser of (1) $1 million or (2) one percent of the average gross receipts of the taxpayer for the three preceding taxable years. In addition, a simplified look-back method is available to certain pass-through entities and, pursuant to Treasury regulations, to certain other taxpayers. Under the simplified look-back method, the hypothetical underpayment or overpayment of tax for a contract year generally is determined by applying the highest rate of tax applicable to such taxpayer to the change in gross income as recomputed under the look-back method.

HOUSE BILL

Election not to apply the look-back method for de minimis amounts

The House bill provides that a taxpayer may elect not to apply the look-back method with respect to a long-term contract if for each prior contract year, the cumulative taxable income (or loss) under the contract as determined using estimated contract price and costs is within 10 percent of the cumulative taxable income (or loss) under the contract as determined using actual contract price and costs.

Thus, under the election, upon completion of a long-term contract, a taxpayer would be required to apply the first step of the look-back method (the reallocation of gross income using actual, rather than estimated, contract price and costs), but would not be required to apply the additional steps of the look-back method if the application of the first step resulted in de minimis changes to the amount of taxable income previously taken into account under the contract for each prior contract year.

The election applies to all long-term contracts completed during the taxable year for which the election is made and to all long-term contracts completed during subsequent taxable years, unless the election is revoked with the consent of the Secretary of the Treasury.

Example 1.—A taxpayer enters into a three-year contract and upon completion of the contract, determines that annual taxable income under the contract using actual contract price and costs is $100,000, $150,000, and $250,000, respectively, for Years 1, 2, and 3 under the percentage of completion method. An electing taxpayer need not apply the look-back method to the contract if it had reported cumulative taxable income under the contract using estimated contract price and costs of between $90,000 and $110,000 as of the end of Year 1; and between $225,000 and $275,000 as of the end of Year 2.

Election not to reapply the look-back method

The bill provides that a taxpayer may elect not to reapply the look-back method with respect to a contract if, as of the close of any taxable year after the year the contract is completed, the cumulative taxable income (or loss) under the contract is within 10 percent of the cumulative look-back income (or loss) as of the close of the most recent year in which the look-back method was applied (or would have applied but for the other de minimis exception described above). In applying this rule, amounts that are taken into account after completion of the contract are not discounted.

Thus, an electing taxpayer need not apply or reapply the look-back method if amounts that are taken into account after the completion of the contract are de minimis.

The election applies to all long-term contracts completed during the taxable year for which the election is made and to all long-term contracts completed during subsequent taxable years, unless the election is revoked with the consent of the Secretary of the Treasury.

Example 2.—A taxpayer enters into a three-year contract and reports taxable income of $12,250, $15,000 and $12,750, respectively, for Years 1 through 3 with respect to the contract. Upon completion of the contract, cumulative look-back income with respect to the contract is $40,000, and 10 percent of such amount is $4,000. After the completion of the contract, the taxpayer incurs additional costs of $2,500 in each of the next three succeeding years (Years 4, 5, and 6) with respect to the contract. Under the bill, an electing taxpayer does not reapply the look-back method for Year 4 because the cumulative amount of contract taxable income ($37,500) is within 10 percent of cumulative look-back income as of the completion of the contract ($40,000). However, the look-back method must be applied for Year 5 because the cumulative amount of contract taxable income ($35,000) is not within 10 percent of cumulative look-back income as of the completion of the contract ($40,000). Finally, the taxpayer does not reapply the look-back method for Year 6 because the cumulative amount of contract taxable income ($32,500) is within 10 percent of contract look-back income as of the last application of the look-back method ($35,000).

Interest rates used for purposes of the look-back method

The bill provides that for purposes of the look-back method, only one rate of interest is to apply for each accrual period. An accrual period with respect to a taxable year begins on the day after the due date of the return (determined without regard to extensions) for the taxable year and ends on the due date of the return for the following taxable year. The applicable rate of interest is the overpayment rate in effect for the calendar quarter in which the accrual period begins.

Effective date

The provisions apply to contracts completed in taxable years ending after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Simplified method for applying uniform cost capitalization rules

PRESENT LAW

In general, the uniform cost capitalization rules require taxpayers that are engaged in the production of real or tangible personal property or in the purchase and holding of property for resale to capitalize or include in inventory the direct costs of the property and the indirect costs that are allocable to the property. In determining whether indirect costs are allocable to production or resale activities, taxpayers are allowed to use various methods so long as the method employed reasonably allocates indirect costs to production and resale activities.

HOUSE BILL

The House bill authorizes (but does not require) the Treasury Department to issue regulations that allow taxpayers in appropriate circumstances to determine the costs of any administrative, service, or support function or department that are allocable to production or resale activities by multiplying the total amount of costs of any such function or department by a fraction, the numerator of which is the amount of costs of the function or department that was allocable to production or resale activities for a base period and the denominator of which is the total amount of costs of the function or department for the base period. It is anticipated that the regulations will provide that the base period is to begin no earlier than 4 taxable years prior to the taxable year with respect to which this simplified method applies.

Effective date

The provision applies to taxable years beginning after the date of enactment of the bill. Thus, the regulations may permit the use of the simplified method for taxable years beginning after this date. The simplified method, however, may not be used for any taxable year that begins prior to the date that the Treasury Department publishes regulations that authorize the use of the simplified method and set forth the requirements that must be satisfied in order for the method to be used.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Treatment of certain amounts received by operators of licensed cotton warehouses

PRESENT LAW

A C corporation (other than a farm corporation) generally may not use the cash method of accounting if the corporation had average annual gross receipts for any prior 3-year period of more than $5 million. Corporations that are denied the use of the cash method of accounting generally must use an accrual method of accounting.

HOUSE BILL

No provision in H.R. 11. However, H.R. 5643 as passed by the House, contains a provision identical to the provision in the Senate amendment.

SENATE AMENDMENT

The Senate amendment allows the election of a special rule in the case of any taxpayer that is an operator of a licensed cotton warehouse and uses an accrual method of accounting to compute taxable income. Under the election, the taxpayer is not required to accrue amounts to be received for processing or storing cotton at the licensed cotton warehouse until such amounts are actually received. For this purpose, the term "licensed cotton warehouse" means any warehouse for the storage of cotton that is licensed under the United States Warehouse Act (7 U.S.C. 241, et seq.) or under any similar State law.

In addition, under the election, if any deferred amount is received during any taxable year, the tax liability of the taxpayer for the taxable year is increased by an interest charge with respect to the deferred amount. The interest charge with respect to any deferred amount is determined: (1) on the amount of the tax for such taxable year which is attributable to the deferred amount; (2) for the period beginning on the due date for the taxable year of the deferral and ending on the due date for the taxable year in which such deferred amount is received; and (3) by using the Federal short-term rate in effect under section 1274 as of the due date for the taxable year in which such deferred amount is received (compounded semiannually).

The term "deferred amount" means any amount that is includible in gross income for the taxable year but that would have been includible in gross income for a prior taxable year but for this provision. The "taxable year of deferral" is the taxable year for which the deferred amount would have been includible in gross income but for this provision. The term "due date" means the date prescribed for filing the return of tax (without regard to extensions) for the taxable year.

Under the provision, the interest charge payable is to be taken into account in computing the amount of any deduction allowable as interest paid or accrued during the taxable year that the interest charge is payable. In addition, the interest charge is not treated as a tax for purposes of determining the taxpayer's regular tax liability under section 26.

The provision applies to a taxpayer only if the taxpayer makes an election to apply the provision. The election shall be made in a time and manner as prescribed by the Secretary of the Treasury. If made, the election applies to the taxable year for which made and all subsequent years unless revoked with the consent of the Treasury Secretary.

Effective date.—The provision applies to amounts accrued in taxable years beginning after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the provision contained in H.R. 5463 and the Senate amendment.

H. PROVISIONS RELATING TO REGULATED INVESTMENT COMPANIES

1. Repeal the short-short test for regulated investment companies

PRESENT LAW

A regulated investment company ("RIC") generally is treated as a conduit for Federal income tax purposes. The Code provides conduit treatment by permitting a RIC to deduct dividends paid to its shareholders in computing its taxable income.

A RIC is a domestic corporation that, at all times during the taxable year, is registered under the Investment Company Act of 1940 as a management company or as a unit investment trust, or has elected to be treated as a business development company under that Act (sec. 851(a)).

In addition, to qualify as a RIC, a corporation must elect such status and must satisfy certain tests (sec. 851(b)). In particular, a corporation must derive less than 30 percent of its gross income from the sale or disposition of certain investments (including stock, securities, options, futures, and forward contracts) held less than three months (the "short-short test") (sec. 851(b)(3)).

HOUSE BILL

The House bill repeals the short-short test.

Effective date.—The provision is effective for taxable years ending after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

2. Require brokers and mutual funds to report basis to customers

PRESENT LAW

Information returns

Brokers[1] are required to report to the Internal Revenue Service the gross proceeds from sales and exchanges by customers (sec. 6045(a)). Brokers also must give each customer a written statement containing that information by January 31 of the year following the calendar year the transaction occurred (sec. 6045(b)).[2]

Gain or loss from the sale of mutual fund shares

A taxpayer who sells or exchanges mutual fund shares is required to report the gain or loss along with any other capital gains or losses. A taxable sale or exchange includes a direct redemption or sale, a check written on a fund, or exchanges from one fund into another fund.

The amount of gain or loss is the difference between the amount the taxpayer realized from the sale or exchange and the taxpayer's adjusted basis in the shares (sec. 1001). In general, the amount a taxpayer realizes from a sale or exchange of shares is the money and value of any property received for the shares minus expenses (such as sales commissions, sales charges, or exit fees). A taxpayer's adjusted basis generally is his original cost (including any sales charges or "load") or other basis adjusted for such things as wash sales and return of capital distributions.

A taxpayer who sells any of his shares may choose one of three methods to determine the adjusted basis of the shares that were sold (Treas. Reg. secs. 1.1012-1(c) and (e)):

(1) the first-in, first-out (FIFO) method which requires the taxpayer to assume that the first shares sold were the first ones purchased by the taxpayer;

(2) the specific identification method which permits the taxpayer to identify exactly which shares were sold—but the method is available only if, at the time of sale, the taxpayer specified to the broker the particular shares to be sold and the broker confirms such specification in a written document within a reasonable time after the sale; or

(3) the average cost method which permits the taxpayer to calculate his gain or loss based on the average price he paid for his shares. The average cost method may be determined either by the single category method (which uses the average cost of all of the taxpayer's shares and determines the holding period for the shares that are sold on a first-in first-out basis) or the double category method (which separates the taxpayer's shares into long-term and short-term holdings and provides a separate average cost for each category). A taxpayer may elect the average cost method by attaching a statement to his return. Once the taxpayer elects the average cost method, the taxpayer must use that method for all of his accounts in that fund.

HOUSE BILL

Information returns

In general.—The House bill requires brokers who are currently required to report gross proceeds on sales or exchanges of mutual fund shares to report basis and holding-period information on the same information return. Those brokers that are not currently required to report gross proceeds, such as money market mutual funds, are not required by the bill to report basis information.

Required basis information.—For each sale or exchange, a broker is required to report the basis of the shares that have been sold and the portion of the gross proceeds for the shares that have been held for more than one year. Basis is determined using the single-category average cost basis method (and not the double-category). The bill also provides the Secretary of the Treasury authority to determine the manner in which basis and holding period are to be reported. Such authority includes the authority to require brokers to take into account wash sales, return of capital distributions, and other events that might affect a basis calculation. Such authority also includes the authority to permit brokers to report the basis information for each sale or exchange in an aggregate form.

Multiple accounts.—The bill requires the basis calculation to be done on an account-by-account basis. If an individual holds shares in two separate accounts with a mutual fund, then a separate basis calculation must be done for each account. In addition, if a customer holds shares in two mutual funds through a securities broker (rather than directly through the mutual funds themselves), the shares for each mutual fund (i.e., for each position) must be considered separate accounts for purposes of these rules.

Due date of returns.—Under the bill, information returns are required to be sent to shareholders by January 31, which is, under present law, the same date by which the information returns for gross proceeds must be provided to taxpayers. The bill contemplates that amended basis information returns may be necessary in certain cases (such as certain wash sales).

The Treasury Department is authorized to promulgate regulations to require a transfer of information between brokers (including RICs) where the transfer is necessary to comply with the reporting requirements of this section. For example, if a broker holds shares in a mutual fund as a nominee for another person and the shares are transferred to another broker, the old broker would be required to furnish the new broker the information necessary for the new broker to meet the information-reporting requirements.

Gain or loss from the sale of mutual fund shares

The House bill generally requires a taxpayer to calculate basis and adjustments to basis as under present law. However, unless a taxpayer elects otherwise, a taxpayer must determine basis for mutual fund shares by using the single-category average basis of all of the shares of the account from which a sale or exchange was made (which generally is the amount required to be reported by the broker).

Under the bill, a taxpayer can elect a method other than the single-category average basis (i.e., FIFO or specific identification) if he made such an election on his return for the first taxable year in which a sale from the account occurs (and he satisfied present law requirements). In addition, under the bill, a taxpayer can elect different methods for different accounts in the same fund.

---

[1] Under section 6045, "broker" is defined to include dealers, barter exchanges, and any other person who, for a consideration, regularly acts as a middleman with respect to property or services. Under the regulations, the term is defined to include mutual funds that deal directly with customers (i.e., mutual funds that stand ready to redeem their shares). The term "broker" has this meaning for purposes of this section.

[2] Brokers are required to use Form 1099-B, Statement for Recipients of Proceeds From Broker and Barter Exchange Transactions (or an IRS-authorized substitute) for these reporting purposes.

Effective date.—The provision is effective for mutual fund shares held in accounts opened on or after January 1, 1994. For example, if prior to the effective date a taxpayer holds shares in mutual fund B in an account maintained by a securities broker and holds shares in mutual fund F directly from the fund, additions to either of those positions after January 1, 1994, would not trigger the basis reporting requirement. If, however, after January 1, 1994, the taxpayer purchased shares in mutual fund F through the securities broker, or through a new account opened with mutual fund F, a new position would have been opened and basis reporting would be required on that new position.

The provision is not applicable, however, to shares in an account that includes shares not acquired by purchase. Thus, the provision does not apply to shares in an account opened after January 1, 1994, that includes shares that had been acquired by gift. The basis in such shares is determined as under present law.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill except that the effective date is changed to accounts opened on or after January 1, 1995.

3. Permit common trust funds to convert to regulated investment companies without taxation

PRESENT LAW

A common trust fund is a fund maintained by a bank exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank in its capacity as a trustee, executor, administrator, guardian, or custodian of certain accounts and in conformity with rules and regulations of the Board of Governors of the Federal Reserve System or the Comptroller of the Currency pertaining to the collective investment of trust funds by national banks (sec. 584(a)).

The common trust fund of a bank is not subject to tax and is not treated as a corporation (sec. 584(b)). Each participant in a common trust fund includes his proportional share of common trust fund income, whether or not the income is distributed or distributable (sec. 584(c)).

No gain or loss is realized by the fund upon admission or withdrawal of a participant. Participants generally treat their admission to the fund as the purchase of such interest. Withdrawals from the fund generally are treated as the sale of such interest by the participant (sec. 584(e)).

A regulated investment company (RIC) also is treated as a conduit for Federal income tax purposes. Present law is unclear as to the tax consequences when a common trust fund transfers its assets, or converts its status, to a RIC.

HOUSE BILL

In general, the House bill permits a common trust fund to transfer substantially all of its assets to a RIC without gain or loss being recognized by the fund or its participants. The fund must transfer its assets to the RIC solely in exchange for shares of the RIC, and the fund must then distribute the RIC shares to the fund's participants in exchange for the participant's interests in the fund.

In determining whether a transfer is solely in exchange for shares of the RIC, the assumption of liabilities by the RIC is to be ignored. A special rule, however, requires gain to be recognized to the extent the assumed liabilities exceed the aggregate adjusted bases (in the hands of the common trust fund) of the assets transferred to the RIC.

The basis of any asset that is received by the RIC will be the basis of the asset in the hands of the fund prior to transfer (increased by the amount of gain recognized by reason of the rule regarding the assumption of liabilities). In addition, the basis of any RIC shares that are received by a fund participant will be the participant's basis in the interests exchanged (increased by the amount of gain recognized by reason of the rule regarding the assumption of liabilities).

The tax-free transfer is not available to a common trust fund with assets that are not diversified (under the requirements of section 368(a)(2)(F)(ii).

Effective date.—The provision is effective for transfers after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill except with a modification to the diversification test so that the sec. 368(a)(2)(F)(ii) restriction would apply without regard to the exclusion requirements of sec. 368(a)(2)(F)(iv) and without including Government securities as securities of an issuer for purposes of the 25 and 50 percent tests. The tax-free transfer also is not available to any common trust fund that had previously received assets from a RIC in a tax-free transfer that is described below in the Senate amendment.

CONFERENCE AGREEMENT

The conference agreement follows the House bill except that the diversification test is modified so that Government securities are not to be included as securities of an issuer and are to be included in determining total assets for purposes of the 25 and 50 percent tests of sec. 368(a)(2)(F)(ii).

The conferees do not intend any inference as to the tax consequences under present law when a common trust fund transfers its assets, or converts its status, to a RIC.

4. Permit a regulated investment company to convert to a common trust fund without taxation

PRESENT LAW

A regulated investment company (RIC) is treated as a conduit for Federal income tax purposes. There is a tax when a RIC transfers its assets, or converts its status, to a common trust fund.

HOUSE BILL

No provision.

SENATE AMENDMENT

In general, the Senate amendment permits a RIC to transfer substantially all of its assets to one common trust fund without gain or loss being recognized by the RIC or its shareholders. The RIC must transfer its assets to the common trust fund solely in exchange for interests in the common trust fund, and the RIC must then distribute the interests to the RIC's shareholders in exchange for the shareholder's shares in the RIC.

In determining whether a transfer is solely in exchange for interests in the common trust fund, the assumption of liabilities by the common trust fund is to be ignored. A special rule, however, requires gain to be recognized to the extent the assumed liabilities exceed the aggregate adjusted bases (in the hands of the RIC) of the assets transferred to the common trust fund.

The basis of any asset that is received by the common trust fund will generally be the basis of the asset in the hands of the RIC prior to transfer (increased by the amount of gain recognized by reason of the rule regarding the assumption of liabilities). In addition, the basis of any interests in a common trust fund that are received by a RIC shareholder will be the shareholder's basis in the shares exchanged (but not increased by the amount of gain recognized by reason of the rule regarding the assumption of liabilities).

The tax-free transfer is not available to a RIC with assets that are not diversified (under the requirements of section 368(a)(2)(F)(ii) without regard to the exclusion requirements of section 368(a)(2)(F)(iv) and without including Government securities as securities of an issuer for purposes of the 25 and 50 percent tests). The tax-free transfer also is not available to any RIC that had previously received assets from a common trust fund in a tax-free transfer that is described (above) in this new provision.

Effective Date.—The provision is effective for transfers after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment except that the diversification test is modified so that Government securities are not to be included as securities of an issuer and are to be included in determining total assets for purposes of the 25 and 50 percent tests of sec. 368(a)(2)(F)(ii). In addition, the provision is available only to a RIC if, as of October 1, 1992, the majority of its shares are owned by fiduciary accounts that qualify for participation in common trust funds and the tax-free transfer may be made only through September 30, 1993.

The conferees do not intend any inference as to the tax consequences under present law when a RIC transfers its assets, or converts its status, to a common trust fund.

I. TAX-EXEMPT BOND PROVISIONS

Overview

Interest on State and local government bonds generally is excluded from gross income for purposes of the regular individual and corporate income taxes if the proceeds of the bonds are used to finance direct activities of these governmental units (sec. 103).

Unlike the interest on governmental bonds, described above, interest on private activity bonds generally is taxable. A private activity bond is a bond issued by a State or local governmental unit acting as a conduit to provide financing for private parties in a manner violating either (a) a private business use and payment test or (b) a private loan restriction. However, interest on private activity bonds is not taxable if (a) the financed activity is specified in the Code and (b) at least 95 percent of the net proceeds of the bond issue is used to finance the specified activity.

Issuers of State and local government bonds must satisfy numerous other requirements, including arbitrage restrictions (for all such bonds) and annual State volume limitations (for most private activity bonds) for the interest on their bonds to be excluded from gross income.

1. Simplification of arbitrage rebate requirement for governmental bonds

PRESENT LAW

Subject to limited exceptions, arbitrage profits from investing bond proceeds in investments unrelated to the governmental purpose of the borrowing must be rebated to the Federal Government. No rebate is required if the gross proceeds of an issue are spent for the governmental purpose of the borrowing within six months after issuance.

This six-month exception is deemed to be satisfied by issuers of governmental bonds (other than tax and revenue anticipation notes) and qualified 501(c)(3) bonds if (1) all proceeds other than an amount not exceeding the lesser of five percent or $100,000 are so spent within six months and (2) the remaining proceeds are spent within one year after the bonds are issued.

House Bill

The $100,000 limit on proceeds that may remain unspent after six months for certain governmental and qualified 501(c)(3) bonds otherwise exempt from the rebate requirement is deleted. Thus, if at least 95 percent of the proceeds of these bonds is spent within six months after their issuance, and the remainder is spent within one year, the six-month exception is deemed to be satisfied.

Effective date.—This provision applies to bonds issued after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

2. Simplification of compliance with 24-month arbitrage rebate exception for construction bonds

Present Law

In general, arbitrage profits from investing bond proceeds in investments unrelated to the governmental purpose of the borrowing must be rebated to the Federal Government. An exception is provided for certain construction bond issues if the bonds are governmental bonds, qualified 501(c)(3) bonds, or exempt-facility private activity bonds for governmentally owned property.

This exception is satisfied only if the available construction proceeds of the issue are spent at least at specified rates during the 24-month period after the bonds are issued. The exception does not apply to bond proceeds invested after the 24-month expenditure period as part of a reasonably required reserve or replacement fund, a bona fide debt service fund, or to certain other investments (e.g., sinking funds). Issuers of these construction bonds also may elect to comply with a penalty regime in lieu of rebating if they fail to satisfy the exception's spending requirements.

House Bill

The House bill exempts earnings on bond proceeds invested in bona fide debt service funds from the arbitrage rebate requirement and the penalty requirement of the 24-month exception if the spending requirements of that exception are otherwise satisfied.

Effective date.—This provision applies to bonds issued after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

3. Simultaneous issuance of certain discrete issues not aggregated

Present Law

In certain cases, the Treasury Department treats multiple issues of tax-exempt bonds paid from substantially the same source of funds as a single issue in applying the Code's tax-exempt bond restrictions when the bonds are issued within a relatively short period of time.

House Bill

The House bill provides that discrete issues of governmental bonds issued simultaneously will not be treated as a single issue in cases where one of the issues is a TRAN reasonably expected to satisfy the arbitrage rebate safe harbor of Code section 148(f)(4)(B)(iii).

Effective date.—This provision applies to bonds issued after the date of enactment; no inference language is included with respect to bonds issued on or before that date.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

4. Repeal of unrelated and disproportionate use limit

Present Law

Bonds issued by States and local governments are private activity bonds if (1) more than ten percent of the proceeds of the issue of which they are part satisfies a private business use and payment test or (2) more than five percent ($5 million, if less) of the proceeds is used to finance loans to persons other than States or local governments. The ten-percent private business limits are reduced to five percent in the case of uses that are unrelated to a governmental use also being financed with the proceeds of the issue (the "unrelated and disproportionate use limit").

House Bill

The House bill repeals the five-percent unrelated and disproportionate use limit.

Effective date.—This provision applies to bonds issued after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include the provision of the House bill.

5. Simplification of arbitrage rebate requirement for smaller issuers of governmental bonds

Present Law

Subject to limited exceptions, arbitrage profits earned by investing bond proceeds in investments unrelated to the governmental purpose of the borrowing must be rebated to the Federal Government. The rebate requirement does not apply to governmental bonds issued by issuers with general taxing powers if they issue $5 million or fewer of such bonds during the calendar year when the bonds are issued.

House Bill

The House bill increases the $5 million annual issuance limit for small issuers whose governmental bonds are not subject to rebate to $10 million.

Effective date.—This provision applies to bonds issued in calendar years beginning after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

6. Repeal of 150-percent of debt service limit

Present Law

Issuers of all tax-exempt bonds generally are subject to two sets of arbitrage restrictions on investment of their bond proceeds. The first set requires that tax-exempt bond proceeds be invested at a yield that is not materially higher (generally defined as 0.125 percentage points) than the bond yield. Exceptions are provided to this restriction for investments during any of several "temporary periods" pending use of the proceeds and, throughout the term of the issue, for proceeds invested as part of a reasonably required reserve or replacement fund or a "minor" portion of the issue proceeds.

Except for temporary periods and amounts held pending use to pay current debt service, present law also limits the amount of the proceeds of private activity bonds (other than qualified 501(c)(3) bonds) that may be invested at materially higher yields at any time during a bond year to 150 percent of the debt service for that bond year. This restriction affects primarily investments in reasonably required reserve or replacement funds. Present law further restricts the amount of proceeds from the sale of bonds that may be invested in these reserve funds to ten percent of such proceeds.

The second set of arbitrage restrictions requires generally that all arbitrage profits earned on investments unrelated to the governmental purpose of the borrowing be rebated to the Federal Government. Arbitrage profits include all earnings (in excess of bond yield) derived from the investment of bond proceeds (and subsequent earnings on any such earnings).

House Bill

The House bill repeals the 150-percent of debt service yield restriction.

Effective date.—This provision applies to bonds issued after the date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

7. Clarification of definition of "investment-type property"

Present Law

Interest on State and local government bonds is not tax-exempt if the bonds are arbitrage bonds. A bond generally is an arbitrage bond if the proceeds are invested in materially higher yielding "investment-type property," other than during prescribed temporary periods or as a part of a reasonably required reserve or replacement fund. Additionally, all profits earned on investment of bond proceeds other than for the governmental purpose of the borrowing generally must be rebated to the Federal Government.

If issuers of tax-exempt bonds prepay amounts for activities being financed with the bonds, arbitrage profits may be indirectly earned and retained by the issuers. Therefore, present law provides that property or services acquired pursuant to most transactions involving prepayments is investment-type property, and is subject to either yield restriction or arbitrage rebate requirements.

House Bill

The House bill deletes and reinserts the term "investment-type property" in the Code arbitrage restrictions. This amendment is intended to clarify Congress' original intent as to the meaning of that term. Absent restrictions, issuers might use bond proceeds to prepay items in such a manner that the tax-exempt bond arbitrage restrictions would be avoided and the issuers would retain the economic benefit of arbitrage profits. The expansion of property subject to the Code arbitrage restrictions to include all "investment-type property" was intended to preclude such arrangements.

As was stated in the legislative history accompanying the Tax Reform Act of 1986 (the "1986 Act"), however, in certain circumstances, advance payments for property or services may be made because of non-arbitrage-motivated business customs. For example, a governmental unit may decide to purchase property (e.g., a government office building or equipment) with an accompanying bond-financed up-front payment rather than lease the property without such an initial debt issuance. It is not intended that the fact that an issuer purchases, rather than leases, property should necessarily be construed as giving rise to investment-type property.

Similarly, certain services (e.g., bond insurance for the entire term of the bonds) may be available only in exchange for a lump-sum payment made in advance, or the credit standing of an issuer may be such that vendors will not supply property or services before receiving payment. As was indicated in 1986, the term investment-type property is not intended to include property or services acquired in exchange for debt-financed lump-sum payments, whether or not discounted, that are dictated by independent, non-arbitrage-motivated business customs governing availability of the property or services to all similarly-situated persons (whether or not State or local governmental units).

Further, the amendment is intended to clarify the application of this 1986 Act restriction to certain governmental and section 501(c)(3) organization procurement activities. When States and local governments and section 501(c)(3) organizations purchase property or services for use in carrying out their governmental or exempt activities, they may be offered discounts on the same terms as fully taxable purchasers for prompt or early payment or for volume purchases. Availability of these discounts presents an opportunity for economic arbitrage, and by taking advantage of the discounts, States and local governments and section 501(c)(3) organizations could be viewed as acquiring investment-type property. The committee intends, however, that acquisition at a discounted price of property or services to be used in carrying out a governmental or section 501(c)(3) organization exempt activity should not be treated as the acquisition of investment-type property if—

(a) the trade discount is available on the same terms to all purchasers of the property or services (both governmental, section 501(c)(3) organization, and fully taxable nongovernmental entities);[1] and

(b) the scheduled or actual timing of any early payment or the volume of any purchase by a governmental unit or section 501(c)(3) organization is not substantially different from the comparable timing of payments or volume of purchases by similarly situated fully taxable nongovernmental entities purchasing the same property or services.

Effective date.—This provision is effective as if included in Title XIII of the Tax Reform Act of 1986.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill. The conferees wish to clarify, however, that the explanation relating to certain trade discounts contained in the agreement is intended only to address the treatment of the trade discounts described therein. It is not intended to change or otherwise give rise to any inference as to the proper meaning of the term "investment-type property" in other circumstances.

8. Expand exception to pro rata disallowance of bank interest expense related to investment in tax-exempt bonds

Present Law

Banks and other financial institutions generally are denied a deduction for the portion of their interest expense (e.g., interest paid to depositors) that is attributable to investment in tax-exempt bonds acquired after August 7, 1986. This disallowance is computed use a pro-rata formula that compares the institution's average adjusted basis in tax-exempt bonds acquired after that date with the average adjusted basis of all assets of the institution.

An exception to the pro-rata disallowance rule is permitted for governmental bonds and qualified 501(c)(3) bonds issued by or on behalf of governmental units that issue no more than $10 million of such bonds during a calendar year (the "small-issuer exception").

House Bill

No provision.

Senate Amendment

The Senate amendment increases from $10 million to $25 million the amount of governmental and qualified 501(c)(3) bonds that an entity may issue annually while qualifying those bonds for the small-issuer exception to the general bank interest disallowance rule.

The amendment also provides that pooled financing tax-exempt bonds (other than private activity bonds) may qualify for the small-issuer exception if—

(a) all of the proceeds of the pooled financing bonds (net of issuance costs associated with the bonds) are used exclusively to acquire from the issuer thereof bonds ("acquired bonds") eligible for the small-issuer exception,

(b) the acquired bonds are not designated under section 265(b)(3)(B)(i)(III) as "bank qualified" for purposes of the small-issuer exception;[2]

(c) the weighted average maturity of the pooled financing bonds does not exceed the weighted average maturity of the acquired bonds; and

(d) the issuer of the pooled financing bonds designates those bonds as "bank qualified" under section 265(b)(3)(i)(B)(III).

Effective date.—The provision is effective for bonds issued and acquired in calendar years beginning after December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment with a modification limiting the increase in the annual issuance limit for small issuers to $20 million (rather than $25 million).

9. Modification of rules governing qualified 501(c)(3) bonds

Present Law

Interest on State and local government bonds generally is excluded from income if the bonds are issued to finance direct activities of these governments (sec. 103). Interest on bonds issued by these governments to finance activities of other persons, e.g., private activity bonds, is taxable unless a specific exception is included in the Code. One such exception is for private activity bonds issued to finance activities of private, charitable organizations described in Code section 501(c)(3) ("section 501(c)(3) organizations") when the activities do not constitute an unrelated trade or business (sec. 141(e)(1)(G)).

Classification of section 501(c)(3) organization bonds as private activity bonds

Before enactment of the Tax Reform Act of 1986, States and local governments and section 501(c)(3) organizations both were defined as "exempt persons," under the Code bond provisions, and their bonds generally were subject to the same requirements. As exempt persons, section 501(c)(3) organizations were not treated as "private" persons, and their bonds were not "industrial development bonds" or "private loan bonds" (the predecessor categories to current private activity bonds).

Under present law, a bond is a private activity bond if its proceeds are used in a manner violating either (a) a private business test or (b) a private loan test. The private business test is a conjunctive two-pronged test. First, the test limits private business use of governmental bonds to no more than ten percent of the proceeds.[3] Second, no more than ten percent of the debt service on the bonds may be derived from private business users of the proceeds. The private loan test limits to the lesser of five percent or $5 million the amount of governmental bond proceeds that may be used to finance loans to persons other than governmental units.

Special restrictions on tax-exemption for section 501(c)(3) organization bonds

As stated above, present law treats section 501(c)(3) organizations as private persons; thus, bonds for their use may only be issued as private activity "qualified 501(1)(3) bonds," subject to the restrictions of Code section 145. The most significant of these restrictions limits the amount of outstanding bonds from which a section 501(c)(3) organization may benefit to $150 million. In applying this "$150 million limit," all section 501(c)(3) organizations under common management or control are treated as a single organization. The limit does not apply to bonds for hospital facilities, defined to include only acute care, primarily inpatient, organizations. A second restriction limits to no more than five percent the amount of the net proceeds of a bond issue that may be used to finance any activities (including all costs of issuing the bonds) other than the exempt purposes of the section 501(c)(3) organization.

Legislation enacted in 1988 imposed low-income tenant occupancy restrictions on existing residential rental property that is acquired by section 501(c)(3) organizations in tax-exempt-bond-financed transactions. These restrictions require that a minimum number of the housing units comprising the property be continuously occupied by tenants having family incomes of 50 percent (60 percent in certain cases) of area median income for periods of up to 15 years. These same low-income tenant occupancy requirements apply to for-profit developers receiving tax-exempt private activity bond financing.

---

[1] Any trade discount which is structured differently for purchasers eligible to use taxable and tax-exempt debt or which is set at a level such that beneficiaries of tax-exempt bonds are more likely to take advantage of the discount than fully taxable purchasers (e.g., in a manner related to the tax-exempt borrowing costs of the purchaser) is not intended to qualify as a trade discount that is available on the same terms to all purchasers of the property or services.

The committee recognizes, however, that the implicit discount rate in any purchase arrangement is related to borrowing costs, and that therefore, beneficiaries of tax-exempt bonds may benefit economically more from any uniform discount rate than comparable taxable borrowers. This fact alone is not to be construed as violating the uniformity requirement, provided the discount rate is uniform for governmental, section 501(c)(3) organization, and fully taxable nongovernmental purchasers and is set at a sufficient level to be taken advantage of generally by purchasers using taxable financing as well as by governmental and section 501(c)(3) organizations benefiting from tax-exempt bonds.

[2] The acquired bonds are taken into account in determining how many bonds are reasonably expected to be issued by the borrowers from the pool in the calendar year in which they are issued.

[3] No more than five percent of bond proceeds may be used in a private business use that is unrelated to the governmental purpose of the bond issue. The ten percent debt service test, described below, likewise is reduced to five percent in the case of such "disproportionate" private business use.

Other restrictions

Several restrictions are imposed on private activity bonds generally that do not apply to bonds used to finance State and local government activities. Many of these restrictions also apply to qualified 501(c)(3) bonds.

No more than two percent of the net proceeds of a bond issue may be used to finance the costs of issuing the bonds, and these monies are not counted in determining whether the bonds satisfy the requirement that at least 95 percent of the net proceeds of each bond issue be used for the exempt activities qualifying the bonds for tax-exemption.

The weighted average maturity of a bond issue may not exceed 120 percent of the average economic life of the property financed with the proceeds.

A public hearing must be held and an elected public official must approve the bonds before they are issued (or the bonds must be approved by voter referendum).

If property financed with private activity bonds is converted to a use not qualifying for tax-exempt financing, certain loan interest penalties are imposed.

House Bill

No provision.

Senate Amendment

The Senate amendment changes the tax-exempt bond provisions of the Code to conform generally the treatment of bonds for section 501(c)(3) organizations to that provided for bonds issued to finance direct State or local government activities. Certain restrictions, described below, that have been imposed on qualified 501(c)(3) bonds (but not on governmental bonds) since 1986, and that address specialized policy concerns, are retained.

Repeal of private activity bond classification for bonds for section 501(c)(3) organizations

The concept of an "exempt person" that existed in the bond provisions before 1986, is reenacted. An exempt person is defined as (a) a State or local governmental unit or (b) a section 501(c)(3) organization, when carrying out its exempt activities under Code section 501(a). Thus, bonds for section 501(c)(3) organizations would no longer be classified as private activity bonds. However, financing for unrelated business activities of such organizations would continue to be treated as a private activity for which tax-exempt financing is not authorized.

As exempt persons, section 501(c)(3) organizations would be subject to the same limits as States and local governments on using their bond proceeds to finance private business activities or to make private loans. Thus, no more than ten percent of the bond proceeds[4] could be used in a business use of a person other than an exempt person if the Code security interest test is satisfied, and no more than five percent ($5 million if less) could be used to make loans to such "non-exempt" persons.

Repeal of most additional special restrictions on section 501(c)(3) organization bonds

Present Code section 145, which establishes additional restrictions on qualified 501(c)(3) bonds, is repealed, along with the restriction on bond-financed costs of issuance for section 501(c)(3) organization bonds (sec. 147(h)). This eliminates the $150-million-per-organization limit on nonhospital bonds for section 501(c)(3) organizations.

Retention of certain specialized requirements for section 501(c)(3) organization bonds

As stated above, the Senate amendment retains certain specialized restrictions on bonds for section 501(c)(3) organizations. First, the bill retains the requirement that existing residential rental property acquired by a section 501(c)(3) organization in a tax-exempt-bond-financed transaction satisfy the same low-income tenant requirements as similar housing financing for for-profit developers. Second, the amendment retains the present-law maturity limitations applicable to bonds for section 501(c)(3) organizations, and the public approval requirements applicable generally to private activity bonds. Third, the amendment continues to apply the penalties on changes in use of tax-exempt-bond-financed section 501(c)(3) organization property to a use not qualified for such financing.

Finally, the Senate amendment makes no amendments, other than technical conforming amendments, to the tax-exempt arbitrage restrictions, the alternative minimum tax tax-exempt bond preference, or the provisions generally disallowing interest paid by banks on monies used to acquire or carry tax-exempt bonds.

Effective date.—The Senate amendment applies to bonds issued after December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

10. Authority for Treasury Department to exempt certain taxpayers from tax-exempt interest reporting requirement

Present Law

Present law requires all individuals to report on their income tax returns the amount of interest on State and local government bonds they receive.

House Bill

No provision.

Senate Amendment

The Senate amendment authorizes the Treasury Department to provide exceptions to the requirement that taxpayers report interest on State and local government bonds on their Federal income tax returns in cases where the Secretary determines that such information is not useful to the administration of the tax laws.

Effective date.—This provision is effective for taxable years beginning after the date of enactment.

Conference Agreement

The conference agreement does not include the provision of the Senate amendment.

11. Repeal of expired provisions

Present Law

Present law includes two special exceptions to the arbitrage rebate and pooled financing temporary period rules for certain qualified student loan bonds. This exception applied only to bonds issued before January 1, 1989.

House Bill

These special exceptions are deleted as "deadwood."

Effective date.—This provision is effective on the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

12. Bonds for the United Nations

Present Law

Interest on State and local government bonds generally is excluded from income for purposes of the regular individual and corporate income taxes if the proceeds of the bonds are used to finance direct activities of these governmental units. Present law also excludes the interest on State and local government bonds ("private activity bonds") when a governmental unit incurs debt as a conduit to provide financing for private parties, if the financed activities are specified in the Internal Revenue Code (the "Code"). Tax-exempt bonds may not be issued to finance private activities not specified in the Code.

Private activity bonds are bonds (1) more than 10 percent of the proceeds of which satisfy a private business use and payment test, or (2) more than five percent ($5 million, if less) of the proceeds are used to finance loans to persons other than State or local governmental units.

Under the tax-exempt bond rules, all persons and entities other than states and local governments are treated as private parties, eligible for financing only if specifically authorized. No such authorization exists for the United Nations or any other foreign government entity.

House Bill

No provision in H.R. 11 (However H.R. 5639 includes an identical provision to the Senate amendment).

Senate Amendment

The bill authorizes the issuance by a State or local government of tax-exempt private activity bonds when at least 95 percent of the net proceeds will be used to finance the construction or acquisition of real property used for offices (and functionally related and subordinate land and space for supporting activities) for use by the United Nations and its agencies and instrumentalities. These bonds will be subject to the State private activity bond volume limit of the State where the bonds are issued and to all other private activity bond rules (except the rehabilitation requirement on acquisition of existing property).

Effective Date

The provision applies to bonds issued after the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment.

13. Treasury Department regulatory authority to integrate arbitrage rebate and yield restriction requirements

Present Law

In general

Interest on State and local government bonds generally is tax-exempt. Interest is not tax-exempt if the bonds are arbitrage bonds. Arbitrage bonds are bonds more than a minor portion of the proceeds of which is invested at a yield that is materially higher than the bond yield during periods other than prescribed "temporary periods." (Exceptions are provided for, *inter alia*, proceeds such as those invested in a reasonably required reserve or replacement fund.)

---

[4] This limit is reduced to five percent in the case of disproportionate private use as under the present-law governmental bond disproportionate private use limit.

Rebate requirement

In general, arbitrage profits earned on investments unrelated to the governmental purpose for which tax-exempt bonds are issued must be rebated to the Federal Government. This requirement primarily affects earnings during such periods and earnings on such specially treated proceeds as those invested as part of a reasonably required reserve or replacement fund (which are not subject to yield restriction).

For certain governmental and qualified 501(c)(3) bonds issued for construction projects, a special penalty alternative may be elected in lieu of complying with the rebate requirement. Under this elective regime, penalties are imposed unless set expenditure targets are met at six-month intervals. These expenditure targets are:

(1) at least 10 percent of the available construction proceeds of the bond issue must be spent within six months after the bonds are issued;

(2) at least 45 percent of those proceeds must be spent within 12 months after the bonds are issued;

(3) at least 75 percent of those proceeds must be spent within 18 months after the bonds are issued; and

(4) 100 percent (less certain allowable retainage) of those proceeds must be spent within two years after the bonds are issued.

Temporary periods

Regulatory temporary periods

In general, Treasury Department regulations prescribe the applicable temporary periods for bond proceeds. For most bonds, the initial temporary period is three years from the date on which the bonds are issued. An issuer qualifies for this unrestricted investment period only if the issuer reasonably expects to satisfy three tests:

(1) *Expenditure test.*—At least 85 percent of the spendable proceeds of the issue must be expected to be spent within three years after the bonds are issued.

(2) *Time test.*—A substantial binding commitment to commence with the project to be financed must be entered into within six months after the bonds are issued.

(3) *Due diligence test.*—After the binding commitment is entered into, work to complete the project must proceed with due diligence.

Treasury Department regulations also establish shorter temporary periods for special types of proceeds (e.g., loan repayments) and types of bonds (e.g., tax and revenue anticipation notes).

Statutory temporary periods

The Internal Revenue Code (the Code) provides specific temporary periods in three cases. First, the initial temporary period on pooled financing bonds is limited to six months, and the temporary period on repayments of loans financed with such bonds is limited to three months.[5] Pooled financing bonds are bonds the proceeds of which are to be used to make loans to two or more persons.

Second, the Code provides that the initial temporary period for bonds that are advance refunded terminates no later than the date on which the refunding occurs. Third, the Code limits the initial temporary period on advance refunding bonds to 30 days.

Proposed and temporary Treasury Department regulations

On May 18, 1992, the Treasury Department issued proposed and temporary regulations which would allow most regulatory temporary periods to be extended indefinitely if (1) the bond proceeds were expended, determined after the fact, in a manner that actually qualified the bonds for the temporary period claimed by the issuer, and (2) all arbitrage profits on the bond issue were rebated to the Federal Government. For example, the three-year initial temporary period described above could be extended if the expenditure, time, and due diligence tests were actually complied with and arbitrage profits were rebated.

The proposed regulations do not apply to the three types of bonds for which statutory temporary periods are prescribed. Additionally, the proposed regulations do not apply to construction bond issues for which the penalty alternative to the rebate requirement is elected.

HOUSE BILL

No provision in H.R. 11 (However H.R. 5675 includes an identical provision as the Senate amendment.)

SENATE AMENDMENT

The bill provides the Treasury Department with express legislative authority to waive by regulation most statutory tax-exempt bond yield restriction requirements, provided that all arbitrage profits on the bond issue are rebated to the Federal Government. This authority does not extend to either (1) yield restriction of the proceeds of bonds involved in advance refunding transactions or (2) construction bond issues for which the special three-percent penalty-in-lieu-of-rebate penalty is elected.

The committee intends that the Treasury Department will give due consideration to regulatory action designed to preclude earlier or larger than necessary issuance of tax-exempt bonds or other abuse in this area. Specifically, the committee intends that the Treasury may impose "look-back" requirements, based on actual expenditures of bond proceeds, as a condition to waiving otherwise applicable yield restriction requirements. For example, the committee believes specifically that a look-back provision may be needed if the yield restriction requirement were waived for pooled financing bonds. If a look-back requirement were developed for these bonds, Treasury should look for guidance to the spend-down schedule set forth in the Code for certain construction bonds.

In taking this action, the committee intends no inference as to the Treasury Department's authority in actions previously taken in its proposed regulations, described above.

EFFECTIVE DATE

The provision is effective on the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include this provision of the Senate amendment.

J. INSURANCE PROVISIONS

1. Treatment of certain insurance contracts on retired lives

PRESENT LAW

Life insurance companies are allowed a deduction for any net increase in reserves and are required to include in income any net decrease in reserves. Special rules are provided in the case of a variable contract, providing that the reserve is adjusted by (1) subtracting any amount that has been added to the reserve by reason of appreciation in the value of assets underlying each contract, and (2) adding any amount that has been subtracted from the reserve by reason of depreciation in value of such assets.

A variable contract is defined as any annuity or life insurance contract (1) that provides for the allocation of all or part of the amounts received under the contract to an account that is segregated from the general asset accounts of the company, and (2) under which, in the case of an annuity contract, the amounts paid in, or the amounts paid out, reflect the investment return and the market value of the segregated asset account, or, in the case of a life insurance contract, the amount of the death benefit (or the period of coverage) is adjusted on the basis of the investment return and the market value of the segregated asset account. A pension plan contract that is not a life, accident, or health, property, casualty, or liability insurance contract is treated as an annuity contract for purposes of this definition.

HOUSE BILL

The House bill provides that a variable contract is to include a contract that provides for the funding of group term life or group accident and health insurance on retired lives if: (1) the contract provides for the allocation of all or part of the amounts received under the contract to an account that is segregated from the general asset account of the company; and (2) the amounts paid in, or the amounts paid out, under the contract reflect the investment return and the market value of the segregated asset account underlying the contract.

Effective date.—The provision applies to any contract issued after December 31, 1991. A taxpayer, however, may elect to apply the provision to all contracts issued before January 1, 1992 and during a taxable year for which the statute of limitations on the assessment of tax has not expired as of the date of enactment of the bill.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the Senate amendment is effective for taxable years beginning after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Treatment of modified guaranteed contracts

PRESENT LAW

Life insurance companies are allowed a deduction for any net increase in reserves and are required to include in income any net decrease in reserves. The reserve of a life insurance company for any contact is the greater of the net surrender value of the contract or the reserve determined under Federally prescribed rules. The net surrender value of a contract is the cash surrender value reduced by any surrender penalty, except that any market value adjustment required on surrender is not taken into account. In no event, however, may the amount of the reserve for tax purposes for any contract at any time exceed the amount of the reserve for annual statement purposes.

In general, assets held for investment are treated as capital assets. Any gain or loss from the sale or exchange of a capital asset is treated as a capital gain or loss and is taken into account for the taxable year in which the asset is sold or exchanged.

HOUSE BILL

The House bill generally applies a mark-to-market regime to assets held as part of a segregated account under a modified guaranteed contract issued by a life insurance company. Gain or loss with respect to such assets held as of the close of any taxable year is taken into account for that year (even though the assets have not been sold or exchanged), and is treated as ordinary. The reserve for a modified guaranteed contract is determined taking into account the market value adjustment required on surrender of the contract.

---

[5] This six-month period is increased to two years in the case of construction bonds subject to the special expenditure targets, described above, regardless of whether the issuer elects the penalty alternative to the rebate requirement.

A modified guaranteed contract is defined as any life insurance contract, annuity contract or pension plan contract[1] that is not a variable contract (within the meaning of Code section 817), and that satisfies the following requirements. First, all or a part of the amounts received under the contract must be allocated to an account which, pursuant to State law or regulation, is segregated from the general asset accounts of the company and is valued from time to time by reference to market values. Second, the contract must provide for a market value adjustment upon surrender of the contract.

The Treasury Department is authorized to issue regulations that provide for the application of the mark-to-market requirement at times other than the close of a taxable year or the last business day of a taxable year. The Treasury Department is also authorized to issue such regulations as may be necessary or appropriate to carry out the purposes of the provision and to provide for the treatment of modified guaranteed contracts under sections 72, 7702 and 7702A.

Effective date.—The provision applies to taxable years beginning after December 31, 1991. A taxpayer that is required to (1) change its calculation of reserves to take into account market value adjustments and (2) mark to market its segregated assets in order to comply with the requirements of the provision is treated as having initiated changes in method of accounting and as having received the consent of the Treasury Department to make such changes. The section 481(a) adjustments required by reason of the changes in method of accounting are to be combined and taken into account as a single net adjustment for the taxpayer's first taxable year beginning after December 31, 1991.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except for the following modifications.

A modified guaranteed contract is not required to provide for a market value adjustment upon surrender of the contract. Instead, the reserves for the contract must be valued at market for annual statement purposes.

In addition to the regulatory authority provided in the House bill, the Senate amendment authorizes the Treasury Department:

(1) to determine the interest rates applicable under sections 807(c)(3) and 807(d)(2)(B) with respect to modified guaranteed contracts annually, calculating such rates as appropriate for modified guaranteed contracts and using a method that approximates the yield on the assets underlying the contract;

(2) to the extent appropriate for such a contract, to modify or waive section 811(d);

(3) to provide rules limiting the ordinary treatment provided under the provision to gain or loss on those assets properly taken into account in calculating the reserve for Federal tax purposes (and necessary to support such reserves) for modified guaranteed contracts, and to provide rules for limiting such treatment with respect to other assets (such as assets representing surplus of the company).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with the following modifications.

A modified guaranteed contract is defined as under the Senate amendment, except that a modified guaranteed contract includes only a contract that provides either for a net surrender value or for a policyholder's fund (within the meaning of section 807(e)(1)).

The Treasury regulatory authority to determine the interest rates applicable under sections 807(c)(3) and 807(d)(2)(B) is clarified to apply also to the interest rate applicable under section 812, and to provide that such rates are to be calculated as appropriate for modified guaranteed contracts. For example, it may be appropriate to take into account the yield on the assets underlying the contract in determining such rates.

The conferees intend that the mark-to-market treatment apply to all assets held as part of a segregated account established under the provision, even though ordinary treatment may not apply (pursuant to the Treasury regulatory authority granted under the Senate amendment) to assets held as part of the segregated account that are not necessary to support the reserve for modified guaranteed contracts.

The conference agreement authorizes the Treasury Department to prescribe regulations that provide for the treatment of assets transferred to or from a segregated account.

The conferees are concerned that taxpayers may exercise selective ordinary loss (or income or gain) recognition by virtue of the ordinary treatment under the provision. One example of selective ordinary loss recognition could arise if assets are always marked to marked when transferred out of the segregated account. For example, if at the beginning of the taxable year an asset in the segregated account is worth $1,000, but declines to $900 in July, the taxpayer might choose to recognize $100 of ordinary loss while continuing to own the asset, simply by transferring it out of the segregated account in July and replacing $1,000 of cash (for example) in the segregated account.

The conferees intend that the regulations relating to asset transfers will forestall opportunities for selective recognition of ordinary items. Prior to the issuance of these regulations, the conferees intend that the following rules apply.

If an asset is transferred to a segregated account, gain or loss attributable to the period during which the asset was not in the segregated account is taken into account when the asset is sold, and retains the character (as ordinary or capital) properly attributable to that period. Appropriate adjustments are made to the basis of the asset to reflect gain or loss attributable to that period.

If an asset is transferred out of a segregated account, the transfer is deemed to occur on the last business day of the taxable year and gain or loss with respect to the transferred asset is taken into account as of that day. Loss with respect to such transferred asset is treated as ordinary to the extent of the lesser of (1) the loss (if any) that would have been recognized if the asset had been sold for its fair market value on the last business day of the taxable year (or the date the asset was actually sold by the taxpayer, if earlier) or (2) the loss (if any) that would have been recognized if the asset had been sold for its fair market value on the date of the transfer. A similar rule applies for gains. Proper adjustment is made in the amount of any gain or loss subsequently realized to reflect gain or loss under the provision.

For example, assume that a capital asset in the segregated account that is worth $1,000 at the beginning of the year is transferred out of the segregated account in July at a value of $900, is retained by the company and is worth $950 on the last business day of the taxable year. A $50 ordinary loss is taken into account with respect to the asset for the taxable year (the difference between $1,000 and $950). The asset is not marked to market in any subsequent year under the provision, provided it is not transferred back to the segregated account.

As an additional example, assume that a capital asset in the segregated account that is worth $1,000 at the beginning of the year is transferred out of the segregated account in July at a value of $900, is retained by the company and continues to decline in value to $850 on the last business day of the taxable year. A $100 ordinary loss ($1,000 less $900) and a $50 capital loss ($900 less $850) is taken into account with respect to the asset for the taxable year.

K. COOPERATIVE PROVISIONS

1. Discharge of indebtedness income from prepayment of REA loans

PRESENT LAW

Internal Revenue Code

Under section 501(c)(12) of the Code, a rural electric cooperative generally is exempt from Federal income tax if at least 85 percent of the cooperative's income is derived from members. Cancellation of indebtedness income generally must be taken into account in determining the percentage of a cooperative's income derived from members. Section 501(c)(12)(B)(iv) provides, however, that the 85-percent test is applied without regard to any cancellation of indebtedness income arising from the prepayment of a loan pursuant to sections 306A, 306B, or 311 of the Rural Electrification Act ("REA Act"), as in effect on January 1, 1987.

1990 Farm Act

Section 2387 of the Food, Agriculture, Conservation, and Trade Act of 1990 (the "1990 Farm Act") amended section 306B of the REA Act. Under such amendment, rural electric cooperatives that merge with another rural electric cooperative that previously prepaid REA loans under the 1988 or 1989 Budget Reconciliation Acts may prepay REA loans at a discount, provided the prepayment occurs within one year of such merger. Because this amendment occurred after January 1, 1987, the cancellation of indebtedness income arising from such prepayments would not be excluded in applying the 85-percent test under present law.

HOUSE BILL

No provision in H.R. 11. (However, section 109 of H.R. 2735 is substantially the same as the Senate amendment as described below, except that (1) it applies to the prepayment of REA loans under section 306B of the REA Act, as opposed to section 306B(b) of the REA Act, and (2) it does not contain certain conforming amendments made by the Senate amendment to section 501(c)(12)(B).)

SENATE AMENDMENT

The Senate amendment provides that the 85-percent test of section 501(c)(12) is applied without regard to cancellation of indebtedness income arising from the prepayment of

---

[1] The provision applies only to a pension plan contract that is not a life, accident or health, property, casualty, or liability contract.

REA loans under section 306B(b) of the REA Act, as in effect on January 1, 1991. For purposes of determining whether section 306B(b) of the REA Act remains in effect as of January 1, 1991, the renumbering of such subsection, the addition of a caption to such subsection, or any amendments to subsection 306B(a) shall be disregarded.

Effective date.—The provision is effective with respect to prepayments of REA loans made after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Treatment of certain amounts received by telephone cooperatives

PRESENT LAW

Mutual or cooperative telephone companies ("telephone cooperatives") are exempt from Federal income tax if 85 percent or more of their income consists of amounts collected from members for the sole purpose of meeting losses and expenses (sec. 501(c)(12)(A)). In applying this 85-percent test, certain income received by a telephone cooperative is disregarded, including income received from a nonmember telephone company for the performance of communication services which involve members of the telephone cooperative, certain pole rental income, and income from the sale of display listings in a telephone directory furnished to members of the telephone cooperative (sec. 501(c)(12)(B)).

Tax-exempt organizations generally are subject to the unrelated business income tax (UBIT) on income from a trade or business that is not substantially related to the organization's tax-exempt purposes. Under special rules, certain investment income (e.g., interest, dividends, royalties, and certain rents) generally is exempt from the UBIT, although some tax-exempt organizations, such as social clubs described in section 501(c)(7) and certain mutual benefit organizations, are subject to the UBIT on their investment income.

HOUSE BILL

No provision in H.R. 11. (However, section 108 of H.R. 2735 is identical to the Senate amendment as described below.)

SENATE AMENDMENT

The Senate amendment amends section 501(c)(12) to provide that 50 percent of the income received by a telephone cooperative from a nonmember telephone company for performing communication services—e.g., fees received for originating (or terminating) a long-distance call placed by (or to) a member—are treated as collected from members of the telephone cooperative for the sole purpose of meeting the losses and expenses of the telephone cooperative.[1] The remaining 50 percent of income received by a telephone cooperative from a nonmember telephone company is, as under present law, excluded from the 85-percent test under section 501(c)(12)(B)(i).

The Senate amendment also excludes from the 85-percent test under section 501(c)(12) amounts received by a telephone cooperative from billing and collection services performed for another telephone company.[2]

In addition, the Senate amendment provides that telephone cooperatives will not lose their tax-exempt status under section 501(c)(12) if they earn certain investment "reserve income" in excess of 15 percent of their total income, but only if such reserve income (when added to other income not collected from members) does not exceed 35 percent of the cooperative's total income. For purposes of this provision, "reserve income" is defined as income that otherwise would be excluded from the UBIT under section 512(b) (e.g., interest and dividends) and that is set aside for the repair or replacement of telephone facilities of the cooperative. Under the provision, tax-exempt telephone cooperatives are subject to the UBIT on such reserve income between the 15-percent and 35-percent range.[3]

Effective date.—The provision is effective for amounts received or accrued after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Treatment of certain housing cooperatives

PRESENT LAW

Deductions by Membership Organizations

Under section 277(a), costs incurred by a "membership organization" attributable to furnishing services, insurance, goods or other items of value to its members are deductible in any taxable year only to the extent of any income the organization has derived from its members or transactions with members. Any excess deductions may be carried over and used to offset income from members in subsequent taxable years.

For purposes of section 277(a), the Tax Court has determined that interest earned by a housing cooperative on reserve accounts mandated by the Federal Housing Authority and the state development housing authority did not constitute "income derived * * * from members or transactions with members". (See *Concord Consumers Housing Cooperative v. Commissioner*, 89 T.C. 105 (1987)).[4]

The Internal Revenue Service has held that section 277 applies to housing cooperatives,[5] while certain courts have held that section 277 does not apply to cooperatives that are subject to tax under subchapter T of the Code.[6] It is not clear whether housing cooperatives are subject to subchapter T.

Tax Treatment of Cooperatives

A cooperative is an organization, usually a corporation, which benefits its members and patrons by selling goods to them, purchasing products from them, and returning any income in excess of costs to them. A cooperative that is subject to subchapter T may exclude any patronage dividends paid to its members and patrons from its taxable income (sec. 1382). For a cooperative other than an "exempt cooperative",[7] a patronage dividend must be determined solely by reference to the net earnings of the organization from business done with or for its patrons. The Eighth Circuit has held that a nonexempt cooperative may not use patronage losses to offset nonpatronage income. See *Farm Services Cooperative v. Commissioner*, 611 F.2d 1270 (8th Cir. 1980).

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5650 treats interest earned by any cooperative housing corporation (as defined in sec. 216(b)(1)) on its reasonable reserves (including reserves required by a government agency or lender) as income derived from transactions with members for purposes of section 277(a), provided that the cooperative housing corporation satisfies the requirements set forth in section 143(k)(9)(D)(i). The provision in H.R. 5650 applies to taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment clarifies that section 277 does not apply to a "cooperative housing corporation".[8] The Senate amendment, however, adopts a rule in subchapter T similar to section 277 that patronage losses of a cooperative housing corporation cannot offset earnings that are not patronage earnings.

For this purpose, the Senate amendment specifically treats the following items as "patronage earnings": (1) interest on reasonable reserves established in connection with the cooperative housing corporation, including reserves required by a government agency or lender, (2) rents from laundry and parking to the extent attributable to use of the facilities by tenant-stockholders (as defined in section 216(b)(2)) and their guests, and (3) in the case of certain "limited equity cooperative housing corporations",[9] rental income attributable to housing projects operated by such corporations.

Effective date.—The Senate amendment applies to taxable years beginning after the date of enactment.

---

[1] Amounts received by a telephone cooperative from a nonmember telephone company (e.g., long-distance carrier) for performing communication services often are referred to as "access charges." Thus, under the Senate amendment, 50 percent of such access charges received by a telephone cooperative from another telecommunications company are treated as member-source income for purposes of the 85-percent test of section 501(c)(12).

[2] Telephone cooperatives (and other local telephone companies) often serve as billing and collection agents for other telecommunications companies. (That is, a telephone cooperative bills, and collects from, its members not only charges for local phone service provided by the cooperative but also charges for amounts owed to a long-distance carrier for the member's long-distance calls.) Telephone cooperatives are compensated for performing billing and collection services, generally by retaining a portion of the long-distance charges collected from members. Similar to the present-law treatment of certain pole rental income and directory listing (e.g., "yellow pages") revenue, the Senate amendment treats such billing and collection revenues as excluded from the 85-percent test under section 501(c)(12).

The Senate amendment provides that, for purposes of the UBIT, no inference is intended regarding the treatment of income from billing and collection services.

[3] Income that is not taken into account under section 501(c)(12)(B) likewise is disregarded for purposes of the 15-percent and 35-percent thresholds.

[4] The Tax Court did not address the interrelationship of sections 216, 277 and subchapter T because the record was insufficient to determine whether "petitioner [was] a 'cooperative housing corporation' within the meaning of section 216(b)(1) or that petitioner [was] 'operating on a cooperative basis'" within the meaning of section 1381(a)(2). *See* 89 T.C. at 106 n.3.

[5] See Rev. Rul. 90-36, 1990-1 C.B. 59.

[6] See *Landmark v. United States*, 92-1 Tax Cas. (CCH) para. 50,058 (Ct. Cl. 1992); *Farm Services Cooperative v. Commissioner*, 70 T.C. 145, 155-57, (1978), *rev'd on other grounds*, 611 F.2d 1270 (8th Cir. 1980).

[7] An "exempt cooperative" is a farmers' cooperative association described in section 521(b)(1). An exempt cooperative may allocate to its patrons and deduct, not only earnings from patronage activities, but also dividends on capital stock and earnings from nonpatronage sources (sec. 1382(c)).

[8] Under section 216(b)(1), a cooperative housing corporation generally is a corporation (i) that has one class of stock, (ii) each of the stockholders of which is entitled, solely by reason of ownership of stock, to occupy a dwelling owned or leased by the cooperative, (iii) no stockholder of which is entitled to receive any distribution not out of earnings and profits of the cooperative, and (iv) 80 percent or more of the gross income for the taxable year of which is derived from tenant-stockholders.

[9] Generally, a cooperative housing corporation is a "limited equity cooperative housing corporation" if the amount paid by a tenant stockholder for stock in the corporation cannot exceed the sum of (i) the consideration paid by the first tenant-stockholder, adjusted for cost of living, (ii) payments for improvements to the dwelling unit, and (iii) payments to amortize corporate indebtedness arising from the acquisition or development of real property (sec. 143(k)(9)(D)(i)).

Conference Agreement

The conference agreement follows the Senate amendment, except for a technical modification. No inference is intended regarding whether any corporation operating on a cooperative basis (other than a cooperative housing corporation) is subject to section 277.

4. Treatment of safe harbor leases of membership organizations

Present Law

Deductions of membership organizations

Under section 277, a membership organization operated primarily to furnish services or goods to its members may deduct costs attributable to such operations only to the extent of income derived from members. In essence, section 277 prohibits using losses incurred from transactions with members to offset income derived from transactions with nonmembers.

Safe harbor leases

The Economic Recovery Tax Act of 1981 ("ERTA") provided rules intended to permit full utilization of tax benefits. Under these rules (known as the "safe harbor lease rules"), the putative "lessor" in the transaction was treated as the property owner for Federal income tax purposes (regardless of the transaction's economic substance) and thereby was entitled to cost recovery deductions and investment tax credits. Thus, a person (i.e., lessee) who complied with these rules could, by entering into a nominal sale and safe-harbor leaseback, effectively sell some of the tax benefits associated with the property, while retaining the benefits and burdens of ownership. The safe harbor lease rules were repealed by the Tax Equity and Fiscal Responsibility Act of 1982.

House Bill

No provision.

Senate Amendment

The Senate amendment provides that the interest income and rental expense from the sale and leaseback of property under a safe harbor lease are to be first netted and the difference allocated between members and nonmembers in proportion to the business done with each group.

Effective date.—The provision is effective for all taxable years beginning before, on, or after the date of enactment.

Conference Agreement

The conference agreement does not adopt the Senate amendment.

L. OTHER SIMPLIFICATION PROVISIONS

1. Close partnership taxable year with respect to deceased partner, etc.

Present Law

The partnership taxable year closes with respect to a partner whose entire interest is sold, exchanged or liquidated. Such year, however, generally does not close upon the death of a partner. Thus, a decedent's entire share of items of income, gain, loss, deduction and credit for the partnership year in which death occurs is taxed to the estate or successor in interest rather than to the decedent on his or her final income tax return. *See Estate of Hesse* v. *Commissioner*, 74 T.C. 1307, 1311 (1980).

House Bill

The House bill provides that the taxable year of a partnership closes with respect to a partner whose entire interest in the partnership terminates, whether by death, liquidation or otherwise. The House bill is not intended to change present law with respect to the effect upon the partnership taxable year of a transfer of a partnership interest by a debtor to the debtor's estate (under Chapters 7 or 11 of Title 11, relating to bankruptcy).

Effective date.—Partnership taxable years beginning after December 31, 1991.

Senate Amendment

The Senate amendment is the same as the House bill, except that the provision is effective for partnership taxable years beginning after December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

2. Treatment of built-in losses for purposes of the corporate alternative minimum tax

Present Law

For purposes of the regular corporate tax, if at the time of an ownership change, a corporation has a net operating loss or a net unrealized built-in loss, the use of such losses in post-change periods is limited. A corporation has a net unrealized built-in loss if the aggregate adjusted bases of the assets of the corporation exceed the fair market value of the assets immediately before the change of ownership (sec. 382).

For purposes of the adjusted current earnings (ACE) component of the corporate alternative minimum tax (AMT), if a corporation with a net unrealized built-in loss undergoes an ownership change in a taxable year beginning after 1989, the adjusted basis of each asset of such corporation generally is adjusted to each asset's fair market value (sec. 56(g)(4)(G)). This rule essentially eliminates, rather than limits, the use of built-in losses for ACE purposes. The net operating loss of a corporation, on the other hand, is not eliminated for AMT purposes after a change of ownership.

House Bill

The House bill repeals the ACE rule relating to the treatment of built-in losses after a change of ownership. Thus, for ACE purposes, the treatment of built-in losses would be similar to the treatment of net operating loss carryovers (in the same way that the treatment of built-in losses is similar to the treatment of net operating losses for regular tax purposes).

Effective date.—The provision is effective for changes of ownership occurring after the date of enactment.

Senate Amendment

The Senate amendment is the same as the House bill, except that the Senate amendment is effective for changes of ownership occurring after December 31, 1991.

Conference Agreement

The conference agreement follows the Senate amendment.

3. Authorization for Bureau of Land Management to use proceeds of Reforestation Trust Fund

Present Law

The United States Treasury contains a Reforestation Trust Fund the proceeds of which are used by the Department of Agriculture for reforestation and timber stand improvement of lands in the national forest system and for related administrative costs. The amount transferred to the Reforestation Trust Fund for any fiscal year equals the amount collected during such year from custom tariffs on certain wood products, except that the maximum amount transferred for any fiscal year may not exceed $30 million.

House Bill

No provision.

Senate Amendment

The Senate amendment increases from $30 million to $45 million the maximum amount that may be transferred to the Reforestation Trust Fund for any fiscal year. The additional $15 million that is transferred to the Reforestation Trust Fund for any fiscal year is to be allocated and made available to the Department of the Interior for the reforestation, forest development, and forest conservation activities of the Bureau of Land Management and for related administrative costs.

Of the additional $15 million that is transferred to the Reforestation Trust Fund for any fiscal year, $14 million is to be allocated for Oregon and California Railroad and Coos Bay Wagon Road grant lands in Oregon. The remaining $1 million is to be allocated for public domain lands located in any State based on (in order of priority): (1) the level of timber sales (measured in board feet) during the previous calendar year from public domain lands located within the State; (2) the amount of reforestation backlog in the State; (3) the need for planting as part of the reforestation program; and (4) the need for forest development as part of the reforestation program.

The Senate amendment also provides that if the wood product tariffs are insufficient to provide an additional $15 million for any fiscal year, the Treasury Department is required to transfer to the Reforestation Trust Fund an amount equal to the shortfall in the wood product tariffs. In the case of any such shortfall in the wood product tariffs, 93-and-1/3 percent of the amount of the shortfall is to be taken from the Federal portion of the Bureau of Land Management timber receipt payments from the Coos Bay Wagon Road grant lands in Oregon and the remainder of the shortfall is to be taken from the Federal portion of the Bureau of Land Management timber receipt payments from public domain lands in the States.

Effective date.—The provision is effective on October 1, 1992.

Conference Agreement

The conference agreement adopts the Senate amendment.

4. Private foundation common investment fund (sec. 4564 of the bill and new sec. 501(n) of the Code)

Present Law

Code section 501(c)(3) requires that an organization be organized and operated exclusively for an exempt purpose in order to qualify for tax-exempt status under that section.

Section 501(f) provides that an organization is treated as organized and operated exclusively for charitable purposes if it is comprised solely of members that are educational institutions and is organized and operated solely to hold, commingle, and collectively invest (including arranging for investment services by independent contractors) in stocks and securities, the moneys contributed thereto by the members, and to collect income therefrom and turn over the entire amount thereof, less expenses, to such members.

House Bill

No provision. (However, H.R. 2735 contains a provision that is substantially similar to the Senate amendment.)

Senate Amendment

The Senate amendment provides that a cooperative service organization comprised solely of members that are tax-exempt private foundations and community foundations[1] shall be treated as organized and operated exclusively for charitable purposes if: (1) it has at least 20 members; (2) no one member holds (after the organization's second taxable year) more than 10 percent (by value) of the interests in the organization; (3) it is organized[2] and controlled by its members, but no one member by itself controls the organization or any other member; (4) the members are permitted to dismiss any of the organization's investment advisors, if (following reasonable notice) members holding a majority of interest in the account managed by such advisor vote to remove such advisor; and (5) the organization is organized and operated solely to hold, commingle, and collectively invest (including arranging for investment services by independent contractors) in stocks and securities, the monies contributed by the members, and to collect income therefrom and turn over the entire amount thereof, less expenses, to such members.[3]

A cooperative service organization meeting the criteria of the proposed modification would be subject to the present-law excise tax provisions applicable to private foundations (e.g., sec. 4941 rules governing self-dealing arrangements), other than sections 4940 and 4942.[4] In addition, each member's allocable share (whether or not distributed) of the capital gain net income and gross investment income of the organization for any taxable year of the organization is treated, for purposes of the excise tax imposed under present-law section 4940, as capital gain net income and gross investment income of the member for the taxable year of such member in which the taxable year of the organization ends.[5]

Effective date.—Taxable years ending on or after December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

5. Determinations of gas produced from qualifying sources under the nonconventional fuels production credit

Present Law

Nonconventional fuels are eligible for a production credit ("the section 29 credit") equal to $3 per barrel or Btu oil barrel equivalent[1] (the credit amount generally is adjusted for inflation, except for gas produced from a tight formation). Qualified fuels must be produced domestically from a well drilled, or a facility placed in service, before January 1, 1993. The production credit is available for qualified fuels sold before January 1, 2003.

Qualified fuels include (1) oil produced from shale and tar sands, (2) gas produced from geopressured brine, Devonian shale, coal seams, a tight formation, or biomass (i.e., any organic material other than oil, natural gas, or coal (or any product thereof), and (3) liquid, gaseous, or solid synthetic fuels produced from coal (including lignite), including such fuels when used as feedstocks. The amount of the credit is determined without regard to any production attributable to a property from which gas from Devonian shale, coal seams, geopressured brine, or a tight formation was produced in marketable quantities before 1980.

As a general rule, the determination of whether any gas is produced from geopressured brine, Devonian shale, coal seams, or a tight formation is made in accordance with section 503 of the Natural Gas Policy Act of 1978 (the "NGPA").[2] The term "gas from a tight formation" means only gas from a tight formation which either, as of April 20, 1977, was committed or dedicated to interstate commerce (as defined in section 2(18) of the NGPA, as in effect on the date of enactment of the Omnibus Budget Reconciliation Act of 1990, or is produced from a well drilled after November 5, 1990.

Under section 503 of the NGPA,[3] if any State or Federal agency[4] makes any final determination that a well produces certain "high-cost natural gas,"[5] that determination is applicable unless it is reversed by the Federal Energy Regulatory Commission (FERC) under special procedures established under the NGPA.[6]

Under the regulatory authority granted to it by the NGPA, FERC has established the following definitions of certain types of high-cost natural gas. Natural gas produced from geopressured brine is natural gas which is dissolved before initial production of the natural gas in subsurface brine aquifers with at least 10,000 parts of dissolved solids per million parts of water and with an initial reservoir geopressure gradient in excess of 0.465 pounds per square inch for each vertical foot of depth.[7]

Occluded natural gas produced from coal seams means naturally occurring natural gas from entrapment from the fractures, pores and bedding planes of coal seams.[8]

Natural gas produced from Devonian shale means natural gas produced from fractures, micropores and bedding planes of shales deposited during the paleozoic Devonian Period. Shales deposited during such period are defined as either (1) the gross Devonian age stratigraphic interval encountered by a well bore, at least 95 percent of which has a gamma ray index of 0.7 or greater; or (2) generally, one continuous interval within the gross Devonian age stratigraphic interval, encountered by a well bore, as long as at least 95 percent of the selected Devonian shale interval has a gamma ray index of 0.7 or greater.[9] When measuring the Devonian age stratigraphic interval, the gamma ray index at any point is calculated by dividing the gamma ray log value at that point by the gamma log value at the shale base line established over the entire Devonian age interval penetrated by the well bore.

In general, guidelines for making a determination that a formation is a tight formation are as follows: (1) The estimated average *in situ* gas permeability, throughout the pay section, is expected to be 0.1 millidarcy or less; (2) the stabilized production rate, against atmospheric pressure, of wells completed for production in the formation, without stimulation, is not expected to exceed the production rate set forth by FERC in regulations;[10] and (3) no well drilled into the recommended tight formation is expected to produce, without stimulation, more than 5 barrels of crude oil per day.[11] The FERC regulations establishing a definition of tight formation also set forth determination and review requirements similar to those provided by the NGPA for high-cost natural gas.

Any Federal or State agency that makes a determination that a formation is a tight formation or that a well produces high-cost natural gas is required to provide timely notice in writing of such determination to FERC.[12] The notice must include such substantiation and be in such a manner as FERC may, by ruling, require.

The NGPA provides that FERC will reverse any final State or Federal agency determination that a formation is a tight formation or that a well produces high-cost natural gas if (1) FERC finds that such determination is not supported by substantial evidence in the record upon which such determination was made; and (2) the preliminary finding and required notice thereof is made within 45 days after the date on which FERC received notice of the determination by the State or Federal agency and the final finding is made within 120 days after the date of the preliminary finding.[13] If (1) FERC finds that a State or Federal agency determination is not consistent with information contained in FERC's public records, and which is not part of the record upon which the State or Federal agency's determination was made, and (2) the preliminary finding by FERC and re-

---

[1] For purposes of the provision, "community foundations" are a form of charitable trust or fund (which generally are established to attract large contributions of a capital or endowment nature for the benefit of a particular community or area) as to which section 170(b)(1)(A)(vi) applies. See Treas. Reg. sec. 1.170A-9(e)(10).

It is intended that members will present the organization with verification of their status as tax-exempt private or community foundations at the time they become members (i.e., when they make an initial investment). The committee intends that a reasonable time period (such as 60 days) should be allowed for withdrawal by a member that subsequently ceases to qualify as a tax-exempt private or community foundation.

[2] It is intended that an organization in existence at the time of enactment will meet the requirement that it be "organized" by members if its initial board of directors or trustees are officers of private or community foundations that become members of the organization within a reasonable period after enactment of the bill.

[3] It is intended that an organization will be deemed to be organized and operated solely to collectively invest in stocks and securities if its income is derived solely from investing in stocks and securities, and ordinary and routine investments in connection with a stock and securities portfolio.

A cooperative service organization described in the provision qualifies for tax-exempt status under section 501(c)(3) only if the other applicable requirements of that section (e.g., prohibition of private inurement, political activities, and substantial lobbying) are satisfied.

[4] In addition, the Senate amendment provides that the present-law expenditure responsibility requirements of section 4945(d)(4)(B) will not apply to grants made by private foundations to the cooperative service organization and that such grants will be deemed to be qualifying distributions for purposes of 4942.

[5] Each member's allocable share of the organization's expenses are passed through to the member for purposes of determining the deductions allowed by section 4940(c)(3) in computing the member's net investment income.

---

[1] A barrel-of-oil equivalent generally means that amount of the qualifying fuel which has a Btu content of 5.8 million.

[2] P.L. 95-621, Nov. 9, 1978.

[3] 15 U.S.C. sec. 3413 (1988).

[4] Under the NGPA, a State or Federal agency having regulatory jurisdiction with respect to the production of natural gas is authorized to make determinations for qualifying under certain categories of natural gas. Such an agency, however, may waive its authority to make such determinations by entering into an agreement with FERC allowing FERC to be the determination-making body. (15 U.S.C. sec. 3413(c) (1988).)

[5] Under the NGPA, high-cost natural gas includes gas produced from geopressured brine, coal seams, or Devonian shale. In addition, the NGPA grants FERC the authority to treat other types of natural gas as high-cost natural gas if the gas is produced under such other conditions that FERC determines to present extraordinary risks or costs. Under this authority, FERC treats gas produced from a tight formation as high-cost natural gas. (15 U.S.C. sec. 3317(c) (1988).)

[6] 15 U.S.C. sec. 3413(a)(1) (1988).

---

[7] 18 C.F.R. sec. 272.103(c).

[8] 18 C.F.R. sec. 272.103(d).

[9] 18 C.F.R. sec. 272.103(e).

[10] *See* table in 18 C.F.R. sec. 271.703(c)(1)(B).

[11] 18 C.F.R. sec. 271.703(c).

[12] 15 U.S.C. sec. 3413(a)(2) (1988).

[13] 15 U.S.C. sec. 3413(b)(1) (1988).

quired notice thereof is made within 45 days after the date on which FERC received notice of the determination and the final finding is made within 120 days after the date of the preliminary finding, FERC may remand the matter to the State or Federal agency for consideration of such information.[14] If the agency, after consideration of the information transmitted to it by FERC, affirms its previous determination, such determination, as so affirmed, is subject to additional review by FERC. Such findings and remands by FERC may be subject to judicial review.[15]

In general, any final determination by a State or Federal agency (or by FERC) that a formation is a tight formation or that a well produces high-cost natural gas which is no longer subject to FERC or judicial review is thereafter binding with respect to such natural gas.[16]

In 1989, the Natural Gas Wellhead Decontrol Act[17] was enacted. That Act repealed Title I of the NGPA, effective on January 1, 1993. It also repealed FERC's determination review responsibility under section 503 of the NGPA. The legislative history to the 1989 legislation stated that the Senate Committee on Energy and Natural Resources did not intend, by repealing sections of the NGPA referenced in section 29 of the Internal Revenue Code, to reflect an adverse judgment as to the merits of the tax credits for any categories of natural gas production that might be affected by such action.[18] In view of this indication that Congress did not intend the 1989 legislation to limit the availability of the section 29 credit, FERC announced that it will continue to process well determinations until January 1, 1993, in order to allow producers to obtain tax credits that are dependent upon such determinations even if the gas has been otherwise decontrolled.[19] FERC has subsequently announced that it will continue to process well determinations received by June 30, 1993 if they are filed with jurisdictional agencies by December 31, 1992.[20]

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that with respect to determinations required under the Internal Revenue Code of whether gas is produced from geopressured brine, Devonian shale, coal seams, or from a tight formation, in the event that such a determination is not made by the Federal Energy Regulatory Commission in accordance with section 503 of the Natural Gas Policy Act of 1978 due to the expiration of that statute, the Secretary of Treasury is required to make such determinations. For this purpose, the Senate amendment mandates that any such determination by the Treasury Department be based on the guidelines for making determinations set forth in the Natural Gas Policy Act of 1978 (and in regulations thereunder) prior to its repeal.

In addition, the Senate amendment clarifies that for purposes of the section 29 credit, the definitions of gas produced from geopressured brine, Devonian shale, coal seams, or from a tight formation are as established by the Federal Energy Regulatory Commission under the Natural Gas Policy Act of 1978 prior to repeal of provisions of that statute relating to such definitions.

Effective date.—Determinations not made by the Federal Energy Regulatory Commission as a result of the repeal of relevant provisions of the Natural Gas Policy Act of 1978.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

M. ESTATE AND GIFT TAX PROVISIONS

1. Waiver of right of recovery for certain marital deduction property

PRESENT LAW

For estate and gift tax purposes, a marital deduction is allowed for qualified terminable interest property (QTIP). Such property generally is included in the surviving spouse's gross estate. The surviving spouse's estate is entitled to recover the portion of the estate tax attributable to such inclusion from the person receiving the property, unless the spouse directs otherwise by will (sec. 2207A). For this purpose, a will provision specifying that all taxes be paid by the estate is presently sufficient to waive the right of recovery.

The gross estate includes the value of previously transferred property in which the decedent retains enjoyment or the right to income (sec. 2036). The estate is entitled to recover from the person receiving the property a portion of the estate tax attributable to the inclusion (sec. 2207B). This right may be waived only by a provision in the will (or revocable trust) specifically referring to section 2207B.

HOUSE BILL

The House bill provides that the right of recovery with respect to QTIP is waived to the extent that language in the decedent's will or revocable trust specifically so indicates. Thus, a general provision specifying that all taxes be paid by the estate is no longer sufficient to waive the right of recovery. The House bill also provides that the right of contribution for property over which the decedent retained enjoyment or the right to income is waived by a specific indication, but specific reference to section 2207B would no longer be required.

Effective date.—The provision applies to decedents dying after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Inclusion in gross estate of certain gifts made within three years of death

PRESENT LAW

The first $10,000 of gifts of present interests to each donee during any one calendar year are excluded from Federal gift tax.

The value of the gross estate includes the value of any previously transferred property if the decedent retained the power to revoke the transfer (sec. 2038). The gross estate also includes the value of any property with respect to which such power is relinquished during the three years before death (sec. 2035). This rule has been interpreted to include in the gross estate certain transfers made from a revocable trust within three years of death.[1] Such inclusion subjects gifts that would otherwise qualify under the annual $10,000 exclusion to estate tax.

HOUSE BILL

The House bill provides that a transfer from a trust over which the grantor held the power to revoke would be treated as if made directly by the grantor. Thus, an annual exclusion gift from such trust is not included in the gross estate.

The House bill also revises section 2035 to improve its clarity.

Effective date.—The provision applies to decedents dying after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. It is intended that no inference be drawn from the provision with respect to the treatment of transfers from revocable trusts under present law.

3. Definition of qualified terminable interest property

PRESENT LAW

A marital deduction is allowed for qualified terminable interest property (QTIP). Property is QTIP only if the surviving spouse has a qualifying income interest for life (e.g., the spouse is entitled to all of the income from the property, payable at least annually). QTIP generally is includible in the surviving spouse's gross estate.

The United States Tax Court has held that, in order to satisfy the QTIP requirements, the income accumulating between the last distribution date and the date of the surviving spouse's death (the "accumulated income") must be paid to the spouse's estate or be subject to a power of appointment held by the spouse. See *Estate of Howard v. Commissioner*, 91 T.C. 329, 338 (1988), *rev'd*, 910 F.2d 633 (9th Cir. 1990). In contrast, proposed Treasury regulations presently provide that an income interest may constitute a qualifying income interest for life even if the accumulated income is not required to be distributed to the surviving spouse or the surviving spouse's estate. *See* Prop. Treas. Reg. secs. 20.2056(b)-7(c)(1), 25.2523(f)-1(b).

HOUSE BILL

Under the House bill, an income interest does not fail to be a qualified income interest for life solely because the accumulated income is not required to be distributed to the surviving spouse. Such income is includible in the surviving spouse's gross estate.

Effective date.—The provision applies to decedents dying, and gifts made, after date of enactment. However, the House bill does not include in the surviving spouse's gross estate property transferred before the date of enactment for which no marital deduction was allowed.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. It is intended that no inference be drawn from the provision with respect to the definition of a qualified income interest for life under present law.

4. Inclusion of property qualifying for the marital deduction in the gross estate

PRESENT LAW

A marital deduction against the estate and gift tax generally is permitted for the value of property passing between spouses. No marital deduction is permitted, however, if, upon termination of the spouse's interest, possession or enjoyment of the property passes to another person (the "terminable interest rule"). Certain exceptions to this rule may apply if the spouse receives a general power of appointment over, or an income interest in, a "specific portion" of property (sec. 2056(b)(5), (6), (7)). The spouse is subject to transfer tax on property over which he or she holds a general power of appointment.

---

[14] 15 U.S.C. sec. 3413(b)(2) (1988).

[15] 15 U.S.C. sec. 3413(b)(4) (1988).

[16] 15 U.S.C. sec. 3413(d) (1988).

[17] P.L. 101-60, July 26, 1989.

[18] S. Rep. No. 101-39, 101st Cong., 1st Sess. 9 (1989).

[19] F.E.R.C. Order No. 523, 55 Fed. Reg. 17425, April 25, 1990.

[20] F.E.R.C. Order No. 539, 57 Fed. Reg. 13009, April 15, 1992.

[1] See, e.g., *Jalkut Estate* v. *Commissioner*, 96 T.C. 675 (1991) (transfers from revocable trust to permissible beneficiaries of the trust includible in the grantor's gross estate); LTR 9117003 (same).

A Treasury regulation defines a "specific portion" to be a fractional or percentage share of a property interest (Treas. Reg. sec. 20.2056(b)-5(c)). Finding this regulation invalid, courts have held that the term "specific portion" includes a fixed dollar amount. See *Northeastern Pennsylvania National Bank & Trust Co. v. United States*, 387 U.S. 213 (1967); *Estate of Alexander v. Commissioner*, 82 T.C. 34 (1984), *aff'd*, No. 8401600 (4th Cir. April 3, 1985). Under the court holdings, appreciation in certain marital deduction property may be includible in neither spouse's estate.

HOUSE BILL

The House bill provides that, for purposes of the marital deduction, a "specific portion" only includes a portion determined on a fractional or percentage basis. Thus, a trust does not qualify under the exceptions to the terminable interest rule unless the required income interest and general power of appointment are expressed as a fraction or a percentage of the property.

It is intended that no inference be drawn from the provision with respect to the definition of "specific portion" under present law. The House bill does not generally affect the marital deduction allowed for a pecuniary formula marital deduction bequest. See, e.g., Rev. Proc. 64-19, 1964-1 C.B. 682.

Effective date.—The provision generally applies to gifts made, and decedents dying, after date of enactment. The provision does not apply to a transfer under a will or revocable trust executed before the date of enactment if either (1) on that date the decedent was under a mental disability to change the disposition of his property and did not regain his competence to dispose of such property before the date of death, or (2) the decedent dies within three years after the date of enactment. The provision applies, however, if the will or trust is amended after the date of enactment in any respect that increases the amount of the transfer qualifying for the marital deduction or alters the terms by which the interest passes.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement does not include either the House bill provision or the Senate amendment. (However, the conference agreement on H.R. 776 includes the same provision as contained in the House bill and the Senate amendment.)

5. Requirements for qualified domestic trust.

PRESENT LAW

A deduction generally is allowed for Federal estate tax purposes for the value of property passing to a spouse. The Technical and Miscellaneous Revenue Act of 1988 ("TAMRA") denied the marital deduction for property passing to a noncitizen spouse outside a qualified domestic trust ("QDT"). An estate tax is generally imposed on corpus distributions from a QDT.

TAMRA defined a QDT as a trust that, among other things, required all trustees be U.S. citizens or domestic corporations. This provision was modified in the Omnibus Budget Reconciliation Acts of 1989 and 1990 to require that at least one trustee be a U.S. citizen or domestic corporation and that no corpus distribution be made unless such trustee has the right to withhold any estate tax imposed on the distribution (the "withholding requirement").

HOUSE BILL

A trust created before the enactment of the Omnibus Budget Reconciliation Act of 1990 is treated as satisfying the withholding requirement if its governing instrument requires that all trustees be U.S. citizens or domestic corporations.

Effective date.—The provision applies as if included in the Omnibus Budget Reconciliation Act of 1990.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

6. Election of special use valuation of farm property for estate tax purposes

PRESENT LAW

For estate tax purposes, an executor may elect to value certain real property used in farming or other closely held business operations at its current use value rather than its highest and best use (sec. 2032A). A written agreement signed by each person with an interest in the property must be filed with the election.

Treasury regulations require that a notice of election and certain information be filed with the Federal estate tax return (Treas. Reg. sec. 20.2032A-8). The administrative policy of the Treasury Department is to disallow current use valuation elections unless the required information is supplied.

Under procedures prescribed by the Secretary of the Treasury, an executor who makes the election and provides substantially all of the information requested on the estate tax return but fails to provide all required information may supply the missing information within a reasonable period of time (not exceeding 90 days) after notification by the Secretary of the Treasury.

HOUSE BILL

The House bill extends the procedures allowing subsequent submission of information to any executor who makes the election and submits the recapture agreement, without regard to compliance with the Treasury regulations. Thus, the House bill allows the current use valuation election if the executor supplies the required information within a reasonable period of time (not exceeding 90 days) after notification by the IRS. During that time period, the House bill also allows addition of signatures to a previously filed agreement.

Effective date.—The provision applies to decedents dying after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

7. Income taxation of accumulation trusts

PRESENT LAW

In general

A nongrantor trust is treated as a separate taxpayer for Federal income tax purposes. Such trust is generally treated as a conduit with respect to amounts distributed currently and taxed as an individual with respect to undistributed income. The conduit treatment is achieved by allowing the trust a deduction for amounts distributed or required to be distributed to beneficiaries during the taxable year to the extent of distributable net income and by including the distributions in the beneficiaries' income.

Distributions of accumulated income

A distribution of previously accumulated income is taxed under the "throwback rules", which provide that beneficiaries are taxed on distributions of previously accumulated income from trusts in substantially the same manner as if the income had been distributed when earned or accrued.

Distributions of appreciated property

If property is sold within two years of its contribution to a trust, the gain that would have been recognized had the contributor sold the property is generally taxed at the contributor's marginal tax rates (sec. 644). In effect, section 644 treats such gains as if the contributor had realized the gain and then transferred the net after-tax proceeds from the sale to the trust as corpus.

Treatment of multiple trusts

Under section 643(f), two or more trusts are treated as one trust if (1) the trusts have substantially the same grantor or grantors and substantially the same primary beneficiary or beneficiaries, and (2) a principal purpose for the existence of the trusts is the avoidance of Federal income tax. For trusts that were irrevocable as of March 1, 1984, section 643(f) applies only to subsequent contributions to corpus.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment exempts amounts distributed by domestic trusts after December 31, 1992, from the "throwback rules." It also provides that precontribution gain on property sold by a domestic trust is no longer taxed at the contributor's marginal tax rates. The provision does not apply to a trust created before March 1, 1984, unless the taxpayer establishes that the trust would not have been aggregated under the standard contained in section 643(f).

Effective date.—The change in the throwback rules applies to taxable years beginning after December 31, 1992. The modification in section 644 applies to sales or exchanges after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

8. Estate tax recapture from cash leases of specially valued property

PRESENT LAW

A Federal estate tax is imposed on the value of property passing at death. Generally, the value of property is its fair market value, i.e., the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts.

Under section 2032A of the Code, the executor may elect to value certain "qualified real property" used in farming or another qualifying trade or business at its current use value rather than its highest and best use. If, after the special use valuation election is made, the heir who acquired the real property ceases to use it in its qualified use within 10 years (15 years for individuals dying before 1982) of the decedent's death, an additional estate tax is imposed in order to "recapture" the benefit of the special use valuation.

Some courts have held that cash rental of specially valued property after the death of the decedent is not a qualified use and, therefore, results in the imposition of the additional estate tax under section 2032A(c). *Martin v. Commissioner*, 783 F.2d 81 (7th Cir. 1986) (cash lease to unrelated party); *Williamson v. Commissioner*, 93 T.C. 242 (1989), *aff'd*, ——— F. 2d ——— (9th Cir.), 1992 U.S. App. Lexis 21175 (September 14, 1992) (cash lease to family member).

HOUSE BILL

No provision in H.R. 11. (However, section 123 of H.R. 2735 is substantially the same as the Senate amendment as described below, except that (i) permissible lessees are limited to any lineal descendant of a qualified heir (or to the spouse of such a lineal descendant), (ii) H.R. 2735 does not explicitly require that any permissible lessee continue to operate the farm or closely held business in its qualified use during the term of the lease, and (iii) the provision is effective for cash rentals occurring after the date of enactment.)

SENATE AMENDMENT

The Senate amendment provides that the cash lease of specially valued real property by a qualified heir to a "member of the family" (who continues to operate the farm or closely held business) does not cause the qualified use of such property to cease for purposes of imposing the additional estate tax under section 2032A(c).

Effective date.—The provision is effective for cash rentals after December 31, 1976.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

9. Interest rate on intra-familial loans made in connection with land sales

PRESENT LAW

Treatment of gift loans

In 1984, the U.S. Supreme Court held that interest-free demand loans made to a child by his parents constituted a transfer of property by gift and was subject to the gift tax. The amount of the gift was the reasonable value of the use of the money lent without charge, rather than the principal amount of the loan. See *Dickman v. Commissioner*, 465 U.S. 330 (1984).

Congress codified the *Dickman* holding in the Deficit Reduction Act of 1984 in section 7872, effective generally for term loans made after June 6, 1984, and demand loans outstanding after June 6, 1984. Under section 7872, a below-market interest rate loan (a "below-market loan") is recharacterized as an arm's length transaction in which the lender (i) made a loan to the borrower in exchange for a note requiring the payment of interest at the "applicable Federal rate" (as determined under section 1274(d)), and (ii) made a payment to the borrower equal to the amount of the interest "foregone" by the lender.

A demand loan is treated as a below-market loan if interest is payable at a rate below the applicable Federal rate. A term loan is a below-market loan if the amount of the loan exceeds the present value of all payments due under the loan (determined as of the date of the loan by using a discount rate equal to the applicable Federal rate). For this purpose, a demand loan is any loan which is payable in full at any time upon the demand of the lender and a term loan is any loan which is not a demand loan. With respect to gift loans that are term loans, however, the loan will be treated as a demand loan for income tax purposes and as a term loan for gift tax purposes (sec. 7872(d)(2)).

Land Transfers Between Related Parties

Under section 483 of the Code, a deferred payment contract will generally have unstated interest unless the interest rate provided in the debt instrument is at least equal to the applicable Federal rate. In determining the amount of unstated interest under section 483, a special six percent rate may be substituted for the applicable Federal rate with respect to certain land sales between family members (i.e., "qualified sales") to the extent that the sales price for such sale does not exceed $500,000 (sec. 483(e)). This special safe harbor rate does not apply, however, where any party to the sale is a nonresident alien individual.

Two United States Court of Appeals have recently divided as to whether the special six percent "safe-harbor" rate under section 483(e) could be applied in valuing an installment sales contract for estate and gift tax purposes. Compare *Ballard v. Commissioner*, 854 F.2d 185 (7th Cir. 1988)(holding that six percent rate under section 483(e) could be used for gift tax purposes) with *Krabbenhoft v. Commissioner*, 939 F.2d 529 (8th Cir. 1991)(holding that section 483(e) did not apply for gift tax purposes). See also *Frazee v. Commissioner*, 98 T.C. No. 37 (1992)(which adopts the holding in *Krabbenhoft*).

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment amends section 7872 to provide that the special six percent safe harbor rate under section 483(e) applies for transfer tax purposes to loans made in connection with qualified sales. Accordingly, to the extent that the sales price for a qualified sale to a U.S. citizen or resident does not exceed $500,000, the applicable Federal rate for determining the total foregone interest or whether a loan is a below market loan shall not exceed 6 percent, compounded semiannually. It is not intended that any inference be drawn from the Senate amendment with respect to the application of section 483(e) under present law.

Effective date.—The Senate amendment applies with respect to interest accruing after July 31, 1993.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

N. EXCISE TAX PROVISIONS

1. Fuels tax provisions

a. Consolidate provisions imposing diesel and aviation fuel excise taxes

PRESENT LAW

Code section 4091 imposes a tax on the sale of diesel and aviation fuel by a "producer." The term producer generally includes refiners, compounders, blenders, and wholesalers who are registered with the Internal Revenue Service. The term also includes persons to whom diesel or aviation fuel has been sold tax-free.

As a backup, section 4041 imposes a tax on certain sales or uses of diesel and aviation fuel if a taxable sale of such fuel does not occur under section 4091.

HOUSE BILL

The House bill combines the diesel and aviation fuel tax provisions currently divided between Code sections 4041 and 4091 into a revised section 4091. The use of diesel and aviation fuel in a taxable use by producers will be taxed under section 4091, and the definition of producer is clarified to include purchasers in tax-reduced sales.

The bill also simplifies the Code by eliminating two unnecessary provisions, sections 4041(b)(1)(B) and (j) of the Code. These provisions are redundant.

Effective date.—The provision is effective for sales or uses on or after January 1, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

b. Permit refund of tax to taxpayer for diesel and aviation fuel resold to certain exempt purchasers

PRESENT LAW

As a general matter, purchasers who use tax-paid fuels for an exempt use are entitled to a refund or credit. Purchasers of tax-paid fuels generally are not permitted a refund or credit if they resell the fuels to another person who subsequently uses them in an exempt use.

However, persons who buy and then resell (a) fuel subject to the special motor fuel or gasoline taxes or (b) certain other articles are permitted a refund or credit (in place of the ultimate users claiming the credit or refund) if they resell the fuel or article for use in the following exempt uses: (1) export, (2) supplies for aircraft or vessels, (3) use by a State or local government, or (4) use by a nonprofit educational organization for its exclusive use.

HOUSE BILL

The House bill allows a refund or credit to sellers of diesel and aviation fuel who purchase the fuels tax-paid and re-sell the fuels without payment of tax for any of the four exempt uses described above.

Effective date.—The provision is effective for sales on or after January 1, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

c. Consolidate tax credit and refund provisions for fuel excise taxes

PRESENT LAW

As a general matter, purchasers who use fuels for exempt uses are entitled to a refund if the fuels have been purchased tax-paid. The refund provisions for the fuels excise taxes are found in several sections of the Code.

In general, a purchaser entitled to a refund may file a quarterly refund claim for any of the first three quarters of the purchaser's tax year, if the claim exceeds a threshold dollar amount (with the lowest threshold being $750). The threshold amounts differ for different fuels and different exempt uses. A purchaser cannot file a quarterly claim for refund for its fourth quarter, but must file the claim as a credit on that year's income tax return.

There is an expedited procedure for gasohol blenders claiming a refund of part of the excise tax included in the price of the gasoline used for blending into gasohol.

Finally, only an income tax credit, and not a refund, may be claimed for excise taxes on gasoline and special motor fuel used on a farm for farming purposes.

HOUSE BILL

The House bill consolidates the user credit and refund provisions for the fuels excise taxes into one section of the Code. The bill also combines the three refund procedures for fuels taxes into a uniform refund procedure. The new uniform refund procedure permits an exempt user to aggregate its refund claims for all fuels taxes and file for a refund in any calendar quarter in which the amount of the aggregate claim exceeds $750. The uniform refund procedure also permits such a user to file for a refund for its fourth quarter rather than apply for a credit.

The special expedited procedure for gasohol blenders is unchanged.

Effective date.—The provision is effective for sales on or after January 1, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

d. Repeal waiver requirement for fuel tax refunds for cropdusters and other fertilizer applicators

PRESENT LAW

In general, farmers who use gasoline and aviation fuel on farms are entitled to refunds of the taxes that have been paid on that fuel. Cropdusters and other fertilizer applicators that use gasoline and aviation fuel on farms are entitled to refunds of the taxes paid on that fuel in lieu of the farmers, but only if the owners or operators of the farms waive their right to refunds for such fuel.

HOUSE BILL

The House bill eliminates the waiver requirement for fuels tax refunds for cropdusters and other fertilizer applicators.

Effective date.—The provision is effective for fuels purchased on or after January 1, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

e. Authorize exceptions from information reporting for certain sales of diesel and aviation fuel

PRESENT LAW

Certain producers and importers and purchasers are required to file information returns for reduced-tax sales of diesel and aviation fuel.

HOUSE BILL

The House bill permits the Internal Revenue Service by regulation to provide exceptions to the mandatory information return requirement for certain sales of diesel and aviation fuel.

Effective date.—The provision applies to sales on or after January 1, 1993.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Provisions relating to distilled spirits, wines, and beer

PRESENT LAW

Refund on return to bonded premises of imported bottled distilled spirits

Present law provides that when tax-paid distilled spirits which have been withdrawn from bonded premises of a distilled spirits plant are returned for destruction or redistilling, the excise taxes are refunded (sec. 5008(c)). This provision does not apply to imported bottled distilled spirits because they are withdrawn from customs custody and not from bonded premises.

Bond for exported distilled spirits

Bond generally must be furnished to the Treasury Department when distilled spirits are removed from bonded premises for exportation without payment of tax. These bonds are cancelled or credited when evidence is submitted to the Department of the Treasury that the distilled spirits have been exported (sec. 5175(c)).

Distilled spirits plant records

Distilled spirits plant proprietors are required to maintain records of their production, storage, denaturation, and other processing activities on the premises where the operations covered by the records are carried on (sec. 5207(c)).

Transfers from breweries to distilled spirits plants

Under present law, beer may be transferred without payment of tax from a brewery to a distilled spirits plant to be used in the production of distilled spirits, but only if the brewery is contiguous to the distilled spirits plant (sec. 5222(b)).

Posting of sign by wholesale liquor dealers

Wholesale liquor dealers (i.e., dealers, other than wholesale dealers in beer alone, who sell distilled spirits, wines, or beer to other persons who re-sell such products) are required to post a sign conspicuously on the outside of their place of business indicating that they are wholesale liquor dealers (sec. 5115).

Refund of tax for wine returned to bond

Under present law, when unmerchantable wine is returned to bonded production premises, tax that has been paid is returned or credited to the proprietor of the bonded wine cellar to which the wine is delivered (sec. 5044). In contrast, when beer is returned to a brewery, tax that has been paid is returned or credited, regardless of whether the beer is unmerchantable (sec. 5056(a)).

Use of ameliorating material in certain wines

The Code contains rules governing the extent to which ameliorating material (e.g., sugar) may be added to wines made from high acid fruits and the product still be labelled as a standard, natural wine. In general, ameliorating material may not exceed 35 percent of the volume of juice and ameliorating material combined (sec. 5383(b)(1)). However, wines made exclusively from loganberries, currants, or gooseberries are permitted a volume of ameliorating material of up to 60 percent (sec. 5384(b)(2)(D)).

Domestically produced beer for use by foreign embassies, etc.

Under present law, domestically produced distilled spirits and wine may be removed from bond, without payment of tax, for transfer to any customs bonded warehouse for storage pending removal for the official or family use of representatives of foreign governments or public international organizations (secs. 5066 and 5362(e)). (A similar rule also applies to imported distilled spirits, wine, and beer.) No such provision exists under present law for domestically produced beer.

Withdrawal of beer for destruction

Present law does not specifically permit beer to be removed from a brewery for destruction without payment of tax.

Records of exportation of beer

Present law provides that a brewer is allowed a refund of tax paid on exported beer upon submission to Treasury Department of certain records indicating that the beer has been exported (sec. 5055).

Transfer to brewery of beer imported in bulk

Imported beer brought into the United States in bulk containers may not be transferred from customs custody to brewery premises without payment of tax. Under certain circumstances, distilled spirits imported into the United States in bulk containers may be transferred from customs custody to bonded premises of a distilled spirits plant without payment of tax (sec. 5232).

HOUSE BILL

Return of imported bottled distilled spirits

The procedures for refunds of tax collected on imported bottled distilled spirits returned to bonded premises are conformed to the rules for domestically produced and imported bulk distilled spirits. Thus, refunds are available for all distilled spirits on their return to a bonded distilled spirits plant.

Bond for exported distilled spirits

For purposes of cancelling or crediting bonds furnished when distilled spirits are removed from bonded premises for exportation, the Treasury Department is authorized to permit records of exportation to be maintained by the exporter, rather than requiring submission of proof of exportation to Treasury in all cases.

Distilled spirits plant records

Distilled spirits plant proprietors are permitted to maintain records of their activities at locations other than the premises where the operations covered by the records are carried on (e.g., corporate headquarters), provided that the records are available for inspection by the Treasury Department during business hours.

Transfers from breweries to distilled spirits plants

The House bill allows beer to be transferred without payment of tax from a brewery to a distilled spirits plant to be used in the production of distilled spirits, regardless of whether the brewery is contiguous to the distilled spirits plant. In the case of beer previously removed from a brewery, the House bill also provides that a transfer to a distilled spirits plant may occur without the beer being first retransferred to the brewery.

Posting of sign by wholesale liquor dealers

The requirement that wholesale liquor dealers post a sign outside their place of business indicating that they are wholesale liquor dealers is repealed.

Refund of tax for wine returned to bond

The House bill deletes the requirement that wine returned to bonded premises be "unmerchantable" in order for tax to be refunded to the proprietor of the bonded wine cellar to which the wine is delivered.

Use of ameliorating material in certain wines

The wine labelling restrictions are modified to allow any wine made exclusively from a fruit or berry with a natural fixed acid of 20 parts per thousand or more (before any correction of such fruit or berry) to contain a volume of ameliorating material not in excess of 60 percent.

Domestically produced beer for use by foreign embassies, etc.

The House bill extends to domestically produced beer the present-law rule applicable to domestically produced distilled spirits and wine (and imported distilled spirits, wine, and beer) which permits these products to be withdrawn without payment of tax for the official or family use of representatives of foreign governments or public international organizations.

Withdrawal of beer for destruction

The House bill allows beer to be removed from a brewery without payment of tax for destruction, subject to Treasury Department regulations.

Records of exportation of beer

The House bill repeals the requirement that proof of exportation be submitted to the Treasury Department in all cases as a condition of receiving a refund of tax. This proof will continue to be required to be maintained at the exporter's place of business.

Transfer to brewery of beer imported in bulk

The House bill extends the present-law rule applicable to distilled spirits imported into the United States in bulk containers to beer imported into the United States in bulk containers, so that imported beer may, subject to Treasury regulations, be withdrawn from customs custody for transfer to a brewery without payment of tax.

Effective date

These provisions of the bill generally are effective beginning 180 days after the date of enactment. The provision deleting the requirement that wholesale liquor dealers post a sign outside their place of business is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment

3. Other excise tax provisions

a. Authority for IRS to grant exemptions from registration requirements

PRESENT LAW

Under section 4222, certain sales of articles subject to Federal excise taxes may not be made without payment of tax unless the manufacturer, the first purchaser, and the second purchaser (if any) are all registered under regulations prescribed by the Secretary.

HOUSE BILL

The House bill allows the IRS to provide exemption from generally applicable excise tax registration requirements for certain classes of taxpayers.

Effective date.—The provision applies to sales after the 180th day after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

b. Repeal temporary reduction in tax on piggyback trailers

PRESENT LAW

Piggyback trailers and semitrailers sold within the one-year period beginning on July 18, 1984 were permitted a temporary reduction in the retail excise tax on trailers.

HOUSE BILL

The House bill repeals the temporary reduction in tax on piggyback trailers as "deadwood."

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

c. Expiration of excise tax on deep seabed minerals

PRESENT LAW

The Deep Seabed Mineral Resources Act (the "Resources Act," P.L. 96-283), imposed an excise tax on certain hard minerals mined on the deep seabed. The tax revenues were intended to fund obligations of the United States under a contemplated Law of the Sea Convention.

The tax was scheduled to terminate on the earlier of the date on which a U.N. international deep seabed treaty took effect with respect to the United States, or June 28, 1990 (10 years after the date of enactment of the tax). Because the United States did not sign the treaty, the excise tax provisions expired on June 28, 1990.

HOUSE BILL

The House bill deletes the deep seabed hard minerals excise tax provisions as "deadwood."

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

d. Firearms excise tax exemption for small manufacturers

PRESENT LAW

Present law imposes an 11-percent excise tax on the manufacture or importation of rifles and shotguns and on ammunition (shells and cartridges). Present law also imposes a 10-percent excise tax on the manufacture or importation of pistols and revolvers (sec. 4181).

Revenues from these taxes are appropriated, in the fiscal year following receipt, to the Federal Aid to Wildlife Program for support of State wildlife programs.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment exempts small manufacturers and importers from the 11-percent excise tax on firearms (rifles and shotguns) and ammunition and the 10-percent excise tax on pistols and revolvers, if the manufacturer or importer manufactures or imports fewer than 50 such articles per year.

Effective date.—The provision is effective for articles sold after September 30, 1983. In the case of any taxable year ending before the date of enactment, the period for claiming a credit or refund of any overpayment of tax resulting from the proposed exemption from tax will not expire before one year after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

e. Expanded definition of "wine spirits"

PRESENT LAW

Wine spirits authorized to be used in wine production are defined as brandy or wine spirits produced in a distilled spirits plant exclusively from fruit or fruit residues, wine or wine residues, or subject to Treasury regulations, special natural wines.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment expands the definition of wine spirits to include alcohol produced from whey.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

f. Exemption for certain ferries from excise tax on ship passenger departures

PRESENT LAW

An excise tax of $3 per passenger is imposed on ship passenger departures on a "covered voyage." A covered voyage includes transportation on (1) a commercial passenger vessel which extends over one or more nights, or (2) a commercial vessel transporting passengers engaged in gambling aboard the vessel beyond the territorial waters of the United States (i.e., more than 3 miles from shore), during which passengers embark or disembark the vessel in the United States. The latter circumstances includes such vessels that leave a U.S. port and return the same day.

The tax does not apply to either (1) a voyage on any vessel owned or operated by the United States or a State or local government (e.g., State or local government ferry boats), or (2) a voyage of less than 12 hours between two U.S. ports. A passenger vessel is any vessel having a berth or stateroom accommodations for more than 16 passengers. The tax is imposed only once on a passenger's covered voyage—either upon embarking or disembarking.

The tax on ship passengers was enacted in the Omnibus Budget Reconciliation Act of 1989, effective on January 1, 1990. Revenues from this tax go to the General Fund of the Treasury.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5661 as passed by the House provides the same exemption for certain ferries as does the Senate amendment.)

SENATE AMENDMENT

The Senate amendment expands the current exemption from the ship passenger tax for voyages of less than 12 hours between two U.S. ports to also include ferry boat voyages of less than 12 hours between a port in the United States and a port outside the United States. For this purpose, the term "ferry boat" means any vessel if normally no more than 50 percent of the passengers on any voyage of such vessel return to the port where such voyage began on the first return of such voyage to such port.

Effective date.—The provision generally applies to voyages beginning after December 31, 1989. However, there will be no refunds of tax paid; and if tax has been collected from passengers, it will have to be remitted to the Government.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

g. Application of aircraft fuels excise tax or air passenger and air freight taxes to certain corporate aircraft

PRESENT LAW

Fuels taxes are imposed on fuels used by "noncommercial aviation" aircraft. For aviation gasoline, the tax is 15 cents per gallon, and for nongasoline (jet) fuels, the tax is 17.5 cents per gallon. "Noncommercial aviation" means the use of an aircraft other than in a business of transporting persons or property for compensation or hire. The term also includes the use of an aircraft which is "properly allocable" to any transportation exempt from the air passenger or air freight taxes under sections 4281 of 4282.

Section 4281 exempts small aircraft (maximum certificated takeoff weight of 6,000 pounds or less) from the air passenger and air freight taxes, unless operated on an established line. Under section 4282, the air passenger and air freight taxes do not apply to transportation by air for other members of an "affiliated group" (as defined in sec. 1504(a), without any exclusions under sec. 1504(b)). In such cases where the air passenger or air freight taxes do not apply, the aircraft is subject to the fuels tax applicable to noncommercial aviation.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies the application of the aviation excise taxes to business aircraft used by corporate affiliated groups to require the Internal Revenue Service to apply the applicable taxes on a flight-by-flight basis for an affiliated group as for a stand alone corporation.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

O. COMPLIANCE PROVISIONS

1. General administrative provisions

a. Simplify employment tax reporting for household employees

PRESENT LAW

An employer who pays a household employee wages of $50 or more in a calendar quarter for household work must withhold social security taxes (including medicare taxes) from wages paid to the employee during the quarter. The employer must also pay an amount of tax that matches the tax withheld from the employee's wages. The employer must file an Employer's Quarterly Tax Return (Form 942) each quarter and a Wage and Tax Statement (Form W-2) at the end of the year.

In addition, an employer must pay Federal unemployment taxes if he or she paid cash wages to household employees totalling $1,000 or more in a calendar quarter in the current or preceding year. The employer must file an Employer's Annual Federal Unemployment Tax Return (Form 940 or Form 940-EZ) at the end of the year.

HOUSE BILL

The House bill changes the threshold for withholding and paying social security taxes with respect to domestic service employment from $50 a quarter to $300 a year. The bill requires an individual who employs only household employees (regardless of the amount of the remuneration) to report any social security or Federal unemployment tax obligation for wages paid to such employees on his or her income tax return for the year. The bill includes a household employer's social security and unemployment taxes in the estimated tax provisions. The bill also authorizes the Secretary to enter into agreements with States to collect State unemployment taxes in the same manner.

Effective date.—The provision is effective for remuneration paid in calendar years beginning after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as House bill. In addition, the Senate amendment provides general regulatory authority to the Treasury Department.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

b. Clarify that reproductions from digital images are reproductions for recordkeeping purposes

PRESENT LAW

Reproductions of a return, document, and certain other matters have the same legal status as the original for purposes of judicial and administrative proceedings. It is unclear whether reproductions made from digital images are also accorded the same legal status as originals.

HOUSE BILL

The House bill provides that the term reproduction includes a reproduction from a digital image. The bill also requires the Comptroller General to conduct a study of available digital image technology for the purpose of determining the extent to which reproductions of documents stored using that technology accurately reflect the data on the original document and the appropriate period for retaining the original document.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

c. Repeal of authority to disclose whether a prospective juror has been audited

PRESENT LAW

In connection with a civil or criminal tax proceeding to which the United States is a party, the Secretary must disclose, upon the written request of either party to the lawsuit, whether an individual who is a prospective juror has or has not been the subject of an audit or other tax investigation by the Internal Revenue Service (sec. 6103(h)(5)).

HOUSE BILL

The House bill repeals the requirement that the Secretary disclose, upon the written request of either party to the lawsuit, whether an individual who is a prospective juror has or has not been the subject of an audit or other tax investigation by the Internal Revenue Service.

Effective date.—The provision is effective for judicial proceedings pending on, or commenced after, the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

d. Repeal TEFRA audit rules for S corporations

PRESENT LAW

An S corporation generally is not subject to income tax on its taxable income. Instead, it files an information return and the shareholders report their pro rata share of the S corporation's income and deductions on their own tax returns.

The Subchapter S Revision Act of 1982 generally made the TEFRA partnership audit and litigation rules applicable to S corporations. These rules require the determination of all "Subchapter S items" at the corporate, rather than the shareholder, level. These rules also require a shareholder to report all Subchapter S items consistently with the corporation's information return or to notify the IRS of any inconsistency. Temporary regulations contain an exception from these rules for "small S corporations," i.e., those with five or fewer shareholders, each of whom is a natural person or an estate.

HOUSE BILL

The House bill repeals the unified audit procedures for S corporations. The bill retains, however, the requirement that shareholders report items in a manner consistent with the corporation's return.

Effective date.—The provision is effective for taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

e. Clarify statute of limitations for items from passthrough entities

PRESENT LAW

Passthrough entities (such as S corporations, partnerships, and certain trusts) generally are not subject to income tax on their taxable income. Instead, these entities file information returns and the entities' shareholders (or beneficial owners) report their pro rata share of the gross income and are liable for any taxes due.

Some believe that present law may be unclear as to whether the statute of limitations for adjustments that arise from distributions from passthrough entities should be applied at the entity or individual level (i.e., whether the 3-year statute of limitations for assessments runs from the time that the entity files its information return or from the time that a shareholder timely files his or her income tax return). (Compare *Fehlhaber v. Comm.*, 94 TC 863 (1990) and *Alan F. Bartol, et ux. v. Commissioner*, T.C. Memo 1992-141, with *Kelly v. Comm.*, 877 F.2d 7567 (9th Cir. 1989)).

HOUSE BILL

The House bill clarifies that the return that starts the running of the statute of limitations for a taxpayer is the return of the taxpayer and not the return of another person from whom the taxpayer has received an item of income, gain, loss, deduction, or credit. The provision is not intended to create any inference as to the proper interpretation of present law.

Effective date.—The provision is effective for taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

f. Simplify estimated tax payment rules for small corporations

PRESENT LAW

A corporation is subject to an addition to tax for any underpayment of estimated tax. A corporation does not have an underpayment of estimated tax if it makes four timely estimated tax payments each equal to at least 22.5 percent of its tax liability for the current taxable year. In addition, a corporation that is not a "large corporation" may avoid the addition to tax if it makes four timely estimated tax payments each equal to at least 25 percent of its tax liability for the preceding taxable year, so long as the preceding year was not a short taxable year and corporation filed a return showing a tax liability for such year. A large corporation may use this second rule only with respect to its estimated tax payment for the first quarter of its current taxable year. A large corporation is one that had taxable income of $1 million or more for any of the three preceding taxable years.

HOUSE BILL

The House bill provides that a small corporation (i.e., a corporation that is not a "large corporation" under present law) with no tax liability in the preceding taxable year may avoid the addition to tax if it makes four timely estimated tax payments each equal to at least 25 percent of its tax liability for the second preceding taxable year. This rule will apply so long as (1) neither the preceding taxable year nor the second preceding taxable year was a short tax year, and (2) the corporation filed tax returns for both years. If the corporation satisfies these two requirements and did not have a tax liability for either of the two preceding taxable years, the corporation will not be required to make estimated tax payments for the current taxable year.

A large corporation may use this expanded safe harbor with respect to its estimated tax payment for the first quarter of its taxable year, as under present law. In addition, as under present law, a small corporation may continue to use the current taxable year rule for estimated tax purposes.

Effective date.—The provision is effective for taxable years beginning after the date of enactment of this Act.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

g. Interest rate on large corporate underpayments

PRESENT LAW

The interest rate on a large corporate underpayment of tax is the Federal short-term rate plus five percentage points. A large corporate underpayment is any underpayment by a subchapter C corporation of any tax imposed for any taxable period, if the amount of such underpayment for such period exceeds $100,000. The large corporate underpayment rate generally applies to periods beginning 30 days after the earlier of the date on which the first letter of proposed deficiency, a statutory notice of deficiency, or a nondeficiency letter or notice of assessment or proposed assessment is sent. For this purpose, a letter or notice is disregarded if the taxpayer makes a payment equal to the amount shown on the letter or notice within that 30 day period.

HOUSE BILL

For purposes of determining the period to which the large corporate underpayment rate applies, any letter or notice will be disregarded if the amount of the deficiency, proposed deficiency, assessment, or proposed assessment set forth in the letter or notice is not greater than $100,000 (determined by not taking into account any interest, penalties, or additions to tax).

Effective date.—The provision is effective for purposes of determining interest for periods after December 31, 1990.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

2. Tax Court provisions

a. Clarify jurisdiction of Tax Court with respect to overpayment determinations

PRESENT LAW

The Tax Court may order the refund of an overpayment determined by the Court, plus interest, if the IRS fails to refund such overpayment and interest within 120 days after the Court's decision becomes final. Whether such an order is appealable is uncertain.

In addition, it is unclear whether the Tax Court has jurisdiction over the validity or merits of certain credits or offsets (e.g., providing for collection of student loans, child support, etc.) made by the IRS that reduce or eliminate the refund to which the taxpayer was otherwise entitled.

HOUSE BILL

The House bill clarifies that an order to refund an overpayment is appealable in the same manner as a decision of the Tax Court. The bill also clarifies that the Tax Court does not have jurisdiction over the validity or merits of the credits or offsets that reduce or eliminate the refund to which the taxpayer was otherwise entitled.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

b. Clarify procedures for administrative cost awards

PRESENT LAW

Any person who substantially prevails in any action brought by or against the United States in connection with the determination, collection, or refund of any tax, interest, or penalty may be awarded reasonable administrative costs incurred before the IRS and reasonable litigation costs incurred in connection with any court proceeding.

No time limit is specified for the taxpayer to apply to the IRS for an award of administrative costs. In addition, no time limit is specified for a taxpayer to appeal to the Tax Court an IRS decision denying an award of administrative costs. Finally, the procedural rules for adjudicating a denial of administrative costs are unclear.

HOUSE BILL

The House bill provides that a taxpayer who seeks an award of administrative costs must apply for such costs within 90 days of the date on which the taxpayer was determined to be a prevailing party. The bill also provides that a taxpayer who seeks to appeal an IRS denial of an administrative cost award must petition the Tax Court within 90 days after the date that the IRS mails the denial notice.

The bill clarifies that dispositions by the Tax Court of petitions relating only to administrative costs are to be reviewed in the same manner as other decisions of the Tax Court.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill (with a technical correction).

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment (including the Senate technical correction).

c. Clarify Tax Court jurisdiction over interest determinations

PRESENT LAW

A taxpayer may seek a redetermination of interest after certain decisions of the Tax Court have become final by filing a petition with the Tax Court.

HOUSE BILL

The House bill provides that a taxpayer must file a "motion" (rather than a "petition") to seek a redetermination of interest in the Tax Court.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

d. Clarify net worth requirements for awards of administrative or litigation costs

PRESENT LAW

Any person who substantially prevails in any action brought by or against the United States in connection with the determination, collection, or refund of any tax, interest, or penalty may be awarded reasonable administrative costs incurred before the IRS and reasonable litigation costs incurred in connection with any court proceeding.

A person who substantially prevails must meet certain net worth requirements to be eligible for an award of administrative or litigation costs. In general, only an individual whose net worth does not exceed $2,000,000 is eligible for an award, and only a corporation or partnership whose net worth does not exceed $7,000,000 is eligible for an award. (The net worth determination with respect to a partnership or S corporation applies to all actions that are in substance partnership actions or S corporation actions, including unified entity-level proceedings under sections 6226 or 6228, that are nominally brought in the name of a partner or a shareholder.)

HOUSE BILL

The House bill provides that the net worth limitations currently applicable to individuals also apply to estates and trusts. The bill also provides that individuals who file a joint tax return shall be treated as one individual for purposes of computing the net worth limitations. Consequently, the net worths of both spouses are aggregated for purposes of this computation. An exception to this rule is provided in the case of a spouse otherwise qualifying for innocent spouse relief.

Effective date.—The provision applies to proceedings commenced after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Permit IRS to enter into cooperative agreements with state tax authorities

PRESENT LAW

The IRS is generally not authorized to provide services to non-Federal agencies even if the cost is reimbursed (62 Comp. Gen. 323,335 (1983)).

HOUSE BILL

The House bill provides that the Secretary is authorized to enter into cooperative agreements with State tax authorities to enhance joint tax administration. These agreements may include (1) joint filing of Federal and State income tax returns, (2) single processing of these returns, and (3) joint collection of taxes (other than Federal income taxes).

The bill provides that these agreements may require reimbursement for services provided by either party to the agreement. Any funds appropriated for tax administration may be used to carry out the responsibilities of the IRS under these agreements, and any reimbursement received under an agreement shall be credited to the amount appropriated.

No agreement may be entered into that does not provide for the protection of confidentiality of taxpayer information that is required by section 6103.

Effective date.—This provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

4. Other compliance provisions

a. Extension of authority for IRS undercover operations

PRESENT LAW

The Anti-Drug Abuse Act of 1988 exempted IRS undercover operations from certain statutory restrictions controlling the use of Government funds (which generally provide that all receipts be deposited in the general fund of the Treasury and all expenses be paid out of appropriated funds). In general, the exemption permits the IRS to "churn" the income earned by an undercover operation to pay additional expenses incurred in the undercover operation. The IRS is required to conduct a detailed financial audit of large undercover operations in which the IRS is churning funds and to provide an annual audit report to the Congress on all such large undercover operations. The exemption originally expired on December 31, 1989 and was extended by the Comprehensive Crime Control Act of 1990 to December 31, 1991.

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment extends the IRS's offset authority under section 7608(c) for three years, until September 1, 1995. The amendment also modifies the IRS's annual audit responsibility to cover any undercover operation (whether large or small) which involves offsetting under section 7608(c). Under the amendment, the requirements for the IRS annual audit report to Congress have been enhanced to also include the following data: (i) the date the operation was initiated, (ii) the total current expenditures and the amount and use of proceeds of the operation, (iii) a description of the undercover operation projected to generate proceeds, including the potential violation being investigated, and (iv) the results of the operation to date, including the results of criminal proceedings.

Effective date.—The provision is effective on January 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

b. Disclosure of returns on cash transactions

PRESENT LAW

Tax returns and return information are generally confidential, and may not be disclosed without statutory authorization (sec. 6103). Unauthorized disclosure is punishable by a fine, prison sentence or private lawsuit.

Under section 6050I, any person who receives more than $10,000 in cash in one transaction (or two or more related transactions) in the course of a trade or business generally must file an information return (Form 8300) with the IRS specifying the name, address, and taxpayer identification number of the person from whom the cash was received and the amount of cash received.

The Anti-Drug Abuse Act of 1988 provided a special rule permitting the IRS to disclose these information returns to other Federal agencies, for the purpose of administering Federal criminal statutes. The special rule originally was to expire after November 18, 1990 and was extended by the Comprehensive Crime Control Act of 1990 to November 18, 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment extends permanently the special rule for disclosing Form 8300 information. Moreover, the amendment permits disclosures not only to federal agencies but also to state, local and foreign agencies and for civil, criminal and regulatory purposes (i.e. generally in the same manner as CTRs filed by financial institutions under the Bank Secrecy Act.) Disclosure, however, may not be made to any such agency for purposes of tax administration. The amendment also (i) extends the dissemination policies and guidelines under section 6103 to people having access to Form 8300 information and (ii) applies section 6103 sanctions to persons having access to Form 8300 information that disclose this information without proper authorization.

Effective date.—The provision is effective on the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

c. Authority to accept signature alternatives

PRESENT LAW

In general, any return, statement, or other document required to be made under any provision of the internal revenue laws shall be signed in the manner required by the Secretary.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment permits the Secretary, on a trial basis, to provide for alternative methods for verifying, signing, and subscribing returns, declarations, statements, or other documents. Any return, declaration, statement, or other document verified, signed, or subscribed under any alternative method adopted by the Secretary shall be treated for all purposes in the same manner as verified by a handwritten signature. The amendment also requires that both IRS and GAO report to the Congress on the results of any trials conducted under this provision by December 31, 1995.

Effective date.—The authority is effective for 1993 through 1997.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the authority to conduct these trials is effective for 1993 through 1995. An additional report on the results of any trials must also be supplied by the Office of Technology Assessment. All of the reports are due by December 31, 1994.

V. TAXPAYER BILL OF RIGHTS 2

A. TAXPAYER ADVOCATE

1. Establishment of Position of Taxpayer Advocate Within Internal Revenue Service

PRESENT LAW

The Office of the Taxpayer Ombudsman was created by the IRS in 1979. The Taxpayer Ombudsman's duties are to serve as the primary advocate, within the IRS, for taxpayers. As the taxpayers' advocate, the Taxpayer Ombudsman participates in an ongoing review of IRS policies and procedures to determine their impact on taxpayers, receives ideas from the public concerning tax administration, identifies areas of the tax law that confuse or create an inequity for taxpayers, and supervises cases handled under the Problem Resolution Program. Under current procedures, the Taxpayer Ombudsman is selected by the Commissioner of the IRS and serves at his discretion.

HOUSE BILL

The House bill establishes a new position, Taxpayer Advocate, within the IRS. This replaces the position of Taxpayer Ombudsman. The Taxpayer Advocate is to be nominated by the President, by and with the advice and consent of the Senate. The Taxpayer Advocate reports directly to the Commissioner. Compensation of the Taxpayer Advocate is at a level equal to that of the IRS Chief Counsel.

The House bill also establishes the Office of Taxpayer Advocate within the IRS. All problem resolution officers are part of that office, and are under the supervision and direction of the Taxpayer Advocate. The functions of the office are (1) to assist taxpayers in resolving problems with the IRS, (2) to identify areas in which taxpayers have problems in dealings with the IRS, (3) to propose changes (to the extent possible) in the administrative practices of the IRS that will mitigate those problems, and (4) to identify potential legislative changes that may mitigate those problems.

The Taxpayer Advocate is required to make two annual reports to the tax-writing committees. The first report is to contain the objectives of the Taxpayer Advocate for the next calendar year. This report is to contain full and substantive analysis, in addition to statistical information. This report is due not later than October 31 of each year.

The second report is on the activities of the Taxpayer Advocate during the previous fiscal year. The report must identify the initiatives the Taxpayer Advocate has taken to improve taxpayer services and IRS responsiveness, contain recommendations received from individuals who have the authority to issue a TAO, contain a summary of at least 20 of the most serious problems which taxpayers have in dealing with the IRS, describe in detail the progress made in implementing these recommendations, include recommendations for such administrative and legislative action as may be appropriate to resolve such problems, and to include other such information as the Taxpayer Advocate may deem advisable. The Commissioner is required to establish internal procedures that will ensure a formal IRS response to all recommendations submitted to the Commissioner by the Taxpayer Advocate.

Effective date.—The provision is effective on the date of enactment. The first annual reports of the Taxpayer Advocate are due in 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that: (1) the political appointment of the Taxpayer Advocate is eliminated, (2) the annual report regarding the Taxpayer Advocate's activities is due no later than June 30 of each year, and (3) the first annual reports are due in 1993, rather than 1992.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that (1) the annual report regarding the Taxpayer Advocate's activities is due no later than June 30 of each year, and (2) the first annual reports are due in 1993, rather than 1992. The reports of the Taxpayer Advocate shall be provided directly to the tax-writing committees without prior review or comment from the Commissioner of IRS, Department of the Treasury, or the Office of Management and Budget.

2. Expansion of Authority to Issue Taxpayer Assistance Orders

PRESENT LAW

Section 7811(a) authorizes the Taxpayer Ombudsman to issue a Taxpayer Assistance Order (TAO). TAOs may order the release of taxpayer property levied upon by the IRS and may require the IRS to cease any action, or refrain from taking any action if, in the determination of the Taxpayer Ombudsman, the taxpayer is suffering or about to suffer a significant hardship as a result of the manner in which the internal revenue laws are being administered.

HOUSE BILL

The House bill provides the Taxpayer Advocate with broader authority to affirmatively take any action with respect to taxpayers who would otherwise suffer a significant hardship as a result of the manner in which the IRS is administering the tax laws. For example, the Taxpayer Advocate's scope of power will specifically include (i) the authority to abate assessments, (ii) grant or expedite refund requests, and (iii) stay collection activity. The House bill also provides that a TAO may specify a time period within which the TAO must be followed. Finally, the House bill provides that only the Taxpayer Advocate, the Commissioner of the IRS, or a superior of those two positions, as well as a delegate of the Taxpayer Advocate, may modify or rescind a TAO.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that it specifically limits the actions which may be taken by the Taxpayer Advocate to those "permitted by law."

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The Taxpayer Advocate is not intended to have the power to make determinations concerning the substantive tax treatment of any item.

B. MODIFICATIONS TO INSTALLMENT AGREEMENT PROVISIONS

1. Notification of Reasons for Termination or Denial of Installment Agreements

PRESENT LAW

Section 6159 authorizes the IRS to enter into written installment agreements with taxpayers to facilitate the collection of tax liabilities. In general, the IRS has the right to terminate (or in some instances, alter or modify) such agreements if the taxpayer provided inaccurate or incomplete information before the agreement was entered into, if the taxpayer fails to make a timely payment of an installment or another tax liability, if the taxpayer fails to provide the IRS with a requested update of financial condition, if the IRS determines that the financial condition of the taxpayer has changed significantly, or if the IRS believes collection of the tax liability is in jeopardy. If the IRS determines that the financial condition of a taxpayer that has entered into an installment agreement has changed significantly, the IRS must provide the taxpayer with a written notice that explains the IRS determination at least 30 days before altering, modifying or terminating the installment agreement. No notice is statutorily required if the installment agreement is altered, modified, or terminated for other reasons.

HOUSE BILL

The House bill requires the IRS to notify taxpayers 30 days before altering, modifying, or terminating any installment agreement for any reason other than that the collection of tax is determined to be in jeopardy. The IRS must include in the notification an explanation of why the IRS intends to take this action. The House bill also requires that the IRS notify taxpayers 30 days before denying any installment agreement for any reason other than that the collection of tax is determined to be in jeopardy.

Effective date.—The provision is effective six months after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. The conferees intend that notice of denial of an installment agreement be given to a taxpayer so that the taxpayer can discuss the denial with the IRS before it is formalized. Any insufficiency in the explanation of the denial has no effect on the availability of an installment agreement to the taxpayer.

2. Administrative Review of Denial of Requests for, or Termination of, Installment Agreements

PRESENT LAW

A taxpayer whose request for an installment agreement is denied can appeal to successively higher levels of Collection Division management, including the District Director. The IRS is currently testing an appeal process for various collection actions, including installment agreements, that will permit taxpayers to appeal these collection actions to Appeals Division personnel.

HOUSE BILL

The House bill requires the IRS to establish additional procedures for administrative review of denials of requests for installment agreements and terminations of installment agreements.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the effective date is January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Running of Failure to Pay Penalty Suspended During the Period an Installment Agreement is in Effect

PRESENT LAW

Section 6651 provides that a taxpayer is liable for a "failure to pay" penalty on late payments of tax. The penalty is imposed on the unpaid tax at the rate of one-half percent per month up to a maximum of 25 percent. The penalty applies to unpaid amounts without regard to whether the taxpayer is making payments pursuant to an installment agreement.

HOUSE BILL

The House bill suspends the application of the failure to pay penalty with respect to taxpayers who have installment agreements in effect and are meeting the conditions of the agreements.

Effective date.—The provision is effective for installment agreements entered into after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not adopt the House bill provision.

C. INTEREST

1. Expansion of Authority to Abate Interest

PRESENT LAW

Any assessment of interest on any deficiency attributable in whole or in part to any error or delay by an officer or employee of the IRS (acting in his official capacity) in performing a ministerial act may be abated.

HOUSE BILL

The House bill expands the authority of the IRS to abate interest with respect to managerial acts, as well as ministerial acts.

Effective date.—The provision applies to interest accruing with respect to deficiencies or payments for taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment permits the Internal Revenue Service to abate interest with respect to any unreasonable error or delay by an officer or employee of the IRS. Only taxpayers who meet the net worth requirements referenced in section 7430(c)(4)(A)(iii) are eligible for interest abatement. The Senate amendment has the same effective date as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with respect to the addition of managerial acts, and follows the Senate amendment with respect to requiring that the error or delay be unreasonable. For purposes of this provision, "unreasonable" managerial or ministerial acts would include extensive delays resulting from: the loss of records by the IRS, IRS personnel transfers, extended illnesses, extended personnel training, or extended leave.

2. Extension of Interest-Free Period for Payment of Tax After Notice and Demand

PRESENT LAW

In general, a taxpayer must pay interest on late payments of tax. An interest-free period of ten days is provided to taxpayers who pay the tax due within ten days of notice and demand.

HOUSE BILL

The House bill extends the interest-free period provided to taxpayers for the payment of the tax liability reflected in the notice from 10 days to 21 days, provided that the total tax liability shown on the notice of deficiency is less than $100,000.

Effective date.—The provision applies in the case of any notice and demand given after the date six months after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that a conforming amendment is made to section 6651(a)(3) to reflect the 21 day interest-free period.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except (1) for a technical modification to section 6651(a)(3) and (2) the provision applies to any notice and demand given after June 30, 1993.

D. JOINT RETURNS

1. Disclosure of Collection Activities With Respect to Joint Returns

PRESENT LAW

The IRS does not disclose collection information to spouses that have filed a joint return.

HOUSE BILL

If a tax deficiency with respect to a joint return is assessed, and the individuals filing the return are no longer married or no longer reside in the same household, the House bill permits the IRS to disclose in writing (in response to a written request by one of the individuals) to that individual whether the IRS has attempted to collect the deficiency from the other individual, the general nature of the collection activities, and the amount (if any) collected.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Joint Return May Be Made After Separate Returns Without Full Payment of Tax

PRESENT LAW

Taxpayers who file separate returns and subsequently determine that their tax liability would have been less if they had filed a joint return are precluded by statute from reducing their tax liability by filing jointly if they are unable to pay the entire amount of the joint return liability before the expiration of the three-year period for making the election to file jointly.

HOUSE BILL

The House bill repeals the requirement of full payment of tax liability as a precondition to switching from married filing separately status to married filing jointly status.

Effective date.—The provision applies to taxable years beginning after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

E. COLLECTION ACTIVITIES

1. Modifications to Lien and Levy Provisions

i. Withdrawal of public notice of lien

PRESENT LAW

The IRS must file a notice of lien in the public record, in order to protect the priority of a tax lien. A notice of tax lien provides public notice that a taxpayer owes the Government money. The IRS has discretion in filing such a notice, but may withdraw a filed notice only if the notice (and the underlying lien) was erroneously filed or if the underlying lien has been paid, bonded, or become unenforceable.

HOUSE BILL

The House bill allows the IRS to withdraw a public notice of tax lien prior to payment in full by the indebted taxpayer if the Secretary determines that (1) the filing of the notice was premature or otherwise not in accordance with the administration procedures of the IRS, (2) the taxpayer has entered into an installment agreement to satisfy the tax liability with respect to which the lien was filed, (3) the withdrawal of the lien will facilitate collection of the tax liability, or (4) the withdrawal of the lien would be in the best interests of the taxpayer and the United States (with the consent of the taxpayer or the Taxpayer Advocate). The House bill also requires that, at the written request of the taxpayer, the IRS make reasonable efforts to give notice of the withdrawal of a lien to credit reporting agencies or financial institutions specified by the taxpayer.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that (1) the best interests of the taxpayer would be determined by the Taxpayer Advocate, (2) a copy of the notice of withdrawal must be provided to the taxpayer, (3) creditors are also included as parties to whom notices must be sent (if specified by the taxpayer), and (4) notices are only required to be sent to financial institutions and creditors if their addresses have been supplied by the taxpayer to the IRS.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

ii. Return of levied property

PRESENT LAW

The IRS is authorized to return levied property to a taxpayer only when the taxpayer has overpaid its liability to tax, interest, and penalty.

HOUSE BILL

The House bill allows the IRS to return property (including money deposited in the Treasury) that has been levied upon if the Secretary determines that (1) the levy was premature or otherwise not in accordance with the administrative procedures of the IRS, (2) the taxpayer has entered into an installment agreement to satisfy the tax liability, (3) the return of the property will facilitate collection of the tax liability, or (4) the return of the property would be in the best interests of the taxpayer and the United States (with the consent of the taxpayer or the Taxpayer Advocate).

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the determination whether the return of property would be in the best interests of the taxpayer is determined by the Taxpayer Advocate.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

iii. Modifications in certain levy exemption amounts

PRESENT LAW

Property exempt from levy includes personal property with a value of up to $1,650, and books and tools necessary for the taxpayer's trade, business, or profession with a value of up to $1,100.

HOUSE BILL

The House bill increases the exemption amounts to $1,700 for personal property and $1,200 for books and tools. Both these amounts are indexed for inflation commencing with calendar year 1994.

Effective date.—The provision is effective with respect to levies issued after December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that indexing commences on January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

2. Offers-in-Compromise

PRESENT LAW

The IRS has the authority to settle a tax debt pursuant to an offer-in-compromise. IRS regulations provide that such offers can be accepted if the taxpayer is unable to pay the full amount of the tax liability and it is doubtful that the tax, interest, and penalties can be collected, or there is doubt as to the validity of the actual tax liability. Amounts over $500 can only be accepted if the reasons for the acceptance are documented in detail and supported by an opinion of the IRS Chief Counsel.

HOUSE BILL

The House bill allows acceptance of an offer-in-compromise where the compromise would be in the best interest of the Government. The House bill also increases from $500 to $50,000 the amount requiring a written opinion from the Office of Chief Counsel. Compromises below the $50,000 threshold must be subject to continuing quality review by the IRS.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Notification of Examination

PRESENT LAW

In general, the IRS notifies taxpayers in writing prior to commencing an examination and encloses a copy of Publication 1, "Your Rights as a Taxpayer," with the notice. Sometimes, however, the IRS uses the telephone to schedule an examination.

HOUSE BILL

The House bill requires the IRS to notify a taxpayer in writing prior to commencing an examination under all subtitles of the Code and to provide the taxpayer with an explanation of the examination process prior to commencing the examination. Such notice will include an explanation of the process as described in section 7521. The House bill exempts from this requirement any examination with respect to which the Secretary determines (1) that it is in connection with a criminal investigation, (2) that the collection of the tax is in jeopardy, (3) that the requirements are inconsistent with national security needs, or (4) that the requirements would interfere with the effective conduct of a confidential law enforcement or foreign counterintelligence activity.

Effective date.—The House bill is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. This provision does not preclude the IRS from using the telephone to attempt to schedule an examination, so long as the written notice required by this provision has previously been given.

4. Modification of Certain Limits on Recovery of Civil Damages for Unauthorized Collection Activities

PRESENT LAW

A taxpayer may sue the United States for up to $100,000 of damages caused by an officer or employee of the IRS who, with respect to the collection of any Federal tax with respect to the taxpayer, recklessly or intentionally disregards provisions of the Code or the Treasury regulations promulgated thereunder.

HOUSE BILL

The House bill increases the cap to $1 million with respect to reckless or intentional acts.

Effective date.—The provision applies to actions by IRS employees that occur after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that it permits a taxpayer to sue the United States for up to $100,000 of damages caused by an IRS employee who, with respect to the collection of any Federal tax with respect to the taxpayer, negligently disregards the provisions of the Code or the Treasury regulations promulgated thereunder.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

5. Designated Summons

PRESENT LAW

The period for assessment of additional tax with respect to most tax returns, corporate or otherwise, is three years. The IRS and the taxpayer can together agree to extend the period, either for a specified period of time or indefinitely. The taxpayer may terminate an indefinite agreement to extend the period by providing notice to the IRS.

During an audit, the IRS may informally request that the taxpayer provide additional information necessary to arrive at a fair and accurate audit adjustment, if any adjustment is warranted. Not all taxpayers cooperate by providing the requested information on a timely basis. In some cases the IRS seeks information by issuing an administrative summons. Such a summons will not be judicially enforced unless the Government (as a practical matter, the Department of Justice) seeks and obtains an order for enforcement in Federal court. In addition, a taxpayer may petition the court to quash an administrative summons where this is permitted by statute.[1]

In certain cases, the running of the assessment period is suspended during the period when the parties are in court to obtain or avoid judicial enforcement of an administrative summons. Such a suspension is provided in the case of litigation over a third-party summons (sec. 7609(e)) or litigation over a summons regarding the examination of a related party transaction. Such a suspension can also occur with respect to a corporate tax return if a summons is issued at least 60 days before the day on which the assessment period (as extended) is scheduled to expire. In this case, suspension is only permitted if the summons clearly states that it is a "designated summons" for this purpose. Only one summons may be treated as a designated summons for purposes of any one tax return. The limitations period is suspended during the judicial enforcement period of the designated summons and of any other summons relating to the same tax return that is issued within 30 days after the designated summons is issued.

Under current internal procedures of the IRS, no designated summons is issued unless first reviewed by the Office of Chief Counsel to the IRS, including review by an IRS Deputy Regional Counsel for the Region in which the examination of the corporation's return is being conducted.

HOUSE BILL

The House bill requires that issuance of any designated summons with respect to a corporation's tax return must be preceded by review of such issuance by the Regional Counsel, Office of Chief Counsel to the IRS, for the Region in which the examination of the corporation's return is being conducted.

In addition, the House bill requires that the corporation whose return is in issue be promptly notified in writing in any case where the Secretary issues a designated summons (or another summons, the litigation over which suspends the running of the assessment period under the designated summons procedure) to a third party.

Effective date.—The provision applies to summonses issued after date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. The conferees expect that the IRS generally will meet the notice requirement by issuing a notice to the corporation on the same day that it issues the summons, and by transmitting such notice to the corporation in a manner reasonably designed to bring it to the prompt attention of an agent of the corporation responsible for communicating with the IRS in connection with the examination. The conferees do not intend the notice requirement to imply that any summons issued to an unrelated third party, the purpose of which is to obtain information regarding comparable transactions involving unrelated parties, would require disclosure to the taxpayer of any information relating to the unrelated third party that would otherwise remain confidential under any other provision of the law.

F. INFORMATION RETURNS

1. Phone Numbers of Person Providing Payee Statement Required to be Shown on Such Statement

PRESENT LAW

Information returns must contain the name and address of the payor.

HOUSE BILL

The House bill requires that information returns contain the name, address, and phone number of the payor's information contact.

Effective date.—The provision applies to statements required to be furnished after December 31, 1992 (determined without regard to any extension).

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment, except that the provision applies to statements required to be furnished after December 31, 1993 (determined without regard to any extension). A payor shall have the option of providing the payor's main office address, and the name and phone number of the department with the relevant information. The conferees intend that the telephone number provide direct access to individuals with immediate resources to resolve a taxpayer's questions in an expeditious manner.

2. Civil Damages for Fraudulent Filing of Information Returns

PRESENT LAW

Federal law provides no private cause of action to a taxpayer who is injured because a false or fraudulent information return has been filed with the IRS asserting that payments have been made to the taxpayer.

HOUSE BILL

The House bill provides that, if any person willfully files a false or fraudulent information return with respect to payments purported to have been made to another person, the other person may bring a civil action for damages against the person filing that return. Recoverable damages are limited to the greater of $5,000 or the amount of actual damages (including the costs of the action). An action seeking damages under this provision must be brought within six years after the filing of the false or fraudulent information return.

Effective date.—The provision applies to false or fraudulent information returns filed after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that (1) a copy of the complaint initiating the action must be provided to the IRS, (2) the court must specify in its judgment the correct amount (if any) that should have been reported on the information return, and (3) an action seeking damages under this provision must be brought within four years after the filing of the false or fraudulent information return, or one year after the false or fraudulent information would have been discovered by the exercise of reasonable care, whichever is later.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Requirement to Verify Accuracy of Information Returns

PRESENT LAW

Deficiencies determined by the IRS are generally afforded a presumption of correctness.

HOUSE BILL

The House bill provides that, in any court proceeding, if a taxpayer asserts a reasonable dispute with respect to any item of income reported on an information return (Form 1099) filed by a third party and the taxpayer has fully cooperated with the IRS, the Government must, in presenting evidence of the deficiency based on the information return, present reasonable evidence of the deficiency (in addition to the information return itself). One way in which the taxpayer must cooperate with the IRS is to bring the reasonable dispute over the item of income to the attention of the IRS at the earliest possible time.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that (1) the Secretary must present "reasonable and probative information" concerning the deficiency (rather than "reasonable evidence"), (2) full cooperation is defined to include providing timely access to and inspection of all witnesses, information, and documents within the control of the taxpayer which are reasonably requested by the IRS, and (3) the citation to information returns is made more specific.

---

[1] Petitions to quash are permitted, for example, in connection with the examination of certain related party transactions under section 6038A(e)(4), and in the case of certain third-party summonses under section 7609(b)(2).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

G. MODIFICATIONS TO PENALTY FOR FAILURE TO COLLECT AND PAY OVER TAX

1. Preliminary Notice Requirements

PRESENT LAW

A "responsible person" is subject to a penalty equal to the amount of trust fund taxes that are not collected or paid to the government on a timely basis. An individual the IRS has identified as a responsible person is permitted an administrative appeal on the question of responsibility.

HOUSE BILL

The House bill requires the IRS to issue a notice to an individual the IRS had determined to be a responsible person with respect to unpaid trust fund taxes at least 60 days prior to issuing a notice and demand for the penalty. The statute of limitations shall not expire before the date 60 days after the date on which the notice was mailed. The provision does not apply if the Secretary finds that the collection of the penalty is in jeopardy.

Effective date.—The provision applies to failures occurring after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the statute of limitations shall not expire before the date 90 days after the date on which the notice was mailed.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the provision only applies to assessments made after June 30, 1993.

2. No Penalty if Prompt Notification of IRS

PRESENT LAW

A responsible person may be subject to a penalty equal to 100 percent of the amount of trust fund taxes that are not collected and paid to the Government on a timely basis.

HOUSE BILL

The House bill provides that a responsible person who notifies the IRS within 10 days of the failure to pay over trust fund taxes to the Government is not liable for this penalty, so long as the notification is made prior to the IRS's contacting the business about the failure to pay over the taxes, and provided that the person is not a significant owner (of a 5-percent or more interest) or a highly compensated employee (with compensation in excess of $75,000).

Effective date.—The provision applies in the case of failures to collect and pay over tax that occur after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that: (1) the period for taxpayer notification is extended to 21 days, (2) the Senate amendment does not exclude highly compensated employees from application of the provision, (3) the provision does not apply if the failure to pay is part of a plan to defraud the Government, (4) the provision applies only once to a taxpayer in that taxpayer's lifetime and once to a business in its existence, and (5) the provision shall not apply if the effect would be to leave no financially responsible person liable for the penalty.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that: (1) the provision does not apply if the failure to pay is part of a plan to defraud the Government, (2) the provision applies only once to a taxpayer in that taxpayer's lifetime and once to a business in its existence, and (3) the provision shall not apply if the effect would be to leave no financially responsible person liable for the penalty.

3. Disclosure of Certain Information Where More Than One Person Subject to Penalty

PRESENT LAW

The IRS may not disclose to a responsible person the IRS's efforts to collect unpaid trust fund taxes from other responsible persons, who may also be liable for the same tax liability.

HOUSE BILL

The House bill requires the IRS, if requested in writing by a person considered by the IRS to be a responsible person, to disclose in writing to that person the name of any other person the IRS has determined to be a responsible person with respect to the tax liability. The IRS is required to disclose in writing whether it has attempted to collect this penalty from other responsible persons, the general nature of those collection activities, and the amount (if any) collected.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. Failure by the IRS to follow this provision does not absolve any individual for any liability for this penalty.

4. Penalties Relating to Failure to Collect and Pay Over Tax

i. Public information requirements

PRESENT LAW

Under section 6672, a "responsible person" is subject to a penalty equal to the amount of trust fund taxes that are not collected and paid to the Government on a timely basis.

HOUSE BILL

The House bill requires the IRS to print warnings on payroll tax deposit coupon books and appropriate tax returns indicating that certain employees may be liable for this penalty, and to develop a special information packet relating to this penalty.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

ii. Board members of tax-exempt organizations

PRESENT LAW

Under section 6672, "responsible persons" of tax-exempt organizations are subject to a penalty equal to the amount of trust fund taxes that are not collected and paid to the Government on a timely basis.

HOUSE BILL

The House bill clarifies that the section 6672 responsible person penalty is not to be imposed on volunteer, unpaid members of any board of trustees or directors of a tax-exempt organization to the extent such members are solely serving in an honorary capacity and do not participate in the day-to-day or financial activities of the organization. The House bill requires the IRS to develop materials to better inform board members of tax-exempt organizations (including voluntary or honorary members) that they may be treated as responsible persons. The IRS is required to make such materials routinely available to tax-exempt organizations. The House bill also requires the IRS to clarify its instructions to IRS employees on application of the responsible person penalty with regard to honorary or volunteer members of boards of trustees or directors of tax-exempt organizations.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that, to be exempt, an honorary board member cannot have actual knowledge of the failure to deposit taxes and the provision may not operate in such a way as to eliminate all responsible persons from responsibility.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

iii. Prompt notification

PRESENT LAW

The IRS is not required to notify promptly taxpayers who fall behind in depositing trust fund taxes.

HOUSE BILL

The House bill requires the IRS, to the maximum extent practicable, to notify all taxpayers with delinquent trust fund deposits within 30 days of the first indication that there has been a failure to make a timely and complete deposit.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that (1) the notice requirement is limited to delinquent taxes described under section 6672 of the Code, and (2) notification must be within 30 days after the return was filed reflecting the delinquency or within 30 days of the first indication that there has been a failure to make a timely and complete deposit, whichever is earlier. The provision also requires that a taxpaying entity notified by the Secretary of a failure to pay such taxes must notify, within 15 days of such notification by the Secretary, all of the entity's officers, general partners, trustees or other managers of the failure to make a timely and complete deposit.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. Failure by the IRS to provide notice under this provision does not absolve any individual from any liability for penalties.

H. AWARDING OF COSTS AND CERTAIN FEES

1. Motion for Disclosure of Information

PRESENT LAW

A taxpayer that successfully challenges a determination of deficiency by the IRS may recover attorneys' fees and other administrative and litigation costs if the taxpayer qualifies as a "prevailing party." A taxpayer qualifies as a prevailing party if it (1) establishes that the position of the United States was not substantially justified; (2) substantially prevails with respect to the amount in controversy or with respect to the most significant issue or set of issues presented; and (3) meets certain net worth and (if the taxpayer is a business) size requirements.

HOUSE BILL

The House bill provides that, once a taxpayer has substantially prevailed, the taxpayer may file a motion for an order requiring the disclosure (within a specified period) of all information and copies of relevant records in the possession of the IRS with respect to the taxpayer's case and the substantial justification for the position taken by the IRS.

Effective date.—The provision is effective for notices made and proceedings commenced after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the IRS is required to disclose such information "within a reasonable period of time."

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the information disclosure must be made by the IRS "within a reasonable period of time specified by the court." Disclosure under this provision is subject to the confidentiality restrictions of section 6103. The provision does not require the disclosure of privileged or otherwise nondisclosable information.

2. Increased Limit on Attorney Fees

PRESENT LAW

Attorneys' fees recoverable by prevailing parties as litigation or administrative costs are limited to a maximum of $75 per hour.

HOUSE BILL

The House bill raises the statutory rate to $110 per hour, indexed for inflation beginning after 1992.

Effective date.—The provision applies to notices made and proceedings commenced after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Failure to Agree to Extension Not Taken Into Account

PRESENT LAW

To qualify for an award of attorney's fees, the taxpayer must have exhausted the administrative remedies available within the IRS.

HOUSE BILL

The House bill provides that any failure to agree to an extension of the statute of limitations cannot be taken into account for purposes of determining whether a taxpayer has exhausted the administrative remedies for purposes of determining eligibility for an award of attorney's fees.

Effective Date.—The provision applies to proceedings commenced after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

4. IRS Employees Personally Liable in Certain Cases

PRESENT LAW

IRS employees are not personally liable for the payment of any litigation costs under section 7430.

HOUSE BILL

The House bill gives discretion to the court in tax cases to assess all or a portion of any award under section 7430 against an IRS employee, if the court determines that the proceeding resulted from any arbitrary, capricious, or malicious act of the employee.

The House bill also permits the Government to provide legal representation to an IRS employee accused of arbitrary, capricious, or malicious action. If the court ultimately determines that the IRS employee acted arbitrarily, capriciously, or maliciously, and the court assesses all or a portion of an award under section 7430 against the IRS employee, the IRS employee is required to reimburse the Government for the costs of the legal representation (in addition to paying the amount assessed by the court).

Effective date.—The provision applies to proceedings commenced after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not adopt the House bill provision.

I. OTHER PROVISIONS

1. Required Content of Certain Notices

PRESENT LAW

The Code requires the IRS to describe the basis for and identify the amounts of tax due, interest, penalties, and any other additional amounts owed in the notice of deficiency sent to taxpayers.

HOUSE BILL

The House bill requires that the IRS set forth the components of and explanation for each specific adjustment that is the basis for the total tax deficiency. An inadequate description does not invalidate the notice.

Effective date.—The provision applies to notices sent after the date six months after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Treatment of Substitute Returns for Purposes of the Penalty for Failure to Pay Taxes

PRESENT LAW

Section 6651(a)(2) provides that the IRS may assess a penalty for failure to pay tax from the due date of the return until the tax is paid. If no return is filed by the taxpayer and the IRS files a substitute return under section 6020, the tax on which the penalty is measured is considered a deficiency assessable under section 6212 or 6213, and the failure to pay penalty begins to accumulate ten days after the IRS sends the taxpayer a notice and demand for payment of the tax.

HOUSE BILL

The House bill applies the failure to file penalty to substitute returns in the same manner as the penalty applies to delinquent filers.

Effective date.—The provision applies in the case of any return the due date for which (determined without regard to extensions) is after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Relief From Retroactive Application of Treasury Department Regulations

PRESENT LAW

Treasury may prescribe the extent (if any) to which regulations shall be applied without retroactive effect.

HOUSE BILL

Temporary and proposed regulations are required to have an effective date no earlier than the date of publication in the Federal Register. This provision may be superseded by a legislative grant authorizing the Treasury to prescribe the effective date with respect to a statutory provision. The Treasury may issue retroactive temporary or proposed regulations to prevent abuse of the statute. The Treasury may also issue retroactive temporary, proposed, or final regulations to correct a procedural defect in the issuance of a regulation. The Treasury may provide that taxpayers may elect to apply a temporary or proposed regulation retroactively from the date of publication of the regulation. Final regulations may take effect from the date of publication of the temporary or proposed regulation to which they relate. The House bill does not apply to regulations prescribed under Code section 986(a)(1)(C) or 986(a)(4) (as amended by the House bill).

Effective date.—The provision applies with respect to any temporary or proposed regulation published on or after February 20, 1992, and any temporary or proposed regulation published before February 20, 1992, and published as a final regulation after that date.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that: (1) regulations may take effect from the date any notice which substantially describes the regulation is issued to the public, (2) the date of filing with the Federal Register, rather than the date of publication, is determinative, (3) the provision shall not apply to any regulation issued within twelve months of the enactment date of the relevant statute, (4) the provision shall not apply to regulations relating to internal Treasury Department policies, practices, or procedures, and (5) present law with respect to rulings is unchanged. The provision applies with respect to any temporary or proposed regulation published on or after July 28, 1992 and any temporary or proposed regulation filed with the Federal Register before July 28, 1992, with respect to which a final regulation has not been filed with the Federal Register before that date. The special rule for regulations issued within twelve months shall only apply with respect to statutes enacted on or after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The conferees recognize that there may be additional instances in which retroactive application of Treasury regulations has created undue hardship. This provision does not preclude the Congress from both examining these cases and providing any appropriate relief in the future.

Congress occasionally makes retroactive changes in the tax law. When this occurs taxpayers affected by this change in law must resubmit their tax return and pay additional tax liability. It is not the intent of

Congress for the IRS to impose penalties on taxpayers who must pay additional taxes due tc retroactive changes in the tax law. The IRS uses penalties to discourage taxpayers from avoiding their tax liability or paying it late. If taxpayers come into timely compliance with any retroactive change in the tax law, Congress does not intend that the IRS should impose penalties due to the retroactive change in the tax law.

4. Required Notice to Taxpayers of Certain Payments

PRESENT LAW

If the IRS receives a payment without sufficient information to properly credit it to a taxpayer's account, the IRS may attempt to contact the taxpayer. If contact cannot be made, the IRS places the payment in an unidentified remittance file.

HOUSE BILL

The House bill requires the IRS to make reasonable efforts to notify, within 60 days, those taxpayers who have made payments which the IRS cannot associate with any outstanding tax liability.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

5. Unauthorized Enticement of Information Disclosure

PRESENT LAW

There is no statutory disincentive for enticing a tax professional to disclose information about clients in exchange for forgiving the taxes of the professional.

HOUSE BILL

The House bill provides that, if a Government employee willfully defers or offers to defer (or willfully forgives or offers to forgive) the determination or collection of any tax due from a tax professional in exchange for certain information concerning a taxpayer who is the professional's client, the information so obtained is not admissable in any manner in determining the tax liability of the taxpayer (the "Exclusionary Rule").

Effective date.—The provision applies to actions taken after the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill with respect to the Exclusionary Rule, except that (1) the compromise must be intentional, not willful, (2) the information obtained may not be used in any judicial proceeding in which the taxpayer is a party, except to rebut a false representation made at trial by the taxpayer, and (3) the Senate amendment applies only to information conveyed by the taxpayer to the professional for purposes of obtaining advice regarding the taxpayer's tax liability. In addition, the taxpayer to whom such information pertains may bring a civil action for damages against the United States in a district court of the United States without regard to the amount in controversy. The taxpayer must bring such an action within two years after the date the right of action accrues.[2] Upon a finding of liability, damages shall equal the lesser of $500,000 or the sum of (i) actual economic damages sustained by the taxpayer as a proximate result of the information disclosure, and (ii) the costs of the action. The district court must stay any proceedings with respect to such an action pending completion of any ongoing investigation or prosecution of the taxpayer (which the Commissioner has certified is ongoing to the court).

The remedies provided by the Senate amendment shall not apply to information conveyed to an attorney, certified public accountant or enrolled agent for the purpose of perpetrating a fraud or crime.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that it deletes the Exclusionary Rule. This provision is intended to apply only where a direct nexus exists between the enticement of the information from the tax professional and the compromise of the professional's tax liability. It is not intended to apply to examination and collection activities of the IRS done in the ordinary course of its determination or collection of tax.

J. FORM MODIFICATIONS; STUDIES

1. Explanation of Certain Provisions

PRESENT LAW

Section 6159 authorizes the IRS to enter into written installment agreements with any taxpayer. Section 7122 authorizes the IRS to accept offers in compromise from taxpayers in certain situations. Section 6161 authorizes the IRS to extend the time for payment of tax.

HOUSE BILL

The House bill requires the IRS to take such actions as may be appropriate (including improved publicity) to ensure that taxpayers are aware of the availability of installment agreements, offers in compromise, and the extension of time to pay tax. The IRS must do so in both the income tax return instructions and collection notices.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Improved Procedures for Notifying IRS of Change of Address or Name

PRESENT LAW

Generally, the IRS posts the new address of a taxpayer only upon the filing of the subsequent tax return which contains a new address or if the taxpayer submits a Form 8822, *Change of Address*, to the IRS.

HOUSE BILL

The House bill requires the IRS to provide improved procedures for taxpayers to notify the IRS of changes in names or addresses. In addition, the House bill requires that the IRS institute procedures before 1993 for the timely updating of all IRS records with change of address information provided to the IRS by taxpayers.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that such updating procedures must be implemented by June 30, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Rights and Responsibilities of Divorced Individuals

PRESENT LAW

The IRS provides information on the rights and responsibilities of divorced individuals in Publication 504, *Tax Information for Divorced or Separated Individuals*. This publication is not as widely utilized as Publication 1, *Your Rights As a Taxpayer*.

HOUSE BILL

The House bill requires the IRS to include a section on the rights and responsibilities of divorced individuals in Publication 1, *Your Rights As a Taxpayer*.

Effective date.—The provision is effective on the date of enactment.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

K. STUDIES

1. Pilot Programs for Appeal of Enforcement Actions

PRESENT LAW

A taxpayer who disagrees with an IRS collection action generally can only appeal to successively higher levels of management in the Collection Division. Certain cases involving the 6672 penalty, offers-in-compromise, and employment tax issues may, however, be appealed to the Appeals Division.

HOUSE BILL

The House bill requires the IRS to establish a one-year pilot program to evaluate the merits of allowing an independent appeal, by the taxpayer, to the Appeals Division of enforcement actions (including lien, levy, and seizure actions) where the deficiency was assessed without the actual knowledge of the taxpayer, where the deficiency was assessed without an opportunity for administrative appeal, and in other appropriate circumstances.

Effective date.—The IRS is required to report to the tax-writing committees by December 31, 1992, on the effectiveness of the pilot program.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the report on the effectiveness of the pilot program is due on June 30, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Study on Taxpayers With Special Needs

PRESENT LAW

The IRS is responsible for providing timely and accurate assistance to taxpayers who want to comply with Federal tax laws.

HOUSE BILL

The House bill requires the IRS to conduct a study of ways to assist the elderly, physically impaired, foreign-language speaking, and other taxpayers with special needs to comply with the tax laws.

Effective date.—The report (and any recommendations) must be submitted to the tax-writing committees by December 31, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the report is due on June 30, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

---

[2] The general accrual rule applied under the Federal Tort Claims Act (28 U.S.C. sec. 2401(b)) is to be applied to actions under this provision; *i.e.*, the right of action does not accrue until a claimant has had a reasonable opportunity to discover all of the essential elements of a possible cause of action. See, e.g., *Rosales v. United States*, 824 F.2d 799 (9th Cir. 1987); *Zeidler v. United States*, 601 F.2d (10th Cir. 1979).

3. Reports on Taxpayer Rights Education Program

Present Law

The IRS is currently conducting a program to educate revenue officers concerning the rights of taxpayers.

House Bill

The House bill requires the IRS to report to the tax-writing Committees on its taxpayer rights education program for its officers and employees, including the scope and content of the program, and on the effectiveness of the program.

Effective date.—The report on the scope and content of the taxpayer-rights education program must be submitted to the tax-writing committees by August 1, 1992, and the report on the effectiveness of the program must be submitted by December 31, 1992.

Senate Amendment

The Senate amendment is the same as the House bill, except that the report on the scope and content of the taxpayer-rights education program must be submitted to the tax-writing committees by April 1, 1993, and the report on the effectiveness of the program must be submitted by June 30, 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

4. Biennial Reports on Misconduct By IRS Employees

Present Law

As mandated by the Inspector General Act, every six months the Inspector General of the Department of the Treasury receives information from the IRS for the Secretary of the Treasury's semiannual report to Congress on employee misconduct. The Inspector General Act, in part, requires that these reports include summary information and descriptions of significant investigative activities and a summary of matters referred to prosecuting authorities and the prosecutions and convictions that have resulted.

House Bill

The House bill requires the IRS to report to the tax-writing committees every two years on all cases involving complaints about IRS employee misconduct and on the disposition of those complaints.

Effective date.—The first report must be submitted during December 1992.

Senate Amendment

The Senate amendment is the same as the House bill, except that the reports are due in June every two years, with the first report due in June 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

5. Study of Notices of Deficiency

Present Law

Under section 6212, the IRS is required to send a notice of tax deficiency to taxpayers by registered or certified mail.

House Bill

The House bill requires the GAO to study the effectiveness of current IRS efforts to notify taxpayers with regard to tax deficiencies under section 6212, the number of registered or certified letters and other notices returned to the IRS as undeliverable, any follow-up action taken by the IRS to locate the taxpayers, the effect that failures to receive actual notice have on taxpayers, and recommendations on how the IRS can better notify taxpayers of tax deficiencies.

Effective date.—The report and recommendations must be furnished by December 31, 1992.

Senate Amendment

The Senate amendment is the same as the House bill, except that the report and recommendations are due by June 30, 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

6. Notice and Form Accuracy Study

Present Law

The IRS is responsible for providing accurate and instructive notices, forms, and instructions to taxpayers to assist them in complying with Federal tax laws.

House Bill

The House bill requires the GAO to study annually the accuracy of 25 of the most commonly used IRS forms, notices, and publications. In conducting its review, the GAO is to seek and consider the comments of organizations representing taxpayers, employers, and tax professionals.

Effective date.—The initial report (and any recommendations) must be submitted to the tax-writing committees by December 31, 1992.

Senate Amendment

The Senate amendment is the same as the House bill, except that the initial report and recommendations are due by June 30, 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

7. IRS Employees' Suggestions Study

Present Law

The IRS maintains several programs to encourage and reward employees who make suggestions for improving the administration of the tax system.

House Bill

The House bill requires the GAO to conduct a review of the IRS employee suggestion programs. The study is to include a review of all suggestions that were accepted and rewarded by the IRS, an analysis as to how many of these suggestions were implemented, and why the remaining suggestions were not implemented.

Effective date.—The report (and any recommendations) must be submitted to the tax-writing committees by December 31, 1992.

Senate Amendment

The Senate amendment is the same as the House bill, except that the report and recommendations are due by June 30, 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

VI. TECHNICAL CORRECTIONS

Subtitle A. Revenue Provisions

I. Technical Corrections to the Revenue Reconciliation Act of 1990

A. Individual Income Tax Provisions

1. Minimum tax rate on certain nonresident aliens (sec. 6101(a)(2) of the House bill, sec. 6101(a)(2) of the Senate amendment, sec. 11102 of the 1990 Act, and sec. 897 of the Code)

Present Law

The Revenue Reconciliation Act of 1990 (the "1990 Act") increased the alternative minimum tax rate on individuals from 21 percent to 24 percent.

House Bill

The House bill conforms the rate of the minimum tax on the U.S. real property gains of nonresident aliens to the 24 percent minimum tax rate enacted in the 1990 Act.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

2. Tax rate of personal holding companies (sec. 6101(a)(4) of the House bill, sec. 6101(a)(4) of the Senate amendment, sec. 11101 of the 1990 Act, and sec. 541 of the Code)

Present Law

A corporation that is treated as a personal holding company is subject, in addition to the regular corporate tax, to a 28-percent tax on its undistributed personal holding company income for the taxable year. The present-law rate of 28 percent was set by the Tax Reform Act of 1986.[1] This rate reflected the maximum rate of tax on individuals in that Act.

The 1990 Act increased the maximum rate of tax on individuals from 28 percent to 31 percent effective for taxable years beginning after December 31, 1990.

House Bill

The House bill provides that the increase in the individual maximum tax rate to 31 percent also applies to the personal holding company tax rate, effective for taxable years beginning after December 31, 1990.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

3. Definition of AGI for the earned income tax credit and the supplemental earned income tax credit for health insurance premiums (sec. 6101(a)(5) of the House bill, sec. 6101(a)(5) of the Senate amendment, sec. 11111 of the 1990 Act, and sec. 32 of the Code)

Present Law

Under present law, a supplemental earned income tax credit (EITC) is available to certain taxpayers for qualified health insurance expenses. Qualified health insurance expenses for which the credit is available are amounts paid during the taxable year for health insurance coverage that includes one or more qualifying children. These expenses include only those expenses relating to the cost of coverage (i.e., premium cost) paid with after-tax dollars. The maximum credit is $428 in 1991. The credit is phased out as adjusted gross income (AGI) (or earned income, if greater) exceeds $11,250 in 1991. Earned income amounts taken into account in computing the maximum credit and the beginning point of the phase-out range are indexed for inflation.

The calculation of this supplemental child health insurance credit is generally the same as the calculation of the basic EITC. Thus, the same eligibility criteria and income phase-in and phase-out requirements apply. There is no family size adjustment with respect to the health insurance credit.

Present law provides that the amount of expenses taken into account in determining the deduction for health insurance costs of self-employed individuals (sec. 162(l)) is reduced by the amount (if any) of the supplemental child health insurance credit allowable to the taxpayer (sec. 162(l)(3)(B)). This so-called "double-dip" provision creates a calculation problem because the amount of the EITC, the supplemental young child credit, and the child health insurance credit cannot be determined until AGI is determined; however, AGI is determined with reference to the deduction for health insurance costs of self-employed individuals. Thus, the operation of the double-dip provision creates a circularity that increases the complexity of the child health credit.

---

[1] See P.L. 99-514, sec. 104 (b)(8).

HOUSE BILL

Under the House bill, for purposes of the EITC, the supplemental young child credit, and the supplemental child health insurance credit, AGI is calculated assuming that the taxpayer is entitled to the full deduction for health insurance costs under section 162(l). Then, after the maximum child health credit is determined, the double-dip rule (sec. 162(l)(3)(B)) operates as it does under present law.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

4. Deletion of deadwood (sec. 6101(a)(7) of the House bill and section 402(e)(1)(B) of the Code)

PRESENT LAW

A separate tax is imposed on lump sum distributions for a qualified pension plan or qualified annuity plan. Prior to the Revenue Reconciliation Act of 1990 (the "1990 Act"), the benefit of 15-percent rate and personal exemption was phased out for certain higher income individuals (prior law sec. 1(g)). The rules providing for the separate tax on lump sum distributions contained a special rule relating to the effect of the phaseout to the tax on lump sum distributions. The phaseout rules were repealed by the Revenue Reconciliation Act of 1990.

HOUSE BILL

The House bill deleted as deadwood the special rule relating to the effect of the phaseout on the tax on lump sum distributions.

SENATE AMENDMENT

The Senate amendment contained no provision since the deadwood provision had been previously deleted by section 521(a) of the Unemployment Compensation Amendments of 1992 (P.L. 102-318).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

5. Correction of head of household rate table for proper indexation (sec. 6101(a)(8) of the House bill and sec. 1(b) of the Code)

PRESENT LAW

A separate rate schedule is provided for individuals that are heads of households. The dollar amounts in the schedule are adjusted for inflation.

HOUSE BILL

The House bill modifies the rate schedule for individuals that are heads of households to correct a transposition error made in the 1990 Act.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

B. EXCISE TAX PROVISIONS

1. Application of the 2.5-cents-per-gallon tax on fuel used in rail transportation to States and local governments (sec. 6101(b)(3) of the House bill, sec. 6101(b)(3) of the Senate amendment, sec. 11211(b)(4) of the 1990 Act, and sec. 4093 of the Code)

PRESENT LAW

The 1990 Act increased the highway and motorboat fuels taxes by 5 cents per gallon, effective on December 1, 1990. The 1990 Act continued the exemption from these taxes for fuels used by States and local governments.

The 1990 Act also imposed a 2.5-cents-per-gallon tax on fuel used in rail transportation, also effective on December 1, 1990. Because of a drafting error in the 1990 Act, the 2.5-cents-per-gallon tax on fuel used in rail transportation incorrectly applies to States and local governments.

HOUSE BILL

The House bill clarifies that the 2.5-cents-per-gallon tax on fuel used in rail transportation does not apply to such uses by States and local governments.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Deposit of certain aviation tax revenues in Airport and Airway Trust Fund (sec. 6101(b)(5) of the House bill, sec. 6101(b)(5) of the Senate amendment, sec. 11213 of the 1990 Act, and sec. 9502(e)(1) of the Code)

PRESENT LAW

The 1990 Act increased the aviation excise tax rates (except for the international air departure tax rate) by 25 percent, and extended those taxes for five years, effective December 1, 1990, through December 31, 1995. From December 1, 1990 through 1992, the statement of managers on the 1990 Act indicated that the revenues attributable to the *increased* portion of the aviation taxes were to be retained in the General Fund; these revenues will be deposited in the Airport and Airway Trust Fund for 1993 through 1995. The statute as enacted in the 1990 Act omitted this agreement with respect to the taxes other than those imposed on aviation fuels (i.e., the revenues attributable to the *increase* in the air passenger ticket tax and the air cargo tax).

HOUSE BILL

The House bill clarifies that revenues from all aviation excise taxes attributable to the *increased* rates imposed by the 1990 Act on taxable events during periods before January 1, 1993, will be retained in the General Fund. The amendment does not affect revenues attributable to the tax rates imposed before enactment of the 1990 Act and extended by that Act. (This provision is also included in H.R. 4691 as passed by the House of Representatives on May 19, 1992.)

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Small winery production credit and bonding requirements (secs. 6101(b) (7), (8), and (9) of the House bill, sec. 11201 of the 1990 Act, and sec. 5041 of the Code)

PRESENT LAW

A 90-cents-per-gallon credit is allowed to wine producers who produce no more than 250,000 gallons of wine in a year. The credit may be claimed against the producers' excise or income taxes.

Wine producers must post a bond in amounts determined by reference to expected excise tax liability as a condition of legally operating.

HOUSE BILL

The House bill clarifies that wine produced by eligible small wineries may be transferred without payment of tax to bonded warehouses that become liable for payment of the wine excise tax without losing credit eligibility. In such cases, the bonded warehouse will be eligible for the credit to the same extent as the producer otherwise would have been.

The House bill further clarifies that the Treasury Department has broad regulatory authority to prevent the benefit of the credit from accruing (directly or indirectly) to wineries producing in excess of 250,000 gallons in a calendar year.

The House bill also clarifies that the Treasury Department may take the amount of credit expected to be claimed against a producer's wine excise tax liability into account in determining the amount of required bond.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill. The conferees specifically understands that the Treasury regulatory authority extends to all circumstances in which wine production is increased with a purpose of securing indirect credit eligibility for wine produced by such large producers.

4. Floor stocks refunds for certain cigarette taxes (sec. 6101(b)(10) of the House bill and sec. 11202 of the 1990 Act)

PRESENT LAW

A floor stocks tax, equal to the amount of the rate increase, is imposed when the rates of Federal excise taxes (other than retail taxes) are increased. The cigarette excise tax rates are scheduled to increase on January 1, 1993. Refunds of this tax, as with the underlying excise tax, are permitted in certain cases.

HOUSE BILL

The House bill clarifies that the Treasury Department may make refunds of the cigarette floor stocks tax to be imposed on January 1, 1993, to manufacturers rather than to the persons that actually pay the tax, if the manufacturers demonstrate that the benefit of the refund accrues to the person actually paying the tax.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

C. OTHER REVENUE-INCREASE PROVISIONS OF THE 1990 ACT

1. Deposits of Railroad Retirement Tax Act taxes (sec. 6101(c)(3) of the House bill, sec. 6101(c)(3) of the Senate amendment, sec. 11334 of the 1990 Act, and sec. 6302(g) of the Code)

PRESENT LAW

Employers must deposit income taxes withheld from employees' wages and FICA taxes that are equal to or greater than $100,000 by the close of the next banking day. Under the Railroad Retirement Solvency Act of 1983, the deposit rules for withheld income taxes and FICA taxes automatically apply to

Railroad Retirement Tax Act taxes (sec. 226 of P.L. 98-76).

House Bill

The House bill conforms the Internal Revenue Code to the Railroad Retirement Solvency Act of 1983 by stating in the Code that these deposit rules for withheld income taxes and FICA taxes apply to Railroad Retirement Tax Act taxes.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

2. Treatment of salvage and subrogation of property and casualty insurance companies (sec. 6101(c)(4) of the House bill, sec. 6101(c)(4) of the Senate amendment, and sec. 11305 of the 1990 Act)

Present Law

For taxable years beginning after December 31, 1989, property and casualty insurance companies are required to reduce the deduction allowed for losses incurred (both paid and unpaid) by estimated recoveries of salvage and subrogation attributable to such losses. In the case of any property and casualty insurance company that took into account estimated salvage and subrogation recoverable in determining losses incurred for its last taxable year beginning before January 1, 1990, 87 percent of the discounted amount of the estimated salvage and subrogation recoverable as of the close of the last taxable year beginning before January 1, 1990, is allowed as a deduction ratably over the first 4 taxable years beginning after December 31, 1989. This special deduction was enacted in order to provide such property and casualty insurance companies with substantially the same Federal income tax treatment as that provided to those property and casualty insurance companies that prior to the Revenue Reconciliation Act of 1990 did not take into account estimated salvage and subrogation recoverable in determining losses incurred.

House Bill

The House bill provides that the earnings and profits of any property and casualty insurance company that took into account estimated salvage and subrogation recoverable in determining losses incurred for its last taxable year beginning before January 1, 1990, is to be determined without regard to the special deduction that is allowed over the first 4 taxable years beginning after December 31, 1989. The special deduction is to be taken into account, however, in determining earnings and profits for purposes of applying sections 56, 902, 952(c)(1) and 960 of the Internal Revenue Code of 1986. This provision is considered necessary in order to provide those property and casualty insurance companies that took into account estimated salvage and subrogation recoverable in determining losses incurred with substantially the same Federal income tax treatment as that provided to those property and casualty insurance companies that prior to the 1990 Act did not take into account estimated salvage and subrogation recoverable in determining losses incurred.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

3. Information with respect to certain foreign-owned or foreign corporations: Suspension of the statute of limitations during certain judicial proceedings (sec. 6101(c)(5) of the House bill, sec. 6101(c)(5) of the Senate amendment, secs. 11314 and 11315 of the 1990 Act, and secs. 6038A and 6038C of the Code)

Present Law

Any domestic corporation that is 25-percent owned by one foreign person is subject to certain information reporting and recordkeeping requirements with respect to transactions carried out directly or indirectly with certain foreign persons treated as related to the domestic corporation ("reportable transactions") (sec. 6038A(a)). In addition, the Code provides procedures whereby an IRS examination request or summons with respect to reportable transactions can be served on foreign related persons through the domestic corporation (sec. 6038A(e)). Similar provisions apply to any foreign corporation engaged in a trade or business within the United States, with respect to information, records, examination requests, and summonses pertaining to the computation of its liability for tax in the United States (sec. 6038C). Certain noncompliance rules may be applied by the Internal Revenue Service in the case of the failure by a domestic corporation to comply with a summons pertaining to a reportable transaction (a "6038A summons") (sec. 6038A(e)), or the failure by a foreign corporation engaged in a U.S. trade or business to comply with a summons issued for purposes of determining the foreign corporation's liability for tax in the United States (a "6038C summons") (sec. 6038C(d)).

Any corporation that is subject to the provisions of section 6038A or 6038C has the right to petition a Federal district court to quash a 6038A or 6038C summons, or to review a determination by the IRS that the corporation did not substantially comply in a timely manner with the 6038A or 6038C summons (sec. 6038A(e)(4) (A) and (B); sec. 6038C(d)(4)). During the period that either such judicial proceeding is pending (including appeals), and for up to 90 days thereafter, the statute of limitations is suspended with respect to any transaction (or item, in the case of a foreign corporation) to which the summons relates (secs. 6038A(e)(4)(D), 6038C(d)(4)).

The legislative history of the 1989 Act amendments to section 6038A states that the suspension of the statute of limitations applies to "the taxable year(s) at issue."[2] The legislative history of the 1990 Act, which added section 6038C to the Code, uses the same language.[3]

House Bill

The House bill modifies the provisions in sections 6038A and 6038C that suspend the statute of limitations to clarify that the suspension applies to any taxable year the determination of the amount of tax imposed for which is affected by the transaction or item to which the summons relates.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment. The conferees intend that, under the provision, a transaction or item would affect the determination of the amount of tax imposed for the taxable year directly at issue, as well as for any taxable year indirectly affected through, for example, net operating loss carrybacks or carryforwards. The conferees do not intend that, under the provision, a transaction or item would affect the determination of the amount of tax imposed for any taxable year other than the taxable year directly at issue solely by reason of any similarity of issues involved. Similarly, the conferees do not intend that, under the provision, a transaction or item would affect the determination of the amount of tax imposed on any taxpayer unrelated to the taxpayer to whom the summons is directed.

4. Rate of interest for large corporate underpayments (secs. 6101(c) (6) and (7) of the House bill, secs. 6101(c) (6) and (7) of the Senate amendment, sec. 11341 of the 1990 Act, and sec. 6621(c) of the Code)

Present Law

The rate of interest otherwise applicable to underpayments of tax is increased by two percent in the case of large corporate underpayments (generally defined to exceed $100,000), applicable to periods after the 30th day following the earlier of a notice of proposed deficiency, the furnishing of a statutory notice of deficiency, or an assessment notice issued in connection with a nondeficiency procedure.

House Bill

The House bill provides that an IRS notice that is later withdrawn because it was issued in error does not trigger the higher rate of interest. The House bill also corrects an incorrect reference to "this subtitle".

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

D. Expiring Tax Provisions

1. Exclusion for employer-provided educational assistance (sec. 6101(d)(1) of the House bill, sec. 6101(d)(1) of the Senate amendment, sec. 11403 of the 1990 Act, and secs. 127 and 132 of the Code)

Present Law

Employer-provided educational assistance is excludable from gross income if the value of the assistance does not exceed $5,250 and certain other requirements are satisfied (sec. 127). Prior to the 1990 Act, the exclusion did not apply to graduate level courses. The 1990 Act eliminated this restriction. The Omnibus Budget Reconciliation Act of 1989 provided that educational assistance that is not excludable under section 127 due to the dollar limitation on the exclusion and the restriction on graduate level courses is excludable from gross income if and only if it qualifies as a working condition fringe benefit (sec. 132(h)).

House Bill

The House bill amends the fringe benefit rules to reflect the fact that the graduate level course restriction has been repealed.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

---

[2] H. Rep. No. 247, 101st Cong., 1st Sess. 1301 (1989); "Explanation of Provisions Approved by the Committee on October 3, 1989," Senate Finance Committee Print, 101st Cong., 1st Sess. 118 (October 12, 1989).

[3] "Legislative History of Ways and Means Democratic Alternative," House Ways and Means Committee Print (WMCP: 101-37), 101st Cong., 2nd Sess. 58 (October 15, 1990); Report language submitted by the Senate Finance Committee to the Senate Budget Committee on S. 3299, 136 *Cong. Rec.* S 15629, S 15700 (1990).

2. Research credit provision: Effective date for repeal of special proration rule (sec. 6101(d)(2) of the House bill, sec. 6101(d)(2) of the Senate amendment, and sec. 11402 of the 1990 Act)

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1989 effectively extended the research credit for nine months by prorating certain qualified research expenses incurred before January 1, 1991. The special rule to prorate qualified research expenses applied in the case of any taxable year which began before October 1, 1990, and ended after September 30, 1990. Under this special proration rule, the amount of qualified research expenses incurred by a taxpayer prior to January 1, 1991, was multiplied by the ratio that the number of days in that taxable year before October 1, 1990, bears to the total number of days in such taxable year before January 1, 1991. The amendments made by the 1989 Act to the research credit (including the new method for calculating a taxpayer's base amount) generally were effective for taxable years beginning after December 31, 1989. However, this effective date did not apply to the special proration rule (which applied to any taxable year which began prior to October 1, 1990—including some years which began before December 31, 1989—if such taxable year ended after September 30, 1990).

Section 11402 of the Revenue Reconciliation Act of 1990 (the "1990 Act") extended the research credit through December 31, 1991, and repealed the special proration rule provided for by the 1989 Act. Section 11402 of the 1990 Act was effective for taxable years beginning after December 31, 1989. Thus, in the case of taxable years beginning before December 31, 1989, and ending after September 30, 1990 (e.g., a taxable year of November 1, 1989 through October 31, 1990), the special proration rule provided by the 1989 Act would continue to apply.

HOUSE BILL

The House bill repeals for all taxable years ending after December 31, 1989, the special proration rule provided for by the 1989 Act.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

E. ENERGY TAX PROVISION: ALTERNATIVE MINIMUM TAX ADJUSTMENT BASED ON ENERGY PREFERENCES (SECS. 6101(e)(2) AND (6) OF THE HOUSE BILL, SECS. 6101(e)(2) AND (6) OF THE SENATE AMENDMENT, SEC. 11531(a) OF THE 1990 ACT, AND SEC. 56(h) OF THE CODE)

PRESENT LAW

In computing alternative minimum taxable income (and the adjusted current earnings (ACE) adjustment of the alternative minimum tax), certain adjustments are made to the taxpayer's regular tax treatment for intangible drilling costs (IDCs) and depletion. A special energy deduction is also allowed. The special energy deduction is initially determined by determining the taxpayer's (1) intangible drilling cost preference and (2) the marginal production depletion preference. The intangible drilling cost preference is the amount by which the taxpayer's alternative minimum taxable income would be reduced if it were computed without regard to the adjustments for IDCs. The marginal production depletion preference is the amount by which the taxpayer's alternative minimum taxable income would be reduced if it were computed without regard to depletion adjustments attributable to marginal production. The intangible drilling cost preference is then apportioned between (1) the portion of the preference related to qualified exploratory costs and (2) the remaining portion of the preference. The portion of the preference related to qualified exploratory costs is multiplied by 75 percent and the remaining portion is multiplied by 15 percent. The marginal production depletion preference is multiplied by 50 percent. The three products described above are added together to arrive at the taxpayer's special energy deduction (subject to certain limitations).

The special energy deduction is not allowed to the extent that it exceeds 40 percent of alternative minimum taxable income determined without regard to either this special energy deduction or the alternative tax net operating loss deduction. Any special energy deduction amount limited by the 40-percent threshold may not be carried to another taxable year. In addition, the combination of the special energy deduction, the alternative minimum tax net operating loss and the alternative minimum tax foreign tax credit cannot generally offset, in the aggregate, more than 90 percent of a taxpayer's alternative minimum tax determined without such attributes.

HOUSE BILL

Interaction of special energy deduction with net operating loss and investment tax credit

The House bill clarifies that the amount of alternative tax net operating loss that is utilized in any taxable year is to be appropriately adjusted to take into account the amount of special energy deduction claimed for that year. This operates to preserve a portion of the alternative tax net operating loss carryover by reducing the amount of net operating loss utilized to the extent of the special energy deduction claimed, which if unused, could not be carried forward.

In addition, the House bill contains a similar provision which clarifies that the limitation on the utilization of the investment tax credit for purposes of the alternative minimum tax is to be determined without regard to the special energy deduction.

Interaction of special energy deduction with adjustment based on adjusted current earnings

The House bill provides that the ACE adjustment is to be computed without regard to the special energy deduction. Thus, the bill specifies that the ACE adjustment is equal to 75 percent of the excess of a corporation's adjusted current earnings over its alternative minimum taxable income computed without regard to either the ACE adjustment, the alternative tax net operating loss deduction, or the special energy deduction.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

F. ESTATE TAX FREEZES (SEC. 6101(f) OF THE HOUSE BILL, SEC. 6101(f) OF THE SENATE AMENDMENT, SEC. 11602 OF THE 1990 ACT, AND SECS. 2701–04 OF THE CODE)

PRESENT LAW

Generally

The value of property transferred by gift or includible in the decedent's gross estate is its fair market value. Fair market value is generally the price at which the property would change hands between a willing buyer and willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts (Treas. Reg. sec. 20.2031). Chapter 14 contains rules that supersede the willing buyer, willing seller standard (Code secs. 2701-04).

Preferred interests in corporations and partnerships

Valuation of retained interests

Scope.—Section 2701 provides special rules for valuing certain rights retained in conjunction with the transfer to a family member of an interest in a corporation or partnership. These rules apply to any applicable retained interest held by the transferor or an applicable family member immediately after the transfer of an interest in such entity. An "applicable family member" is, with respect to any transferor, the transferor's spouse, ancestors of the transferor and the spouse, and spouses of such ancestors.

An applicable retained interest is an interest with respect to which there is one of two types of rights ("affected rights"). The first type of affected right is a liquidation, put, call, or conversion right, generally defined as any liquidation, put, call, or conversion right, or similar right, the exercise or nonexercise of which affects the value of the transferred interest. The second type of affected right is a distribution right[4] in an entity in which the transferor and applicable family members hold control immediately before the transfer. In determining control, an individual is treated as holding any interest held by the individual's brothers, sisters and lineal descendents. A distribution right does not include any right with respect to a junior equity interest.

Valuation.—Section 2701 contains two rules for valuing applicable retained interests. Under the first rule, an affected right other than a right to qualified payments is valued at zero. Under the second rule any retained interest that confers (1) a liquidation, put, call or conversion right and (2) a distribution right that consists of the right to receive a qualified payment is valued on the assumption that each right is exercised in a manner resulting in the lowest value for all such rights (the "lowest value rule"). There is no statutory rule governing the treatment of an applicable retained interest that confers a right to receive a qualified payment, but with respect to which there is no liquidation, put, call or conversion right.

A qualified payment is a dividend payable on a periodic basis and at a fixed rate under cumulative preferred stock (or a comparable payment under a partnership agreement). A transferor or applicable family member may elect not to treat such a dividend (or comparable payment) as a qualified payment. A transferor or applicable family member also may elect to treat any other distribution right as a qualified payment to be paid in the amounts and at the times specified in the election.

Inclusion in transfer tax base.—Failure to make a qualified payment valued under the lowest value rule within four years of its due date generally results in an inclusion in the transfer tax base equal to the difference between the compounded value of the scheduled payments over the compounded value of the payments actually made. The Treasury Department has regulatory authority to make subsequent transfer tax adjustments in the transfer of an applicable retained interest to reflect the increase in a prior taxable gift by reason of section 2701.

---

[4] A distribution right generally is a right to a distribution from a corporation with respect to its stock, or from a partnership with respect to a partner's interest in the partnership.

Generally, this inclusion occurs if the holder transfers by sale or gift the applicable retained interest during life or at death. In addition, the taxpayer may, by election, treat the payment of the qualified payment as giving rise to an inclusion with respect to prior periods.

The inclusion continues to apply if the applicable retained interest is transferred to an applicable family member. There is no inclusion on a transfer of an applicable retained interest to a spouse for consideration or in a transaction qualifying for the marital deduction but subsequent transfers by the spouse are subject to the inclusion. Other transfers to applicable family members result in an immediate inclusion as well as subjecting the transferee to subsequent inclusions.

Minimum value of residual interest

Section 2701 also establishes a minimum value for a junior equity interest in a corporation or partnership. For partnerships, a junior equity interest is an interest under which the rights to income and capital are junior to the rights of all other classes of equity interests.

Trusts and term interests in property

The value of a transfer in trust is the value of the entire property less the value of rights in the property retained by the grantor. Section 2702 provides that in determining the extent to which a transfer of an interest in trust to a member of the transferor's family is a gift, the value of an interest retained by the transferor or an applicable family member is zero unless such interest takes certain prescribed forms.

For a transfer with respect to a specified portion of property, section 2702 applies only to such portion. The section does not apply to the extent that the transfer is incomplete.

Options and buy-sell agreements

A restriction upon the sale or transfer of property may reduce its fair market value. Treasury regulations provide that a restriction is to be disregarded unless the agreement represents a bona fide business arrangement and not a device to pass the decedent's shares to the natural objects of his bounty for less than full and adequate consideration (Treas. Reg. sec. 20.2031-2(h)).

Section 2703 provides that for transfer tax purposes the value of property is determined without regard to any option, agreement or other right to acquire or use the property at less than fair market value or any restriction on the right to sell or use such property. Certain options are excepted from this rule. To fall within the exception, the option, agreement, right or restriction must (1) be a bona fide business arrangement, (2) not be a device to transfer such property to members of the decedent's family for less than full and adequate consideration in money or money's worth, and (3) have terms comparable to similar arrangements entered into by persons in an arm's length transaction.

HOUSE BILL

Preferred interests in corporations and partnerships

Valuation

The House bill provides that an applicable retained interest conferring a distribution right to qualified payments with respect to which there is no liquidation, put, call, or conversion right is valued without regard to section 2701. The bill also provides that the retention of such right gives rise to potential inclusion in the transfer tax base. In making these changes, it is understood that Treasury regulations could provide, in appropriate circumstances, that a right to receive amounts on liquidation of the corporation or partnership constitutes a liquidation right within the meaning of section 2701 if the transferor, alone or with others, holds the right to cause liquidation.

The House bill modifies the definition of junior equity interest by granting regulatory authority to treat a partnership interest with rights that are junior with respect to either income or capital as a junior equity interest. The House bill also modifies the definition of distribution right by replacing the junior equity interest exception with an exception for a right under an interest that is junior to the rights of the transferred interest. As a result, section 2701 does not affect the valuation of a transferred interest that is senior to the retained interest, even if the retained interest is not a junior equity interest.

The House bill modifies the rules for electing into or out of qualified payment treatment. A dividend payable on a periodic basis and at a fixed rate under a cumulative preferred stock held by the transferor is treated as a qualified payment unless the transferor elects otherwise. If held by an applicable family member, such stock is not treated as a qualified payment unless the holder so elects.[5] In addition, a transferor or applicable family member holding any other distribution right may treat such right as a qualified payment to be paid in the amounts and at the times specified in the election.

Inclusion in transfer tax base

The House bill grants the Treasury Department regulatory authority to make subsequent transfer tax adjustments to reflect the inclusion of unpaid amounts with respect to a qualified payment. This authority, for example, would permit the Treasury Department to eliminate the double taxation that might occur if, with respect to a transfer, both the inclusion and the value of qualified payment arrearages were included in the transfer tax base. It would also permit elimination of the double taxation that might result from a transfer to a spouse, who, under the statute, is both an applicable family member and a member of the transferor's family.

The House bill treats a transfer to a spouse falling under the annual exclusion the same as a transfer qualifying for the marital deduction. Thus, no inclusion would occur upon the transfer of an applicable retained interest to a spouse, but subsequent transfers by the spouse would be subject to inclusion. The House bill also clarifies that the inclusion continues to apply if an applicable family member transfers a right to qualified payments to the transferor.

The provision clarifies the consequences of electing to treat a distribution as giving rise to an inclusion. Under the House bill, the election gives rise to an inclusion only with respect to the payment for which the election is made. The inclusion with respect to other payments is unaffected.

Trust and term interests in property

The House bill conforms section 2702 to existing regulatory terminology by substituting the term "incomplete gift" for "incomplete transfer." In addition, the House bill limits the exception for incomplete gifts to instances in which the entire gift is incomplete. The Treasury Department is granted regulatory authority, however, to create additional exceptions not inconsistent with the purposes of the section. This authority, for example, could be used to except a charitable trust that meets the requirements of section 664 and that does not otherwise create an opportunity for transferring property to a family member free of transfer tax.

Options and buy-sell agreements

The House bill modifies the exception to the rule disregarding an option for transfer tax valuation. The requirement that the option, agreement, right or restriction not be a device to transfer the property to members of the decedent's family is revised to require that the option not be a device to transfer the property to persons who are natural objects of the bounty of the transferor. This revision conforms section 2703 to the Treasury regulations and recognizes that the section applies with respect to all transfer taxes.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the Senate amendment does not include the amendment to the rules relating to buy-sell agreements which would provide that the rules would apply to devices to transfer property to persons who are natural object of the bounty of the transferor.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

G. MISCELLANEOUS PROVISIONS

1. Conforming amendments to the repeal of the General Utilities doctrine (secs. 6101(g) (1) and (2) of the House bill, secs. 6101(g) (1) and (2) of the Senate amendment, sec. 11702(e)(2) of the 1990 Act, and secs. 897(f) and 1248 of the Code)

PRESENT LAW

As a result of changes made by recent tax legislation, gain is generally recognized on the distribution of appreciated property by a corporation to its shareholders. The Technical Corrections subtitle of the 1990 Act and technical correction provisions in prior acts made various conforming amendments arising out of these changes. For example, the 1990 Act made a conforming change to section 355(c) to state the treatment of distributions in section 355 transactions in the affirmative rather than by reference to the provisions of section 311. In addition, the Technical and Miscellaneous Revenue Act of 1988 (the "1988 Act") made a conforming change to section 1248(f) to update the references to the nonrecognition provisions contained in that subsection. One of the changes was to change the reference to "section 311(a)" from "section 311".

HOUSE BILL

The House bill makes three conforming changes to the Code.

First, section 897(f), relating to the basis in a United States real property interest distributed to a foreign person, is repealed as deadwood. The basis of the distributed property is its fair market value in accordance with section 301(d).

Second, section 1248(f) is amended to add a reference to section 355(c)(1), which provides generally for the nonrecognition of gain or loss on the distribution of stock or securities in certain subsidiary corporations. This retains the substance of the law as it existed before the conforming change to section 355(c) made by the 1990 Act.

Third, section 1248 is amended to clarify that, notwithstanding the conforming changes made by the 1988 Act, with respect to any transaction in which a U.S. person is treated as realizing gain from the sale or exchange of stock of a controlled foreign corporation, the U.S. person shall be treated as having sold or exchanged the stock for purposes of applying section 1248. Thus, if a U.S. person distributes appreciated stock of a controlled foreign corporation to its shareholders in a transaction in which gain is recognized under section 311(b), section 1248 shall be applied as if the stock had been sold or exchanged at its fair market value. Under section 1248(a), part or all of the gain may be treated as a dividend. Under the House bill, the rule treating the distribution for purposes of section 1248 as a sale or exchange also applies where the U.S. person is deemed to distribute the stock under the provisions of section 1248(i). Under section 1248(i), gain will be recognized only to the extent of the amount treated as a dividend under section 1248.

---

[5] With respect to gifts made in 1990, the House bill provides that this election may be made by the due date (including extensions) of the transferor's 1991 gift tax return.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. The conferees do not intend by these amendments to affect the authority of the Secretary of the Treasury to issue regulations under section 1248(f) providing exceptions to the rule recognizing gain in certain distributions (cf. Notice 87-64, 1987-2 C.B. 375).

2. Prohibited transaction rules (sec. 6101(g)(3) of the House bill, sec. 6101(g)(3) of the Senate amendment, sec. 11701(m) of the 1990 Act, and sec. 4975 of the Code)

PRESENT LAW

The Code and title I of the Employee Retirement Income Security Act of 1974 (ERISA) prohibit certain transactions between an employee benefit plan and certain persons related to such plan. An exemption to the prohibited transaction rules of title I of ERISA is provided in the case of sales of employer securities the plan is required to dispose of under the Pension Protection Act of 1987 (ERISA sec. 408(b)(12)). The 1990 Act amended the Code to provide that certain transactions that are exempt from the prohibited transaction rules of ERISA are automatically exempt from the prohibited transaction rules of the Code. The 1990 Act change was intended to be limited to transactions exempt under section 408(b)(12) of ERISA.

HOUSE BILL

The House bill conforms the statutory language to legislative intent by providing that transactions that are exempt from the prohibited transaction rules of ERISA by reason of ERISA section 408(b)(12) are also exempt from the prohibited transaction rules of the Code.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

3. Effective date of LIFO adjustment for purposes of computing adjusted current earnings (sec. 6101(g)(4) of the House bill, sec. 6101(g)(4) of the Senate amendment, sec. 11701 of the 1990 Act, sec. 7611(b) of the 1989 Act, and sec. 56(g) of the Code)

PRESENT LAW

For purposes of computing the adjusted current earnings (ACE) component of the corporate alternative minimum tax, taxpayers are required to make the LIFO inventory adjustments provided in section 312(n)(4) of the Code. Section 312(n)(4) generally is applicable for purposes of computing earnings and profits in taxable years beginning after September 30, 1984. The ACE adjustment generally is applicable to taxable years beginning after December 31, 1989.

HOUSE BILL

The House bill clarifies that the LIFO inventory adjustment required for ACE purposes shall be computed by applying the rules of section 312(n)(4) only with respect to taxable years beginning after December 31, 1989. The effective date applicable to the determination of earnings and profits (September 30, 1984) is inapplicable for purposes of the ACE LIFO inventory adjustment. Thus, the ACE LIFO adjustment shall be computed with reference to increases (and decreases, to the extent provided in regulations) in the ACE LIFO reserve in taxable years beginning after December 31, 1989.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

4. Low-income housing credit (sec. 6101(g)(5) of the House bill, sec. 6101(g)(5) of the Senate amendment, sec. 11701(a)(11) of the 1990 Act, and sec. 42 of the Code)

PRESENT LAW

The amendments to the low-income housing tax credit contained in the Omnibus Budget Reconciliation Act of 1989 generally were effective for a building placed in service after December 31, 1989, to the extent the building was financed by tax-exempt bonds ("a bond-financed building"). This rule applied regardless of when the bonds were issued.

A technical correction enacted in the Revenue Reconciliation Act of 1990 (the "1990 Act") limited this effective date to buildings financed with bonds issued after December 31, 1989. Thus, the technical correction applied pre-1989 Act law to a bond-financed building placed in service after December 31, 1989, if the bonds were issued before January 1, 1990.

HOUSE BILL

The House bill repeals the 1990 technical correction. The House bill provides, however, that pre-1989 Act law will apply to a bond-financed building if the owner of the building establishes to the satisfaction of the Secretary of the Treasury reasonable reliance upon the 1990 technical correction.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment. The conferees intend that, in the case of buildings placed in service before the date of the bill's enactment, reasonable reliance may be established by a showing of compliance with the law as in effect for those buildings before enactment of the amendments made by the bill.

H. EXPIRED OR OBSOLETE PROVISIONS ("DEADWOOD PROVISIONS") (SECS. 6101(H)(1)–(19) OF THE HOUSE BILL, SECS. 6101(H)(1)–(14) OF THE SENATE AMENDMENT, AND SECS. 11801–11816 OF THE 1990 ACT)

PRESENT LAW

The 1990 Act repealed and amended numerous sections of the Code by deleting obsolete provisions ("deadwood"). These amendments were not intended to make substantive changes to the tax law.

HOUSE BILL

The House bill makes several amendments to restore the substance of prior law which was inadvertently changed by the deadwood provisions of the 1990 Act. These amendments include (1) a provision restoring the prior-law depreciation treatment of certain energy property (sec. 168(e)(3)(B)(vi)); (2) a provision restoring the prior-law definition of property eligible for expensing (sec. 179(d)); (3) a provision restoring the prior-law rule providing that if any member of an affiliated group of corporations elects the credit under section 901 for foreign taxes paid or accrued, then all members of the group paying or accruing such taxes must elect the credit in order for any dividend paid by a member of the group to qualify for the 100-percent dividends received deduction (sec. 243(b)); and (4) the provisions relating to the collection of State individual income taxes (secs. 6361–6365).

The House bill also makes several nonsubstantive clerical amendments to conform the Code to the amendments made by the deadwood provisions. None of these amendments is intended to change the substance of pre-1990 law.

SENATE AMENDMENT

The Senate amendment is the same as the House bill except that the Senate amendment did not adopt the corrections provided in House bill sections 6101(h) (15)–(19).

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

II. OTHER TAX TECHNICAL CORRECTIONS

A. HEDGE BONDS (SEC. 6102(B) OF THE HOUSE BILL, SEC. 6102(B) OF THE SENATE AMENDMENT, SEC. 11701 OF THE 1990 ACT, AND SEC. 149(G) OF THE CODE)

PRESENT LAW

The 1989 Act provided generally that interest on hedge bonds is not tax-exempt unless prescribed minimum percentages of the proceeds are reasonably expected to be spent at set intervals during the five-year period after issuance of the bonds (sec. 149(g)). A hedge bond is defined generally as a bond (1) at least 85 percent of the proceeds of which are not reasonably expected to be spent within three years following issuance and (2) more than 50 percent of the proceeds of which are invested at substantially guaranteed yields for four years or more.

This restriction does not apply to hedge bonds, however, if at least 95 percent of the proceeds are invested in other tax-exempt bonds (not subject to the alternative minimum tax). The 95-percent investment requirement is not violated if investment earnings exceeding five percent of the proceeds are temporarily invested for up to 30 days *pending reinvestment* in taxable (including alternative minimum taxable) investments.

HOUSE BILL

The House bill clarifies that the 30-day exception for temporary investments of investment earnings applies to amounts (i.e., principal and earnings thereon) temporarily invested during the 30-day period immediately preceding redemption of the bonds as well as such periods preceding reinvestment of the proceeds.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

B. Withholding on Distributions From U.S. Real Property Holding Companies (Sec. 6102(c) of the House Bill, Sec. 6102(c) of the Senate Amendment, Sec. 129 of the Deficit Reduction Act of 1984, and Sec. 1445 of the Code)

Present Law

Under the Foreign Investment in Real Property Tax Act of 1980 (FIRPTA), a foreign investor that disposes of a U.S. real property interest generally is required to pay tax on any gain on the disposition. For this purpose a U.S. real property interest generally includes stock in a domestic corporation that is a U.S. real property holding corporation ("USRPHC"), or was a USRPHC at any time during the previous five years.

A sale or exchange of stock in a USRPHC is an example of a disposition of a U.S. real property interest. In addition, provisions of subchapter C of the Code treat amounts received in certain corporate distributions as amounts received in sales or exchanges, giving rise to tax liability under the FIRPTA rules when a foreign person receives such a distribution from a present or former USRPHC. Thus, amounts received by a foreign shareholder in a USRPHC in a distribution in complete liquidation of the USRPHC are treated as in full payment in exchange for the USRPHC stock, and are therefore subject to tax under FIRPTA (sec. 331; Treas. Reg. sec. 1.897-5T(a)(2)(iii)). Similarly, amounts received by a foreign shareholder in a USRPHC upon redemption of the USRPHC stock are treated as a distribution in part or full payment in exchange for the stock, and are therefore subject to tax under FIRPTA (sec. 302(a); Treas. Reg. sec. 1.897-5T(a)(2)(ii)). Third, amounts received by a foreign shareholder in a USRPHC, in a section 301 distribution from the USRPHC that exceeds the available earnings and profits of the USRPHC, are treated as gain from the sale or exchange of the shareholder's USRPHC stock to the extent that they exceed the shareholder's adjusted basis in the stock; such amounts are therefore also subject to tax under FIRPTA (sec. 301(c)(3); Treas. Reg. sec. 1.897-5T(a)(2)(i)).

FIRPTA withholding

The Tax Reform Act of 1984 established a withholding system to enforce the FIRPTA tax. Unless an exception applies, a transferee of a U.S. real property interest from a foreign person generally is required to withhold the lesser of ten percent of the amount realized (purchase price), or the maximum tax liability on disposition (as determined by the IRS) (sec. 1445).

Although the FIRPTA withholding requirement by its terms generally applies to all dispositions of U.S. real property interests, and subchapter C treats amounts received in certain distributions as amounts received in sales or exchanges, the FIRPTA withholding provisions also provide express rules for withholding on certain distributions treated as sales or exchanges. Generally, distributions in a transaction to which section 302 (redemptions) or part II of subchapter C (liquidations) applies are subject to 10 percent withholding.[6] Although a section 301 distribution in excess of earnings and profits is also treated as a disposition for purposes of computing the FIRPTA liability of a foreign recipient of the distribution, there is no corresponding withholding provision expressly addressed to the payor of such a distribution.

House Bill

The House bill clarifies that FIRPTA withholding requirements apply to any section 301 distribution to a foreign person by a domestic corporation that is or was a USRPHC, which distribution is not made out of the corporation's earnings and profits and is therefore treated as an amount received in a sale or exchange of a U.S. real property interest. (The House bill does not alter the withholding treatment of section 301 distributions by such a corporation that *are* out of earnings and profits.) Under the House bill, the FIRPTA withholding requirements that apply to a section 301 distribution not out of earnings and profits are similar to the requirements applicable to redemption or liquidation distributions to a foreign person by such a corporation. The provision is effective for distributions made after the date of enactment of the bill.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The Conference agreement follows the House bill and the Senate amendment. The conferees intend that no inference be drawn from the provision as to the FIRPTA withholding requirements applicable to such a distribution under present law.

C. Treatment of Credits Attributable to Working Interests in Oil and Gas Properties (Sec. 6102(d) of the House Bill, Sec. 6102(d) of the Senate Amendment, Sec. 501 of the Tax Reform Act of 1986, and Sec. 469 of the Code)

Present Law

Under present law, a working interest in an oil and gas property which does not limit the liability of the taxpayer is not a "passive activity" for purposes of the passive loss rules (sec. 469). However, if any loss from an activity is treated as not being a passive loss by reason of being from a working interest, any net income from the activity in subsequent years is not treated as income from a passive activity, notwithstanding that the activity may otherwise have become passive with respect to the taxpayer.

House Bill

The House bill provides that any credit attributable to a working interest in an oil and gas property, in a taxable year in which the activity is no longer treated as not being a passive activity, will not be treated as attributable to a passive activity to the extent of any tax allocable to the net income from the activity for the taxable year. Any credits from the activity in excess of this amount of tax will continue to be treated as arising from a passive activity and will be treated under the rules generally applicable to the passive activity credit.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

D. Clarification of Passive Loss Disposition Rule (Sec. 6102(e) of the House Bill, Sec. 6102(d) of the Senate Amendment, Sec. 501 of the Tax Reform Act of 1986, Sec. 1005(a)(2)(A) of the Technical and Miscellaneous Revenue Act of 1988, and Sec. 469(g)(1)(A) of the Code)

Present Law

The Tax Reform Act of 1986 provided that if a passive activity is disposed of in a transaction in which all gain or loss is recognized, any overall loss from the activity in the year of disposition is recognized and allowed against income (whether active or passive income).[7] The language of the 1986 Act provided that any loss was allowable, first, against income or gain from the passive activity, second, against income or gain from all passive activities, and finally, against any other income or gain. This rule was rewritten by the technical corrections portion of the Technical and Miscellaneous Revenue Act of 1988. The statutory language (as amended by the 1988 Act) providing for the computation of the overall loss for the taxable year of disposition is not entirely clear where the activity is disposed of at a gain.

House Bill

The House bill clarifies the rule relating to the computation of the overall loss allowed upon the disposition of a passive activity. The House bill provides that, in a transaction in which all gain or loss is recognized on the disposition of a passive activity, any loss from the activity for the taxable year (taking into account all income, gain, and loss, including gain or loss recognized on the disposition) in excess of any net income or gain from other passive activities for the taxable year is treated as a loss which is not from a passive activity. The provision applies to taxable years beginning after December 31, 1986.

Senate Amendment

The Senate amendment is the same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

E. Taxation of Excess Inclusions of a Residual Interest in a REMIC for Taxpayers Subject to Alternative Minimum Tax With Net Operating Losses (Sec. 6102(i) of the House Bill, Sec. 6102(e) of the Senate Amendment, and Sec. 860E(a)(6) of the Code)

Present Law

Residual Interests in a REMIC

A real estate mortgage investment conduit ("REMIC") is an entity that holds real estate mortgages. All interests in a REMIC must be "regular interests" or "residual interests." A regular interest is an interest the terms of which are fixed on the start-up day, which unconditionally entitles the holder to receive a specified principal amount, and which provides that interest amounts are payable based on a fixed rate (or a variable rate to the extent provided in the Treasury regulations). A residual interest is any interest that is so designated and that is not a regular interest in a REMIC.

Generally, the holder of a residual interest in a REMIC takes into account his daily portion of the taxable income or net loss of such REMIC for each day during which he held such interest. The taxable income of any holder of a residual interest in a REMIC for any taxable year cannot be less than the excess inclusion for the year (sec. 860E). Thus, in general, income from excess inclusions cannot be offset by a net operating loss (or net operating loss carryover) in computing the taxpayer's regular tax.

---

[6] Under other rules, dividend distributions (i.e., distributions to which sec. 301(c)(1) applies) to foreign persons by U.S. corporations, including USRPHCs, are subject to 30-percent withholding under the Code. Under treaties, the withholding on a dividend may be reduced to as little as 5 or 15 percent.

[7] See S. Rept. 99-313, p. 725.

Alternative minimum tax

Taxpayers are subject to an alternative minimum tax which is payable, in addition to all other tax liabilities, to the extent it exceeds the taxpayer's regular tax. The tax is imposed at a rate of 24 percent (20 percent in the case of a corporation) on alternative minimum taxable income in excess of an exemption amount. Alternative minimum taxable income generally is the taxpayer's taxable income, as increased or decreased by certain adjustments and preferences. Under the alternative tax net operating loss deduction, a taxpayer may deduct ninety percent of its net operating loss carryovers against alternative minimum taxable income.

Because the determination of a taxpayer's alternative minimum taxable income begins with taxable income, a holder of a residual interest in a REMIC may have positive alternative minimum taxable income even where the taxpayer has a net operating loss for the year.

HOUSE BILL

The House bill provides that the present law rule, that the taxable income of a REMIC residual interest shall not be less than its excess inclusions, shall not apply for purposes of the alternative minium tax. Accordingly, the bill permits a net operating loss (and net operating loss carryovers) to offset income from excess inclusions in computing alternative minimum taxable income. Under the House bill, all taxpayers subject to the alternative minimum tax will pay a tax on excess inclusions at the alternative minimum tax rate, regardless of whether the taxpayer has a net operating loss. The provision is effective for taxable years beginning after December 31, 1986.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that the Senate amendment also provides that the alternative tax net operating loss deduction will be determined by disregarding any excess inclusions for the loss year and for each year to which the loss may be carried. Thus, under the Senate amendment, it is clear that the alternative tax net operating loss deduction cannot offset income from excess inclusions.

The provision of the Senate amendment disregarding the REMIC rule in computing alternative minimum taxable income applies to taxable years beginning after December 31, 1986. The provision of the Senate amendment disregarding excess inclusions in computing the alternative tax net operating loss deduction applies to excess inclusions in taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement generally follows the Senate amendment with clarifying technical modifications and a change in the effective date. The conference agreement provides three rules for determining the alternative minimum taxable income of a taxpayer that is not a thrift institution that holds residual interests in a REMIC

First, the alternative minimum taxable income of such a taxpayer is computed without regard to the REMIC rule that taxable income cannot be less than the amount of excess inclusions. This provision prevents a taxpayer from having to include in alternative minimum taxable income preference items for which it received no tax benefit.

Second, the alternative minimum taxable income of such a taxpayer for a taxable year cannot be less than the excess inclusions of the residual interests for that year. In effect, this provision prevents nonrefundable credits from reducing the taxpayer's income tax below an amount equal to what the tentative minimum tax would be if computed only on excess inclusions.

Finally, the amount of any alternative minimum tax net operating loss deduction of such a taxpayer is computed without regard to any excess inclusions. This provision insures that the net operating losses will not reduce any income attributable to any excess inclusions. Thus, all such taxpayers subject to the alternative minimum tax will pay a tax on excess inclusions at the alternative minimum tax rate, regardless of whether the taxpayer has a net operating loss.

The conference agreement is effective for all taxable years beginning after December 31, 1986, unless the taxpayer elects to apply the conference agreement rules only to taxable years beginning after the date of enactment.

F. CONFORMING AMENDMENTS RELATING TO PENSION REEMPLOYMENT RIGHTS OF MEMBERS OF THE UNIFORMED SERVICES (SEC. 6102(j) OF THE HOUSE BILL, SEC. 6103(b) OF THE SENATE AMENDMENT, AND SEC. 414 OF THE CODE)

LEGISLATIVE BACKGROUND AND PRESENT LAW

Veterans' bill

H.R. 1578 ("Uniformed Services Employment and Reemployment Rights Act of 1991") was passed by the House of Representatives on May 14, 1991. The bill was referred to the Senate Committee on Veterans' Affairs on May 16, 1991. On November 7, 1991, S. 1095 ("Uniformed Services Employment and Reemployment Rights Act of 1991") was reported by the Senate Committee on Veterans' Affairs (S. Rept. 102-203), and is pending before the Senate.

H.R. 1578, as passed by the House, and S. 1095, as reported by the Senate Committee on Veterans' Affairs, each amend chapter 43 of title 38, United States Code, to provide for reemployment rights and benefits for individuals who serve in the uniformed services (i.e., the United States Armed Forces or the commissioned corps of the Public Health Service). Each of the bills provides, among other things, that service in the uniformed services is considered service with the employer for retirement plan benefit accrual purposes; the employer that reemploys the individual is liable for funding any resulting obligation; and the reemployed individual is entitled to any accrued benefits derived from employee contributions to the extent that the individual makes payments to the plan with respect to the contributions.

Internal Revenue Code

Under the Internal Revenue Code, overall limits are provided on contributions and benefits under certain retirement plans. Annual additions with respect to each participant under a qualified defined contribution plan generally are limited to the lesser of $30,000 or 25 percent of compensation. Annual deferrals with respect to each participant under an eligible deferred compensation plan (sec. 457) generally are limited to the lesser of $7,500 or 33⅓ of includible compensation. There is no provision under present law that permits contributions or deferrals to exceed these annual limits in the case of required contributions with respect to a reemployed member of the uniformed services.

Other requirements for which there is no special provision for required contributions with respect to a reemployed member of the uniformed services include the qualified plan nondiscrimination and coverage rules.

HOUSE BILL

The provision amends the Internal Revenue Code to provide special rules in the case of certain required contributions ("make-up contributions") with respect to a reemployed member of the uniformed services. The provision applies only with respect to contributions to a qualified defined contribution plan or eligible deferred compensation plan (sec. 457) that are required under chapter 43 of title 38, United States Code ("title 38") as in effect on December 31, 1992.

Under the provision, if any contribution is made by an employer under a qualified defined contribution plan or eligible deferred compensation plan ("individual account plan") with respect to an individual, and such contribution is required by reason of the individual's rights under title 38, then such contribution is not subject to the generally applicable plan contribution limits in the year in which made.[8] In addition, a plan under which such make-up contribution is made will not be treated as failing to meet any requirement applicable to individual account plans (e.g., nondiscrimination rules) by reason of the making of such contribution, nor will the make-up contribution be taken into account in applying the plan contribution limits to any other contribution made during the year.

A special rule applies in the case of make-up contributions of salary reduction and employer matching amounts. Under the provision, a plan that provides for elective deferrals will be treated as meeting the requirements of title 38 if the employer permits reemployed servicepersons to make additional elective deferrals under the plan during the period which begins on the date of reemployment and has the same length as the period of the individual's absence due to uniformed service. The amount of the additional deferrals may not exceed the amount of deferrals that the individual would have been permitted to make under the plan had the individual continued to be employed by the employer during the period of uniformed service and received compensation at the same rate as received from the employer immediately before such service.

The employer is required to match any additional elective deferrals at the same rate that would have been required had the deferrals actually been made during the period of uniformed service. Additional deferrals and employer matching contributions are treated as required employer contributions for purposes of the rule exempting such contributions from the plan qualification rules described above.

The provision clarifies that nothing in title 38 is to be construed as requiring any earnings to be credited to an employee with respect to any contribution before such contribution is actually made. In addition, nothing in title 38 requires any make-up allocation of any forfeiture, or of any employer contribution which was either (1) voluntary (such as a discretionary profit-sharing contribution) or (2) the total amount of which was determined without reference to the number of, or compensation of, plan participants before being allocated to the accounts of participants. For example, make-up contributions would not be required under a plan that provides for a contribution of a set dollar amount, or set percentage of profits, each year. However, make-up contributions would be required under a plan that provides for contributions based on a percentage of participants' compensation. Any election by an employer to provide credit for such amounts (to the extent permitted under title 38) is subject to applicable nondiscrimination and other plan qualification standards.

---

[8] However, the amount of any make-up contribution cannot exceed the aggregate amount of employer contributions that would have been permitted under the plan contribution limits had the individual continued to be employed by the employer during the period of uniformed service.

The provision also provides that a plan may suspend repayment of a plan loan for the period of uniformed service without adverse consequences to the individual.

Effective date.—The provision is effective only if the amendments to chapter 43, title 38, United States Code, described above (or substantially similar amendments to such chapter) are enacted in the 102nd Congress. In such case, the provision applies in cases in which the employee is reemployed on or after August 1, 1990.

SENATE AMENDMENT

The Senate amendment is generally the same as the House bill.

In addition, the Senate amendment clarifies that a plan under which required make-up contributions are made would not be treated as failing to meet any requirement applicable to individual account plans (e.g., nondiscrimination rules, including the average deferral and contribution percentage tests under secs. 401(k) and (m)) solely by reason of the making of such contribution, nor would the make-up contribution be taken into account in applying the plan contribution limits to any other contribution made during the year. Under the Senate amendment, required contributions are deductible by the employer in the year made, notwithstanding the generally applicable deduction limit on plan contributions (sec. 404(a)), and such contributions would not be taken into account in determining the deductibility of other plan contributions made during the year.

The Senate amendment provides that, under the special rule that applies in the case of make-up contributions of salary reduction and employer matching amounts, the period during which an employer must permit make-up contributions of salary reduction amounts is limited to no more than 5 years.

The Senate amendment clarifies that nothing in title 38 can be construed as requiring any earnings (or make-up earnings) to be credited to an employee with respect to any contribution before such contribution is actually made.

The Senate amendment clarifies that, because make-up contributions would not be made retroactively, but only after a serviceperson's reemployment, amended tax and information returns generally would not be required.

Effective date.—Same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

G. EXCLUSION FROM INCOME FOR COMBAT ZONE COMPENSATION (SEC. 6102(l)(4) OF THE HOUSE BILL, SEC. 6102(f)(4) OF THE SENATE AMENDMENT, AND SEC. 112 OF THE CODE)

PRESENT LAW

The Code provides that gross income does not include compensation received by a taxpayer for active service in the Armed Forces of the United States for any month during any part of which the taxpayer served in a combat zone (or was hospitalized as a result of such service) (limited to $500 per month for officers). The heading refers to "combat pay," although that term is no longer used to refer to special pay provisions for members of the Armed Forces, nor is the exclusion limited to those special pay provisions (hazardous duty pay (37 U.S.C. sec. 301) and hostile fire or imminent danger pay (37 U.S.C. sec. 310)).

HOUSE BILL

The House bill modifies the heading of Code section 112 to refer to "combat zone compensation" instead of "combat pay". The House bill also makes conforming changes to cross-references elsewhere in the Code.

SENATE AMENDMENT

The Senate amendment is the same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

H. ESTATE TAX UNIFIED CREDIT ALLOWED NONRESIDENT ALIENS UNDER TREATY (SEC. 6102(f)(1) OF THE HOUSE BILL, SEC. 5032(b)(2) OF THE TECHNICAL AND MISCELLANEOUS REVENUE ACT OF 1988, AND SEC. 2102(c)(3)(A) OF THE CODE)

PRESENT LAW

Amount subject to tax

For U.S. citizens and residents, the amount subject to Federal estate and gift tax is determined by reference to all property, wherever situated. For nonresident aliens, the Code provides that the amount subject to Federal estate and gift tax is determined only by reference to property situated in the United States.

The United States has entered into bilateral treaties designed to avoid double transfer taxation. Early treaties typically did this by providing rules for determining situs and requiring that the State of domicile allow a credit for taxes paid to the situs country.[9] In contrast, treaties signed in the 1980s, and the U.S. and OECD model treaties, exempt most property, wherever situated, from taxation outside the State of domicile.[10]

Specific exemption and unified credit

Prior to the Tax Reform Act of 1976, the Code allowed a "specific exemption" against the estate tax. The estate of a U.S. citizen or resident was allowed an exemption of $60,000, while the estate of a nonresident alien was allowed a lesser amount. A number of U.S. estate tax treaties ratified in the 1950s allowed a nonresident alien a "specific exemption" equal to the exemption allowed a U.S. citizen or resident multiplied by the percentage of the gross estate subject to U.S. estate tax (the "pro rata exemption").[11]

The Tax Reform Act of 1976 replaced the specific exemption with a unified credit of $47,000 for the estate of U.S. citizen or resident and $3,600 for the estate of a nonresident alien. After 1976, two courts interpreted the pro rata exemption allowed in the 1950s treaties as applying to the unified credit, i.e., as allowing a unified credit no less than the unified credit allowed a U.S. citizen or resident multiplied by the percentage of the gross estate situated in the United States (and therefore subject to U.S. estate tax under those treaties).[12]

The Technical and Miscellaneous Revenue Act of 1988 ("TAMRA") increased the unified credit allowed an estate of a nonresident alien to $13,000. In so doing, TAMRA provided that, "to the extent required by any treaty," the estate of a nonresident alien is allowed a unified credit equal to the unified credit allowed a U.S. citizen or resident multiplied by the percentage of the gross estate situated in the United States (Code sec. 2102(c)(3)(A)). Thus, TAMRA did not override the "specific exemption" language of the 1950s treaties, as interpreted by the two courts, and could be interpreted as encouraging the negotiation of pro rata unified credits in future treaties.

HOUSE BILL

The House bill clarifies that in determining the pro rata unified credit required by treaty, property exempted by the treaty from U.S. estate tax is not treated as situated in the United States. Under this rule, a treaty granting a pro rata unified credit would allow a nonresident alien the unified credit allowed a U.S. citizen or resident multiplied by the percentage of the gross estate subject to U.S. estate tax, as modified by treaty.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill. The conferees do not intend to affect existing treaties containing pro rata exemptions, because in those treaties taxation follows situs. For future treaties, the conferees intend that any pro rata unified credit negotiated not exceed the proportion of the gross worldwide estate subject to U.S. estate and gift tax, as modified by treaty.

I. LIMITATION ON DEDUCTION FOR CERTAIN INTEREST PAID BY CORPORATION TO RELATED PERSON (SEC. 6102(F)(2) OF THE HOUSE BILL, SEC. 7210(A) OF THE 1989 ACT, AND SEC. 163(J) OF THE CODE)

PRESENT LAW

Subject to certain limitations, a taxpayer may deduct interest paid or accrued on indebtedness within a taxable year (sec. 163(a)). The 1989 Act added a so-called "earnings stripping" limitation on interest deductibility with respect to certain interest paid by corporations to related persons (sec. 163(j)). If the provision applies to a corporation for a taxable year, it disallows deductions for certain amounts of "disqualified interest" paid or accrued by the corporation during that year. If in a taxable year a deduction is disallowed, under the provision, for an amount of interest paid or accrued in that year, the disallowed amount is treated under the earnings stripping provision as disqualified interest paid or accrued in the succeeding taxable year.[13]

In order for the earnings stripping provision to apply to a corporation for a taxable year, two thresholds must be exceeded. To exceed the first threshold, the corporation must have "excess interest expense" as that term is defined in the Code for this purpose. To exceed the second threshold, the corporation must have a ratio of debt to equity as of the close of the taxable year in question (or on any other day prescribed by the Secretary in regulations) that exceeds 1.5 to 1. Excess interest expense is the excess (if any) of the corporation's net interest expense over the sum of 50 percent of the adjusted taxable income of the corporation plus any excess limitation carryforward from a prior year. Excess limitation is the excess (if any) of 50 percent of adjusted taxable income over net interest expense.

---

[9] See Staff of the Joint Committee on Taxation, 98th Cong., 2d Sess., *Explanation of Proposed Estate and Gift Tax Treaty Between the United States and Sweden* 8 (1984).

[10] See, e.g., U.S. Treasury Model Estate and Gift Tax Treaty (1980), Article 7, paragraph 1: "Transfers and deemed transfers by an individual domiciled in a Contracting State of property other than property referred to in Article 5 (Real Property) and 6 (Business Property of a Permanent Establishment and Assets Pertaining to a Fixed Base Used for the Performance of Independent Personal Services) shall be taxable only in that State."

[11] See Rev. Rul. 81-303, 1981-2 C.B. 255.

[12] See *Mudry v. United States*, 11 Cl. Ct. 207 (1986) (Swiss treaty); *Burghardt v. Commissioner*, 80 T.C. 705 (1983), *aff'd*, 734 F.2d 3 (3d Cir. 1984) (Italian treaty).

[13] Disqualified interest is interest paid by a corporation to related persons that are not subject to U.S. tax on the interest received. (If, in accordance with a U.S. income tax treaty, interest income of a related person is subject to a reduced rate of U.S. tax, a portion of the interest paid to the related person is deemed to be interest on which no tax is imposed.)

HOUSE BILL

The House bill provides that the debt-equity threshold does not apply for purposes of applying the earnings stripping provision to a carryover of excess interest expense from a prior taxable year. Thus, the House bill clarifies that excess interest carried forward from a year in which the debt-equity ratio threshold is exceeded may be deducted in a subsequent year in which that threshold is not exceeded, but only to the extent that such interest would not otherwise be treated as excess interest expense in the carryforward year.

For example, assume that in year 1 $20 of a corporation's interest expense is nondeductible due to the operation of the earnings stripping provision. The corporation carries forward the $20 of interest deduction that it could not use in year 1. Assume that in year 2 the corporation has a debt-equity ratio of 1 to 1 and $50 of current net and gross interest expense, all of which is disqualified interest, and that it earns $400 of adjusted taxable income. The House bill is intended to clarify that the $20 of interest carried forward from year 1 is deductible in year 2. This is because $70, the sum of the current net interest expense for year 2 ($50) plus the interest expense carried over from year 1 ($20), does not exceed one-half of adjusted taxable income in year 2.

As another example, assume that in year 2 the corporation has a debt-equity ratio of 1 to 1 and $50 of current net and gross interest expense, all of which is disqualified interest, and that it earns $80 of adjusted taxable income. The House bill is intended to clarify that the $20 of interest carried forward from year 1 is not deductible in year 2. This is because the current net interest expense for year 2 ($50) exceeds by $10 one-half of adjusted taxable income in year 2 ($80 divided by 2, or $40). Therefore, treating the year 1 carryover as an interest expense in year 2 causes the corporation to have excess interest expense equal to $30. But for the debt-equity safe harbor, the corporation would have a $30 interest expense disallowance in year 2 if the carried over amount were treated as having been paid in year 2. Under the House bill, no actual year 2 interest can be disallowed. However, under these facts, none of the interest carried over from year 1 can be deducted in year 2. Instead, the interest carried over from year 1 is carried forward for potential deduction (subject to the same rules that applied to the carryforward in year 2) in a year subsequent to year 2.

As a third example, assume that in year 2 the corporation has a debt-equity ratio of 1 to 1 and $50 of current net and gross interest expense, all of which is disqualified interest, and that it earns $110 of adjusted taxable income. The House bill is intended to clarify that $5 of interest carried forward from year 1 is deductible in year 2, and the other $15 of interest carried forward from year 1 is not deductible in year 2. This is because the current net interest expense for year 2 ($50) is $5 less than one-half of adjusted taxable income in year 2 (one-half of $110, or $55). Therefore, even if the debt-equity safe harbor had not been met in year 2, the corporation would have had $5 of excess limitation in year 2 had there been no carryover amount from year 1. On the other hand, treating the year 1 carryover as an interest expense in year 2 causes the corporation to have excess interest expense equal to $15. This $15 may be carried forward to a subsequent year.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

J. BRANCH-LEVEL INTEREST TAX (SEC. 6102(F)(3) OF THE HOUSE BILL, SEC. 1241 OF THE 1986 ACT, AND SEC. 884 OF THE CODE)

PRESENT LAW

Interest paid (or treated as if paid) by a U.S. trade or business (i.e., a U.S. branch) of a foreign corporation is treated as if paid by a U.S. corporation and, hence, is U.S. source and subject to U.S. withholding tax of 30 percent, unless the tax is reduced or eliminated by a specific Code or treaty provision. The Treasury has regulatory authority to limit U.S. sourcing, and hence U.S. withholding, to the amount of interest reasonably expected to be deducted in arriving at the U.S. branch's effectively connected taxable income.

To the extent a U.S. branch of a foreign corporation has allocated to it under Treasury Regulation section 1.882-5 an interest deduction in excess of the interest actually paid by the branch (this generally occurs where the indebtedness of the U.S. branch is disproportionately small compared to the total indebtedness of the foreign corporation), the excess is treated as if it were interest paid on a notional loan to a U.S. subsidiary (the U.S. branch, in actuality) from its foreign corporate parent (the home office). This excess is subject to the 30-percent tax, absent a specific Code exemption or treaty reduction (sec. 884(f)(1)(B)).

These branch-level interest taxes, along with the branch profits tax, were intended to reflect the view that a foreign corporation doing business in the United States generally should be subject to the same substantive tax rules that apply to a foreign corporation operating in the United States through a U.S. subsidiary.[14] Where a U.S. corporation pays interest to its foreign corporate parent, that interest, like the interest deducted by a U.S. branch of a foreign corporation, is also generally subject to a 30-percent U.S. withholding tax unless the tax is reduced by treaty. In the case of a U.S. subsidiary of a foreign parent corporation, the withholding tax applies without regard to whether the interest payment is currently deductible by the U.S. subsidiary. For example, deductions for interest may be delayed or denied under section 163, 263, 263A, 266, 267, or 469, but it is still subject (or not subject) to withholding when paid without regard to the operation of those provisions.

HOUSE BILL

The House bill provides that the branch level interest tax on interest not actually paid by the branch applies to any interest which is allocable to income which is effectively connected with the conduct of a trade or business in the United States. Similarly, in the case of interest paid by the U.S. branch, the House bill provides regulatory authority to limit U.S. sourcing, and hence U.S. withholding, to the amount of interest reasonably expected to be allocable to income which is effectively connected with the conduct of a trade or business in the United States. Thus, where an interest expense of a foreign corporation is allocable to U.S. effectively connected income, but that interest expense would not have been fully deductible for tax purposes under another Code provision had it been paid by a U.S. corporation, the House bill clarifies that such interest is nonetheless treated for branch level interest tax purposes like a payment by a U.S. corporation to a foreign corporate parent. Similarly, with regard to the Treasury's regulatory authority to treat an interest payment by a foreign corporation's U.S. branch as though not paid by a U.S. person for source and withholding purposes, the House bill clarifies that the authority extends to interest payments in excess of those reasonably expected to be allocable to U.S. effectively connected income of the foreign corporation.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

K. DETERMINATION OF SOURCE IN CASE OF SALES OF INVENTORY PROPERTY (SEC. 6102(f)(4) of the House Bill, Sec. 211 OF THE 1986 ACT, AND SEC. 865(b) OF THE CODE)

PRESENT LAW

Prior to the 1986 Act, the source of income derived from the sale of personal property generally was determined by the place of sale (commonly referred to as the "title passage" rule) (see, e.g., Treas. Reg. sec. 1.861-7, T.D. 6258, 1957-2 C.B. 368). While the 1986 Act generally replaced the place-of-sale rule for sales of personal property with a residence-of-the-seller rule (sec. 865(a)), the Act did not change the place-of-sale rule for most sales of inventory property (sec. 865(b)).

Before and after the 1986 Act, statutory rules for sourcing income from inventory sales have included those covering income from (i) purchasing inventory property outside the United States (other than within a U.S. possession) and selling it in the United States (sec. 861(a)(6)); (ii) purchasing inventory property in the United States and selling it outside the United States (sec. 862(a)(6)); (iii) selling outside the United States inventory property which has been produced by the taxpayer in the United States (or selling in the United States inventory property which has been produced by the taxpayer outside the United States) (sec. 863(b)(2)); and (iv) purchasing inventory property in a U.S. possession and selling it in the United States (sec. 863(b)(3)). Prior to the 1986 Act, these provisions were not limited in application to income from sales of inventory property, but rather covered sales of personal property generally.

In addition to statutory rules for sourcing items of income from transactions involving inventory property specified in the Code, such as those listed above, the Code both before and after the 1986 Act has contained other sourcing rules that do not make specific reference to property sales, and includes general regulatory authority to allocate and apportion between U.S. and foreign sources items of gross income, expenses, losses, and deductions other than those specified in sections 861(a) and 862(a) (sec. 863(a)). In carving income from the sale inventory property out of the general residence-of-the-seller rule of section 865, section 865(b) makes reference to the above statutory rules making specific reference to inventory property, but not to the general grant of regulatory authority in section 863(a).

---

[14] Staff of the Joint Committee on Taxation, 100th Cong., 1st Sess., *General Explanation of the Tax Reform Act of 1986*, at 1036 (1987).

House Bill

The House bill modifies the general provision relating to the sourcing of income from the sale of personal property (section 865) so that the cross-reference to sourcing rules applicable to inventory property includes a reference to all of section 863, rather than simply to section 863(b). The House bill thus clarifies that, to the extent that the Secretary of the Treasury had general regulatory authority to provide rules for the sourcing of income from the sales of personal property prior to the 1986 Act, the Secretary of the Treasury retains that authority under present law with respect to inventory property.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill. The conference agreement bill is not intended to increase the Treasury Secretary's regulatory authority under section 863(a) beyond the authority that he had under the law in effect prior to the enactment of the 1986 Act. The conferees do not intend that any inference be drawn from this provision either as to the correctness of, or as to the post-1986 Act implications of, any judicial decision interpreting the scope of that pre-1986 Act authority.

L. Repeal of Obsolete Provisions (Sec. 6102(f)(5) of the House Bill, Sec. 10202 of the 1987 Act, and Secs. 6038(a)(1)(F) and 6038A(b)(4) of the Code)

Present Law

A U.S person who controls a foreign corporation must report certain information related to that foreign corporation as may be required by the Treasury Secretary (Code sec. 6038). Information reporting is also required with respect to certain foreign-owned domestic corporations (Code sec. 6038A). Included under each of these information reporting provisions is a requirement to report such information as the Treasury Secretary may require for purposes of carrying out the provisions of section 453C. Section 453C, relating to certain indebtedness treated as payment on installment obligations (the so-called "proportional disallowance rule"), was repealed in the Revenue Act of 1987.

House Bill

The House bill repeals as obsolete the information reporting requirements of sections 6038 and 6038A relating to section 453C.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

M. Clarification of Certain Stadium Bond Transition Rule in Tax Reform Act of 1986 (sec. 6102(g) of the House Bill and Sec. 1317(3)(A) of the Tax Reform Act of 1986)

Present Law

The Tax Reform Act of 1986 included a transition rule authorizing tax-exempt bonds not exceeding $200 million to be issued by or on behalf of the City of Cleveland, Ohio, to finance a stadium. The bonds were required to be issued before January 1, 1991 (and were so issued). As enacted, the rule required Cleveland to retain a residual interest in the stadium following planned private business use.

House Bill

The House bill permits the residual interest in the stadium currently held by the City to Cleveland to be assigned to Cuyahoga County, Ohio, (the county in which both Cleveland and the stadium are located) because of a change in Ohio state law prior to issuance of the bonds. The House bill does not extend the time for issuing the bonds or otherwise affect the amount of bonds or the location or design of the stadium.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

N. Health Care Continuation Rules (sec. 6102(h) of the House bill, sec. 7862(c)(5) of the 1989 Act, sec. 4980B(f)(2)(B)(i) of the Code, sec. 602(2)(A) of ERISA, and sec. 2202(2)(A) of the Public Health Service Act)

Present Law

The Revenue Reconciliation Act of 1989 (the "1989 Act") amended the health care continuation rules to provide that if a covered employee is entitled to Medicare and within 18 months of such entitlement separates from service or has a reduction in hours, the duration of continuation coverage for the spouse and dependents is 36 months from the date the covered employee became entitled to Medicare. One possible interpretation of the statutory language, however, would permit continuation coverage for up to 54 months. This extension of the coverage period was not intended.

House Bill

The House bill amends the Code (sec. 4980B), title I of the Employee Retirement Income Security Act (sec. 602), and the Public Health Service Act (sec. 2202(2)(A)) to limit the continuation coverage in such cases to no more than 36 months. The provision is effective for plan years beginning after December 31, 1989.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

O. Additional Pension Tax Technical Corrections: Rollover and Withholding on Nonperiodic Pension Distributions

Present Law

Under present law, as amended by the Unemployment Compensation Amendments of 1992 (P.L. 102-318) (the Unemployment Act) for years beginning after December 31, 1992, any part of the taxable portion of a distribution from a qualified pension or annuity plan or a tax-sheltered annuity (other than a minimum required distribution) can be rolled over tax free to an individual retirement arrangement (IRA) or another qualified plan or annuity, unless the distribution is one of a series of substantially equal payments made (1) over the life or life expectancy of the participant (or the joint lives or life expectancies of the participant and his or her beneficiary), or (2) over a specified period of 10 years or more (sec. 402).

A qualified retirement or annuity plan must permit participants (and other distributees) to elect to have any distribution that is eligible for rollover treatment paid directly to an eligible retirement plan specified by the participant (sec. 401(a)(31)). An eligible rollover distribution from a tax-deferred annuity plan can be paid directly to another tax-deferred annuity plan. A distribution paid directly to an IRA is not taken into account for purposes of the rule limiting rollovers from one IRA to another to no more than one per year (sec. 408(d)(3)(B)) because it is not a rollover from one IRA to another IRA.

The plan administrator must notify participants of the direct rollover option within a reasonable period of time before a distribution is made. It is expected that the plan administrator will identify the portion of each distribution that is an eligible rollover distribution.

Withholding is imposed at a rate of 20 percent on any distribution that is eligible to be rolled over but that is not paid directly to an eligible retirement plan. Withholding is not required on employer securities. If a participant does not elect to have an eligible rollover distribution paid directly to an eligible retirement plan, the participant may roll over the distribution within 60 days as under prior law.

The following examples illustrate present law:

Example 1.—Suppose a participant receives a nonperiodic distribution of $10,000 from a tax-qualified plan. The distribution is an eligible rollover distribution. If the participant elects to have the distribution paid directly to an eligible retirement plan specified by the participant, the distribution will not be includible in income in the year of the distribution.

Example 2.—Same as example 1, except that if the participant does not elect to have the distribution paid directly to an eligible retirement plan, then the participant receives $8,000, and $2,000 is withheld by the plan administrator and deposited with the IRS. Because the distribution is an eligible rollover distribution, the participant may roll the distribution ($10,000) over to an IRA or other eligible retirement plan within 60 days. If the participant does so, the distribution will not be includible in income in the year of the distribution. The $2,000 withheld will offset the participant's Federal tax liability attributable to other income, or be refunded to the participant after he or she has filed an income tax return for the year.

Example 3.—Same as example 2, except that after electing to receive the distribution the participant decides to roll over only $8,000 ($10,000 less the amount withheld). In this case, the participant must include $2,000 in income for the year of the distribution.[15]

House Bill

No provision.

Senate Amendment

The Senate amendment clarifies that an eligible rollover distribution paid directly to an eligible retirement plan pursuant to section 401(a)(31) is considered to be a plan distribution followed by an immediate rollover (a "direct rollover"). Accordingly, because a direct rollover is considered a distribution, any applicable spousal consent rules must be satisfied just as if the distribution were paid directly to the participant. Alternative forms of distribution available under the transferor plan need not be preserved under the transferee plan.[16] In addition, because the direct rollover also is considered a rollover, the amount paid directly to an eligible retirement plan is not includible in income in the year of the distribution, and special NUA treatment no longer applies with respect to employer securities included in such transfer.

---

[15] The participant may also have to pay a 10-percent additional early withdrawal tax on the $2,000 if he or she has not yet attained age 59½.

The Senate amendment clarifies that a distribution that is one of a series of periodic payments scheduled to be made over the life or life expectancy of the participant (or the joint lives or life expectancies of the participant and his or her beneficiary), or over a specified period of 10 years or more, is not an eligible rollover distribution, even if the form of the distribution may be modified by the participant. Whether distributions subsequent to any modification in the form of distribution (e.g., acceleration) are eligible rollover distributions is to be determined without regard to any distributions made before such modification.

The Senate amendment provides that a participant (or other distributee) is permitted to elect a direct rollover with respect to any portion of an eligible rollover distribution. Thus, for example, a plan may not provide that a participant can directly roll over only the total amount of the distribution or none of the distribution. Withholding at a rate of 20 percent applies to the portion of the distribution not directly rolled over.

The Senate amendment clarifies that rollovers from a tax-sheltered annuity (sec. 403(b)) can only be made to another tax-sheltered annuity, and that the notice requirement applies to tax-sheltered annuities.

The Senate amendment clarifies that the portion of any eligible rollover distribution that represents unrealized appreciation in employer securities generally is subject to the provision requiring the employer to offer the option of a direct rollover, notwithstanding the special rules pertaining to net unrealized appreciation (NUA) in employer securities. For example, suppose a plan participant receives a distribution of employer securities with a value of $15,000, $5,000 of which represents NUA. The total amount is subject to the direct rollover requirements and must be paid, if the participant elects, directly to an eligible retirement plan.

As under present law with respect to participant rollovers, to the extent that amounts attributable to appreciation in employer securities are paid directly to an eligible retirement plan, special NUA treatment no longer applies with respect to such securities. Furthermore, in the case of a distribution other than a lump-sum distribution, if any portion of a distribution that represents unrealized appreciation in employer securities is paid directly to an eligible retirement plan, special NUA treatment does not apply to the portion of the distribution that is paid to the participant. As under present law, withholding is not required with respect to employer securities distributed to the participant.

The Senate amendment provides that the following plan distributions are not eligible rollover distributions: (1) hardship distributions of amounts attributable to elective deferrals under qualified cash-or-deferred arrangements or tax-sheltered annuity plans; (2) withdrawals of elective deferrals that are qualified first-time homebuyer or educational distributions exempt from the additional tax on early withdrawals; (3) corrective distributions of excess deferrals and contributions under qualified cash-or-deferred arrangements; (4) deemed distributions of loans described in section 72(p)(2) that are in default,[17] and (5) certain dividends paid to a plan with respect to employer securities and distributed in cash to participants or their beneficiaries. In addition, so-called "P.S. 58" costs for group-term life insurance are not eligible rollover distributions. Because such distributions are not eligible rollover distributions, they cannot be rolled over, are not subject to the direct rollover requirement, and are not subject to 20-percent withholding.

The Senate amendment provides that other corrective or deemed distributions similar to those described in the preceding paragraph are not eligible rollover distributions to the extent they are specifically identified by the Secretary in regulations. It is intended that the Secretary interpret this grant of regulatory authority restrictively, consistent with Congress' intent in the Unemployment Act to expand the number of distributions eligible for rollover treatment. The Secretary may find it appropriate in certain cases to exempt distributions from the direct rollover and 20-percent withholding requirements but preserve the ability of participants to roll over the distributions themselves.

The Senate amendment provides a *de minimis* exception to the direct rollover requirement, so that a plan does not have to permit a direct rollover of, or withhold upon at a 20-percent rate, distributions of $500 or less. The Senate amendment also provides that a plan does not have to permit a direct rollover of, or withhold upon at a 20-percent rate, any distribution to an alternate payee pursuant to a qualified domestic relations order (QDRO) within the meaning of section 414(p)(1). As under present law, such distributions can be rolled over by the participant if the distribution otherwise qualifies as an eligible rollover distribution. It is intended that the Secretary will provide appropriate rules to prevent abuse of the *de minimis* exception.

The Senate amendment provides that if the portion of any eligible distribution that is a minimum required distribution (sec. 401(a)(9)) is *de minimis* in relation to the portion of such distribution that is not directly rolled over, withholding at a rate of 20 percent applies to the entire portion of the distribution received by the participant. As under present law, such *de minimis* portion may not, however, be rolled over directly or by the participant to an eligible retirement plan. An amount will be considered *de minimis* in relation to the portion of the distribution paid to the participant if it represents no more than 10 percent of such portion.

The Senate amendment provides that a qualified defined benefit plan is an eligible retirement plan to which direct rollovers may be made, provided the plan permits the acceptance of such rollovers.

The Senate amendment provides that social security supplements described in section 411(a)(9) will be disregarded for purposes of determining whether a distribution is one of a series of substantially equal periodic payments. For example, if a participant is entitled to annuity payments of $500 per month for life, supplemented by monthly payments of $200 per month until he or she attains social security age, each monthly payment of $700 received before the social security age and each monthly payment of $500 received after such age are considered to be one of a series of substantially equal periodic payments for life. As such, none of the distributions are eligible rollover distributions. Other temporary periodic payments (e.g., certain disability benefits) similar in nature to social security supplements will be disregarded to the extent they are specifically identified by the Secretary in regulations. It is intended that the exception for temporary periodic payments be interpreted narrowly, consistent with Congress' intent in the Unemployment Act to expand the number of distributions eligible for rollover treatment.

The Senate amendment clarifies that, in the case of a series of periodic payments, the requirement that a written explanation be provided to recipients of eligible rollover distributions (sec. 402(f)) is deemed satisfied if notice is provided within a reasonable period of time before the first payment of such series subject to the requirements of section 401(a)(31), as amended by the Unemployment Act. Similarly, an election by a distributee to have distributions paid directly to an eligible retirement plan applies to all distributions after the election is made and before the election is revoked.

The Senate amendment provides that plan amendments to comply with the pension provisions under the Unemployment Act generally are not required to be made before the first plan year beginning on or after January 1, 1995, if (1) the plan is operated in accordance with the applicable provisions of the Act, (2) the plan is amended to comply with the required changes no later than the first day of the first plan year beginning after December 31, 1994, and (3) the amendment is retroactive to the effective date of the applicable provisions.

The Senate amendment provides that the withholding, direct rollover, and notice requirements under the Act do not apply to any distribution which is one of a series of substantially equal periodic payments with respect to which the annuity starting date is before January 1, 1993. These requirements also do not apply to (1) any distribution that is made before July 1, 1993, on account of the death, disability, or separation from service of a participant before January 1, 1993, or (2) any distribution made on or after July 1, 1993, which is one of a series of substantially equal periodic payments with respect to which the annuity starting date is before July 1, 1993, and which is paid on account of the death, disability, or separation from service of a participant before January 1, 1993.

Finally, the Senate amendment provides that the delayed effective date for the direct rollover and withholding provisions applicable to certain tax-sheltered annuity plans of State or local governments is extended to apply to qualified retirement plans and tax-sheltered annuities of State and local governments. The amendment also clarifies that the delayed effective date also applies for purposes of the new notice requirements (sec. 402(f)).

Effective date.—The provisions are effective as if included in the Unemployment Compensation Amendments of 1992 (P.L. 102-318).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with the following additional modifications and clarifications.

The conference agreement provides that the withholding, direct rollover, and notice requirements under the Unemployment Act do not apply to (1) any distribution that is made before July 1, 1993, on account of the termination of the distributing plan before January 1, 1993, or (2) any distribution made on or after July 1, 1993, which is one of a series of substantially equal periodic payments with respect to which the annuity starting date is before July 1, 1993, and which is paid on account of the termination of the distributing plan before January 1, 1993.

---

[16] A direct rollover is to be distinguished from a trustee-to-trustee transfer under other provisions of the Code.

[17] This exception does not apply to loans that are treated as distributions when made under section 72(p)(1).

The conference agreement clarifies that because a direct rollover is a distribution, characteristics associated with the assets under the distributing plan (e.g., alternative forms of distribution) need not be preserved under the plan accepting the direct rollover. In this way, a direct rollover is to be distinguished from a trustee-to-trustee transfer, which generally is not considered a distribution (except to the extent provided under regulations). Such transfers, including transfers described in Rev. Rul. 67-213, elective transfers described in Treasury regulation section 1.411(d)-4, Q&A-3(b), and transfers from one tax-sheltered annuity to another described in Rev. Rul. 90-24, are still permitted to the extent they comply with applicable rules. Thus, for example, after-tax contributions may be transferred to another qualified plan in a trustee-to-trustee transfer to the extent permitted under applicable rules. However, the availability of a trustee-to-trustee transfer option does not satisfy the requirement that participants be permitted to roll over any portion of any eligible rollover distribution directly to an eligible retirement plan.

The conference agreement clarifies that a direct rollover is deemed to satisfy the requirement that a rollover be completed within 60 days of distribution, whether or not distributed assets are actually deposited in an eligible retirement plan within such period. Also, because a direct rollover is considered a rollover to which section 402(c) (or section 403(a)(4) or 403(b)(8)) applies, special averaging treatment is not available for subsequent distributions (whether or not on account of the same trigger event) from the same plan, or from a plan that would be aggregated with such plan for purposes of determining whether averaging is available (sec. 402(c)(10)).

The conference agreement clarifies that the plan administrator's obligation to identify the portion of each distribution that is an eligible rollover distribution applies at the time of the distribution rather than at the time of the direct rollover election. However, it is expected that the plan administrator will provide recipients with timely information about their accrued benefits under the plan sufficient to permit them to make an informed decision with regard to the direct rollover and other distribution options. Such information might include, for example, information regarding the recipient's account balance or accrued benefit as of the last valuation date.

The conference agreement clarifies that a deemed distribution of the cost (including P.S. 58 cost) of life insurance protection provided under a qualified plan or annuity is not an eligible rollover distribution.

The conference agreement clarifies that a distributing plan and its administrator will not be subject to penalties or liability because of reasonable reliance on information provided by a benefit recipient regarding the eligible retirement plan to which a direct rollover is to be made. Reliance on such information generally will be presumed to be reasonable to the extent the information is certified (in writing or in such other form as the Secretary shall provide) to be accurate by the recipient plan. Such certification is not required under the provision, but is intended solely as a safe harbor.

The conference agreement also clarifies that an eligible retirement plan accepting a direct rollover will not be disqualified, and the plan and its administrator will not be subject to penalties or liability, because of reasonable reliance on information provided by an individual, or by the administrator of a distributing plan, regarding the characterization of an amount as an eligible rollover distribution from a qualified plan or annuity. Reliance on such information generally will be presumed to be reasonable if the contribution is received directly from a plan that certifies (in writing or in such other form as the Secretary shall provide) that it is intended to be, and is administered as if it were, a qualified plan or annuity. Such certification is not required, but is intended solely as a safe harbor.

The conference agreement clarifies that, in the absence of Treasury regulations, taxpayers can rely on a reasonable, good faith interpretation of the statutory provisions of the Unemployment Act, as amended.

P. APPLICATION OF HARBOR MAINTENANCE TAX TO ALASKA AND HAWAII SHIP PASSENGERS

PRESENT LAW

A harbor maintenance excise tax ("harbor tax") of 0.125 percent of value applies generally to commercial cargo (including passenger fares) loaded or unloaded at U.S. ports (sec. 4461). The harbor tax does not apply to commercial cargo (other than crude oil with respect to Alaska) loaded or unloaded in Alaska, Hawaii, and U.S. possessions where such cargo is transported to or from the U.S. mainland (for domestic use) or where such cargo is loaded and unloaded in the same State (Alaska or Hawaii) or possession (sec. 4462(b)). Questions have arisen as to whether ship passenger fares in intra-Alaska, Hawaii or possession transportation is to be accorded the same exemption as for "cargo."

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment specifically exempts from the harbor tax passenger fares where transported on U.S. flag vessels operating solely within the State waters of Alaska or Hawaii and adjacent international waters (i.e., leaving and returning to a port in the same State without stopping elsewhere).

Effective date.—Applies as if included in the Harbor Maintenance Revenue Act of 1986 (April 1, 1987).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

B. TARIFFS AND CUSTOMS

1. Technical amendments to the Harmonized Tariff Schedule of the United States (HTSUS)

PRESENT LAW

The Customs and Trade Act of 1990 (hereinafter referred to as the "Trade Act of 1990") included numerous tariff and customs measures affecting the HTSUS.

HOUSE BILL

The House bill makes a number of technical corrections to the HTSUS, primarily arising out of the Trade Act of 1990.

SENATE AMENDMENT

The Senate amendment is identical to the House bill.

CONFERENCE AGREEMENT

The conference agreement retains the provisions in the House bill and Senate amendment.

2. Clarification regarding the application of customs user fees

PRESENT LAW

Section 111(b) of the Trade Act of 1990 provides that, in the case of agricultural products of the United States processed and packed in foreign trade zones, the *ad valorem* merchandise processing fee (MPF) shall be applied solely to the value of the foreign material used to make the container; it exempts the value of the domestic agricultural products from the MPF. The U.S. Customs Service has ruled that, for all products not covered by this provision and in the absence of an express provision to the contrary, the MPF would be assessed on both the domestic and foreign value of the merchandise entering from foreign trade zones.

HOUSE BILL

The House bill clarifies that the MPF is to be applied only to the foreign value of the merchandise entered from a foreign trade zone.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, but it also provides that the provision made by section 111(b)(2)(D)(iv) of the Trade Act of 1990 regarding the application of the MPF to processed agricultural products will also apply to all unliquidated entries from foreign trade zones beginning December 1, 1986.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with a technical modification.

3. Technical amendments to the Omnibus Trade and Competitiveness Act of 1988

PRESENT LAW

Section 1102(a) of the Omnibus Trade and Competitiveness Act of 1988 (hereinafter referred to as "the Trade Act of 1988"), provides the President the authority to proclaim certain tariff reductions pursuant to trade agreements with foreign countries. Paragraph (a)(2) provides the President the authority to reduce tariff rates in existence as of August 23, 1988, at which time the Tariff Schedules of the United States (TSUS) were in effect. Pursuant to Title I, Subtitle B of the Trade Act of 1988, the TSUS were replaced by the HTSUS effective January 1, 1989. Tariff negotiations in the Uruguay Round of Multilateral Trade Negotiations have been conducted on the basis of tariff rates under the HTSUS rather than the TSUS.

HOUSE BILL

The House bill amends the Trade Act of 1988 to reflect the fact that any tariff reductions that might be proclaimed by the President pursuant to section 1102(a) of the Trade Act of 1988 will be based upon the tariff rates under the HTSUS as of January 1, 1989.

SENATE AMENDMENT

The Senate amendment is identical to the House bill.

CONFERENCE AGREEMENT

The conference agreement retains the provisions in the House bill and Senate amendment.

4. Technical amendments to the Trade Act of 1990

PRESENT LAW

The Trade Act of 1990 provides for transportation in bond of Canadian lottery material.

HOUSE BILL

The House bill replaces the phrase "entered or withdrawn from warehouse for consumption" in the "Effective Date" section of the Trade Act of 1990 with "entered for transportation in bond."

SENATE AMENDMENT

The Senate amendment is identical to the House bill.

CONFERENCE AGREEMENT

The conference agreement retains the provisions in the House bill and Senate amendment.

5. Technical amendment regarding certain beneficiary countries

PRESENT LAW

Section 213(h) of the Caribbean Basin Economic Recovery Act provides duty reductions on certain handbags, luggage, flat goods, work gloves, and leather wearing apparel. An identical provision was included in the Andean Trade Preference Act.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies that such duty reductions do not apply to such articles made of textiles and subject to textile agreements.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Clarification of fees for certain Customs services

19 U.S.C. 58(c) authorizes the Customs Service to provide reimbursable services to air couriers operating in express consignment carrier facilities and in centralized hub facilities. The Customs Service has interpreted the present statute to prevent Customs from providing reimbursable services during daytime hours to centralized hub facilities.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies that Customs may provide daytime reimbursable services to centralized hub facilities during daytime hours. The provision also clarifies that Customs may be reimbursed for all services related to the determination to release cargo, and not just "inspectional" services. These services are reimbursable regardless of whether they are performed on site or not.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with a technical modification.

VII. MISCELLANEOUS REVENUE PROVISIONS

A. INDIVIDUAL INCOME TAX PROVISIONS

1. Expansion of education savings bond provisions

PRESENT LAW

Code section 135 provides that interest income earned on a qualified U.S. Series EE savings bond issued after December 31, 1989, is excludible from gross income if the proceeds of the bond upon redemption do not exceed qualified higher education expenses paid by the taxpayer during the taxable year.[1] "Qualified higher education expenses" include tuition and required fees for the enrollment or attendance of the taxpayer, the taxpayer's spouse, or a dependent of the taxpayer at an eligible educational institution.[2] A taxpayer cannot qualify for the interest exclusion by paying for the education expenses of another person (such as a grandchild or other relative) who is not a dependent of the taxpayer.

The exclusion provided by section 135 is phased out for certain higher-income taxpayers. A taxpayer's AGI for the year the bond is redeemed (not the year the bond was issued) determines whether or not the phaseout applies. For taxpayers filing a joint return, the phaseout range is for AGI between $60,000 and $90,000 (adjusted for inflation). For single taxpayers and heads of households, the phaseout range is for AGI between $40,000 and $55,000 (adjusted for inflation).

To prevent taxpayers from effectively avoiding the income phaseout limitation (through the issuance of bonds directly in the child's name), section 135(c)(1)(B) provides that the interest exclusion is available only with respect to U.S. Series EE savings bonds issued to taxpayers who are at least 24 years old.

The interest rate on Series EE savings bonds varies, depending on how long the bonds are held. The interest rate on such bonds held for more than five years is based on the market rate for Treasury outstanding obligations with five years to maturity. Bonds held for less than five years earn interest on a fixed, graduated scale (generally below current rates on comparable Treasury instruments). Interest earned on Series EE bonds is paid when the bonds are redeemed.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment expands the definition of "qualified higher education expenses" under section 135 to include tuition and required fees paid by a taxpayer for the enrollment or attendance of *any* individual (not simply dependents) at an eligible educational institution.

The Senate amendment also repeals the present-law AGI phaseout limitation under section 135 (and the related rule requiring that bonds be issued to a person who is at least 24 years old). Thus, interest earned on a Series EE savings bond is not subject to tax regardless of the taxpayer's AGI during the year the bond is redeemed if, during that year, the taxpayer pays for qualified higher education expenses of any individual and such expenses exceed the proceeds (principal plus interest) received upon redemption.[3]

The Senate amendment also clarifies that the section 135 exclusion does not apply unless the taxpayer includes, on the return on which the exclusion is claimed, the name, address, and taxpayer identification number of the person for whom qualified education expenses were paid.

Effective date.—The provision applies to U.S. Series EE savings bonds issued after December 31, 1989, and redeemed after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Losses on prior sales of principal residences

PRESENT LAW

No gain is recognized on the sale of a principal residence if a new residence at least equal in cost to the sales price of the old residence is purchased and used by the taxpayer as his or her principal residence within a specified period of time (sec. 1034). This replacement period generally begins two years before and ends two years after the date of sale of the old residence. The basis of the replacement residence is reduced by the amount of any gain not recognized on the sale of the old residence by reason of section 1034.

A loss on the sale of a personal residence is not deductible.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5638 as passed by the House provides that gains that would be recognized on the sale or exchange of a principal residence of a taxpayer are reduced (but not below zero) by the aggregate of the losses not previously taken into account that were sustained by the taxpayer on the sale or exchange of prior principal residences.)

Effective date (H.R. 5638).—Same as the Senate amendment.

SENATE AMENDMENT

The Senate amendment provides that if the taxpayer suffers a loss upon the sale of a principal residence and the taxpayer purchases a new principal residence within the replacement period specified in Code sec. 1034, then the basis of the replacement residence is increased by the amount of any loss not recognized on the sale of the old residence.

Effective date.—The provision is effective with respect to losses on sales or exchanges of old residences after the date of enactment, for determining recognized gain on principal residences sold or exchanged after December 31, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the provision in H.R. 5638.

3. Tax exemption of veterans' benefits

PRESENT LAW

Section 134 of the Code (as added by the Tax Reform Act of 1986) provides that qualified military benefits are excludable from gross income. In general, a qualified military benefit is an allowance or in-kind benefit received by a member or former member of the uniformed services of the United States (or their spouses or dependents) and which was excludable from gross income on September 9, 1986, under any provision of law, regulation, or administrative practice.

---

[1] If the aggregate redemption amount (i.e., principal plus interest) of all Series EE bonds redeemed by a taxpayer during the taxable year exceeds the qualified education expenses incurred, then the excludable portion of interest income is based on the ratio that the education expenses bears to the aggregate redemption amount (sec. 135(b)).

[2] Eligible educational institutions are defined in section 1201(a) and 481(a)(1)(C) and (D) of the Higher Education Act of 1965, as in effect on October 21, 1988, and in the Carl D. Perkins Vocational Education Act (subparagraph (C) or (D) of section 521(3)), as in effect on October 21, 1988. An eligible educational institution does not include proprietary institutions.

"Qualified higher education expenses" do not include expenses with respect to any course or other education involving sports, games, or hobbies other than as part of a degree program (sec. 135(c)(2)(B)).

[3] Present-law section 135(b) prorates the excludible interest when aggregate proceeds from bonds redeemed by a taxpayer during the taxable year exceed qualified education expenses paid by the taxpayer during that year. Consistent with this rule, it is intended that the Treasury Department will prescribe procedures for allocating the income exclusion provided for by section 135 in cases where, with respect to a particular taxable year, two (or more) taxpayers redeem savings bonds and claim to have paid qualified education expenses for the same student, but the aggregate redemption proceeds received by the taxpayers exceed the student's qualified education expenses.

The Treasury Department has recently stated that the following veterans' benefits are excludable from income: income arising from VA home mortgage debt waivers and similar debt waiver programs; disability-related payments, including all cost-of-living adjustments that have been made since 1986; and all in-kind benefits provided by the VA as of September 9, 1986, regardless of any subsequent modifications to those benefits.

HOUSE BILL

No provision.

SENATE AMENDMENT

Veterans' benefits administered by the Secretary of Veterans' Affairs are excludable from gross income.

The provision is effective for years beginning after December 31, 1984.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

4. Treatment of cancellation of certain student loans

PRESENT LAW

In the case of an individual, gross income subject to Federal income tax does not include amounts discharged from the cancellation or discharge of certain student loans, provided that the discharge was pursuant to a provision of the loan under which the indebtedness would be discharged if the individual worked for a certain period of time in certain professions for any of a broad class of employers (sec. 108(f)).

Student loans eligible for the exclusion from gross income under section 108(f) include any loan to an individual to assist the individual in attending an educational institution that normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of students in attendance at the place where its educational activities are regularly carried on, but only if the loan was made by (1) the United States (or an instrumentality or agency thereof), (2) a State (or any political subdivision thereof), (3) an educational organization which originally received the funds from which the loan was made from the United States or a State, or (4) certain tax-exempt public benefit corporations whose employees have been deemed to be public employees under State law (sec. 108(f)(2)).

Section 108(f) does not apply to student loans made by an educational organization from funds that were not originally provided to the organization by the United States or a State government.

HOUSE BILL

No provision. (However, H.R. 2735 contains a provision that is identical to that part of the Senate amendment which expands present-law section 108(f) to cancellation of student loans made by an educational organization from funds not originally provided by the United States or a State government.)

SENATE AMENDMENT

Section 108(f) is expanded so that an individual's gross income does not include discharge-of-indebtedness income from the cancellation of a loan made by an educational organization (which maintains a regular faculty and body of students at the place where educational activities are regularly carried on) to assist the individual in attending the educational organization, provided that the loan was made pursuant to a program of the educational organization designed to encourage its students to serve in occupations or geographic areas with unmet needs, and provided that funds for the discharge are not directly (or indirectly) provided by the student's employer. In addition, an exclusion from gross income is provided for discharges of loans made by any organization exempt from tax under section 501(a) to refinance student loans originally made by a governmental body or educational organization meeting the requirements of section 108(f).

As under present law, the section 108(f) exclusion applies if the discharge of indebtedness was pursuant to a provision of the loan under which all or part of the loan would be discharged if the individual worked for a certain period of time in certain professions for any of a broad class of employers. However, the Senate amendment also provides that the section 108(f) exclusion applies to discharges of student loans by a State (or from funds provided by a State) which had no accredited professional schools for the study of law or medicine on the date the loan was made, if the individual resided for a certain period of time in the State after completion of the individual's attendance at the educational organization with respect to which the loan was made.

Effective date.—The provision is effective for discharges of indebtedness after the date of enactment, except that the effective date is discharges made on or after January 1, 1987, for cases where the discharge is by a State without certain accredited professional schools, if the individual resided for a certain period of time in the State after completion of the individual's attendance at the educational organization with respect to which the loan was made.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

5. Rollover of military separation pay

PRESENT LAW

Under present law, any part of the taxable portion of a distribution from a qualified pension or annuity plan or a tax-sheltered annuity (other than a minimum required distribution) can be rolled over tax free to an individual retirement arrangement (IRA) or another qualified plan or annuity, unless the distribution is one of a series of substantially equal payments made (1) over the life or life expectancy of the participant (or the joint lives or life expectancies of the participant and his or her beneficiary), or (2) over a specified period of 10 years or more.

Distributions from a nonqualified plan, including distributions from a severance arrangement, are not eligible for such tax-free rollover treatment.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, up to $25,000 of military separation pay, as defined in section 1174 of title 10 of the United States Code, may be rolled over tax-free to an IRA.

Effective date.—The provision is generally effective for separation pay received after December 5, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Change in the treatment of involuntary conversions for principal residences in Presidentially declared disaster areas

PRESENT LAW

Under present law, no gain is recognized by the taxpayer if property is involuntarily converted into property similar or related in service or use. If property is involuntarily converted into money or property not similar or related in service or use to the converted property, then gain generally must be recognized. If, however, during the applicable period the taxpayer replaces the converted property with property similar or related in service or use to the converted property, the taxpayer may elect to recognize gain only to the extent that the amount realized upon such conversion exceeds the cost of the replacement property. The applicable period begins with the date of the disposition of the converted property (or the earliest date of the threat or imminence of requisition or condemnation of the converted property, whichever is earlier) and ends two years after the close of the first taxable year in which any part of the gain upon conversion is realized.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5640 as passed by the House is identical to the Senate amendment.)

SENATE AMENDMENT

The Senate amendment provides that for taxpayers whose principal residence[1] (or any of its contents) is involuntarily converted as a result of a Presidentially declared disaster (and such principal residence is located in an area subject to a disaster that resulted in a subsequent determination by the President that assistance by the Federal Government was warranted under the Disaster Relief and Emergency Assistance Act), no gain is recognized by reason of the receipt of insurance proceeds for unscheduled personal property that was part of the contents of such residence. Furthermore, in the case of any other insurance proceeds for such residence or its contents, the proceeds may be treated as a common pool of funds. If such pool of funds is used to purchase any property similar or related in service or use to the converted residence (or its contents), the taxpayer may elect to recognize gain only to the extent that the amount of the pool of funds exceeds the cost of the replacement property.

In addition, the Senate amendment extends the ending of the applicable period for the replacement of property involuntarily converted as a result of a Presidentially declared disaster to four years after the close of the first taxable year in which any part of the gain upon conversion is realized.

Effective date.—The provisions are effective for property involuntarily converted as a result of disasters for which a Presidential declaration is made on or after September 1, 1991, and to taxable years ending on or after such date.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

7. Modification of the exclusion from income for certain foster care payments

PRESENT LAW

Gross income does not include qualified foster care payments received by a foster care provider. A qualified foster care payment must be: (1) paid by a State or local political subdivision thereof or by a placement agency (which is described in section 501(c)(3) and exempt from tax under section 501(a)), and (2) paid to a foster care provider for care in the provider's home or a difficulty of care payment.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that payments by the Federal Government which are taken into account by the State, local political subdivision or placement agency in determining their payments to the provider for care in the provider's home also are not included in the provider's gross income. No inference is intended that other payments from the Federal Government are or are not included in an individual's gross income.

---

[1] As defined under section 1034, except that no ownership requirement is imposed.

Effective date.—The provision applies to payments made on or after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

8. Penalty-free withdrawals from annuities for certain higher education expenses

PRESENT LAW

Under present law, a 10-percent excise tax is imposed on premature distributions from tax-deferred annuity contracts.

HOUSE BILL

No provision. (However, H.R. 5674 as passed by the House contains a provision that is substantially the same as the provision in the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that no penalty is imposed on a distribution from a designated higher education expense annuity to an individual if such distribution is used within 90 days to pay qualified tuition and related expenses required by the enrollment or attendance of the individual, or the individual's spouse, child or grandchild at an eligible educational institution. The amount of such expenses is to be reduced by any amount excluded from gross income under section 135, relating to education bonds, by reason of such expenses.

A designated higher education expense annuity is an annuity that was purchased after December 31, 1992 and that is designated by the purchaser as such an annuity at the time of purchase. The provision does not apply to any annuity acquired in an exchange to which section 1035 applies unless the annuity given up by the taxpayer in the exchange was a designated higher education expense annuity.

Any premium paid for a designated higher education expense annuity is not treated as a transfer of property by gift for Federal gift tax purposes. However, if any premium (or any portion thereof) is not treated as a taxable gift solely by reason of this provision, (1) any disqualified lifetime distribution from the portion of the annuity attributable to such premium will be treated as a transfer by gift by the person who paid the premium, and (2) the gross estate of the person who paid the premium will include the value of the portion of the annuity attributable to such premium. A disqualified lifetime distribution is any distribution that is not a qualified higher education distribution and that is made during the life of the purchaser to or for the benefit of another person.

The portion of the annuity attributable to any premium that is not treated as a taxable gift solely by reason of this provision is the portion of the annuity that bears the same ratio to the total value of the annuity as the amount of the premium that is not treated as a taxable gift under present law (without the gift tax exclusion permitted by this provision) bears to the total premium. For example, if the premium payment was $30,000, and $10,000 of that premium was not a taxable gift because it qualified for the annual gift tax exclusion, $20,000 is not treated as a taxable gift solely by reason of this provision. If the total value of the annuity is $36,000 at the time of an event described in the preceding paragraph, the portion of the annuity that is treated as gift or included in the estate of the purchaser is $24,000 (2/3 of $36,000).

Effective date.—The provision is effective as of January 1, 1993.

9. Exclusion from gross income for amounts paid under a life insurance contract by reason of terminal illness

PRESENT LAW

Under present law, gross income does not include amounts received under a life insurance contract if the amounts are paid by reason of the death of the insured.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends the present-law exclusion for life insurance proceeds to amounts paid or advanced to an individual under a life insurance contract if the insured under the contract is terminally ill. The provision also provides an exclusion in the case of amounts received from a qualified accelerated benefits corporation for the sale or assignment of a life insurance contract if the insured under the contract is terminally ill.

An insured is considered terminally ill for this purpose if the insured has been certified by a licensed physician as having an illness or physical condition that can reasonably be expected to result in death in 12 months or less.

The provision also clarifies that, for purposes of the provisions relating to the taxation of life insurance companies, a qualified terminal interest rider is treated as life insurance. A qualified terminal interest rider means any rider or addendum, or other provision of, a life insurance contract that provides for payments to an individual in the event of terminal illness.

The issuance of a qualified terminal illness rider with respect to any life insurance contract is not treated as a modification or material change under the contract for purposes of sections 7702 or 7702A of the Code. No inference is created as to the effect of the issuance of a terminal illness rider under present law for purposes of section 7702 or 7702A.

Under the provision, applicants for, or recipients of, benefits under certain public assistance programs are not required to take into account the right to receive accelerated death benefits in determining eligibility for such benefits.

Effective date.—The provision generally is effective for taxable years beginning after December 31, 1989. The provision treating qualified terminal illness riders as life insurance for insurance company tax purposes and the provision providing that the issuance of such a rider is not a modification or material change in a life insurance contract are effective for taxable years beginning before, on, or after December 31, 1989. The provision relating to the effect of the availability of life insurance benefits in the event of terminal illness on eligibility for public assistance benefits is effective on January 1, 1990.

CONFERENCE AGREEMENT

The conference agreement does not contain the provision in the Senate amendment.

10. State taxation of nonresident retirement benefits

PRESENT LAW

Currently, a number of States impose income tax on retirement income earned in the State but paid to individuals who are no longer residents of the State. These States impose income tax on such income because the States provide a deferral of tax on retirement income earned in the State, not an exclusion. This is consistent with the treatment of such income under the Internal Revenue Code.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment prohibits a State from imposing income tax on certain periodic payments made to any individual who is not a resident or domiciliary of the State.

Effective date.—Taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

11. Treatment of unpaid child support

PRESENT LAW

Individual taxpayers generally are allowed a deduction for a debt that becomes worthless, provided that the debt was created or acquired in connection with the taxpayer's trade or business. However, individuals may not claim a bad-debt deduction for a nonbusiness debt that becomes worthless (sec. 166(d)).

A taxpayer generally realizes income by the nongratuitous discharge of an indebtedness owed by the taxpayer (sec. 61(a)(12)).

The Internal Revenue Service (IRS) is required to withhold from a tax refund otherwise due an individual an amount equal to delinquent child support payments if it receives notice from a State child support agency that the individual owes past-due support (1) that has been assigned to the State as a condition of eligibility for Aid to Families with Dependent Children (AFDC), or (2) for certain non-AFDC families with minor children (sec. 6402(c)). Refunds so withheld generally are remitted to the State that has been assigned the right to collect the past-due support under the Social Security Act.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment allows certain taxpayers who are owed past-due child support payments of at least $500 to claim a bad-debt deduction.[1] Under the provision, the past-due payments generally must be delinquent for at least one year. The deduction claimed may not exceed $5,000 per child per year, and is not available to a taxpayer whose adjusted gross income (AGI) exceeds $50,000.[2]

The deduction applies with respect to child support payments[3] owed with respect to a qualifying child[4] of the taxpayer, if such payments are required to be paid to the taxpayer under a support instrument that is (1) a decree of divorce or separate maintenance or a written instrument incident to such a decree, (2) a written separation agreement, or (3) a decree of a court or administrative agency requiring a parent to make payments for the support or maintenance of one or more children of such parent. Under the provision, the deduction is allowed only if the taxpayer has not assigned the collection rights to the support payments to a State AFDC agency under section 402(a)(26) of the Social Security Act (42 U.S.C. 602(a)(26)).

---

[1] Under the Senate amendment, the $500 threshold applies to the total of past-due payments owed with respect to all qualifying children of the taxpayer. If this threshold is exceeded, the total amount, including the first $500 (but not exceeding $5,000 per child) is deductible.

[2] The $500, $5,000, and $50,000 amounts are adjusted for inflation after 1992.

[3] The term "child support payment" is defined as a payment for support of a qualifying child, if such payment is either (1) any periodic payment of a fixed amount, or (2) any payment of a medical or educational expense, insurance premium, or similar item.

[4] For purposes of the provision, the term "qualifying child" means a child of with respect to whom a deduction is allowable to the taxpayer under section 151 for the taxable year (generally applying to any son, stepson, daughter, or stepdaughter of the tax-

The deduction provided for by the Senate amendment is allowed in determining AGI (above-the-line), regardless of whether the taxpayer itemizes deductions or claims the standard deduction. In addition, the provision requires the inclusion of the amount of unpaid child support payments in the gross income of the delinquent parent by reason of discharge of indebtedness.[5]

Under the provision, if the child support is collected after the deduction is taken, the taxpayer claiming such a deduction is required to include the payment in gross income for the taxable year in which the payment is received (and the taxpayer making the subsequent payment is entitled to a deduction for the taxable year in which such payment is made).

The Senate amendment specifically provides that it shall not be construed to affect the right of an individual or State to receive any child support payment, or the obligation of an individual to pay child support.

Effective date.—The provision is effective for taxable years beginning after December 31, 1992.

Conference Agreement

The conference agreement follows the House bill.

12. Expansion of qualified scholarships to cover room, board, and travel

Present Law

Section 117 provides that gross income does not include any amount received as a qualified scholarship by an individual who is a candidate for a degree at an educational organizational organization described in section 170(b)(1)(A)(ii). The term "qualified scholarship" means any amount received by an individual as a scholarship or fellowship grant to the extent the individual establishes that, in accordance with the conditions of the grant, such amount was used for qualified tuition and related expenses.[1]

For purposes of section 117, the term "qualified tuition and related expenses" means (1) tuition and fees required for the enrollment or attendance of a student at an educational organization described in section 170(b)(1)(A)(ii), and (2) fees, books, supplies, and equipment required for courses of instruction at such an educational organization. The term "qualified tuition and related expenses" generally does not cover regular living expenses, such as for meals and lodging.

House Bill

No provision.

Senate Amendment

The Senate amendment expands the definition of "qualified tuition and related expenses" under section 117 to include expenses for room, board, and travel required for attendance at an educational organization described in section 170(b)(1)(A)(ii).

As under present law, the tax-free treatment provided by section 117 does not apply to that portion of any amount received which represents payment for teaching, research, or other services by the student required as a condition for receiving a scholarship or tuition reduction.

Effective date.—Amounts received after December 31, 1992.

Conference Agreement

The conference agreement follows the House bill.

13. Increase the threshold for withholding on gambling winnings

Present Law

In general, proceeds from a wagering transaction are subject to withholding at a rate of 20 percent if such proceeds exceed $1,000 and if the amount of such proceeds is at least 300 times as large as the amount wagered. The proceeds from a wagering transaction are determined by subtracting from the amount received the amount wagered. Any non-monetary proceeds that are received are taken into account at fair market value.

In the case of State-conducted lotteries, proceeds from a wager are subject to withholding at a rate of 20 percent if such proceeds exceed $5,000, regardless of the odds of the wager. This rule applies only if the wager is placed with the State agency conducting the lottery or with its authorized agents or employees.

In the case of sweepstakes, wagering pools, or lotteries other than State-conducted lotteries, proceeds from a wager are subject to withholding at a rate of 20 percent if such proceeds exceed $1,000, regardless of the odds of the wager.

No withholding tax is imposed on winnings from a slot machine, bingo, or keno.

House Bill

No provision.

Senate Amendment

The Senate amendment increases the threshold for withholding on proceeds from a wagering transaction from $1,000 to $5,000. The additional requirement for withholding that the proceeds of the wager be at least 300 times the amount of the wager applies to the same extent as under present law.

Effective date.—The provision is effective for payments made after December 31, 1992.

Conference Agreement

The conference agreement does not include the Senate amendment. (However, the conference agreement on H.R. 776 includes the Senate amendment.)

B. Provisions Relating to Charitable Contributions and Tax-Exempt Organizations

1. AMT Relief for gifts of appreciated property

Present Law

Donations of appreciated property

In computing taxable income, a taxpayer who itemizes deductions generally is allowed to deduct the fair-market value of property contributed to a charitable organization.[1] However, in the case of a charitable contribution of inventory or other ordinary-income property, short-term capital gain property, or certain gifts to private foundations, the amount of the deduction is limited to the taxpayer's basis in the property.[2] In the case of a charitable contribution of tangible personal property, a taxpayer's deduction is limited to the adjusted basis in such property if the use by the recipient charitable organization is unrelated to the organization's tax-exempt purpose (sec. 170(e)(1)(B)(i)).

For purposes of computing alternative minimum taxable income (AMTI), the deduction for charitable contributions of capital gain property (real, personal, or intangible) is disallowed to the extent that the fair-market value of the property exceeds its adjusted basis (sec. 57(a)(6)). However, in the case of a contribution made in a taxable year beginning in 1991 or made before July 1, 1992, in a taxable year beginning in 1992, this rule does not apply to contributions of tangible personal property.

Valuation procedures

Present law and current IRS practice does not provide for a procedure by which taxpayers may seek determination of the IRS' position with respect to the value of property prior to the taxpayer donating the property to a charitable organization. However, if a taxpayer claims a charitable contribution deduction for a noncash gift in excess of $5,000 per item or group of similar items (other than certain publicly traded securities), the taxpayer must attach to his income tax return a separate form (Form 8283), which provides specific information on the donated property and which is signed by a qualified appraiser.[3]

House Bill

Extension of AMT relief for donated appreciated property

All charitable contributions of appreciated property (real, personal, and intangible) made during 1992 and 1993 will not be treated as a tax preference item for alternative minimum tax (AMT) purposes.

Thus, during 1992 and 1993, if a taxpayer makes a gift to charity of property (other than inventory or other ordinary income property, short-term capital gain property, or certain gifts to private foundations) that is real property, intangible property, or tangible personal property the use of which is

---

payer over half of whose support for the year was received from the taxpayer and (1) whose gross income for the year is less than the personal exemption amount, or (2) is younger than 19 years old or is a student younger than 24 years old).

[5] On the taxpayer's return claiming the deduction provided for by the provision, the taxpayer is required to include the taxpayer identification number (TIN) of each child with respect to whom support payments are owed and the delinquent parent (unless the taxpayer certifies that the delinquent parent's TIN is not known). The provision also requires the taxpayer claiming the deduction to notify the delinquent parent of the amount of the deduction claimed and that the delinquent parent is required to include such amount in gross income for the taxable year beginning in the preceding calendar year. The IRS is required to provide this notice if the delinquent parent's address is not known to the taxpayer but is available to the IRS.

[1] The section 117 exclusion does not apply to that portion of any amount received which represents payment for teaching, research, or other services by the student required as a condition for receiving a scholarship or tuition reduction (sec. 117(c)).

[1] The amount of the deduction allowable for a taxable year with respect to a charitable contribution may be reduced depending on the type of property contributed, the type of charitable organization to which the property is contributed, and the income of the taxpayer (secs. 170(b) and 170(e)).

[2] Section 170(e)(3) provides an augmented deduction for certain corporate contributions of inventory property for the care of the ill, the needy, or infants.

[3] The Form 8283 must be attached to the income tax return (Form 1040) in all cases where total noncash contributions exceed $500, but the Form 8283 need not be signed by a qualified appraiser unless the $5,000 threshold per item or group of similar items is exceeded. In the case of donated art for which a deduction of $20,000 or more is claimed, a complete copy of the signed appraisal must be attached to the Form 8283.

related to the donee's tax-exempt purpose, the taxpayer is allowed to claim a deduction for both regular tax and AMT purposes in the amount of the property's fair-market value (subject to present-law percentage limitations).[4] Any carryover of an excess contribution deduction from a contribution made during the period January 1, 1992, through December 31, 1993, also will not be treated as a tax preference item for AMT purposes in any succeeding taxable year to which the excess may be carried forward in accordance with the rules of section 170.

Effective date.—Contributions made during 1992 and 1993.

Treasury report on advance valuation procedure

Not later than one year after the date of enactment of the bill, the Secretary of the Treasury is required to submit a report to the Senate Committee on Finance and the House Committee on Ways and Means, reporting on the development of a procedure under which taxpayers could elect to seek an agreement with the Secretary as to the value of tangible personal property prior to the donation of such property to a qualifying charitable organization (provided that time limits for donation and any other conditions contained in the agreement are satisfied). The report should address the setting of possible threshold amounts for claimed value (and the payment of fees) by a taxpayer in order to seek agreement under the procedure, possible limitations on applying the procedure only to items with significant artistic or cultural value, and recommendations for legislative action needed to implement the procedure.

Effective date.—The Treasury Department must report to Congress not later than one year after enactment on the development of an advance valuation procedure.

SENATE AMENDMENT

Permanent AMT relief for donated appreciated property

The bill permanently repeals section 57(a)(6). Thus, the difference between the fair-market value of donated appreciated property (real, personal, or intangible property) and the adjusted basis of such property is not treated as a tax preference item for alternative minimum tax (AMT) purposes. If a taxpayer makes a gift to charity of property (other than inventory or other ordinary income property, short-term capital gain property, or certain gifts to private foundations) that is real property, intangible property, or tangible personal property the use of which is related to the donee's tax-exempt purpose, the taxpayer is allowed to claim a deduction for both regular tax and AMT purposes in the amount of the property's fair-market value (subject to present-law percentage limitations).[5]

Effective date.—Contributions of tangible personal property made after 1991, and contributions of other property made after 1992.

Treasury report on advance valuation procedure

Same as the House bill.

CONFERENCE AGREEMENT

Permanent AMT relief for donated appreciated property

The conference agreement follows the Senate amendment.

Treasury report on advance valuation procedure

The conference agreement follows the House bill and Senate amendment.

2. Allocation and apportionment of deductions for charitable contributions

PRESENT LAW

Taxpayers may elect to claim a credit against U.S. tax liability for certain foreign taxes which they incur. The foreign tax credit is limited to the amount of U.S. tax otherwise payable on foreign source taxable income. Thus, the foreign tax credit is not available against U.S. tax on U.S. source taxable income. A shift in the source of net income from foreign to U.S. may increase net U.S. tax for some taxpayers by reducing the foreign tax credit limitation and thus the amount of the foreign tax credit which may be claimed.

For purposes of the foreign tax credit limitation, foreign source taxable income is computed by (1) determining the items of gross income that are from foreign sources, and then (2) subtracting from those items the taxpayer's deductions that are allocated or apportioned to foreign source gross income. A shift in the allocation or apportionment of expenses from U.S. source to foreign source gross income decreases foreign source taxable income, and thus, may increase U.S. tax by reducing the foreign tax credit limitation.

In general, the primary statutory rule for allocating and apportioning deductions between foreign and domestic income is that there shall be deducted from foreign and domestic source gross income, respectively, the expenses, losses, and other deductions properly apportioned or allocated thereto and a ratable part of any expenses, losses, or other deductions which cannot be definitely allocated to some item or class of gross income (secs. 861(b), 862(b), and 863(b)). In addition, for a taxpayer that is a member of an affiliated group of corporations, expenses that are not directly allocated or apportioned to any specific income producing activity generally must be allocated and apportioned under a so-called "one-taxpayer rule"—that is, as if all of the members of the affiliated group were a single corporation (sec. 864(e)(6)).

Charitable contribution deductions generally are treated as not definitely related to any gross income or income producing activity, and therefore are apportioned ratably and subject to the one-taxpayer rule.[1]

Regulations proposed in March 1991 would alter the general rule requiring ratable apportionment of charitable contributions in cases where the use of the contribution is restricted either to purely domestic or purely foreign uses.[2] Under the proposal, a charitable contribution deduction generally would be allocated solely to U.S. source gross income if the taxpayer both designates the contribution for use solely in the United States and reasonably believes that the contribution would be so used. Conversely, a charitable contribution deduction would be allocated solely to foreign source gross income if the taxpayer knows or has reason to know that the contribution would be used solely outside the United States or that the contribution may necessarily be used only outside the United States.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, for purposes of computing the source of taxable income for the foreign tax credit limitation, taxpayers are permitted to allocate 40 percent of their otherwise-allowable charitable contribution deductions to gross income from U.S. sources. The remaining 60 percent of charitable contribution deductions must be apportioned ratably between U.S. source gross income and foreign source gross income. As under present law, all corporations included in an affiliated group are treated as a single corporation for purposes of the ratable apportionment of the residual 60 percent of charitable contribution deductions.

For example, assume that a corporation (which is not a member of an affiliated group of corporations) earns $1,000,000 of gross income from foreign sources and $500,000 of gross income from domestic sources for a taxable year. Further assume that it makes charitable contributions that are deductible during the year in the amount of $100,000. Under the Senate amendment, $40,000 (40 percent of $100,000) of the charitable contributions are allocated to U.S. source gross income. The residual amount of charitable contributions, $60,000, is subject to ratable apportionment on the basis of gross income. Thus, of this residual amount, $40,000 is apportioned to foreign source gross income and $20,000 is apportioned to U.S. source gross income. Of the total amount of charitable contributions, $60,000 is allocated and apportioned to U.S. source gross income and $40,000 is allocated and apportioned to foreign source gross income.

Now assume that the corporation has a wholly owned subsidiary which earns $500,000 of gross income for the taxable year, all from sources outside the United States, and makes no deductible charitable contributions. In this case, the parent corporation's charitable contributions are allocated and apportioned as follows. As under the previous example, 40 percent are allocated directly to domestic source gross income. The residual amount, however, is allocated under the one-taxpayer rule. Thus, of the residual amount, $45,000 is apportioned to foreign source gross income and $15,000 is apportioned to U.S. source gross income. Of the total amount of charitable contributions, $55,000 is allocated apportioned to U.S. source gross income and $45,000 is allocated and apportioned to foreign source gross income.

Effective date.—Charitable contributions made on or after January 1, 1994.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

3. Substantiation and information disclosure requirements for certain contributions

PRESENT LAW

An individual taxpayer who itemizes deductions must separately state (on Schedule A to the Form 1040) the aggregate amount of charitable contributions made by cash or check and the aggregate amount made by donated property other than cash or check.

A taxpayer is not required to provide specific information on his or her return regarding a claimed charitable contribution made by cash or check; nor in such a case is a donee organization required to file an information return with the IRS, regardless of the amount of cash or check involved. However, taxpayers must provide certain information (on Form 8283) if the amount of the claimed contribution for all noncash contributions exceeds $500.[1]

---

[4] Contributions of inventory or other ordinary income property, short-term capital gain property, and certain gifts to private foundations continue to be governed by present-law rules.

[5] Contributions of inventory or other ordinary income property, short-term capital gain property, and certain gifts to private foundations continue to be governed by present-law rules.

[1] Treas. Reg. sec. 1.861-8(e)(9)(iv); Notice 89-91, 1989-2 C.B. 408, 409.

[2] Proposed Treas. Reg. sec. 1.861-8(e)(12), INTL-116-90, 1991-14 I.R.B. 35.

[1] If the claimed deduction for a noncash gift exceeds $5,000 per item or group of similar items (other

A payment (regardless of whether it is termed a "contribution") in exchange for which the payor receives an economic benefit is not deductible under section 170, except to the extent that the taxpayer can demonstrate that the payment exceeded the fair-market value of the benefit received from the charity.[2]

The Internal Revenue Code does not require a tax-exempt organization that is eligible to receive tax-deductible contributions to state explicitly, in its solicitations for support from members or the general public, whether an amount paid to it is deductible as a charitable contribution or whether all or part of the payment constitutes consideration for goods or services furnished by the organization to the payor.[3] In contrast, tax-exempt organizations that are *not* eligible to receive tax-deductible contributions are required to state expressly in certain fundraising solicitations that contributions or gifts to the organization are not deductible as charitable contributions for Federal income tax purposes (sec. 6113).

HOUSE BILL

No provision.

SENATE AMENDMENT

The provision includes two parts:

(1) *Substantiation requirement.*—Section 170 is amended to provide that no deduction is allowed under that section for any contribution of $100 or more[4] unless the taxpayer has written substantiation from the donee organization of the contribution (including a good faith estimate of the value of any good or service that has been provided to the donor in exchange for making the gift to the donee).[5]

This provision does not impose an information reporting requirement upon charities; rather, it places the responsibility upon taxpayers who claim an itemized deduction for a contribution of $100 or more to request (and maintain in their records) substantiation from the charity of their contribution (and any good or service received in exchange).[6] Taxpayers may not simply rely on a cancelled check as substantiation for a donation in excess of $100.

Under the provision, the substantiation must be obtained by the taxpayer prior to filing his or her return for the taxable year in which the contribution was made (or if earlier, the due date, including extensions, for such return).[7] Substantiation is not required if the donee organization files a return with the IRS (in accordance with Treasury regulations) reporting information sufficient to substantiate the amount of the deductible contribution.

(2) *Information disclosure for quid pro quo contributions.*—Charitable organizations that receive *quid pro quo* contributions (meaning a payment made partly as a contribution and partly in consideration for goods or services furnished to the donor) will be required, in connection with the solicitation or receipt of the contribution, to (1) inform the donor that the amount of the contribution that is deductible for Federal income tax purposes is limited to the excess of the amount of any money (and the value of any property other than money) contributed by the donor over the value of the goods or services provided by the organization, and (2) provide the donor with a good faith estimate of the value of goods or services furnished to the donor by the organization.[8]

The disclosure requirement applies to all *quid pro quo* contributions regardless of the dollar amount of the contribution involved (i.e., even in cases with donations less than $100), and the disclosure must be made by the charity in connection with either the solicitation or receipt of the contribution. Thus, for example, if a charity receives a $75 contribution from a donor, in exchange for which the donor receives a dinner valued at $40, then the charity must inform the donor that only $35 is deductible as a charitable contribution. However, the provision will not apply if only *de minimis*, token goods or services are given to a donor (see Rev. Proc. 90-12, discussed above).[9] Also, the provision will not apply to transactions that have no donative element (e.g., sales of goods by a museum gift shop that are not, in part, donations).

The provision also provides that penalties ($10 per contribution, but capped at $5,000 per particular fundraising event or mailing) may be imposed upon charities that fail to make the required disclosure, unless the failure was due to reasonable cause. The penalties will apply if an organization either fails to make any disclosure in connection with a *quid pro quo* contribution or makes a disclosure that is incomplete or inaccurate (e.g., an estimate not determined in good faith of the value of goods or services furnished to the donor).

The Treasury Department is directed to prescribe regulations not later than July 1, 1993, to implement the substantiation and information disclosure provisions.

Effective date.—The substantiation and information disclosure provisions are effective for contributions made on or after January 1, 1994. Treasury Department regulations to implement the provisions must be prescribed not later than July 1, 1993.

CONFERENCE AGREEMENT

Substantiation requirement

The conference agreement follows the Senate amendment, except that the $100 threshold for the substantiation requirement is increased to $750.

Information disclosure with quid pro quo contributions

The conference agreement follows the Senate amendment.

4. Corporate sponsorship payments received by tax-exempt organizations in connection with public events

PRESENT LAW

Although generally exempt from Federal income tax, tax-exempt organizations are subject to the unrelated business income tax (UBIT) on income derived from a trade or business regularly carried on[1] that is not substantially related to the performance of the organization's tax-exempt functions (secs. 511-514). Contributions or gifts received by tax-exempt organizations generally are not subject to the UBIT. However, present-law section 513(c) provides that an activity (such as advertising) does not lose its identity as a separate trade or business merely because it is carried on within a larger complex of other endeavors.[2] If a tax-exempt organization receives sponsorship payments in connection with conducting a public event,

---

than certain publicly traded securities) a qualified appraiser must sign the Form 8283, and an authorized representative of the donee charity also must sign the Form 8283, acknowledging receipt of the gift and providing certain other information. In certain situations, information reporting by the donee charity is required if it subsequently disposes of donated property (sec. 6050L).

[2] See Rev. Rul. 67-246, 1967-2 C.B. 104.

Under current IRS practice, certain small items and token benefits (e.g., key chains and bumper stickers) that have insubstantial value are disregarded, such that the full amount of the contribution is deductible. Rev. Proc. 90-12, 1990-1 C.B. 471, provides that tokens or benefits given to the donor in connection with a contribution will be considered to have insubstantial value if (1) the payment occurs in the context of a fundraising campaign in which the charity informs patrons how much of their payment is a deductible contribution, *and* (2) *either* (a) the fair-market value of all the benefits received in connection with the payment is not more than two percent of the payment, or $50, *whichever is less, or* (b) the payment made by the patron is $25 or more (adjusted for inflation) and the only benefits received in connection with the payment are token items (e.g., key chains or mugs) which bear the organization's name or logo and which (in the aggregate) are within the limits for "low-cost items" under section 513(h)(2).

[3] However, Schedule A to the Form 1040 (and the accompanying instructions) inform taxpayers that if they made a contribution and received a benefit in return, the value of that benefit must be subtracted in calculating the charitable contribution deduction.

[4] Separate payments shall generally be treated as separate contributions and shall not be aggregated for the purposes of applying the $100 threshold. In cases of contributions paid by withholding from wages, the deductions from each paycheck shall be treated as separate payments.

[5] If the donee organization provided no goods or services to the taxpayer in consideration of the taxpayer's contribution, the written substantiation must include a statement to that effect.

[6] In the case where a taxpayer makes a noncash contribution, the taxpayer is required to obtain from the charity a receipt that describes the donated property (and indicates whether any good or service was given to the taxpayer in exchange), but the provision does not require the charity to value the property it receives from the donor.

[7] The provision requires that the written acknowledgment provide information sufficient to substantiate the amount of the deductible contribution, but the acknowledgment need not take any particular form. Thus, for example, acknowledgments may be made by letter, postcard, or computer-generated forms. Further, a donee organization may prepare separate acknowledgment for each contribution, or may provide donors with periodic (e.g., annual) acknowledgments that set forth the required information for each contribution of $100 or more made by the donor during the period.

It is intended that a charitable organization that knowingly provides a false written substantiation to a donor will be subject to the penalties provided for by section 6701 for aiding and abetting an understatement of tax liability.

[8] It is intended that the disclosure be made in connection with the solicitation or receipt of the contribution, such that the disclosure is reasonably likely to come to the attention of the donor. For example, a disclosure of the required information in small print set forth within a larger document might not meet the requirement.

[9] It is intended that, in the case of religious organizations, a *quid pro quo* contribution (for purposes of the substantiation and disclosure requirements) is limited to an exchange of goods or services that are generally available on a commercial basis, or advertised for an established price. This would include, for example, tuition, travel and entertainment, and consumer goods.

[1] In determining whether a trade or business is regularly carried on, regard must be had to the frequency and continuity with which the business activities are conducted and the manner in which such activities are pursued. Specific business activities of a tax-exempt organization will ordinarily be deemed to be regularly carried on if they manifest a frequency and continuity, and are pursued in a manner, generally similar to comparable commercial activities of taxable entities. However, certain intermittent income producing activities (e.g., an annual dance) occur so infrequently that neither their recurrence nor the manner of their conduct will cause them to be regarded as a trade or business regularly carried on. See Treas. Reg. sec. 1.513-1(c).

[2] See *United States v. American College of Physicians*, 475 U.S. 834 (1986) (holding that activity of selling advertising in medical journal was not substantially related to the organization's exempt purposes and, as a separate business under section 513(c), was subject to tax).

the solicitation and receipt of such sponsorship payments may be treated as a separate activity. The Internal Revenue Service (IRS) has taken the position that, under some circumstances, such sponsorship payments may be subject to the UBIT.[3]

HOUSE BILL

The House bill directs the Secretary of the Treasury to conduct a study on the tax treatment of sponsorship payments received by charitable and other tax-exempt organizations from corporations and other sponsors in connection with athletic and cultural events, and the ramifications of IRS proposed examination guidelines contained in Announcement 92-15, 1992-5 I.R.B. 51. Within one year after the date of enactment, the Secretary is required to report the results of this study to the Senate Committee on Finance and the House Committee on Ways and Means.

As part of this study, the Treasury Department should address the following issues: (1) whether application of the "substantial return benefit" standard is appropriate for determining the UBIT treatment of sponsorship payments; (2) whether the "substantial return benefit" standard should be applied to sponsorship payments received in connection with events conducted prior to the issuance of proposed or final IRS examination guidelines; (3) application of the "regularly carried on" requirement to annual events conducted by tax-exempt organizations; and (4) the relevance of ancillary services or benefits (e.g., receptions or hospitality suites) provided by a tax-exempt organization to a corporate sponsor to the tax treatment of sponsorship payments, broadcast revenues, or royalty income received by the organization.

The committee report to the House bill urges the Treasury Department, in connection with the study, to promulgate IRS examination guidelines that enunciate clear and administrable rules for determining the tax treatment of sponsorship payments received by tax-exempt organizations.

Effective date.—The Secretary of the Treasury is required to report to Congress not later than one year after enactment the results of a study of corporate sponsorship payments received by tax-exempt organizations.

(However, H.R. 5645 included a provision similar to the conference agreement, except that the safe-harbor rule provided for by H.R. 5645 distinguished sporting events from other public events.)

SENATE AMENDMENT

Under the Senate amendment, the term "unrelated trade or business" does not include the activity of soliciting and receiving qualified sponsorship payments with respect to any qualified public event.

"Qualified sponsorship payments" are defined as any payment by a person engaged in a trade or business with respect to which there is no arrangement or expectation that such person will receive any substantial return benefit other than the use of the name or logo of such person's trade or business in connection with a qualified public event (and use by such person of the organization's name or logo). For purposes of the provision, use of a name or logo or a person's trade or business in connection with a public event does not include advertising or promotion of such person's particular products or services. For example, advertising or promotion of a sponsor's products or services not within the safe harbor provided for by the bill includes a call to action to purchase the sponsor's products, superlative description or qualitative claim about the company (or its products or services), direct comparison with other companies, price or value information, inducements to buy, or endorsements.[4]

The term "qualified public event" is defined as any public event conducted by an organization described in paragraph (3), (4), (5), or (6) of section 501(c),[5] if (1) substantially all the activities of the organization in conducting the event are not subject to the UBIT (e.g., the activities are substantially related to the exempt purposes of the organization, the activities are not regularly carried on, or the volunteer labor or some other present-law UBIT exception applies); and (2) the net proceeds from the event are used for a purpose described in section 170(c)(2)(B).[6]

Examples of public events governed by the provision include intercollegiate athletic events, concerts, museum exhibitions, State and agricultural fairs, fine-arts festivals, and charitable golf tournaments (provided that the other requirements of the provision are satisfied). Identifying a sponsor of a qualified public event (or incorporating the sponsor' name into the official name of the event) will fall within the safe harbor provided for by the provision, even if the amount of the sponsorship payment owed by the sponsor is contingent upon a factor such as attendance or broadcast ratings.

No inference is intended as to the tax treatment under present-law rules of sponsorship (or other) payments not governed by the provision, or sponsorship payments received in connection with events held prior to the date of enactment.[7]

Effective date.—The provision is effective for sponsorship payments received in connection with events conducted after the date of enactment.

CONFERENCE AGREEMENT

Under the conference agreement, qualified sponsorship payments received by certain tax-exempt organizations in connection with qualified public events are excluded from the UBIT.

The term "qualified public event" is defined as any event conducted by a tax-exempt organization described in paragraph (3), (4), (5), or (6) of section 501(c),[8] that is either:

(1) a public event that is substantially related to the exempt purposes of the organization conducting such event, or

(2) any other public event provided that such event is the only event of that type conducted (i.e., patronized by, or broadcast to, members of the public) by such organization during a calendar year and such event does not exceed 30 consecutive days.[9]

Public events that are substantially related to the exempt purposes of the organization conducting the event (e.g., symphony concerts, museum exhibits, intercollegiate athletic events, and county and agricultural fairs) are governed by the provision, even if held for more than a 30-day period. A public event conducted once a year for a period that does not exceed 30 days also would be governed by the provision, even if the event is not substantially related to the exempt purposes of the organization (e.g., an annual vaudeville show conducted by a hospital or an annual auction or other fundraising event).

For purposes of the provision, "qualified sponsorship payments" received by a tax-exempt organization that are excluded from UBIT are defined as any payment made by a person engaged in a trade or business with respect to which the person will receive no substantial return benefit other than:

(1) the use of the name or logo of the person's trade or business in connection with a qualified public event under arrangements (including advertising) in connection with such event which acknowledge such person's sponsorship or promote such person's products or services, or

(2) the furnishing of facilities, services, or other privileges in connection with such event to individuals designated by such person (e.g., tickets furnished to employees).[10]

To prevent avoidance of the 30-day rule governing unrelated events, the Secretary of the Treasury is granted authority to prescribe regulations to prevent avoidance of the purposes of the provision through the use of entities under common control.[11]

---

[3] See Announcement 92-15, 1992-5 I.R.B. 51 (announcing proposed audit guidelines distinguishing sponsorship payments in return for which there is mere acknowledgment of sponsor—and thus no UBIT liability—in contrast to sponsorship payments in return for which substantial economic benefits are conferred upon the sponsor and UBIT liability may be asserted by the IRS).

[4] It is intended that corporate sponsorship announcements or representations that meet the Public Broadcasting System (PBS) National Program Funding Standards and Practices generally will be considered permissible identification of a sponsor by use of its name or logo (or that of a division or subsidiary) and not advertising or promotion of the sponsor's particular products or services for purposes of the safe-harbor rule provided for by the bill. See *PBS National Program Funding Standards and Practices* (February 1990).

[5] In addition, State colleges and universities described in section 511(d)(2)(B) would be eligible for the UBIT exception provided for by the proposal.

[6] The purposes enumerated in section 170(c)(2)(B) are "religious, charitable, scientific, literary, or educational purposes, or to foster national or international amateur sports competition (but only if no part of its activities involve the provision or athletic facilities or equipment), or for the prevention of cruelty to children or animals."

[7] In addition, the technical explanation to the Senate amendment expressed concern about the tax treatment of royalties and other payments that may be received by the U.S. Olympic Committee and Atlanta Committee for the Olympic Games, Inc., in connection with the 1996 Games of the XXVI Olympiad. It is expected that, under general UBIT rules (see Rev. Rul. 81-178, 1981-2 C.B. 135), royalty income derived from licensing Olympic trademarks, emblems, and designations, as well as all income from broadcasting, filming, and videotaping the Olympics will be treated as exempt from the UBIT.

[8] In addition, events conducted by State colleges and universities described in section 511(d)(2)(B) are eligible for the UBIT exception provided for by the bill.

[9] The conference agreement provides that an event will be treated as a qualified public event with respect to all qualified tax-exempt organizations that receive sponsorship payments with respect to the event if such event is a qualified public event with respect to one of such organizations, but only to the extent that such payment is used to meet expenses of such event or for the benefit of the organization with respect to which the event is a qualified public event. Thus, if a national charitable organization receives sponsorship payments with respect to several local fundraising events conducted in conjunction with local affiliates (e.g., walk-a-thons at different sites around the country), the national organization will not be subject to UBIT with respect to sponsorship payments used to meet event expenses or distributed to local affiliates (assuming the events are qualified public events with respect to the local affiliates).

[10] The provision's "in connection with" requirement will be satisfied only if benefits provided to the sponsor (or individuals designated by the sponsor) are provided within a reasonable time period compared to when the qualified public event itself is patronized by (or broadcast to) the public and only if the benefits are provided in a manner reasonably related to the conduct of the public event activities (e.g., providing advertising in a program or brochure distributed to event patrons, or providing special seating at the event, or related pre- or post-event functions, to employees of the sponsor).

The exception provided for by the provision is in addition to other present-law exceptions from the UBIT (e.g., the exceptions for activities substantially all the work for which is performed by volunteers and for activities not regularly carried on). No inference is intended as to the tax treatment under present-law rules of sponsorship payments received in connection with events not governed by the provision (e.g., unrelated events held more than once per year or for more than 30 days) or events held by organizations that are not covered by the provision (e.g., 501(c)(10) fraternal organizations). Thus, income which is not subject to the UBIT because of one of the present-law exceptions, such as for activities that are not regularly carried on or are conducted substantially by volunteers, retain their exemption from the UBIT, even though not within the conference agreement safe-harbor rule. Further, no inference is intended as to events held prior to the date of enactment.

Olympics

The conference agreement also includes the following two rules with respect to the 1996 Games of the XXVI Olympiad:

(1) In the case of a qualified amateur sports organization described in present-law section 501(j)(2) or an organization that would be so described but for the cultural events it organizes in connection with national or international amateur sports competitions, "royalty" income excluded from the UBIT includes any income received directly or indirectly by such organization if a substantial part of the consideration therefor is the right to use trademarks, designations, or similar properties indicating a connection with the Olympic Games to be conducted in 1996 or related events or the participation of the United States Olympic Team at such Games or events.

(2) Nothing in section 514 or 512(b) shall be construed as treating any amount treated as a royalty under paragraph (1) as an item of income subject to the UBIT.

Effective date

The provision governing qualified sponsorship payments is effective for events conducted after the date of enactment. The rules governing the treatment of certain royalty income received in connection with 1996 Games of the XXVI Olympiad are effective upon the date of enactment.

5. Improved fundraising disclosure

PRESENT LAW

Disclosure of nonexempt status

There is no rule in present-law requiring a non-profit organization that does not have Federal tax-exempt status to disclose that it is not tax-exempt under the provisions of the Internal Revenue Code. In contrast, organizations that have tax-exempt status but are *not* eligible to receive tax-deductible charitable contributions are required to expressly state in certain fundraising solicitations that contributions or gifts to the organization are not deductible as charitable contributions for Federal income tax purposes (sec. 6113). Penalties may be imposed on such organizations for failure to comply with this requirement (sec. 6710).

Information reporting and public disclosure by tax-exempt organizations

Tax-exempt organizations generally are required to file an annual information return (Form 990) with the Internal Revenue Service (IRS). However, churches (and their affiliated organizations), as well as tax-exempt organizations (other than private foundations) that normally have gross receipts in each taxable year of not more than $25,000, are not required to file a Form 990.[1] If an organization that is eligible to receive tax-deductible contributions is required to file a Form 990, then it must report its gross income for the year, expenses attributable to such income, disbursements for tax-exempt purposes, names of certain substantial contributors, and the names and compensation (and other payments) paid to certain managers and highly compensated employees (sec. 6033(b)).

Section 6104 requires a tax-exempt organization (other than a private foundation) to make available for public inspection at the organization's principal office a copy of the organization's Form 990 (except for the names of contributors to the organization) for the three most recent taxable years, as well as the organization's application to the IRS for recognition of tax-exempt status.

HOUSE BILL

Disclosure of nonexempt status

The House bill requires organizations that do not have Federal tax-exempt status, but describe themselves in an advertisement or solicitation as "non-profit," to disclose in an express statement (in a conspicuous and easily recognizable format) that such organization is not exempt from Federal income taxes.[2] Failure to make such a required disclosure will subject the organization to a civil penalty of $1,000 per day, unless such failure was due to reasonable case, up to $10,000 per calendar year. Failure to make such required disclosure where there is intentional disregard for the requirement would be subject to a penalty of the greater of (1) $1,000 per day or (2) 50 percent of the aggregate cost of the advertisements and solicitations on such day and with respect to which there was a failure, without regard to the $10,000 annual limit.

Effective date.—January 1, 1993.

Information reporting and public disclosure by tax-exempt organizations

The House bill requires tax-exempt organizations to furnish (upon request made by an individual at the organization's principal office or certain regional offices) copies of the organization's Form 990 and application for tax-exempt status. Such copies are required to be provided without charge, other than a reasonable fee for the cost of reproduction. Documents subject to this provision are currently subject to public inspection under section 6104(e).

Effective date.—January 1, 1993.

SENATE AMENDMENT

Disclosure of nonexempt status

No provision.

Information reporting and public disclosure by tax-exempt organizations

Tax-exempt organizations described in section 501(c)(3) or 501(c)(4)[3] that, under present law must file annual information returns with the IRS (and make such returns available for public inspection), are required to advise each contributor of the availability of a disclosure statement and furnish (within 30 days of a written request) such statement to each contributor (or potential contributor) who requests such statement. The statement must disclose the gross income, expenses, and exempt-purpose disbursements of the organization for the most recent taxable year, as well as the names of the five highest compensated individuals and any other individual whose compensation during the year exceeds $100,000. The statement also must disclose the amount of compensation paid to such individuals.

The provision does not apply to religious organizations, educational organizations with regular campuses, medical organizations, and organizations the gross receipts of which in each taxable year are normally not more than $100,000.

An organization furnishing a disclosure statement under the provision may require that a self-addressed, stamped envelope and a reasonable fee not to exceed $2 to cover the actual costs of copying and mailing such statement be included in the written request for such statement. A penalty would be imposed for failure to comply with the provision of $50 for each day during which the failure continues, unless due to reasonable cause.

Effective date.—January 1, 1993.

CONFERENCE AGREEMENT

Disclosure of nonexempt status

The conference agreement follows the House bill.

Information reporting and public disclosure by tax-exempt organizations

The conference agreement follows the House bill. In addition, the conference agreement provides that organizations that are required to file a Form 990 are required to disclose in any advertisement or solicitation (made by the organization or on its behalf) that copies of the organization's Form 990s may be obtained directly from the organization. The disclosure must be made in an express statement, in a conspicuous and easily recognizable format, and must state that the material is available without charge other than a reasonable fee for the cost of reproduction. Failure to provide the disclosure would result in a penalty, unless such failure was due to reasonable cause, of $100 for each day such failure occurred, up to $10,000 per calendar year. If the failure is due to intentional disregard, a penalty would apply of the greater of (1) $100 or (2) 50 percent of the aggregate cost of the advertisements and solicitations which occurred on such day and with respect to which there was such a failure, without regard to the $10,000 annual limit.

If a request for an organization's Form 990 or application for recognition of tax-exempt status is made in person at the principal office of the organization (or certain regional offices), a copy of the material must be provided immediately. If the request is made other than in person at the organization's principal office, such as by telephone or by letter, then a copy of the material must be provided within 30 days. Failure to supply the requested documents would result in a penalty of $50 for each day during which the failure continues, unless reasonable cause is shown. The maximum penalty that may be imposed with respect to any one return may not exceed $5,000.

Effective date.—January 1, 1993.

---

[11] For this purpose, it is intended that organizations that conduct public events will not be treated as under common control solely as a result of their common affiliation with a national sanctioning body.

[1] See section 6033 and Rev. Proc. 83-23, 1981 C.B. 687.

[2] The provision applies if an advertisement or solicitation was made by, or on behalf of, an organization that is referred to as being "nonprofit" but is not exempt from Federal income tax.

[3] The provision also applies to any separate segregated fund described in section 527(f)(3).

6. Required notices to charitable beneficiaries of charitable remainder trusts

PRESENT LAW

Subject to certain limitations, an estate generally is allowed a deduction for transfers of property to charitable organizations, the United States, or a State or local government (sec. 2055(a)). Where a remainder interest is transferred to the charity in trust, however, a deduction is only permitted if the interest passing to the charitable remainderman is in the form of a charitable remainder annuity trust, a charitable remainder unitrust, or a pooled income fund (sec. 2055(e)).

In order for the estate to take the deduction authorized by section 2055, the Treasury regulations require that the executor submit a copy of the transfer instrument with the estate tax return and stipulate that no actions have been filed or are (according to the executor's information and belief) contemplated to contest the decedent's will in a manner affecting the charitable deduction claimed. Treas. Reg. sec. 20.2055-1(c).

A qualifying charitable remainder trust is generally exempt from tax unless it has unrelated business taxable income. The fiduciary of a qualifying charitable remainder trust must presently file (1) an annual information return on Form 5227 and (2) Form 1041-A unless all net income is required to be distributed currently to the beneficiaries. A charitable remainderman generally may inspect any such returns upon written request to the Internal Revenue Service (sec. 6103). Presently, the executor and trust fiduciaries generally are not required under the Code to provide any information directly to the charitable remainderman.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5636, as passed by the House, contains the same provision as included in the conference agreement as described below, except for a change in the effective date.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement requires that, within 60 days of his qualification, an executor shall provide each charitable remainderman with the following information (the "Qualification Notice"): (1) the fact of the executor's qualification; (2) the name, address and date of death of the decedent; (3) the name and address of each charitable beneficiary; (4) a copy of the governing instrument relating to the transfer in trust; and (5) a description of the interest to which the charitable remainderman may be entitled, and any preliminary statements (if required by law) on the financial condition of the estate.

The conference agreement also requires that the charitable remainderman be notified of the filing of a Federal estate tax return and be provided with a copy of the pertinent parts thereof (together with such other information as may be required by form or Treasury regulation) on or before the due date for such return. If the executor has provided the Qualification Notice, this requirement is waived unless the remainderman has agreed to reimburse the fiduciary for the reasonable costs of furnishing such information.

Further, the conference agreement requires the fiduciary of each charitable remainder trust to furnish each charitable remainderman with a copy of any returns required to be filed pursuant to chapter 61 of the Code. If the fiduciary provides this information for any taxable year, this requirement is waived for each subsequent taxable year unless the remainderman has agreed to reimburse the fiduciary for the reasonable costs of furnishing such information.

The penalties under section 6652 are extended to any failure to furnish information required under the foregoing amendments. Accordingly, an executor or other fiduciary who fails to provide such information will be charged $10 for each day that the failure to furnish such information continues (but not in excess of $5000 for any single return).

Effective date.—The provision is effective on the date of enactment.

7. Application of private inurement rule to tax-exempt civic leagues

PRESENT LAW

A tax-exempt charitable organization described in section 501(c)(3) must be organized and operated exclusively for a charitable, religious, educational, scientific, or other exempt purpose specified in that section, and no part of the organization's net earnings may inure to the benefit of any private shareholder or individual.[1]

A tax-exempt social welfare organization described in section 501(c)(4) must be organized on a non-profit basis and must be operated exclusively for the promotion of social welfare.[2] In contrast to section 501(c)(3), however, there is no specific rule in section 501(c)(4) that prohibits the net earnings of a social welfare organization from inuring to the benefit of a shareholder or individual.

HOUSE BILL

No provision. (However, H.R. 2735 includes a provision identical to the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Section 501(c)(4) is amended to provide tax-exempt status to civic leagues or organizations not organized for profit but operated exclusively for the promotion of social welfare, provided that no part of the net earnings of such an organization inures to the benefit of any private shareholder or individual. In addition, section 501(c)(4) is amended to provide tax-exempt status to local associations of employees, the membership of which is limited to the employees of a designated person or persons in a particular municipality, provided that the association is operated exclusively for charitable, educational, or recreational purposes, and no part of the net earnings of which inures to the benefit of any private shareholder or individual.

Effective date.—The provision is effective on the date of enactment.

8. Exemption from certain wagering taxes for charitable organizations

PRESENT LAW

An excise tax is imposed on the amount of certain wagers. The rate of tax is 0.25 percent for any wager authorized under the law of the State in which accepted and 2 percent for any other wager.

An occupational excise tax of $500 is imposed on each person liable for the wagering excise tax described in the previous paragraph or engaged in receiving wagers on behalf of any person so liable. The amount of the tax is reduced to $50 in the case of persons liable for the wagering excise tax with respect to State-authorized wagers.

Wagers subject to the excise tax are those placed in a for-profit lottery or those with respect to a sports event or contest that are placed: (1) with a person engaged in the business of accepting wagers or (2) in a for-profit wagering pool. The term "lottery" does not include games in which usually wagers are placed, winners are determined, and prizes are distributed in the presence of all persons placing wagers or drawings conducted by organizations exempt from tax under Code sections 501 or 521 if no part of the net proceeds of the games inures to the benefit of any private shareholder or individual.

No excise tax is imposed on wagers placed in a wagering pool conducted by a parimutuel wagering enterprise licensed under State law, in a coin-operated device, or in a State-conducted lottery (but only if the wager is placed with the State agency conducting the lottery).

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5648 as passed by the House contains the same provision as included in the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that any organization exempt from tax under Code sections 501 or 521 and any person engaged in receiving wagers only on behalf of such organization are exempt from the occupational excise tax if the only wagers accepted by such organization (and such person) are authorized under the law of the State in which accepted.

In addition, the calculation of the wagering excise tax is changed for such organizations or persons described above. If the amount of charitable expenditures for any calendar quarter equals or exceeds the amount of "wagering winnings"[1] of the organization for such quarter, then no wagering excise tax is imposed. If the amount of charitable expenditures for any calendar quarter is less than the amount of wagering winnings of the organization for such quarter, then the tax base for the wagering excise tax is reduced to x percent of the gross amount of wagers (where x is the percent of the organization's wagering winnings in excess of the charitable expenditures during that quarter).

For purposes of the above calculations, the charitable expenditures by an organization during any calendar quarter are the sum of (1) the amounts paid by the organization during the quarter to accomplish an exempt purpose described in Code section 170(c)(2)(B) or to acquire an asset used (or held for use) directly in accomplishing such exempt purpose and (2) the amounts permanently set aside by the organization during such quarter for such exempt purposes.

Effective date.—The provision exempting certain charitable organizations from the oc-

---

[1] The private inurement restriction prohibits inurement of an organization's assets to "persons having a personal and private interest in the activities of the organization." Treas. Reg. sec. 1.501(a)-1(c). Even where no prohibited private inurement exists, however, more than incidental private benefits may be conferred upon disinterested persons such that the organization is not operated exclusively for an exempt purpose. See *American Campaign Academy* v. *Comm'r*, 92 T.C. 1053 (1989).

[2] Section 501(c)(4) also provides tax-exempt status to local associations of employees, the membership of which is limited to the employees of a designated person or persons in a particular municipality, and the net earnings of which are devoted exclusively to charitable, educational, or recreational purposes.

---

[1] "Wagering winnings" are defined as the net proceeds from gambling conducted by the organization (amounts wagered minus winnings paid out on such wagers).

cupational excise tax is effective for taxes imposed for periods beginning after the date of enactment. The provision affecting the calculation of the wagering excise tax is effective for wagers placed in calendar quarters beginning after the date of enactment.

9. Conducting of certain games of chance not treated as unrelated trade or business

PRESENT LAW

Although generally exempt from Federal income tax, tax-exempt organizations are subject to the unrelated business income tax (UBIT) on income derived from a trade or business regularly carried on that is not substantially related to the performance of the organization's tax-exempt functions (secs. 511–514). Certain income, however, is exempted from the UBIT (such as interest, dividends, royalties, and certain rents), unless derived from debt-financed property (sec. 512(b)). Other exemptions from the UBIT are provided for activities in which substantially all the work is performed by volunteers and for income from the sale of donated goods (sec. 513(a)).

In addition, a specific exemption from the UBIT is provided for certain bingo games[1] conducted by tax-exempt organizations, provided that the conducting of the bingo games is not an activity ordinarily carried out on a commercial basis and the conducting of which does not violate any State or local law (sec. 513(f)).

HOUSE BILL

No provision. (However, H.R. 5660 includes a provision identical to the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement expands the present-law exemption from the UBIT for certain bingo games to also apply to certain "other qualified games of chance." For purposes of this provision, the term "other qualified games of chance" is defined as any game of chance (other than bingo) if (1) the conducting of such game by the organization does not violate State or local law, (2) the conducting of such game by for-profit organizations would violate State or local law, and (3) no substantial part of the work in conducting such game is performed by individuals principally engaged in performing gaming services for hire.[2]

No inference is intended regarding the treatment for purposes of the UBIT of games of chance conducted by tax-exempt organizations prior to the date of enactment.

Effective date.—The provision is effective for games of chance conducted after the date of enactment.

10. Treatment of nonprofit health insurance providers

PRESENT LAW

An organization described in sections 501(c)(3) and (4) of the Code is exempt from tax only if no substantial part of its activities consists of providing commercial-type insurance (sec. 501(m)). Special rules apply to certain health insurance providers subject to this provision. In particular, present law provides a special deduction and other special rules for Blue Cross or Blue Shield organizations existing on August 16, 1986, and for other organizations that meet certain requirements and substantially all of whose activities are providing health insurance.

The special deduction (sec. 833) is provided to such organizations with respect to their health business equal to 25 percent of the claims and expenses incurred during the taxable year less the adjusted surplus at the beginning of the year. This deduction is calculated by computing surplus, taxable income, claims incurred, expenses incurred, tax-exempt income, net operating loss carryovers, and other items attributable to health business. The deduction may not exceed taxable income attributable to health business for the year (calculated without regard to this deduction).

In addition, section 833 provides other special rules for such organizations. These special rules treat such organizations as stock insurance companies, and eliminate the otherwise applicable 20 percent reduction in unearned premium reserves.

HOUSE BILL

No provision in H.R. 11. However, H.R. 5641, as passed by the House, provides the special deduction and other special rules of section 833 to the same extent they are provided under present law to certain existing Blue Cross or Blue Shield organizations, in the case of an organization that is not a Blue Cross or Blue Shield organization existing on August 16, 1986, and otherwise meeting the requirements of section 833 (including sec. 833(c)(2)). Under the bill, a qualifying organization receives this treatment if it is not a health maintenance organization and it is organized under and governed by State laws which are specifically and exclusively applicable to not-for-profit health insurance or health service type organizations.

Effective date.—This provision of H.R. 4651 is effective for taxable years beginning after December 31, 1991.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 5641.

11. Tax-sheltered annuities for Indian tribes

PRESENT LAW

Under present law, organizations that are tax-exempt under section 501(c)(3) of the Code and certain State and local government educational organizations are permitted to maintain tax-sheltered annuity plans (sec. 403(b)). Indian tribal governments are treated as States for this purpose, so certain educational organizations associated with a tribal government are eligible to maintain tax-sheltered annuity plans. However, while tax-exempt, Indian tribes are not the type of tax-exempt organization permitted to maintain tax-sheltered annuity plans.

HOUSE BILL

No provision. (However, H.R. 5656 contains a provision that is the same as the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that Indian tribal governments are treated the same as section 501(c)(3) organizations for purposes of the rules relating to tax-sheltered annuities.

Effective date.—Date of enactment.

12. Treatment of certain costs of private foundation in removing hazardous substances

PRESENT LAW

Tax-exempt private foundations generally are required to make annual "qualifying distributions" of a specified minimum amount called the "distributable amount" (sec. 4942). The "distributable amount" is an amount equal to 5 percent of the fair market value of the foundation's investment asset for the year, reduced by (1) any excise tax on the foundation's investment income (under sec. 4940), (2) any tax on unrelated business taxable income (under sec. 511), and (3) by carryovers of excess distributions from prior years. "Qualifying distributions" include direct expenditures to accomplish charitable purposes and grants to public charities or private operating foundations. In addition, if certain requirements are met, a qualifying distribution also may include amounts "set aside" to be paid within five years for a specific charitable project.

HOUSE BILL

No provision. (However, H.R. 5644 includes a provision identical to the Senate amendment.)

SENATE AMENDMENT

Under the Senate amendment, the distributable amount of a private foundation for purposes of section 4942 is reduced by any amounts paid or incurred (or permanently set aside) for (1) investigatory costs, (2) direct costs of removal, and (3) costs of remedial action with respect to a hazardous substance released at certain facilities which were owned or operated by the private foundation. The provision is limited to a facility that was transferred to the foundation before December 11, 1980, on which active operation by the foundation was terminated before December 12, 1980. In addition, the provision does not apply to costs that were incurred pursuant to a pending order issued to the foundation unilaterally by the President or the President's assignee under section 106 of the Comprehensive Response, Compensation and Liability Act, or pursuant to a non-consensual judgement against the foundation in a governmental costs recovery action under section 107 of such Act. For purpose of this provision, "hazardous substance" has the meaning given to such term by section 9601(14) of the Comprehensive Environmental Compensation and Liability Act.

Effective date.—Taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

13. Unrelated business income tax treatment of mailing lists

PRESENT LAW

Tax-exempt organizations generally are subject to the unrelated business income tax (UBIT) on income derived from a trade or business regularly carried on that is not substantially related to the performance of the organization's tax-exempt functions (secs. 511–514). However, certain types of income (e.g., interest, dividends, royalties, and certain rents) are specifically excluded from the

---

[1] For purposes of this exemption, the term "bingo game" is defined as any game of bingo of a type in which usually (1) the wagers are placed, (2) the winners are determined, and (3) the distribution of prizes or other property is made in the presence of all persons placing wagers in such game (sec. 513(f)(2)).

[2] It is intended that volunteers who receive tips or payments to reimburse them for expenses incurred in connection with non-profit gaming operations not be considered to be individuals who principally engage in performing gaming services for hire. For example, individuals operating or employed by a business, such as a restaurant or bar, who also sell pull-tabs of a sponsoring tax-exempt organization as part of their regular services for such business, shall not be considered as principally engaged in performing gaming services for hire.

UBIT, except where derived from debt-financed property (sec. 512(b)).[1] In addition, exemptions from the UBIT are provided for income derived from activities substantially all the work for which is conducted by volunteers, which involves the selling of donated goods, and certain activities conducted by charities and educational organizations for the convenience of their members, students, patients, officers, or employees (sec. 513(a)).

Section 513(h) provides that, in the case of a tax-exempt charity (or war veterans organization) eligible to receive tax-deductible contributions, the UBIT does not apply to income from any trade or business which consists of exchanging with another such organization names and addresses of donors to (or members of) such organization, or renting such names and addresses to another such organization. Section 513(h) does not apply to sales or exchanges of donor or member lists to taxable organizations or among tax-exempt organizations other than tax-exempt charities (and certain war veterans groups) eligible to receive tax-deductible contributions.[2]

HOUSE BILL

No provision.

SENATE AMENDMENT

In the case of a tax-exempt organization eligible to receive deductible charitable contributions under section 170(c)(2) or (3), or any organization described in section 501(c)(4) ("social welfare organizations"), the UBIT does not apply to income from any trade or business which consists of (1) exchanging names and addresses of donors to (or members of) such organization with any other person, or (2) renting such names and addresses to any other person, but only if the aggregate income from such rental activity for the taxable year does not exceed 10 percent of the organization's gross revenue for that year. Thus, the provision excludes from the UBIT income from exchanges or rentals (subject to the 10-percent limitation) by a tax-exempt charity, war veterans group, or social welfare organization of mailing lists to *any* taxable or tax-exempt entity.

Effective date.—Exchanges and rentals of member (or contributor) lists before, on, or after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the provision is limited to exchanges and rentals by tax-exempt charities, war veterans groups, and social welfare organizations to other tax-exempt charities, war veterans groups, or social welfare organizations. For example, the UBIT does not apply to income derived by a tax-exempt charity from exchanging its membership lists with another tax-exempt charity, war veterans group, or tax-exempt social welfare organizations described in section 501(c)(4). Similarly, if a tax-exempt social welfare organization described in section 501(c)(4) rents a list of its members either to another tax-exempt social welfare organization described in section 501(c)(4), or to a tax-exempt charity (or war veterans group) eligible to receive tax-deductible contributions, the UBIT does not apply to the income derived from that activity, provided that aggregate income from such rental activity for the taxable year does not exceed 10 percent of the organization's gross revenue for that year.[3] The provision does not apply to exchanges (or rentals) to taxable entities or any tax-exempt organization other than a tax-exempt charity, war veterans group, or social welfare organization.

No inference is intended as to whether or not revenues from mailing list activities other than those described in the provision are subject to the UBIT.

Effective date.—The provision is effective for exchanges and rentals of member lists before, on, or after the date of enactment.

C. FOREIGN PROVISIONS

1. Pass-through treatment for certain dividends paid by a regulated investment company to foreign persons

PRESENT LAW

Regulated investment companies

A regulated investment company ("RIC") is a domestic corporation that, at all times during the taxable year, is registered under the Investment Company Act of 1940 as a management company or as a unit investment trust, or has elected to be treated as a business development company under that Act (sec. 851(a)).

In addition, to qualify as a RIC, a corporation must elect such status and must satisfy certain tests (sec. 851(b)). These tests include a requirement that the corporation derive at least 90 percent of its gross income from dividends, interest, payments with respect to certain securities loans, and gains on the sale or other disposition of stock or securities or foreign currencies, or other income derived with respect to its business of investment in such stock, securities, or currencies.

A RIC generally is treated as a conduit for Federal income tax purposes. Conduit treatment is accomplished by permitting a RIC to deduct dividends paid to its shareholders in computing its taxable income. The amount of any distribution generally is not considered as a dividend for purposes of computing the dividends paid deduction unless the distribution is pro rata, with no preference to any share of stock as compared with other shares of the same class (sec. 562(c)). For distributions by RICs to shareholders who made initial investments of at least $10,000,000, however, the distribution is not treated as non-pro rata or preferential solely by reason of an increase in the distribution due to reductions in administrative expenses of the company.

A RIC generally may pass through to its shareholders the character of its long-term capital gains. It does this by designating a dividend it pays as a capital gain dividend to the extent that the RIC has net capital gain (i.e., net long-term capital gain over net short-term capital loss). These capital gain dividends are treated as long-term capital gain by the shareholders. A RIC generally also can pass through to its shareholders the character of tax-exempt interest from State and municipal bonds, but only if, at the close of each quarter of its taxable year, at least 50 percent of the value of the total assets of the RIC consists of these obligations. In this case, the RIC generally may designate a dividend it pays as an exempt-interest dividend to the extent that the RIC has tax-exempt interest income. These exempt-interest dividends are treated as interest excludable from gross income by the shareholders.

The Internal Revenue Service has stated its position that if a RIC has two or more classes stock and it designates the dividends that it pays on one class as consisting of more than that class's proportionate share of a particular type of income, the designations are not effective for Federal tax purposes to the extent that they exceed the class's proportionate share of that type of income (Rev. Rul. 89-81, 1989-1 C.B. 226). Thus, in order to achieve all the tax effects provided under the Code for such RIC dividends, a capital gain dividend or an exempt-interest dividend must be pro rata within a class of RIC stock, and, with respect to any one class of RIC stock, generally cannot (under the Service's interpretation of present law) exceed that proportion of the relevant capital gain or exempt interest income of the RIC that the amount of dividends paid to shareholders of that class of stock bears to the total amount of dividends paid by the RIC.

U.S. source investment income of foreign persons

Under the Code, the United States generally imposes a flat 30-percent tax, collected by withholding, on the gross amount of U.S. source investment income payments, such as interest and dividends, to nonresident alien individuals and foreign corporations ("foreign persons") (secs. 871(a), 881, 1441, and 1442). Under treaties, the United States may reduce or eliminate such taxes. Even taking into account U.S. treaties, however, the tax on a dividend generally is not entirely eliminated. Instead, U.S. source portfolio investment dividends received by foreign persons generally are subject to U.S. withholding tax at a rate of at least 15 percent.

Interest

There is no 30-percent gross-basis U.S. tax with respect to U.S. source bank deposit interest that is not effectively connected with the conduct of a trade or business within the United States. Nor is there such a tax on the amount includible in gross income as original issue discount on an obligation payable 183 days or less from the date of original issue (without regard to the period held by the taxpayer).

Nor is there 30-percent gross-basis U.S. tax on so-called "portfolio interest." Portfolio interest includes interest (including original issue discount) which would be subject to the gross-basis U.S. tax but for the fact certain requirements are met with respect to the obligation on which the interest is paid, and with respect to the interest recipient (or the location of the interest recipient). Pursuant to these requirements, the obligation must be in registered form or be "foreign-targeted". The U.S. person who otherwise would be required to withhold tax must receive a statement that the beneficial owner of the obligation is not a United States person. If the obligation was issued by a corporation or a partnership, the recipient of the interest must not be a "10-percent shareholder" of the corporation or partnership. A corporate recipient of the interest must be neither a controlled foreign corporation receiving interest from a related person, nor (unless the obligor is the United States) a bank receiving the interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business. The payment of interest must not be to any person within a foreign country (and must not be a payment addressed to, or for the account of, persons within a foreign country) with respect to which the Treasury Secretary has determined that exchange of information is inadequate to prevent evasion of U.S. income tax by U.S. persons. This last requirement does not currently affect the exemption from tax on interest, as no such determinations have been made to date.

---

[1] In addition, interest, royalties, and rents (but not interest) paid to a tax-exempt organization by certain controlled entities are subject to the UBIT in proportion to the income of the controlled entity that would have been subject to the UBIT if derived directly by the controlling tax-exempt organization (sec. 512(b)(13)).

[2] See *Disabled American Veterans v. Commissioner*, 942 F.2d 309 (6th Cir. 1991) (holding that amounts received by a charitable organization from use of names from its mailing lists were taxable as unrelated business income and not exempt as royalties).

[3] For purposes of applying the 10-percent limitation, income received during the taxable year by an organization from all exchanges and rentals to charities, war veterans groups, and social welfare organizations is aggregated.

Capital gains

Under the Code, foreign persons generally are not subject to U.S. tax on gain realized on the disposition of stock or securities issued by a U.S. person (other than a "U.S. real property holding corporation," as described below), unless the gain is effectively connected with the conduct of a trade or business in the United States. This exemption does not apply, however, to the extent that the foreign person is a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the taxable year. Foreign persons receiving capital gain dividends from U.S. RICs have been treated as receiving capital gains not subject to U.S. tax, rather than dividends subject to the ordinary U.S. withholding tax on dividends (see Rev. Rul. 69–244, 1969–1 C.B. 215).

Under the Foreign Investment in Real Property Tax Act of 1980 ("FIRPTA"), as amended, gain or loss of a foreign person from the disposition of a U.S. real property interest is subject to net basis tax as if the taxpayer were engaged in a trade or business within the United States and the gain or loss were effectively connected with such trade or business. In addition to fee ownership of U.S. real property, U.S. real property interests include (among other things) any interest in a domestic corporation unless the taxpayer establishes that the corporation was not, during a 5-year period ending on the date of the disposition of the interest, a U.S. real property holding corporation (which is defined generally to mean a corporation the fair market value of whose U.S. real property interests equals or exceeds 50 percent of the sum of the fair market values of its real property interests and any other of its assets used or held for use in a trade or business).

Under FIRPTA, a distribution by a real estate investment trust ("REIT") to a foreign person is, to the extent attributable to gain from sales or exchanges by the REIT of U.S. real property interests, treated as gain recognized by the foreign person from the sale or exchange of a U.S. real property interest. Under Treasury regulations, a REIT is generally required to withhold tax upon such a distribution to a foreign person, at a rate of 34 percent times the maximum amount of that distribution that could be designated by the REIT as a capital gain dividend (Treas. Reg. sec. 1.1445–8 (a)(2), (b)(1), and (c)(2)).

In view of the nature of a REIT, an interest in a REIT may in some cases be considered to be a U.S. real property interest. However, an interest in a domestically-controlled REIT is not considered a U.S. real property interest. Also, the foreign ownership percentage of taxable appreciation in the value of a U.S. real property interest held by a domestically-controlled REIT is subject to tax in the hands of the REIT under special FIRPTA rules upon distribution of the U.S. real property interest by the REIT.

House Bill

No provision.

Senate Amendment

In general

Under the provision, a RIC that earns certain interest income which would not be subject to U.S. tax if earned by a foreign person generally may, to the extent of such income, designate a dividend it pays as deriving from such interest income. A foreign person who is a shareholder in the RIC generally would treat such a dividend as exempt from gross-basis U.S. tax, just as if the foreign person had earned the interest directly. Similarly, a RIC that earns an excess of net short-term capital gains over net long-term capital losses, which excess would not be subject to U.S. tax if earned by a foreign person, generally may, to the extent of such excess, designate a dividend it pays as deriving from such excess. A foreign person who is a shareholder in the RIC generally would treat such a dividend as exempt from gross-basis U.S. tax, just as if the foreign person had realized the excess directly.

Interest-related dividends

Under the Senate amendment, an RIC could, under certain circumstances, designate all or a portion of a dividend as an "interest-related dividend," by written notice mailed to its shareholders not later than 60 days after the close of its taxable year. An interest-related dividend received by a foreign person generally would be exempt from U.S. gross-basis tax under sections 871(a), 881, 1441 and 1442.

This exemption would not apply, however, to the extent that the foreign person is a 10-percent shareholder (as defined in the portfolio obligation rules) with respect to the RIC. The exemption would not apply to a dividend on shares of RIC stock unless the withholding agent has received a statement, as required under the portfolio interest rules, that the beneficial owner of the shares is not a U.S. person. The exemption would not apply to a dividend paid to any person within a foreign country (or dividends addressed to, or for the account of, persons within such foreign country) with respect to which the Treasury Secretary has determined, under the portfolio interest rules, that exchange of information is inadequate to prevent evasion of U.S. income tax by U.S. persons.

In addition, the exemption generally would not apply to dividends paid to a controlled foreign corporation to the extent such dividends are attributable to income received by the RIC on a debt obligation of a person with respect to which the recipient of the dividend is a related person. Nor would the exemption generally apply to dividends to the extent such dividend is attributable to income received by the RIC on indebtedness issued by any corporation or partnership with respect to which the recipient of the dividend is a 10-percent shareholder with respect to any entity the obligations of which are held by the RIC. In these two cases, however, the RIC remains exempt from its withholding obligation unless the RIC knows that the dividend recipient is such a controlled foreign corporation or 10-percent shareholder. To the extent that an interest-related dividend received by a controlled foreign corporation is attributable to interest income of the RIC that would be portfolio interest if received by a foreign corporation, the dividend would be treated as portfolio interest for purposes of the de minimis rules, the high-tax exception, and the same country rules of subpart F (see sec. 881(c)(4)).

The aggregate amount designated as interest-related dividends for the RIC's taxable year (including dividends so designated that are paid after the close of the taxable year but treated as paid during that year as described in section 855) generally is limited to the qualified net interest income of the RIC for the taxable year. The qualified net interest income of the RIC equals the excess of (a) the amount of qualified interest income of the RIC over (b) the amount of expenses of the RIC properly allocable to such interest income.

Qualified interest income of the RIC is the sum of bank deposit interest that currently is exempt from the gross-basis tax under section 871, short term original discount that is currently exempt from the gross-basis tax under section 871, and any interest (including original issue discount on an obligation) which is in registered form, unless it is earned on an obligation issued by a corporation or partnership in which the RIC is a 10-percent shareholder.

Where the amount designated as an interest-related dividend is greater than the qualified net interest income described above, then the portion of the distribution so designated which constitutes an interest-related dividend will be only that proportion of the amount so designated as the amount of the qualified net interest income bears to the amount so designated.

By reason of the pro rata distribution rule of current law, the designation of all or a portion of any distribution as a qualified interest dividend generally must be pro rata with respect to all shares of the company of the same class, and may not apply specially to any share of stock as compared with any other shares of stock of the company in that same class. If the RIC has more than one class, moreover, the committee similarly does not intend to permit a RIC to designate dividends as interest-related dividends disproportionately as between classes. The committee understands that this intent is consistent with present law as interpreted by the Internal Revenue Service in Rev. Rul. 89–81. Even if the Internal Revenue Service were to have erred in its interpretation of present law, however, the committee intends for the rule announced in Rev. Rul. 89–81 to apply in the case of dividends designated as interest-related dividends or short term capital gain dividends under the provisions of the Senate amendment.

For example, assume that a RIC with only one class of stock has $5000 of qualified net interest income for the taxable year, and $5000 of other income. Assume that the RIC properly pays as a dividend $10,000 pro rata to its 1000 equal shareholders, half of whom are foreign, resulting in a $10 dividend to each shareholder. Under the Senate amendment, the RIC could designate a maximum of $5 of the amount of the dividend to any foreign shareholder as an interest-related dividend.

As another example, assume that a RIC with the same income as above has two classes of stock—common and preferred—and properly pays a dividend of $8000 to the common stockholders, and $2000 to the preferred shareholders. Under the Senate amendment, the RIC can designate $1000 of the preferred stock dividend, on a pro rata basis, as an interest-related dividend, and $4000 of the common stock dividend, on a pro rata basis, as an interest-related dividend. However, if only $3000 of the common stock dividend is designated an interest-related dividend, the difference between $3000 and $4000 could not be used to increase the $1000 cap on the amount of the preferred stock dividend that may, for tax purposes, be so designated.

Short term capital gain dividends

Under the Senate amendment, an RIC could also, under certain circumstances, designate all or a portion of a dividend as a "short term capital gain dividend," by written notice mailed to its shareholders not later than 60 days after the close of its taxable year. For purposes of the U.S. gross-basis tax, a short term capital gain dividend received by a foreign person generally would be exempt from U.S. gross-basis tax under sections 871(a), 881, 1441 and 1442. This exemption would not apply to the extent that the foreign person is a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the taxable year. In this case, however, the RIC remains exempt from its withholding obligation unless the RIC knows that the dividend recipient has been present in the United States for such period.

The aggregate amount designated as short term capital gain dividends for the RIC's taxable year (including dividends so designated that are paid after the close of the taxable year but treated as paid during that year as described in section 855) is generally limited to the excess of (a) the RIC's net short-term capital gains over net long-term capital losses, less (b) the amount of expenses of the RIC allocable to such net gains. Where the amount so designated is greater, however, than this excess, then the portion of the distribution so designated which constitutes a short term capital gain dividend will be only that proportion of the amount so designated as the amount of the excess bears to the amount so designated. In addition, as in the case of interest-related dividends, the designation of all or a portion of any distribution as a short term capital gain dividend generally must be pro rata with respect to shares of the same class, and governed by a rule of proportionality as between different classes.

As is true under current law for distributions from REITs, the Senate amendment provides that any distribution by an RIC to a foreign person shall, to the extent attributable to gains from sales or exchanges by the RIC of an asset (for example, stock) that is considered a U.S. real property interest, be treated as gain recognized by the foreign person from the sale or exchange of a U.S. real property interest. As under current law in the case of an REIT, the committee intends that the RIC shall be required to deduct and withhold, under section 1445, a tax equal to 34 percent of the amount of the dividend so treated. The Senate amendment also extends the special rules for domestically-controlled REITs to domestically-controlled RICs.

Effective Date.—In general, the provision is effective with respect to taxable years of RICs beginning after date of enactment. However, the provision exempting an interest in a domestically-controlled RIC from treatment as a U.S. real property interest is effective on the date the provision is enacted.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

2. Election not to apply 90-percent limitation on alternative minimum tax foreign tax credit

PRESENT LAW

In general

Under present law, U.S. citizens, residents, and corporations are subject to U.S. taxation on their worldwide incomes. The U.S. tax on foreign income may be offset by a credit for foreign income taxes incurred. Foreign corporations, including foreign corporations controlled by U.S. taxpayers, generally are subject to U.S. taxation only on income earned in the United States.

"Deferral" refers to the practice of not taxing the income of a U.S.-controlled foreign corporation until that income is distributed to the controlling U.S. shareholders. The term "deferral" is employed because the net U.S. tax liability—equal to the difference between the U.S. tax and the credit for foreign taxes—is "deferred" until such income is distributed as a dividend.

The controlled foreign corporation (subpart F) rules of the Code provide for exceptions to the general rule of deferral (secs. 951-964). Certain U.S. shareholders of a controlled foreign corporation are subject to current U.S. taxation on their pro rata portions of the foreign corporation's "subpart F income." Subpart F income typically is income that is relatively movable from one taxing jurisdiction to another and that is subject to low effective rates of foreign tax.

Alternative minimum tax foreign tax credit

Under present law, taxpayers are subject to an alternative minimum tax ("AMT"), which is payable, in addition to all other tax liabilities, to the extent that it exceeds the taxpayer's regular income tax liability. The tax is imposed at a flat rate of 20 percent, in the case of corporate taxpayers, on alternative minimum taxable income ("AMTI") in excess of a phased-out exemption amount. The rate for noncorporate taxpayers is 24 percent. Alternative minimum taxable income is the taxpayer's taxable income increased for certain tax preferences and adjusted by determining the tax treatment of certain items in a manner which negates the exclusion or deferral of income resulting from the regular tax treatment of those items.

Taxpayers are permitted to reduce their AMT liability by an AMT foreign tax credit. The AMT foreign tax credit for a taxable year is determined under principles similar to those used in computing the regular tax foreign tax credit, except that (1) the numerator of the AMT foreign tax credit limitation fraction is foreign source AMTI[1] and (2) the denominator of that fraction is total AMTI.[2]

The AMT foreign tax credit for any taxable year generally may not offset a taxpayer's entire pre-credit AMT. Rather, the AMT foreign tax credit generally is limited to 90 percent of AMT computed without an AMT net operating loss deduction, an AMT energy preference deduction, or an AMT foreign tax credit.[3] For example, assume that a corporation has $10 million of AMTI, has no AMT net operating loss or energy preference deductions, and is subject to the AMT. In the absence of the AMT foreign tax credit, the corporation's tax liability would be $2 million. Accordingly, the AMT foreign tax credit cannot be applied to reduce the taxpayer's tax liability below $200,000. Any unused AMT foreign tax credit may be carried back 2 years and carried forward 5 years for use against AMT in those years under the principles of the foreign tax credit carryback and carryforward set forth in section 904(c).

HOUSE BILL

No provision.

SENATE AMENDMENT

In general

Under the Senate amendment, a domestic corporation is permitted to elect to be exempt from the 90-percent limitation on the utilization of the AMT foreign tax credit. As explained more fully below, any corporation that does so elect, and any other domestic corporation that is related to the electing corporation, thereby foregoes the benefits of deferral with respect to the income of all controlled foreign corporations of which they are U.S. shareholders.

Domestic corporations affected by an election

The election may be made by any domestic corporation. If the election is made, the loss of deferral applies to all domestic corporations that are members of an expanded affiliated group of corporations, as defined for purposes of this election, that includes the electing corporation. On the other hand, only corporations that actually make the election are entitled to the exemption from the 90-percent limit on the use of the AMT foreign tax credit.

Under the Senate amendment, membership in an expanded affiliated group is determined by applying the affiliated group definitions of section 1504, substituting a greater-than-50-percent stock ownership threshold for the 80-percent ownership threshold. The Senate amendment treats foreign corporations as includible corporations solely for the purpose of determining whether any domestic corporation is a member of the group. Under the amendment, membership in the expanded affiliated group is determined by treating stock owned by attribution under the rules of section 1563 as owned directly. Under the amendment, a corporation is considered to be controlled if *either* the 50-percent vote *or* the 50-percent value test is met. Finally, under the Senate amendment stock is disregarded for purposes of determining expanded affiliated group membership if it is limited and preferred as to dividends and does not participate in corporate growth to any significant extent.

Loss of deferral

As described above, the benefits of deferral are foregone by any domestic corporation included in an expanded affiliated group that includes an electing corporation. Generally, all of the earnings and profits for the taxable year of a controlled foreign corporation with respect to which the domestic corporation is a U.S. shareholder are treated as subpart F income, for purposes of determining the amount of subpart F income to be included in the income of the domestic corporation pursuant to section 951. Under the amendment, as under present law, subpart F income does not include earnings and profits attributable to income from sources within the United States which is effectively connected with the conduct of a U.S. trade or business (except to the extent that the income is exempt from tax or subject to a reduced rate of taxation pursuant to a U.S. treaty obligation). Nor does subpart F income include any foreign trade income of a foreign sales corporation (FSC). Such income remains taxable to the FSC to the extent provided under current law. Also as under present law, subpart F income is not reduced on account of certain illegal payments.

Under the Senate amendment, as under present law, certain amounts of earnings and profits are not included in subpart F income if it is established to the satisfaction of the Treasury Secretary that those amounts of earnings could not have been distributed to the U.S. shareholders because of currency or other restrictions or limitations imposed under the laws of any foreign country. The committee intends that such legal restrictions or limitations be taken into account only if they are publicly promulgated, generally applicable to all similarly situated persons (whether controlled or uncontrolled), and not actually avoided by the foreign corporation or other persons, and if the process prescribed by local law for obtaining a waiver of such restrictions, if any, has been exhausted. No inference is intended regarding the meaning of the corresponding provision of current law.

---

[1] This is modified on an elective basis by section 4422 of the bill.

[2] Similar to the regular tax foreign tax credit, the AMT foreign tax credit is subject to the separate limitation categories set forth in section 904(d). Under the AMT foreign tax credit, however, the determination of whether any income is high taxed for purposes of the high-tax-kick-out rules (sec. 904(d)(2)) is made on the basis of the applicable AMT rate rather than the highest applicable rate of regular tax.

[3] Certain domestic corporations operating solely in one foreign country with which the United States has an income tax treaty in effect are not subject to the 90-percent limitation on the use of the AMT foreign tax credit if certain other specified criteria are satisfied (sec. 59(a)(2)(C)).

Under the Senate amendment, as under the present-law rules of subpart F, earnings and profits are determined without regard to the adjustments for LIFO inventories, installment sales, and the completed contract method of accounting that generally apply to the determination of earnings and profits, except, under regulations, to the extent that the failure to make such adjustments would increase earnings and profits by an amount which was previously distributed by the controlled foreign corporation.

For the second taxable year subject to the provision, and any subsequent taxable year, amounts of subpart F income included in the gross income of the U.S. shareholder are reduced by the shareholder's pro rata share of any deficits in earnings and profits in post-effective-date taxable years which precede that year, and for which the foreign corporation was a controlled foreign corporation.

In addition, deficits in earnings and profits (taking into account the same adjustments to earnings and profits that apply for purposes of determining subpart F income under the election) for years beginning prior to the effective date of the amendment will reduce amounts of subpart F income included in the gross incomes of U.S. shareholders only to the extent that those deficits would have reduced subpart F inclusions under the qualified deficit rules of present law.

The election under the Senate amendment applies to the taxable year for which it is first effective and to all subsequent taxable years, and may be revoked only with the permission of the Secretary of the Treasury. In the event that an expanded affiliated group is enlarged, whether by incorporation or acquisition, any prior election under the amendment by any member of the expanded affiliated group will have deferral consequences for the new member, and any prior election under the amendment by a new member will have deferral consequences for the entire expanded affiliated group.

Effective date

The Senate amendment is effective for taxable years of domestic corporations beginning after December 31, 1992, and taxable years of controlled foreign corporations ending with or within such taxable years of domestic corporations.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

3. Income from investments by domestic gas or electric utilities in foreign gas or electric utilities

PRESENT LAW

In general

As explained above, U.S. persons generally are subject to U.S. taxation on their worldwide incomes. The U.S. tax on foreign income may be offset by a credit for foreign income taxes incurred. Foreign corporations, including foreign corporations controlled by U.S. taxpayers, generally are subject to U.S. taxation only on income earned in the United States. In limited cases, income of a U.S.-controlled foreign corporation is included, under Code section 951, in the income of U.S. persons owning stock of the foreign corporation. Such inclusions are sometimes referred to as "subpart F" inclusions.

Where stock in a foreign corporation is owned by a U.S. shareholder, the shareholder's income subject to U.S. tax generally includes the foreign corporation's earnings only to the extent of dividends received from the foreign corporation by the U.S. shareholder. When a dividend is paid, a U.S. corporation owning at least 10 percent of the voting stock of the foreign corporation is treated as if it had paid a share of the foreign income taxes paid by the foreign corporation (sec. 902(a)). This is sometimes referred to as the "indirect" or "deemed-paid" foreign tax credit. The income of the dividend recipient is increased, or "grossed up," by the amount of the indirect credit (sec. 78). An indirect foreign tax credit generally is also available to a U.S. corporate shareholder meeting the requisite ownership threshold with respect to inclusions of subpart F income from controlled foreign corporations (sec. 960(a)).[1]

A U.S. corporation may also be deemed to have paid taxes paid by a second- or third-tier foreign corporation. That is, where a first-tier foreign corporation pays a dividend to a 10-percent-or-more U.S. corporate shareholder, then for purposes of deeming the U.S. corporation to have paid foreign tax, the first-tier foreign corporation may be deemed to have paid a share of the foreign taxes paid by a second-tier foreign corporation of which the first-tier foreign corporation owns at least 10 percent of the voting stock, and from which the first-tier foreign corporation received dividends. The same principle applies to dividends from a second-tier or third-tier foreign corporation. No taxes paid by a second- or third-tier foreign corporation are deemed paid by the first- or second-tier foreign corporation, respectively, unless the product of the percentage ownership of voting stock at each level from the U.S. corporation down equals at least 5 percent (sec. 902(b)). Under present law, foreign taxes paid below the third tier of foreign corporations are not eligible for the indirect foreign tax credit.

Foreign tax credit limitation

The foreign tax credit is limited by the amount of U.S. tax otherwise payable on foreign source taxable income. For purposes of the foreign tax credit limitation, foreign source taxable income is computed by (1) determining the items of gross income that are from foreign sources, and then (2) subtracting from those items the taxpayer's deductions that are allocated or apportioned to foreign source gross income. Generally it is left to the Treasury to provide detailed rules for the allocation and apportionment of expenses.

In the case of interest expense, the Code and the regulations generally are based on the approach that money is fungible and that interest expense is properly attributable to all business activities and property of a taxpayer, regardless of any specific purpose for incurring an obligation on which interest is paid. (Exceptions to the fungibility concept are recognized or required, however, in particular cases.) The Code provides that for interest allocation purposes all members of an affiliated group of corporations generally are to be treated as a single corporation (the so-called "one-taxpayer rule"), and that allocation must be made on the basis of assets rather than gross income.

The term "affiliated group" in this context is defined by reference to a modified version of the rules for determining whether corporations are eligible to file consolidated returns. An affiliated group generally excludes any corporation that is foreign, and any corporation less than 80 percent of the stock of which is owned by members of the affiliated group (see Treas. Reg. sec. 1.861-11T(d)(6)(i)).

HOUSE BILL

No provision.

SENATE AMENDMENT

In general

The Senate amendment provides that certain U.S. affiliated groups predominantly engaged in regulated gas or electric utility operations may elect, for purposes of allocating interest to determine their foreign tax credit limitations, to treat their investments in the stock of certain foreign utility companies as if the U.S. affiliated group owned a proportionate share of the foreign utility's assets, and incurred a proportionate share of the foreign utility's interest expense. If the election is made, the U.S. affiliated group is taxable currently on its share of the earnings of certain foreign corporations in which it owns stock. Thus the Senate amendment permits the U.S. affiliated group to make an election whereby, in exchange for foregoing the benefits of deferral, it avoids double-counting the amount of interest expense treated as the cost of holding the assets of the foreign utility companies in whose stock the U.S. affiliated group has invested.

Qualified utility group

An election under the Senate amendment can only be made with respect to a qualified utility group. Once made, the election applies to the year for which made and all subsequent years unless revoked with the consent of the Secretary. The amendment defines such a group as any affiliated group (within the meaning of the one-taxpayer rule applicable for interest allocation purposes) with respect to which four criteria are met.

First, at least 80 percent of the group's gross income must be attributable to the production, transmission, or distribution of electricity, or the distribution of gas. Second, no more than 65 percent of the average daily total capital of the group for the taxable year can take the form of debt. Third, at least one member of the group must be regulated by one or more State regulatory commissions with respect to the distribution of gas or electricity. Fourth, if the affiliated group is a member of an "expanded affiliated group," as that term is described in Item 2, above ("Election not to apply 90-percent limitation on alternative minimum tax foreign tax credit"), then the affiliated group cannot be considered a qualified utility group if the first three criteria are not met with respect to the expanded affiliated group.

Foreign regulated gas or electric utilities

If the election is made, then the Senate amendment changes, among other things, the interest allocation treatment of certain investments by qualified utility group members in foreign corporations that are foreign regulated gas or electric utilities. In order to be an investment that gives rise to this interest allocation change, the investment must be in the form of direct ownership of voting stock in the foreign corporation, in a proportion sufficient to permit the group member to receive deemed-paid credits for taxes paid by the foreign corporation. Thus, the investment must include direct ownership by members of the qualified utility group of at least 10 percent of the voting stock of the foreign regulated gas or electric utility.

---

[1] Unlike the indirect foreign tax credit for actual dividend distributions, the indirect credit for subpart F inclusions can be available to individual shareholders in certain circumstances if an election is made (sec. 962).

In order for the foreign corporation to be a foreign gas or electric utility, at least 80 percent of its gross income must be attributable to the production, transmission, or distribution of electricity, or the distribution of gas. No more than 65 percent of the average daily total capital of the corporation for the taxable year can take the form of debt. Finally, the activities of the foreign corporation described above must be regulated by one or more regulatory commissions established pursuant to foreign law.

Effect of the election

Making the election results in a number of consequences. These include the loss of deferral on the earnings of certain foreign corporations, and modification of the rules under which interest is allocated for purposes of computing the foreign tax credit limitation.

Loss of deferral

Any investment of a member of the qualified utility group, or of any member of the expanded affiliated group (as that term is described in Item 2, above ("Election not to apply 90-percent limitation on alternative minimum tax foreign tax credit") to which any member of the qualified utility group belongs, which investment may result in the member being entitled to credits for foreign income taxes paid by a foreign corporation, results in treatment of the foreign corporation as a controlled foreign corporation of which the group member is a U.S. shareholder. (Thus, second- and third-tier foreign corporations may be treated as controlled foreign corporations as a result of the election.) Second, all of the earnings of all foreign corporations that are (or are treated under the election) as controlled foreign corporations are treated as subpart F income, as described in Item 2, above ("Election not to apply 90-percent limitation on alternative minimum tax foreign tax credit").

Interest allocation

Under the Senate amendment, the interest expense of any qualified utility group which is subject to the election is allocated and apportioned based upon two hypothetical allocations and apportionments taking into account the assets and interest expense of any foreign regulated gas or electric utility that is a member of the so-called "expanded group." The "expanded group" for purposes of allocating interest is the qualified utility group, plus any foreign regulated gas or electric utility in which the qualified utility group members directly own voting stock in a proportion sufficient to permit the qualified utility group members to receive credits for foreign income taxes paid by the foreign corporation. (Thus, only the assets and expenses of first-tier foreign corporations are taken into account for this purpose.)

First, a hypothetical interest allocation is performed as if the qualified utility group members had directly owned their pro rata shares of the assets of, and had directly incurred their pro rata shares of the interest expenses of, the foreign corporations in the expanded group. The pro rata shares generally are determined, for this purpose, by reference to the same proportion that determines the pro rata share income inclusions under subpart F (as applied after taking into account the election). They are to be appropriately reduced, however, to take into account the extent (if any) to which subpart F inclusions are reduced because of the blocked income rule.

The amount of interest that would be allocated and apportioned to foreign source gross income on the basis of adding the pro rata share of any foreign regulated gas or electric utility's interest and assets to the interest and assets of the qualified utilities group, as described above, is then reduced to arrive at the amount of qualified utility group interest actually allocated and apportioned to foreign source income. The reduction equals the amount resulting from a second hypothetical allocation and apportionment, namely, the amount of interest that would be allocated and apportioned to foreign source gross income taking into account only the pro rata share of the assets of the foreign regulated gas or electric utility, and the pro rata share of the interest expense incurred by the foreign regulated gas or electric utility. If there is more than one such foreign corporation in the expanded group, they are treated as a single corporation for this purpose.

If the amount of interest that would be allocated and apportioned to foreign source gross income, taking into account only the interest and assets of the foreign regulated gas or electric utility (or utilities), is equal to or greater than the amount that would be so allocated and apportioned considering the expanded group as a whole, then the interest expense of the members of the qualified utility group generally will not be apportioned to gross income from foreign sources. On the other hand, if the latter amount is greater than the former, then the interest expense of the qualified utility group generally will be apportioned to gross income from foreign sources to the extent of the difference.[2]

Consistent with the rules governing interest allocation under current law, it is intended that borrowings between the qualified utility group and the affected foreign regulated gas or electric utilities, and stockholdings in the foreign regulated gas or electric utilities, will be eliminated for purposes of determining the total interest expense of the relevant corporations, computing the reduction in foreign-allocated interest expenses to account for foreign regulated gas or electric utilities, and computing appropriate asset ratios.

Examples

Assume that a member of a group of U.S. corporations, an affiliated group for purposes of the one-taxpayer interest allocation rules, owns 10 percent of the stock of a foreign corporation. Assume that each corporation owns operating assets valued at $10,000 for these purposes, each has debt to unrelated parties of $5000, and each has interest expense of $500 on that debt. Assume that none of this interest would be directly allocated to any particular stream of gross income under current law. All of the operating assets of the U.S. corporation produce U.S. source income, and all of the operating assets of the foreign corporation produce foreign source, general limitation income. A foreign country levies tax on the income of the foreign subsidiary at a 34-percent rate. The U.S. affiliated group is a qualified utility group, and the foreign corporation is a foreign regulated gas or electric utility. Together the qualified utility group and the foreign corporation form an "expanded group" as that term is used in the provision.

Assume that the affiliated group and the foreign corporation are calendar year taxpayers, and that the qualified utility group makes an election for its 1993 taxable year under the Senate amendment. Assume that the foreign corporation's pre-tax earnings and profits for 1993 equal $500. Assume that the foreign corporation has no earnings or foreign income taxes in any prior year, and that the foreign corporation bears $170 in foreign income taxes for 1993. Assume that the qualified utility group earns $1000, before taking into account interest deductions, in taxable income from its U.S. operations.

Under the Senate amendment, the qualified utility group includes an additional $50 in income under subpart F (taking into account $17 of the foreign corporation's foreign taxes deemed paid under Code section 960 and the resulting gross-up), its pro rata share of the $500 of pre-tax earnings and profits of the foreign corporation. Thus, pre-credit U.S. tax on the qualified utility group equals 34 percent of $550, or $187. Further under the Senate amendment, the qualified utility group is treated for interest allocation purposes as having $11,000 in assets, $1000 of which generate foreign source income, and having $550 in interest expense. One eleventh, or $50, of this interest expense is hypothetically apportioned to foreign source gross income. That expense is then reduced by the amount of the pro rata portion of the interest expense of the foreign corporation ($50) that would be apportioned to foreign source income taking into account only the pro rata portion of the assets of the foreign corporation ($1000). In the example, all of those assets produce foreign source income, so the reduction is the full amount of the $50 pro rata share of the foreign corporation's interest expense. Thus, none of the qualified utility group's interest expense is allocated or apportioned to foreign source gross income. For purposes of computing the foreign tax credit limitation, then, the qualified utility group's foreign source taxable income equals $50, the full amount of the subpart F inclusion under the Senate amendment. The foreign tax credit limitation equals one eleventh of $187, or $17, which is the full amount of foreign taxes deemed paid by the qualified utility group.

As another example, assume the same facts as above, except that the foreign corporation has only $400 of interest expense. Assume no changes in the assets, earnings and profits, or taxes of the foreign corporation. As a consequence, $9.09 of interest expense incurred by the qualified utility group is allocated and apportioned to foreign source gross income ($49.09, or one eleventh of $540, minus $40). Foreign source taxable income is thus $40.91, or $50 minus $9.09. The foreign tax credit limitation of the qualified utility group is $13.91, or $187 times $40.91 divided by $550.

Effective Date.—The provision applies to taxable years of domestic corporations beginning after December 31, 1992, and to taxable years of foreign corporations which end with or within such taxable years of domestic corporations.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

---

[2] In either case, allocation and apportionment of interest expense of the qualified utility group to gross income from foreign sources may still occur pursuant to the Secretary's existing regulatory authority, including the authority to make direct allocations. The Senate amendment is not intended to change the scope of that authority, except insofar as other changes in the law brought about by the amendment (e.g., the loss of deferral) would necessitate adjustments in the interest allocation regulations.

4. Commodities income of a controlled foreign corporation

PRESENT LAW

As explained above, when a U.S.-controlled foreign corporation earns so-called "subpart F income," the United States generally taxes the corporation's 10-percent U.S. shareholders currently on their pro-rata share of that income.

One category of income that is considered subpart F income is "foreign personal holding company income." Foreign personal holding company income generally consists of passive types of income such as interest, dividends, annuities, and net gains from the disposition of certain types of property. Subject to a number of exceptions, foreign personal holding company income includes the excess of gains over losses from transactions (including futures, forward, and similar transactions) in any commodities. Under one such exception, gains and losses from commodities transactions are not taken into account for purposes of measuring foreign personal holding company income if they are "active" business gains or losses from the sale of commodities, but only if *substantially all* of the controlled foreign corporation's business is as an active producer, processor, merchant, or handler of commodities.[1]

Current temporary regulations interpret the statute by determining the amount of business that is "substantially all" of the CFC's business using a taxable income test.[2] Under the regulations, substantially all of a controlled foreign corporation's business is considered to be as an active producer, processor, merchant, or handler of commodities if its active commodities business operations give rise to at least 85 percent of its taxable income for the taxable year.

The legislative history to the Tax Reform Act of 1986 specified that the exception for active producers, processors, merchants, and handlers of commodities applies only to foreign corporations actively engaged in commodities business.[3] It does not apply to foreign corporations primarily engaged in such financial transactions as the trading of futures. In order to be engaged in the active conduct of a commodities business, a controlled foreign corporation generally must hold commodities as inventory or similar property and incur substantial expenses in the ordinary course of a commodities business.[4] Regularly taking delivery of physical commodities generally indicates the existence of an active commodities business, but it does not of itself determine the issue. Other characteristics of companies actively engaged in commodities business include: engaging in substantial processing activities and incurring substantial expenses with respect to commodities prior to their sale, including (but not limited to) concentrating, refining, mixing, crushing, aerating, and milling; engaging in significant activities and incurring substantial expenses relating to the physical movement, handling, and storage of commodities, including (but not limited to) preparation of contracts and invoices, arrangement of freight, insurance, or credit, arrangement for receipt, transfer, or negotiation of shipping documents, arrangement of storage or warehousing, and dealing with quality claims; owning and operating physical facilities used in the activities described above; owning or chartering vessels or vehicles for the transportation of commodities; and producing the commodities sold.[5]

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment expands the exception from the definition of foreign personal holding company income for active business gains and losses from the sale of commodities. Under the Senate amendment, active business gains and losses from the sale of commodities by a controlled foreign corporation as an active producer, processor, merchant, or handler of commodities are not taken into account for purposes of determining the foreign corporation's foreign personal holding company income. Thus, the Senate amendment eliminates the "substantially all" requirement of present law. As under present law, the exception does not apply to any gains or losses of a foreign corporation derived from primarily financial transactions (e.g., the trading of commodities futures), even if the foreign corporation also is engaged in an active commodities business as a producer, processor, merchant, or handler.

The Senate amendment does not alter the present-law criteria for determining whether a foreign corporation is an active producer, processor, merchant, or handler of commodities. Thus, for example, in order to exclude commodity gains and losses under the active business exception, a controlled foreign corporation must hold the commodity giving rise to the gain or loss as inventory or similar property, and must regularly engage in the production, processing, or handling and storage of the commodity.

Effective date.—Taxable years of foreign corporations beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

5. Treasury study on competitiveness

PRESENT LAW

The United States imposes taxes that may affect economic behavior, as do other countries.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, the Secretary of the Treasury is to conduct a study of tax issues relating to the maintenance and enhancement of the competitiveness of the American economy in light of changing economic policies in Europe and the increasing globalization of the world economy. The Treasury is to report on the study to the Senate Committee on Finance and the House Committee on Ways and Means by January 1, 1994.

CONFERENCE AGREEMENT

The conference agreement does not include the provision.

6. Denial of deductions allocable to Cuban source income of a controlled foreign corporation

PRESENT LAW

In general

Under present law, U.S. citizens, residents, and corporations are subject to U.S. taxation on their worldwide incomes. The U.S. tax on foreign income may be offset by a credit for foreign income taxes incurred. Foreign corporations, including foreign corporations controlled by U.S. taxpayers, generally are subject to U.S. taxation only on income earned in the United States.

The income of a foreign corporation with U.S. shareholders generally is not subject to U.S. tax until that income is distributed to the U.S. shareholders. That is, the net U.S. tax liability on such income—equal to the difference between the U.S. tax and the credit for foreign taxes—is deferred until the income is distributed as a dividend.

The controlled foreign corporation (subpart F) rules of the Code provide for exceptions to the general rule of deferral (secs. 951-964). Certain U.S. shareholders of a controlled foreign corporation are subject to current U.S. taxation on their pro rata portions of the foreign corporation's "subpart F income." Subpart F income typically is income that is relatively movable from one taxing jurisdiction to another and that is subject to low effective rates of foreign tax.

Income from certain foreign countries

Subpart F income also includes certain income relating to international boycotts and other public policy or foreign policy considerations (defined in sec. 952(a)(3)-(5)). One category of such income is income derived from any foreign country during a period in which the taxes imposed by that country are denied eligibility for the foreign tax credit under section 901(j) pursuant to the implementation of U.S. foreign policy ("subpart F listed country income"). The rules of section 901(j), discussed below, apply to any foreign country (1) the government of which the United States does not recognize, unless such government is otherwise eligible to purchase defense articles or services under the Arms Export Control Act, (2) with respect to which the United States has severed diplomatic relations, (3) with respect to which the United States has not severed diplomatic relations but does not conduct such relations, or (4) which the Secretary of State has, pursuant to section 6(j) of the Export Administration Act of 1979, as amended, designated as a foreign country which repeatedly provides support for acts of international terrorism. Rev. Rul. 92-63, 1992-33 I.R.B. 7, lists the following countries as currently subject to the rules of Code section 901(j): Afghanistan, Angola, Cambodia, Cuba, Iran, Iraq, Libya, North Korea, Syria, and Vietnam.

In determining the amount of a controlled foreign corporation's subpart F income to be included in the gross income of a U.S. shareholder, the amount of subpart F listed country income is reduced (under Treasury regulations) so as to take into account deductions, including taxes, properly allocable to that income (sec. 952(a)).

Foreign tax credit

U.S. corporate shareholders of a controlled foreign corporation who include subpart F income in their own gross incomes are also treated as having paid the foreign taxes actually paid by the controlled foreign corporation on that income, to the same general extent as if they had received a dividend distribution of that income (sec. 960). Therefore, the U.S. corporate shareholders may claim foreign tax credits for those taxes to the same general extent as if they had received a dividend.

Pursuant to special rules applicable to taxes paid to certain foreign countries, however, no foreign tax credit is allowed for income, war profits, or excess profits taxes paid, accrued, or deemed paid to a country which satisfies specified criteria, to the extent that the taxes are with respect to income attributable to a period during which such criteria were satisfied (sec. 901(j)). Nor can such income be sheltered from U.S. tax by other creditable foreign taxes. Taxes treated as noncreditable under this provision are permitted to be deducted notwithstanding the fact that the taxpayer elects use of the foreign tax credit for the taxable year with respect to other taxes.

---

[1] Other exceptions to the subpart F income classification of commodities gains and losses include an exception for bona fide hedging transactions and an exception for certain foreign currency gains and losses.

[2] Temp. Treas. Reg. sec. 1.954-2T(f)(3)(iv).

[3] S. Rep. No. 99-313, 99th Cong., 2d Sess. 367 (1986).

[4] Temp. Treas. Reg. sec. 1.954-2T(f)(3)(iii).

[5] S. Rep. No. 99-313, at 367-368.

SENATE AMENDMENT

The Senate amendment restricts the availability of certain deductions to reduce amounts of subpart F listed country income included in the gross incomes of U.S. shareholders. Specifically, the Senate amendment denies such reductions of subpart F listed country income on account of deductions for expenses allocable to Cuban source income (as defined by the amendment specifically for this purpose). Thus, amounts of subpart F listed country income are included in the incomes of the U.S. shareholders without reduction on account of any otherwise-deductible expenses to the extent such income meets the amendment's definition of Cuban source income. The amendment does not affect the gross amount of subpart F listed country income as determined with respect to Cuba.

The Senate amendment defines Cuban source income, for purposes of its deduction-disallowance rule, to include income treated as derived from sources in Cuba under the source rules generally applicable under the Code, as well as (1) any income from the sale of goods either if the goods sold are ultimately delivered for use in Cuba or if any portion of the value of the goods sold was added in Cuba, and (2) any income from the provision of services either if the services are performed in Cuba or if Cuban residents or citizens performed the services.

Effective date.—The Senate provision is effective for taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

7. Source of rental income from leases of certain aircraft

PRESENT LAW

The source of income or loss from the rental of personal property generally depends on whether the property is used inside or outside the United States. Rents or royalties from property (or interests in property) located in the United States, and rents or royalties for the use of or privilege of using intangible property in the United States are sourced domestically. Correspondingly, rents or royalties from property (or interests in property) located outside the United States, and rents or royalties for the use of or privilege of using intangible property outside the United States are sourced foreign.

Income derived by the lessor of a vessel or aircraft is sourced domestically to the extent that the vessel or aircraft is used for transportation that begins and ends in the United States. If the transportation begins in the United States and ends in a foreign country, or begins in a foreign country and ends in the United States, 50 percent of the lessor's income attributable to that transportation is sourced domestically, and 50 percent is sourced foreign. The same sourcing rules apply to any other income derived from, or in connection with, the use, or hiring or leasing for use, of a vessel or aircraft or the performance of services directly related to the use of such vessel or aircraft. All such income is referred to under the Code as "transportation income."

A principal deduction associated with the ownership of vessels or aircraft is depreciation. The cost of aircraft is recovered under the Accelerated Cost Recovery System (ACRS), which provides an accelerated depreciation method over a recovery period that is generally shorter than the economic life of the property. Under ACRS, the applicable recovery period for commercial aircraft is generally 7 years. As a general rule, the cost of property which is used predominantly outside the United States, or which is used by a government or international organization, is generally not eligible for these ACRS allowances, and instead is recovered under the less beneficial alternative depreciation system (ADR). Under the ADR, the recovery period for commercial aircraft is generally 12 years. However, aircraft which is registered by the Administrator of the Federal Aviation Agency and which is operated to and from the United States is not considered property which is used predominantly outside the United States, and therefore, is eligible for depreciation under ACRS.

Typically, under a lease financing of equipment (i.e., the equipment is purchased by a financial institution and leased to the user), the lease produces a tax loss during its early years to the lessor (primarily as a result of accelerated depreciation or amortization deductions). To the extent that the equipment is used in transportation ending or beginning in a foreign country, the loss arising on the lease is considered at least in part to be a foreign source loss under the generally applicable source rules described above. The characterization of the loss as foreign source operates to reduce the lessor's foreign source taxable income and thus its foreign tax credit limitation. Under certain circumstances, this might restrict the lessor's ability in a given year to use a foreign tax credit which would otherwise be available in that year, for foreign taxes paid with respect to its other foreign operations.

Prior law

Transportation income prior to the Tax Reform Act of 1986—in general

For income earned in transporting persons and cargo from the United States to a foreign country, or between two foreign countries, and income earned in leasing the vessels or aircraft used in such transportation, source determination under the law prior to the Tax Reform Act of 1986 was dependent on the type of income produced. If the income was from transportation services income (e.g., time or voyage charter hire) the income was sourced under Treasury regulations. These regulations provided that taxable income or loss generally was allocated between U.S. and foreign sources in proportion to the expenses incurred in providing the services. Expenses incurred outside the territorial waters of the United States were treated as foreign for purposes of this calculation. Therefore, under prior law, most of the income earned in transporting persons and cargo from the United States to a foreign country, or between two foreign countries, was foreign source regardless of whether it was rental or transportation services income.

Prior to 1971, if the income was rental income (e.g., bareboat charter hire), it was foreign source to the extent allocable to periods when the vessel (or aircraft) was outside the United States and its territorial waters (i.e., outside the three-mile limit). Correspondingly, tax losses generated by lessors in finance-leasing transactions prior to 1971 could operate to reduce lessors' foreign source taxable income and thus their foreign tax credit limitations. Under certain circumstances, this might restrict the lessor's ability in a given year to use a foreign tax credit which would otherwise be available in that year, for foreign taxes paid with respect to its other foreign operations.

Leasing income under the Revenue Act of 1971

In the case of ships and aircraft, which often are financed through long-term leases from financial institutions, lessors expressed concern about the loss of foreign tax credits prior to 1971. Under the Revenue Act of 1971, lessors of certain ships and aircraft were given an election to treat all income and loss from the rental of the ships or aircraft as income from sources within the United States. Under this election, income derived from the lease or disposition of vessels and aircraft that were section 38 property and were manufactured or constructed in the United States and leased to U.S. persons generally was treated as wholly U.S. source income (former Code sec. 861(e)). These rules applied regardless of where the vessel or aircraft was used. They did not apply, however, in a case where the taxpayer owning the vessel or aircraft was a member of the same controlled group of corporations as the lessee.

Regulations under the 1971 Act provided that a vessel or aircraft would be treated as manufactured or constructed in the United States if 50 percent or more of the basis of the craft on the date of the lease to a United States person is attributable to value added within the United States (former Treas. Reg. sec. 1.861-9(b)(2); see also sec. 1.861-9A(b)(5)).

Expenses, losses, and deductions incurred in leasing vessels and aircraft under the circumstances described above were allocated entirely against U.S. source income.

The legislative history of the Revenue Act of 1971 indicates that the purpose of the election enacted at that time was to facilitate the shifting of depreciation deductions and investment tax credits to those providing financing to the operators of vessels and aircraft and to reflect a view that the rentals paid to a financial institution under such a lease-financing transaction should be treated as interest for source of income purposes:

One of the principal means available to finance the purchase of ships or aircraft is a leasing arrangement under which a financial institution purchases the ship or aircraft and then leases it to the air carrier or ship operator under an arrangement which is essentially similar to a sale of the ship or aircraft and a loan for the purchase price. The financial institution, which is allowed depreciation with respect to the ship or aircraft under present law and will be allowed the investment credit under the bill, in effect, passes all or a portion of these tax benefits on to the lessee in the form of reduced rentals for the ship or aircraft. In many cases this type of lease-financing transaction is the only means by which an air carrier or ship operator may obtain the financing needed to acquire the new equipment.

A problem has been called to the attention of the committee with respect to the present treatment of these transactions which unless corrected, in effect, will make this type of financing unavailable with respect to ships or aircraft which are to be used in international commerce. Typically, under a leasing transaction of this type, the lease produces a tax loss during its early years to the lessor (primarily as a result of the depreciation deduction). Where the leased ship or aircraft is used in international commerce, the loss arising on the lease is considered to be a foreign source loss under the generally applicable source rules. The characterization of the loss as foreign source in combination with the limitation on the foreign tax credit can have the effect of causing the financial institution to lose a foreign tax credit to which it would otherwise be entitled for foreign taxes paid with respect to its foreign banking or other financial operations. This has the result of making this type of financing transaction substantially less attractive to the financial institution than a financing transaction involving equipment to be used in the United States. Moreover, if the "rentals" were considered to be interest, which in reality they are, the problems would not arise since under the generally applicable source rules interest paid by a U.S. person generally is considered to be from U.S. sources.

The committee believes that it is desirable for this type of financing to be available in the case of ships and aircraft which are to be used in international commerce. Unless this means of financing is made available, the investment credit which is provided by the committee's bill will not, in effect, be available with respect to ships or aircraft and thus will not have the stimulative effect in these sectors of the economy which the committee considers desirable and necessary. Moreover, the committee considers it more appropriate to view the "rentals" paid to a financial institution under a lease-financing transaction of this type as interest for source of income purposes.[1]

Leasing income under the Miscellaneous Revenue Act of 1980

Domestic sourcing of such income and loss was made mandatory in the Miscellaneous Revenue Act of 1980, and not repealed until the Tax Reform Act of 1986. In converting the election to a mandatory rule, the legislative history of the 1980 Act reflects a view that income unlikely to be subject to foreign income tax need not be sourced foreign:

Where the lease property is a vessel, aircraft, or spacecraft used in international traffic, the present rules governing the source of income derived from the lease of personal property appear to produce results which by that standard [viz., a standard that assigns a foreign source to that income which might reasonably be subject to foreign tax] are somewhat anomalous. The present source rules for rental income turn on the physical location of the property—the income is U.S. source if the property is physically located in the United States, foreign source if it is not. Where a U.S. taxpayer operates a ship, aircraft, or spacecraft in international traffic, the operating income occasionally is subject to tax by a country in which the operations are temporarily conducted; therefore, it is not unreasonable to treat operating income as foreign source where the craft is used outside the United States. However, where the craft is leased to the U.S. operator by another U.S. taxpayer, it evidently is very unlikely that any foreign government will attempt to tax the lease payments received by the U.S. lessor from the U.S. operator even if the craft is located outside the United States. (This is particularly true where the craft seldom, if ever, is located in a foreign country.)[2]

Leasing income under the Tax Reform Act of 1986

In connection with the revision of the transportation income source rules generally, the Tax Reform Act of 1986 also eliminated the distinction between the source of operating income, on the one hand, and leasing income, on the other. The legislative history indicated a belief that the prior law provisions that allowed lessors to treat losses (or income) from the lease of an aircraft as wholly U.S. source income did not reflect economic reality. It was believed that the income or loss should be sourced under the rules that apply to U.S. taxpayers generally.[3] Thus, just as the Code provides that the owner of equipment takes the same depreciation deductions whether that owner is the operator or simply the lessor of the equipment in a finance lease transaction, the 1986 Act provided that the amount of vessel or aircraft depreciation allocated and apportioned to foreign source income is the same whether the owner of the vessel or aircraft is the operator of the equipment or is the owner in a finance lease transaction. The 1986 Act provisions are generally effective for taxable years beginning after December 31, 1986. Leasing income continues to be sourced under prior law for income attributable to assets owned on January 1, 1986 (or January 1, 1987 for certain lessors), if the asset were first leased before such date.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides for domestic sourcing of transportation income attributable to the leasing of aircraft (excluding containers) manufactured in the United States directly or indirectly to, and for use by, a resident of the United States. Such income is sourced entirely domestically. Any associated loss is intended to be allocated solely to U.S. source gross income.[4] For purposes of the Senate amendment, the term "United States resident" is defined by reference to the definition under rules for sourcing gains from certain personal property sales, which definition includes any corporation, trust, or estate which is a U.S. person, and any individual who is a U.S. citizen, or who is a resident alien with either a tax home in the United States or without a tax home in a foreign country.

Effective date.—Income derived from lease agreements entered into after July 1, 1993, in taxable years ending after such date.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

D. EMPLOYEE BENEFIT PROVISIONS

1. Deductibility of certain flight-training expenses

PRESENT LAW

Under prior law, eligible veterans who attended flight-training courses could receive educational assistance allowances from the Veterans' Administration of up to 90 percent of the costs incurred by the veteran (38 U.S.C. sec. 1677). These reimbursements were excludable from the income of the veteran. The education assistance allowances were repealed in 1981 (Public Law 97-35, sec. 2003). Certain taxpayers both excluded the allowance from their income and deducted the full cost of attending the flight-training course based on their belief that the course either maintained or improved skills required for their trade or business. The Internal Revenue Service took the position that no deduction was allowed to the extent that the expenses had been reimbursed by the Veterans' Administration. See, Rev. Rul. 80-173, 1980-2 CB 60, distinguishing and clarifying Rev. Rul. 62-213, 1962-2 CB 59. The position of the IRS was upheld in *Manocchio v. Comm.*, 710 F.2d 1400 (9th Cir. 1983), *Olszenski v. Comm.*, 55 AFTR 2d 85-536 (1st Cir. 1985), and several Tax Court cases; the position of the IRS was determined to be arbitrary in *Baker v. United States*, 748 F.2d 1465 (11th Cir. 1984).

HOUSE BILL

No provision in H.R. 11. (However, H.R. 1168 as passed by the House contain the same provision as in the conference agreement below).

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

For all taxable years before 1980, the deductibility of flight-training expenses is to be determined without regard to whether such expenses were reimbursed through veterans educational assistance allowances. In addition, the provision allows a taxpayer to file a claim for a refund or credit of taxes that were overpaid as a result of the provision if the claim is filed prior to the close of the 1-year period beginning on the date the provision is enacted. This 1-year period for making the claim for refund applies without regard to whether the taxpayer is otherwise barred (for example, by the expiration of the statute of limitations or by *res judicata*) for receiving a refund or credit.

Effective date.—The provision is effective upon the date of enactment, and applies to all taxable years before 1980.

2. Deduction for dividends paid on employer securities held in an ESOP

PRESENT LAW

Under present and prior law, certain dividends paid with respect to employer securities held in an employee stock ownership plan (ESOP) are deductible by the corporation paying the dividends. Under the Omnibus Budget Reconciliation Act of 1989, in the case of dividends used to repay a loan used to acquire employer securities, the deduction is not available unless the dividends are paid with respect to securities acquired with that loan. The 1989 Act provision generally applies to dividends on securities acquired after August 4, 1989.

HOUSE BILL

No provision. (However, H.R. 5641 as passed by the House contains a provision that is the same as the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, the 1989 Act provision does not apply to employer securities acquired with assets transferred from a defined benefit plan in a transaction described in section 4890(c)(3). The provision is limited to securities acquired before October 1, 1989, and with respect to plan terminations which were the subject of a determination letter in effect on August 4, 1989, and at all times thereafter before the securities were acquired.

Effective date.—The provision is effective on the date of enactment.

3. Exemption for certain death and disability payments to public safety employees

PRESENT LAW

Under present law, amounts received under a workmen's compensation act as compensation for personal injuries or sickness incurred in the course of employment are excluded from gross income. Compensation received under a workmen's compensation act by the survivors of a deceased employee also are excluded from gross income. Non-occupational death and disability benefits are not excludable from income as workmen's compensation benefits.

---

[1] Sen. Rep. No. 92-437, 92d Cong., 1st Sess. 78 (1971).

[2] H.R. Rep. No. 96-1278, 96th Cong., 2d Sess. 24 (1980); Sen. Rep. No. 96-1036, 96th Cong., 2d Sess. 16-17 (1980).

[3] H.R. Rep. No. 99-426, 99th Cong., 1st Sess. 370 (1985); Sen. Rep. No. 99-313, 99th Cong., 2d Sess. 339 (1986); Staff of the Joint Committee on Taxation, 100th Cong., 1st Sess., *General Explanation of the Tax Reform Act of 1986*, at 927 (1987);

[4] *See, e.g.*, 138 Cong. Rec. S15365 (daily ed., Sept. 26, 1992) (remarks of Sen. Sasser).

HOUSE BILL

No provision. (However, H.R. 5651 contains a provision that is the same as the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, amounts that were paid in 1989, 1990, and 1991 on behalf of police and firefighters who became disabled or died because of hypertension or heart disease are treated as compensation for work-related personal injuries or sickness for purposes of the exclusion from gross income for workmen's compensation benefits.

Effective date.—The provision is effective on the date of enactment.

4. Treatment of fringe benefits of airline affiliate employees

PRESENT LAW

Under present law, the gross income of an employee of an airline or a qualified affiliate of an airline does not include the value of air transportation provided as a no-additional-cost service under section 132.

In general, a qualified affiliate is a corporation at least 80 percent of which is owned by an airline and that is engaged in an airline related service (e.g., ticketing and reservations, baggage handling).

HOUSE BILL

No provision.

SENATE AMENDMENT

The definition of qualified affiliate is amended to include any entity that is at least 80 percent owned (directly or otherwise) by one or more companies that operate an airline. As under present law, to be qualified the affiliate must be predominantly engaged in airline-related services.

Effective date.—The provision is effective for years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

E. TAX-EXEMPT BOND PROVISION

1. Texas Veterans' Land Bond Program

PRESENT LAW

The Tax Reform Act of 1986 ("the 1986 Act") provided that bonds issued to finance the Texas Veterans' Land Bond Program as it was operated on March 15, 1984 could be issued as tax-exempt private activity bonds. One of the State-law restrictions on the program in 1984 was that the maximum loan amount could not exceed $20,000 per recipient. Along with most other private activity bonds, issuance of these bonds is subject to an annual state volume limitation. Subsequent to the enactment of the 1986 Act the Texas legislature amended the program to increase the maximum loan amount from $20,000 to $40,000.

HOUSE BILL

There is no provision in H.R. 11, however, H.R. 5637 conforms the maximum allowable loan amount under Federal tax rules to the State-law maximum of $40,000.

Effective date.—The provision applies to bonds issued after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provisions of H.R. 5637.

2. St. Paul Port Authority bonds

PRESENT LAW

Aggregation rules

In certain cases, the Treasury Department treats multiple issues of tax-exempt bonds that are to be paid from substantially the same source of funds and are issued pursuant to a common plan of financing as a single issue in applying the Code's tax-exempt bond restrictions if the bonds are issued within a relatively short period of time. Simultaneous issuance can therefor result in loss of tax-exemption in the case of qualified small-issue bonds with a common principal user because the aggregation could violate the present-law rule that limits to $10 million the maximum amount of certain capital expenditures within a six year period by a principal user of the bonds. Present law also precludes the combination into a single bond issue of certain bonds with multiple Code authorizations (e.g., the exempt facility, qualified 501(c)(3), and small-issue bonds).

Arbitrage rules

Subject to certain exceptions a State or local bond is taxable as an arbitrage bond if more than a minor portion of proceeds of the issue of which it is a part is reasonably expected to be used directly or indirectly to acquire higher-yielding investments or, replace funds which were used directly or indirectly to acquire higher yielding investments. Thus, the issuer cannot charge the ultimate borrowers who use private activity bond proceeds more than a set amount, generally one-eighth of one percent over the yield on issue plus certain costs (the "purpose arbitrage restrictions").

HOUSE BILL

No provision in H.R. 11, (However, H.R. 5659 contains a provision relating to St. Paul Port Authority bonds.). Under that provision, notwithstanding the rules on simultaneous issuances of bonds described above, the St. Paul Port Authority, created by enabling legislation enacted on August 17, 1932, is allowed simultaneously to reduce the interest rate on 876 bond issues (technically a "refunding") without loss of tax-exemption. The 876 bond issues were issued beginning on September 4, 1980, and ending on May 29, 1991 and were issued pursuant to a common bond security fund program that was created pursuant to Basic Resolution No. 876 adopted on February 14, 1974.

In addition, an exception from the Code's purpose arbitrage restrictions is created (i.e., the bonds will not be treated as arbitrage bonds) if the Port Authority fails to reduce correspondingly the interest rate charged to ultimate obligors of the refunded bonds. The committee understands that excess arbitrage earnings will be used to offset losses attributable to certain of the refunded bond issues that are in default.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 5659.

3. Modification of restriction on rules governing investment in certain tax-exempt bonds by financial institutions

PRESENT LAW

Banks and other financial institutions generally are denied a deduction for the portion of their interest expense (e.g., interest paid to depositors) that is attributable to investments in tax-exempt bonds acquired after August 7, 1986. This disallowance is computed using a pro rata formula that compares the institution's average adjusted basis in tax-exempt bonds acquired after that date with the average adjusted basis of all assets of the institution.

The Tax Reform Act of 1986 included transitional exceptions to this provision for certain bond issues (i.e., sec. 902 of the Act), which were subsequently modified in 1988 by technical corrections to that act.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that bonds issued before introduction of the 1988 technical corrections which were originally sold as qualifying for the transitional exception will qualify notwithstanding the 1988 technical correction, if the issuers elect.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with a technical clarification that the provision applies to bonds issued in reliance on section 902(f)(3)(L) of the Tax Reform Act.

F. OTHER INCOME TAX PROVISIONS

1. Increase maximum number of shareholders of an S corporation

PRESENT LAW

A small business corporation may elect to be treated as an S corporation. Income and losses of an S corporation are generally passed through to its shareholders and taxed at the shareholder level rather than at the corporate level. A small business corporation may not have more than 35 shareholders. For this purpose, a husband and wife (and their estates) are counted as one shareholder.

HOUSE BILL

No provision in H.R. 11. (However, section 102(a) of H.R. 2735 as passed the House provides that the maximum number of shareholders permitted for a corporation to qualify for, and maintain, S corporation status is increased from 35 to 50.)

Effective date.—The provision in H.R. 2735 is effective on the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement contains the provision in H.R. 2735, increasing the maximum number of shareholders to 50.

2. S corporations eligible for rules applicable to real property subdivided for sale by noncorporate taxpayers

PRESENT LAW

Under present law, any lot or parcel which is part of a tract of real property held by a noncorporate taxpayer is not deemed to be held primarily for sale to customers in the ordinary course of a trade or business solely because of the taxpayer having subdivided the tract for purposes of sale, provided certain requirements are met (sec. 1237). Individuals and partnerships are eligible for capital gain treatment under these rules, but S corporations are not.

Only noncorporate taxpayers may be shareholders of an S corporation. An S corporation computes its taxable income generally in the same manner as an individual (sec. 1363(b)).

HOUSE BILL

No provision in H.R. 11. (However, section 102(b) of H.R. 2735 as passed by the House provides that S corporations are eligible for capital gain treatment under the rules of section 1237 when subdividing real property for sale.)

Effective date.—Sales after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 2735.

3. Treatment of livestock sold on account of weather-related conditions

PRESENT LAW

A cash method taxpayer whose principal trade or business is farming and who is forced to sell livestock due to drought conditions may elect to include income from the sale of the livestock in the taxable year following the taxable year of the sale. This elective deferral of income is available only if the taxpayer establishes that the sale would not have occurred but for drought conditions which resulted in the area being designated as eligible for Federal assistance.

In addition, the sale of livestock (other than poultry) that are held for draft, breeding, or dairy purposes in excess of the number of livestock that would have been sold but for drought conditions is treated as an involuntary conversion. Consequently, gain from the sale of such livestock may be deferred by reinvesting the proceeds of the sale in similar property within a two-year period.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 2735 provides that the special rules applicable to livestock sold on account of drought conditions are to apply in the case of any other weather-related condition, such as hurricane, tornado, or flooding.)

Effective date.—The provision applies to sales and exchanges occurring after December 31, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 2735.

4. Depreciation of tuxedos held for rental

PRESENT LAW

Tuxedos held for rental are assigned a class life of 9 years under the accelerated cost recovery system as modified by the Tax Reform Act of 1986. Consequently, the depreciation deductions for rental tuxedos generally are determined by using a 5-year recovery period, the applicable convention, and the 200-percent declining balance method switching to the straight-line method for the taxable year in which the depreciation deduction would be maximized.

HOUSE BILL

No provision in H.R. 11. However, H.R. 2735 provides that tuxedos held for rental are assigned a class life of 2 years. Consequently, the depreciation deductions for rental tuxedos are to be determined by using a 3-year recovery period, the applicable convention, and the 200-percent declining balance method switching to the straight-line method for the taxable year in which the depreciation deduction would be maximized. Alternatively, a taxpayer may elect under the alternative depreciation system to determine the depreciation deductions for rental tuxedos by using a 2-year recovery period, the applicable convention, and the straight-line method.

Effective date.—The provision applies to rental tuxedos placed in service after December 31, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 2735.

5. Treatment of certain compensation payable by certain personal service corporations using an accrual method of accounting

PRESENT LAW

Under the Tax Reform Act of 1986 (the "1986 Act"), a personal service corporation that uses an accrual method of accounting generally is not allowed a deduction for an amount payable to an employee-owner of the corporation prior to the time that the amount is includible in the gross income of the employee-owner. For this purpose, a personal service corporation is any corporation the principal activity of which is the performance of personal services if the services are substantially performed by employee-owners and more than 10 percent of the value of the outstanding stock of the corporation is owned by employee-owners. An employee-owner is any employee of the corporation who owns any of the outstanding stock of the corporation (generally determined by applying the attribution rules of sec. 318).

HOUSE BILL

No provision in H.R. 11. (However, H.R. 2735 as passed by the House, contains a provision identical to the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, a designated personal service corporation is allowed a deduction for qualified compensation payable to an employee-owner of the corporation (other than a key employee as defined by sec. 416(i) of the Code) at the time that the compensation would otherwise have been deductible in the absence of the 1986 Act provision that postpones the deduction until the time that the compensation is includible in the gross income of the employee-owner.

A "designated personal service corporation" means any personal service corporation (within the meaning of sec. 441(i)(2)) using an accrual method of accounting for its last taxable year ending prior to the date of enactment of this provision. "Qualified compensation" means compensation payable to an employee for the payroll period ending at the close of the corporation's taxable year if: (1) such payroll period is semi-monthly or shorter; (2) such employee is regularly paid on the basis of semi-monthly or shorter payroll periods; and (3) such compensation is solely for hours of service performed or is such payroll period's ratable share of the employee's annual basic rate of compensation. Thus, qualified compensation does not include vacation pay or bonuses.

Effective date.—The provision is effective for amounts incurred in taxable years beginning after December 31, 1992.

6. Allow certain investment expenses to be deducted for AMT purposes

PRESENT LAW

Individuals are subject to an alternative minimum tax imposed at a 24-percent rate on the taxpayer's alternative minimum taxable income. In computing alternative minimum taxable income, no deduction is allowed for miscellaneous itemized deductions. Investment expenses deductible under section 212 are generally treated as a miscellaneous itemized deduction and thus are not deductible in computing the minimum tax. Under the regular tax, miscellaneous itemized deductions (including investment expenses) are deductible only to the extent they exceed two percent of the individual's adjusted gross income.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 2735, as passed by the House, contains a provision identical to the provision of the Senate amendment.)

SENATE AMENDMENT

The Senate amendment provides that a certain amount of the distributive share of section 212 expenses of a partner in a partnership is deductible by an individual for AMT purposes. The aggregate amount deductible for AMT purposes is limited to the lesser of (1) the aggregate of the individual's adjusted investment income from partnerships or (2) the excess of the aggregate of the taxpayer's distributive shares of section 212 expenses over two percent of the taxpayer's adjusted gross income. For purposes of the provision, "adjusted investment income" means investment income (as defined by sec. 163(d)(4)(B) so as not to be reduced by sec. 212 expenses) reduced by investment interest (as defined by section 163(d)(3) so as not to be reduced by the limitation applicable to investment interest).

For example, assume that for 1993, the only items of taxable income of an individual are from an interest in a partnership. For the year, the partnership reports $30,000 of investment income, $10,000 of section 212 expenses, and $25,000 of investment interest to the individual. Under the bill, the individual would be allowed to deduct $5,000 of section 212 expenses for AMT purposes ($30,000 investment income less $25,000 investment interest).

As a further example, assume that for 1993, the individual described in the example above also receives a salary of $270,000. Under the bill, the individual would be allowed to deduct $4,000 of section 212 expenses for AMT purposes ($10,000 less 2 percent of adjusted gross income of $300,000 ($6,000)).

Effective date.—The provision is effective for taxable years beginning after 1992.

CONFERENCE AGREEMENT

The conference agreement follows the provision in H.R. 2735 and the Senate amendment.

7. Clarification of the eligibility of relocated buildings for the rehabilitation tax credit

PRESENT AND PRIOR LAW

An income tax credit is provided for certain expenditures incurred in the rehabilitation of certified historic structures and certain nonresidential buildings placed in service before 1936. The amount of the credit is determined by multiplying the applicable rehabilitation percentage by the basis of the property that is attributable to qualified rehabilitation expenditures. The applicable rehabilitation percentage is 20 percent for certified historic structures and 10 percent for qualified rehabilitated nonresidential buildings (other than certified historic structures) that were originally placed in service before 1936.

The requirement that the building be placed in service before 1936 in order to be eligible for the credit was added by the Tax Reform Act of 1986 (the 1986 Act). Prior to the 1986 Act, the rehabilitation tax credit was a three-tier credit. The credit was 15 percent for nonresidential buildings at least 30 years old, 20 percent for nonresidential buildings at least 40 years old, and 25 percent for certified historic structures. The three-tier structure was added by the Economic Recovery Tax Act of 1981.

Treasury regulations provide that certain relocated buildings are not eligible for the rehabilitation credit (Treas. Reg. sec. 1.48-12(b)(5)). This rule was contained in proposed regulations published on June 28, 1985, interpreting the statute as amended by the Economic Recovery Tax Act of 1981. These regulations were finalized on October 7, 1988. In *Nalle*, 99 TC No. 9 (Aug. 5, 1992), the Tax Court ruled that the regulations were valid and could be applied retroactively to the effective date of the Economic Recovery Tax Act of 1981.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5637 as passed by the House, contains a provision identical to the provision described in the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that the rule of Treasury Regulation section 1.48-12(b)(5) that certain relocated buildings are not eligible for the rehabilitation credit is to be applied prospectively from the date that the regulation was published as a proposed regulation, i.e., June 28, 1985. Thus, 30-year and 40-year buildings (within the meaning of section 48(g) as enacted in the Economic Recovery Tax Act of 1981) will not be treated as being ineligible for the credit by reason of being relocated if the rehabilitation of the building at the relocated site began before June 28, 1985.

8. *Treatment of certain small property and casualty insurance companies under the alternative minimum tax*

PRESENT LAW

Present law provides that certain small property and casualty insurance companies may elect to be taxed only on taxable investment income for regular tax purposes (sec. 831(b)). Eligible property and casualty insurance companies are those whose net written premiums (or if greater, direct written premiums) for the taxable year exceed $350,000 but do not exceed $1,200,000.

Under present law, all corporations including insurance companies are subject to an alternative minimum tax. For taxable years beginning before 1990, alternative minimum taxable income is increased by one-half of the amount by which the corporation's pretax book income exceeds the corporation's alternative minimum taxable income (determined without regard to this adjustment and without regard to net operating losses). For taxable years beginning after 1989, alternative minimum taxable income is increased by 75 percent of the excess of adjusted current earnings over alternative minimum taxable income (determined without regard to this adjustment and without regard to net operating losses).

HOUSE BILL

No provision in H.R. 11. However, H.R.5642 provides that a small property and casualty insurance company that elects for regular tax purposes to be taxed only on taxable investment income determines its adjusted current earnings under the alternative minimum tax without regard to any amount not taken into account in determining its gross investment income under section 834(b). Thus, adjusted current earnings of an electing company is determined without regard to underwriting income (or underwriting expense, as provided in sec. 56(g)(4)(B)(i)(II)).

H.R. 5642 also provides that only net investment income as reported in the company's applicable financial statement is taken into account in determining adjusted net book income under the prior law provisions of the alternative minimum tax, in the case of a small property and casualty insurance company that elects for regular tax purposes to be taxed only on taxable investment income. Thus, adjusted net book income of an electing company is determined without regard to underwriting income and expense.

Effective date.—The adjusted current earnings provision is effective for taxable years beginning after December 31, 1989. The book income provision is effective for taxable years beginning after December 31, 1986 and before January 1, 1990.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the above provisions of H.R. 5642.

9. *Treatment of associations that result from the merger of certain farm credit associations*

PRESENT LAW

The Agricultural Credit Act of 1987 (Pub. L. No. 100-233) authorized the merger of certain production credit associations and certain Federal land bank associations. A production credit association is an association created under Federal law that generally provides short-term and intermediate-term loans to farmers, ranchers, and related businesses primarily to finance operating expenses, including the purchase of livestock, farm equipment and other similar items. A Federal land bank association is an association created under Federal law that generally provides long-term loans to farmers, ranchers, and farm-related businesses primarily to finance the purchase of land.

Under the Farm Credit Act of 1971, a Federal land bank association is exempt from Federal income tax. On the other hand, a production credit association is subject to Federal income tax.

HOUSE BILL

No provision. However, H.R. 5642 provides that any association that results from a merger under section 7.8 of the Farm Credit Act of 1971 or section 411 of the Agricultural Credit Act of 1987 of one or more Federal land bank associations and one or more production credit associations (a "merged association") generally is treated for Federal income tax purposes in the same manner as a production credit association. Consequently, the income of a merged association generally is subject to Federal income tax.

In determining the Federal income tax liability of a merged association (or any successor to such merged association), however, there is not to be taken into account any item of income, gain, loss, or deduction that is properly allocable to loans that are authorized to be made by Federal land bank associations and that have an initial term of at least 10 years.

Effective date.—The provision applies to taxable years ending after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 5642, with the modification that a merged association for purposes of the provision is also to include any association that results from a merger under section 410(e) of the Agricultural Credit Act of 1987 of one or more Federal land bank associations and one or more production credit associations. In addition, the conference agreement provides that for purposes of the provision any reference to the Farm Credit Act of 1971 is to be construed as a reference to such Act as in effect on December 31, 1992.

10. *Tax treatment of debt-for-debt exchanges*

PRESENT LAW

Gross income generally includes cancellation of indebtedness income (COD). Taxpayers in title 11 cases and insolvent taxpayers, however, generally exclude COD from gross income but reduce tax attributes by the amount of COD created on the discharge of debt. The amount of COD excluded from income of an insolvent debtor not in a title 11 case cannot exceed the amount by which the debtor is insolvent. For all taxpayers, the amount of COD generally is the difference between the adjusted issue price of the debt being cancelled and the amount used to satisfy the debt.

For purposes of determining the amount of COD, if any, of a debtor that issues a new debt instrument in satisfaction of an old debt (or modifies an old debt instrument such that the modification is treated as an exchange), the debtor is treated as having satisfied the old debt with an amount of money equal to the issue price of the new debt. Thus, if the issue price of the new debt is less than the adjusted issue price of the old debt, COD generally is created. For this purpose, the issue price of the new debt is determined under the general rules applicable to debt instruments issued for property (i.e., secs. 1273 and 1274 of the Code relating to the original issue discount rules). Thus, if either the new or old obligation in a debt-for-debt exchange is publicly traded, the issue price of the new debt will be the fair market value of the publicly-traded obligation. If neither obligation is publicly-traded, the issue price of the new debt is its stated principal amount, unless the new obligation does not have adequate stated interest. In such case, the issue price generally is determined by using the applicable Federal rate to discount all payments due under the new obligation.

The rules that provided that the amount of COD created in a debt-for-debt exchange is to be determined pursuant to the rules applicable to debt instruments issued for property were added by a provision of the Omnibus Budget Reconciliation Act of 1990 (the 1990 Act). Prior to the 1990 Act, in a debt-for-debt exchange in a reorganization, the issue price of the new debt instrument was not less than the adjusted issue price of the old debt instrument. It was unclear whether and how this reorganization rule applied for purposes of determining COD.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5655 as passed by the House contains a provision identical to that described in the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, if (1) any debt instrument (the new debt instrument) is issued pursuant to a plan of reorganization for another debt instrument (the old debt instrument) and (2) the amount which (but for this provision) would be the issue price of the new debt instrument is less than the adjusted issue price of the old debt instrument, then the issue price of the new debt instrument shall be treated as equal to the lesser of (1) the adjusted issue price of the old debt instrument or (2) the stated principal amount of the new debt instrument. This rule will apply for purposes of determining the amount (if any) of COD created with respect to the debt-for-debt exchange.

For this purpose, the term "debt instrument" includes an investment unit. In addition, the adjusted issue price of the old debt instrument is its issue price, increased by the portion of any original issue discount previously includible in the gross income of any holder (without regard to sections 1272 (a)(7) or (b)(4) or corresponding provisions of prior law). For purposes of section 163(e), the adjusted issue price of the old debt instrument is its issue price, increased by any original issue discount previously allowed as a deduction.

Example 1.—A corporation issued for $1,000 a bond that provided for annual coupon payments based on a market rate of interest. The bond is publicly traded. Some time later, when the old bond is worth $600, the corporation exchanges the old bond for a new bond that has a stated principal amount of $750. The exchange qualifies as a reorganization. Under the provision, the new bond will have an issue price of $750 (its stated principal amount) and the corporation will have COD of $250 ($1000 adjusted issue price of the old bond less $750 issue price of the new bond).

Example 2.—Assume that the debt-for-debt exchange described in Example 1 was restructured so as to not qualify as a reorganization and that the stated redemption price at maturity of the new bond was $750. In that case, the new bond will have an issue price of $600 (its fair market value) and original issue discount of $150 ($750 stated redemption price at maturity less $600 issue price). The corporation will have COD of $400 ($1000 adjusted issue price of the old bond less $600 issue price of the new bond).

Effective date.—The provision applies to debt instruments issued after the date of enactment, in satisfaction of any indebtedness.

11. Treatment of deposits under certain perpetual insurance policies

PRESENT LAW

Present law provides that in the case of a mutual fire insurance company exclusively issuing perpetual policies, the amount of single deposit premiums paid to such company are not included in gross income (sec. 832(b)(1)(C)). In addition, no deduction is allowed for policyholder dividends and similar distributions paid or declared by a mutual fire insurance company that exclusively issues perpetual policies (sec. 832(c)(11)).

Present law also provides rules for imputing interest income in the case of certain loans with below-market interest rates (sec. 7872). The Internal Revenue Service issued a technical advice memorandum in March of 1988 (TAM 8831004) which provides that the imputed interest provisions of section 7872 of the Code do not apply to payments made under a perpetual insurance policy. This technical advice memorandum was revoked by the Internal Revenue Service in December of 1989 (TAM 8952001).

HOUSE BILL

No provision in H.R. 11. However, H.R. 5657 provides that the provisions of present law which treat certain arrangements as below-market rate loans are not to apply to any deposit made by a policyholder under a qualified perpetual policy.[1] For this purpose, a qualified perpetual policy is any insurance policy that (1) provides insurance for property damage or casualty with respect to qualified residential property (or the contents thereof); and (2) is funded only by the policyholder placing with the insurance company a cash deposit (and does not provide for any periodic premiums) and such deposit is fully refundable (except for a penalty for early cancellation) upon cancellation of the policy. For this purpose, qualified residential property means any personal residence and any building used for residential purposes with 10 or fewer dwelling units. Damage or casualty with respect to the contents of qualified residential property is intended to mean such damage or casualty wherever it occurs (whether or not in the residential property), if such coverage is customarily provided under perpetual policies with respect to such property.

Effective date.—The provision applies to taxable years ending after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 5657.

12. Deduction for small property and casualty insurance companies

PRESENT LAW

Treatment of small life insurance companies

A life insurance company with assets as of the end of any taxable year of less than $500 million (determined on a controlled group basis) is allowed a special deduction in determining taxable income for such year. The deduction equals 60 percent of the first $3 million of tentative taxable income, reduced by 15 percent of the tentative taxable income in excess of $3 million (the deduction is completely phased out when tentative taxable income equals $15 million). Tentative taxable income is defined as the taxable income of the company determined without regard to the small life insurance company deduction and any items attributable to noninsurance businesses.

Treatment of small property and casualty insurance companies

An insurance company other than a life insurance company (a "property and casualty insurance company") is exempt from Federal income tax for any taxable year that the net written premiums (or, if greater, the direct written premiums) of the company do not exceed $350,000. In addition, a property and casualty insurance company may elect to be taxed solely on taxable investment income for any taxable year that the net written premiums (or, if greater, the direct written premiums) of the company exceed $350,000 but do not exceed $1.2 million. For this purpose, the net written premiums or direct written premiums of a property and casualty insurance company that is a member of a controlled group of corporations include the net written premiums or direct written premiums of each insurance company that is a member of the controlled group.

HOUSE BILL

No provision in H.R. 11. However, H.R. 5674 provides that a property and casualty insurance company with assets as of the end of any taxable year of less than $500 million (determined on a controlled group basis) is allowed a special deduction in determining taxable income for such year. The deduction equals the applicable deduction percentage of the first $3 million of tentative taxable income, reduced by the applicable phase-out percentage of the tentative taxable income in excess of $3 million (the deduction is completely phased out when tentative taxable income equals $15 million).

The applicable deduction percentage equals: (1) 0 percent for taxable years beginning in 1992 and 1993; (2) 3 percent for taxable years beginning in 1994; (3) 7 percent for taxable years beginning in 1995; (4) 9 percent for taxable years beginning in 1996; and (5) 15 percent for taxable years beginning after 1996.

The applicable phase-out percentage equals: (1) 0 percent for taxable years beginning in 1992 and 1993; (2) 0.75 percent for taxable years beginning in 1994; (3) 1.75 percent for taxable years beginning in 1995; (4) 2.25 percent for taxable years beginning in 1996; and (5) 3.75 percent for taxable years beginning after 1996.

Tentative taxable income is defined as the taxable income of the company determined without regard to the special deduction and any items attributable to noninsurance businesses.

Effective date.—The provision applies to taxable years beginning after December 31, 1991.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provision of H.R. 5674.

13. Certain distributions by Alaska Native Corporations

PRESENT LAW

Shareholders are generally taxed on dividends received from a corporation during the taxable year. In general, a corporate distribution to shareholders is treated as a dividend to the extent of the corporation's current or accumulated earnings and profits. A shareholder includes in gross income the amount of a dividend received and the corporation's earnings and profits are reduced by the amount of such distribution.

Distributions that are not out of a corporation's earnings and profits reduce a shareholder's basis in the distributing corporation's stock but are not included in gross income of the shareholder, to the extent of such basis. Distributions in excess of earnings and profits and of basis are generally treated by a shareholder as capital gain.

HOUSE BILL

No provision in H.R. 11. However, H.R. 5658 as passed by the House treats an amount of distributions by an Alaska Native Corporation (ANC) to its Native shareholders or their descendants (as defined in section 3 of ANSCA) as distributions that are not out of earnings and profits, in cases where such distributions would otherwise be treated as dividends. It is the intention of the committee that the amount of distributions granted this treatment be limited to an amount equal to the lesser of (1) the amount of cash received by the ANC (or its wholly owned subsidiary) on or before July 9, 1992 from the sale by the ANC (or by such subsidiary) of any natural deposits or timber received by the ANC pursuant to ANCSA,[1] or (2) the aggregate bases (as determined pursuant to section 21(c) of ANSCA) of such natural deposits or timber sold for cash received on or before July 9, 1992; in each case adjusted as described below.

---

[1] The amount deposited under a perpetual insurance contract, however, is to be treated as a written premium for purposes of the small company provisions contained in sections 501(c)(15) and 831(b) of the Code.

[1] It is intended that cash received by the ANC or its wholly owned subsidiary from a sale of natural deposits or timber is within the scope of the provision only if such cash is received by the ANC or subsidiary on or before July 9, 1992 without any limita-

For purposes of these computations, basis and cash attributable to natural deposits or timber that were sold in a "special purpose sale" are excluded. Such a sale is one in which a loss was recognized and which was made under an agreement entered into either (1) after October 22, 1986 and on or before April 26, 1988, or (2) after April 26, 1988, if the loss incurred thereon was used in a contract referred to in section 5021(b) of the Technical and Miscellaneous Revenue Act of 1988. Also, any amount realized directly or indirectly for the use of losses or credits of the ANC (or a corporation all of whose stock is owned directly by such corporation) is excluded where such use would not have been allowable but for section 60(b)(5) of the Tax Reform Act of 1984 (as amended by section 1804(e)(4) of the Tax Reform Act of 1986 and repealed by section 5021 of the Technical and Miscellaneous Revenue Act of 1988).

The distribution of any amount that is treated under this provision as not out of earnings and profits shall reduce the basis of the shareholder's stock by such amount.

Effective date.—The provision applies to any distributions after the date of enactment of ANSCA. However, the provision does not include any special rules that would reopen any closed tax year or extend the statute of limitations for any taxpayer to permit claims for credit or refund. Nevertheless, all distributions made by an ANC after the date of enactment of ANCSA (whether in a closed year or an open year and however reported for tax purposes) and which, but for this provision, would have been taxable as dividends for Federal income tax purposes, are counted toward the maximum amount of distributions treated under this provision as not out of earnings and profits.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the provisions of H.R. 5658 with certain technical corrections and clarifications.

14. Alaska Native Corporations standing with respect to sale of losses

PRESENT LAW

Alaska Native Corporations established under the Alaska Native Claims Settlement Act (43 U.S.C. secs. 1601 et seq) and their consolidated return groups (Native Corporations) were permitted, from 1984 to 1988, to file consolidated returns with other corporations under rules more liberal than those generally applicable to other taxpayers. In particular, the provisions of the Tax Reform Act of 1984, which narrowed the definition of affiliated group, were explicitly made inapplicable to Native Corporations. In addition, the Tax Reform Act of 1986 clarified that no provision or principle of law may be applied to deny the benefit or use of losses or credits of a Native Corporation by its consolidated group. These provisions were repealed by the Technical and Miscellaneous Revenue Act of 1988 (TAMRA).

While these provisions were in effect, they permitted Native Corporations to sell their net operating losses and other tax benefits (NOLs) to unrelated corporations and their consolidated return groups ("Buyers"). Typically, the Buyer assigned (or otherwise made available) income of the Buyer to a "profit subsidiary" that was a member of the Native Corporation's consolidated return group under the applicable liberal affiliation rules. In some cases, a profitable operating corporation might itself become the "profit subsidiary" member of the Native Corporation group in order to utilize the Native Corporation's NOLs. The Buyer would compensate the Native Corporation for the use of such NOLs under the terms of a consolidated return tax sharing agreement and in accordance with the parties' agreements regarding payments for such losses.

The Internal Revenue Service (IRS) is now examining these loss sale transactions and has in some cases contested the amount of NOLs claimed as offsetting income of the profit subsidiary in the Native Corporation's return. The IRS has taken the position that any income assigned or otherwise transferred in excess of the amount of allowable NOLs sold "springs back" to the Buyer rather than being excess income of the Native Corporation. As a result, when the IRS asserts that the NOLs of a Native Corporation are not sufficient to offset the income of a profit subsidiary, the Native Corporation would not have any regular income tax liability and therefore may lack standing to litigate the validity of its NOLs.

Under provisions adopted in TAMRA, Native Corporations have certain specified procedural rights if the IRS proposes an adjustment to the tax liability of a Buyer based on the disallowance of Native Corporation NOLs. Thus, the IRS must notify a Native Corporation of the proposed adjustment to the tax liability of the Buyer. The Native Corporation also has certain specified rights to participate in administrative proceedings, and to file an amicus brief in any proceeding in a Federal court or in the United States Tax Court.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment permits an election that would provide Native Corporations standing to litigate the validity of their NOLs under certain circumstances. The provision is procedural in nature and is not intended to change the amount of tax, addition to tax, interest (except for the additional interest generated by the election process), penalty or similar amount that may otherwise be due with respect to excess income with respect to an NOL sale, including, but not limited to, any alternative minimum tax.

As a condition of the election, the underpayment rate under section 6621 for tax determined under the elective procedure is increased by one half of one percentage point.

CONFERENCE AGREEMENT

The conference agreement follows the Senate bill with several technical clarifications. The conference agreement provides as follows:

In general

The Senate amendment permits an irrevocable election that would provide Native Corporations standing to litigate the validity of their NOLs under certain circumstances. The provision is procedural in nature and is not intended to change the amount of tax, addition to tax, interest (except for the additional interest generated by the election process), penalty or similar amount that may otherwise be due with respect to excess income with respect to an NOL sale, including, but not limited to, any alternative minimum tax.

As a condition of the election, the underpayment rates under section 6621(a)(2)(B) and under 6621(c) for tax determined under the elective procedure are increased by one half of one percentage point.

Election

A Native Corporation and one or more of its Buyers may irrevocably elect to have the income of the profit subsidiary included on the consolidated tax return of the Native Corporation solely for purposes of the issuance of a statutory notice of deficiency. The election must be made jointly by the Native Corporation and each electing Buyer. Thus, the Native Corporation must obtain the written consent of a Buyer with respect to a particular NOL sale in order to receive standing with respect to such sale.

The election must be made within 120 days after the date of enactment of the provision. The election must be filed jointly by the Native Corporation and by the Buyer with the Anchorage IRS district director and must: (1) identify the parties with particularity; (2) state the amount of income assigned under the original agreement of the Native Corporation and the Buyer (i.e. the amount that is subject to the election); (3) if the Native Corporation dealt with multiple Buyers or profit subsidiaries in the taxable year, describe the order in which such Native Corporation transactions occurred (it is intended that the IRS, the Native Corporation, and each Buyer will respect the original agreements of the Native Corporation and Buyers, entered into at the time of the loss sale transactions, regarding the ordering of a Native Corporation's losses among several Buyer corporations in a single year); and (4) state the agreement of the Buyer to extend its statute of limitations for assessment (solely with respect to any tax attributable to the subject NOL sale) for at least 180 days after the date the decision in the Native Corporation proceeding becomes final. The Native Corporation must also agree to extend its statute of limitations for assessment, (solely with respect to any deficiency under the election attributable to the subject NOL sale), to at least 120 days after date the election is made. In addition, the Native Corporation and the electing Buyer agree that the IRS is authorized to make any refund of any overpayment of tax that is determined to be due jointly to the Native Corporation and the electing Buyer.

The election is available separately for each Buyer from each Native Corporation. Any Buyer that so elects must, however, elect for all Native Corporation transactions with the particular Native Corporation for all open taxable years. A Buyer is entitled to make an election under this provision, regardless of whether it is a member of a consolidated group.

General effect of the election

If the election is made, the Native Corporation is considered the taxpayer solely for purposes of issuing a deficiency notice or filing a claim for refund, and thus has standing to pursue the matter in Tax Court or to file a claim for refund and pursue that claim.

---

tion or restriction. Amounts in escrow, for example, are not considered cash received on or before July 9, 1992 within the meaning of the provision.

It is not intended that amounts received by an ANC or its wholly owned subsidiary will be treated as cash received on or before July 9, 1992 if such amounts are directly or indirectly attributable to a sale by any entity in which the ANC or such subsidiary owns a proportionate interest but which is not a wholly owned subsidiary of a single ANC.

It is not intended that sales of any land or property, other than natural deposits or timber received by the ANC pursuant to ANSCA, be within the scope of the provision.

Thus, solely for this purpose, income assigned, transferred, or otherwise made available by the Buyer through the use of a profit subsidiary (including by an operating company itself becoming a profit subsidiary) shall be included in the taxable income of the Native Corporation.

It is intended that all Federal income tax issues concerning the amount and validity of tax benefits of a Native Corporation that were sold to an electing Buyer under a transaction permitted by the special provisions in effect from 1984 to 1988 will be resolved by the Native Corporation and the IRS under procedural rules applicable to taxpayers generally.

For example, the IRS will issue a deficiency notice to the Native Corporation, thereby giving the Native Corporation standing to resolve the issues by settlement or litigation and the ability to pay any deficiency and file a claim for refund and litigate in its name in the appropriate judicial forum. All IRS notices regarding Native Corporation transactions for which an election has been made will be issued only to the Native Corporation, which will provide copies of such notices to all Buyers involved.

The common parent of the consolidated group of an electing Native Corporation will similarly be treated under the consolidated return regulations as the sole agent of the profit subsidiary. However, for purposes of collection, the Buyer and the profit subsidiary are responsible for payment of any tax.

Nothing in the provision compels the IRS to litigate with respect to the NOLs sold to an electing Buyer. The provision merely allows electing corporations to proceed in the name of the Native Corporation if there is a tax controversy with respect to the taxability of the income assigned by the electing Buyers.

Tax liability

Any tax with respect to an NOL sale will be determined at the rate applicable to the Buyer for the taxable year of the Buyer for which the NOL sale occurred (as if the income assigned from the NOL sale had been reported by the Buyer), and the Buyer and profit subsidiary shall be responsible for the payment of such tax, together with any interest, addition to tax, penalty, or other amount attributable to the income of the profit subsidiary.

Solely for purposes of issuing a deficiency notice to a Native Corporation in a case where an election has been made, the tax may be computed by applying the maximum corporate rate under section 11 of the Code.

Any payment made to the IRS by a Native Corporation on behalf of a Buyer shall be deemed to be a payment of tax by the Buyer for the taxable year in question. However, the Native Corporation shall be treated as the taxpayer of such amounts (and of any amounts paid by the Buyer) for purposes of filing a claim for refund and a refund suit.

A refund of any overpayment that may be made with respect to a Native Corporation transaction for which an election has been made may be made jointly to the Native Corporation and the electing Buyer. The IRS shall have no further payment obligation for such overpayment. In addition, any failure by the IRS to make such refund jointly shall not result in any further obligation of the IRS, except for any administrative interest that may accrue due to delay of a replacement check. Nothing in this provision shall prohibit the IRS from using its authority under section 6402 of the Code to offset against other liabilities of the Native Corporation or the electing Buyer the amount of any overpayment that arises as a result of this provision.

Procedural rights

A Buyer that elects under the provision shall have participatory rights in any administrative consideration of the tax consequences of an NOL sale (including the right to submit a written statement to the IRS regarding the proposed adjustment and to meet with the IRS at the same time as the Native Corporation), and the right to file an amicus brief in any judicial proceeding commenced by the Native Corporation with respect to such tax consequences. Any meetings with the IRS will be subject to the reasonable discretion of the IRS as to time, place, and manner and will be subject to the general standards of the IRS that are applicable to the time and place for interviewing a taxpayer. The foregoing administrative right will not apply if the IRS determines that an extension of the statute of limitations is necessary to permit the exercise of such rights and the Buyer and the Native Corporation do not agree to such extension. The same procedural rights are preserved for a Native Corporation for those NOL sales for which no election is filed. Any failure by the IRS to grant the rights discussed above will not affect the validity of the determination by the IRS of any adjustment of tax liability.

Effect of determinations

Any final determination related to the Native Corporation's NOL sales, whether by administrative settlement or final judicial decision, including any amount of tax, addition to tax, interest, penalty, or similar amount, will be binding upon the Native Corporation, the Buyer, and the IRS. However, such determination shall not be binding on the IRS with respect to any non-electing Buyer.

The IRS may continue to deal with a non-electing Buyer as it would with any other taxpayer, including administrative settlement or litigation of any contested amounts.

Underpayment rate

For any underpayment resulting from a case in which an election has been made under this provision, the interest rate applicable pursuant to section 6621 of the Code shall be increased by one half of one percentage point. Thus, the rate under section 6621(a)(2)(B) shall be the Federal Short-term rate plus 3.5 percentage points; and the rate under section 6621(c) shall be the Federal Short-term rate plus 5.5 percentage points.

The application of the additional interest rate under this provision by reason of an election will not operate to suspend in any way the application of the special interest rate under section 6621(c).

The tax deficiency amount to which the additional interest under the election is applicable shall be the excess of the amount of the final tax deficiency for the taxable year of an electing Buyer (including any taxable income attributable to the Native Corporation transaction, as determined by a final administrative or judicial determination) over the amount of the tax deficiency computed for the same taxable period which excludes the taxable income attributable the Native Corporation transaction.

Effective date

The provision is effective for Native Corporations whose statute of limitations for the period of assessment related to sales under section 1804(e)(4) of the Tax Reform Act of 1986 has not expired. Those Native Corporations for which the statute of limitations expires within 120 days after the enactment of the provision will be given the right to extend such statute by agreement with the IRS to a date not less than 120 days after the date of enactment of the provision, in order to permit the making of an election. The election is effective for all years of an electing Buyer for which the statute of limitations for assessment with respect to the Native Corporation transaction has not closed.

15. Treatment of certain residual-market insurance companies under the alternative minimum tax

PRESENT LAW

Many States have established not-for-profit associations (commonly called residual-market insurance associations) to provide automotive or other types of property or casualty insurance to persons who otherwise could not obtain or afford such insurance. A residual-market insurance association that is subject to Federal income tax may be subject to the alternative minimum tax. The alternative minimum tax net operating loss deduction may offset only 90 percent of alternative minimum taxable income (determined without regard to the alternative tax net operating loss deduction).

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, any insurance company that is created by a State or an instrumentality thereof and that is operated on a not-for-profit basis for the primary purpose of providing coverage to persons for high-risk needs where coverage is not otherwise available or affordable may use its alternative tax net operating loss deduction to offset 100 percent (rather than 90 percent) of alternative minimum taxable income.

Effective date.—The provision is effective for taxable years ending after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

16. Treatment of certain gains and losses of farmer cooperatives

PRESENT LAW

In general

A cooperative association is a corporation operating on a cooperative basis and allocating amounts to patrons on the basis of the business done with or for such patrons (sec. 1381). Unlike other corporations, a cooperative association is allowed to exclude from its taxable income any patronage dividends paid to its members or patrons or amounts paid in redemption of a nonqualified written notice of allocation (sec. 1382). Additionally, cooperative associations may reduce their gross income by the amount of qualified per-unit retain certificates and the amounts paid for redemptions of nonqualified per-unit retain certificates. A per-unit retain certificate is, in general, a written notice which sets forth the "per-unit retain allocation", i.e., the allocation by the cooperative association to a patron with respect to goods marketed by the cooperative association for the patron.

Treatment of patronage dividends by members and patrons

Members of a cooperative association who receive patronage dividends must treat the dividends as income, reduction of basis, or some other treatment that is appropriately related to the type of transaction that gave rise to the dividend. For example, where the cooperative association markets a product for one of its members, patronage dividends attributable to the marketing are treated like additional proceeds from the sale of the product and are includible in the recipient's income. Where the cooperative association purchases equipment for its members, patronage dividends attributable to equipment purchases are treated as a reduction in the recipient's basis in the purchased equipment (provided the recipient still owns the equipment).

Definition of patronage dividend

In general, a patronage dividend means an amount paid to a patron (1) on the basis of the quantity or value of business done with or for such patron, (2) under an obligation of the cooperative association to pay such amount, which obligation existed before the association received the amount so paid, and (3) which is determined by reference to the net earnings of the organization from business done with or for its patrons. "Such term does not include any amount paid to a patron to the extent that such amount is out of earnings other than from business done with or for patrons, or such amount is out of earnings from business done with or for other patrons to whom no amounts are paid, or to whom smaller amounts are paid, with respect to substantially identical transactions." Sec. 1388(a)

Definition of income derived from sources other than patronage

The Treasury regulations provide that ". . . 'income derived from sources other than patronage' means incidental income derived from sources not directly related to the marketing, purchasing, or service activities of the cooperative association. For example, income derived from the lease of premises, from investment in securities, or from the sale or exchange of capital assets, constitutes income derived from sources other than patronage." Treas. Reg. sec. 1.1382-3(c)(2).

Notwithstanding the language of the Treasury regulations, both the Internal Revenue Service and the courts have held that other types of income may constitute income derived from patronage sources. See, for example, Rev. Rul. 69-576, 1969-2 C.B. 166 (patronage dividend from cooperative bank on loans used for patronage business considered patronage source income because it ". . . facilitates the accomplishment of the cooperative's marketing, purchasing, and service activities. . . ."); *Linnton Plywood v. United States*, 410 F. Supp. 1100 (D. Ore. 1976)(dividends received from a subsidiary corporation that made glue for the parent cooperative's plywood operation held to be patronage source income); *Astoria Plywood Corporation v. United States*, 79-1 U.S.T.C. par. 9197 (D. Ore. 1979)(payments for cancellation of a lease on a building used by cooperative for patronage-sourced activities were patronage source income); *Land O'Lakes, Inc. v. United States*, 675 F. 2d 988 (8th Cir. 1982)(dividends from stock in bank held to be patronage source income where the acquisition of the bank's stock was necessary to receive financing for patronage activities); *St. Louis Bank for Cooperatives v. United States*, 624 F. 2d 1041 (Ct. Cl. 1980)(interest earned on short-term investment of temporary excess cash of a cooperative bank held to be patronage source income).

The Internal Revenue Service has ruled that any gain treated as ordinary income under the depreciation recapture rules of section 1245 is treated as patronage source income in the same portion that the depreciation deductions were taken. Rev. Rul. 74-84, 1974-1 C.B. 244. The ruling further held that any additional gain which is treated as capital gain is not patronage-sourced income.

HOUSE BILL

No provision in H.R. 11. (However, section 1 of H.R. 5650 is substantially the same as the Senate amendment as described below, except that (1) H.R. 5650 applies to any cooperative association (to which part I of subchapter T applies), (2) an election under the House bill also would treat gains or losses on dispositions of "patronage assets" (as defined below) as ordinary income, (3) H.R. 5650 does not address the application of section 1231 to patronage gains and losses and nonpatronage gains and losses, and (4) H.R. 5650 is applicable to property dispositions occurring after the date of enactment.)

SENATE AMENDMENT

In general

Under the Senate amendment, a "farmer cooperative" may elect to include gain or loss on the sale or other disposition of certain assets in the determination of net earnings done with or for patrons. For this purpose, a "farmer cooperative" is any farmers', fruit growers', or like organization or association to which part I of subchapter T applies. This provision is not intended to imply that present law is, or should be, changed with respect to non-electing farmer cooperatives or other organizations.

Assets to which provision applies

The Senate amendment applies to any asset (including stock or any other ownership or financial interest in another entity), or portion thereof, which is used by the cooperative to facilitate the conduct of business done with, or for, its patrons (herein referred to as a "patronage asset"). Where an asset was not used exclusively to facilitate the conduct of business done with, or for, the farmer cooperative's patrons, the Senate amendment applies only to the extent that the asset was used to facilitate the conduct of business with, or for, its patrons. The method of allocating the usage of the asset between patronage and non-patronage operations may be determined by any reasonable method. The Senate amendment also provides that section 1231 shall be applied separately to patronage gains and losses and nonpatronage gains and losses.

Rules applicable to election

An election made under this provision of the Senate amendment applies to all sales (or other dispositions) of patronage assets during the taxable year for which the election is made and all subsequent taxable years, until revoked by the farmer cooperative. Following a revocation of its election and absent the consent of the Treasury Department, a farmer cooperative shall not be eligible to re-elect patronage treatment until the third taxable year following the taxable year for which the revocation is effective. A revocation is effective upon the filing of notice with the Treasury Department.

Effective Date

The provision is effective for sales or other dispositions of property occurring in taxable years beginning after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. This legislation does not change present law regarding the ordinary or capital character of gain or loss from the sale of assets.

For a cooperative having an election in effect, any allocation of gain or loss from the sale of assets as part of its patronage dividends or per-unit retain allocations, or as part of a loss pass-through shall be subject to the general requirements of Subchapter T, including the requirement that, if patronage dividends are allocated, such allocation is made "on the basis of the quantity or value of business done with or for" patrons. However, any such income which is allocated to patrons must be allocated in a manner that does not distinguish among patrons based on the tax character of the income.

17. Elective deferral of income for crops grown in a qualified disaster area

PRESENT LAW

Gain derived from the sale or exchange of property generally is required to be included in gross income for the taxable year in which the sale or exchange occurs. A cash method taxpayer who receives insurance proceeds as a result of destruction of, or damage to, crops may elect to include the proceeds in income for the taxable year following the year in which the destruction or damage occurs if, under the taxpayer's practice, income from such crops would have been included for a year following the year in which the destruction of damage occurred.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment allows a taxpayer whose principal trade or business is farming and who has income derived from the sale or exchange of crops grown in a qualified disaster area to elect to include such income for the taxable year following the taxable year in which the sale or exchange occurs. A qualified disaster area is defined as an area designated by the President as warranting assistance by the Federal government under the Robert T. Stafford Disaster Relief and Emergency Assistance Act by reason of Hurricane Andrew, Hurricane Iniki, or Typhoon Omar. The election applies only for the taxable year which includes the date that the President designates the area as warranting assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

If an election is made under this provision for any taxable year, then the applicable contribution base for purposes of section 1402(b) of the Code (relating to taxes imposed on self-employment income) for the taxable year for which the amount is included in income is to be increased by the lesser of: (1) the applicable contribution base for the taxable year of the sale or exchange, reduced by the self-employment income of the taxpayer for such taxable year; or (2) the amount included in gross income by reason of this provision for the taxable year for which the amount is included in income.

Effective date.—The provision applies to taxable years ending after December 31, 1991.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

18. Accounting for charges by real estate reporting persons for costs of complying with reporting requirements of Code section 6045

PRESENT LAW

It is unlawful for any real estate reporting person to charge separately any customer for complying with the information reporting requirements with respect to real estate transactions.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies that real estate reporting persons may take into account the cost of complying with the reporting requirements of Code sec. 6045 in establishing charges for their services, so long as a separately listed charge for such costs is not made.

Effective date.—The provision is effective for real estate transactions closing after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The conferees intend that no inference by drawn from this provision as to the proper treatment of these charges under present law.

19. Application of passive loss limitations to timber activities

PRESENT LAW

The passive loss rules limit deductions and credits from passive trade or business activities. Deductions attributable to passive activities, to the extent they exceed income from passive activities, generally may not be deducted against other income, such as wages, portfolio income, or business income that is not derived from a passive activity. A similar rule applies with respect to credits from passive activities. Deductions and credits suspended under these rules are carried forward to the next taxable year, and are allowed in full when the taxpayer disposes of his entire interest in the passive activity to an unrelated person.

Passive activities are defined to include trade or business activities in which the taxpayer does not materially participate, as well as rental activities. Treasury regulations set forth several tests for determining whether a taxpayer is materially participating in an activity. One of these tests bases the determination of material participation on all the facts and circumstances.

The regulations provide two limitations on the application of the facts and circumstances test. First, an individual taxpayer's management services are not taken into account under the facts and circumstances test unless (a) no on else who performs services in connection with the management of the activity receives earned income for such services and (b) no one else performs more services (by hours) in connection with the management of the activity than the taxpayer does. Second, an individual taxpayer cannot meet the facts and circumstances test with respect to an activity if he participates in it for 100 hours or less during the taxable year. (Treas. Reg. Sec. 1.469-5T(b)(2)(ii) and (iii)).

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that the two regulatory limitations applicable in determining whether an individual meets the facts and circumstances test for material participation in an activity do not apply to certain closely held timber activities. Such closely held timber activities are those whose nature is such that the aggregate hours devoted to management of the activity for any year is generally less than 100 hours.

An activity is treated as closely held for purposes of the provision if at least 80 percent of the ownership interests in the activity is held either by 5 or fewer individuals, or by individuals who are members of the same family (within the meaning of Code section 2032A(e)(2)). An interest in a limited partnership is not treated as a closely held activity for purposes of the provision.

A timber activity means the planting, cultivating, caring, cutting or preparation (other than milling) for market, of trees.

Effective date.—The provision is effective for taxable years beginning after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

20. Treatment of contributions in aid of construction

PRESENT LAW

In general

The gross income of a corporation does not include contributions to its capital. A contribution to the capital of a taxpayer does not include any contribution in aid of construction or any other contribution as a customer or potential customer.

Prior law

Prior to the enactment of the Tax Reform Act of 1986, a regulated public utility that provided electric energy, gas, water, or sewage disposal services was allowed to treat any amount of money or property received from any person as not includible in the gross income of the taxpayer so long as such amount: (1) was a contribution in aid of construction and (2) was not included in the taxpayer's rate base for rate-making purposes. A contribution in aid of construction did not include a connection fee. The adjusted basis of any property acquired with a contribution in aid of construction was zero.

If the contribution was in property other than an electric energy, gas, steam, water, or sewage disposal facility, such contribution was not includible in the gross income of the taxpayer so long as: (1) an amount at least equal to the amount of the contribution was expended for tangible property which was the purpose motivating the contribution and which was used predominantly in the trade or business of furnishing utility services; (2) the expenditure occurred before the end of the second taxable year after the year that the contribution was received; and (3) certain records were kept with respect to the contribution and the expenditure. In addition, the statute of limitations for the assessment of deficiencies was extended in the case of certain contributions of property other than an electric energy, gas, steam, water, or sewage disposal facility.

These rules were repealed by the Tax Reform Act of 1986.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment restores the contributions in aid of construction provisions that were repealed by the Tax Reform Act of 1986 for amounts relating to water or sewerage disposal services.

Effective date.—The provision is effective for amounts received after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include the provision of the Senate amendment.

21. Prohibit transfers of tax benefits and liabilities between savings and loan holding companies and savings associations

PRESENT LAW AND BACKGROUND

For Federal income tax purposes, domestic corporations (including savings and loan associations) that meet certain affiliation tests (generally 80 percent stock ownership) generally may elect to join in the filing of a consolidated return. If the election is made, the Federal income tax liability of the affiliated group generally is determined as if the group is one corporation. One of the principal advantages of electing to file a consolidated return is that the tax losses of some members of the affiliated group may offset the taxable incomes of other members.

Corporations that elect to file consolidated returns often enter into a contractual agreement on how the Federal income tax liability of the group is to be allocated among the members of the group and when payments pursuant to the tax allocation agreement are to be made. These agreements may or may not provide that a member of the group that incurs a tax loss that is used in consolidation to reduce the Federal income tax liability of the affiliated group as a whole is to be reimbursed for the use of the loss.

Provisions governing the Federal regulation of banks contain explicit rules regarding payments for Federal income taxes and the reimbursement of tax benefits between nonregulated bank holding companies and banks that join in the filing of consolidated returns.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment amends the Homeowners Loan Act to provide rules regarding payments for Federal income taxes and the reimbursement of tax benefits between savings and loan holding companies and savings associations that join in the filing of consolidated returns. Under the Senate amendment, a savings association that incurs a taxable loss shall be reimbursed in cash by the holding company to the extent that there is a tax benefit arising from the loss in the consolidated return, as determined in a manner consistent with the allocation of taxes to profitable subsidiaries. The reimbursement shall be based on the amount the savings association would have received had it filed its income tax return on a separate return basis and shall be made no later than the approximate time that the savings association would have received a refund of tax if it had filed a separate return (or, if earlier, at the time the refund is received by the holding company).

A savings association having taxable income which files a consolidated tax return with a holding company shall not transfer to the holding company for payment of taxes an amount in excess of the amount of tax the savings association would have paid had its tax return been filed on a separate return basis. Any such payment shall not be made before the approximate time that such payment is required to be made to the Internal Revenue Service. In no event shall a savings association make any payment to a holding company for a deferred tax liability.

Any tax allocation agreement between a holding company and savings association shall be consistent with this provision.

Not later than 90 days after the date of the enactment of this provision, the Office of Thrift Supervision shall take such actions as are necessary to implement the provision.

Effective date.—The provision applies to payments and refunds of Federal taxes for taxable years ending after September 30, 1990.

The enactment of the provision shall not be construed as indicating that the Office of Thrift Supervision had no discretionary authority prior to such date to effect the same policy by rule, regulation, enforcement action, or otherwise.

The amendment made by the provision shall not apply to any tax benefit described above, if the allocation (and payment) of such tax benefit is made pursuant to, or is governed by, an arrangement that is part of a written contract with the savings association, or its holding company, that is expressly approved in writing by the applicable supervisory authority or deposit insurer, but only if: (1) the contract was entered into before October 1, 1990; (2) the contract remains in effect at the time of the allocation in question; and (3) a portion of such approved tax benefit is allocated for the benefit of the FSLIC Resolution Funds.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

22. Tax treatment of certain cargo containers

PRESENT AND PRIOR LAW

Prior to the enactment of the Tax Reform Act of 1986, an investment tax credit was allowed for certain tangible personal property. The credit was not allowed for property that was used predominantly outside the United States. For purposes of the credit, any container of a United States person that was used in the transportation of property to and from the United States was not property that was used predominantly outside the United States. The investment tax credit generally was repealed by the Tax Reform Act of 1986.

In addition, under both present and prior law, accelerated depreciation is not allowed for any tangible property used predominantly outside the United States. For depreciation purposes, any container of a United States person that is used in the transportation of property to and from the United States is not property that is used predominantly outside the United States.

In Rev. Rul. 90-9, 1990-1 C.B. 46, the Internal Revenue Service ruled that a taxpayer may not use accelerated depreciation with respect to intermodal cargo containers if the taxpayer cannot document that the containers were used substantially in the direct transportation of property to or from the United States during the taxable year. In Rev. Proc. 90-10, 1990-1 C.B. 467, the IRS provided an irrevocable election that allowed taxpayers to use certain specified percentages to determine the aggregate basis of intermodal cargo containers placed in service in 1974 and all subsequent years that would be deemed used in the direct transportation of property to or from the United States (and thus eligible for the investment tax credit and accelerated depreciation). The election was available regardless of whether or not the taxpayer maintained sufficient records to trace the usage of cargo containers.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5674 as passed by the House, contains a provision substantially identical to the provision described in the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

In general

The conference agreement provides that a "qualified intermodal cargo container" shall be treated as property described in section 48(a)(2)(B)(v) (as in effect on the day before the date of enactment of the Revenue Reconciliation Act of 1990) and thus eligible for the investment tax credit and accelerated depreciation.

Definitions

For this purpose, a "qualified intermodal cargo container" means any intermodal cargo container of a United States person which, after being placed in service, at all times during the taxable year either: (1) is subject to a qualifying lease; or (2) is being held for lease, moved for purposes of leasing or being available for lease, or maintained or repaired for subsequent lease, by the taxpayer, a lessee or agent of the taxpayer or any other person. The term "qualifying lease" means: (1) any lease to a container user that has one or more trade routes that contact the United States or (2) any short-term lease to a container user. A "container user" means: (1) a person that is in the business of using intermodal cargo containers to ship or transport cargo for other persons, or (2) with respect to an intermodal cargo container, a person that uses the container to ship or transport its own cargo. A container user will be deemed to have one or more trade routes that contact the United States if at any time during the taxable year such person: (1) owns, operates, or charters any vessel that receives or delivers any intermodal cargo container in the United States, or (2) uses any intermodal cargo container to ship cargo to or from the United States. Proof of trade routes may be established by published schedules, U.S. dock records, records of vessel owners, and other bona fide public documents or private records. The term "short-term lease" means: (1) any lease the stated term of which is not more than 50 percent of the class life (within the meaning of section 168(i)(1)) of the container and (2) any lease under a lease agreement under which the lessee is not required to use or hold the container for a specified term. The term "lease" means a lease or sublease.

Other rules

No inference is to be drawn from this provision as to the application of section 48(a)(2)(B)(v) (as in effect on the day before the date of enactment of the Revenue Reconciliation Act of 1990) or section 168(g)(4)(e) to containers that are not qualified intermodal cargo containers or to containers placed in service after December 31, 1989.

Any election made under Rev. Proc. 90-10 prior to the date of enactment of this provision may be revoked without the consent of the Secretary of the Treasury or his delegate. A revoked election shall be treated as never having been made. Such revocation must be made within 180 days after the date of enactment by filing with the Secretary of the Treasury or his delegate (1) a statement describing the election being revoked and indicating that the election is being revoked and (2) an amended return consistent with such revocation. The statute of limitations shall not bar a claim for refund attributable to a revocation of a prior election under Rev. Proc. 90-10.

Effective date.—The provision generally will apply to all intermodal cargo carriers placed in service before January 1, 1990. The rules regarding the revocation of the election under Rev. Proc. 90-10 shall take effect on the date of enactment of the provision.

G. OTHER EXCISE, EMPLOYMENT, AND ESTATE AND GIFT TAX PROVISIONS

1. Exemption from truck excise tax for certain nonprofit educational organizations

PRESENT LAW

Present law imposes a 12-percent retail excise tax (sec. 4051) on the first sale of heavy highway trucks and truck trailers (including parts or accessories sold on or in connection with the truck or truck trailer). The tax does not apply to trucks weighing 33,000 pounds or less or to trailers weighing 26,000 pounds or less (gross vehicle weight). The tax is scheduled to expire after September 30, 1999. Revenues from the tax are transferred to the Highway Trust Fund.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides an exemption from the truck excise tax for trucks or truck trailers assembled by students and sold as a part of a program included in the regular curriculum of a nonprofit education organization, if the proceeds from the sale are used solely for the purpose of defraying costs incurred in such program.

A credit or refund is allowed if such truck tax is actually paid by such an educational organization.

Effective date.—The provision is effective for sales after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Excise tax on certain reloaded ammunition

PRESENT LAW

An 11-percent excise tax is imposed on the first sale of certain firearms, shells, and cartridges. Certain taxable shells and cartridges ("shells") may be reloaded for reuse. If the owner of the shells returns them to a commercial reloader and receives back the very same shells after reloading, no tax is imposed. If shells of the identical type, but not the exact same shells, are reloaded and returned to the owner, tax is imposed.

HOUSE BILL

No provision in H.R. 11 (However, H.R. 2735 as passed by the House contains the same provision described under the conference agreement below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement expands the exception from tax for reloaded shells to also apply to commercially reloaded shells when reloaded (used) shells of an identical type and number are returned to the owner but not necessarily the very same shells.

Effective date.—Date of enactment.

3. Exemption from retail excise tax for trucks used to mix explosive chemicals

PRESENT LAW

An excise tax is imposed on retail sales of truck chassis and bodies with a gross vehicle weight over 33,000 pounds. The excise tax equals 12 percent of the retail sale price of heavy trucks subject to the tax. This tax will not apply to sales made after September 30, 1999.

HOUSE BILL

No provision.

SENATE AMENDMENT

The amendment provides an exception from the 12-percent retail excise tax for truck equipment used to mix explosive chemicals. This exemption applies only to equipment (e.g., mixing units) used to process, prepare, or load explosive products. The gross vehicle weight of the truck is to be determined inclusive of the exempt explosives mixing device.

Effective date.—The exemption is effective for retail sales of explosive handling equipment made after March 31, 1983.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

4. Extension of period for credit or refund of certain overpayments of windfall profit tax on domestic crude oil

PRESENT LAW

Generally, a claim for credit or refund of an overpayment of any tax imposed by the Code in respect of which tax the taxpayer is required to file a return must be filed by the taxpayer within 3 years from the time the return was filed or 2 years from the time the tax was paid, whichever period expires later. If no return was filed by the taxpayer, the claim for credit or refund must be filed within 2 years from the time the tax was paid. No credit or refund is allowed unless the claim for credit or refund is filed within the prescribed time period.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment extends until one year after date of enactment the time for filing a claim for credit or refund of any overpayment of the windfall profit tax on domestic crude oil by the Wilkinson County School District, in the State of Mississippi, for any period ending before January 1, 1983.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

5. Application of harbor maintenance excise tax to ship passenger fares

PRESENT LAW

A harbor maintenance excise tax ("harbor tax") of 0.125 percent of value applies generally to commercial cargo, including passengers transported for compensation or hire (sec. 4462(a)(3)). In the case of transportation of passengers for hire, the term "value" means the actual charge paid for such service or the prevailing charge for comparable service if no actual charge is paid (sec. 4462(a)(5)). Questions have arisen as to whether certain amounts (such as pre- and post-cruise airfare and lodging included in the package price and certain other cruise-related passenger fees or charges) charged passengers for a ship cruise are included in the base for the harbor tax.

It is understood that the U.S. Customs Service (which collects and administers the harbor tax) has recently determined that pre- and post-cruise airfare and lodging are excluded from the tax base.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment makes two changes to the statutory definition of "value" for applying the harbor tax to ship passenger fares.

(1) The amendment clarifies that the tax base for cruise ship fares does not include any amounts actually paid for pre- and post-cruise air or land transportation and lodging, including any separately stated transportation or lodging taxes and the pro rata share of travel agent commissions properly allocable to such air or land transportation.

(2) The amendment specifically excludes from the harbor tax base the cost of separately stated per-passenger taxes, fees or charges imposed by domestic or foreign governmental units (e.g., the $3 Federal ship passenger departure tax, State or local port charges on passengers, passenger head taxes or fees at foreign ports, Customs and Immigration per-passenger fees, etc.). The amendment does not exclude any per-vessel taxes, fees or charges.

Effective date.—Transportation beginning on or after November 1, 1992.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

6. Employment tax status of certain fishermen

PRESENT LAW

Under present law, service as a crew member on a fishing vessel is generally excluded from the definition of employment for purposes of income tax withholding on wages and for purposes of the Federal Insurance Contributions Act (FICA) and the Federal Unemployment Tax Act (FUTA) taxes if the operating crew of the boat normally consists of fewer than 10 individuals, the individual receives a share of the catch based on the total catch, and the individual does not receive cash remuneration other than proceeds from the sale of the individual's share of the catch. Crew members to which the exemption applies are subject to self-employment taxes. Special reporting requirements apply to the operators of boats on which exempt crew members serve.

HOUSE BILL

No provision. (However, sec. 121 of H.R. 2735 as passed by the House contains a provision that is the same as the Senate amendment except that it does not modify the reporting requirements and it is effective for remuneration paid after the date of enactment.)

SENATE AMENDMENT

The operating crew of a boat is treated as normally made up of fewer than 10 individuals if the average size of the operating crew on trips made during the preceding 4 calendar quarters consisted of fewer than 10 individuals. In addition, the exemption applies if the crew member receives, in addition to the cash remuneration permitted under present law, cash remuneration which does not exceed $100 per trip, is contingent on a minimum catch, and is paid solely for additional duties (e.g., mate, engineer, or cook) for which additional cash remuneration is traditional. The reporting requirements applicable to boat operators are modified to take into account the additional cash remuneration that may be paid under the provision.

Effective date.—The provision applies to remuneration paid after December 31, 1992. In addition, the provision applies to remuneration paid after December 31, 1984, and before January 1, 1993, unless the payor treated such remuneration when paid as being subject to wage withholding and employment taxes.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

7. FICA exemption for full-time students employed by seasonal children's camps

PRESENT LAW

Under present law, wages are subject to taxation under the Federal Insurance Contributions Act (FICA) unless specifically exempted. Wages paid to full-time students employed by seasonal children's camps are not specifically exempted.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5656 as passed by the House contains a provision that is the same as the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, wages paid to a full-time student employed for less than 13 calendar weeks in a calendar year by a seasonal children's camp are exempt from FICA taxation in that year.

Effective date.—The provision is effective for wages paid on or after October 1, 1993.

8. Special estate tax valuation recapture

PRESENT LAW

A Federal estate tax is imposed on the value of property passing at death. Generally, the value of property is its fair market value at its highest and best use, i.e., the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts.

Under section 2032A of the Code, the executor may elect to value certain "qualified real property" used in farming or another qualifying trade or business at its current use value rather than its highest and best use value. If, within a specified period of time after the death of the decedent, the "qualified heir" who acquired the real property ceases to use such property in its qualified use, an additional estate tax is imposed in order to "recapture" the benefit of the special use valuation.

For this purpose, the specified period of time is presently 10 years with respect to qualified heirs of decedents who died on or after January 1, 1982 and 15 years with respect to qualified heirs of decedents who die before January 1, 1982. Until the specified period of time has lapsed with respect to a property, the Internal Revenue Service retains a lien on such property as security for the possible imposition of the additional estate tax.

HOUSE BILL

No provision in H.R. 11. (However, H.R. 5647, as passed by the House, contains the same provision as included in the conference agreement as described below.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that the 10-year period set forth in section 2032A(c)(1) shall be extended to apply with respect to qualified heirs of decedents who died before January 1, 1982.

Effective date.—The provision is effective after December 31, 1992.

H. OTHER PROVISIONS

1. Definition of former spouse under CIA retirement and disability system

PRESENT LAW

Under the Central Intelligence Agency Retirement and Disability System (CIARDS), an individual who was divorced from a CIARDS participant before December 4, 1991, does not qualify as a former spouse if the individual did not live with his or her spouse for at least 10 years of which 5 years or more were while the spouse was performing services as a CIA employee outside the United States.

HOUSE BILL

No provision. (However, H.R. 5651 as passed by the House contains a provision that is substantially the same as the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

Under the conference agreement, an individual who was divorced on or before December 4, 1991 from a participant or retired participant in CIARDS and who was married to such participant for not less than 10 years during the participant's creditable service, at least 5 years of which was spent by the participant as a CIA employee outside of the United States (or otherwise in a position that qualifies the individual as a participant), generally is entitled to a survivor annuity equal to 55 percent of the greater of the unreduced amount of the participant's annuity, or the unreduced amount of what such annuity would be if the participant had not elected a lump-sum distribution. In addition, such former spouse generally is entitled to a retirement annuity equal to 50 percent of the pro rata share of the participant's annuity, and to continuation health care coverage.

The retirement and survivor annuities provided under the bill are payable from the CIARDS Fund. The participant's benefits are not affected.

Effective date.—The provision is effective as of October 1, 1993. No benefits provided under the bill are payable with respect to any period before such date.

2. Mount Rushmore Commemorative Coin Act

Present Law

Under the Mount Rushmore Commemorative Coin Act (P.L. 101-332), the Secretary of the Treasury is to issue Mount Rushmore commemorative coins (five dollar gold coins, one dollar silver coins, and half dollar clad coins) for sale to the public. All sales require a surcharge per coin ($35 for the five dollar gold coins, $7 for the one dollar coins, and $1 for the half dollar coins).

Of the total revenues received from the surcharges, one half is to be paid promptly to the Mount Rushmore National Memorial Society of Black Hills ("the Society") to assist the Society's efforts to improve, enlarge, and renovate the Mount Rushmore National Memorial. The other half of the revenues from the surcharges is to be returned to the Federal Treasury for purposes of reducing the national debt.

House Bill

No provision.

Senate Amendment

The Senate amendment directs that the Society is to be paid during fiscal year 1993 an advance from the Treasury in the amount of $18,750,000. Any amount received from the surcharge revenues above the $18,750,000 is to be returned to the Federal Treasury for the purposes of reducing the national debt.

However, if prior to enactment of this Act, any amount of surcharges that have been received by the Treasury and paid into the Treasury for purposes of reducing the national debt shall be paid out of the Treasury during fiscal year 1993 to the net amount extent necessary to comply with the directive to pay the Society the $18,750,000 under this Act. Amounts paid pursuant to this procedure shall be out of funds not otherwise appropriated.

Effective date.—The provision is effective on the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment.

3. Misuse of symbols, emblems or names related to the Department of the Treasury

Present Law

There are currently no provisions in present law prohibiting the use of symbols, emblems and names of the Department of the Treasury (and its subsidiary agencies) in connection with mailings and other solicitations.

House Bill

The House bill would prohibit the use of Treasury-related words, letters, symbols, or emblems in a manner which could reasonably by interpreted or construed as conveying a false impression that such activity is connected with the Department of the Treasury or any of its subsidiary agencies. A civil penalty of up to $5,000 per violations of this section. Each individual piece of mail or separate solicitation would be considered a separate violation. Any determination of whether there is a violation of this section would be made without regard to use of a disclaimer of affiliation with the Federal Government. The Secretary of the Treasury, by May 1, 1994, would by required to provide to the House Ways and Means and Senate relating to the implementation of this section.

Effective date.—The provision is effective on enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill. The conferees agree to clarify that the reproduction of Treasury-related public documents or publications will not, in itself, be considered as conveying a false impression that such activity is connected with the Department of the Treasury.

I. Other Studies and Reports

1. Treasury study on Japanese capital and securities markets

Present Law

Present law requires no studies of Japanese capital and securities markets.

House Bill

No provision.

Senate Amendment

Under the Senate amendment, the Secretary of the Treasury, in consultation with the Chairman of the Securities and Exchange Commission, the United States Trade Representative, and others, is to conduct a study of Japanese capital and securities markets. The study is to examine the structures, operations, practices, and regulation of Japan's capital and securities markets, and their implications for the United States. The Secretary is to report on the study to the Congress within one year of the date of enactment.

Conference Agreement

The conference agreement does not contain the Senate amendment provisions.

2. Treasury study of recovery period for the depreciation of semi-conductor manufacturing equipment

Present Law

Equipment that is used in the manufacture of semi-conductors is treated as 5-year property under the accelerated cost recovery system as modified by the Tax Reform Act of 1986. Consequently, the depreciation deductions for semi-conductor manufacturing equipment are determined by using a 5-year recovery period, the applicable convention, and the 200-percent declining balance method switching to the straight-line method for the taxable year in which the depreciation deduction would be maximized.

The Department of Treasury is required to monitor and analyze the actual experience of taxpayers with respect to depreciable assets and to report the findings to Congress.

House Bill

No provision. H.R. 2735 contains a provision identical to the provision of the Senate amendment.

Senate Amendment

The Senate amendment requires the Department of Treasury to study the appropriate recovery period and class life under section 168 of the Code for semi-conductor manufacturing equipment. The results of the study are to be submitted to the House Committee on Ways and Means and the Senate Committee on Finance before April 1, 1993.

Effective date.—The provision is effective on the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment.

3. Treasury study of travel expenses of loggers

Present Law

Individuals who are in the trade or business of cutting and skidding timber often incur travel expenses in connection with their trade or business. Some believe that there may be unclarity in the treatment of those travel expenses for tax purposes.

House Bill

No provision.

Senate Amendment

The Secretary of the Treasury is required to conduct a study with respect to the deductibility of the travel expenses of an individual who is in the trade or business of cutting and skidding timer.

Effective date.—The report is due not later than July 1, 1993.

Conference Agreement

The conference agreement follows the Senate amendment.

4. Congressional Budget Office study on municipal bonds

Present Law

Interest on bonds to finance governmental activities of State and local governments is generally tax-exempt (Code sec. 103). Interest on private activity bonds (i.e., bonds to finance activities of any person other than a State or local government) is taxable unless a specific exception is provided in the Code. Issuers generally are required to rebate arbitrage (earned by investing bond proceeds at a return greater than the bond yield) to the Federal government.

Section 1317(44) of the Tax Reform Act of 1986 exempts certain pool bonds from the arbitrage rebate requirement.

House Bill

No provision.

Senate Amendment

Under the Senate amendment, the Congressional Budget Office is to conduct a study of tax-exempt municipal bond pools subject to special transition rules under the Tax Reform Act of 1986. In particular, the study is to compile statistics on the types of capital projects financed, the Federal, State, and local budgetary impacts, and the need, if any, to increase the permissible bonding authority allowed under the Tax Reform Act of 1986. The Congressional Budget Office is to report on the study to the Senate Committee on Finance and the Senate Budget Committee by December 31, 1992.

Conference Agreement

The conference agreement follows the Senate amendment, except it requires that the study be delivered to the House Committee on Ways and Means and the House Budget Committee in addition to the Senate Committee on Finance and the Senate Budget Committee.

5. Require annual report on Federal finances

Present Law

Present law requires that instructions for the individual income tax returns include pie charts to indicate the major Federal outlay and income categories. These pie charts are based on the most recent fiscal year data available when the instructions are compiled.

In addition, present law requires that prior to the first Monday in February of each year, the President submit to Congress the Budget of the United States for the following fiscal year. This budget is required to include information on the activities and function of the Federal government. In particular, information on receipts, appropriations, expenditures, Federal debt outstanding, tax expenditures, net domestic savings, merchandise trade and current accounts, and other items, is required. Moreover, the Federal budget has traditionally included a series of historical tables providing information on the Federal financial situation over a time period of several years. The Federal budget is available for sale to the public by the U.S. Government Printing Office.

House Bill

No provision.

Senate Amendment

The Senate amendment requires an annual financial report for the Federal government to be prepared by the Office of Management and Budget (OMB) and to be distributed to the public by the Secretary of Treasury. The report would include information on the most recent 5-year trends in receipts, expenditures, assets, liabilities, and public debt. A summary of the report would be placed on the inside front cover of the instruction booklet for the annual income tax forms distributed to individual taxpayers. The complete report would be available to any taxpayer who requested a copy. This request could be made by so designating in space provided on the annual tax return. The Secretary of Treasury would be permitted to impose fees to cover the costs of processing requests for this report. The Senate amendment also would authorize an additional $10 million for 1993 for Treasury and OMB, subject to future appropriations.

Effective date.—This requirement is effective for instructions prepared for taxable years beginning after date of enactment.

Conference Agreement

The conference agreement generally follows the Senate amendment. However, the annual report would be jointly prepared by the Secretary of the Treasury and the Director of OMB. The requirement that the annual tax return include a space for taxpayers to request a copy of the report is deleted. Instead, instructions for obtaining a copy of the report would be required to be included in the instructions to the annual income tax forms distributed to individual taxpayers.

6. PBGC report on employers with underfunded pension plans

Present Law

There is no requirement for the Pension Benefit Guaranty Corporation (PBGC) to report to the Congress on underfunded pension plans.

House Bill

No provision. (However, H.R. 3837 as passed by the House has a provision that is substantially the same as the conference agreement below.)

Senate Amendment

No provision.

Conference Agreement

The conference agreement requires the PBGC to submit a report to the Congress each year listing: the name of each contributing sponsor of 1 or more pension plans that have underfunded pension liabilities aggregating more than $25 million, and the name of each contributing sponsor with underfunded liabilities in excess of $5 million and with respect to which a minimum funding waiver has been granted in excess of $1 million. The report will be based upon information that can be publicly disclosed by PBGC. The report is due on January 31 of each calendar year after 1991.

Effective date.—Date of enactment.

J. User Fee Provisions

1. Repeal of recreational boat user fee

Present Law

Under the 1990 Budget Act, the Secretary of Transportation is directed to establish a "fee or charge" to be collected annually in fiscal years 1991-1995 from owners or operators of "recreational vessels" greater than 16 feet in length. The boat user fee is to be imposed as follows: (a) for vessels of grater than 16 feet but less than 20 feet, not more than $25; (b) for vessels of 20 feet but less than 27 feet, not more than $35; (c) for vessels of 27 feet but less than 40 feet, not more than $50; and (d) for vessels of 40 feet or more, not more than $100.

The Coast Guard issued rules implementing the boat user fee, at the maximum levels allowed under the 1990 Act, effective July 31, 1992. Subject to several exemptions provided by the 1990 Act and/or by the Coast Guard rules, the boat user fee applies to vessels operated on the navigable waters of the United States where the Coast Guard has a presence. Among the exempt vessels are: manually powered boats (e.g., canoes, kayaks, and rafts), sailboards, vessel tenders, unpowered houseboats, and vessels of nonprofit organizations.

Revenues from the boat user fee are deposited in the General Fund of the Treasury as offsetting receipts for Coast Guard activities.

House Bill

No provision in H.R. 11. (However, H.R. 2056 as passed by the House provides for a phased repeal of the boat user fee similar to the Senate amendment.)

Senate Amendment

The Senate amendment provides a phased repeal of the boat user fee, according to the following schedule:

(1) for fiscal year 1993—

(a) vessels of more than 21 feet but less than 27 feet, a fee of not more than $35;

(b) vessels of 27 feet but less than 40 feet, a fee of not more than $50;

(c) vessels of 40 feet or more, a fee of not more than $100;

(2) for fiscal year 1994—

(a) vessels of at least 37 feet but less than 40 feet, a fee of not more than $50; and

(b) vessels of 40 feet or more, a fee of not more than $100; and

(3) for fiscal year 1995—no fee.

Effective date.—October 1, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

2. Imposition of Automated Tariff Filing and Information System and fee

Present Law

Water common carriers in United States foreign and domestic offshore shipping are required to file tariffs with the Federal Maritime commission (FMC). These tariffs and service contracts have been filed on paper.

In recent years, the FMC has been designing a computer system to allow water common carriers to file the tariffs electronically. This computer system is known as the Automated Tariff Filing and Information System ("AFTI"). The information currently required to be filed under section 8(a)(1) of the Shipping Act of 1984 (46 App. U.S.C. 1707), and includes all rates, charges, classifications, rules and practices assessed by a carrier between all points or ports on a route and any through transportation rate a carrier has established.

House Bill

No provision in H.R. 11. (However, H.R. 2056 as passed by the House provides the same ATFI system and fee as in the Senate amendment except with an effective date of June 1, 1992, and with the repayable advance effective in fiscal year 1992.)

Senate Amendment

Imposition of fee

The Senate amendment requires that water common carrier tariffs be filed electronically not later than July 1, 1992, and imposes a fee of 46 cents for each minute of remote computer access to the information in the ATFI. Purchase of the entire database in the ATFI will be allowed. If the purchased information (or access thereto) is then used by the purchase, resold or otherwise disseminated ("secondary use"), the 46-cents-per-minute fee applies for each separate computer access to the information. There is no charge for filing of the tariffs with the FMC. Federal agencies using this information are exempt from the fee.

The FMC access fee will expire after September 30, 1995.

The revenues from the FMC access fee in excess of the amounts necessary for FMC administrative costs (and repayment of the Treasury advance) are to be retained in the General Fund, as offsetting budget receipts.

Repayable advances

The Secretary of the Treasury is to make available not more than $4 million to the FMC, as a repayable advance (to remain available until expended), for FMC use in completing and upgrading the capacity of the ATFI system. Such repayable advances are to be repaid (with interest) to the Treasury not later than September 30, 1995.

Effective date

The Senate amendment generally is effective on July 1, 1992. The repayable advance is effective on the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that the effective date for the ATFI System and FMC access fee is January 1, 1993.

B. Tariffs and Customs

1. Technical amendments to the Harmonized Tariff Schedule of the United States (HTSUS)

Present Law

The Customs and Trade Act of 1990 (hereinafter referred to as the "Trade Act of 1990") included numerous tariff and customs measures affecting the HTSUS.

House Bill

The House bill makes a number of technical corrections to the HTSUS, primarily arising out of the Trade Act of 1990.

Senate Amendment

The Senate amendment is identical to the House bill.

Conference Agreement

The conference agreement retains the provisions in the House bill and Senate amendment.

2. Clarification regarding the application of customs user fees

PRESENT LAW

Section 111(b) of the Trade Act of 1990 provides that, in the case of agricultural products of the United States processed and packed in foreign trade zones, the *ad valorem* merchandise processing fee (MPF) shall be applied solely to the value of the foreign material used to make the container; it exempts the value of the domestic agricultural products from the MPF. The U.S. Customs Service has ruled that, for all products not covered by this provision and in the absence of an express provision to the contrary, the MPF would be assessed on both the domestic and foreign value of the merchandise entering from foreign trade zones.

HOUSE BILL

The House bill clarifies that the MPF is to be applied only to the foreign value of the merchandise entered from a foreign trade zone.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, but it also provides that the provision made by section 111(b)(2)(D)(iv) of the Trade Act of 1990 regarding the application of the MPF to processed agricultural products will also apply to all unliquidated entries from foreign trade zones beginning December 1, 1986.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with a technical modification.

3. Technical amendments to the Omnibus Trade and Competitiveness Act of 1988

PRESENT LAW

Section 1102(a) of the Omnibus Trade and Competitiveness Act of 1988 (hereinafter referred to as "the Trade Act of 1988"), provides the President the authority to proclaim certain tariff reductions pursuant to trade agreements with foreign countries. Paragraph (a)(2) provides the President the authority to reduce tariff rates in existence as of August 23, 1988, at which time the Tariff Schedules of the United States (TSUS) were in effect. Pursuant to Title I, Subtitle B of the Trade Act of 1988, the TSUS were replaced by the HTSUS effective January 1, 1989. Tariff negotiations in the Uruguay Round of Multilateral Trade Negotiations have been conducted on the basis of tariff rates under the HTSUS rather than the TSUS.

HOUSE BILL

The House bill amends the Trade Act of 1988 to reflect the fact that any tariff reductions that might be proclaimed by the President pursuant to section 1102(a) of the Trade Act of 1988 will be based upon the tariff rates under the HTSUS as of January 1, 1989.

SENATE AMENDMENT

The Senate amendment is identical to the House bill.

CONFERENCE AGREEMENT

The conference agreement retains the provisions in the House bill and Senate amendment.

4. Technical amendments to the Trade Act of 1990

PRESENT LAW

The Trade Act of 1990 provides for transportation in bond of Canadian lottery material.

HOUSE BILL

The House bill replaces the phrase "entered or withdrawn from warehouse for consumption" in the "Effective Date" section of the Trade Act of 1990 with "entered for transportation in bond."

SENATE AMENDMENT

The Senate amendment is identical to the House bill.

CONFERENCE AGREEMENT

The conference agreement retains the provisions in the House bill and Senate amendment.

5. Technical amendment regarding certain beneficiary countries

PRESENT LAW

Section 213(h) of the Caribbean Basin Economic Recovery Act provides duty reductions on certain handbags, luggage, flat goods, work gloves, and leather wearing apparel. An identical provision was included in the Andean Trade Preference Act.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies that such duty reductions do not apply to such articles made of textiles and subject to textile agreements.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Clarification of fees for certain Customs services

PRESENT LAW

19 U.S.C. 58(c) authorizes the Customs Service to provide reimbursable services to air couriers operating in express consignment carrier facilities and in centralized hub facilities. The Customs Service has interpreted the present statute to prevent Customs from providing reimbursable services during daytime hours to centralized hub facilities.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment clarifies that Customs may provide daytime reimbursable services to centralized hub facilities during daytime hours. The provision also clarifies that Customs may be reimbursed for all services related to the determination to release cargo, and not just "inspectional" services. These services are reimbursable regardless of whether they are performed on site or not.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with a technical modification.

VIII. CUSTOMS AND TRADE PROVISIONS

A. TRADE PROMOTION

1. Generalized System of Preferences (GSP) Eligibility for Former Soviet Union (sec. 9301 of the Senate amendment).
2. Western Hemisphere Trade Center (sec. 9244 of the Senate amendment).

B. CUSTOMS AND TRADE AGENCY AUTHORIZATIONS AND REPORTS; COMPETITIVENESS POLICY COUNCIL

PART I—AUTHORIZATION AND REPORTS

1. Customs and Trade Agency Authorizations (sec. 301 of H.R. 5100; sec. 1 of S. 2880).
2. Customs Forfeiture Fund (sec. 302 of H.R. 5100; sec. 2 of S. 2880).
3. Repeal of East-West Trade Statistics Monitoring System (sec. 303 of H.R. 5100).
4. Customs Personnel Airport Work Shift Regulation (sec. 305 of H.R. 5100).
5. Reports on Customs Issues (sec. 3 of S. 2880).

PART II—COMPETITIVENESS POLICY COUNCIL

1. Competitiveness Policy Council Act Amendments (sec. 4 of S. 2880).

C. CUSTOMS MODERNIZATION

1. Customs Modernization and Informed Compliance Act (title II of H.R. 5100; H.R. 5643).

D. CUSTOMS OFFICER PAY REFORM

1. Overtime and Premium Pay for Customs Officers (sec. 201 of H.R. 3837).
2. Foreign Language Proficiency Awards for Customs Officers (sec. 202 of H.R. 3837).
3. Appropriations Reimbursements from the Customs User Fee Account (sec. 203 of H.R. 3837).
4. Treatment of Certain Pay of Customs Officers for Retirement Purposes (sec. 204 of H.R. 3837).
5. Reports (sec. 205 of H.R. 3837).

E. MISCELLANEOUS TRADE PROVISIONS

1. Review of the Compliance by Foreign Countries with Bilateral Trade Agreements (sec. 102 of H.R. 5100).
2. Caribbean Basin Initiative (CBI) Treatment of Footwear and Leather-Related Products (sec. 6307 of the Senate amendment).
3. Special Rule Regarding Circumvention of Certain Antidumping Orders (sec. 9241 of the Senate amendment).

VIII. TRADE

A. TRADE PROMOTION

1. Generalized System of Preferences (GSP) eligibility for former Soviet Union

PRESENT LAW

Section 502(b) of the Trade Act of 1974, as amended, provides that the Union of Soviet Socialist Republics, and thus its successor republics, is ineligible for designation under GSP.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment removes the Union of Soviet Socialist Republics from the list of countries ineligible for designation under the GSP.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Western Hemisphere Trade Center

PRESENT LAW

No provision.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment authorizes the commissioner of Customs, after consultation with the International Trade Commission (ITC), to make a grant to an institution of higher education (or a consortium of such institutions) to assist in establishing and operating a Center for the Study of Western Hemispheric Trade. The amendment requires consultations with appropriate authorities in planning the Center, sets forth selection criteria and identifies the Center's activities. The amendment authorizes the appropriation of $10 million for fiscal year 1993 and such sums as may be necessary in the three succeeding fiscal years.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with the following modifications: (a) technical amendments to the findings; (b) the Commissioner of Customs shall consult with the Texas Higher Education Coordinating Board rather than the ITC in selecting and establishing the site and making grants; (c) changing the date of establishment from June 30, 1993 to February 1, 1994, the initial authorization from FY 1993 to FY 1994, and the initial grant to December 1, 1993; (d) adding to Center activities to implement cooperative agreements and academic exchange programs with the complementary North/South Center at the University of Miami; and (e) requiring the Commissioner of Customs to report annually to the Senate Committee on Finance and the House Committee on Ways and Means on the operation of the Center.

The conference believe that the establishment of a Center for the Study of Western Hemispheric Trade in Texas will effectively complement the activities of the already established North/South Center in Florida and that both Centers are necessary given the importance of the region for economic, political, and cultural relations with the United States. The conferees also believe that the activities of these two Centers will be mutually enhanced through effective collaboration and intend that the newly-created Texas Center will implement cooperative agreements and academic exchanges with the North/South Center.

B. CUSTOMS AND TRADE AGENCY AUTHORIZATIONS AND REPORTS; COMPETITIVENESS POLICY COUNCIL

PART I—AUTHORIZATIONS AND REPORTS

1. Customs and Trade Agency Authorizations

PRESENT LAW

Section 101 of Public Law 101-382, the Trade Act of 1990, authorized appropriations of $41,170,000 for FY 1991 and $44,052,000 for FY 1992 ITC. An amount not to exceed $2,500 was authorized to be used for reception and entertainment expenses, subject to the approval of the Chairman of the Commission. Section 102 of the Trade Act of 1990 authorized appropriations for the Customs Service for FY 1991 and FY 1992. For salaries and expenses for noncommercial operations, section 102 of the Act authorized $516,217,000 for FY 1991 and $542,091,000 for FY 1992. For salaries and expenses for commercial operations, the Act authorized $672,021,000 for FY 1991 and $705,793,000 for FY 1992. Section 102 also authorized $143,047,000 for FY 1991 and $150,199.000 for FY 1992 for operation (including salaries and expenses) of the air and marine interdiction programs. Finally, section 103 of the Trade Act of 1990 authorized $23,250,000 for FY 1991 and $21,077,000 for FY 1992 for the Office of the United States Trade Representative (USTR). Section 103 also provided that, of the authorized amounts, not to exceed $98,000 may be used for entertainment and representation expenses of USTR.

HOUSE BILL

Section 301 of H.R 5100 as passed by the House authorizes appropriations for the ITC of $45,152,000 for FY 1993 and $48,042,000 for FY 1994, and provided that not more than $2,500 may be used for reception and entertainment expenses, subject to the approval of the Chairman of the Commission. For the Customs Service, section 301 provides the following authorizations: for noncommercial operations, $536,582,000 for FY 1993 and $552,680,000 for FY 1994; for commercial operations, $790,505,000 for FY 1993 and $814,221,000 for FY 1994. For operation and maintenance of the air and marine interdiction program, section 301 authorizes appropriations of $138,983,000 for FY 1993 and $143,152,000 for FY 1994. For USTR, section 301 authorizes appropriations of $21,697,000 for FY 1993 and $22,435,000 for FY 1994 and provides that, of the authorized amounts, not to exceed $98,000 may be used for entertainment and representation expenses.

SENATE AMENDMENT

Section 1 of S. 2880 as passed by the Senate authorizes the same amounts for the ITC and USTR as the House bill for both FY 1993 and FY 1994. The Senate bill also authorizes the same amount as the House bill for salaries and expenses for the Customs Service for noncommercial operations for FY 1993; for FY 1994, the Senate bill authorizes $558,045,000 for FY 1994. For commercial operations, the Senate bill authorizes $798,470,000 for salaries an expenses for FY 1993 and $830,408,000 for FY 1994. For operation and maintenance of the air and marine interdiction program, the Senate bill authorizes the same amount as the House bill for FY 1993. For FY 1994, the Senate bill authorizes $144,542,000.

CONFERENCE AGREEMENT

The conference agreement retains the amounts for the ITC and USTR that are in the House bill and Senate amendment. The conference agreement authorizes appropriations for the Customs Service of $536,582,000 for noncommercial operations for FY 1993 and $558,045,000 for FY 1994. For commercial operations, the conference agreement authorizes $795,000,000 for FY 1993 and $826,800,000 for FY 1994. For operation and maintenance of the air and marine interdiction program for FY 1994, the conference agreement authorizes appropriations of $144,000,000.

2. Customs Forfeiture Fund

PRESENT LAW

Section 613A of the Tariff Act of 1930 provides for a two-year authorization for discretionary uses of the Customs Forfeiture Fund.

HOUSE BILL

Section 302 of H.R. 5100 as passed by the House authorizes appropriations of $15,000,000 in FY 1993 and $15,450,000 in FY 1994 for discretionary uses of the Customs Forfeiture Fund.

SENATE AMENDMENT

Section 2 of S. 2880 as approved by the Senate authorizes the same amount as the House bill for FY 1993 appropriations for the Customs Forfeiture Fund. For FY 1994, the Senate bill authorizes appropriations of $15,600,000.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

3. Repeal of East-West Trade Statistics Monitoring Report

PRESENT LAW

Section 410 of the Trade Act of 1974 as amended (19 U.S.C. 2440) established the East-West Trade Statistics Monitoring System. It requires the ITC to monitor U.S. import from, and exports to, non-market economy countries. Such data must be published and transmitted to Congress each quarter.

HOUSE BILL

Section 303 of H.R. 5100 as passed by the House repeals section 410.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

4. Customs Personnel Airport Work Shift Regulation

PRESENT LAW

19 U.S.C. 58c requires the Customs Service to consult with the Treasury Department Advisory Committee on Commercial Operations (COAC) before implementing changes in work shifts for inspectors at airports.

HOUSE BILL

Section 305 of H.R 5100 as passed by the House repeals this requirement.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

5. Report on Customs Issues

PRESENT LAW

No provision.

HOUSE BILL

No provision.

SENATE AMENDMENT

Section 3 of S. 2880 as passed by the Senate requires the Secretary of the Treasury to submit reports to the Congress on personnel issues, staffing, and operations at selected ports of entry.

CONFERENCE AGREEMENT

The conference agreement follows the Senate bill, what an amendment to require an additional report.

PART II—COMPETITIVENESS POLICY COUNCIL

1. Competitiveness Policy Council Act Amendments

PRESENT LAW

The Competitiveness Policy Council Act establish the Competitiveness Policy Council, identified the duties of the Council, provided for the appointment of an Executive Director and staff, provided for the preparation and submission to the President and the Congress of an annual report. The Act also authorized appropriations for FY 1991 and FY 1992 of not to exceed $5,000,000.

HOUSE BILL

No provision.

SENATE AMENDMENT

Section 4 of S. 2880 as passed by the Senate authorizes appropriations of not to exceed $2,500,000 for FY 1993 and FY 1994. The Senate bill also renames the Council the National Competitiveness Policy Commission. The bill revises the duties of the Commission to require the preparation, publication and distribution of reports that contain the analysis and recommendations of the Commission and comment on the overall competitiveness of the American economy and require the submission of an annual report to the President and the Congress. The Senate bill also amends the compensation provisions for the Executive Director and for full-time staff, provides for the establishment of Senior Executive Service positions and the appointment of temporary staff, and gives the Commission contracting authority.

CONFERENCE AGREEMENT

The conference agreement follows the Senate provision.

C. CUSTOMS MODERNIZATION AND INFORMED COMPLIANCE ACT

PRESENT LAW

The commercial operations of the U.S. Customs Service are governed chiefly by the Tariff Act of 1930, as amended. That Act includes provisions setting forth the requirements for entry, examination, and clearance of imported merchandise; penalties for violations of the customs laws; procedures for protesting Customs' decisions, as well as judicial enforcement of Customs' decisions; requirements for invoices, manifests, bonds and other entry documents; procedures for appraisement, liquidation and reliquidation; and requirements for the arrival, reporting and entry of vessels and other related matters.

HOUSE BILL

Title II of H.R. 5100 as passed by the House includes a number of provisions aimed at modernizing the operations of the Customs Service. The bill addresses four major issues: (1) the facilitation of Customs' processing of merchandise through automation, including the authorization of the National Customs Automation Program (NCAP); (2) improving compliance with U.S. customs laws by adopting or, where appropriate, increasing penalties for non-compliance; (3) providing the trade community with greater certainty concerning Customs' rules and regulations ("informed compliance"); and (4) streamlining Customs' operations through a number of administrative changes.

In order to facilitate entries, the bill provides the statutory authority to establish the NCAP and authorizes the remote filing of certain entry documents, which would permit an importer to file the necessary information from a single location regardless where the merchandise arrives in the United States or where it is released by the Customs Service. The bill also permits importers, in order to cut costs through the submission of information in batch form, to file electronically and periodically summaries of the information now contained in individual entry summaries. In addition, importers will be permitted to file "reconciliation" statements, permitting Customs to finalize the duty assessment process by liquidating the underlying entry as to all issues (*e.g.*, classification, appraisement) covered by the entry, except for the issues identified by the importer as requiring the submission of additional information not currently available to the importer. This additional information will be contained in a reconciliation statement, which will in turn be liquidated by Customs. The bill also permits importers to pay duties and fees periodically, with interest.

Other provisions aimed at facilitating the entry of merchandise include changes and clarifications to the laws regarding duty drawback, the elimination of requirements to provide unnecessary documents or information, and changes updating the laws regarding the entry and clearance of vessels.

The bill also contains a number of provisions aimed at improving compliance with the customs laws, in exchange for the steps that Customs will take to facilitate the entry of merchandise. These measures chiefly take the form of penalties for failure to provide accurate information or to keep the records that will be necessary for Customs to audit or review entries of merchandise after they have been cleared through Customs.

The bill makes clear that penalties that currently apply to false, forged or altered documents will also apply to information submitted electronically. In addition, importers will be required to exercise "reasonable care" in entering merchandise; failure to do so will subject importers to civil penalties. The bill also subjects additional parties to the recordkeeping requirements of the law and establishes a new administrative penalty if parties fail to produce the records required by Customs to audit or review entries of merchandise. Penalties are also established for the filing of false duty drawback claims. The bill also establishes two voluntary compliance programs, a "Recordkeeping Compliance Program" and a "Drawback Compliance Program," in which Customs will be required to inform participants of their rights and obligations concerning recordkeeping and the filing of drawback claims.

The concept of "informed compliance" is addressed in the bill in a number of provisions. "Informed compliance" is premised on the belief that importers have a right to be informed about Customs rules and regulations, as well as interpretive rulings and directives, and to expect certainty that Customs will not unilaterally change the rules without providing importers with proper notice and an opportunity to respond.

To expedite the entry of merchandise, the bill authorizes Customs to accredit private laboratories and commercial gaugers, and to accept quantity and analysis results from such accredited facilities, although Customs will always reserve the right to independently test, analyze or quantify merchandise. The bill also establishes specific procedures for the detention of merchandise by Customs and guarantees recourse to the Court of International Trade (CIT) in cases where Customs fails to make a timely decision concerning the admissibility of detained merchandise. The bill also clarifies the circumstances under which merchandise. The bill also clarifies the circumstances under which merchandise may be seized and forfeited; it is intended to codify existing practices. Additional provisions relate to Customs protest procedures, the publication of interpretive rulings and appeals of advertise interpretive rulings, and the conduct of regulatory audits.

The bill also includes a number of measures aimed at streamlining Customs' operations and improving the productivity of the Service. For example, Customs will be authorized to use private collection agencies to recover money owned to the U.S. Government under the Customs laws. In addition, other agencies on whose behalf Customs collects fees will be required to reimburse Customs for its services. The bill also increases the specific dollar limits that authorize eligibility for Customs to issue administrative exemptions from duty and taxes on articles such as gifts and personal and household goods and authorizes Customs to waive the collection of duty where the duty is so low that the expense and resources required to process the entry are disproportionate to the revenue that would be collected. The bill requires reports to Congress regarding the collection of duties imposed under the antidumping and countervailing duty laws, compliance with the laws enforced by Customs, a review of courier services and the distribution of costs of Customs cargo examination program. For a more detailed discussion of all of the changes made by the House bill, see the report of the Committee on Ways and Means accompanying H.R. 5100 (House Report No. 102-607).

SENATE AMENDMENT

The Senate version of the Customs Modernization and Informed Compliance Act is contained in H.R. 5643, as reported by the Committee on Finance. The bill is almost identical to the House bill, with two exceptions. The Senate bill modifies the National Customs Automation Program with respect to remote filing. Under the Senate bill, the circumstances under which documents may be remotely filed are limited. The Senate bill provides that, while core entry information may be filed remotely, any additional information that is required for the release of merchandise and that Customs cannot accept electronically may *not* be filed remotely. Additional information that is *not* necessary for the release of merchandise and that cannot be accepted electronically may be filed remotely, but only after December 31, 1998. The Senate bill also requires a number of comprehensive reports to the Congress before remote filing may be implemented on a permanent basis and requires a 30-session-day layover period before permanent implementation of remote filing. The Senate bill also requires that Customs must board a sufficient number of vessels to ensure compliance with the laws it enforces. For a more detailed discussion of the changes made by the Senate amendment, see the report of the Committee on Finance accompanying H.R. 5643 (Senate Report No. 102-430).

CONFERENCE AGREEMENT

The conference agreement follows the Senate, with technical and conforming amendments. However, due to revenue considerations, the conference agreement also deletes the provisions increasing administrative exemptions and delays the effective date of the drawback changes for one year. The conferees also agree to request a General Accounting Office report on remote filing as outlined in the report of the Senate Committee on Finance.

D. CUSTOMS OFFICER PAY REFORM

1. Overtime and Premium Pay for Customs Officers

PRESENT LAW

Customs inspectors are compensated with overtime pay for work performed outside the statutorily-defined work week (*i.e.*, Monday through Saturday, 8:00 a.m. through 5:00 p.m.). Overtime pay is paid at a rate of two times basic pay, with any amount of work conducted during a two-hour period treated as four hours pay (two hour minimum at a rate of two times basic pay).

Customs inspectors who are required to work after their normal duty (callback), between 5:00 p.m. and 9:00 p.m., are paid overtime beginning at 5:00 p.m. and for hours actually worked, at a rate of two times basic pay. Customs inspectors who are required to work after their normal duty (callback), between 9:00 p.m. and 6:00 a.m., are paid for eight hours (four minimum hours at a rate of two times basic pay), plus hours actually worked of at least four hours (two minimum hours at a rate of two times basic pay), for a total of 12 hours pay for any time worked.

There is no separate provision in present law to compensate Customs inspectors for a second commute due to callback.

Customs inspectors are compensated with overtime pay for work performed at night and on Sundays and holidays, plus certain minimum hour credits, at a rate of two times basic pay. At night (after 5:00 p.m. and before 8:00 a.m.), Customs inspectors are compensated with four hours pay (two hours minimum at a rate of two times basic pay) for any time worked. On Sundays, Customs inspectors are compensated with 16 hours pay (eight hours minimum at a rate of two times basic pay) for any time worked. On holidays, Customs inspectors are compensated with 16 hours pay (as on a Sunday) plus basic pay for any time worked.

Customs inspectors may receive up to $25,000 in overtime pay, annually.

Customs Canine Enforcement Officers are provided overtime compensation in the same manner as other Federal employees under the Federal Employee Pay Act (FEPA).

There is no separate provision in present law authorizing the Secretary of the Treasury to promulgate overtime regulations.

HOUSE BILL

Section 201 of H.R. 3837 as passed by the House provides that Customs officers would be compensated with overtime pay for work performed in excess of a 40-hour week or eight-hour day, at a rate of two times basic pay, for actual time worked.

Customs officers who must return to their place of work (callback) beyond their normal duty, where the work begins more than one hour after their duty ends or before their next duty begins, would be paid four hours pay (two minimum hours at a rate of two times basic pay), plus hours actually worked beyond two hours (at a rate of two times basic pay).

In addition to callback pay, Customs officers would be paid three hours (at the basic pay rate) as compensation for travel time.

Customs officers would be provided additional compensation (15 percent of basic pay) where a majority of the work is performed at night (between 3:00 p.m. and midnight) and additional compensation (20 percent of basic pay) where a majority of the work is performed at night (between 11:00 p.m. and 8:00 a.m.), where the night work is performed during their regular work week.

Customs officers would be provided additional compensation (at a rate of time and one-half basic pay) for work performed on Sunday, where the Sunday work was performed during their regular work week.

Customs officers would be provided additional compensation (at a rate of two times basic pay) for work on a holiday.

The newly created premium pay for work performed at night, Sundays, and holidays, and compensation received for any second commute would be subject to the annual overtime pay limitation.

Customs officers would be defined as any individual performing those functions specified by regulation by the Secretary of the Treasury for a Customs inspector or Canine Enforcement Officer.

The Secretary of the Treasury would be authorized to promulgate regulations to insure that callback assignments are commensurate with the overtime compensation authorized for such work and to prevent the disproportionate assignment of overtime work to Customs officers who are near retirement.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill, with three modifications. First, the conference agreement adds a provision prohibiting callback benefits from being paid for work done within the hour before a regular workshift begins. Second, the agreement adds a provision to ensure that commuting expenses would only be paid for second commutes within a 24-hour period. Finally, the agreement also adds a provision establishing a 7:30 p.m. to 3:30 a.m. workshift paying a 15 percent premium for the first four hours and a 20 percent premium for the second four hours.

2. Foreign Language Proficiency Awards for Customs Officers

Present Law

No provision.

House Bill

Section 202 of H.R. 3837 as passed by the House authorizes the Secretary of the Treasury to pay up to five percent of basic pay to any Customs officer who possesses and makes substantial use of one or more foreign languages in the performance of official duties.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

3. Appropriations Reimbursements from the Customs User Fee Account

Present Law

User fees (COBRA fees) are authorized to be collected on various conveyances and air passengers and are paid into a dedicated Customs User Fee Account. The fees are used to pay the costs of inspectional overtime, preclearance operations, additional officers, and equipment. The Customs COBRA user fee account is not subject to annual authorization and appropriation. Spending for inspectional overtime and preclearance operations is not subject to Office of Management and Budget apportionment authority.

House Bill

Section 203 of H.R. 3837 as passed by the House authorizes the Secretary of the Treasury to use the Customs COBRA User Fee Account, in addition to present law purposes, for Customs officer premium pay and agency retirement-fund contributions for Customs officer overtime pay. The Customs COBRA User Fee Account would continue to be available without the annual authorization and appropriation process. However, it would be subject to Office of Management and Budget apportionment.

Senate Bill

No provision.

Conference Agreement

The conference agreement follows the House bill.

4. Treatment of Certain Pay of Customs Officers for Retirement Purposes

Present Law

Customs inspector overtime pay is not treated as compensation for Federal retirement benefit purposes when calculating employee retirement annuities. the Customs inspector overtime pay cap is currently set at $25,000.

House Bill

Section 204 of H.R. 3837 as passed by the House provides that overtime pay would be included when calculating retirement annuities for Customs officers, up to an amount equal to 50 percent of the overtime pay cap. Fifty percent of the current overtime pay cap is currently $12,500.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

5. Reports

Present Law

The Secretary of the Treasury is required annually to report to the Congress on expenditures for additional officers and additional equipment from the Customs COBRA User Fee Account.

House Bill

Section 205 of H.R. 3837 as passed by the House requires the Secretary of the Treasury, at the end of each fiscal year, to report to the Congress on all Customs COBRA User Fee Account expenditures including overtime expenditures, *de minimis* callback assignments, and any proposals for improvements to the user fee laws used to finance inspectional services. The Comptroller General would be required, within one year after date of enactment, to review user fees used to finance inspectional services, and identify cost savings.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill, but adds an additional reporting requirement. To monitor occasions when Customs inspectors are paid more than the current law annual pay cap, the Secretary of the Treasury will be required to list those inspectors who receive more than $25,000 in a year and the total compensation paid to each.

E. Miscellaneous Trade Provisions

1. Review of the Compliance by Foreign Countries with Bilateral Trade Agreements

Present Law

No provision.

House Bill

Section 102 of H.R. 5100 adds a new section to the Trade Act of 1974 to establish a procedure whereby an interested person may request the Office of the USTR to undertake a review to determine whether a foreign government is in "material compliance" with the terms of a bilateral trade agreement, except the U.S.-Canada and U.S.-Israel Free Trade Agreements. Requests for reviews may be made only during the 30-day period beginning on each anniversary of the effective date of the agreement and during the 30-day period ending 90 days before the agreement terminates if that period begins at least 180 days after the last annual 30-day request period.

A review is mandatory if the request meets certain requirements enumerated in the section. Within 90 days after the last day of the request period, USTR must determine whether the foreign country is in material compliance with the terms of the trade agreement. The section identifies certain factors that USTR must take into account in making its determination. If USTR determines that a foreign country is not in material compliance, USTR shall determine what action to take under section 301(a) of the Trade Act of 1974, as amended.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill. The conferees intend that the review procedures established in this section be available only to U.S. persons with significant economic interests that are or have been adversely affected by a foreign country's material non-compliance with a bilateral trade agreement.

2. Caribbean Basin Initiative (CBI) treatment of footwear and leather-related products

Present Law

U.S. Note 2 of Subchapter II of Chapter 98 of the HTSUS provides that articles imported from beneficiary countries under the Caribbean Basin Economic Recovery Act made wholly of U.S.-origin materials or components (except for textile and apparel articles, petroleum, and petroleum products) shall not be subject to duty.

House Bill

No provision.

Senate Amendment

The Senate amendment adds footwear and leather-related products to the list of products excluded from duty-free treatment under the Note. Effective date.—The provision is retroactive to October 1, 1990.

Conference Agreement

The House recedes with an amendment in the nature of a substitute that removes duty-free treatment under U.S. Note 2 to subchapter II of chapter 98 of the HTSUS for imports of footwear from Caribbean Basin beneficiary countries. After the date of enactment, duty-free treatment for such articles under such Note shall be provided annually for exports by facilities which have established production for exportation to the United States under such Note prior to October 1, 1992, up to the amount of existing production as of October 1, 1992, and on an annualized basis period. Such limitations shall be based on the HTSUS subheadings.

In the case of production of footwear classifiable under HTSUS subheadings 6404.1150, 6404.1160, 6404.1940, and 6404.1960 and leather footwear with synthetic soles for women classifiable under the appropriate subheadings of HTSUS heading 6403, duty-free treatment shall be provided based on established production capacity as of October 1, 1992, and production capacity for facilities under construction as of October 1, 1992.

The International Trade Commission shall make the necessary determinations described above to carry out this provision and provide such information to the U.S. Customs Service as the basis for determining imports of footwear that will qualify for duty-free treatment under this Note. The Customs Service shall prescribe regulations for the collection of whatever information is necessary to administer duty-free treatment under this provision.

In determining the established production capacity and the production capacity for facilities under construction, the International Trade Commission shall require the facilities to provide documentation to demonstrate the established production capacity and the production capacity for facilities under construction. The term "facility under construction" means that substantial work has been undertaken on the facility. The International Trade Commission shall use standards based on U.S. facilities in determining the amount of production capacity and the International Trade Commission's determination of productive capacity shall be reasonably based on the documentation provided and typical U.S. facilities.

3. Special rule regarding circumvention of certain antidumping orders

PRESENT LAW

The Trade Act of 1988 expanded antidumping and countervailing duty law to authorize the Department of Commerce to take action to address attempts to circumvent outstanding orders through U.S. or third country assembly operations using parts imported from the country subject to the original order.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides a special rule for considering whether antidumping duty orders issued against imports of portable electric typewriters and word processors from Japan are being circumvented. Under the special rule, the Commerce Department would be given the authority to expand the current orders to address the circumvention that has occurred with respect to these orders, if certain conditions are met.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment provision. The conferees regret that this issue could not be resolved in this conference. The possible evasion of antidumping and countervailing duty orders remains one of great importance to all of those who are concerned about the effective enforcement of our unfair trade laws. At the same time, this is a complex issue that potentially affects large amounts of trade, millions of dollars worth of investment and the jobs of thousands of U.S. workers. While the conferees believe that U.S. law could be improved to safeguard against the evasion of antidumping and countervailing duty orders, it is necessary to ensure that any legislation that is enacted is properly crafted to reflect the legitimate interests of all of those who could be affected by such legislation. Unfortunately, this has not been possible in this conference, but the conferees expect to take it up in the future. Given the importance of the issue, the conferees intend to continue careful monitoring of the Administration's efforts to secure effective international rules in the Uruguay Round on this matter. At this point, the conferees are not persuaded that the proposals in the draft Uruguay Round text accomplish this objective.

XII. HIGH SEAS DRIFTNET FISHERIES ENFORCEMENT

PRESENT LAW

The Marine Mammal Protection Act of 1972 prohibits the importation of fish or fish products caught with large-scale driftnets in the South Pacific and tuna caught with driftnets anywhere on the high seas after July 1, 1991, and prohibits the importation of any fish or fish products caught with large-scale driftnets anywhere on the high seas after July 1, 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

Subtitle A of the Senate amendment expands existing sanctions. It requires the Secretary of Commerce, in consultation with the Secretary of State, to publish a list of nations engaging in large-scale driftnet fishing practices beyond the exclusive economic zone of any nation, and requires the Secretary of the Treasury to deny entry into the United States of any large-scale driftnet fishing vessel of a nation on that list. It further provides for consultations with nations whose vessels are engaged in such fishing practices. If such consultations do not result in an agreement to immediately terminate the practices, the President is required to direct the Secretary of the Treasury to prohibit the importation into the United States from such nations of fish and fish products and sport fishing equipment. It provides for additional economic sanctions at the President's discretion on a finding by the Secretary of Commerce that this prohibition was insufficient to cause the termination of the practices.

Subtitle B of the Senate amendment broadens the import restrictions available to the President under the Fisherman's Protective Act of 1967 in response to practices of a country that diminish the effectiveness of international fishery conservation or endangered species programs, and expresses the sense of Congress that in carrying out trade negotiations, the President should seek to address environmental issues related to those negotiations.

Subtitle C of the Senate amendment prohibits U.S. vessels and nationals from fishing operations in the Central Bering Sea unless those are in accordance with an international fishery agreement, and requires the Secretary of the Treasury to deny entry into the United States of any fishing vessel listed by the Secretary of Commerce as conducting such operations.

Subtitle D of the Senate amendment amends various provisions of the Marine Mammal Protection Act of 1972 and the Magnuson Fishery Conservation and Management Act.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

IX. INCOME SECURITY AND HUMAN RESOURCES PROVISIONS

FOSTER CARE AND INCOME SECURITY

(SUBTITLE C OF TITLE I)

PART I—CHILD WELFARE; FOSTER CARE; SUBSTANCE ABUSE TREATMENT AND SERVICES

A. CHILD WELFARE SERVICES*

1. Child welfare services designed to strengthen and preserve families and for substance abuse prevention and treatment

(Section 101 of House bill and sections 7101 and 7121 of Senate amendment)

a. In General

PRESENT LAW

The child welfare services program under title IV–B of the Social Security Act authorizes 75 percent Federal matching grants to States for child welfare services. The authorization level for the title IV–B program is $325 million per fiscal year. Funds are distributed to the States and outlying areas on the basis of their under-age-21 population and per capita income. For fiscal year 1992, appropriations total $274 million. States have discretion to determine the nature of the child welfare services they wish to provide, and the population to which they will be provided.

HOUSE BILL

Title IV–B is amended to provide entitlement matching funds to the States for family preservation services and services related to substance abuse, in addition to the existing authorization for child welfare services under title IV–B. States will be entitled to their share of $200 million in fiscal year 1993; $350 million in fiscal year 1994; $450 million in fiscal year 1995; $550 million in fiscal year 1996; and $600 million in fiscal year 1997. The funding level in subsequent fiscal years equals the fiscal year 1997 ceiling, adjusted annually for inflation based on changes in the consumer price index for all urban consumers for the most recent 12-month period for which data are available. The funding level is adjusted upward for each of fiscal years 1993 through 1999 by transferring 60 percent of the amount (if positive) by which Federal outlays for the fiscal year under title IV–E are less than the title IV–E projections in the CBO baseline as of March 1992, as amended by this Act. The title IV–E projections for 1998 and 1999 will be obtained by inflating the CBO projections for 1997 by increases (if any) in the GDP deflator. These additional amounts may be used for any purpose under title IV–B and will not be subject to a non-Federal match. They will be allocated to States according to the same formula used to allocate basic entitlement amounts, described below. Funding for respite care is available as an open-ended entitlement under title IV–E (see item e.).

Effective date.—October 1, 1992

SENATE AMENDMENT

Title IV–B is amended to provide entitlement matching funds to the States for child and family services, in addition to the existing authorization for child welfare services under title IV–B. States will be entitled to their share of $150 million in fiscal year 1993; $250 million in fiscal year 1994; $300 million in fiscal year 1995; $350 million in fiscal year 1996, and $400 million in fiscal year 1997 and years thereafter. Entitlement matching funds also are provided for services related to substance abuse ($75 million for each of fiscal years 1993 and 1994, $100 million for each of fiscal years 1995 and 1996, and $125 million for fiscal year 1997) (see item d.).

---

*Unless otherwise noted, House bill refers to H.R. 3603, as passed by the House, and Senate amendment to H.R. 11.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The title IV–B child welfare services program is amended to provide entitlement matching funds to the States for innovative family preservation and family support services, substance abuse prevention and treatment, and respite care services. The overall entitlement ceiling will equal $135 million for fiscal year 1993, $355 million for fiscal year 1994, $485 million for fiscal year 1995, $520 million for fiscal year 1996, and $595 million for fiscal year 1997. The entitlement ceiling will be adjusted annually for inflation in subsequent fiscal years.

The amount available for family preservation and family support services will equal $95 million for fiscal year 1993; $235 million for fiscal year 1994; $320 million for fiscal year 1995; $340 million for fiscal year 1996; and $385 million for fiscal year 1997.

The amount available for substance abuse prevention and treatment will equal $40 million for fiscal year 1993; $90 million for fiscal year 1994; $110 million for fiscal year 1995; $115 million for fiscal year 1996; and $125 million for fiscal year 1997.

The amount available for respite care will equal $30 million for fiscal year 1994; $55 million for fiscal year 1995; $65 million for fiscal year 1996; and $85 million for fiscal year 1997. A State may transfer up to 50 percent of its share of the fiscal year 1994 entitlement funds for respite care services, and up to 25 percent of the fiscal year 1995 entitlement funds, to family preservation and family support services or substance abuse prevention and treatment.

Effective date.—October 1, 1992.

b. Allotments to States; Federal/State Matching Share

HOUSE BILL

The allotment of entitlement funds to Puerto Rico, Guam, the Virgin Islands, the Northern Mariana Islands and American Samoa is on the same basis as under the existing title IV–B child welfare services authorization. Remaining funds are distributed to States according to an allocation formula, based on the average number of children in the State receiving food stamp benefits for the fourth, third and second preceding fiscal years, as determined from sample surveys under the food stamp program quality control system. The Federal matching share will equal 75 percent.

Any portion of a State allotment which the State certifies will not be used will be available for reallotment to other States which can use the funds during the fiscal year. Any reallotted funds will be distributed to States according to the same entitlement formula described above.

Effective Date.—October 1, 1992.

SENATE AMENDMENT

The allotment of funds is on the same basis as under the current title IV–B program (which reflects the size of the State's population under age 21 and per capita.)

The Federal matching share will equal 75 percent.

Funds to which a State is entitled for a fiscal year will remain available for that fiscal year and the succeeding fiscal year.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with regard to the allotment formula for the entitlement funds for family preservation and family support services, and for substance abuse prevention and treatment. Entitlement funds for respite care services will be allotted to each State based on its relative share of children receiving Federally-supported foster care maintenance payments. The Federal matching share for all of the entitlement funds is 75 percent. Funds will remain available for a two-year period, and unused funds will be reallotted at the end of the two-year period.

Effective date.—October 1, 1992.

c. Innovative Family Preservation and Family Support Services

HOUSE BILL

States may use funds under the new title IV–B entitlement for developing and expanding the following services:

(1) specialized child welfare service programs for families in crisis due to substance abuse, that emphasize comprehensive services, are geared toward the whole family, and encourage or expand the availability of programs for pregnant women and programs which allow mothers to reside with their children (and other caretaker relatives to reside with the children in their care) while receiving services or treatment; and

(2)(i) service programs designed to help children, where appropriate, return to families (including adoptive families) from which they have been removed or be placed for adoption, with legal guardians, or, where appropriate with respect to a child, in some other planned, permanent living arrangement,

(ii) preplacement preventive services programs, such as intensive family preservation programs that are designed to help children at risk of foster care placement remain with their families (including adoptive families), or

(iii) service programs designed to provide follow-up care to families (including adoptive families) to whom a child has been returned following a foster care placement.

Allotments to a State will be reduced to the extent that: (1) such State used any entitlement funds to supplant other Federal, State or local funds used for similar purposes; (2) expenditures by such State and its political subdivisions from State and local sources for child welfare services (excluding foster care maintenance payments and adoption assistance payments) in any fiscal year are less than such expenditures for fiscal year 1992; and (3) expenditures by such State and its political subdivisions from State and local sources for child welfare services in any fiscal year are less than such expenditures for fiscal year 1992.

For a 5-year period beginning fiscal year 1994, a portion of the entitlement funds is earmarked for a program to make grants to the highest State courts to assess court foster care procedures and to implement improvements. (See item f. below.)

Effective date.—October 1, 1992.

SENATE AMENDMENT

States may use funds under the new title IV–B entitlement for the planning, development, expansion and operation of the following services:

(1) preplacement preventive services designed to help children at risk of foster care placement remain with their families (including adoptive families), where appropriate;

(2) reunification services designed to help children return to the families (including adoptive families) from which they have been removed, where appropriate;

(3) follow-up services designed to sustain and further strengthen families (including adoptive families) after a child has returned home from foster care placement;

(4) where appropriate, services designed to help children be placed for adoption, with a legal guardian, or, if adoption or legal guardianship is determined not to be appropriate for a child, in some other planned, permanent living arrangement;

(5) respite care to provide assistance for any foster care family, adoptive family or any other family that the State agency determines needs such care in order to preserve family stability, with priority to the family of a child with a physical, mental, or emotional condition that requires special assistance (as determined by the Secretary); and

(6) family support services to strengthen the functioning of a family (including an adoptive or foster care family), including services designed to improve parenting skills.

As a condition of receiving funds under this program, States must provide the Secretary with written assurance that State and local funds expended for the purpose of providing child welfare services (excluding foster care maintenance and adoption assistance payments) will be maintained at a level that equals or exceeds the level of funding for these services in fiscal year 1991.

In addition, a separate entitlement to States is created for services related to substance abuse. (See item d. below.)

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

Under the conference agreement, a portion of title IV–B entitlement funds may be used for the planning, development, expansion and operation of the following family preservation and family support services:

(1) service programs designed to help children, where appropriate, return to families (including adoptive families) from which they have been removed or be placed for adoption, with legal guardians, or, where appropriate with respect to a child, in some other planned, permanent living arrangement;

(2) preplacement preventive services programs (for example, intensive family preservation programs) that are designed to help children at risk of foster care placement remain with their families (including adoptive families);

(3) service programs designed to provide follow-up care to families (including adoptive families) to whom a child has been returned following a foster care placement; and

(4) family support services to strengthen the functioning of a family (including an adoptive or foster care family), including services designed to improve parenting skills, respite care, and adult mentoring.

For a four-year period, a portion of the entitlement for family preservation and family support services may be used for grants to the highest States courts (see item f.).

With regard to maintenance of effort for family preservation and family support services, the conference agreement follows the House bill, except that the third item, with respect to expenditures by State and political subdivisions for child welfare services, is deleted.

The conferees intend that each State have the discretion to determine the most appropriate allocation of its share of the entitlement funds among these categories of service programs.

The conference agreement also designated funds under title IV-B for: (1) substance abuse prevention and treatment (see item d.); and (2) respite care services for foster parents caring for children with special needs (see item e.).

Effective date.—October 1, 1992.

d. Substance abuse prevention and treatment

HOUSE BILL

Under the new services entitlement, States must use a portion of their allotments for specialized services for families in crisis due to substance abuse.

Effective date.—October 1, 1992.

SENATE AMENDMENT

Title IV-B is amended to authorize entitlement matching funds to the States to enable them to plan, develop, and operate a qualified comprehensive substance abuse treatment program, and to provide nonmedical substance abuse treatment support services for low-income pregnant women and caretaker parents with children under such program.

Amounts to which a State is entitled in any fiscal year will remain available for such fiscal year and the succeeding fiscal year.

Funds are allocated to States under the same formula that is used for other title IV-B services (which reflects per capita income and child population). Federal matching is at the Medicaid rate. The Governor may designate which agency or agencies in the State will administer a program.

Medicaid-eligible pregnant women and caretaker parents and, where appropriate, their children will be eligible for services. The State may also use these funds to pay for services to other low-income pregnant women and caretaker parents and their children, regardless of their eligibility for Medicaid. States are required to give priority for participation in these programs to individuals who are referred to them by the State child welfare agency.

States must coordinate services provided with these funds with services provided under the Medicaid and Maternal and Child Health programs, and must report on the programs funded under this legislation (at such time and in whatever form determined appropriate by the Secretary) information that the Secretary and Congress need in order to evaluate the operation and effectiveness of program services. The information must include the number of individuals participating in the program, limits on enrollment, and the number of individuals on a waiting list to participate.

As a condition of receiving payment, a State must provide assurances to the Secretary that the total amount of funds expended by the State (and any political subdivision) from non-Federal sources for the fiscal year for the purpose of providing nonmedical substance abuse treatment support services will not be less than the total amount expended for such services from such sources for the immediately preceding fiscal year.

The term "qualified comprehensive substance abuse treatment program" means a program that makes available (either directly or through arrangements with others) substance abuse prevention, treatment, and follow-up services; prenatal, gynecological, and pediatric medical services; transportation and nonmedical substance abuse treatment support services. The term "nonmedical substance abuse treatment support services" is defined to include home visitation services, nutrition services, child care, and parenting education; substance abuse prevention, treatment, and follow-up services (to the extent such services are not furnished under a State plan approved under title XIX); and any other services (such as room and board at a residential substance abuse treatment facility for a parent or a child) that are determined by the State (in accordance with regulations issued by the Secretary) to be necessary and appropriate. Services may be provided in either residential or non-residential facilities.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement generally follows the Senate amendment. The Federal matching rate is 75 percent. Funds will be allotted to each State based on the average number of children in the State receiving food stamp benefits.

Effective date.—October 1, 1992.

e. Respite care

(Section 480 of House bill and section 7101 of Senate amendment)

PRESENT LAW

Federal reimbursement for respite care to foster parents is not available under the title IV-E foster care maintenance payments program. There is no specific authorization under title IV-B for respite care services, although States have the discretion to use title IV-B funds for such services.

HOUSE BILL

States may provide respite care under title IV-E to provide temporary relief to the foster parents of foster children with special needs (whether or not such children are eligible for the title IV-E program).

To receive Federal reimbursement for the cost of respite care, the State plan must include provision for such care to any family which operates a foster family home for 1 or more foster children who the State determines have special needs. Respite care must meet all applicable State or local standards and guidelines, and must be provided in the least restrictive setting consistent with the child's special needs. The care must be authorized by a State or provided by a public or private agency designated by a State. Expenditures for title IV-E respite care will be reimbursable at the same matching rate as foster care maintenance payments. Federal reimbursement will be limited to no more than 14 days of respite care in a 12-month period per foster child. A "day" means 24-hours. Expenditures relating to administration will be reimbursed at the rate of 50 percent.

Effective date.—October 1, 1993.

SENATE AMENDMENT

Under the new innovative services entitlement described above, the following would be an allowable use of funds: respite care to provide assistance for any foster care family, adoptive family, or any other family that the State agency determines needs such care in order to preserve family stability, with priority to the family of a child with a physical, mental, or emotional condition that requires special assistance, as determined by the Secretary. (see item c.)

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

Under the conference agreement, a portion of title IV-B entitlement funds is designated for respite care to provide temporary relief to the foster parents of foster children with special needs. Respite care must meet all applicable State or local standards and guidelines, and must be provided in the least restrictive setting consistent with the child's special needs. Respite care funds will be allotted to each State based on its share of the number of children receiving title IV-E foster care maintenance payments (based on the latest available three-year average). The Federal matching rate for the funds is 75 percent.

Effective date.—October 1, 1993.

f. Enhancing court procedures

(Section 104 of House bill)

PRESENT LAW

No provision.

HOUSE BILL

For 5 fiscal years, a freestanding grant to the highest State courts is authorized to conduct an assessment of current court procedures and functions related to parts B and E of title IV and to implement recommendations for improvements based upon such an assessment. The grant will be funded through an earmark of title IV-B entitlement funds.

In fiscal year 1994, the earmark will total $15 million; for each of fiscal years 1995 through 1998, the earmark will equal $25 million. Funds under the earmark will be allotted to the States based on the proportion of their population under the age of 21, but a minimum of $150,000 will be made available to each State during the first year of the grant, and a minimum of $190,000 will be made available to each State during each of the subsequent 4 years.

No State match is required for the first and second year grant funds; and State match of 25 percent is required for fiscal year 1996 through 1998 grant funds.

The Secretary is required to make an interim and final report to Congress on the information obtained from the State assessments and on the impact of the grant program on the procedures and functions of the State courts in carrying out titles IV-B and IV-E. the reports are due at the end of fiscal years 1996 and 1999.

Effective date.—October 1, 1993.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to: (1) authorize grants for four, instead of five, years; (2) require a State match in the second, as well as third and fourth, years of the grant; (3) earmark $15 million for fiscal year 1994, and $20 million for each of fiscal years 1995 through 1997 (the minimum State allotment for fiscal years 1995 through 1997 will equal $170,000); and (4) require only a final report from the Secretary.

Effective date.—Date of enactment.

g. State Plan Requirement

HOUSE BILL

To be eligible to receive its share of entitlement funds for a fiscal year, each State must annually submit to the Secretary, as an amendment to its title IV-B State plan and in such form as the Secretary may require by regulation, a comprehensive family services plan, which must contain:

(1) an assessment of the service needs of families in which any child is at risk of being, or has been, placed outside the home, and the need for substance abuse treatment services for such families:

(2) a description of the service programs available in the State that address the service needs of such families;

(3) the State's 5-year goals for increasing the number and capacity of such service programs;

(4) a strategy for the fiscal year to improve the coordination of services to such families with other State programs and services;

(5) a certification from the Governor that the State has provided for appropriate coordination of State substance abuse treatment programs and the service programs under title IV-B;

(6) an assurance that the State will not use funds under title IV-B to supplant Federal, State or local funds used for similar purposes;

(7) an explanation of how Federal assistance under the entitlement will expand services available to such families, including a description of service programs to be provided with funds under the entitlement, the goals of the programs, and the populations to which the programs will be targeted, with an assurance that such populations will consist of families with children who are in, have been in, or are at risk of being placed in, foster care, and, at the option of the State, the care of a mental health or juvenile justice agency; and

(8) such other information as the Secretary may require by regulation.

Effective date.—October 1, 1993.

Senate Amendment

In order to receive funding for services, each State must submit, on an annual basis, an amendment to its title IV-B plan. The amendment must be submitted by January 1, 1993 for fiscal year 1993, and by July 1 preceding each fiscal year thereafter. The plan amendment must be approved by the Secretary, and must include a detailed description of services the State intends to provide.

The State must also develop a statement of goals that it expects to achieve over the 5 year period 1993–1997, which must be submitted to the Secretary by January 1, 1993.

Effective date.—Date of enactment; applies beginning for fiscal year 1993.

Conference Agreement

Under the conference agreement, the requirement for an annual State plan amendment applies only to the entitlement funds for family preservation and family support services. The conference agreement generally follows the Senate amendment, but also provides that the annual plan amendment will include items d, f, g, and h from the House bill, with respect to a coordination strategy, supplantation of funds, an explanation of how additional funds will expand services, and such other information as the Secretary may require. Item g from the House bill is modified to clarify that States are not required to target services to each of the described populations. The amendment for fiscal year 1993 is due not later than such date as the Secretary may require. The conference agreement established no due date for the report on goals.

Effective date.—October 1, 1992.

2. State directory of services

(Section 105 of House bill)

Present Law

No provision.

House Bill

Title IV-B is amended to include a State plan requirement that the State child welfare agency compile, at least every two years, a directory of certain specified service programs that are made available by the State agency or local child welfare agencies. The service programs in the directory must include:

(a) preplacement preventive services programs that are designed to help children at risk of foster care placement remain with their families;

(b) service programs designed to help children, when appropriate, return to families from which they have been removed or be placed for adoption, with legal guardians, or in some other planned, permanent living arrangement; and

(c) service programs designed to provide follow-up care to families to whom a child has returned following a foster care placement.

The directory must specify which of the service programs provide specialized child welfare services to families in crisis due to substance abuse. The directory must also contain such information as the Secretary may require by rule.

At a minimum, the directory must include the following information: the name and address of the program and administering agency or organization; a description of program services: program capacity; and a description of the eligibility criteria for the program, including any priorities regarding who will receive program services.

The information in the report must be arranged geographically. The State must provide a copy of the directory to the Secretary and to all judges and other judicial administrators, and all State agencies, involved in child protection, foster care and adoption cases.

Effective date.—October 1, 1993.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill. The conferees intend that the State may implement this provision by directing the local child welfare agencies to collect the information for their geographic area and submit it to the State child welfare agency for inclusion in the directory. The conferees encourage States to include in the directory services made available by private, nonprofit agencies and other organizations providing services to children and families.

Effective date.—October 1, 1993.

3. Required protections for foster children

(Section 102 of House bill)

Present Law

Under current law, in order to receive its full share of the title IV-B allocation, each State is required under section 427(a) to conduct an inventory of children in foster care; and to implement and operate, to the satisfaction of the Secretary, a tracking system for children in foster care, a case review system for children in foster care, and a service program designed to help children, where appropriate, return to families from which they have been removed or be placed for adoption or legal guardianship.

Currently, all States have chosen to be reviewed for compliance with these requirements and are eligible to receive title IV-B incentive funds.

Further, under section 427(b), if the appropriations for the title IV-B program equal $325 million for two consecutive years, a State does not receive its full title IV-B allotment unless it has met all the section 427 requirements outlined above, and in addition, has implemented a preplacement preventive services program designed to help children remain with their families. This additional incentive mechanism has never been triggered.

States that have elected to provide Federally-supplemented foster care payments for voluntarily-placed foster children are required to implement all section 427 protections, including the preplacement preventive services program. In fiscal year 1989, 22 States claimed Federal matching for children in foster care under voluntary placement agreements, and 50 States reported they were eligible to claim such matching.

House Bill

Beginning for fiscal year 1993, section 427 is repealed. Instead, each State plan for the title IV-B program must provide for the foster care protections currently outlined in section 427(a), including: an inventory of children in foster care; a tracking system for children in foster care; a case review system for children in foster care; and a service program designed to help children in foster care return to their families.

Beginning for fiscal year 1995, States also must:

(a) implement a preplacement preventive services program designed to help children at risk of foster care placement remain with their families; and

(b) review State laws, State administrative and judicial procedures, and agency legal representation in effect for children abandoned at or shortly after birth, and develop and implement such laws and procedures as the State determines are necessary to enable lasting permanent decisions to be made more expeditiously with respect to the placement of such children.

These amendments must not be construed to permit any State to interrupt the provision of the foster care protections described in section 427 (as in effect before fiscal year 1993).

Effective date.—October 1, 1992.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill, except that the entire provision will apply beginning for fiscal year 1995.

Effective date.—October 1, 1994.

4. State Plan Requirement Regarding the Indian Child Welfare Act

(Section 106 of House bill)

Present Law

The Indian Child Welfare Act (P.L. 95-608) includes a number of State requirements relating to the foster care or adoptive placement, or termination of parental rights, of Indian children. There is currently no statutory link between the Indian Child Welfare Act and the child welfare services programs under the Social Security Act.

House Bill

The State plan for title IV-B must contain a description, developed after consultation with Indian tribes or tribal organizations within the State, of the specific measures taken by the State to comply with the requirements of the Indian Child Welfare Act.

Effective date.—October 1, 1993.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

Effective date.—October 1, 1993.

5. Reports on Child Welfare Services and Expenditures

(Section 103 of the House bill and section 7101 of Senate amendment)

Present Law

The State plan for the title IV-B program must contain a description of the services to be provided and specify the geographic areas where such services will be available.

House Bill

States wishing to participate in the new services entitlement must submit to the Secretary, as a title IV–B plan amendment, a comprehensive family services plan.

Beginning for fiscal year 1994, the State plan for the title IV–B program must include a pre-expenditure report on the intended use of payments, including information on the types of services to be provided and the geographic areas where the services will be available, which must be made public in a manner to facilitate public comment by any person during its development.

Beginning for fiscal year 1994, the bill requires that each State prepare an annual report on actual expenditures for services under title IV–B. The report must be in such form and contain such information as the State finds necessary to: provide an accurate description of services; secure a complete record of the purposes for which the funds were spent; and enable a determination of the extent to which funds were spent in a manner consistent with the pre-expenditure report. The report must be transmitted to the Secretary, available for public comment, and provided, upon request, to any interested public agency.

The Secretary must establish uniform definitions of services for use by the States in preparing the report, and must establish a date by which States must submit the report.

A State plan requirement is added to title IV–B that States provide information for the second preceding fiscal year on aggregate expenditures by the State and its political subdivisions for child welfare services, broken down to show the extent to which the expenditures were from funds provided by Federal, State or local sources. This amendment will apply to State plans beginning for fiscal year 1993. The Secretary must transmit a summary of this information to the House Committee on Ways and Means and the Senate Committee on Finance, and make the summary available to the public at a charge equal to the cost of printing.

Effective date.—October 1, 1993.

SENATE AMENDMENT

States wishing to participate in the new innovative services entitlement must submit to the Secretary a title IV–B plan amendment describing services the State intends to provide with its new entitlement allotment.

No later than January 1, 1994, and annually thereafter, each State must submit to the Secretary a report that summarizes activities actually carried out with new funds made available under this legislation. Such reports will cover the most recently completed fiscal year, and be in such form and contain such information as the Secretary requires by regulation.

In addition, as described in item A.1.d., each State must report information to the Secretary on comprehensive substance abuse treatment programs funded under title IV–B that is needed to evaluate the operation and effectiveness of program services.

Effective date.—January 1, 1994.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, with modifications. The proposed requirement for a pre-expenditure report is deleted, and State title IV–B plans must continue to contain a description of services to be provided. The post-expenditure reports will apply to all expenditures under title IV–B but expenditures relating to substance abuse prevention and treatment. The requirement that the Secretary establish uniform definitions of services is amended to make such requirement to the extent feasible. The conference agreement further provides that the requirement that State plans include information on aggregate expenditures will apply beginning for fiscal year 1994, instead of fiscal year 1993.

Effective date.—Date of enactment with respect to expenditures under title IV–B in or after fiscal year 1994.

B. FOSTER CARE AND ADOPTION ASSISTANCE AND RELATED PROVISIONS

1. Comprehensive services/flexible spending

(Section 201 of House bill and sections 7102 and 7112 of Senate amendment)

PRESENT LAW

No provision.

HOUSE BILL

A new part C is added to title IV of the Social Security Act. Under title IV–C, States may participate in a comprehensive and coordinated services designed to: preserve and strengthen families children more expeditiously if an out-of-home placement is found to be necessary, or place children in adoptive homes or other permanent arrangements in a timely fashion if reunification is not appropriate.

Under the project, funds for the existing Federal child welfare and foster care programs may be combined and the States may be granted authority to modify certain requirements of title IV–B or IV–E.

The amount of a grant for a fiscal year to a State participating in a project will be equal to the sum of: 110 percent of the amount of the State title IV–B allotments (but not including additional allotments available to the State as a result of outlays being lower than the CBO baseline) for the fiscal year; and the amount the State would have properly claimed for reimbursement under the title IV–E foster care program for the fiscal year (including expenditures relating to maintenance payments, child placement services, administration, training, and the independent living program).

The Secretary will estimate the State's title IV–E foster care program claims for a fiscal year by: determining the amount paid the State for the fiscal year immediately preceding the fiscal year the State commenced the project; adjusting the amount at an annual rate which reflects the average annual rate of growth in expenditures by the State on behalf of foster children under title IV–E for the 3-year period prior to the commencement of the project; and increasing the amount, to the extent the Secretary deems appropriate, by taking into account the State's estimates of such claims, the projected rate of inflation for the fiscal year, the rate at which foster care expenses in other States have increased, changes in State laws or procedures that would change the rate at which children are placed into foster care, and the amount (if any) by which the national average foster care placement rate exceeds the State's foster care placement rate.

To the extent a State chooses not to operate the project statewide, the grant amount will be adjusted downward based on the relative number of children in foster care in the area of the State in which the project is to be conducted.

Effective date.—October 1, 1993.

SENATE AMENDMENT

(a) Demonstration to Improve Coordination of Services.—The Secretary will be required to permit up to 15 States to use Federal title IV–E foster care administrative (entitlement) matching funds (not to exceed $3 million per year for any one State) to conduct pilot projects to improve the coordination of services for families and children. Applications for approval of projects must be submitted by the Governor. Projects may last up to 3 years.

Applications must include a description of the measures to be employed to improve coordination of the child welfare, foster care, and adoption assistance programs with several or all of the following programs designed to assist families and children: programs under the Social Security Act (AFDC, child support enforcement, JOBS, medicaid and maternal and child health), WIC, education programs, mental health programs, juvenile justice programs, substance abuse programs, programs for the developmentally disabled, and other programs determined by the State and approved by the Secretary.

States receiving grants will be required to describe Federal, State, and local laws and administrative policies that impede coordination of the delivery of services to families and children. States also must describe the steps they have taken or intend to take to eliminate or reduce problems in coordination that result from State or local laws and policies. They must also provide the Secretary with information on barriers they have identified in Federal legislation and policy that limit States' ability to coordinate services for families and children.

The Secretaries of HHS, Agriculture, and Education, and the Attorney General, will be required to review Departmental policies to determine whether changes in regulations and policies can be made without legislative changes to improve the funding and delivery of services for children and families. In undertaking this review, they must consult with representatives of State and local governments.

A report including recommendations for making both legislative and non-legislative changes to improve coordination must be submitted to the Congress by July 1, 1993, and must include a description of any technical assistance that the Departments will provide to the States to assist them in program coordination and an analysis of impediments to coordination described by participating States, as such impediments relate to Federal policies and laws.

Any State approved by the Secretary to operate a demonstration project to improve coordination of services will be required to conduct an evaluation of the project's effectiveness in improving the coordination and the funding of child and family services, and report the results of the evaluation to the Secretary upon completion of the project. States may use regular title IV–E administrative matching funds for evaluation.

(b) Flexible Spending Demonstrations.—Title IV–E is amended to authorize up to 10 States to conduct demonstration projects, intended to provide States with the flexibility and resources necessary to develop innovative policies and appropriate service networks to preserve and strengthen families with children at risk of needing out-of-home placement; to reunite children with their families as promptly as possible if out-of-home placement is necessary; to place children in adoptive homes or other permanent arrangements, including guardianship and placement with relatives, if reunification is not possible or not in the child's best interest; and to provide for evaluation of innovative State programs and assessment of the im-

pact of such programs on children and families.

To the extent feasible in view of the number of approvable applications received, the Secretary shall approve at least 2 and not more than 4 applications from States with populations of less than 1.5 million; at least 3 and not more than 5 from States with populations between 1.5 and 7 million; and at least 2 and not more than 4 from States with populations over 7 million. No more than 4 applications shall be approved for any one geographical region of the country, as determined by the Secretary.

The amount of the grant payable to a State in a fiscal year will equal the "applicable percentage" of the sum of the following: the amounts paid to the State for fiscal year 1992 under sections 423 and 474 (except for adoption assistance payments and administrative costs associated with adoption assistance); the portion of the amount (if any) by which title IV-B appropriations for a fiscal year exceed such appropriations for fiscal year 1992, that would be payable to the State if the State were not conducting a demonstration; and 20 percent of the amount that would have been payable to the State for the immediately preceding fiscal year under section 423 if the State were not conducting a demonstration.

The term "applicable percentage" means the following quotient, as determined by the Secretary after taking into account estimates prepared by the evaluating entity: the number of children in the demonstration areas with respect to whom the State would have made foster care maintenance payments under section 472 for the fiscal year if the Secretary had approved the State IV-E plan and the State were not authorized to conduct a demonstration project, divided by the total number of such children in the State.

During the period that the State is conducting a demonstration, certain provisions of title IV-B and IV-E will not apply to the State.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement adopts the House bill provision for comprehensive service projects, but limits participation to 3 States, and modifies the calculation of the grant amount. The conferees encourage the Governor of a participating State to consider implementing joint funding and other mechanisms designed to ensure the commitment of each of the child welfare, juvenile justice and mental health systems to the project, and to convene an interagency task force including nonprofit provider agencies to jointly plan and implement the comprehensive service project in the State.

In addition, the conference agreement adopts the Senate provision authorizing funds to conduct demonstrations to improve coordination of services, and would allow up to 3 States to participate.

Effective date.—October 1, 1992.

2. Changes to eligibility requirements under title IV-E

PRESENT LAW

Under a State title IV-E plan, a State must make foster care maintenance payments with respect to a child who would be classified a dependent child under the AFDC program, but for the child's removal from the home of a relative, if (and subject to certain other conditions): the child received AFDC at the time removal was initiated; the child would have received AFDC at the time removal was initiated if application had been made; or the child had been living with a caretaker relative within 6 months prior to the time removal was initiated, and would have received AFDC at the time removal was initiated if the child had been living with such a relative and application had been made.

Also, under a State title IV-E plan, a State must enter into adoption assistance agreements with the adoptive parents of children with special needs. Under an adoption assistance agreement, a State may make adoption assistance payments with respect to a child with special needs if the child:

(a) at the time adoption proceedings were initiated, met the requirements necessary to be classified a dependent child under the AFDC program or would have met such requirements except for his removal from the home of a caretaker relative; or meets all the eligibility requirements for the SSI program;

(b) received AFDC at the time removal from the home of a relative was initiated, would have received AFDC if application had been made, or had been living with a caretaker relative within 6 months prior to the time removal was initiated and would have received AFDC at the time removal was initiated if the child had been living with such a relative and application had been made; or meets all the eligibility requirements of the SSI program.

a. Abandoned children

(Section 202 of House bill)

PRESENT LAW

States cannot generally claim title IV-E reimbursement for abandoned children, since the financial circumstances and living arrangements of the parent(s) cannot be determined to verify actual or potential AFDC eligibility.

HOUSE BILL

States may make foster care maintenance and adoption assistance payments under title IV-E to each child entering foster care on or after October 1, 1993 who has been determined by a court of competent jurisdiction to be an abandoned child, for whom the State agency cannot, despite diligent efforts, determine the financial circumstances and living arrangements of the parent(s), and who is under the responsibility of the State.

Effective date.—October 1, 1993.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

b. Clarification of "removal from home" requirement

(Section 203 of House bill)

PRESENT LAW

HHS policy, articulated in a "policy interpretation question" (PIQ) issued August 13, 1987, interprets title IV-E eligibility requirements relating to "removal from the home" to mean children must be *physically* removed from the home. Thus, for example, under this interpretation a child who goes to live with his grandmother before custody is transferred to the State and the child is formally placed into foster care with the grandmother, is not eligible for title IV-E because no *physical* removal has occurred.

HOUSE BILL

Federal reimbursement under the title IV-E foster care maintenance payments and adoption assistance programs may be made on behalf of children placed in foster care or for adoption who the State has not physically removed from the home of the caretaker, but of whom the State assumes legal custody, and who otherwise meets the eligibility requirements for the program.

Effective date.—October 1, 1992.

In addition, effective on the date of enactment, States may claim Federal reimbursement retroactively for foster care and adoption assistance expenditures made by the State from October 1, 1982 to October 1, 1992 with respect to such children. States may have one year from the date of enactment to submit old claims (i.e., claims that are submitted more than 2 years after expenditure).

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

c. Dissolved adoptions

(Section 204 of House bill and section 7103(b) of Senate amendment)

PRESENT LAW

A child on whose behalf title IV-E adoption assistance payments are made (and whose adoption has been legally finalized by a judicial decree of adoption), but whose adoption is subsequently set aside by the court and who returns to foster care, is often not eligible for title IV-E foster care maintenance and adoption assistance payments, because the income or resources of the adoptive family has made the child ineligible for the AFDC or SSI program.

HOUSE BILL

States may make foster care or adoption assistance payments under title IV-E on behalf of a child with respect to whom such payments were previously made, whose adoption has been set aside by a court, who otherwise meets eligibility requirements under title IV-E, and who fails to meet the AFDC eligibility requirements, but would meet them if the adoption were treated as never having occurred, and the child were treated as if in the same financial and other circumstances as when the child last received title IV-E payments.

Effective date.—October 1, 1992.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

Effective date.—October 1, 1992.

d. Extension of definition of special needs child

(Section 206 of House bill)

PRESENT LAW

To be eligible for adoption assistance a child must be determined to have "special needs." A child shall not be considered a child with special needs unless: (1) the State determines the child cannot or should not be returned to the home of his parents; and (2) the State had first determined (A) that there exists with respect to the child a specific factor or condition (such as ethnic background, age, membership in a minority or sibling group, a medical condition or physical, emotional or mental handicap) that make adoption unlikely without providing financial or medical assistance, and (B) a reasonable but unsuccessful effort has been made to place the child with appropriate adoptive parents without providing such assistance.

HOUSE BILL

A child shall not be considered a child with special needs unless the State determines: (1)

the child cannot or should not be returned to the home or legal custody of the parents; (2) there exists a specific factor or condition (such as ethnic background, age, or membership in a minority or sibling group, or the presence of factors such as medical conditions or physical, mental, or emotional handicaps) or information available and known about the child's history indicating a high risk of medical conditions, or emotional, physical, or mental handicaps, which makes it reasonable to conclude that the child cannot be placed for adoption without an adoption assistance agreement; and (3) a reasonable but unsuccessful effort has been made to place the child with appropriate adoptive parents without providing financial or medical assistance.

A child also may qualify for title IV-E adoption assistance as a child with special needs if the State determines that the child has been adopted; immediately prior to adoption, was under the care and responsibility of the State agency administering the State plan; and has a mental, physical, or emotional handicap that existed before the adoption but was not diagnosed until after the adoption, or that first manifests itself after the adoption but is congenital or was caused before the adoption.

States will be required to submit a description of those factors and conditions which make a child a child with special needs to the Secretary, as well as any modifications that are made to the factors and conditions.

Effective date.—October 1, 1993, with respect to children who are adopted after September 30, 1993.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that with respect to children who qualify for title IV-E adoption assistance after they have been adopted, the provision is modified to include as eligible children who may have been under the care and responsibility of a private nonprofit agency immediately prior to their adoption, in addition to children who had been under the care and responsibility of the State agency.

The conferees do not intend this provision to restrict the ability of adoptive parents to obtain adoption assistance after a final decree of adoption as a result of a successful appeal through the State's fair hearing process or an equivalent administrative review procedure.

Effective date.—October 1, 1993, with respect to children who are adopted after September 30, 1993.

e. Time frame for judicial determinations on voluntary placements

(Section 212 of House bill)

PRESENT LAW

No payment may be made under title IV-E to reimburse a State for foster care maintenance payments in the case of any child who was removed from the home as a result of a voluntary placement agreement and has remained in the placement for more than 180 days, unless there has been a judicial determination within the first 180 days of the placement to the effect that the placement is in the best interests of the child.

HOUSE BILL

With respect to any child who remains in foster care under a voluntary placement agreement for more than 180 days without there having been a judicial determination within the first 180 days of the placement to the effect that the placement is in the best interests of the child, Federal reimbursement may be claimed for foster care maintenance payments beginning 180 days after the date that such judicial determination is finally made.

Effective date.—October 1, 1992, with respect to foster care placements made on or after October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

3. Study of reasonable efforts requirement by advisory committee

(Section 207 of House bill and section 7105 of Senate amendment)

PRESENT LAW

In order for a State to be eligible for title IV-E funding, the State plan must specify that, in each case, reasonable efforts will be made prior to the placement of a child in foster care to prevent the need for foster care and make it possible for the child to return home (sec. 471(a)(15)). The statute also provides that for each child entering foster care after October 1, 1983, a judicial determination must be made that there were reasonable efforts to prevent placement in foster care. (sec. 472(a)(1)).

HOUSE BILL

Within 90 days of enactment, the Secretary must establish an advisory committee of at least 9 members to study and make recommendations concerning the implementation of the "reasonable efforts" requirement of section 471(a)(15). The advisory committee must include representatives of private, nonprofit organizations with an interest in child welfare; agencies of States and political subdivisions responsible for child protective services, foster care services or adoption services; judicial bodies of States and political subdivisions who adjudicate family law issues; and attorneys and others who represent children and parents.

No later than April 1, 1994, the advisory committee must submit a report to the Secretary and to Congress that includes legislative or other recommendations concerning the implementation of the "reasonable efforts" requirements.

Members of the advisory committee would receive compensation while engaging in the business of the advisory committee at a rate fixed by the Secretary, not to exceed GS-18 of the General Schedule established under sec. 5332 of Title V, U.S.C., and would be allowed travel expenses. Full-time officers or employees of the United States could not receive additional pay, allowances or benefits by serving on the committee. The committee could employ and fix the compensation of one individual.

Effective date.—Date of enactment.

SENATE AMENDMENT

Similar to House provision except advisory committee must include a representative of hospitals that treat a significant number of boarder babies. A representative of attorneys and others who represent children and families is not required. The advisory committee's report is due by January 1, 1994 and must include recommendations for making improvements in the implementation of the requirements under section 471(a)(15). There is no specific authorization for the committee to hire staff.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the House and Senate provisions with respect to an advisory committee on reasonable efforts, modified to delete the required representation on the committee of attorneys and others who represent children and families, and representatives of hospitals that treat a significant number of boarder babies.

Effective date.—Date of enactment.

4. Tax deduction for costs of adopting a child with special needs

(Section 7104 of Senate amendment)

PRESENT LAW

Taxpayers are not allowed to deduct expenses related to adopting a child in determining their Federal income tax liability.

HOUSE BILL

No provision.

SENATE AMENDMENT

Taxpayers may deduct certain allowable expenses (up to a maximum of $3,000) of adopting a special needs child. The deduction may be taken whether or not the taxpayer itemizes deductions. Allowable expenses include reasonable and necessary adoption fees, court costs, attorneys fees, and other expenses directly related to the legal adoption of the child which are eligible for reimbursement under the title IV-E adoption assistance program. A special needs child is a child with respect to whom the State has determined that there exists a specific factor or condition (such as ethnic background, age or membership in a minority or sibling group, or medical condition or physical, mental or emotional handicap) that makes it difficult to find an adoptive home for the child.

Effective date.—The provision is effective for adoptions occurring after December 31, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—The provision is effective for adoptions occurring after December 31, 1992.

5. Periodic review of foster care maintenance payments

(Section 209 of House bill)

PRESENT LAW

Each State establishes its own foster care maintenance payment levels. Under current title IV-E law, as part of the State plan requirements, States must periodically review their foster care maintenance and adoption assistance payments.

HOUSE BILL

States are required to review their foster care maintenance payment and adoption assistance levels at least every three years to assure their continuing appropriateness, and report the results of the review to the Secretary and the public at such time and in such form and manner as the Secretary may by regulation require.

At a minimum, the report must include a statement of the manner in which the foster care maintenance payment level is determined, including information on the actual cost of foster care; information regarding the basic payment level and whether this level includes an amount to cover the cost of clothing; and information regarding whether the payment level varies by the type of care or the special needs or age of the child, and, if so, the payment levels for each special needs, care or age category.

States that do not pay a differential rate for children with special needs who are HIV-positive or have AIDS, or children who are drug-addicted or have complications due to drug or alcohol exposure, must provide the reasons. In addition, the report must include information on any limitations imposed by the State on adoption assistance payment levels.

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

Effective date.—October 1, 1992.

6. Amendments to case review system and case plan requirements

PRESENT LAW

To receive certain incentive funds under title IV-B, States are required to implement and operate, in addition to other activities, a case review system for each child receiving foster care under the supervision of the State. Section 475 of title IV-E defines "case review system" to mean a procedure for assuring that: each child has a case plan meeting specified requirements, the status of each child is reviewed at least once every six months by a court or by administrative review, and each child in foster care is assured a dispositional hearing in a court, or by an administrative body appointed or approved by the court, no later than 18 months after the original placement in foster care (and periodically thereafter during a continuation of foster care).

The dispositional hearing determines: the future status of the child, including but not limited to, whether the child should be returned to the parent, should be continued in foster care for a specified period, should be placed for adoption, or should be continued in foster care on a permanent or long-term basis; and for a child who is age 16 or older, the services needed to assist the child to make the transition to independent living.

a. Accelerated dispositional hearing

(Section 210 of House bill)

HOUSE BILL

The definition of "case review system" is amended to require that the dispositional hearing take place no later than 12 months after placement, rather than the current 18 months.

Effective date.—October 1, 1994.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House provision, modified to require the dispositional hearing to take place no later than 15 months after placement. The conferees note that States may, prior to fiscal year 1995, phase-in implementation of the requirement in order to secure a smooth transition to the 12-month dispositional hearing standard.

Effective date.—October 1, 1994.

b. Period review of children free for adoption

(Section 211 of House bill and Senate 7103(a) of Senate amendment)

HOUSE BILL

With respect to any child for whom a determination is made that such child should be placed for adoption, the court or administrative body that conducts a dispositional hearing must determine and document the measures needed to enhance the likelihood of making the child legally eligible for adoption and finding an adoptive family for the child.

With respect to any child who is legally eligible for adoption, the court or administrative body that conducts a dispositional hearing must determine and document the specific measures which have been and need to be taken to make an adoptive placement, or a finding that placement of the child in an adoptive family would be inappropriate.

Effective date.—October 1, 1994.

SENATE AMENDMENT

In the case of a child who is legally eligible for adoption, the court or administrative body conducting the case review must determine and document the specific measures taken by the State agency to make a placement of the child in an adoptive family, or a finding that adoptive placement would be inappropriate for the child.

Effective date.—October 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that requirements would apply to the court or administrative body conducting the case review, rather than the court dispositional hearing.

Effective date.—October 1, 1994.

c. "Most appropriate setting" requirement

(Section 7106(a) of Senate amendment)

PRESENT LAW

Current law requires each foster child to have a case plan designed to achieve placement in the "least restrictive (most family-like) setting available."

HOUSE BILL

No provision.

SENATE AMENDMENT

The current law requirement will be modified to require placement in "the least restrictive (most family-like) and most appropriate setting available."

Effective date.—This provision applies to case reviews conducted on or after July 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—This provision applies to case reviews conducted on or after October 1, 1992.

d. Citizen review volunteers

(Section 7106(b) of Senate amendment)

HOUSE BILL

No provision.

SENATE AMENDMENT

The current law definition of case review system will be amended to provide that, to the extent determined appropriate by the State, citizen volunteers may participate in making recommendations at either the periodic court of administrative reviews, or at dispositional hearings. This provision is effective upon enactment.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—Date of enactment.

e. Health care plans for foster children

(Section 7111 of Senate amendment)

HOUSE BILL

No provision.

SENATE AMENDMENT

Each child's case plan must include a record indicating that the child's foster care provider was advised (where appropriate) of the child's eligibility for early and periodic screening, diagnostic and treatment services under Medicaid.

Effective date.—The provision applies to case plans established or reviewed on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—The provision applies to case plans established or reviewed on or after January 1, 1993.

7. Placement accountability

(Section 213 of House bill)

PRESENT LAW

Title IV-E does not require the States to implement any specialized reviews or procedures in the case of children who are placed in foster care institutions outside the State.

HOUSE BILL

The case plan for a title IV-E foster child who is placed by the State in a foster care facility outside the State must include a finding that: efforts have been made to place the child in a facility in the State; the child needs services not available in the State; the placement is in the least restrictive (most family like) setting available, consistent with the best interest and special needs of the child; and the placement has been approved by a court or a review committee (such as a foster care review board) established by the State that reviews out-of-state placements.

The review committee must include appropriate State personnel, child advocates, parents, and other individuals the State deems appropriate. The placement must also be reviewed by a court not less frequently than annually, with the child present, unless the court determines that due to the age or condition of the child, or for some other good cause, the presence of the child would be detrimental to the child or would not accomplish a useful purpose.

The State agency must ensure that any out-of-state facility in which a title IV-E foster child is placed meets all of the originating State's applicable standards or is operated in accord with recommended standards of national organizations. In addition, the State must submit a report to the Secretary by the end of fiscal year 1994 on the number and characteristics of children placed in out-of-state care and the reasons why such children were not placed in foster care within the State.

Effective date.—October 1, 1993.

The data collection system established by the Secretary pursuant to section 479(b)(2) of title IV-E must provide State-specific information on the numbers and characteristics of foster children in out-of-state foster care placements.

Effective date.—October 1, 1994.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that the provision (excluding the data collection requirement) expires at the end of fiscal year 1996. Further, the House provision requiring State agencies to ensure that out-of-State facilities in which title IV-E children are placed meet certain standards is modified to require that the State agency ensure that such facilities have certified that they meet such standards.

Effective date.—Same as House bill.

8. Independent Living amendments

a. Treatment of assets of youth participating in Independent Living program

(Section 214 of House bill and section 7109(a) of Senate amendment)

PRESENT LAW

The independent living program under title IV-E is a State entitlement program designed to help ease the transition of foster children age 16 and older to independent living. States may include children who are not receiving title IV-E foster care benefits in the program, and may also allow children who have left foster care, up to age 21, to participate.

Under current law, the AFDC resource test applies to a foster child on whose behalf the State is claiming reimbursement under title IV-E. Should such a child accumulate assets above those allowed under AFDC while on foster care: the child may become ineligible to participate in the independent living program, if the State allows only title IV-E eligible foster children to participate; and the child may lose Medicaid benefits, since foster children receiving State-only benefits are not categorically eligible for Medicaid and generally must meet a resource test.

Youth who leave foster care and apply for or receive AFDC benefits are subject to the same rules regarding income and resources as other AFDC applicants and recipients.

House Bill

With respect to a child who is receiving assistance under an independent living program, an amount of the assets of the child which would otherwise be regarded as resources for purposes of determining eligibility for AFDC may be disregarded for the purpose of allowing the child to establish a household. The amount may not exceed an amount determined by the State child welfare agency as reasonable for the purpose of establishing a household.

Effective date.—October 1, 1992.

Senate Amendment

Same as House provision, except that a certain amount of assets may be disregarded for purposes of determining eligibility for Medicaid, as well as AFDC.

Effective date.—October 1, 1992.

Conference Agreement

The conference agreement follows the Senate amendment.

Effective date.—October 1, 1992.

b. Extension of Independent Living program

(Section 7101 of H.R. 11 as passed by the House and section 7109(b) of Senate amendment)

Present Law

The independent living program is currently authorized through fiscal year 1992. The entitlement ceiling in fiscal year 1992 is $70 million.

House Bill

The independent living program will be permanently authorized, with the current law ceiling of $70 million indexed to inflation.

Effective date.—October 1, 1992.

Senate Amendment

The conference agreement provides that the independent living program will be permanently authorized, at $70 million per year.

Effective date.—October 1, 1992.

Conference Agreement

The conference agreement follows the Senate bill.

Effective date.—October 1, 1992.

c. Optional lowering of age of eligibility

(Section 7101 of H.R. 11 as passed by the House)

Present Law

The independent living program is available to foster children age 16 and older.

House Bill

At State option, the age of eligibility for independent living services could be lowered to 14 years old.

Effective date.—Date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include the House bill provision.

d. Demonstration of Independent Living services for young adults

(Section 7127 of H.R. 11 as passed by the House)

House Bill

Would authorize such sums as necessary for the Secretary to conduct a three-year demonstration in one State that would provide community-based services for former foster children ages 21 to 25. Such services could include self-help groups, counseling, treatment for survivors of abuse, mentoring, alumni groups, and/or coordination of and referral to existing community services by independent living agency staff.

Effective date.—Date of enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill, modified to require the State or locality conducting the demonstration to arrange for an evaluation of the impact of the demonstration on the well-being of the individuals who participate.

Effective date.—Date of enactment.

9. Elimination of foster care ceilings and transfer authority

(Section 215 of House bill)

Present Law

Mandatory State-by-State ceilings are placed on foster care funds if the Federal appropriation for child welfare services reaches a specified trigger level, currently $325 million. In the absence of a mandatory foster care ceiling, States may elect to operate under a voluntary ceiling. A State may use one of several methods to calculate the most favorable ceiling. The mandatory ceiling has not gone into effect since 1981. The majority of States are operating significantly above their respective ceiling levels.

Under a voluntary ceiling, a State may transfer a portion of its unused foster care funds to its child welfare services program. It is estimated that the amount transferred by States will total $1 million for fiscal year 1992.

The foster care ceilings and the authority to transfer foster care funds to child welfare services expire September 30, 1992.

House Bill

The provisions of current law establishing a mandatory and voluntary ceiling on foster care funds, and enabling States to transfer "unused" foster care funds to their child welfare services program, are eliminated.

Effective date.—October 1, 1992.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

Effective date.—October 1, 1992.

10. Training activities

a. Regulations for training of agency staff and foster and adoptive parents

(Section 216 of House bill and section 7110(b) of Senate amendment)

Present Law

Under current law, States are entitled under the title IV-E program to a payment equal to 75 percent of expenditures for the training of personnel employed or preparing for employment by the State or local child welfare agency, and for the training of foster and adoptive parents.

House Bill

Not later than 9 months after enactment and after consultation with an advisory body, the Secretary must publish final regulations establishing detailed guidelines to assist States in using Federal matching funds authorized under title IV-E for the purpose of providing training for individuals who are employed, or preparing for employment, by State and local child welfare agencies, and foster and adoptive parents. The advisory body must include representatives of nonprofit organizations with an interest in child welfare (including organizations that train professional social workers in the field of child welfare services) and organizations representing State and local child welfare agencies.

Effective date.—Date of enactment.

Senate Amendment

The Secretary is required, not later than April 1, 1993, to publish final regulations establishing detailed guidelines to assist States in using Federal matching funds that are authorized under current law for the purpose of providing training for individuals who are employed or preparing for employment by State and local child welfare agencies.

The Secretary also is required to develop and publish a model staff recruitment, training and staff retention program for use by State and local child welfare agencies, by April 1, 1993.

Effective date.—Date of enactment.

Conference Agreement

The conference agreement follows the House bill, but would require the establishment of an advisory committee within 180 days of enactment, and final regulations withn 15 months. The conference agreement also includes the Senate provision regarding a model staff recruitment, training and retention program, but would require that the model program be published by October 1, 1993.

Effective date.—Date of enactment.

b. Matching funds for foster and adoptive parent training

(Section 7102 of H.R. 11 as passed by the House and section 7110(c) of Senate amendment)

Present Law

The current provision allowing 75 percent Federal matching funds for certain training expenses expires on September 30, 1992.

House Bill

The present law authorization for Federal reimbursement at 75 percent under title IV-E for training of foster and adoptive parents and for training staff of approved child care institutions providing care to foster and adopted children is permanently extended.

Effective date.—October 1, 1992.

Senate Amendment

The present law authorization for Federal reimbursement at 75 percent under title IV-E for training of foster and adoptive parents and for training staff of approved child care institutions providing care to foster and adopted children is extended through fiscal year 1995.

Effective date.—October 1, 1992.

Conference Agreement

The conference agreement follows the House bill.

Effective date.—October 1, 1992.

c. Child welfare traineeships

(Section 7110(a) of Senate amendment)

PRESENT LAW

Title IV-B (section 426(a)(C) authorizes such sums as may be necessary to enable the Secretary to make grants to public or private nonprofit institutions of higher education for training personnel for work in the field of child welfare.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Secretary may not approve an application for a training grant unless the institution:

(1) provides assurances that students receiving stipends will enter into agreements with the institution to: participate in on-site training at a child welfare agency on a regular basis (as determined by the Secretary) for the period of the traineeship; be employed for a period of years equal to the period of the traineeship in a child welfare agency in any State after completing the postsecondary education for which the traineeship was awarded; to provide the institution and the Secretary with evidence of compliance; and in the event of noncompliance, to repay to the Secretary all or a portion of the stipend, plus interest, and if applicable, reasonable collection fees;

(2) provides assurances that the institution will provide appropriate student supervision and support; enter into agreements with child welfare agencies for the on-site training of recipients; develop and implement a curriculum in the child welfare field that reflects current knowledge about best practices in delivering child welfare services, and consult with child welfare agencies in developing the curriculum; allow those already working in the child welfare services field to be eligible for stipends in order to complete degree requirements; and develop and implement a system to track (for a period of three years) students who complete a child welfare services program of study to determine the percentage of such students who secure and retain employment in the child welfare field.

A student will not be considered in violation of an agreement during any period in which the student satisfies repayment exceptions prescribed by the Secretary in regulations.

Effective date.—Effective for grants awarded on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—Effective for grants awarded on or after April 1, 1993.

11. Publication of program data

(Section 217 of House bill)

PRESENT LAW

Under current law, the Secretary is not required to submit to Congress general program data and information relating to the child welfare, foster care and adoption assistance programs under titles IV-B and IV-E of the Social Security Act.

HOUSE BILL

Beginning for fiscal year 1993, the Secretary is required to submit to the Ways and Means and Finance Committees and to make available to the public on an annual basis certain information relating to the titles IV-B and IV-E programs, including information on: Federal and State spending; program participation; reviews and audits; foster care maintenance payment rates; services funded under title IV-B; research, training and demonstration projects; and any other information the Secretary deems useful for monitoring the operations of the programs.

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that the provision will apply beginning for fiscal year 1994, instead of 1993.

Effective date.—October 1, 1993.

12. Review of child welfare activities

a. New review system

(Section 218 of House bill and sections of 7115 and 7116 of Senate amendment)

PRESENT LAW

Title IV-B.—There are no formal review provisions for title IV-B in current law. However, section 427 of title IV-B contains certain protections for foster children which States must comply with to be eligible to receive incentive funds (see item I.C. above). HHS has developed a review system to determine State compliance with these protections.

Title IV-E.—Section 471(a)(13) of title IV-E requires, as a component of State plans under title IV-E, that States arrange for periodic and independent audits of their activities under title IV-B and IV-E, to be conducted at least once every three years. In addition, section 471(b) allows the Secretary of HHS to withhold or reduce payments to States upon finding that a State plan no longer complies with State plan requirements, or, in the State's administration of the plan, there is substantial failure to comply with its provisions. The Secretary must first provide reasonable notice and opportunity for a hearing.

In practice, the Secretary may disallow expenditures for Federal reimbursement under title IV-E as a result of several review procedures, including audits conducted pursuant to section 471(a)(13). Disallowances may result from audits conducted by the Inspector General, regional office reviews of quarterly expenditure reports submitted by States as part of the claims reimbursement process, or Federal financial reviews.

Title IV-E financial reviews are conducted retrospectively, after conclusion of the fiscal year. However, States are not generally reviewed annually, and States may be reviewed for more than one fiscal year at a time.

States may appeal disallowances to the Departmental Appeals Board.

HOUSE BILL

A new part G is added to title IV of the Social Security Act, which requires the Secretary to establish, by regulation, a new, integrated child welfare review system. Beginning with fiscal year 1994, the new review system will apply to all child welfare activities under approved State plans for child welfare services, including the new entitlement (title IV-B), and foster care and adoption assistance (title VI-E).

By April 1, 1993, the Secretary must issue final regulations that will establish a system to:

(1) assess State child welfare activities to identify areas where requirements are not being met and the degree to which they are not being met;

(2) impose graduated financial penalties on States in cases of substantial noncompliance, unless corrective action is taken; and

(3) provide States with technical assistance to bring about compliance.

The Secretary's child welfare review regulations must contain the following elements:

(1) a requirement that each State's child welfare programs be reviewed to determine whether and the degree to which they comply with State plan requirements for child welfare services and foster care and adoption assistance; and the extent to which claims for foster care maintenance payments and adoption assistance payments are proper and eligible for Federal reimbursement;

(2) the criteria to be used in judging compliance with State plan requirements and measuring the extent to which payments for foster care maintenance and adoption assistance under title IV-E are eligible for Federal reimbursement;

(3) thresholds, (which must be periodically reviewed, and, if necessary, revised) with respect to each major compliance category and any subcategories the Secretary may deem especially important, for determining whether State programs are out of compliance or substantially out of compliance;

(4) interim thresholds to be used in each State's first review under the new system;

(5) periodically revised uniform review procedures that enable a single, integrated, and timely review of each State's compliance, and include sampling of payments for foster care maintenance and adoption assistance, and other appropriate program activities;

(6) provisions that will exclude program deficiencies or errors from consideration in judging compliance if they are technical or due to a failure to implement changes in law in the 6 months following the law's effective date or issuance of regulations, or due to a State's reliance on and correct use of erroneous information or written Federal policy provided by the Secretary; and

(7) for cases of substantial non-compliance, a method of calculating financial penalties that will be proportional to the degree of non-compliance and, to the extent appropriate, based on the graduated penalty formula used in calculating disallowances under the AFDC quality control system.

Under the new review system, the Secretary must complete an integrated review of each State's child welfare programs at least once every 3 years for the most recently completed fiscal year, and must complete at least 1 review of each State's programs by the end of fiscal year 1997. On a determination of non-compliance in any matter, the Secretary must give the State timely notification of the determination, including the basis for the determination and the amount of any financial penalty.

If a review finds a State's child welfare programs out of compliance, and the failure is not substantial, the Secretary may require the State to submit a corrective action plan and timetable, may annually review the State's corrective action progress, and must offer the State technical assistance in areas the Secretary judges appropriate.

If a review finds a State's child welfare programs out of compliance, and the failure is substantial, the Secretary must impose a financial penalty on the State proportional to the degree of non-compliance (which may be suspended or rescinded under certain conditions), make available to the State technical assistance to accomplish compliance, and annually review the State's progress until substantial compliance is achieved.

Any financial penalty for substantial noncompliance will be suspended if the State submits, and the Secretary approves, a corrective action plan and timetable, for as long as the plan is being fully implemented in accordance with the timetable. Any financial penalty will be rescinded when the State has fully implemented its corrective action plan in accordance with its approved timetable and has achieved substantial compliance.

States may appeal determinations of substantial non-compliance and any financial penalties to the Departmental Appeals Board. In addition to its authority to overturn or affirm the determinations, the Board may adjust the amount of any financial penalty, taking into account the amount proposed by the Secretary, the proportionality of the penalty to the degree of failure, and, where appropriate, whether the failure materially affected the protection of children who are in, or at risk of being placed in, foster care. After a decision by the Board, States may appeal to Federal district court, where the case will be reviewed based on the record established in the proceedings before the Board.

The bill repeals the authority under section 471(b) which allows the Secretary to withhold or reduce payments to States upon finding that a State plan no longer complies with State plan requirements, or, in the State's administration of the plan, there is a substantial failure to comply with its provisions.

Effective on the date of enactment, the bill: permanently prohibits the Secretary from reducing any payment to, withholding any payments from, or seeking any payments from any State, under titles IV–B or IV–E, by reason of a determination made in connection with a review of State compliance with the title IV–B foster care protections, for any fiscal year before fiscal year 1995; and prohibits the Secretary, until October 1, 1994, from reducing any payments to, withholding any payments from, or seeking any payments from any State, under title IV–E, by reason of a determination made in connection with a Federal title IV–E financial review or an audit conducted by the Inspector General.

Effective upon enactment, within 10 months after deferral action (action to suspend payment) is taken on a claim for reimbursement under title IV–E, the Secretary must determine the allowability of the deferred claim, or if unable to reach such a determination within the period, pay the claim subject to a later determination of allowability. Any deferral action must be taken within 30 days after the receipt of a quarterly expenditures report.

Effective date.—Date of enactment.

SENATE AMENDMENT

By May 1, 1993, the Secretary is required to submit to the Committee on Finance and the Committee on Ways and Means recommendations for legislation to establish a system for the review of each State child welfare program, and the provision of technical assistance to State programs. The term "child welfare program" is defined to mean all activities engaged in by the State under parts IV–B and IV–E of the Social Security Act.

Reviews of each State program shall be for the purpose of assuring whether the program is being carried out as required by statute; identifying any area in which the program is not being carried out as required, and the degree to which it is not being carried out; and identifying the circumstances under which financial penalties shall be imposed unless corrective action is taken.

Recommendations must include provisions requiring each State child welfare program to be reviewed periodically to determine whether and, where appropriate, the degree to which the program complies with State plan requirements, and the extent to which the amounts claimed to have been expended by the State for foster care maintenance payments and adoption assistance are eligible for Federal reimbursement. In addition, recommendations must specify the criteria that are to be used to assess whether the State's program has complied with Federal requirements, and the degree of such compliance.

In developing the recommendations, the Secretary must consult with representatives of State agencies administering child welfare programs; representatives of private nonprofit organizations which have an interest in child welfare; and such other individuals as the Secretary may determine.

The Secretary is required to pay any State claim for reimbursement of expenditures under title IV–E within 90 days of its receipt, unless the Secretary issues a deferral or disallowance of such claim within the 90-day period.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement generally follows the House bill, with modifications designed to provide the Secretary greater flexibility in developing the regulations. The Secretary must issue final regulations by not later than January 1, 1994, to apply to conduct occurring on or after October 1, 1994. All programs must be reviewed by the end of fiscal year 1998. The regulations must be developed in consultation with State agencies. The conferees do not intend that the Secretary, in developing the regulations, be limited to the requirements outlined in the provision.

Effective on the date of enactment, the bill prohibits the Secretary, until October 1, 1993, from: reducing any payment to, withholding any payment from, or seeking any payments from any State, under titles IV–B or IV–E, by reason of a determination made in connection with a review of State compliance with the title IV–B foster care protections; and reducing any payments to, withholding any payments from, or seeking any payments from any State, under title IV–E, by reason of a determination made in connection with a Federal title IV–E financial review or an audit conducted by the Inspector General.

The Secretary is required to pay any State claim for reimbursement of expenditures under title IV–E within 90 days of its receipt, unless the Secretary issues a deferral or disallowance of such claim within the 90-day period.

Effective date.—Date of enactment.

b. Moratorium on collections

(Section 7103 of H.R. 11 as passed by the House and section 7114 of Senate amendment)

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1989 prohibited the Secretary from collecting any funds from States as a result of a disallowance in connection with a section 427 triennial review, until October 1, 1991.

HOUSE BILL

The OBRA moratorium on collection of penalties resulting from section 427 reviews is extended to October 1, 1993, for any Federal fiscal year preceding fiscal year 1994, and will apply to any review of State compliance with Section 427.

Effective date.—October 1, 1992.

SENATE AMENDMENT

Same as House bill.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

Effective date.—October 1, 1992.

C. INFORMATION AND MANAGEMENT SYSTEMS

(Section 208 of House bill and section 7108 of Senate amendment)

PRESENT LAW

Section 479 of title IV–E requires that the Secretary promulgate final regulations by December 31, 1988 providing for the implementation of a foster care and adoption data collection system. The data collection system is required to provide national information with respect to foster and adoptive children, whether or not they are eligible for benefits under title IV–E. The final regulations must provide for the full implementation of the data collection system not later than October 1, 1991.

Under title IV–E, Congress established an Advisory Committee on Adoption and Foster Care Information, to report to the Secretary and Congress its evaluations and recommendations with respect to establishing, administering and financing the national foster care and adoption data collection system. In its report, the Advisory Committee included, among other recommendations, that: the Federal government should provide funding for 100 percent of the add-on developmental expenses incurred by States, plus Federal reimbursement at a rate of 50 percent for ongoing operational costs; and a work group be established by the Secretary so that the Federal government consults with State officials as well as representatives from appropriate groups on the planning and implementation of the new data collection system.

The Secretary proposed regulations for the data collection system on September 27, 1990. The proposed regulations would allow States to receive Federal reimbursement for the costs of the establishment and maintenance of the data collection system as an administrative cost under title IV–E at the matching rate of 50 percent. The proposed rules would require the States to allocate the costs of data collection, however, and would limit the amount a State may claim to a proportionate share of the children adopted and in foster care who are eligible under the title IV–E program.

HOUSE BILL

States may claim 90 percent Federal matching funds for expenditures for the planning, design, development or installation of statewide mechanized data collection and information retrieval systems (including 90 percent of the full cost of hardware components for such systems) but only to the extent that such systems meet the requirements imposed by regulations issued by the Secretary pursuant to section 479; are determined by the Secretary to be likely to provide more efficient, economical and effective administration of the programs under title IV–E or title IV–B; and, to the extent practicable, are capable of interfacing with the data collection system in the State that collects child abuse and neglect data. The enhanced match will be available for three years following the date of enactment.

In addition, Federal matching at the rate of 50 percent may be used for costs related to the ongoing operation of such data collection and information systems.

Federal matching is available to reimburse data system costs related to both title IV–E and non-title IV–E foster and adoptive children who are required to be included in the system (or are an optional group).

The date for implementation of the data collection system is postponed to one year following the date that final regulations for the system are promulgated by the Secretary. In addition, the Secretary must establish a work group to advise on the planning and implementation of the system, and the work group must include representatives of State agencies and other appropriate groups.

Effective date.—Date of enactment.

SENATE AMENDMENT

States may claim 90 percent Federal matching funds for expenditures for the planning, design, development, or installation of statewide data collection and information retrieval systems (including 90 percent of the full cost of the hardware components of such systems) if such systems meet the requirements imposed by regulations issued pursuant to section 479; are determined by the Secretary to be likely to provide more efficient, economical, and effective administration of the title IV-E and title IV-B programs; and are capable of interfacing with the State's AFDC system to verify AFDC eligibility of a foster care child. The enhanced match will be available until September 30, 1995.

Federal matching funds at the 50 percent rate may be claimed for expenditures for operating costs with respect to title IV-E eligible children. Title IV-B funds may also be used to pay for operating costs (although they may not be used to draw down title IV-E matching funds).

Effective date.—January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to require State systems also to be capable of interfacing, to the extent practicable, with the State's system to verify AFDC eligibilty of a foster care child. Further, the provision is modified to allow States to claim 90 percent Federal matching beginning six months after the date of enactment. The enhanced match will be available until September 30, 1995. The date for implementation of the data collection system is not changed.

Effective date.—Date of enactment.

D. RESEARCH, DEMONSTRATION AND EVALUATION ACTIVITIES

PRESENT LAW

Section 426 of title IV-B authorizes funds for research, training and demonstration projects. Subsection (a) authorizes grants to: public and non-profit institutions of higher learning and child welfare agencies for research or demonstration projects in the field of child welfare that are of regional or national significance and for special projects to demonstrate new methods that will advance child welfare; State and local child welfare agencies for research to encourage experimental and special types of child welfare services; and institutions of higher learning to train personnel for work in the child welfare field.

1. Advisory Commission on Children and Families

(Section 401 of House bill)

PRESENT LAW

No provision.

HOUSE BILL

The Director of the Office of Technology Assessment (OTA) is directed to establish an Advisory Commission on Children and Families.

The Commission must, in order to identify cost-effective approaches to protect and enhance the physical, mental, emotional and financial well-being of children and their families, collect and assess information on: measures of the economic, social and physical well-being of children; the causes and effects of child maltreatment; the effectiveness of social services and income supports in strengthening the family unit; the effects of substitute care on the well-being of children; the adequacy of and effectiveness of cash assistance and tax policies in maintaining family incomes; the incentive effects of family policies; the effect of family breakup on family economics; ways to promote the parental support of children; participation in Federal programs supporting children and their families; program management and service delivery by public organizations working with families and children; and such other issues relating to children and their families as the Commission deems appropriate.

The Commission will have access to relevant information and data available from appropriate Federal agencies and must assure that its activities, especially the conduct of original research, is coordinated with the activities of Federal agencies.

Effective date.—Date of enactment.

See section 7123 of H.R. 11 as passed by the House (Measurement and Reporting of Welfare Dependency) for related provision.

SENATE AMENDMENT

No directly comparable provision.

See section 7171 of Senate amendment (Measurement and Reporting of Welfare Dependency) for related provision, same as House bill.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

2. Child welfare/foster care research and evaluations

(Section 401 of House bill and section 7101 of Senate amendment)

a. Evaluations of child welfare/foster care services

HOUSE BILL

The Commission, directly or under contract with one or more independent research organizations, will evaluate child welfare service programs receiving funds under Part B, including programs in each of the three areas funded under the new title IV-B entitlement (reunification programs, preventive placement programs, and after care programs), in accordance with criteria the Commission deems appropriate. To the maximum extent practicable, the evaluations must use treatment and control groups of statistically appropriate sample sizes to measure the effects of a program. The evaluations must consider short-term and long-term program effects. An appropriate proportion of the evaluations must be evaluations of intensive family preservation programs.

Effective date.—Date of enactment.

SENATE AMENDMENT

An authorization of $8 million per year for 5 years will be provided to enable the Secretary to evaluate State programs receiving funds under the new innovative services entitlement according to criteria the Secretary must establish. The Secretary may conduct these evaluations through contracts with independent research organizations.

States may also use funds available to them under the new innovative services entitlement to conduct their own evaluations of child and family services. The evaluations must be conducted according to requirements the Secretary prescribes by regulation.

The Secretary must develop procedures to facilitate the coordination of evaluation efforts undertaken by HHS and the States and must, upon request of a State, provide technical assistance to the States in planning and designing their evaluations.

In developing evaluation criteria, the Secretary must consult with child welfare program administrators; private, nonprofit organizations with an interest in child welfare; and with individuals and organizations with recognized expertise in evaluating child welfare services or other related programs.

Evaluations by the Secretary and by the States must use outcome measures of children and families that can be compared with similar outcome measures of children and families that did not receive these services, and must include an assessment of family functioning. The Secretary must assure that an appropriate portion of the evaluations conducted by HHS will use experimental and control groups (of a sample size determined in accordance with appropriate statistical practices).

Beginning in fiscal year 1995, the Secretary must issue an annual report to the Committee on Finance and the Committee on Ways and Means on the status and findings of all evaluations undertaken by the Department. The report shall also include a summary description of State evaluations paid for with these Federal funds.

By December 1, 1996, based on evaluations conducted by the Secretary and the States, the Secretary must submit a report to the Committee on Finance and the Committee on Ways and Means with recommendations for legislation to improve services provided to families and children under title IV-B so as to strengthen families, to reduce the number of cases in which it is necessary to remove a child from home and place the child in foster care, to promote the reunification of families of children who have been placed in foster care, and to promote planned, permanent living arrangements for children, including adoption, where appropriate.

Effective date.—Date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with respect to evaluation of family preservation and family support services, with modifications. The provision requiring the Secretary to assure that an appropriate portion of the evaluations use experimental and control groups is amended to require the Secretary, where appropriate and feasible, to use experimental and control groups. Further, the provision requiring the Secretary to submit an annual report to Congress is deleted.

Effective date.—October 1, 1992.

b. Evaluations of alternative foster care arrangements

HOUSE BILL

In order to promote more appropriate and effective foster care for children in need of long-term care, the Commission must, directly or under contract with one or more independent research organizations, and according to criteria the Commission deems appropriate, evaluate the impact of alternative foster care arrangements and services on the well-being of children who have little prospect of being reunited with their families or of being adopted, and who represent a challenging group of foster children who are in need of specialized services or care.

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to require the Secretary to conduct the evaluation, rather than the Commission.

Effective date.—Date of enactment.

c. Longitudinal child welfare data bases; studies of the dynamics of the child welfare population

HOUSE BILL

In order to develop more appropriate and effective intervention strategies with respect to children and their families who are referred or reported to the child welfare system, the Commission must, directly or under contract with one or more independent research organizations, plan, design, develop, and implement up to 5 child welfare data bases that provide longitudinal information on children and their families who are served by the public child welfare system, from the point at which such children are first referred or reported to such system.

Using data from such longitudinal data bases, the Commission must conduct such studies on children and their families served by public child welfare systems, as the Commission deems appropriate, including a study on the extent to which a lack of affordable housing is a factor in the placement of children in foster care.

Not later than October 1, 1993, the Secretary must, taking into account recommendations made by the Commission, enter into agreements with up to 5 States or localities to participate in the planning, design, development and implementation of a longitudinal child welfare data base, and to reimburse the State or locality for associated expenditures as an expenditure for data collection and information retrieval under title IV-E.

The Secretary must assure that each longitudinal data base: (1) includes information on the receipt by children and their families of child protective services, services designed to strengthen and preserve families, foster care and adoption services, and other services made available by the agency; (2) to the extent feasible, includes information on the receipt of services, or placement of children, through the mental health or juvenile justice agencies; (3) includes only data that are reliable and developed using uniform definitions and methodologies; and (4) to the extent appropriate, is implemented with the State foster care and adoption data collection and information retrieval system.

Under the agreement, the Secretary is obligated to pay the State or locality, for a 3-year period, 90 percent of the costs of planning, designing, developing, implementing and operating the data base. The matching rate will convert to 50 percent after the 3-year period for these activities.

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that provisions applying to the Commission are amended to apply to the Secretary. Further, up to 4 States or localities may apply, and the three-year enhanced match will equal 70, rather than 90, percent.

Effective date.—Date of enactment.

d. Child separation guidelines study

HOUSE BILL

The Commission will conduct a study designed to answer the following:

(1) How do the criteria for removal of children from the home, and the tools for assessing the risk to the child if not removed from the home, vary from State to State? In considering this question, the Commission should examine the decision-making process at the caseworker level in at least 3 States, which represent high, low and average placement rates. The study should also examine other factors that can affect placement rates like State laws and policies, child welfare agency interpretations of reasonable efforts, and the tendency to place or not place children according to economic incentives from various State and Federal funding sources.

(2) What guidelines should be used to assess risk and to determine the need for removal and what kind of training would ensure consistent application of these guidelines? The study should include a review and compilation of all current research in this area.

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to require the Secretary to conduct the study, rather than the Commission.

Effective date.—Date of enactment.

3. Other research and evaluations

(Section 403 of House bill)

a. Study of risks to foster care workers

HOUSE BILL

The Secretary may use funds authorized under section 426 to conduct a study, under contract with an independent research organization, to assess the prevalence and nature of safety risks to workers in the child welfare system. The study shall provide empirical information regarding the actual incidence of violence or harassment, types of child welfare workers most at risk, types of harm threatened or inflicted, characteristics of perpetrators, the most dangerous child welfare settings, and urban and rural differences.

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to establish the provision as free-standing law, rather than a provision of the Social Security Act. The provision requiring the Secretary to conduct the study under contract with an independent research organization is deleted. Such sums as necessary are authorized.

Effective date.—Date of enactment.

b. National workload study

HOUSE BILL

The Secretary, under contract with an organization or organizations with demonstrated experience in the field of workload measurement for human services agencies, may use funds authorized under section 426 to conduct a three-year national workload study to examine methodologies for measuring the workloads of child welfare and community mental health providers.

The study must examine and document which methodologies are currently used to measure caseworker and supervisor workloads; develop general standards for workload measurement and workload size; apply and validate the standards for workload measurement and workload size; and develop a software program to permit individual agencies to use appropriate methodologies for measuring workload.

The Secretary must consult with an advisory body in planning and carrying out the study.

Effective date.—Date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to establish the provision as free-standing law, rather than a provision of the Social Security Act. The language including community mental health workers in the study is deleted. Such sums as necessary are authorized.

Effective date.—Date of enactment.

c. Evaluation of foster parent recruitment, training and retention efforts

HOUSE BILL

The Secretary, under contract with an independent research organization, may use funds authorized under section 426 to evaluate foster parent recruitment and retention strategies and the effect of foster parent training programs on retention of foster parents. The study must identify successful recruitment techniques and recommend steps that could be taken at the Federal, State or local level to improve foster parent recruitment, training and retention.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, modified to establish the provision as free-standing law, rather than a provision of the Social Security Act.

Effective date.—Date of enactment.

4. Child welfare demonstrations

PRESENT LAW

No provision.

HOUSE BILL

(a) The Secretary is required to authorize demonstration projects in five areas to test the effect of innovative child welfare practices.

Demonstration funds are authorized for four years beginning in fiscal year 1994, at funding authorizations totaling $15 million in each fiscal year. The Secretary will determine how the funds are distributed between the four project areas with a requirement that at least one project in each is undertaken. At least two projects must be undertaken in the culturally sensitive and special needs demonstration described in item 2. The project areas are described below.

(1) *Expeditious permanent placement of children* (Section 404 of House bill).—The Secretary may make up to 3 grants to States or localities to conduct projects designed to:

review statutes, administrative and judicial procedures, and agency legal representation that govern determinations of abandonment of children, termination of parental rights, and permanent placement of children, particularly with respect to children abandoned at or shortly after birth;

assess which of such procedures or law causes delays in permanent placement of such children or consideration of termination of parental rights;

assess the level of training of judges and child protective service workers on the issue of timeliness in these procedures;

assess the provision and the impact of coordinated comprehensive social services, particularly in relation to reunification or maintenance of families;

assess the impact of designating entities or individuals as having standing to initiate permanent placement or termination of parental rights proceedings on behalf of children in protective case or public supervision;

assess the extent to which employees currently exist who are specifically responsible for expediting the consideration of termination of parental rights or permanent placement, and the impact of such individuals on the timeliness for such considerations;

assess the success of programs which concurrently provide planning for and services to preadoptive and natural parents; and

implement new procedures or improvements that ensure more timely hearing of, and decisions on, cases of permanency planning or termination of parental rights, including (at State or local option) activities that provide additional personnel to pursue or process cases, expand the standing of foster parents and others to initiate cases, and require certain children to be placed in foster homes that are likely to become permanent adoptive homes.

States or localities will be required to submit an application to the Secretary including such information as the Secretary may require by rule, and an assurance that the project will be developed and carried out jointly with appropriate judicial administrators, and with appropriate agencies that provide services to children abandoned at or shortly after birth. In approving applications, the Secretary will ensure that grants are made to applicants whose positions on consideration of parental rights and the termination of such rights reflect the range of statutory and judicial positions taken by the States.

States or localities participating in the demonstration must also develop and carry out a plan for evaluating the effect of the demonstration. The Secretary must disseminate the results of the evaluations.

The Secretary may suspend a project upon determining that it has not been conducted in a satisfactory manner.

(2) *Culturally sensitive and special needs child welfare worker training demonstration* (Section 404 of House bill).—The Secretary shall authorize: 1) up to five institutions in four States along the United States-Mexico border to conduct demonstration projects to train eligible individuals to deliver culturally sensitive bilingual child welfare services to residents of the border region; and 2) up to five institutions to conduct projects to train eligible individuals to deliver culturally sensitive and bilingual welfare services in urban centers with a high proportion of historically unserved or underserved populations.

Under the border region demonstration, the Secretary will distribute funds through the universities and colleges in border States. These schools must consult with the State child welfare agency in order to ensure that the funds will be used for training for skills that are needed for work with disadvantaged individuals in the area of the State that borders Mexico. The application must also include a plan for placing individuals who complete the training in a family assistance agency that provides services directly to residents of the border country in which the agency is located.

Under the urban centers demonstration, the Secretary will distribute funds through colleges and universities in urban areas with a high incidence of historically unserved or underserved populations, including minorities, persons with limited English-speaking ability, populations showing a high incidence of child abuse or neglect or abandonment as determined by the Secretary, homeless individuals, people infected with HIV or in danger of becoming infected, and persons who abuse alcohol or drugs.

The training funds will be used for the training of current workers and for preparing new workers for the range of child welfare work from case management to supervisory. The Secretary shall develop criteria regarding the scope and length of the training program to ensure that training under the program adequately prepares trainees for the work to be performed by the recipients of the traineeships upon completion of the training program. The training funds may be used for tuition, room and board, travel, and other living expenses.

All recipients of the traineeships for border areas will be required to agree to complete at least one year of service in the field of child welfare at approved sites. Recipients of traineeships for urban centers must agree to serve for one year for each year of assistance or training received.

For purposes of the urban center demonstration, the Secretary shall publish a list of such urban centers in the Federal Register no later than 180 days after enactment.

(3) *Staff recruitment and retention demonstration* (Section 404 of House bill).—The bill authorizes up to 10 multi-year demonstration grants to develop and implement innovative recruitment or retention strategies for trained staff in public and private nonprofit agencies working with children and adolescents at risk of placement in out-of-home care. At least one such demonstration will be designed to expand the capacity of minorities to provide services within their own community.

To be eligible, a State or local government agency must submit a 3-year plan for the recruitment and retention of trained direct services staff (for both public and private nonprofit agencies that contract for the care of children in the custody of public agencies). The plan must include such information as the Secretary may prescribe by rule, including a description of planned outreach activities and the steps that will be taken to encourage recruitment and retention of staff.

Agencies receiving consecutive awards must match the Federal grant by 20 percent in the second year and 25 percent in the third year. The Secretary must give priority to those projects that demonstrate inter-system cooperation among child welfare, juvenile justice, mental health or substance abuse agencies and those that test both urban and rural strategies in a variety of geographic areas.

Each State or locality conducting a project must develop and carry out a plan for evaluating the effect of the project. The Secretary will be required to disseminate the results of the evaluation.

(4) *Joint training demonstration* (Section 404 of House bill).—The bill authorizes up to 3 competitive grants to State or local government agencies to test the effect of joint training programs for child welfare, mental health, and juvenile justice staff, and for judicial personnel and judges. To receive funds a State must designate a public agency which provides services to children in the State and demonstrate that at least 2 such agencies will participate in the project by contributing financial resources, staff resources and trainees. Funds may be used only for the training of staff of public and private agencies, including supervisors, who are providing services to children or adolescents at risk of foster care or their families. The training must be designed to: (1) educate staff about the special needs of and service programs for certain populations of children or adolescents, such as those who are sexually abused, have serious emotional disturbances, are substance abusers or have AIDS or HIV-infection; (2) coordinate the interagency delivery of services to children at risk of being placed in foster care; and (3) provide training for judges or their administrative personnel, who are authorized to make final determinations as to termination of parental rights or placement of children in either temporary or permanent situations, to determine and incorporate into their decisions factors relating to the physical, mental, and social interests of the child.

States participating in the demonstration must also develop and carry out a plan for evaluating the effect of the training. The Secretary will be required to disseminate the results of the evaluations.

Effective date.—Date of enactment.

(b) *Foster care and adoption assistance demonstration* (Section 404).—The Secretary may authorize up to 5 States to test, for up to six years, the feasibility of eliminating the AFDC and SSI eligibility requirements under the title IV-E foster care and adoption assistance programs (thereby allowing a participating State to claim Federal reimbursement under title IV-E on behalf of foster and adoptive children without regard to the income and resources of the original family).

Under the demonstration, the Secretary will enter into a three-year agreement with each participating State, under which the Secretary and the State will agree on: a new set of Federal matching rates to the State for maintenance payments and adoption assistance, child placement services, and administration and training; and a strategy for evaluating the effect of the demonstration. At the State's request, the agreement will be renewed for an additional three years on the same terms.

With respect to a State, the Secretary must agree only to a set of matching rates that he determines is likely to result in no net additional Federal costs relative to current law matching rates. Any State wishing to conduct a demonstration project must submit an application to the Secretary in such form and containing such information as the Secretary may require.

Effective date.—Date of enactment.

SENATE AMENDMENT

(a) *Demonstration to facilitate reunification of a child eligible for AFDC with his or her own family* (Section 7107 of Senate amendment).—The Secretary shall enter into an agreement with up to 6 States to conduct demonstration projects to test whether family reunification can be facilitated by allowing a family to receive AFDC for the month prior to the month in which a child returns home from foster care (in an amount which the family would be eligible or receive if the child were living in the home). For that month, States may also provide for a payment to meet special needs. The Secretary must consider all applications and must approve only those which appear likely to contribute significantly to the achievement of family reunification. Demonstration projects must meet whatever conditions and requirements the Secretary prescribes by regulation and may last up to 3 years. No project may be conducted after January 1, 1997. States must submit a detailed evaluation to the Secretary after the project has been carried out for one year, and again when the project is completed.

(b) *Home Rebuilders demonstration* (Section 7113 of Senate amendment).—The State of New York will be allowed to conduct a 3-year deficit-neutral demonstration project aimed at facilitating the discharge of children from foster care, including the appropriate reunification of children with their families, or the adoption of children by suitable adoptive parents. In order for the demonstration to be approved, the State must agree to conduct an evaluation approved by the Secretary.

CONFERENCE AGREEMENT

The conference agreement includes the House bill provisions regarding the expeditious permanent placement of children (up to 3 grants), culturally-sensitive and special needs child welfare worker training (up to 10 grants), and the joint training of agency staff (up to 3 grants). Authorizations for these three demonstration areas will equal $15 million annually for the period.

Effective date.—October 1, 1993.

The conference agreement also includes the foster care and adoption assistance demonstration, and the Home Rebuilders demonstration project of the Senate amendment.

Effective date.—Date of enactment.

5. Technical assistance

(Section 405 of House bill)

PRESENT LAW

Section 476(a) of title IV–E permits the Secretary to provide technical assistance to the States to assist them in developing their programs funded under title IV–E.

HOUSE BILL

Beginning in fiscal year 1993, the Secretary is required to provide technical assistance to the States in the following areas:

interpretation and implementation of titles IV–B, IV–C, and IV–E of the Social Security Act;

dissemination of information regarding innovative child welfare practices;

helping States to correct problems identified through Federal audits and reviews and to carry out corrective action plans resulting from the Act;

helping States implement the foster care and adoption data collection system described in section 479; and

such other matters as the Secretary may identify.

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

E. SOCIAL SERVICES BLOCK GRANT

(Section 301 of House bill)

PRESENT LAW

Under title XX of the Social Security Act, States are entitled to receive social services block grant funds. Available data show that protective services for children, and substitute care (i.e., foster care and other out-of-home placements) and placement services for children, account for a significant portion of expenditures under the social services block grant.

Title XX is a capped entitlement; funds are currently limited to $2.8 billion annually. The share for each State is based on its relative share of the national population.

Under current law, there is no direct pass-through of funds from the Federal Government to Indian tribes or tribal organizations.

HOUSE BILL

The entitlement ceiling is increased to $2.9 billion in each of fiscal years 1993 and 1994. In fiscal year 1998 and subsequent years, the entitlement ceiling will equal the fiscal year 1997 ceiling, adjusted annually for inflation (based on changes in the consumer price index for all urban consumers for the most recent 12-month period for which data are available).

With respect to any State, if the Secretary: receives a request from the governing body of an Indian tribe or tribal organization within the State that assistance under title XX be made directly to the tribe or organization; and determines that the tribe or organization has submitted an application for the fiscal year which meets such criteria as the Secretary may prescribe by regulation, the Secretary must reserve from the amounts that would otherwise be allotted to the State, 100 percent of the amount which bears the same ratio to the State's allotment for the fiscal year (but for a direct allocation to any tribes) as the population of Indians residing within the State on the reservation(s) of the tribe or tribal organization or on trust lands adjacent to such reservation(s) bears to the population of the State.

These amendments must not be construed to preclude an Indian tribe from entering into a cooperative agreement with the State in which the tribe is located, in order for the tribe to provide services to its membership in accordance with title XX.'

SENTE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House bill provision.

F. COMMISSION ON CHILDHOOD DISABILITY

(Section 7117 of Senate amendment)

PRESENT LAW

No provision.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Secretary is directed to appoint a Commission on the Evaluation of Disability in Children, consisting of 15 members including recognized experts in relevant fields of medicine; recognized experts in psychology, education and rehabilitation, law or administration of disability programs; and other experts determined appropriate by the Secretary.

The Commission will conduct a study, in consultation with the National Academy of Sciences, on the effect of the current Supplemental Security Income definition of disability, as it applies to children under the age of 18 and their receipt of services, including the effect of using an alternative definition. The Commission will summarize the results of this study in a report due to the Committees on Finance and Ways and Means, due to later than September 1, 1994. The Commission will terminate on September 30, 1994.

CONFERENCE AGREEMENT

The conference agreement follows the Senate bill.

PART II—OTHER INCOME SECURITY AND HUMAN RESOURCES PROVISIONS

(Subtitle C of Title I)

A. AID TO FAMILIES WITH DEPENDENT CHILDREN (AFDC)

1. State option to modify AFDC asset test

PRESENT LAW

Federal law directs the State welfare agency to determine ineligible for Aid to Families with Dependent Children (AFDC) any family whose counted resources exceed $1,000, or a lower amount set by the State. The following resources are exempt from the resource limit: a home in which the family lives, an automobile (so long as the individual's ownership interest does not exceed the amount specified in regulations, which is currently $1,500, or such lower amount as the State may determine), burial plots, funeral agreements, and real property (for a limited time period) of which the family is making a good faith efforts to dispose. The Secretary of HHS has given States authority to exclude from the resource limit farm machinery, livestock, and tools and equipment essential to employment, livelihood, or income. About half of the States exclude some or all of these items.

HOUSE BILL

The House bill permits States to exclude from the resource limit applicable to recipient families, assets whose combined value is not less than $1,000 and not more than $10,000 which have been retained for improving the education, training or employability (including self-employment) of a family member, or for the purchase or rental of a home, but excluding any resource (or interest therein) owned by a family member within the preceding 12 months if the resource was disposed of at less than fair market value for the purpose of establishing eligibility for AFDC.

Under the House bill, recipient status for this resource treatment would be deemed for families that received AFDC in at least one of the previous 4 months. In addition, recipient status for resource treatment would be deemed for 12 months for families that leave AFDC due to earnings.

The Secretary of Health and Human Services (HHS) would be required to report to the Congress on the need to revise the asset limit on automobiles and the extent to which a revision would increase the employability of AFDC recipients. The Secretary must, to the maximum extent possible, coordinate any revision of the asset limit on automobiles with other Federal means-tested programs.

Effective date.—October 1, 1992.

SENATE AMENDMENT

The Senate amendment permits States to exclude from the resource limit applicable to recipient families amounts (not to exceed $8,000) placed in a designated account approved by the State (such as an individual retirement account, escrow accounts, or savings bonds) for the purpose of enabling a member of the family to attend an eligible (as determined by the State under guidelines established by the Secretary) post-secondary education institution or training program, improving the employability (including self-employment) of a member of the family by other means (such as purchase of an automobile necessary for work), or to purchase a home.

Recipient status for this resource treatment will be deemed for families that received AFDC in at least one of the previous 4 months. In addition, recipient status for resource treatment would be deemed for 12 months for families that leave AFDC due to earnings.

Any interest or income earned on the account would not be counted as income. Amounts withdrawn from these accounts and used for a non-qualifying purpose would be counted as unearned income.

The Secretary of HHS would be required to conduct a study of the use made of the provision. The study and any recommendations of the Secretary for modifications of the provision must be submitted to the Committee on Finance and the Committee on Ways and Means by January 1, 1997.

Effective date.—October 1, 1993, with respect to accounts approved on or after such date and before October 1, 1997.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with modifications to permit inclusion in a designated account of resources intended for use by a family member: (1) to attend any education or training program (eliminating the requirement that the institution or program be determined to be an "eligible" institution or program, and that the institution or program be post-secondary); and (2) in order to change residences (in accordance with regulations issued by the Secretary). For purposes of the AFDC "lump sum" rule, any nonrecurring lump sum payment that is received by an AFDC family and placed in a designated account would be disregarded. The conference agreement also incorporates the provision in the House bill requiring the Secretary of HHS to report to the Congress concerning the AFDC asset limit on automobiles.

Effective date.—October 1, 1993, with respect to accounts approved on or after such date and before October 1, 1996.

2. Disregard of income and resources related to self-employment

PRESENT LAW

AFDC statutory provisions regarding the treatment of income and resources do not distinguish between self-employed persons and other persons. Income from self-employment must be taken into account in determining eligibility and the size of the benefit. Federal regulations for AFDC define "earned income" from self-employment as the total profit from a business enterprise, farming, etc. Under the rules, total profit is calculated by comparing gross receipts with business expenses directly related to producing goods or services and without which the goods or services could not be produced. As noted above, the Secretary of HHS allows States to exclude certain items essential to employment, livelihood or income from the resource limitation.

HOUSE BILL

The House bill requires States to exempt from the AFDC resource limitation the first $10,000 of net worth (assets reduced by liabilities) of microenterprises owned, in whole or in part, by an AFDC child or the child's caretaker relative and stipulates that only the net profit of these enterprises shall be treated as earned income of the AFDC family. It defines a microenterprise as a commercial enterprise that employs no more than five persons and is owned by one or more of its employees. Net profits of a microenterprise are defined as gross receipts minus amounts paid as principal or interest on a loan, transportation expenses, inventory costs, amounts used to buy capital equipment, cash retained by the microenterprise for future use by the business, taxes paid by reason of the business, insurance premiums for coverage of the business against loss, losses not reimbursed solely because of a deductible insurance requirement, reasonable costs of obtaining one automobile needed for the business, and "the other expenses of the business." The bill requires States in which 3 or more percent of adult AFDC recipients elect to participate in microenterprise activities to include a microenterprise program as part of the Job Opportunities and Basic Skills Training (JOBS) program; other States may include microenterprise programs in the JOBS program. It also requires States to ensure that caseworkers advise AFDC recipients of the option of microenterprise, and encourage interested recipients to participate in microenterprise programs.

The House bill amends the requirement for the Secretary to submit recommendations for JOBS performance standards by requiring that the recommendations be adjusted with respect to microenterprises. It requires the Secretary to conduct a study to identify administrative and bureaucratic barriers that impede the development of microenterprises and, not later than one year after enactment, to report the results of the study to the Committee on Ways and Means and the Committee on Finance.

Effective date.—October 1, 1992.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that it makes the provision a State option, specifies that the special rules for counting resources may not apply with respect to a family for a period longer than 2 years, and does not require a study by the Secretary of HHS.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, with an effective date of October 1, 1993.

3. Treatment of student earnings

PRESENT LAW

States are required by Federal law to disregard certain earned income when determining the amount of benefits to which a recipient family is entitled. States must disregard all of the earned income of a dependent child receiving AFDC who is a full-time student or a part-time student who is not a full-time employee and is attending a school, college, university, or vocational training course. States may disregard all or part of the earned income of a dependent child who is a full-time student and who is applying for AFDC, if the State elects to exclude the earnings of the child in determining whether the family's total monthly income is below the eligibility ceiling, 185 percent of the AFDC need standard. States also have the option of disregarding income derived from Job Training Partnership Act (JTPA) programs by a dependent child applying for or receiving ADFC (there is a 6-month limit on the disregard of earned income, and the Secretary has authority to limit the amount of earnings disregarded). Further, in determining whether the family meets the gross income test (185 percent of need), States may disregard earnings of a child who is a full-time student, but only for 6 months.

HOUSE BILL

The House bill exempts any earnings of a child who is a full-time student or a part-time student who is not a full-time employee, and the income derived by a child from a JTPA program, from the resource test and from consideration in the gross income test (185 percent of need). It also mandates that all States disregard income derived from a JTPA program by a child applying for or receiving AFDC in such amounts and for such period of time as the Secretary determines in regulations, and eliminates the 6-month limit on the disregard. It further provides that the earnings disregards apply also to teen parents under the age of 20, by specifying that in the provisions about treatment of student earnings the term "dependent child" includes "a child (whether or not married) who has not attained the age of 20 years."

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement requires the disregard from income of the earnings of any child either applying for or receiving AFDC who is a full-time student, or a part-time student not working full time, as well as the earnings of youths participating in a JTPA program. The earnings and JTPA income of all students (both full and part-time) would also be disregarded for purposes of the 185 percent income eligibility rule. The 6-month limit on the disregard of JTPA income would be repealed.

The AFDC resources rules would be amended to require the disregard of such earnings of full and part-time students and income of JTPA participants as are specified in the State plan. The State would have authority to specify both the amount of earnings to be disregarded and the conditions under which they are to be disregarded.

The above disregards would also apply to a teen parent who would be a dependent child but for the fact that the teen is not living with a caretaker relative. This would include a teen parent who meets the current law AFDC age limit for a dependent child, and who is a full or part-time student, or who is participating in a JTPA program.

In addition, the conference agreement provides that, notwithstanding any other provision of law, no reduction will be made in the amount that would otherwise be paid to a State for purposes of Federal matching, and no State shall be penalized under provisions of section 404 of the Social Security Act, by reason of the State's decision to waive, prior to April 1, 1993, the recovery of overpayments or the collection of any related penalty, arising from the accrual of savings (not in excess of $6,000) by an AFCD child. This provision only applies with respect to excess savings that the State agency learned about before the date of enactment and thereafter found that (1) the savings were the result of the earnings of the child; (2) the child was a full-time student throughout the time that the savings (together with those of all other family members) exceeded $1,000; (3) the earnings were saved for the purposes of furthering the child's education, and (4) there were no evidence of fraud or intent to conceal the savings on the part of the caretaker relative.

Effective date.—The provisions making changes in rules for student earnings are effective April 1, 1993. The provision relating to excess savings of a child that the State agency learned about prior to the date of enactment is effective upon enactment.

4. Encouraging use of transitional child care

PRESENT LAW

The Family Support Act of 1988 requires States to pay for child care for families who lose AFDC eligibility due to increased hours of, or increased income from, employment, if it is determined that care is necessary for an individual to accept or retain employment. The assistance is limited to a 1-year period after the last month in which a family becomes ineligible for AFDC. To be eligible for transitional child care (TCC), a family must have received AFDC in at least 3 of the 6 months immediately before the month in which they became ineligible for AFDC. Families must contribute to the cost of care according to a State-established sliding fee scale.

The statute requires States to inform families of their potential eligibility for TCC when they apply for AFDC and during the period that they receive AFDC. The regulations add that families must be informed of TCC eligibility at the time of redetermination and at the time they become ineligible for AFDC. Notification must be in writing, and orally as appropriate, and must include information on the steps families must take to be eligible for the program. The regulations require families to request TCC and provide relevant information to States for determining eligibility. States are granted discretion in establishing application requirements; written applications are not required. States employ a wide range of information dissemination and application procedures.

HOUSE BILL

The House bill directs the Secretary of HHS to develop an appropriate methodology for determining what proportion of eligible children are using TCC assistance and to report to Congress on his findings within 6 months after the date of enactment.

States are required to: (1) establish TCC information procedures for AFDC caseworkers; (2) develop information materials describing the program that are written in a clear and simple manner and that are recognizable as child care materials; and (3) include, in any notice of AFDC termination sent to a family, information notifying the family of its potential eligibility for TCC assistance, steps that it must take to be eligible for the program, and the family's rights and responsibilities under the program.

The House bill provides that families who lose AFDC eligibility due to loss or reduction of the child care disregard are also eligible for TCC.

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement modifies the House bill to require that the General Accounting Office (rather than the Secretary of HHS) develop methodology for determining TCC use, and to provide that States shall make a good faith effort to develop clear and simple child care information materials. The conference agreement does not include the House provision making families eligible for TCC if they lose AFDC eligibility because of loss or reduction of the child care disregard. It eliminates the requirements with respect to TCC notices to be sent upon AFDC termination (because this notice requirement is already in present law). The conference agreement also allows States to waive the requirement that a family contribute to the cost of transitional child care, if their family's income is at or below the poverty level. In addition, a State agency may provide transitional child care to a family that has not requested it if the family is eligible for such care and agrees to receive it.

Effective date.—January 1, 1993.

5. Increase in disregard of stepparent income

PRESENT LAW

Effective in July 1963, Federal law required the AFDC agency to disregard "reasonable" work expenses when counting the earned income of AFDC applicants and recipients. The 1981 Omnibus Budget Reconciliation Act (P.L. 97-35) replaced the reasonable work expense deduction with a standard work expense disregard of $75 monthly (for full-time employment). In 1981, Congress required that a portion of the income of the stepparent of an AFDC applicant or recipient, even in States that did not hold all stepparents to be financially responsible for stepchildren, must be deemed available to the stepchild; and it then extended the $75 disregard to stepparent earnings. In 1988, effective October 1, 1989, the standard work expense disregard was increased from $75 to $90 per month for AFDC applicants and recipients, but not for stepparents living with AFDC-eligible children.

HOUSE BILL

The House bill increases the earnings disregard for stepparents to $90 monthly. This amount of earnings would not be counted in determining the eligibility and benefit amounts of AFDC applicants and recipients.

Effective date.—October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

6. State option to use retrospective budgeting without monthly reporting

PRESENT LAW

Under current law, States may choose whether or not to use retrospective budgeting for AFDC (i.e., determining AFDC benefits based on the family's income and circumstances in a prior month, rather than the current month.) However, States are allowed to use retrospective budgeting only in cases where the family is required to report monthly on income, resources, family composition, and other relevant information. States may require families to report monthly but choose not to apply retrospective budgeting procedures to those families.

HOUSE BILL

Under the House bill, State would decide, with respect to categories of families, whether or not to use monthly reporting, retrospective budgeting, or a combination of the two. Thus unlike present law, States could use retrospective budgeting for a category of families that is not required to report monthly.

Effective date.—October 1, 1992.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

7. Review of State investment in considering quality control disallowances

PRESENT LAW

Under the Food Stamp Act, the Secretary of Agriculture must review State plans for new investments in improved administration in deciding whether to reduce sanctions that would otherwise be imposed based on those plans.

The AFDC quality control program does not include comparable specific authority to adjust sanctions based on State investments in improved administration.

HOUSE BILL

In determining whether to settle, adjust, compromise, or waive an AFDC quality control disallowance against a State, the House bill requires the Secretary of HHS to (1) review the State's plans for new investments in activities to improve program administration to reduce payment errors, and (2) take the State's plans into account as the Secretary considers appropriate.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the provision in the House bill.

8. Delay in AFDC-UP mandate for outlaying jurisdictions

PRESENT LAW

The Family Support Act of 1988 included a requirement that any State AFDC plan make AFDC available to needy dependent children of unemployed parents (for at least 6 out of 12 months). The amendment was effective for the States on October 1, 1990, and takes effect for Puerto Rico, Guam, the Virgin Islands and American Samoa on October 1, 1992. (American Samoa, however, does not participate in the AFDC program). Unlike States, these outlying areas are subject to limitations on payments for AFDC and related programs.

HOUSE BILL

The House bill delays the effective date from the requirement under the Family Support Act that Puerto Rico, Guam, the Virgin Islands, and American Samoa implement an AFDC-unemployed parent program to October 1, 1994.

SENATE AMENDMENT

The Senate amendment delays the requirement for implementation of the Unemployed Parent program in Puerto Rico, Guam, the Virgin Islands, and American Samoa until such time as the limitations on Federal matching payments to these jurisdictions for purposes of making AFDC maintenance payments are repealed.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

B. JOB OPPORTUNITIES AND BASIC SKILLS TRAINING PROGRAM (JOBS)

1. Temporary increase in Federal JOBS matching funds

PRESENT LAW

The Family Support Act of 1988 provided for replacement of the Work Incentive (WIN) program with a new Job Opportunities and Basic Skills Training (JOBS) program. The legislation provides Federal matching funds to the States through a capped entitlement mechanism aimed at assuring each State its share of federal entitlement dollars. The amount of the entitlement is $600 million in fiscal year 1989, $800 million in 1990, $1 billion in 1991, 1992, and 1993, $1.1 billion in 1994, $1.3 billion in 1995, and $1 billion annually thereafter.

The Federal match is 90 percent for expenditures up to the amount allotted to the States for the WIN program in fiscal year 1987 ($126 million for all States). Of additional amounts, the Federal match for non-administrative costs and personnel costs for full-time JOBS staff varies by State, but is at least 60 percent and at most 79.99 percent (the Medicaid maximum matching rate) in fiscal year 1992; for other administrative costs the match is a flat 50 percent.

In fiscal year 1991, States obligated approximately $600 million of the $1 billion entitlement. For fiscal year 1992, CBO projects that States will obligate $660 million, two-thirds of the available Federal funds. OMB estimates that States will obligate $750 million in fiscal year 1992.

HOUSE BILL

The House bill contains the following provisions with respect to JOBS funding and matching.

Carryover of funds from fiscal year 1991: The House bill makes available for obligation by the States $100 million (approximately one-fourth) of the JOBS entitlement funds left unobligated for fiscal year 1991. States would have 1 year after the date of enactment to obligate these "carryover" funds, and would have to liquidate the obligations within 2 years after the date of enactment. No State match would apply to the carryover funds. The funds would be allocated to each State based on its relative share of JOBS expenditures for fiscal year 1991. States would be required to apply these 100 pecent Federal funds to the JOBS program.

Enhanced match for fiscal year 1993: the bill subjects each State to the current law matching rates under the JOBS progam for expenditures in fiscal year 1993 up to the State's fiscal year 1991 expenditure level (the latter number calculated not to include any fiscal year 1991 funds carried over into fiscal years 1992 and 1993). JOBS expenditures in fiscal year 1993 that are in excess of the State's 1991 expenditure level would be matched at a higher Federal rate (90 percent), up to the State's JOBS cap.

Carryover of funds from fiscal years 1992 and 1993: The House bill makes available for obligation by the States (for fiscal years 1993 and 1994, respectively) 50 percent of the entitlement funds left unobligated for fiscal year 1992, and 100 percent of the funds left unobligated for fiscal year 1993. These "carryover" funds, now projected at $170 million and $250 million, respectively, would be allocated among the States based on their relative shares of JOBS expenditures for fiscal year 1991. Carryover funds would be eligible for the enhanced 90 percent matching rate in fiscal year 1993, but the Federal match for carryover funds would revert to the variable rate of current law in fiscal year 1994.

The requirement that States target at least 55 percent of their JOBS expenditures on long-term AFDC recipients is eliminated for fiscal year 1993.

SUMMARY OF JOBS FUNDING PROPOSALS

Fiscal year	Allocation basis	Amount	Federal match
1992	State share of fiscal year 1991 expenditures.	$100 million	100 percent
1993	State share of fiscal year 1991 expenditures.	50 percent of unused fiscal year 1992 funds.	90 percent
1994	State share of fiscal year 1991 expenditures.	100 percent of unused fiscal year 1993 fund.	60–83 percent (CL rate)

SENATE AMENDMENT

The Senate amendment increases the Federal matching rates on Federal funding above the WIN allocation by 15 percentage points in fiscal year 1993, 10 percentage points in 1994, and 5 percentage points in 1995. In addition, it increases the cap on funding for fiscal years 1993 and 1994 by $100 million (to $1.1 billion in 1993 and $1.2 billion in 1994). A maintenance of effort provision would require that State and local funds expended for the costs of operating a JOBS program be maintained at their prior year levels.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment modified to provide for an increase in Federal matching of 15 percentage points in 1993, 12 percentage points in 1994, and 4 percentage points in 1995.

2. State non-cash contribution under JOBS

PRESENT LAW

Federal JOBS funds are allocated among the States in two parts: (1) each State receives an amount equal to its fiscal year 1987 WIN allotment; and (2) remaining JOBS funds are allocated on the basis of each State's relative share of adult Aid to Families with Dependent Children (AFDC) recipients. For the WIN-equivalent sum of each State's JOBS allocation, the Federal matching rate is 90 percent, and the law provides that States may pay their 10 percent share "in cash or in kind, fairly evaluated." For remaining JOBS funds, the Federal matching rate varies among States. The statute does not allow a State's match for the second component of its JOBS funds to be in kind.

HOUSE BILL

The House bill increases the share of JOBS matching funds that States could provide in kind. It raises the sum that could be matched with noncash contributions, fairly evaluated, from 100 percent of the WIN-equivalent allocation to 125 percent of that allocation.

Effective date.—The House provisions applies to expenditures on or after October 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the provision in the House bill.

3. Modification of the 20-hour rule for JOBS participants.

PRESENT LAW

In order to be eligible for an enhanced Federal matching rate of at least 60 percent. State JOBS programs must achieve stated participation rates. Regulations use a 20-hour weekly standard to measure participation, but provide that States may count as participants the largest number of persons who combined and averaged weekly hours equal or exceed 20. In this calculation, persons are counted if they attend at least 75 percent of the scheduled hours of activity in a month.

HOUSE BILL

For purposes of calculating JOBS participation rates, the House bill gives States the option, either on a case-by-case basis or in a uniform manner, of (1) considering each hour of classroom instruction of an individual satisfactorily participating in educational activities as two hours of JOBS participation, or (2) counting as JOBS participants full-time students who maintain a grade point average that is not below the minimum required by their educational institution. Under the second option, to be treated as a full-time enrollee a person would have to be enrolled for the number of credit hours that the institution regards as those of a full-time student.

SENATE AMENDMENT

For purposes of calculating JOBS participation rates, the Senate amendment provides that each hour of classroom instruction of an individual who is enrolled in a degree program offered by an institution of higher education is to be considered 2 hours of participation in the JOBS program.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, modified to direct the Secretary to issue regulations specifying any other education or training programs that may also qualify to be treated in this same manner. Only those programs that require substantial outside classroom preparation would be allowed to qualify.

4. Modification of work supplementation program

PRESENT LAW

Title IV-F of the Social Security Act provides for two kinds of work programs for AFDC recipients. Under the work supplementation program, a State may reserve the sums that would otherwise be payable to participants in AFDC and use those funds to provide and subsidize jobs as an alternative to the AFDC grant. Jobs may be provided to an AFDC recipient either by the AFDC agency or by any other employer. In practice, States have generally used the work supplementation program to subsidize wages of recipients who take jobs with private employers.

Under the Community Work Experience program (CWEP), a State may require an individual to work in a public job in exchange for the welfare grant. To calculate the maximum number of required hours of work, the family's AFDC benefit is divided by the greater of the Federal minimum wage or the applicable State minimum wage.

Under both programs, recipients may not be assigned to any established unfilled position vacancy.

HOUSE BILL

No provision.

SENATE AMENDMENT

For the work supplementation program, the Senate amendment repeals the prohibition against assigning an individual to an unfilled position vacancy. Assignments to work supplementation positions would have to be in the private sector.

Effective date.—The Senate amendment applies to assignments made on or after October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

5. JOBS funding for Indian tribes

PRESENT LAW

The Family Support Act of 1988 provides Federal funding for JOBS programs administered by Indian tribes whose applications for funding have been approved by the Secretary of HHS. The formula for funding each program is based on the number of adult members of the Indian tribe that receive AFDC. This formula excludes those Indians who live on the Indian reservation but belong to another tribe.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that all Indians who live on the reservation, regardless of whether they are members of the tribe, are to be counted in determining the tribe's allocation of funds.

Effective date.—October 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Access to funds

PRESENT LAW

There is no provision in the statute directing States as to the kinds of organizations that are to have access to JOBS funds.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment provides that not later than April 1, 1993, each State is required to provide assurance that local education agencies, public or private agencies or organizations, community-based organizations, correctional education agencies, post-secondary educational institutions, and institutions that serve disadvantaged adults will be provided access to Federal funds provided under this part, in accordance with regulations issued by the Secretary.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment. The JOBS statute currently provides that in selecting service providers, the State agency shall take into account appropriate factors which may include past performance in providing similar services, demonstrated effectiveness, fiscal accountability, ability to meet performance standards, and such other factors as the State may determine to be appropriate.

C. CHILD SUPPORT ENFORCEMENT

1. Reports to credit bureaus of persons delinquent in child support payments

PRESENT LAW

The Child Support Enforcement Amendments of 1984 required State child support enforcement agencies to provide information regarding the amount of overdue support owed by an obligor residing in the State to any consumer reporting agency, as defined under the Fair Credit Reporting Act, upon the request of that agency, if the arrearage exceeds $1,000. If the amount of overdue support is less than $1,000, the State may choose whether or not to report the delinquency.

The information may not be made available to the consumer reporting agency until notice of the proposed action has been sent to the obligor, the obligor has been given a reasonable opportunity to contest the accuracy of the information and all procedural due process requirements of the State have been fulfilled. Also, a fee, not to exceed the cost of furnishing the information, may be imposed on the requesting consumer agency by the State.

HOUSE BILL

The House bill requires State child support enforcement agencies to report monthly the names of obligors whose child support payments are 2 or more months in arrears and the amounts of the arrearage to consumer reporting agencies.

Such information could not be made available to a consumer reporting agency if: (1) the State determined that the agency lacked capacity to make systematic and timely use of the information; and (2) it did not furnish evidence satisfactory to the State that it conforms to the definition of a "consumer reporting agency" under Federal law.

Effective date.—October 1, 1993.

SENATE AMENDMENT

The Senate amendment requires State child support enforcement agencies to periodically report the names of obligors who are at least 2 months delinquent in the payment of support and the amount of the delinquency to consumer reporting agencies. The present law requirement that the amount of the delinquency must exceed $1,000, and the requirement for notice and due process are retained. The provision relating to payment of a fee by the credit reporting agencies would be repealed.

Information could not be made available to a consumer reporting agency if: (1) the State determined that the agency lacked capacity to make systematic and timely use of the information; and (2) it did not furnish evidence satisfactory to the State that it conforms to the definition of a "consumer reporting agency" under Federal law.

Effective date.—The Senate amendment is effective October 1, 1993. However, if the Secretary of HHS determines that a State is unable to comply with the amendment, the State would be exempt from compliance until the State establishes an approved automated data processing and information retrieval system, or until October 1, 1995, whichever is earlier.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

2. Additional use of Parent Locator Service information

PRESENT LAW

The Department of Health and Human Services operates a Parent Locator Service to obtain and transmit information as to the whereabouts of any absent parent when such information is to be used to locate the parent for the purpose of enforcing support obligations owed by the parent.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment requires the Secretary of HHS to enter into an agreement with the Attorney General under which the services of the Parent Locator Service shall be made available to the Office of Juvenile Justice and Delinquency Prevention, upon its request, for the purpose of locating any parent or child in order to: (1) enforce any State or Federal law with respect to the unlawful taking or restraint of a child; or (2) make or enforce a child custody determination. The Parent Locator Service may charge no fee for these services.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

D. COMMUNITY WORKS PROGRESS DEMONSTRATIONS

1. Community works progress demonstration projects

PRESENT LAW

No provision.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment establishes a Community Works Progress demonstration program under Title XI of the Social Security Act. The Secretary of Health and Human Services (HHS), in consultation with the Secretary of Labor, would administer the program. The Secretary would have to award grants to three urban projects and two projects that are statewide. Demonstrations could last up to 4 years. Both public and private nonprofit organizations would be eligible to apply for grants.

The term "project" is defined to mean an activity that results in a specific, identifiable service or product that would not otherwise be done with existing funds.

Approvable projects include ones that the Secretary determines would serve a useful public purpose in fields such as health, social service, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, public safety, and child care.

For each of fiscal years 1994, 1995, 1996, and 1997, each entity that has an application for a grant approved by the Secretary would be entitled to payments in an amount equal to its expenditures to carry out the demonstration. The amounts authorized are $100 million in each of fiscal years 1994, 1995, 1996, and 1997. No more than 25 percent of funds could be used for capital costs.

In awarding grants, the Secretary is directed to consider the following factors: unemployment rate; proportion of population receiving public assistance; per capita income; degree of involvement and commitment demonstrated by public officials; the likelihood that the project will be successful; the contribution that the project is likely to make toward improving the life of residents in the community; geographic distribution; the extent to which the project will emphasize the development of projects encouraging team approaches to work on real, identifiable projects; the extent to which private and community agencies will be involved; and such other criteria as the Secretary may establish.

Eligible participants include individuals who are receiving, eligible to receive, or at risk of becoming eligible to receive, Aid to Families with Dependent Children (AFDC); individuals receiving, eligible to receive, or (while participating in a project) who have exhausted, unemployment compensation; and noncustodial parents of children who are receiving AFDC.

State agencies administering a JOBS program may assign JOBS participants to participate in a project if such participation does not conflict with the requirements of the JOBS program, and the individual is referred in accordance with JOBS procedures.

Participants who are receiving benefits under the unemployment compensation and AFDC programs would receive, in addition to those benefits, compensation in an amount equal to 10 percent of the average (as estimated by the organization conducting the project) of the amount of AFDC and unemployment compensation paid to recipients of these benefits in the area served by the project. Agencies administering AFDC or unemployment compensation benefits are allowed to transfer funds to the project to enable participants to receive compensation in the form of a single check for wages rather than in the form of separate benefit checks. Individuals not receiving either unemployment compensation or AFDC would be compensated in an amount equal to the Federal minimum wage, or the applicable State minimum wage, whichever is greater.

Individuals receiving AFDC may not be required to work on a monthly basis more than the number of hours determined by dividing the family's monthly assistance amount by the greater of the Federal or applicable State minimum wage. If an individual chooses to work any additional hours, the individual must be paid for each additional hour an amount equal to the greater of the Federal or applicable State minimum wage.

Individuals receiving unemployment compensation who choose to participate in a project must agree to work on a weekly basis the number of hours determined by dividing the amount of the weekly unemployment compensation received by the individual by the greater of the Federal or State applicable minimum wage.

The Secretary could approve an application that provided for an alternative method of compensation so long as it did not reduce the amount received by a participant below the minimum wage and assured a bonus payment to AFDC and unemployment compensation beneficiaries who participate in the project.

In order to assure that each individual will have time to seek alternative employment or to participate in an alternative employability enhancement activity, no individual could participate for more than 32 hours a week.

Individuals participating in projects would be eligible for assistance to meet necessary costs of transportation and child care, as well as necessary costs of uniforms or other work materials.

Each participant must be tested for basic reading and writing competence and must be furnished counseling and instruction if they fail a basic competency test.

Approved demonstrations would be required to ensure that the project would not result in displacement of currently employed workers and will not impair any contracts for services or any collective bargaining agreements existing at the time the project commences. Also required would be assurances of consultation with any local labor organization representing employees in the area who are engaged in the same or similar work as that proposed to be carried out by the project. Organizations conducting a community works progress project would be required to establish and maintain a procedure for the filing and adjudication of grievances from participants, labor organizations, and other interested individuals, including grievances regarding proposed placements of participants in the project. Grievances must be filed not later than 1 year after the date of the alleged occurrence of the event that is the subject of the grievance.

A hearing on any grievance must be held no later than 30 days after the filing of the grievance, and a decision must be made not later than 60 days after the grievance is filed.

In the event that the decision on a grievance is adverse to the party who filed, or 60 days after the grievance is filed if no decision has been reached, the party who filed would be able to submit the grievance to binding arbitration before a qualified arbitrator who is jointly selected and independent of the interested party.

If a grievance is filed regarding a proposed placement of a participant, such placement shall not be made unless it is consistent with the resolution of the grievance.

Remedies for a grievance filed include suspension or termination of payments for a project and prohibition of the placement with respect to which a grievance has been filed.

In approving grants, the Secretary is required to assure that there would be an evaluation of the effectiveness of each project in meeting the project's goals and objectives. Up to 3 percent of the amount granted to each entity could be used for this purpose. Interim reports to the Finance and Ways and Means Committees would be due annually, with a final report due 4 years after the first grant is awarded.

The Secretary could suspend or terminate a project if the Secretary determines that an organization conducting a project has failed to comply with the law or terms and conditions agreed to by the organization and the Secretary.

The Secretary is required to publish the grant application notice no later than January 1, 1993.

Within 60 days after enactment, the Secretary of HHS, in consultation with the Secretary of Labor and the Secretary of Housing and Urban Development, is required to establish a task force to identify any Federal funds (in addition to the funds authorized to operate the projects) that may be used in community works progress projects, and to identify any modifications to existing policies or procedures that would facilitate the implementation of the projects. The task force is to be composed of 1 representative each from the Departments of HHS, Labor and HUD. The task force is required to submit a report to the Secretaries of these departments and to the Congress with any findings and recommendations that it may have.

Effective date.—Upon enactment.

CONFERENCE AGREEMENT

The conference agreement modifies the Senate amendment. It establishes a Community Works Progress demonstration under Title XI of the Social Security Act. The Secretary of Labor, in consultation with the Secretary of Health and Human Services, would administer the program. The Secretary would have to award grants to four urban projects and two projects that are statewide. Demonstrations could last up to 3 years. States and governmental units in urban areas would be eligible to apply for grants. These entities may operate projects or allocate funds for project operations to other governmental units, or public or private nonprofit organizations.

The term "project" means an activity that results in specific identifiable services or products that otherwise would not be carried out with existing funds. A project may supplement, but not supplant, existing activities. Maintenance of fiscal effort in the JOBS program by the State would be required.

Projects included must serve a useful public purpose in fields such as health, social service, environmental protection, education, urban and rural development, welfare, recreation, public safety, and child care.

For each of fiscal years 1993, 1994, and 1995, each entity that has an application for a grant approved by the Secretary would be entitled to payments in an amount equal the lesser of actual or approved annual expenditures to carry out the demonstration. The amounts authorized are $60, $70, and $70 million in fiscal years 1993, 1994, and 1995, respectively. Funds not obligated by the Secretary in one year remain available for use in subsequent years. No more than 3 percent of these funds may be retained by the Secretary for administration.

In awarding grants, the Secretary is directed to consider the same factors listed in the Senate amendment, except the likelihood that the projects will be successful was deleted because it was too vague and geographic distribution was clarified.

Projects shall provide employment and employment-related services to noncustodial parents who are not employed and at least two months in arrears on their court-ordered child support payments, recipients or persons at risk of being recipients of the Aid to Families with Dependent Children-Unemployed Parent (AFDC-UP) program, and recipients or persons at risk of being recipients of Aid to Families with Dependent Children (AFDC). Enrollment priority goes first to volunteers from any of the three groups, then to the noncoustodial parents, then the AFDC-UP group, followed by the AFDC group. The conferees hope that most of the enrollees will be volunteers and noncustodial parents.

State agencies administering a JOBS program may assign JOBS participants to participate in a project if such participation does not conflict with the requirements of the JOBS program, and the individual is referred in accordance with JOBS procedures.

The labor standards described in section 142 and 143 of the Job Training Partnership Act apply except: (1) Participants who are eligible for Medicaid benefits would continue to receive them instead of employer-provided health benefits, where applicable. (2) Some projects may not be subject to the "prevailing wage" requirements in Sections 142(a)(3)(C) and 143(d) of the JTPA.

Nonduplication and nondisplacement requirements replicate the requirements contained in subsections (a) and (b) of section 177 of the National and Community Service Act of 1990. The Senate amendment applied these provisions by reference.

Not more than 10 percent of the grant may be used for administrative costs. Not less than 70 percent of the amount of a grant must be used to provide compensation and supportive services to participants in a project.

Depending on whether the projects can pay the "prevailing wage or only 125 percent of the minimum wage, noncustodial parents who are at least two months in arrears in their child support payments are eligible to be paid no less than either (1) the prevailing wage, or (2) the higher of 125 percent of the applicable Federal or State minimum wage, for each hour the participant works in the project and the participant receives education, job training, and job search services, not to exceed 8 hours. In no case, however, would the rate of pay be less than 125 percent of the Federal or applicable State minimum wage.

Depending on the type of projects in which they are enrolled, AFDC recipients may not be required to work on a monthly basis more than the number of hours determined by dividing the family's monthly assistance amount by (1) the prevailing wage, or (2) the greater of 125 percent of the Federal or applicable State minimum wage. In no case, however, would the rate of pay be less than 125 percent of the applicable minimum wage. If an individual chooses to work any additional hours, the individual must be paid for each additional hour an amount equal to either (1) the prevailing wage, or (2) the greater of 125 percent of the Federal or applicable State minimum wage.

AFDC recipients who work off their benefits will receive a bonus equal to 25 percent of the average amount of monthly AFDC benefits in their State.

The Secretary may approve an application that provides for an alternative method of compensation so long as it does not reduce the amount received by a participant below the amount payable under the basic compensation method described above.

All wages would be exempt from countable income for all Federally-assisted means-tested programs, including the Higher Education Act of 1965.

As in the Senate amendment, in order to assure that each individual will have time to seek alternative employment or to participate in an alternative employability enhancement activity, no individual may participate in work on a project for more than 32 hours per week.

Individuals participating in projects shall receive assistance to meet costs of transportation and child care, as well as necessary costs of uniforms or other work materials.

Each participant must be tested for basic reading and writing competence and must be furnished counseling and instruction if the participant fails a basic competency test. However, individuals who have been tested by an employment, education, or training program for basic reading and writing competence within one year of enrollment in a project, shall not be required to be tested.

As under the Senate amendment, the Secretary may suspend or terminate payments for a project if the Secretary determines that an organization has materially failed to comply with the requirements of this demonstration project.

As under the Senate amendment, organizations conducting a community works progress project would be required to establish and maintain a procedure for the filing and adjudication of grievances from participants, labor organizations, and other interested individuals, including grievances regarding proposed placements of participants in the project. Grievances must be filed not later than 1 year after the date of the alleged occurrence of the event that is the subject of the grievance.

Remedies for a grievance filed include: (1) prohibition of the placement; (2) reinstatement of the participant to the position; (3) payment of lost wages and benefits; (4) reestablishment of other relevant terms, conditions, and privileges of employment; and (5) equitable relief as is necessary to correct any violation or to make the participant whole.

An application for a grant to conduct a project must include: (1) a description of the type of project to be carried out; (2) a description of the objectives and performance goals of the project; (3) an agreement between the organization and the child support enforcement agency to seek court-ordered enrollment of a noncustodial parent who is not employed and is two months in arrears on his child support payments; (4) a description of a plan for managing and funding the project; (5) in the projects not required to pay the prevailing wage when that wage is applicable, written concurrence from any local labor organization representing employees in the area who are engaged in work of the same or similar character or nature as that proposed to be carried out by the project; (6) a description of formal job training and job search arrangements; (7) an assurance that the project will be coordinated with other Federally assisted education, training, and social service programs; (8) an assurance that the organization will participate in cooperative efforts among community-based agencies, local educational agencies, and local government agencies, businesses, and State agencies, to develop and provide supportive services; (9) a description of fiscal control, accounting, audit, and debt collection procedures to assure the proper disbursal of funds; and (10) a projection of the amount the organization intends to spend in each fiscal year.

The Secretary is required to publish the grant application notice no later than January 1, 1993.

The Secretary shall carry out up to four project evaluations costing no more than $6 million. It shall be based on an experimental design with random assignment between a treatment group and a control group. The Secretary shall use the data to analyze the benefits and costs of the project with particular attention to estimates of the value of the goods and services produced and differences between the payment of "prevailing wages" and 125 percent of the applicable minimum wage. A final report is due one year after the final project is completed.

As in the Senate amendment, within 60 days after enactment, the Secretary of Labor, in consultation with the Secretary of Health and Human Services and the Secretary of Housing and Urban Development, is required to establish a task force to identify any Federal funds (in addition to funds authorized to operate the projects) that may be used in community works progress projects, and to identify any modifications to existing policies or procedures that would facilitate the implementation of the projects. The task force is to be composed of one representative each from the Departments of HHS, Labor, and HUD. The task force is required to submit a report to the Secretaries of these departments and to the Congress with any findings and recommendations that it may have.

E. RESEARCH AND DEMONSTRATION PROVISIONS

1. Measurement and reporting of welfare dependency

PRESENT LAW

National and State information on AFDC receipt and the characteristics and financial circumstances of AFDC recipients is compiled annually by the Department of Health and Human Services (DHHS), using data from the National Integrated Quality Control Review System (NIQCS).

HOUSE BILL

The House bill requires the Secretary of HHS and the Secretary of Agriculture jointly to develop indicators and rates related to the level of welfare dependency in the United States, and predictors that are correlated with welfare dependency. The Secretary is also required to assess the data needed to report annually on these indicators, rates, and predictors, including the ability of existing data collection efforts to provide the data, and any additional data collection needs.

Not later than 2 years after the date of enactment, the Secretaries of HHS and Agriculture are required to submit an interim report with conclusions resulting from the development and assessment described above to designated Committees of Congress (House: Ways and Means, Education and Labor, Agriculture, and Energy and Commerce; Senate: Finance, Labor and Human Resources, and Agriculture, Nutrition, and Forestry).

A temporary Advisory Board on Welfare Dependency is created, composed of 12 members with equal numbers appointed by the House of Representatives, the Senate, and the President. The Board would be composed of experts in the fields of welfare research and statistical methodology, representatives of State and local welfare agencies, and organizations concerned with welfare issues. The Board will provide advice and recommendations to the Secretary on the development of indicators, rates, and predictors of welfare dependence, and the identification of data collection needs and existing data collection efforts. It will also provide advice on the development and presentation of the annual welfare dependency report.

The Secretary is required to prepare an annual report on welfare dependency that attempts to identify indicators, rates, and predictors of welfare dependency and trends in dependency, and provide information and analysis on the causes of dependency. Annual reports are required to include numerical goals for recipients and expenditures for Aid to Families with Dependent Children (AFDC), food stamps, and Supplemental Security Income (SSI). Annual reports would be submitted to the seven committees named above. The first report is due not later than 3 years after the date of enactment.

SENATE AMENDMENT

The Senate amendment differs from the House bill by making the Secretary of Health and Human Services (in consultation with the Secretary of Agriculture) responsible for development of welfare indicators, rates, and predictors, and for submitting an interim report and annual welfare dependency reports. In addition, under the Senate amendment the Advisory Board terminates as soon as it completes specific duties, but in any case prior to the submission of the first annual report by the Secretary of HHS.

CONFERENCE AGREEMENT

The Conference agreement follows the Senate amendment.

This amendment to the Social Security Act establishes an annual report on welfare dependency in the United States. It declares that "it is the policy of the United States to strengthen families, to ensure that children grow up in families that are economically self-sufficient and to underscore the responsibility of parents to support their children." To this end "the Federal government should help welfare recipients as well as individuals at risk of welfare dependency to improve their education and job skills, to obtain access to necessary support services, and to take such other steps as may assist them to meet their responsibilities to become financially independent." The annual report is designed "to aid in lowering welfare dependency by providing the public with generally accepted measures of welfare dependency so that it can track dependency over time and determine whether progress is being made in reducing welfare dependency and enabling families to be self-sufficient." This section incorporates an Act introduced earlier based on the precedent of the Employment Act of 1946, which declared a national policy in that regard, and marked the acceptance of a previously disputed social responsibility.

2. Extension of demonstration to expand job opportunities

PRESENT LAW

The Family Support Act of 1988 established a demonstration project under which not fewer than 5 nor more than 10 nonprofit organizations were authorized to conduct demonstration projects to create employment opportunities for certain low-income individuals. The amount authorized for these grants is $6.5 million for each of fiscal years 1990, 1991, and 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment continues the demonstration project for 2 additional years. Before January 1, 1994, the Secretary is required to issue a final report to the Congress, including an evaluation of the projects and any recommendation the Secretary determines to be appropriate.

CONFERENCE AGREEMENT

The conference amendment follows the Senate amendment.

3. Extension of authorization for early childhood development projects

PRESENT LAW

The Family Support Act of 1988 authorized up to 10 demonstration projects to test and evaluate the effect of early childhood development programs on families receiving AFDC and participating in Job Opportunity and Basic Skills Training (JOBS), and authorized $6 million for each of fiscal years 1990, 1991, and 1992 for these and two other categories of projects. No funds were appropriated for the early childhood development projects for fiscal years 1990 through 1992.

HOUSE BILL

The House bill extends the authorization for early childhood development projects through fiscal year 1997. It authorizes to be appropriated for these projects up to $3 million for each of fiscal years 1993 through 1997.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

4. Extension of demonstration to evaluate model procedures for reviewing child support awards

PRESENT LAW

The Family Support Act of 1988 required the Secretary of HHS to make agreements with each of four States that submitted applications to conduct demonstration projects to test and evaluate model procedures for reviewing child support award amounts. The demonstration projects were scheduled to run for a period of 2 years beginning September 30, 1989. The Secretary must pay a participating State an amount equal to 90 percent of the reasonable costs incurred by the State in conducting a demonstration project.

HOUSE BILL

The House bill extends the demonstration period for 1 year, to October 1, 1992.

Effective date: Upon enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House provision.

5. Extension of National Commission on Children

PRESENT LAW

The National Commission on Children was established in 1987 as a bipartisan commission to develop recommendations for public and private sector policies to improve opportunities for children and youths to become healthy, secure, educated, economically self-sufficient, and productive adults. Its final report, "Beyond Rhetoric: A New American Agenda for Children and Families," was issued on June 24, 1991. The Commission is still in the process of developing information to inform the public about the status of children and on proposals to address their needs through public and private sector programs.

HOUSE BILL

The House bill extends the terms of service of the members of the National Commission on Children to December 31, 1992.

SENATE AMENDMENT

The Senate amendment extends the terms of service of members of the National Commission on Children to December 31, 1992 and provides additional time, until March 31, 1993, for the Commission staff to close down the Commission's operations.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

6. Extension of Commission on Interstate Child Support

PRESENT LAW

The Commission on Interstate Child Support was authorized by the Family Support Act of 1988. Since 1990, members of the Commission have been developing recommendations to improve the enforcement of child support in cases where the custodial parent and the noncustodial parent reside in different States. The Commission issued its final report on August 1, 1992.

On July 3, 1992, the Unemployment Compensation Amendments of 1992 (P.L. 102-318) extended the due date for the Commission's report to August 1, 1992 and the life of the Commission to September 30, 1992.

HOUSE BILL

The House bill extends the authorization of the U.S. Commission on Interstate Child Support from July 1, 1992 to September 30, 1992 and extends the Commission's deadline for filing its report with Congress from May 1, 1992 to August 1, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the House provision. This provision has already been enacted as part of P.L. 102-318.

7. Secretarial report on differences in program rules

PRESENT LAW

The AFDC, Medicaid, and Food Stamp programs serve many of the same persons, yet the eligibility policies and required procedures used by each program vary.

HOUSE BILL

The House bill requires that the Secretary of HHS and the Secretary of Agriculture jointly report to the President and Congress about differences in rules of the AFDC, Food Stamp, and Medicaid programs by no later than 6 months after the date of enactment of the legislation. The report is to include: what rules govern the programs, how these rules differ, which rules require statutory action to achieve uniformity, and which rules could be made more uniform without statutory amendment.

The program rules to be evaluated in the Secretaries' report include rules related to administrative procedures, definitions of countable income, definitions of income disregards and exemptions, quality control sanctions and incentives, incentives to combat fraud, work and training requirements and programs, and the child support enforcement program. The Advisory Committee on Welfare Simplification and Coordination is directed by the House bill to take account of the Secretaries' joint report on differences in program rules. Income eligibility levels would be excluded from the report.

SENATE AMENDMENT

The Senate amendment is the same as the House provision, except that it does not include reference to the child support enforcement program, and does not contain requirements that the Advisory Committee on Welfare Simplification and Coordination take account of the Secretarial report. It also includes a requirement (not in House bill) for evaluation of policies on strikers.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

8. Payments to certain private aid programs

PRESENT LAW

No provision.

HOUSE BILL

The House bill requires reimbursement of a qualified private demonstration program (defined as a program operated and evaluated in the same manner as The New Hope Project, Inc., a private, not-for-profit corporation in Milwaukee, Wisconsin) with some of the aggregate savings in AFDC and Medicaid payments that are estimated by the Secretary of HHS to result from operation of the program. The payment per participant would be the lesser of $20 per day or 95 percent of estimated daily average aggregate savings. In order for a program to qualify, it has to provide low-income residents with employment, wage supplements, child care, health care, and counseling and training for job retention or advancement. It also is required to submit an annual report to the Secretary of HHS.

Effective date: The House provision is effective on the first day of the first calendar quarter that begins after the date of the enactment.

SENATE AMENDMENT

The Senate amendment allows the Secretary to provide for a demonstration project for a qualified program to be conducted in Milwaukee, Wisconsin. A qualified program is defined as a program operated by the New Hope Project, Inc., a private not-for-profit corporation in Milwaukee, which offers low-income residents employment, wage supplements, child care, heath care, and counseling and training for job retention or advancement.

The Secretary is required to make payments for no more than 20 quarters, in an amount no greater than the aggregate amount that would otherwise have been payable to the State with respect to participants in the program, in the absence of the program, for cash assistance and child care under title IV-A and Medicaid, and for administrative expenses for these programs.

The operator of the program must provide in the application that the following conditions will be met: (1) the operator will implement an evaluation plan designed to provide reliable information on the impact and implementation of the program, that will include adequately sized groups of participants and control groups assigned at random; (2) the operator will develop and implement a plan addressing the services and assistance to be provided by the program, the timing and determination of payments from the Secretary to the operator of the program, and the roles and responsibilities of the Secretary and the operator with respect to meeting specified requirements; (3) the operator will specify a methodology for determining expenditures to be paid to the operator by the Secretary, with assistance from the Secretary in calculating the amount; and (4) the operator will issue an interim and final report on the results of the evaluation of the program at such times as required by the Secretary.

Effective date.—The Senate amendment is effective on the first day of the first calendar quarter that begins after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, modified to make clear that reimbursement to the program shall be *equal* to the aggregate amount that would otherwise be payable to the State in the absence of the program, and to provide that expenses of the program relating to evaluation will qualify for 50 percent Federal matching.

F. SUPPLEMENTAL SECURITY INCOME (SSI)

1. Effect on SSI benefits when spouse or parent is absent due to military service

PRESENT LAW

If the parent or spouse of family members who receive Supplemental Security Income (SSI) payments resides in the household and then is required to be absent from the household because of an active military duty assignment, this absence can cause the family members to lose benefits or eligibility for SSI. This is because absence from the household causes more of the income of the absent member to be attributed to those receiving SSI in the household. Also, if the military duty assignment involves armed conflict, the service member may receive hazardous duty pay. This additional income, if sent back to the household, can also reduce the SSI payments or cause ineligibility of family members.

HOUSE BILL

The House bill (1) requires that a spouse or parent who is absent from an SSI household solely because of a military assignment is deemed to be still living in the household, and (2) excludes certain hazardous duty pay from countable income under the SSI program.

Effective date.—The House provision is effective on the first of the second month that begins after the date of enactment.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. SSI eligibility for children of armed forces personnel in Puerto Rico and U.S. territories

PRESENT LAW

SSI benefits are generally continued for children who are U.S. citizens and who accompany their parents on U.S. military assignments to foreign countries. Benefits do not continue if the parents are stationed in Puerto Rico or in the territories or possessions of the United States.

HOUSE BILL

No provision.

SENATE AMENDMENT

The Senate amendment continues SSI benefits to children who are U.S. citizens if they received SSI benefits in the United States and then accompany their parents on U.S. military assignment to Puerto Rico or territories or possessions of the United States.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, effective upon enactment.

3. Definition of disability for children under age 18 applied to all individuals under age 18

PRESENT LAW

The SSI law provides a definition of disability applicable to children. The SSI program defines a child as someone who is under age 18, except for individuals under age 18 who are married or are heads of household.

HOUSE BILL

The House bill extends the SSI childhood definition of disability to any person under age 18.

Effective date.—October 1, 1992.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment, effective with respect to disability determinations made on or after enactment.

4. Valuation of in-kind support and maintenance when there is a COLA

PRESENT LAW

A person who lives in the household of another person and receives in-kind support and maintenance from the householder must have his or her Federal SSI benefit reduced by one-third of the Federal benefit. Regulations provide for a "presumed maximum value" for measuring in-kind support and maintenance for a person who lives in his or her own household and receives in-kind support and maintenance, or lives in another person's household and receives food or shelter, but not both. This "presumed maximum value" is one-third of the Federal SSI benefit plus $20 per month (the amount of the unearned income exclusion from countable income).

Under the 2-month retrospective accounting principle that generally governs SSI benefit calculations, SSI benefits are determined after looking at the income in the second preceding month. In this system, an individual's countable income in the second month before the current month is used to determine the SSI benefit for the current month.

As a result of this use of retrospective accounting, the presumed value of in-kind support is not increased at the time an annual cost-of-living adjustment (COLA) to SSI benefits takes effect. Each time SSI benefits are increased by a COLA, SSI benefits for January and February are calculated using the increased value, but the reduction in benefits for receipts of support and maintenance in-kind is made on the lower pre-COLA November and December Federal SSI benefit. A 2-month lag occurs between the receipt of the COLA and the adjustment for increased value of in-kind support. A beneficiary will receive a COLA in January and then in March, when the post-COLA Federal SSI benefit is used for valuing the reduction for in-kind support and maintenance, SSI benefits will drop.

HOUSE BILL

The House bill requires that the current month's Federal benefit amount be used in determining the value of in-kind support and maintenance in calculating the current month's Federal benefit to be paid. This would eliminate the unintended benefit increase for January and February following a COLA and the offsetting reduction for March.

Effective date.—The House provision is effective January 1, 1994 (i.e., it applies to benefits paid after calendar year 1993).

SENATE AMENDMENT

The Senate amendment is the same as the House Bill except for effective date.

Effective date.—The Senate amendment is effective January 1, 1993 (i.e., it applies to benefits paid after calendar year 1992).

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

The conferees are aware that, in the past, some States have cut their State SSI supplements at the same time that the Federal SSI COLA took effect in January. This has created confusion among SSI recipients, who thought their total SSI benefits would increase by the amount of the Federal COLA only to discover that their benefits did not increase by as much, or did not increase at all.

If this should happen in the future, the conferees want the Commissioner of Social Security to explain to affected beneficiaries that their SSI benefits are smaller than expected because of a State decision, not a Federal government decision. The conferees instruct the Commissioner to provide affected recipients with such a written explanation whenever SSI benefits in a State will not increase by the full percentage increase in the Federal COLA because the State has cut its Federally administered State supplement by an amount that offsets part or all of the Federal COLA.

5. Treatment of revocable burial insurance policies

PRESENT LAW

In determining program eligibility, the SSI program does not count as a resource the value of a burial space purchased and "held for" the purpose of providing a place of burial for an SSI recipient or his or her immediate family. Burial spaces that are owned outright, or are purchased with irrevocable life insurance policies or through irrevocable trusts are therefore excluded from resources. However, some States prohibit or place limits on the value of irrevocable life insurance policies that provide for the purchase of burial spaces and other burial items. The SSA General Counsel has ruled that the law does not permit exclusion from SSI resources of the value of a revocable life insurance policy for purchase of a burial space, on the grounds that the space is not "held for" an individual because the policy can be changed or canceled.

HOUSE BILL

The House bill requires that revocable burial insurance policies be treated in the same manner as irrevocable burial insurance policies for the purpose of determining SSI resources and eligibility.

Effective date.—The House provision would apply to calendar months beginning after the date of enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the provision in the House bill.

G. OTHER INCOME SECURITY PROVISIONS

1. Effect of failure to carry out State plan (Suter v. Artist M.)

PRESENT LAW

Many of the principal Federal social welfare programs are established under the "State plan" titles of the Social Security Act of 1935, as amended. These programs include Aid to Families with Dependent Children (AFDC) (Title IV–A), Child Welfare Services (Title IV–B), Child Support and Establishment of Paternity (Title IV–D), Foster Care and Adoption Assistance (Title IV–E), and Medicaid (Title XIX). Under these titles, as a precondition of funding, each participating State is required to develop a written "State plan" that meets certain statutory requirements in order to be approved by the Secretary of the Department of Health and Human Services (HHS).

The Adoption Assistance and Child Welfare Act of 1980 amended the Social Security Act to require States to provide in their title IV–E plans that, in the case of each child, reasonable efforts will be made (a) prior to the placement of the child in foster care, to prevent or eliminate the need for removal of the child from his home, and (b) to make it possible for the child to return to his home (Sec. 471(a)(15)).

On March 15, 1992, the U.S. Supreme Court held in *Suter* v. *Artist M.*, that the "reasonable efforts" clause does not confer a federally-enforceable right on its beneficiaries, nor does it create an implied cause of action on their behalf. In rendering its opinion, the Court also stated that although section 471(a) does place a requirement on the States, that requirement "only goes so far as to ensure that the States have a plan approved by the Secretary which contains the 16 listed features."

HOUSE BILL

The House bill amends Title XI of the Social Security Act to provide that "each individual shall have the right not to be denied any service or benefit under this Act as a result of the failure of any State to which Federal funds are paid under a title of this Act that includes plan requirements to have a plan that meets such requirements, or to administer such a plan in accordance with such requirements."

The House committee report states that the provision does the following: "(1) responds to the recent Supreme Court decision in *Suter* v. *Artist M.*, which dramatically limited the ability of program beneficiaries to enforce the State plan titles of the Social Security Act; (2) preserves private rights of action as they existed before the *Suter* v. *Artist M.* Supreme Court decision; and (3) reaffirms that the State plan titles of the Social

Security Act impose binding obligations on participating States to comply with the requirements of the Act."

The committee report further states: "The purpose of this provision is to assure that individuals who have been injured by a state's failure to comply with the state plan requirements are able to seek redress in the federal courts to the extent they were able to prior to the decision in *Suter* v. *Artist M.* The provision does not alter the rules of statutory construction that the courts used prior to *Suter* v. *Artist M.*. The provision does not alter the finding in *Suter* v. *Artist M.*, that the 'reasonable efforts' provision, without further direction, is too vague to be enforceable in such an action. It only alters that portion of *Suter* v. *Artist M* suggesting that failure of a state to comply with a state plan provision is not litigable as a violation of federal statutory rights."

Effective date:

This House provision applies to actions pending on the date of enactment and to actions brought on or after that date.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement amends title XI of the Social Security Act by adding a new section that reads as follows:

"In an action brought to enforce a provision of the Social Security Act, such provision is not to be deemed unenforceable because of its inclusion in a section of the Act requiring a State plan or specifying the required contents of a State plan. This section is not intended to limit or expand the grounds for determining the availability of private actions to enforce State plan requirements other than by overturning any such grounds applied in *Suter* v. *Artist M.*, 112 S. Ct. 1360 (1992), but not applied in prior Supreme Court decisions respecting such enforceability; provided, however, that this section is not intended to alter the holding in *Suter* v. *Artist M.* that section 471(a)(15) of the Act is not enforceable in a private right of action."

While adopting a different formulation, the conference agreement follows the intent of the House bill provision, which is to assure that individuals who have been injured by a State's failure to comply with the Federal mandates of the State plan titles of the Social Security Act are able to seek redress in the federal courts to the extent they were able to prior to the decision in *Suter* v. *Artist M.*, while also making clear that there is no intent to overturn or reject the determination in *Suter* that the reasonable efforts clause of title IV-E does not provide a basis for a private right of action.

The conferees do not believe that *Suter* v. *Artist M.* would be applied to the unemployment compensation program.

2. Declaration of citizen and alien status

PRESENT LAW

Section 1137(d) of the Social Security Act specifies that States must require, as a condition of eligibility for the AFDC, Medicaid, unemployment compensation, and food stamp programs, a declaration in writing by each adult individual (or, in the case of a child, by another individual on the child's behalf), stating whether the individual is a citizen or national on the U.S., and if not, that the individual is in a satisfactory immigration status. Under AFDC policy, a newborn child may not be eligible until a declaration has been signed.

Legislation enacted in 1990 overrode the provision of sec. 1137 with respect to the food stamp program. Under that legislation, one adult member of the food stamp household is required to sign, under penalty of perjury, a written declaration as to the citizenship or satisfactory immigration status of all household members, and by regulation, a declaration for newborn children is allowed no later than the next redetermination of eligibility.

HOUSE BILL

With respect to the AFDC program, the House bill allows one adult member of an AFDC family to sign, under penalty of perjury, a declaration as to the citizenship or satisfactory immigration status of all family members.

Effective date.—October 1, 1992.

SENATE AMENDMENT

With respect to all programs included in the section 1137(d) requirement, the Senate amendment allows one adult member of a family or household to sign a declaration, under penalty of perjury, on behalf of other adults in the household. In addition, in the case of a newborn child, it permits an adult to sign a declaration on behalf of the child no later than the date of the next redetermination of the eligibility of the family or household.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

3. Exclusion of certain income received by Indians from interests held in trust

PRESENT LAW

Income received by Indians from tribally-owned trust lands is exempt from consideration under Federal welfare programs, such as AFDC and Supplemental Security Income (SSI). This income is distributed on a per capita basis to tribal members, but the land is owned by the tribe as a whole and managed for the tribe's benefit by the Bureau of Indian Affairs.

Individually-owned trust or restricted Indian lands are excluded from resources in applying the resource test under AFDC and SSI. However, income derived from leases on individually-owned trust or restricted Indian lands and paid to an individual is included in countable income when determining eligibility and benefit amounts for these cash welfare programs.

HOUSE BILL

The House bill exempts income up to $2,000 per year paid to an individual derived from leases on individually-owned trust or restricted Indian lands in determining eligibility and benefit levels under the AFDC and SSI programs.

Effective date.—Upon enactment.

SENATE AMENDMENT

The Senate amendment is similar to House bill, but provides for an annual exempt amount of $4,000 for purposes of all Social Security Act programs, or any other Federal or federally assisted program.

Effective date.—October 1, 1992.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that the effective date is changed to January 1, 1993.

4. Disclosure of information to Railroad Retirement Board

PRESENT LAW

The Railroad Retirement Board (RRB) has access to returns and return information regarding taxes imposed under the Railroad Retirement Tax Act for purposes of the administration of the Railroad Retirement Act (RRA), but it is not authorized to receive returns and return information filed under the Railroad Unemployment Repayment Tax provisions. (The Railroad Unemployment Repayment Tax was imposed to repay loans from the Railroad Retirement Account obtained by the Railroad Unemployment Insurance Account.) In addition, there is no specific authority to disclose RRA information for purposes of the administration of the Railroad Unemployment Insurance Act (RUIA).

HOUSE BILL

The House bill amends the Internal Revenue Code to enable the RRB to obtain Railroad Unemployment Repayment Tax information.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

5. Self-employment program

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1987 required the Secretary of Labor to conduct self-employment demonstration projects for a period of three years in up to 3 States. States were required to pay any costs that exceeded the cost of unemployment insurance benefits which would have been paid in the absence of the experiments. The State of Washington and Massachusetts have been operating demonstrations.

HOUSE BILL

No provision.

SENATE AMENDMENT

Under the Senate amendment, the Secretary of Labor may authorize no more than 10 States to establish and operate self-employment programs if the Secretary determines that:

(1) the State program does not result in any cost to the Unemployment Trust Fund in excess of the cost that would be incurred if the State had not participated in a self-employment program;

(2) the State program provides unemployment benefits only to individuals who are entitled to compensation under State law (without regard to any disqualification resulting from self-employment and without regard to any State law relating to availability for work, active search for work, or refusal to accept work);

(3) the State program contains a process to target individuals who have been permanently separated from their jobs or do not expect to be recalled to their jobs;

(4) benefits are available only to individuals who are likely to receive compensation for the maximum number of weeks that such compensation is available under the State law during a benefit year;

(5) the aggregate amount of benefits payable to an individual with respect to any benefit year is limited to not more than 80 percent of the maximum amount of regular unemployment compensation payable to the individual for the benefit year; and

(6) the aggregate number of individuals receiving benefits under the State program does not at any time exceed 5 percent of the number of individuals receiving compensation under the State law at such time.

If the Secretary authorizes a self-employment program, the State may use the State unemployment fund to provide cash benefits, exclusive of the expenses of administration, to individuals participating in the program. The benefits must be used to assist participating individuals in becoming self-employed.

States must report annually to the Secretary on the number of individuals who participate in the program, the number of individuals who are able to develop and sustain businesses, the operating costs of the program, compliance with program requirements, and any other relevant aspects of program operations requested by the Secretary.

Not later than December 31, 1995, the Secretary must report to the Committee on Finance and the Committee on Ways and Means with respect to the operation of the State programs. The report shall contain the Secretary's recommendations regarding establishment of a permanent self-employment program as part of the regular unemployment compensation programs.

Effective date.—The Senate amendment is effective upon enactment. It expires September 30, 1996.

CONFERENCE AGREEMENT

This conference agreement does not include the Senate amendment.

AMENDMENTS RELATING TO OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS (OASDI) (Subtitle A of Title IX)

1. Misuse of symbols, emblems or names related to the Social Security Administration, Health Care Financing Administration and other programs and organizations

PRESENT LAW

In 1988, Congress enacted a provision prohibiting the use of words, letters, symbols and emblems of the Social Security Administration (SSA) and the Health Care Financing Administration (HCFA) in a manner that the user knows or should know would convey the false impression that such an item was approved, endorsed, or authorized by the Social Security Administration, the Health Care Financing Administration or the Department of Health and Human Services, or that the user has some connection with, or authorization from, these agencies.

The law permits the Secretary of Health and Human Services (HHS) to impose civil monetary penalties not to exceed $5,000 per violation or, in the case of a broadcast or telecast, $25,000 per violation. The total amount of penalties which may be imposed is limited to $100,000 per year.

Amounts collected by the Secretary are deposited as miscellaneous receipts of the Treasury of the United States.

HOUSE BILL

The House bill changes the prohibition against unauthorized use of words, symbols and emblems in the following ways:

(a) eliminates the annual cap on penalties;

(b) includes the use of names, letters, symbols or emblems of the Department of Health and Human Services as protected items;

(c) defines a "violation," with regard to mailings, as each individual piece of mail in a mass mailing;

(d) adds a further prohibition against the use of the names or symbols in a manner that "reasonably could be interpreted or construed as conveying" a relationship to SSA, HCFA, or HHS;

(e) repeals the present law requirement that the Department of Health and Human Services obtain a formal declination from the Department of Justice before pursuing a civil monetary penalty case under this provision;

(f) provides that penalties collected by the Secretary for violations of this provision will be deposited in the Social Security Old-Age and Survivors Insurance Trust Fund;

(g) stipulates that no person may reproduce, reprint, or distribute for a fee any form, application, or other publication of the Social Security Administration unless such person has obtained specific written authorization for such activity in accordance with regulations prescribed by the Secretary;

(h) provides that any determination of whether there is a violation of this provision shall be made without regard to a disclaimer; and

(i) requires the Secretary of HHS to report annually to the Congress detailing the number of complaints of deceptive practices received by SSA, the number of cases in which SSA sent a notice of violation of this section to an individual requesting that the individual cease misleading activities, the number of cases referred by SSA to the HHS Inspector General (IG), the number of investigations undertaken by the HHS IG, the number of civil monetary penalties formally assessed by the HHS IG in a demand letter, the total amount of civil monetary penalties assessed during the year, the total amount of civil monetary penalties deposited in the OASI trust fund during the year, and the number of hearings requested pursuant to this provision and their disposition.

Effective date. The changes approved by the House apply with respect to violations occurring after the date of enactment.

SENATE AMENDMENT

The Senate amendment is similar to the House bill. It does not make the following changes included in the House bill:

(a) the prohibition against the use of the names, symbols, or emblems of the Department of Health and Human Services;

(b) the provision that penalties collected by the Secretary for violations of this provision would be deposited in the Old-Age and Survivors Insurance Trust Fund;

(c) the stipulation that no person may reproduce, reprint, or distribute for a fee any form, application, or other publication of the Social Security Administration unless it has obtained specific written authorization for such activity;

(d) the provision that a determination of whether an item is in violation of this provision shall be made without regard to the inclusion in the item of a disclaimer of affiliation with the U.S. Government or an agency thereof.

The Senate amendment also extends the applicability of the provision to the names, letters, and symbols of the Supplemental Security Income and Medicaid programs.

Effective date: The Senate amendment applies with respect to violations occurring after the date of enactment.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that, as in the Senate amendment, the protections are extended to the names, letters, and symbols of the Supplemental Security Income and Medicaid programs. In addition, penalties deposited in the Old-Age and Survivors Insurance Trust Fund would be limited to penalties for misuse of the names, letters, and symbols of the Social Security Administration (SSA). It is the intention of the conference managers that the restriction on reproducing forms for a fee will not apply to individuals (e.g., certified public accountants) who may use these forms in the course of providing routine services to their clients.

2. Clarification of statutory requirement for public telephone access to local Social Security offices

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1990 (P.L. 101-508) requires the Social Security Administration (SSA) to: (a) maintain telephone access to local social security offices at the level generally available as of September 30, 1989, and (b) relist in local telephone directories the numbers of local offices that had been removed from the directories. P.L. 101-508 also required the General Accounting Office (GAO) to report to the Congress on the level of public telephone access to local offices following enactment of these requirements.

In September 1991, the GAO reported that SSA has generally complied with the requirement that it relist local office telephone numbers. It also reported that general inquiry lines to the offices targeted by P.L. 101-508 had decreased by 30 percent, or 766 lines, below the level that existed on September 30, 1989.

HOUSE BILL

The House bill adds the following sentence to the current statutory requirement that SSA maintain telephone access at the level generally available on September 30, 1989:

"In carrying out the requirements of the preceding sentence, the Secretary shall reestablish and maintain in service the same number of telephone lines to each such local office which were in place as of such date, including telephone sets for connections to such lines."

The House bill also requires that SSA maintain its toll-free service provided by the national 800 number at a level at least equal to that in effect on June 18, 1992.

Effective date.—The provision relating to local telephone access is effective as if included in section 5110(a) of P.L. 101-508. The provision relating to toll-free service is effective upon enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill, except that the benchmark date for maintenance of toll-free service will be the date of enactment rather than June 18, 1992. The conference agreement requires that the Social Security Administration reinstall the required number of telephone lines by no later than March 1, 1993. It is the intention of the conference managers that the General Accounting Office (GAO) make an independent determination of the number of telephone lines to each SSA local office as of March 1, 1993, and report its findings to the Committee on Ways and Means and the Committee on Finance no later than May 1, 1993.

3. Social Security exclusion for election workers

PRESENT LAW

Election workers who earn less than $100 per year are subject to three exclusions from coverage under social security: (a) at the option of a State, they may be excluded from the State's voluntary social security coverage agreement with the Secretary of HHS; (b) they are excluded from the requirement that State and local workers hired after March 31, 1986, pay the hospital insurance portion of the social security tax; and (c) they are excluded from the requirement in the Omnibus Budget Reconciliation Act of 1990 (P.L. 101-508) that State and local workers who are covered neither by a State or local retirement system nor by a voluntary agreement must be covered by social security and pay social security taxes.

House Bill

Under the House bill, the three exclusions for election workers will be increased in 1993 to apply to election workers with annual earnings of up to $1,000. This amount will rise thereafter in proportion to increases in wages in the economy.

In addition, a transition rule excludes election worker earnings for the last quarter of calendar year 1992, if they do not exceed $500.

Effective date.—The increased exclusion applies to services performed by an election worker on or after January 1, 1993. The transition rule applies to services performed during the period October 1—December 31, 1992.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include the provision in the House bill.

4. Social Security coverage of non-cash agricultural wages

Present Law

Non-cash remuneration paid to agricultural workers is excluded from covered wages under the Social Security Act. The legislative history of this exclusion, which was enacted in 1950, indicates that it was intended to apply to such items as:

* * * lodging, food, clothing, agricultural or horticultural commodities, or car tokens or weekly transportation passes.

In recent years, this exclusion has been applied to other remuneration arrangements. Examples are: (a) buy-back arrangements, in which farm employers pay employees with commodity storage receipts which they later redeem for cash, (b) prearranged sales, in which farm employers give workers temporary, paper possession of agricultural products such as live hogs, mink pelts, grain, or milk whose sale they have already arranged; and (c) hybrid "ownership" arrangements, in which an employer pays a worker with a portion of a commodity shipment to market and subsequently shares the proceeds from the sale.

House Bill

In general, the House bill expands the definition of wages covered by social security to include non-cash remuneration paid to agricultural workers. An exception is provided for meals and lodging furnished on the premises of the employer and, in the case of seasonal workers, temporary lodging furnished in reasonable proximity to the employer's premises. In addition, non-cash remuneration would not be covered if it is below the tax thresholds that now apply to agricultural cash wages—in general, the lesser of $150 per worker or $2,500 for the employer.

Effective date.—The House provision applies to remuneration paid after December 31, 1992.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include the provision in the House bill.

5. Use of Social Security numbers for jury selection

Present Law

The Privacy Act of 1974 prohibits States from requiring that individuals provide social security numbers for identification purposes, unless the State was doing so before January 1, 1975, or the State is specifically permitted to do so under Federal law. The Social Security Act currently authorizes States to use the social security number in administration of any tax, general public assistance, and driver's license or motor vehicle registration law within its jurisdiction. Other Federal statutes authorize the State to use the social security number for certain other purposes.

Currently, State and local courts use jury source lists within their jurisdiction to select jurors. Source lists (most commonly made up of lists of licensed drivers and registered voters) are usually computer tapes merged by the courts to form one pool, or master list, from which jurors are selected.

States that are permitted under current law to collect social security numbers for purposes such as driver's licenses and voter registration are not allowed to use those social security numbers for other purposes such as refining jury selection master lists for the courts, unless the courts were using the social security number for that purpose before the Privacy Act took effect.

Current law likewise prevents States from using the social security number to compare the merged jury source lists with computerized lists of convicted felons in order to eliminate these individuals from jury pools.

House Bill

The House bill permits States that already collect and use social security numbers for purposes permitted under current law to use those numbers to eliminate duplicate names and names of convicted felons from jury source lists.

Effective date.—Upon enactment.

Senate Amendment

The Senate amendment is the same as the House bill, except that it specifies that the social security numbers to be used with respect to jury source lists must have already been collected for other authorized purposes.

Conference Agreement

The conference agreement follows the Senate amendment.

6. Authority for optional Social Security coverage of police officers and firefighters under a retirement system

Present Law

In general, employees of State and local governments who participate in a public retirement system can be brought under social security by means of voluntary agreements entered into by the States with the Secretary of HHS.

However, the State option to provide social security coverage for police officers and firefighters who are under a public retirement system applies only in 24 States that are named in the Social Security Act. (An additional option applies with respect to firefighters only: any State may obtain coverage for them if the governor certifies that it would improve the overall benefit protection of firefighters in the coverage group and a referendum is held among the group under authorization of the State.) The Act also provides that, in the 24 named States, social security coverage can be obtained only after a State-sponsored referendum.

House Bill

The House bill extends to all States the option to provide social security coverage, under their voluntary agreements with the Secretary of HHS, to police officers and firefighters who participate in a public retirement system. The existing requirement for a referendum held under the authority of the State would continue to apply.

Effective Date.—The House provision applies with respect to State requests filed after enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

7. Limited exemption from SECA taxes for American ministers who worked in Canada

Present Law

The Social Security Act authorizes the President to enter into bilateral "totalization agreements" with foreign countries that provide for coordination of the social security systems of the U.S. and the foreign country. These agreements provide for entitlement to retirement, survivors, and disability insurance based on the combination of covered work under the social security systems of both countries, and are meant to eliminate situations in which the same work is covered and subject to taxation by both countries.

The totalization agreement with Canada was entered into in 1984. Article V(7) of that agreement provides that individuals considered self-employed by the United States who are American citizens but are residents of Canada are covered only under the Canadian Pension Plan.

Under the Social Security Act, an individual who is a duly ordained, commissioned, or licensed minister of a church or a member of a religious order is generally considered self-employed for social security payroll tax purposes and subject to SECA taxes.

The Canadian social insurance program treats ministers as employees of the church rather than as self-employed individuals.

Before the 1984 totalization agreement with Canada, duly ordained and licensed ministers who were American citizens but residents of Canada were required to pay SECA taxes to the United States and social security taxes to Canada. In some cases, ministers who were American citizens but residents of Canada failed to file U.S. tax returns of pay SECA tax believing that they were not required to do so because they were paying into the Canadian Pension Plan as residents of Canada. The Internal Revenue Service has assessed taxes and penalties against those ministers who failed to file a return and pay the required taxes prior to the 1984 agreement.

House Bill

The House bill exempts ministers who failed to pay SECA taxes in the U.S. on earnings from services performed in Canada before the totalization agreement went into effect, and who were required to pay social insurance taxes in Canada on such earnings, from the payment of such taxes or related penalties owed to the United States.

In addition, the bill provides that the ministers' social security earnings records will not be credited for years in which the SECA tax was not paid.

Effective date.—The House provision is effective for individuals who meet the requirements of the statute and who file a certificate with the Internal Revenue Service within six months after the IRS issues regulations implementing this provision. The certificate shall be effective for taxable years 1979 through 1984.

Senate Amendment

Same as the House bill.

Conference Agreement

The conference agreement follows the House bill and the Senate amendment.

8. Totalization benefits and the windfall elimination provision

Present Law

The President is authorized to enter into "totalization agreements" with foreign countries. If an individual has worked under social security systems in both the U.S. and a foreign country with which the U.S. has an agreement, but has not worked long enough to qualify for a benefit, a totalization agreement allows the individual's coverage under both systems to be combined, or "totalized," in order for one country (or both) to pay a benefit. Benefits paid under a totalization agreement are generally prorated to reflect that the person did not work his or her whole career under the system that is paying benefits.

The windfall elimination provision (WEP) is applied to the computation of social security benefits for workers who are eligible for both social security and a pension from work not covered by social security. Under the WEP, a different benefit formula yielding a lower amount is used to calculate the worker's social security benefit. (Due to the weighting of the social security benefit formula toward workers with lower lifetime wages, workers with many years of work not covered by social security would receive a windfall in their social security benefit in the absence of the WEP.)

The WEP applies: (1) in the computation of some U.S. totalization benefits, and (2) in the computation of regular U.S. social security benefits if the individual receives a foreign totalization benefit.

HOUSE BILL

The House bill provides for disregarding the Windfall Elimination Provision in computing any U.S. totalization benefit, and in computing the amount of the regular U.S. benefit of an individual who (1) receives a foreign totalization benefit based in part on U.S. employment and (2) does not receive any other pension which is based on noncovered employment.

Effective date.—The House provision is effective with respect to benefits payable for months after October, 1992

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the provision in the House bill.

9. Exclusion of military reservists from application of the government pension offset and the windfall elimination provision

PRESENT LAW

The Government Pension Offset (GPO) and the Windfall Elimination Provision (WEP) are intended to reduce social security benefits payable to individuals who qualify for both a social security benefit and a pension based on employment not covered by social security.

The WEP reduces a worker's social security retirement or disability benefit in cases where the worker is receiving both a social security benefit and a pension based on employment not covered by social security. The WEP is designed to eliminate the potential windfall that could result from applying the weighted social security benefit formula in such cases. The weighted formula is intended to replace a higher proportion of wages for low-earning workers with long service under social security than for high-earning workers. The WEP prevents it from treating individuals who have limited years of coverage under social security as if they were lifetime low-earners.

Active military service became covered under social security in 1957. Inactive duty by reservists (such as weekend drills) became covered under social security in 1988. A pension based on either type of service (active or inactive), if performed before 1957, does not trigger the WEP. The only military pension which triggers the WEP is a pension based in whole or in part on inactive duty after 1956 and before 1988.

Under the GPO, spouse's and widow(er)'s benefits received by an individual based on his or her spouse's social security-covered work are reduced by two-thirds of the amount of any government pension to which the individual is entitled based on his or her own work in a government job not covered under social security.

In general, an individual is exempt from the GPO if the last day of his or her work in a government job was covered by social security. Thus, reservists who retired from military service before 1988 may be subject to the GPO depending on whether the last day of their duty status happened to be covered (active duty, such as two-week training duty) and therefore exempt from the GPO or not covered (inactive duty) and therefore subject to the GPO.

HOUSE BILL

The House bill provides that an individual's receipt of a pension based wholly on service performed as a member of a uniformed service, whether on active or inactive duty and whether performed prior to 1988 or not, will not trigger application of the GPO and WEP to the individual's social security benefits.

Effective date.—The House provision is effective with respect to benefits payable for months after October, 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement does not include the provision in the House bill.

10. Elimination of rounding distortion in the calculation of the contribution/benefit bases and earnings test exempt amounts

PRESENT LAW

The OASDI contribution and benefit base, the HI contribution base, and the social security earnings test exempt amounts are adjusted automatically each year based on a formula that reflects increases in average wages in the economy. The amounts that result from applying the formula are rounded to the nearest multiple of $300 in the case of the OASDI contribution and benefit base and the HI contribution base, and to the nearest multiple of $10 in the case of the monthly earnings test exempt amounts. Each annual increase is based on the rounded amount for the preceding year.

HOUSE BILL

The House bill designates 1992 (or any later year for which an increase other than an automatic increase is effective) as the base year to be used in calculations of the OASDI contribution and benefit base, HI contribution base, and the social security earnings test exempt amounts for all years following 1992. Rounding adjustments will be made each year to the unrounded products of the base year calculations.

Effective date.—The House provision applies to determinations of the OASDI contribution and benefit base and HI contribution base for years after 1992, and to determinations of the social security earnings test exempt amounts for taxable years ending after 1992.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill with minor, technical changes.

11. Repeal of facility-of-payment provision

PRESENT LAW

As a general rule, when an individual receiving benefits as the dependent of a worker has a deduction in his or her benefits (for example, due to the earnings test) and the Maximum Family Benefit rule applies, the withheld benefits are redistributed and paid to the other dependents. (The Maximum Family Benefit, or MFB, is a limit on the total amount of benefits which can be paid on a worker's record to the worker and his or her dependents.)

However, if all of the dependents are living in the same household, the affected individual's benefit check is not actually withheld; instead, the individual receives a notice from the Social Security Administration accompanying the benefit check. This notice explains that the beneficiary is subject to a benefit reduction and should not actually receive the amount provided in the benefit check. However, the excess benefit amount is being paid with the understanding that it is for the use and benefit of the other dependent beneficiaries. This procedure is known as the facility-of-payment provision.

In cases where all of the dependent beneficiaries are not residing in the same household, the facility-of-payment provision does not apply and the withheld benefits are redistributed and paid directly to the remaining dependents.

HOUSE BILL

The House bill repeals the facility-of-payment provision. As a result, a beneficiary who is subject to a reduction will have the appropriate amount withheld form his or her benefit, and the withheld amount will be redistributed and paid directly to the other dependents.

Effective date.—The House provision is effective for benefits for months after December, 1993.

SENATE AMENDMENT

Same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

12. Application of subsequent entitlement guarantee to maximum family benefits

PRESENT LAW

A guarantee is provided for workers who receive disability benefits, then stop receiving disability benefits, and subsequently become re-entitled to benefits due to death, retirement or disability. This "subsequent entitlement guarantee" provides that the basic benefit amount (the Primary Insurance Amount, or PIA) of a worker who becomes re-entitled to benefits or dies (thereby entitling his or her survivors) cannot be less than the PIA in effect in the last month of the workers' prior entitlement to disability benefits.

Due to a drafting error in the 1977 Social Security Amendments, when this guarantee was created, the guarantee does not extend to the Maximum Family Benefit (MFB) payable on the worker's record, which is determined based upon the PIA. (The MFB is a limit on the total amount of benefits which may be paid on a worker's record to the worker and his or her dependents.) As a result, the MFB which is payable when the worker becomes reentitled to benefits or dies may be less than the MFB payable in the last month of the worker's prior entitlement to disability benefits.

HOUSE BILL

The House bill makes a conforming change in the MFB, so that the guaranteed PIA will be the basis for calculating the guaranteed MFB.

Effective date.—The House provision is effective for the MFB of workers who become re-entitled to benefits or die (after previously having been entitled) after October, 1992.

Senate Amendment

No provision.

Conference Agreement

The conference agreement does not include the provision in the House bill.

13. Disclosure of Social Security Administration information for epidemiological research

Present Law

Current law generally prohibits Federal agencies from releasing personal information contained in an individual's file without the written consent of the individual unless release is required under the Freedom of Information Act (FOIA) or other statutes.

Before the 1989 Supreme Court decision *United States Department of Justice* v. *Reporters Committee for Freedom of the Press (Reporters Committee)*, the Social Security Administration (SSA) provided personally identifiable information to epidemiological researchers under the belief that it was required to do so under the FOIA. Disclosure of personal information is required under FOIA when the public interest served by the disclosure outweighs the privacy interest served by withholding the information.

In the Reporters Committee decision, the Supreme Court restricted disclosures of personally identifiable information under FOIA, ruling that disclosure of personal information serves the public interest only when the requested information gives the public insight into the Federal government's performance of its statutory duties.

As a result of the Reporters Committee decision, SSA has discontinued the practice of disclosing information from its files to epidemiological researchers.

House Bill

The House bill requires the Social Security Administration, under certain circumstances, to disclose for epidemiological or similar research purposes personally identifiable information from SSA records specifying whether an individual is living or dead.

Under the provision, SSA is required to comply with requests for information showing whether an individual is alive or deceased if: (1) the Secretary finds that the research may reasonably be expected to contribute to a national health interest; and (2) the requestor agrees to reimburse the Secretary for providing such information and agrees to comply with limitations on safeguarding and rerelease or redisclosure of such information, on specified by the Secretary.

Effective date.—Upon enactment.

Senate Amendment

No provision.

Conference Agreement

The conference agreement follows the House bill.

14. Conform Social Security definition of disability for children to the SSI definition for children

Present Law

The basic definition of disability, inability to engage in any substantial gainful activity by reason of a physical or mental impairment, is the same under the Social Security Disability Insurance program and the Supplemental Security Income (SSI) program. In the SSI program, however, the law further provides that children under the age of 18 are considered disabled if they suffer from an impairment of "comparable severity" to one that would prevent an adult from working. The Disability Insurance program has no similar provision applicable to children, although under the program there are certain limited circumstances in which a child must establish disability prior to attaining age 19.

House Bill

No provision.

Senate Amendment

The Senate amendment establishes a "comparable severity" definition of disability for children under the Disability Insurance program that is identical to the definition in the SSI program.

Effective date.—Upon enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that the provision would apply to determinations of disability made on or after the date of enactment.

15. Increased penalties for unauthorized disclosure of Social Security information

Present Law

The Social Security Act contains provisions prohibiting the unauthorized disclosure of personal and other information obtained in administering the Act. The Act provides that any person who violates these provisions and makes an unauthorized disclosure can be found guilty of a misdemeanor and, upon conviction, punished by a fine not exceeding $1,000 or by imprisonment not exceeding one year, or both. Under the Act, these penalty provisions are also applicable to anyone who fraudulently attempts to obtain information as to the date of birth, employment, wages, or benefits, of another individual.

House Bill

No provision.

Senate Amendment

Under the Senate amendment, unauthorized disclosure of information and fraudulent attempts to obtain personal information under the Social Security Act are made a felony. Each occurrence of a violation will be punishable by a fine not exceeding $10,000, imprisonment not exceeding five years, or both.

Effective date.—Upon enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that the provision will apply to violations occurring on or after the date of enactment.

16. Increase in authorized period for extension of time to file annual earnings report

Present Law

In general, individuals under age 70 who receive Social Security retirement or survivors benefits must file an annual earnings report with the Social Security Administration for any taxable year in which their earnings or wages exceed the annual value of exempt earnings under the Social Security earnings test. These reports are due to be filed by the same date as income tax returns, the fifteenth day of the fourth month after the close of the taxable year (normally April 15). Individuals may be granted a reasonable extension of time for filing an earnings report if there is a valid reason for delay, but not more than 3 months. A time extension for filing an income tax return may be granted for up to 4 months.

House Bill

No provision.

Senate Amendment

Under the Senate amendment, the time for which an extension may be granted for filing an earnings report is increased to 4 months.

Effective date.—Upon enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that the provision is effective with respect to reports of earnings for taxable years ending on or after December 31, 1992.

17. Tightening rules applicable to Social Security and SSI representative payees

Present Law

In both the Social Security and Supplemental Income Security programs, the Social Security Administration appoints a representative payee to receive benefit payments on behalf of a beneficiary when SSA determines that the beneficiary's best interest would be served in this way. The law provides that an individual or organization cannot be a representative payee if they have been convicted of fraudulent offenses involving Social Security and SSI benefits, or have previously served as a representative payee and had their certification to receive benefits revoked because they have misused funds paid as benefits. With certain specified exceptions (e.g., a relative or a care institution), an individual or organization that is a creditor of a beneficiary cannot be that beneficiary's representative payee.

In the SSI program, an individual or an eligible spouse who has been medically determined to be a drug addict or alcoholic must be assigned and receive payment through a representative payee.

House Bill

No provision.

Senate Amendment

The Senate amendment provides that: (1) an individual who has been convicted of a drug-related offense, a felony under Federal or State law, or a crime punishable by death or imprisonment for more than one year, shall not be appointed as the representative payee of an SSI recipient who has been medically determined to be a drug addict or alcoholic; (2) any representative payee who has misused an individual's benefit payment may be subject to a fine or imprisonment under sections 208 and 1632 of the Social Security Act; and (3) a beneficiary's creditor that is a facility licensed for the treatment of drug or alcohol abuse may serve as that beneficiary's representative payee.

Effective date.—Regulations implementing the Senate provision must be issued within 180 days of enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that the Secretary of Health and Human Services is authorized to make exceptions, on a case-by-case basis, to the prohibition against certain individuals serving as representative payees. Also, the conference agreement does not include the penalty in the Senate amendment applicable to misuse of benefit payments by a representative payee, because such a penalty is already included in present law.

18. Technical corrections relating to Social Security

Present Law

The Omnibus Budget Reconciliation Act of 1990 (OBRA 90) contained technical errors in provisions relating to disabled widows, representative payees, attorney fees, and advance tax transfers.

House Bill

The House bill makes technical corrections to these four provisions.

Effective date.—The House provision is effective as if it were included in OBRA 90.

SENATE AMENDMENT

Same as the House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

19. Improvements in the availability and use of death information

PRESENT LAW

Under section 205(r) of the Social Security Act, the Secretary of Health and Human Services is authorized to enter into voluntary contracts with the States for the purpose of obtaining death certificate and other related information to be used in administration of the Social Security Act. In addition, the Secretary is authorized to redisclose this information to other Federal, State, and local agencies for certain specified purposes, subject to such safeguards as the Secretary determines are necessary to prevent any unauthorized redisclosure. However, because these contracts with the States are entirely voluntary, the States are able, at their discretion, to include contract provisions preventing the Secretary from redisclosing this information to other agencies.

HOUSE BILL

No provision. (However, H.R. 3837, as passed by the House, contains a provision that is similar to the conference agreement.)

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement would prohibit a State from using an individual's Social Security account number in the administration of any drivers license or motor vehicle registration law if, within one year after the date of enactment, the State does not enter into a contract to provide death certificate and related information to the Secretary, or the State is party to a contract with the Secretary that places restrictions on the use of the death certificate and related information obtained by the Secretary from the State, except to the extent that such use is permitted to be restricted under section 205(r)(6) of the Social Security Act.

The conference agreement also requires the Secretary of Health and Human Services to conduct a study of possible improvements in the current methods of gathering and reporting death information by Federal, State, and local governments that would result in more efficient and expeditious handling of such information. By June 1, 1993, the Secretary is required to submit a written report to the Committee on Ways and Means and the Committee on Finance setting forth the results of this study, together with such administrative and legislative recommendations as the Secretary may consider appropriate.

20. Misuse of symbols, emblems, or names related to the Department of the Treasury

PRESENT LAW

There are currently no provisions in present law prohibiting the use of symbols, emblems, and names of the Department of the Treasury (and its subsidiary agencies) in connection with mailings and other solicitations.

HOUSE BILL

The House bill prohibits the use of Treasury-related words, letters, symbols, or emblems in a manner which could reasonably be interpreted or construed as conveying a false impression that such activity is connected with the Department of the Treasury or any of its subsidiary agencies. A civil penalty of up to $5,000 per violation, or in the case of a broadcast up to $25,000, would apply for violations. Each individual piece of mail or separate solicitation would be considered a separate violation. Any determination of whether there is a violation of this provision would be made without regard to the use of a disclaimer of affiliation with the Federal government. The Secretary of the Treasury, by May 1, 1994, is required to provide to the House Ways and Means and Senate Finance Committees a report on enforcement activities relating to the implementation of the provision.

Effective date.—Upon enactment.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill. The conferees agree to clarify that the reproduction of Treasury-related public documents or publications will not, in itself, be considered as conveying a false impression that such activity is connected with the Department of the Treasury.

HUMAN RESOURCES PROVISIONS (SUBTITLE B OF TITLE IX)

1. Repeal of provision inadvertently in OBRA 1990

HOUSE BILL

The House bill eliminates conflicting provisions in OBRA 1990 concerning the reporting date for the report of the National Commission on Children.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

2. Corrections related to income security and human resources provisions of OBRA 1990

HOUSE BILL

The House bill corrects references and punctuation in various SSI and AFDC provisions.

SENATE AMENDMENT

The Senate amendment is the same as the House bill, except that it omits the AFDC technical corrections.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

3. Correction related to section 8006 of OBRA 1989

HOUSE BILL

The House bill corrects a reference concerning foster care and adoption assistance.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

4. Technical corrections related to human resource and income security provisions of OBRA 1989

HOUSE BILL

The House bill corrects a word and spacing in AFDC quality control and adoption assistance legislative language.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

5. Amendment related to section 13101(d)(2) of OBRA 1990

HOUSE BILL

The House bill corrects and simplifies language concerning special sequestration rules for JOBS funds.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement follows the House bill.

6. Elimination of obsolete provisions relating to treatment of the EITC

HOUSE BILL

The House bill eliminates provisions in SSI law about treatment of EITC made obsolete by OBRA 1990, which specifies that SSI (and AFDC, Medicaid, and food stamps) are to disregard EITC as income.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

7. Redesignation of certain provisions

HOUSE BILL

The House bill redesignates two subparagraphs of the Social Security Act concerning when face-to-face interviews at field offices must be granted.

SENATE AMENDMENT

Same as House bill.

CONFERENCE AGREEMENT

The conference agreement follows the House bill and the Senate amendment.

X. MEDICARE PROVISIONS

A. AMENDMENTS RELATING TO PART A OF THE MEDICARE PROGRAM

1. Hospital wage index provisions

PRESENT LAW

A change in classification of hospitals from one wage area to another may not result in the reduction in the wage index for a county to an amount below the level of the rural wage index for a State. No similar protection applies in the case of an urban area with a wage index already below the rural wage index for a State, or in the case of an urban area located in a State without any rural areas. Certain hospitals in rural counties adjacent to one or more urban areas are treated as part of an urban area if they otherwise meet certain requirements with respect to commuting standards used in designating Metropolitan Statistical Areas or New England County Metropolitan Areas as published in the Federal Register on January 1, 1980.

HOUSE BILL

No provision.

SENATE AMENDMENT

Provides that a change in classification of hospitals from one area to another may not result in a reduction in the wage index for an urban area if the area has a wage index below the rural wage index for the State, or if the urban area is located in a State without any rural areas. Replaces the January 1, 1980 requirements with respect to commuting standards with the most recently available standards, but provides that any hospital that qualified for treatment as an urban county under the 1980 standards but not meeting the most recent standards shall continue to qualify.

Effective date.—Applies to discharges occurring on or after the date that is 30 days after the date of enactment.

Conference Agreement

The conference agreement follows the Senate amendment with modifications. The provision relating to holding harmless certain urban areas applies to urban areas with a wage index below that of rural areas in the State or to an urban area that is the only urban area in a State with no rural areas. The Secretary is not authorized to adjust the standardized amounts to reflect the effects of this provision. The agreement follows the Senate amendment with respect to updating commuting standards with an amendment to provide that the standards to be used shall be those used most recently in actual designations of Metropolitan Statistical Areas. Rural hospitals treated as urban as of the date of enactment would continue their current treatment. The agreement provides that the Secretary must consider occupational mix in the development of guidelines for reclassification only to the extent he determines appropriate. The conferees wish to reaffirm that the Secretary has the authority to review and modify as he finds necessary the guidelines to be used by the Medicare Geographic Classification Review Board in rendering decisions pursuant to section 1886(d)(10).

Effective date.—Enactment, except that the provision for updating standards is effective October 1, 1993.

2. Hospital outlier payments

Present Law

The Secretary is required to make additional payment for outlier cases, those involving long stays or extraordinary costs as compared to other cases in the same DRG. The payments are required to approximate the marginal costs of care beyond the outlier threshold. The Secretary, in a final rule promulgated September 1, 1992, has established a new method for computing payments for day outliers, those with long lengths of stay. The per diem payment would be determined by dividing the standard DRG payment for a given case by the arithmetic mean length of stay for the relevant DRG, and multiplying the result by .55.

House Bill

No provision.

Senate Amendment

No provision.

Conference Agreement

The conference agreement provides that, for discharges occurring on or after January 1, 1993, and before July 1, 1993, the Secretary shall use the day outlier methodology in effect for fiscal year 1992, rather than the new methodology promulgated in the final rule issued September 1, 1992. The new methodology would continue in effect for discharges occurring on or after July 1, 1993 and before October 1, 1994.

3. Essential Access Community Hospital amendments

Present Law

(a) The Omnibus Budget Reconciliation Act of 1989 established the Essential Access Community Hospital demonstration program. Under this program, up to 7 States may be designated by the Secretary to receive grants to develop rural health networks consisting of essential access community hospitals and rural primary care hospitals. Individual hospitals may be designated as essential access community hospitals and rural primary care hospitals. Authorization of appropriations for fiscal years 1990, 1991 and 1992 is $10 million a year for grants to States and $15 million a year for grants to hospitals. In order to receive designation by a State as a rural primary care hospital, a facility must meet certain criteria, including a requirement that inpatient stays not exceed 72 hours.

(b) The Secretary of Health and Human Services is required to make grants to up to seven States to participate in the Essential Access Community Hospital (EACH) program.

(c) The Secretary may designate an urban hospital as an essential access community hospital if it meets the criteria for designation as a rural referral center.

(d) The Secretary may designate a hospital as an essential access community hospital if it is located in a State receiving an EACH program grant.

(e) Rural primary care hospitals are required to have written policies governing the provision of services, and have a physician, physician assistant, or nurse practitioner responsible for the execution of those policies.

(f) Medicare inpatient hospital benefits are subject to the inpatient hospital deductible and to coinsurance after 60 days of hospitalization during a spell of illness.

House Bill

No provision.

Senate Amendment

(a) Continues authorization for appropriations at current levels ($10 million a year for grants to States and $15 million a year for grants to hospitals) for fiscal years 1993, 1994 and 1995. Modifies the length of stay requirement for State designation of rural primary care hospitals to require these facilities to maintain an average length of stay not to exceed 72 hours.

(b) Increases the number of States eligible for grants under the EACH program from seven to nine.

(c) Authorizes the Secretary to designate an urban hospital as an essential access community hospital if the hospital otherwise meets the criteria for designation.

(d) Authorizes a State receiving a grant under the EACH program to designate as an essential access community hospital or a rural primary care hospital a facility in an adjoining State if the facility is otherwise eligible for designation. Authorizes the Secretary to designate a facility as an essential access community hospital or a rural primary care hospital if the facility is not in a State receiving an EACH program grant if the facility is a member of a rural health network of a State receiving a grant.

(e) Amends the requirements for written policies and procedures and the supervision of those procedures in rural primary care hospitals to clarify that the requirements are similar to those for hospitals. Specifically, requires rural primary care hospitals to appoint a physician, as defined in section 1861(r)(1) of the Social Security Act, to supervise the implementation of the policies.

(f) Clarifies the applicability of the inpatient hospital deductible and coinsurance to stays in rural primary care hospitals. Corrects other minor drafting errors.

Effective date.—Enactment.

Conference Agreement

(a) The conference agreement follows the Senate amendment, except that the length of stay requirement is modified to provide that no patient may be admitted unless the attending physician certifies that the patient may reasonably be expected to be discharged or transferred within 72 hours, and that the facility may not provide surgery or other services requiring general anesthesia (other than procedures approved for performance on an ambulatory basis) unless the attending physician certifies that the risk of transfer to another facility for the services outweighs the benefits. The Secretary is authorized to terminate the designation of a rural primary care hospital whose average length of stay (not counting longer stays during periods of inclement weather or other emergencies) exceeds 72 hours. The agreement requires the General Accounting Office to report to the Congress, within 2 years after enactment, on the application and impact of the changes in length-of-stay requirements.

(b) The conference agreement follows the Senate amendment. The conferees anticipate that the Secretary will designate additional States on the basis of applications received in response to the initial solicitation and the evaluation performed by the Department in response to those applications.

(c) The conference agreement follows the Senate amendment, except that an urban hospital designated as an essential access community hospital is not to receive any change in Medicare payment methodology.

(d) The conference agreement follows the Senate amendment, except also authorizes the Secretary to make direct grants to facilities so designated.

(e) The conference agreement follows the Senate amendment.

(f) The conference agreement follows the Senate amendment. The agreement also authorizes a rural primary care hospital that had a swing-bed agreement at the time of designation to provide swing-bed services up to the hospital's licensed acute care bed capacity at the time of conversion, minus the number of inpatient beds retained by the rural primary care hospital. If the facility has a licensed distinct-part nursing facility at the time of conversion, it may continue to operate that facility at its licensed capacity. The agreement provides that payment for outpatient rural primary care hospital services shall be made without regard to lesser-of-cost-or-charges limits.

Effective date.—Enactment.

4. Rural health transition grant program extension

Present Law

The Omnibus Budget Reconciliation Act of 1987 instituted a program of grants to assist rural hospitals with fewer than 100 beds in developing and implementing projects to modify the type and extent of services they provide. Grants may be used to develop health systems with other providers, diversify services, recruit physicians, improve management systems, and instruction and consultation via telecommunications to physicians in manpower shortage areas. The program is authorized at $25 million per year for fiscal years 1990, 1991 and 1992. The fiscal year 1992 appropriation is $23 million.

House Bill

No provision.

Senate Amendment

Authorizes appropriations at $30 million a year for fiscal years 1993 through 1997.

Effective date.—Enactment.

Conference Agreement

The conference agreement follows the Senate amendment, except that appropriations are authorized only through fiscal year 1997.

Effective date.—Enactment.

5. Regional referral center extension

Present Law

Hospitals in rural areas meeting certain criteria may be classified as regional referral centers and receive payment based on the prospective payment system standardized amount for hospitals in "other urban" areas (those with less than 1 million people) rather than the standardized amount for rural areas. The Omnibus Budget Reconciliation Act of 1989 provided that hospitals classified as regional referral centers on September 30, 1989 would retain such status through cost reporting periods beginning before October 1, 1992. Beginning on October 1, 1994 payments to hospitals in rural areas will be based on the same standardized amount as payment to hospitals in "other urban" areas.

HOUSE BILL

No Provision.

SENATE AMENDMENT

Provides that all hospitals classified as regional referral centers on September 30, 1992 will retain such status through September 30, 1994. Gives hospitals to which this provision applies that lost regional referral center status as a result of a favorable reclassification decision by the Medicare Geographic Classification Review Board for fiscal year 1993 the opportunity to decline the reclassification and retain referral center status. Requires that the Secretary not revise standardized amounts to account for hospitals that decline reclassification.

Effective date.—The extension of regional referral center status is effective as if included in the enactment of OBRA 1989.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The conferees do not intend that the Secretary shall be required to reprocess claims submitted on or after October 1, 1992, and before the date a facility declines reclassification.

Effective date.—Enactment.

6. Small, Medicare dependent, rural hospital extension

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1989 provides for special payment for rural hospitals qualifying as Medicare dependent hosptitals (MDHs). In order to qualify for MDH status, a hospital must be located in a rural area, have no more than 100 beds, and have had at least 60 percent of its inpatient days or discharges attributed to Medicare patients during the cost reporting period beginning during fiscal year 1987. MDHs are eligible for payment under the same rules as sole community hospitals for cost reporting periods beginning on or after April 1, 1990, and ending before April 1, 1993. Beginning on October 1, 1994, payments to all hospitals in rural areas will be based on the same standardized amount as payment to hospitals in "other urban" areas (those with less than 1 million people).

HOUSE BILL

No provision.

SENATE AMENDMENT

Continues special payments for small rural, Medicare dependent hospitals for discharges occurring through September 30, 1994 on a phase-down basis. For discharges occurring during cost reporting periods beginning on or after April 1, 1990 and before April 1, 1993, provides that currrent MDH payments apply. For discharges occurring during any cost reporting period beginning on or after April 1, 1993 through September 30, 1994, provides that an MDH will receive 50 percent of the difference between their payment under the current MDH rules and the payment regularly provided under the prospective payment system. Allows small rural Medicare dependent hospitals that lost MDH status as a result of a favorable reclassification decision by the Medicare Geographic Classification Review Board for fiscal year 1993 the opportunity to decline the reclassification and retain Medicare dependent hospital status. Requires that the Secretary not revise standardized amounts to account for hospitals that decline reclassification.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The conferees do not intend that the Secretary shall be required to reprocess claims submitted on or after October 1, 1992, and before the date a facility declines reclassification.

Effective date.—Enactment.

7. Rural demonstration extension

PRESENT LAW

The Omnibus Budget Reconciliation Act of 1990 gave the Secretary authority to waive such provisions of Title XVIII as necessary in order to conduct any demonstration project with respect to limited-service rural hospitals with respect to which the Secretary has entered into an agreement prior to enactment of the Omnibus Budget Reconciliation Act of 1989.

HOUSE BILL

No provision.

SENATE AMENDMENT

Continues any such demonstration projects at least through December 31, 1995.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—Enactment.

8. Hemophilia pass-through extension

PRESENT LAW

The costs of administering blood clotting factor to Medicare beneficiaries with hemophilia who are admitted for hospital stays are not reimbursed as part of the DRG payment, but are separately reimbursed. The additional payments apply only to clotting factor furnished between June 19, 1990 and December 19, 1991.

HOUSE BILL

No provision.

SENATE AMENDMENT

Extends additional payment for hemophilia clotting factor for clotting factor furnished through September 30, 1994.

Effective date.—Effective as if included in the enactment of OBRA 1989

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. Further, with respect to patients with intractable epilepsy, the conferees expect the Secretary to develop and apply, at the earliest possible time, procedure codes necessary to more accurately measure the relative resource requirements for such patients receiving intensive neurodiagnostic monitoring.

Effective date.—Effective as if included in the enactment of OBRA 1989.

9. State hospital payment programs

PRESENT LAW

Under Section 1886(c) and section 1814(b) of the Social Security Act, the Secretary may provide that Medicare payments to hospitals in a State be made in accordance with a state hospital reimbursement system meeting certain standards. The State must assure that over a 36-month period, payments to hospitals for services provided to Medicare beneficiaries will not exceed the amount that would have been paid for those services under Medicare payment rules. The Secretary may recoup excess payments to hospitals if he finds that this standard was not met.

HOUSE BILL

No provision.

SENATE AMENDMENT

Delays recoupment of any amount owed by hospitals due to alleged overpayments relating to the operation of a Section 1886(c) Medicare waiver until April 1, 1993. Does not change current law with respect to payment of interest on overpayments.

Requires the Secretary, prior to the beginning of recoupment, to provide to the State and the hospitals in the State all relevant data used by the Secretary to determine the amount of alleged overpayments, including but not limited to (1) the cost reports submitted by hospitals for the relevant cost reporting periods and (2) the methodology used by the Secretary to determine the payments which would otherwise have been made to the hospitals by Medicare during the period for which any overpayments are alleged to have been made.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. The agreement further provides that, in the case of a State with a Medicare-approved payment system under section 1814(b), nothing in Medicare or Medicaid law, the Employee Retirement Income Security Act (ERISA), or sections 81 and 89 of Title 5, United States Code, shall be construed as providing for payment of services at rates other than those provided for under the State's system. The state program would continue to be required to meet the standards for Medicare-approved payment systems under section 1814.

Effective date.—Enactment.

10. Psychology services in hospitals

PRESENT LAW

Clinical psychologists are authorized to provide qualified psychologist services to Medicare beneficiaries. In order to participate in Medicare, hospitals must require that all Medicare patients are under the care of a physician, defined to include doctors of medicine, osteopathy, dentists, podiatrists, chiropractors and optometrists practicing within the scope of State law. Certain States authorize psychologists to supervise the care of inpatients receiving psychologist services.

HOUSE BILL

No provision.

SENATE AMENDMENT

Provides that, in a State in which such supervision is authorized by state law, the care of hospital inpatients receiving qualified psychologist services may be supervised by a clinical psychologist with respect to such services to the extent permitted by state law.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The agreement follows the Senate amendment.

Effective date.—Enactment.

11. Graduate medical education payments in hospital-owned community health centers

PRESENT LAW

Additional payments to hospitals for the indirect costs of medical education are based on the ratio of interns and residents at the hospital to the number of beds in the hospital. Interns and residents training in a hospital outpatient department are included for purposes of determining the ratio.

HOUSE BILL

No provision.

SENATE AMENDMENT

No provision.

CONFERENCE AGREEMENT

The conference agreement provides that services of an intern or resident in a community health center (as defined in the Public Health Service Act) that is wholly owned or controlled by a hospital shall be counted for purposes of determining the hospital's intern and resident to bed ratio, if the hospital incurs all or substantially all the cost of such services.

12. Treatment of certain military facilities

PRESENT LAW

Other than Indian Health Service hospitals, hospitals owned by, or under contract to, the Federal Government are not eligible for reimbursement under Medicare. Uniformed services treatment facilities are private hospitals under contract to the Federal Government. The Assistant Secretary of Defense for Health Affairs has been directed to prepare a report on joint military/civilian health centers.

HOUSE BILL

No provision.

SENATE AMENDMENT

Prohibits the Secretary of Health and Human Services from taking action to recover certain amounts paid by Medicare to uniformed services treatment facilities in Boston, Baltimore, and Seattle for services that were provided between October 1, 1986 and December 31, 1989, to members of the uniformed services or their dependents who were also eligible for Medicare. Requires the Secretary of Health and Human Services, in consultation with the Secretary of Defense and the Secretary of Veterans Affairs, to conduct a study of the feasibility and desirability of establishing a joint medical facility among the Department of Defense, Department of Veterans Affairs, and other public and private entities. Provides that the study shall include the need to make changes in the Medicare and Medicaid programs in order to facilitate the establishment of such joint medical facilities.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment, except that it permits the Secretary to recoup from the facilities to the extent that any funds are provided for that purpose under the fiscal year 1993 Department of Defense Appropriations Act. The agreement requires the Secretary to report on the required study of joint medical facilities to the Congress by June 1, 1993.

Effective date.—Enactment.

13. Skilled nursing facility wage index

PRESENT LAW

Skilled nursing facilities are reimbursed on a reasonable cost basis, subject to per-diem limits. The limits are adjusted to reflect differences in area wages. In applying the wage index adjustment, the Secretary currently uses a wage index based on wage data collected from hospitals. In its March 1, 1992 Report and Recommendations, the Prospective Payment Assessment Commission recommended that the Secretary collect data on employee compensation and paid hours of employment for nursing facilities for the purpose of implementing a nursing facility wage index to adjust Medicare SNF payments.

HOUSE BILL

No provision.

SENATE AMENDMENT

Requires the Secretary to begin collecting the data necessary to compute a wage index based on wages specific to skilled nursing facilities within one year of enactment. The Prospective Payment Assessment Commission would be required to study and report by March 1, 1993 on the impact of applying routine per-diem cost limits on a regional basis.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment. In addition, the conference agreement includes a correction for a clerical error in the nursing home reform provisions pertaining to the period of resident assessment.

Effective date.—Enactment.

14. Clarification of DRG payment window expansion

PRESENT LAW

Services provided by a hospital (or an entity wholly owned or operated by the hospital) to an inpatient of a hospital during the three days prior to admission are not separately reimbursed under part B of Medicare if they are diagnostic services or otherwise related to the admission.

HOUSE BILL

No provision.

SENATE AMENDMENT

Provides that this provision does not apply to hospitals that are not paid on the basis of diagnosis related groups (DRGs).

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment.

Effective date.—Enactment.

B. AMENDMENTS RELATING TO PART B OF THE MEDICARE PROGRAM

1. Reinstating separate payment for interpretation of electrocardiograms (EKGs)

PRESENT LAW

OBRA 90 eliminated separate payments for interpretation of EKGs performed or ordered to be performed as part of, or in conjunction with, a medical visit or consultation, effective January 1, 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

Repeals the OBRA 90 prohibition on separate payments for interpretation of EKGs. Separate fee schedule payment amounts for interpreting EKG in all settings would be established. Provides for several adjustments to the fee schedule in order to comply with budget neutrality rules. First, HCFA would subtract the relative value units for EKG interpretation that were bundled into medical visit and consultation relative values for 1992.

Requires HCFA to make across-the-board adjustments to the relative values for all services to account for the shortfall of relative value units that were bundled into medical visits and consults in 1992. HCFA currently estimates this reduction at .37 percent; the reduction would apply only to service paid at the full fee schedule.

Requires HCFA to make an adjustment to the historical payment basis in the fee schedule to account for the fact that more EKG interpretations would be paid at the full fee schedule amount than medical visits and consultations during the transition. No reduction would be made for services already at the full fee schedule amount. For services in transition to the fee schedule, the estimated reduction is 1.07 percent in 1993, 0.84 percent in 1994, and 0.6 percent in 1995.

Effective date.—Applies to services furnished on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment with a technical amendment clarifying the budget neutrality adjustment. Under the agreement, the Secretary is required to reduce the relative value for all services (except anesthesia services) by the percentage the Secretary determines necessary so that beginning in 1996 expenditures under the fee schedule would not exceed those which would have been made in the absence of this provision. For anesthesia services, the appropriate adjustment is made to the conversion factor. The agreement also requires the Secretary to make appropriate budget neutrality adjustments in the historical payment portion of the 1993 transition payment which applies in 1993, 1994, and 1995.

The conferees are concerned that the repeal of the prohibition on separate payments for EKGs on a deficit neutral basis, combined with the repeal of the new physician payment policy, would significantly reduce payments for primary care physicians. However, four major organizations representing primary care physicians have indicated their continuing support for these provisions as reflected in the following letters.

AMERICAN MEDICAL ASSOCIATION,
July 23, 1992.

Hon. FORTNEY (PETE) STARK,
House of Representatives, Cannon House Office Building, Washington DC.

DEAR REPRESENTATIVE STARK: I would like to reaffirm the resolve of the American Medical Association to work with you and other Congressional leaders to enact legislation this year to restore equity and fairness for EKG and "new" physician services. Eliminating payments for EKG interpretations and reducing payments to physician for the initial four years of Medicare billings are contrary to the basic concept of a resource based relative value system. EKGs are a proven value to patients. Further, the resource inputs of the service rather than the length of billing history of the physician should be the determinant of Medicare payments.

We believe that physicians should not be penalized to correct inappropriate policies. Physicians are understandably concerned that adjustment to fulfill budget requirements and make "technical corrections" could lead to a significant erosion of the original objectives of Medicare payment reform. However we recognize the limits mandated by the Budget Enforcement Act. The AMA will continue to explore alternative means of financing. Until such time as other acceptable budget neutral financing mechanisms are identified, the AMA continues to support the EKG and new physician provisions adopted by the Ways and Means Health Subcommittee on July 1.

Based on our review of publicly available data, we believe that some of the estimates outlined in your letter overstate the impact of the proposed EKG and new physician provisions. In assessing the impact of proposed EKG changes, it is important to recognize the following points:

The .37 conversion factor reduction is a technical correction to compensate for a

HCFA calculation error. HCFA intended to make this adjustment regardless of any legislation to restore payment for EKG interpretations.

The affected medical specialties have long recognized that visit code reductions would be necessary as part of the "EKG fix" given that relative value units were added to the visit codes to compensate for the EKG cut.

The projection of a 1.07% reduction for services still in transition appears to be almost twice as high as AMA estimates. It would be useful to have additional details on how this figure was derived.

Regarding the proposed new physician changes, it should be noted that:

Reduced payments to new physician cannot be justified as a form of apprenticeship. Physicians already complete an "apprenticeship" better known as residency or internship training before they bill Medicare.

It should be noted that rural localities that are exempt from the new physician reductions are limited to HHS designated manpower shortage areas. Many localities that are commonly accepted as rural areas have not been so designated by HHS.

The financial impact on selected groups of physicians is one of many considerations in weighing Medicare program changes. An overriding concern for Congress, the Administration, physician organizations and Medicare patients is whether certain policies undermine the integrity of the policy consistency of the new Medicare payment system while it is still in its infancy. The RBRVS was adopted to provide a more rational framework for Medicare payment policies. The EKG and new physician policies represent a continuation of the arbitrary and capricious nature of the usual, customary and reasonable (UCR) payment system that has been replaced by the RBRVS.

Your continued efforts to achieve an equitable solution to the EKG and new physician problems are appreciated. Clearly, we believe that the original decisions to end payments for EKGs and to phase in full payments for new physicians were misdirected and needed to be revised. While we object to the continued erosion of the conversion factor, we nevertheless support the Ways and Means Health Subcommittee's approach to fixing these problems. Please let us know if you have further questions regarding these two Medicare policies or any other issues to be considered during the upcoming mark up by the full Ways and Means Committee.

Sincerely,

JAMES S. TODD, MD.

AMERICAN ACADEMY OF
FAMILY PHYSICIANS,
July 22, 1992.

Hon. FORTNEY PETE STARK,
Chairman, Subcommittee on Health, Committee on Ways and Means, House of Representatives, Washington, DC.

DEAR CONGRESSMAN STARK: Thank you for your letter of July 13, 1992, regarding the policies recently adopted by the Health Subcommittee to restore payment for the interpretation of electrocardiograms and eliminate fee reductions for new physicians. We appreciate the caution expressed in your letter regarding the deficit neutrality provisions in these policies. Allow me this opportunity to describe the Academy's perspective on these important issues and to express our continued support for the Health Subcommittee's actions.

Three adjustments are proposed to keep the restoration of electrocardiogram interpretation deficit-neutral: (1) a conversion factor reduction for the misestimation of the relative value units that were added to visit services to reflect the work of electrocardiogram interpretation, (2) the removal of the added relative units from visit codes, and (3) the reduction in the 1992 payment base to correct for asymmetry. The proposal to eliminate the fee reductions imposed on new physicians will require a reduction in the conversion factor estimated between 1.2 and 1.6 percent. The exact impact of these adjustments will vary among physicians in different specialties and in different locations. We have simulated the impact of each of these specific adjustments on family physicians. Our results are qualitatively similar to those suggested in your letter, although quantitatively less severe. Naturally, there will be an offsetting positive impact on family physicians from the restoration of payment for electrocardiogram interpretation.

As I previously communicated to you, the Academy's support for these measures is primarily based on our desire to preserve the integrity of the fee schedule. We strongly believe that the elimination of coverage of electrocardiogram interpretation and the reduction in new physician fees undermined the resource cost basis for setting physician fees. We believe this is true both in terms of individual clinical decisions and in regard to the long-run decisions regarding physicians' specialty and practice location choices. The long-term effect of eliminating coverage of electrocardiograms interpretation and reducing new physicians fees is to distort the entire fee schedule and compromise beneficiary access to appropriate and necessary services.

While the Subcommittee's actions were taken in the context of the Medicare physician fee schedule and the deficit-neutrality requirement of the current federal budget process, we have never considered the elimination of payment for the interpretation of electrocardiograms and the fee reductions imposed on new physicians to be part of the Medicare physician fee schedule. Indeed, these provisions were adopted a year after the fee schedule was established are entirely inconsistent with the goals of a resource-based fee schedule. Ergo, we do not regard the Subcommittee's actions as a refinement of the fee schedule, but, rather, a reversal of ill-considered measures that were from the beginning inconsistent with the concept of a resource-based fee schedule.

This letter also provides an appropriate opportunity to express our additional concerns regarding the Medicare physician fee schedule. It is becoming increasingly apparent that, as implemented, the resource-based fee schedule will not promote generalism to the extent that we had anticipated or to the extent so desperately needed in this country. No matter how one views health care reform, correcting the over-specialization of the American health care system is a necessary prerequisite. Our concerns about the maldistribution of physician specialists will be reflected in our advocacy of further reform of Medicare physician payment as well as reform of the health care system in general.

Thank you for this opportunity to express our continued support for the Health Subcommittee's policies to restore payment for electrocardiogram interpretation and eliminate the new-physician fee reductions. Please do not hesitate to contact me if you desire further information on these important matters.

Sincerely,

WILLIAM H. COLEMAN, M.D., PH.D.,
Chair, AAFP Board of Directors.

AMERICAN COLLEGE OF PHYSICIANS,
July 24, 1992.

Hon. PETE STARK,
Chairman, Ways and Means Subcommittee on Health, House of Representatives, Washington, DC.

DEAR MR. STARK: Thank you for the opportunity to comment on proposed changes in the physician fee schedule to accommodate restoration of payments for EKG interpretation and new physicians.

In considering issues of physician payment, primary care must be the first priority for Congress. Careful evaluation and management of the patient by a generalist physician is the core of medical care. The nation's ability to expand access to care will depend in part on our ability to supply primary care physicians to care for undeserved people. Not the least element of this is that primary care is cost-effective care, in terms of both the utilization of services and the prevention of illness. Accordingly, the proposed changes must be viewed in the context of trends affecting primary care.

Promoting primary care was one of the goals of physicians payment reform legislation passed in 1989. As we look at the issues facing us now, however, we find that formulas and technicalities are subverting that goal. The numbers are driving policy in ways that harm primary care. Consider these examples:

The Medicare Volume Performance Standard lumped evaluation and management (E/M) services, whose volume has not increased, with medical procedures, many of which are increasing at rates above 20% annually. The Secretary has now recommended an update of only .3% because the MVPS was exceeded—penalizing primary care physicians for sins they did not commit. (We have written you previously about this issue.)

Some procedures may have been undervalued in the 1992 fee schedule. If they are fixed, as you point out, another one percent will come out of E/M services.

HCFA underestimated the total relative value units when it incorporated work for EKGs into visit payments. We are now told that payments must be cut by a greater amount to make up for HCFA's mistake.

The formula specified in the 1989 legislation for calculating practice costs ties that calculation to historical charges, an anomaly in a resource-based system. The result is that about 50% of the fee calculation is skewed to increase hospital-based services, while practice costs for office-based evaluation and management services often are reimbursed well below actual costs.

Taken together, these reductions have a severe negative impact on primary care. If a central goal of Congress is to promote primary care, then Congress must realign the formulas and correct the technicalities to achieve that goal. We are ready to work with you to correct these problems in Medicare legislation this year.

The budget cut in payments for EKGs was particularly offensive because it conveyed the message that the physician's interpretation of an essential diagnostic tool was of no value. The budget cut in payments for new physicians was inconsistent with a payment system based on resources used in delivering services. In light of the hostility generated last year by HCFA's proposed "behavioral offset," and widespread disappointment with the fee schedule, our members have demanded that the EKG and new physician provisions be overturned. The College, therefore, supports the actions of the Subcommittee to restore their payments. The amendment must be written in a way that precludes any application of a behavioral offset related to restoration.

Mr. Chairman, primary care is in trouble. It cannot afford another backward step. We cannot emphasize too strongly the precarious position in which primary care physicians find themselves frequently unable to cover overhead costs with the Medicare payments they now receive. We hear a disturbing number of reports that physicians are already trying to limit the number of Medicare patients they treat. We look forward to working with you, starting immediately, to take actions that will correct the formulas and the technical restraints, and adopt a consistent policy that will recognize and promote the essential services of primary care physicians.

Thank you for the opportunity to express our support for the Subcommittee's actions. We hope that it will be the first step in a broad initiative to address the critical issues facing primary care.

Sincerely,

ROLF M. GUNNAR, M.D., FACP,
Chairman, Board of Regents.

AMERICAN SOCIETY
OF INTERNAL MEDICINE,
July 20, 1992.

Hon. PETE STARK,
Chairman, Subcommittee on Health, Committee on Ways and Means, Washington, DC.

DEAR MR. STARK: This is response to your letter requesting clarification of the views of the American Society of Internal medicine on pending legislation to restore payments for interpretation of EKGs and to repeal the payment limits on new physicians. I apologize in advance for the length of this response, but several issues raised in your letter require clarification.

ASIM strongly believes that Congress and HCFA must take steps to assure that the Medicare fee schedule meets the intent of improving payments for primary care and other undervalued evaluation and management services. We do, however, also fully support the EKG and new physician provisions that were approved by the subcommittee and repeal of the payment limits on new physicians. We specifically support the subcommittee's approach of maintaining budget neutrality and restoring payment for EKG interpretation by reducing the relative values that HCFA specifically added-on to visits and consultations for the purpose of including EKG interpretation in the payments for those services, and reducing payments for services in transition. We also support the subcommittee's action to repeal the payment limits on new physicians.

The reason for our support of both of these policies is not primarily financial. Although some of our members will gain a modest amount financially from these changes, others will not. What is more important to us is the principle behind each: that under a resource based system all covered services that require physician work should be compensated at the resource same for services that require equivalent work, regardless of how long they've been in practice.

In an ideal situation, we would have preferred that these changes not result in any reductions in payments for E/M services. However, budget neutrality requirements necessitated that we identify an approach that allows full restoration of payments for EKG interpretation. The approach to the EKG issue that was approved by the subcommittee is that only one that would assure that EKG payments are based on the actual resource costs of providing the service. Other options would have either set payments at less than resource costs—thus violating the basic principle of the RBRVS—or would have required much deeper, permanents, and disproportionate cuts in primary care and other E/M services. We also support as a matter of principle repeal of the new physician payment limits, even though this too will require reductions in what otherwise would have been paid for E/M and other services.

If it was possible, ASIM certainly would have preferred identifying alternative sources of funding for each of these changes that would have eliminated, or reduced, the adverse impact on other physician services, particularly E/M services. And if such alternative funding sources are identified, the ASIM of course would be supportive. But realistically, we recognized that the proposals would not be enacted unless we were willing to recommend funding options that would maintain budget neutrality. From a membership standpoint, the easy way out of this dilemma would have been for ASIM to tell our members that we support cuts in nonphysician services in order to pay for the new physician and EKG proposals, or that we just support the proposed policies but have decided not to offer any way to pay for them. But we also knew that this would not be viewed as a credible response by Congress, and calling for cuts in nonphysician services would have had the effect of attracting opposition from their lobbying organizations—with the likely effect that the EKG and new physician legislation would have died in Congress. If we were really serious about getting these proposals enacted—and we are—we recognize that we had to identify credible and fair ways of funding them out of payments for physician services. That is why we supported, and continue to support, the subcommittee's actions.

We think, however, that it is essential that the EKG and new physician legislation be drafted in a way that would preclude application of a volume baseline adjustment or behavioral offset in scoring the new physician amendment. ASIM has been told by HCFA policy staff that it does not intend to apply a volume baseline adjustment to the EKG legislation, but it is essential that the law be written so that there is no possibility of such an adjustment being applied. We were advised during last week's briefing by Ways and means subcommittee staff that the 1.2 percent reduction in payments for all physician services that would be required under the new physician legislation does not include a volume baseline adjustment. We understand, however, that it is critical that the law be drafted so as to preclude such an adjustment being applied by HCFA or the Congressional Budget Office. ASIM urges the committee to draft the legislation in such a way as to absolutely preclude the application of a behavioral offset to either the EKG or new physician proposals. ASIM commends you and the other members of the subcommittee for taking the lead last year to oppose behavioral offset adjustments in the fee schedule, by introducing and cosponsoring H.R. 3070. We appreciate your willingness to take a similar position on the new physician and EKG proposals, so that the offsetting reductions in other services, particularly primary care serviced, are minimized.

We recognize that as a consequence of the proposed legislation on EKSs and new physicians, payments for primary care and other services will be lower than they otherwise would have been. For the record, however, your July 13 letter overstates the adverse impact on primary care services. Based on the estimates provided by HCFA, and the transition formula mandated by OBRA 89, the reduction in payments for E/M serviced in transition that would be caused by the EKG legislation would be 2.0% in 1993, 2.2% in 1994, 2.4% in 1995, and 2.7% in 1996. The impact of the EKG legislation on E/M services paid at the full fee schedule amount would be 2.7% in 1993 and thereafter. Since it is our understanding that the new physician payments would be funded by an across the board averaged reduction of 1.2% in all services, the combined effect of the EKG and new physician proposals on payments for the 66% of all E/M services in transition would be 3.2. percent in 1993, 3.4 percent in 1994, 3.6% in 1995, and 3.9% in 1996. The combined effect of both legislative proposals in E/M services paid at the full fee schedule is 3.9 percent in 1993 and thereafter. An explanation of our calculations are attached. Since the calculations are based on estimates from and conversations with HCFA staff, we are confident that they more accurately represent the impact of the proposals than the "reductions of over four percent in payments for office visits and primary care services on January 1, 1993" alluded to in your letter. ASIM requests that the full committee be provided with these revised, corrected estimates. We will be glad to discuss our estimates with subcommittee, HCFA, and CBO staff if necessary.

Obviously, if the new physician and EKG provisions are scored to include a behavioral offset, the reduction in E/M services would be significantly (and unacceptably) increased.

In gauging the impact on primary care of the specific legislation to restore payments for EKG interpretation, and the overall policy of repealing the payment limits on new physicians, several other things should be kept in mind. First, the .37 percent reduction in relative values is due to correction of HCFA's error in calculating the add-ons; it is our understanding that this correction would be required even if there was no legislation enacted to restore payments for EKG interpretation. Second, most visits in transition would still be expected to experience modest gains in payment in 1993 and thereafter, since the reductions are taken from increasing RBRVS payment levels, instead of the absolute reductions implied by the letter. Third, the relative value units (RVUs) for visits that are to be stripped out under the subcommittee's amendment were added on the HCFA solely to pay for EKG interpretations provided in conjunction with the visit. There was no expectation that physicians would be able to keep the add-ons once separate payments were restored. Since the RVUs were added to all physician visits, regardless of whether or not the physician actually performs EKG interpretation, it is more fair to the many primary care physicians and others who perform EKG interpretation to have the add-ons stripped off, and separate EKG interpretation payments restored, than maintaining the add-ons. Fourth, the many primary care physicians who perform EKG interpretation in their offices will have a direct (although modest in most cases) financial benefit from full restoration of EKG payments. The benefits of paying EKG interpretation will, for many primary care physicians, offset all or part of the reductions in payments for E/M services. Finally, although primary care *services*—defined by law as office, nursing, and home visits—are currently exempt from the new physician payment limitations, all other services by primary care physicians are subject to those limits. Therefore, primary care services will gain under repeal of the new physician limits, although to a lesser degree than other specialties.

It should be noted that ASIM supports the new physician amendment as a matter of principle even though physicians in other nonprimary care specialties will benefit financially to a greater degree. Therefore, we expect that the committee will reject the complaints of surgical groups that are unwilling to contribute anything to the EKG correction on the basis that they will not gain as much financially from the measure. Fairness suggests that if the primary care specialties support an amendment that disproportionately benefits other physicians, at the cost of lower payments for their E/M services, the surgeons similarly should contribute to the EKG correction.

We support the EKG and new physician provisions, despite the adverse impact and other primary care services, because we believe that the principles that were at stake were so important that legislative correction is essential. And frankly, under current budget restraints, we were left with no other viable option than to reluctantly accept reductions in other services to pay for the required legislation.

But we must emphasize that notwithstanding our support for the EKG and new physicians amendments, we are extremely concerned about the overall erosion of the payment gains for primary care and other E/M services that are occurring as the fee schedule is implemented. HCFA's volume baseline and asymmetry adjustments from the outset significantly lowered the gains for primary care. Since the EKG and new physician legislation will further reduce those gains, it is absolutely essential that Congress take action to block policies that will further reduce payments for those services. We have previously urged the committee to block the higher 1993 update for surgery, require a single update in 1993, and to permanently change the law to prevent a higher surgical update from occurring in the future. ASIM urges you to reconsider your support for the higher surgical update, and to instead work for legislation that would require a single up date in 1993 and thereafter. We are also quite concerned about the projection that HCFA's rescaling of all relative values will reduce payments for office visits by as much as one percent. Our observations of the rescaling process have led us to conclude that many procedures may be granted higher relative values than are justified by the actual resource costs of providing those services. ASIM has strongly advised HCFA that such an outcome would be unacceptable, and we urge the committee to exercise oversight to assure that primary care services are not compromised during the rescaling process.

We will also be asking Congress to commit to a legislative agenda to create incentives for physicians to practice in general internal medicine and other primary care specialties. Otherwise, we believe that there will be too few primary care physicians to serve the needs of Medicare patients, particularly with the greying of the population. This will require a significantly greater investment of public funds in primary care. It has become apparent that the primary care and other E/M services will not gain enough under the new fee schedule to create sufficient incentives for primary care. That is why we will be urging Congress not only to oppose policies, such as the higher surgery update, that would further reduce the already-modest gains for primary care that will occur under the fee schedule, but to adopt an activist agenda to increase funding for primary care. In the near future, ASIM will be providing you with our specific recommendations on a legislative package to revitalize general internal medicine and other primary care specialties.

In conclusion, ASIM urges the Ways and Means Committee to:

1. Enact the EKG and new physician provisions approved by the subcommittee, but assure that the offsetting reductions in payments to other services that would result are not greater than required because of inappropriate application of a behavioral offset. We recognize that under current budget rules, enactment of these provisions will still result in offsetting reductions in payments in other services, including some primary care and other E/M services.
2. Block the higher 1993 update for surgery and require a single update in all future years.
3. Exercise oversight to assure that primary care and other E/M services are not lowered as a result of gaming of the RVU refinement process.
4. Work with us on developing an activist legislative agenda to significantly increase the public investment in primary care, including legislation to increase Medicare payments for primary care by an amount that is significantly greater than the modest improvements now expected from the fee schedule.

Sincerely,

ALAN R. NELSON, MD,
Executive Vice President.

2. Payments for new physicians and practitioners

PRESENT LAW

New physicians and practitioners receive reduced payments during their first four years of practice. These reductions were imposed on the first two years of practice by OBRA 87 and extended to the third and fourth years of practice in OBRA 90. Payments are 80 percent of the amount otherwise recognized during the first year of practice, 85 percent during the second year, 90 percent during the third year, and 95 percent during the fourth year. These reductions apply to payments under the fee schedule, prevailing charges, or other fee schedule payment amounts.

HOUSE BILL

No provision.

SENATE AMENDMENT

Repeals reductions in payments to new physicians and practitioners and requires that payments under Section 1848 be no greater or less than they would be in the absence of the repeal.

Effective date.—Applies with respect to physicians' services furnished on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment with a technical clarification on the budget neutrality adjustment. The Secretary is required to reduce the following values and amounts for 1993 (to be applied for that year and subsequent years) by so that Part B expenditures would not exceed the amount of expenditures that would have been made in the absence of this provision. The specified values and amounts are: (i) the relative values for services (except for anesthesia services, where the reduction is to the conversion factor); (ii) the historical payment portion of the 1993 transition payment; and (iii) the prevailing charge or fee schedule amounts to be applied for services of a health care practitioner (as that term was defined before enactment of this Act).

3. Retaining payment for actual anesthesia time

PRESENT LAW

Anesthesia services are paid on the basis of a fee schedule. One component of the fee schedule is actual time spent administering anesthesia. In the proposed rule implementing the RBRVS physician fee schedule, HCFA announced its intention to eliminate the use of actual time and substitute average time. In the final rule, HCFA stated that it would continue to use actual time temporarily while it analyzed other methods of accounting for time in the payment of anesthesia services.

HOUSE BILL

No provision.

SENATE AMENDMENT

Prohibits HCFA from changing the methodology of calculating anesthesia time in the fee schedules for anesthesia services until January 1, 1997. The Comptroller General of the General Accounting Office is required to: (1) study the actual time reported for anesthesia services under Medicare; (2) compare the actual time reported for a procedure during 1991 with the time reported for the same procedure during each of the 4 succeeding years; (3) evaluate the extent to which the actual time reported for a procedure has increased or decreased during this period; and (4) determine (to the extent practicable): (a) whether increases or decreases are the result of changes in medical practice, physician responses to reductions in payments for anesthesia services, or other factors; and (b) the effect of such increases or decreases on Medicare expenditures for anesthesia services. An interim report to Congress is due by July 1, 1994 and a final report is due by July 1, 1996. The Comptroller General is required to consult with the Physician Payment Review Commission (PPRC) in designing the study. PPRC is required to comment on the interim and final reports.

Effective date—Enactment.

CONFERENCE AGREEMENT

The Conference agreement includes the Senate amendment with a modification. The agreement makes the payment provision permanent and does not include the requirement for a GAO study.

4. Geographic cost of practice index refinements

PRESENT LAW

One of the components of the Medicare fee schedule for physicians' services is a geographic cost of practice index (GPCI), which is designed to measure local variations in the costs of practicing medicine. HCFA has previously indicated that they intend to revise the GPCI by 1995. Some have raised concerns that the index uses outdated Bureau of Census data and may not accurately reflect true variations in practice expenses.

HOUSE BILL

No provision.

SENATE AMENDMENT

Requires HCFA to review and revise the geographic practice cost index by January 1, 1994 using the most recent data on practice expenses, malpractice expenses and physicians' work effort. The Secretary of HHS would be authorized to take unique local circumstances into account in revising the index. The Secretary is required to study and report to Congress on the construction of the index by April 1, 1993.

Requires the Secretary to study and report on: (1) the data necessary to review and revise the GPCI indices, including the shares allocated to physicians' work effort, practice expenses (other than malpractice expenses) and malpractice expenses; the weights assigned to the input components of such shares; and the index values assigned to such components; (2) any limitations on the availability of data necessary to review and revise the indices at least every 3 years; (3) ways of addressing such limitations, with attention to the development of alternative data sources for input components for which current index values are based on data collected less frequently than every three years; and (4) the costs of developing more accurate and timely data sources.

Requires the Physician Payment Review Commission to study and report to Congress by July 1, 1993 on the feasibility and desirability of providing for a special adjustment to the index value of the medical equipment and supplies input component of the index with respect to services: (1) furnished by a physician who practices in an isolated area; (2) requiring the present of expensive medical equipment and supplies in the physician's office; and (3) equipment whose operating costs per service are increased by low-volume use.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment with an amendment. The Secretary is required to consult with representatives of physicians in reviewing geographic adjustment factors and indices. The deadline for the initial review and revision of the geographic adjustment factor is January 1, 1995. The requirement for consideration of unique local factors is not included. The Secretary is required to submit the report on the construction of the index by one year after enactment. The requirement for the PPRC report is not included.

In addition, the conference agreement requires the Secretary to fully develop and refine by December 31, 1993 the relative values for the full range of pediatric services. The Secretary is required to conduct a study of the relative values for pediatric and other services to determine whether there are significant variations in the resources used in providing similar services to different populations. In conducting the study, the Secretary is to consult with appropriate organizations representing pediatricians and other physicians and submit a report to Congress by January 1, 1994.

The conference agreement would also specify that payments for antigens and related services are to be paid under the physician fee schedule effective January 1, 1994.

5. Extra billing

PRESENT LAW

(a) Limitations on beneficiary liability.—OBRA '89 established limits on the amount above the Medicare approved payment amount nonparticipating physicians may charge Medicare beneficiaries. OBRA 89 permitted the Secretary to impose sanctions on physicians who knowingly and willfully bill above the limiting charge on a repeated basis. However, it did not specifically prohibit physicians from billing beneficiaries more than the limiting charge. OBRA 89 also did not require physicians to make refunds to beneficiaries when they billed above the limiting charge and did not absolve beneficiaries from liability for amounts they are billed above the medicare limiting charge.

(b) Pre-Payment Screening of Claims.—Carriers are not currently required by law to screen unassigned claims submitted by nonparticipating physicians prior to payment in order to determine whether the amount billed exceeds the limiting charge.

(c) Information Regarding Limiting Charges.—There is currently no requirement that beneficiaries be given information on the explanation of Medicare benefits (EOMB) form if physicians have charged beneficiaries in excess of the limiting charge.

(d) Medicare Beneficiary Advisory Council.—No provision.

(e) Applying the Limiting Charge to Nonphysician Services Provided Under the Physician Fee Schedule.—The five percent differential in payments to nonparticipating physicians and suppliers does not apply to nonphysician services furnished under the Medicare physician fee schedule. These services generally consist of the technical components of services, such as services rendered by free-standing radiology centers or independent physiological laboratories.

(f) Clarification of Mandatory Assignment Rules for Certain Practitioners—There is some ambiguity in current law regarding the application of mandatory assignment rules for certain nonphysician practitioners.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Limitations on Beneficiary Liability.—Prohibits nonparticipating physicians from billing or collecting from any person an actual charge in excess of the Medicare limiting charge. The provision would specify that no person is liable for payment of any amount billed in excess of the limiting charge. It would also require physicians who bill or collect amounts exceeding the limiting charge by more than $1 to: (1) refund the full amount collected in excess of the limiting charge; (2) reduce the outstanding balance owed to the physician for other items and services furnished to the individual by the amount of the charge exceeding the limiting charge and refund any amount in excess of the outstanding balance; or (3) in the case of where the excess charges have not been collected by the physician, reduce the actual charge billed for the service to the amount approved by Medicare.

Requires carriers to notify a physician within 30 days if the physician has billed in excess of the limiting charge by at least $1. The physician would be required to refund or credit excess charges within 30 days unless the physician submits documentation supporting application of a different limiting charge to the carrier within 15 days of receipt of the notice of overcharge. In the case of a physician who submits documentation questioning the limiting charge, the carrier would be required to respond to the physician within 30 days with a determination of agreement or disagreement with the physician's documentation regarding the limiting charge.

Specifies that is a physician (1) knowingly and willfully bills in excess of the limiting charge; (2) collects charges exceeding the limiting charge on a repeated basis; or (3) fails to comply with the refund requirements the Secretary would be authorized to impose sanctions in accordance with Section 1842(j) of the Social Security Act.

(b) Pre-Payment Screening of Claims.—Requires carriers to screen 100 percent of unassigned claims submitted by nonparticipating physicians prior to making payment to determine whether the amount billed exceeds the limiting charge.

(c) Information Regarding Limiting Charges.—Requires carriers to provide limiting charge information on the explanation of Medicare benefits form after the submission of an unassigned claim which exceeds the limiting charge by at least $1.

Requires the Secretary to report to Congress annually on the extent to which annual charges exceeded limiting charges, the number and types of services involved, and the average amount of excess charges.

(d) Medicare Beneficiary Advisory Council.—Creates a Medicare Beneficiary Advisory Council composed of 15 Medicare beneficiaries. The Secretary is required to appoint members to the Council based on nominations submitted by organizations representing elderly and disabled populations. The Council is required to meet once each quarter to discuss proposed regulations, carrier manual instructions, and any other issues with a direct or indirect impact on delivery, cost, quality, or expansion of Medicare services. To the extent feasible and consistent with statutory deadlines, the consultation is to occur before the publication of proposed changes. Reimbursement to council members would be the same as for other members of advisory councils established by the Secretary.

(e) Applying the Limiting Charge to Nonphysician Services Provided Under the Physician Fee Schedule.—Applies the 5 percent differential between payments to participating and nonparticipating physicians and suppliers and limiting charge restrictions to the technical components of nonphysician services paid on the basis of the physician fee schedule.

(f) Clarification of Mandatory Assignment Rules for Certain Practitioners.—Specifies that physicians' assistants, nurse practitioners, clinical nurse specialists, certified registered nurse anesthetists, certified nurse-midwives, clinical social workers and clinical psychologists may only bill for services on an assignment-related basis and that no person is liable for amounts billed in violation of the assignment-related basis. The Secretary may impose sanctions under Section 1842(j) of the Social Security Act on a practitioner who knowingly and willfully bills in violation of this requirement.

Effective date.—Applies to services furnished on or after January 1, 1993, except for (d) which is effective on enactment.

CONFERENCE AGREEMENT

(a) Limitations on Beneficiary Liability.—The conference agreement includes the Senate amendment with an amendment. The agreement does not specify the $1 trigger for violation of the balance billing limits in the statutory language. However, the conferees understand that Medicare carriers currently ask for a refund where the actual charge exceeds the limiting charge by at least one dollar. Similarly, Medicare carriers include information on the Explanation of Medicare benefits form where the limiting charge exceeds the actual charge by at least one dollar. The conferees believe that the use of a one dollar nominal threshold before application of the refund provision (as well as for the reduction of an actual charge where the physician has not collected and for the EOMB) is an appropriate policy that would be consistent with the intention of this provision.

The agreement revises the provision relating to timeliness of refunds to specify that a refund is considered to be provided on a timely basis if the reduction or refund is made not later than 30 days after the date the physician, supplier, or other person is notified by the carrier of the violation. The provision clarifies that the refund requirement does not apply to other third party payers. The provision relating to the physician response to the carrier notice is revised. The agreement clarifies the sanctions provisions.

The agreement makes it clear that the limiting charge policy and enforcement thereof applies to the physician, supplier or supplier or other person performing the service as well to any person billing or receiving payment on behalf of such physician, supplier, or person.

The agreement requires that a refund be made to the individual charged if there is a charge in excess of the limiting charge.

(b) Prepayment screening of claims.—The conference agreement includes the Senate amendment.

(c) Information Regarding Limiting Charges.—The conference agreement includes the Senate agreement with an amendment making explicit the requirement that the EOMB include information on the beneficiary's right to a refund.

(d) Medicare Beneficiary Advisory Council.—The conference agreement does not include the Senate amendment.

(e) Applying the Limiting Charge to Nonphysician Services Furnished Under the Physician Fee Schedule.—The conference agreement includes the Senate amendment. The agreement extends the extra billing limits and participation differential so that they apply to any nonparticipating supplier or other person who furnishes a physician's service that is paid for under the physician fee schedule, or services that would be paid under the fee schedule but have been excluded from the fee schedule by the Secretary.

(f) Clarification of Mandatory Assignment Rules for Certain Practitioners.—The Conference agreement includes the Senate amendment with clarifying language.

In addition, the conference agreement includes provisions relating to administration of claims relating for physicians' services. The agreement prohibits the Secretary from imposing any fees related to the filing of claims for physicians' services, for claims errors or denials, for administrative appeals, for obtaining unique identifier numbers, or for responding to inquiries concerning the status of pending claims.

In addition, the agreement clarifies the conditions under which the Secretary can recognize substitute billing arrangements between two physicians. Such substitute billing arrangements must either be informal, reciprocal, coverage agreements or per diem or other fee-for-time agreements. The duration of such agreements is limited to 60 continuous days, and claims for services provided pursuant to such agreements must include the unique identifying number of both physicians. These requirements are effective for services provided under such arrangements in the first month beginning more than 60 days after the enactment of this Act.

6. Durable medical equipment

PRESENT LAW

(a) Standards for Obtaining Supplier Numbers.—There are no statutory standards that suppliers of durable medical equipment (DME), prosthetic devices, prosthetics and orthotics, surgical dressings, splints, casts, and other devices for fractures and dislocations, home dialysis supplies, and immunosuppressive drugs must meet in order to supply items to Medicare beneficiaries.

(b) Uniform National Coverage and Utilization Review Requirements for 200 Selected Items.—There are no uniform coverage or utilization review criteria in current DME law. HCFA is currently in the process of developing uniform coverage (b) Prepayment screening of claims and utilization review policies for 100 items of its own choosing.

(c) Standardized Certificates of Medical Necessity.—There are currently no standardized medical necessity certificates.

(d) Distribution of Certificates of Medical Necessity.—OBRA 90 prohibited suppliers of durable medical equipment from distributing, for commercial purposes, completed or partially complete certificates of medical necessity to physicians or Medicare beneficiaries.

(e) GAO Studies.

(i) Supplies and Services in Nursing Facilities.—No provision.

(ii) Variations in Quality of Equipment.—No provision.

(f) Modification of Anti-Kickback Law.—Current law exempts employees in bona-fide employment relationships from penalties assessed for knowingly and willfully soliciting or receiving remuneration (including kickbacks, bribes, or rebates) or offering or paying remuneration as an incentive for Medicare business.

(g) Limitations on Beneficiary Liability.—There are no limits on balance billing for medical equipment and supplies, and there are no circumstances specified in current law under which beneficiaries are not liable for charges for items furnished by suppliers on an unassigned basis.

(h) Prohibition Against Multiple Billing Numbers.—No provision.

(i) Treatment of Nebulizers and Aspirators.—There are five categories in the DME fee schedule. Aspirators and nebulizers are in a category entitled items requiring frequent and substantial servicing. These items may only be rented on the grounds that they require frequent servicing in order to avoid imminent danger to a beneficiary's health.

(j) Application of National Payment Limits to Some Items of Prosthetics and Orthotics.—Ostomy supplies, tracheotomy supplies, urologicals, surgical and other medical supplies are included in the prosthetics and orthotics fee schedule, which is subject to regional payment limits.

(k) Parenteral and Enteral Nutrients, Supplies and Equipment.—Payment for parenteral and enteral nutrients, supplies and equipment is made on the basis of reasonable charges, updated by the CPI-U.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Standards for Obtaining Supplier Numbers.—Requires the Secretary to revise, by January 1, 1995, uniform national standards for suppliers of these items. The standards would require suppliers to (1) comply with all applicable State and Federal licensure and regulatory requirements; (2) maintain a physical facility and inventory on an appropriate site; (3) have proof of appropriate liability insurance; (4) meet other requirements established by the Secretary. In addition, beginning July 1, 1993, suppliers will not be reimbursed for these items unless they have a Medicare provider number.

(b) Uniform National Coverage and Utilization Review Requirements for 200 Selected Items.—Requires the Secretary, in consultation with representatives of DME suppliers, beneficiaries and medical specialty organizations, to develop and establish uniform national coverage and utilization review criteria for 200 items of DME, prosthetic devices, prosthetics and orthotics, and surgical dressings. The criteria are to be published as instructions to carriers and intermediaries, and no further publication, including Federal Register publication, would be required.

Specifies that the Secretary may select an item for coverage if: (1) the item is frequently rented or purchased by beneficiaries; (2) the item is frequently subject to a determination that it is not medically necessary; or (3) coverage or utilization review criteria applied to the item is not consistent among carriers. The Secretary would be required annually to review and determine whether items not on the list should be subject to uniform national coverage and utilization review criteria and to subject them to these criteria if necessary. The Secretary would also be required to submit a report to Congress by January 1, 1994 analyzing the impact of these uniform criteria on the utilization of items subject to the criteria by Medicare beneficiaries.

(c) Standardized Certificates of Medical Necessity.—Requires the Secretary to develop, by July 1, 1993, one or more standardized certificates of medical necessity for durable medical equipment, prosthetic devices, orthotics and prosthetics, and surgical dressings and other devices (to be completed by the prescribing physician) if a certificate of medically necessity is required by the Secretary.

(d) Distribution of Certificates of Medical Necessity.—Extends the OBRA 90 provision prohibiting DME suppliers from distributing medical necessity forms to suppliers of prosthetics and orthotics and prosthetic devices. Modifies the prohibition provision by permitting suppliers to complete information identifying beneficiaries and suppliers, a description of the item, a product code identifying the item, and any other information required by the Secretary. If a supplier provides any of the above information on a certificate of medical necessity, the supplier would be required to include the actual purchase or rental price paid by Medicare prior to distribution to the physician for completion.

(e) GAO Studies.

(i) Supplies and Services in Nursing Facilities.—Requires the Comptroller General to study and report to Congress by January 1, 1994 on the types, volume and utilization of services and supplies furnished under contract or under arrangement with suppliers to Medicare beneficiaries residing in skilled nursing facilities and nursing facilities.

(ii) Variations in Quality of Equipment.—Requires the Comptroller General to study and report to Congress by July 1, 1994 on whether changes made by the Department of Health and Human Services to the descriptions of HCPCS codes for DME, prosthetics and orthotics, prosthetic devices and surgical dressings covered by Medicare (1) accurately reflect the items being furnished under the codes; and (2) are sufficiently explicit to distinguish between items of varying quality and price. GAO's evaluation would not begin before July 1, 1993; its report to Congress would be due by July 1, 1994. The Comptroller General would also be required to make recommendations for additional changes to improve the descriptions of codes.

(f) Modification of Anti-Kickback Law.—Specifies that the exemption from anti-kickback penalties for employees in bona-fide employment relationships with providers of Medicare-covered services and supplies does not include the tasks of transmitting assignment rights of Medicare beneficiaries to suppliers of covered items, or performing warehousing or stock inventory functions.

(g) Limitations on Beneficiary Liability.—Stipulates circumstances under which Medi-

care beneficiaries are not financially liable for covered items furnished by a supplier on an unassigned basis. Unless suppliers inform beneficiaries in advance that an item is not covered by Medicare and beneficiaries choose to accept responsibility for paying for the item, beneficiaries are not obligated to pay for an item if: (1) the supplier is excluded from Medicare participation; (2) Medicare has denied payment for the item in advance; or (3) the supplier does not meet Medicare standards for suppliers of medical equipment and supplies.

(h) Prohibition Against Multiple Billing Numbers.—Prohibits the Secretary from issuing more than one billing number to any supplier, unless the issuance of more than one number is appropriate to identify subsidiary or regional entities under the supplier's ownership or control.

(i) Treatment of Nebulizers and Aspirators.—Removes aspirators and nebulizers from the category of DME items requiring frequent and substantial servicing and includes disposable supplies used in conjunction with aspirators and nebulizers in the category of inexpensive and other routinely purchased equipment.

(j) Application of National Payment Limits to Some Items of Prosthetics and Orthotics.—Subjects ostomy supplies, tracheotomy supplies, urologicals, surgical dressings, splits, casts and other devices for reduction of fractures to national payment limits. For surgical dressings, splints, casts and other devices for reduction of fractures, average reasonable charges for the six-month period ending June 30, 1992, increased by the covered item update for 1993, will be used as the base period for calculating national payment limits.

(k) Parenteral and Enteral Nutrients, Supplies and Equipment.—Eliminates the 1993 payment update for parenteral and enteral nutrients, supplies and equipment.

Effective date.—(a) Effective beginning after December 31, 1994 for each supplier applying for or renewing a supplier number. (b) Enactment. (c) Applies to certificates of medical necessity on or after July 1, 1993. (d) Applies to certificates of medical necessity on or after January 1, 1993. (e) Enactment. (f), (j), (k) Effective for items and services furnished on or after January 1, 1993. (g), (h), (i) Effective for items and services furnished on or after July 1, 1993.

CONFERENCE AGREEMENT

(a) Standards for Obtaining Supplier Numbers.—The conference agreement follows the Senate amendment, with modifications (1) to clarify that the requirement for suppliers to obtain a supplier number does not apply to medical equipment and supplies furnished as an incident to a physician's service, and (2) to specify that the requirement for supplier numbers applies to durable medical equipment, prosthetic devices, orthotics and prosthetics, surgical dressings, such other items as the Secretary may determine, and home dialysis supplies and equipment and immunosuppressive drugs. The conferees understand that the revised supplier standards would apply to all new suppliers beginning January 1, 1995 and to current suppliers as they renew their supplier numbers. The renewal of supplier numbers for current suppliers will be phased in over a two-year period.

In addition, the conference agreement includes an amendment to prohibit suppliers from making unsolicited telphone contacts with Medicare beneficiaries, unless the individual gives permission to the supplier, or the supplier has furnished the individual with a covered item within the preceding 15 months. Medicare can not pay for items provided subsequent to a prohibited telephone contact. The Secretary is required to exclude from programs under the Social Security Act suppliers who knowingly make prohibited telephone contacts to such an extent that the supplier's conduct establishes a pattern of contacts in violation of the prohibition. Beneficiaries are not liable for the cost of items provided as a result of prohibited telephone contacts, and the supplier must refund any amounts collected on a timely basis or be subject to certain sanctions.

The conference agreement also authorizes the Secretary to designate by regulation one carrier for one or more entire regions to process all claims within the region for covered durable medical equipment, prosthethic devices, and orthotics and prosthetics. Suppliers are required to submit claims to the carrier having jurisdiction over the geographic area that includes the permanent residence of the patient to whom the item is furnished.

(b) Uniform National Coverage and Utilization Review Requirements for 200 Selected Items.—The conference agreement includes the Senate amendment.

(c) Standardized Certificates of Medical Necessity.—The conference agreement follows the Senate amendment with an amendment to delete language requiring certificates to be completed by the prescribing physician and transmitted to the supplier and then to the carrier.

(d) Distribution of Certificates of Medical Necessity.—The conference agreement follows the Senate amendment. The prohibition on distributing certificates of medical necessity would continue to apply to overused items. An exception would be granted for nonabused items.

(e) GAO Studies.—

(i) Supplies and Services in Nursing Facilities.—The conference agreement does not include the Senate amendment.

(ii) Variation in Quality of Equipment.—The conference agreement does not include the Senate amendment.

The conference agreement requires the Sercretary (1) to conduct a study and report to Congress on the effects of the methodology for determining payments for durable medical equipment items and supplies on the ability of persons entitled to disability benefits to obtain equipment, including customized equipment; and (2) to submit to Congress a report describing items of durable medical equipment treated as prosthetic devices or othotics and prosthetics for purposes of determining the amount of payment for such items under Part B of Medicare that do not require individualized or custom fitting and adjustment.

(f) Modification of Anti-Kickback Law.—The conference agreement follows the Senate amendment with a modification to specify that the exemption from anti-kickback penalties for employees in bona-fide employment relationships with providers of Medicare covered services does not include the tasks of transmitting assignment rights of Medicare beneficiaries to suppliers of covered items, or performing warehousing or stock inventory functions in the case of a contract supply arrangement between any entity and a supplier of durable medical equipment and supplies.

(g) Limitations on Beneficiary Liability.—The conference agreement follows the Senate amendment with a modification to apply the refund policy related to prohibited phone contacts to limitations on beneficiary liability.

(h) Prohibition Against Multiple Billing Numbers.—The conference agreement follows the Senate amendment with an amendment to prohibit the Secretary from delegating the responsibility to issue supplier numbers to any non-governmental entity.

(i) Treatment of Nebulizers and Aspirators.—The conference agreement includes the Senate amendment with a technical clarification that specifies that separate payment will be made for accessories used in conjunction with nebulizers and aspirators. The conferees do not intend to interfere with the Secretary's existing authority for payment for accessories for other durable medical equipment items and suppliers by granting explicit statutory authority for payment of accessories used in conjunction with nebulizers and aspirators.

(j) Application of National Payment Limits to Some Items of Prosthetics and Orthotics.—The conference agreement follows the Senate amendment, with a modification that specifies that payment for surgical dressings shall be made in a lump sum in an amount equal to 80 percent of the lesser of the actual charge for the item or the national payment limit (computed based on local payment amounts using average reasonable charges for the 6-month period ending June 30, 1992, increased by the covered item update for 1993).

(k) Parenteral and Enteral Nutrients, Suppliers and Equipment.—The conference agreement includes the Senate amendment.

In addition, the conference agreement reduces the DME fee schedule amount for transcutaneous electrical nerve stimulation (TENS) devices by 30 percent.

The conference agreement also includes an amendment to clarify that the authority for adjustments for inherent reasonableness apply to durable medical equipment fee schedules and that such adjustments are to be based on the prices and costs applicable at the time the item is furnished. The Secretary is also required to determine whether the payment amounts for decubitus care mattresses, transcutaneous electrical nerve stimulators, and any other items considered appropriate by the Secretary are inherently reasonable and to adjust payments for these items if the amounts are not inherently reasonable.

7. Designation of certain hospitals as eye and ear hospitals

PRESENT LAW

Hospitals designated as eye and ear hospitals receive a blended payment rate for ambulatory surgery for which 75 percent is based on the hospital's costs and 25 percent is based on the rate paid to freestanding Ambulatory Surgery Centers (ASCs). This special rule applies for cost reporting periods beginning on or after October 1, 1988 and before January 1, 1995. In general, the blended payment rate to hospitals for outpatient surgery is based 42 percent on costs and 58 percent on the ASC rate. To receive designation as an eye or ear hospitals, a facility must specialize in these services, receive more than 30 percent of its revenue from outpatient services, and must have been an eye or ear hospital on October 1, 1987.

HOUSE BILL

No provision.

SENATE AMENDMENT

Extends eligibility for designation to hospitals that otherwise meet the criteria but on October 1, 1987, operated as a physically separate or distinct eye and ear unit of a general acute care hospital which has since discontinued its other acute care operations.

Effective date.—Effective for services furnished on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment.

8. Extension of payment limit for intraocular lenses (IOLs)

PRESENT LAW

OBRA 90 established a payment limit of $200 for intraocular lenses inserted during 1991 and 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

Extends the $200 payment limit for 1993 and 1994.

Effective date.—Effective as if included in OBRA 90.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment.

9. Nurse-midwife services

PRESENT LAW

OBRA 87 provided for direct reimbursement of certified nurse midwives under both Medicare and Medicaid. The statutory definition of certified nurse midwives limits services to those regarding the care of mothers and babies during the maternity cycle, but the definition of covered services does not contain the restriction regarding the maternity cycle.

HOUSE BILL

No provision.

SENATE AMENDMENT

Modifies the definition of covered nurse midwife services, effective January 1, 1994, by eliminating the restriction that services include only those regarding the care of mothers and babies during the maternity cycle.

Effective date.—Effective for services furnished on or after January 1, 1994.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

10. Clarifying payments for medically-directed certified registered nurse anesthetists

PRESENT LAW

OBRA 90 set payment levels for both non-medically directed certified registered nurse anesthetists (CRNAs) and medically directed CRNAs. Payment levels for non-medically directed CRNAs were set at 100 percent of the amount paid to physicians for providing the same service and payments to medically directed CRNAs where set at 70 percent of the amount paid to physicians. These services are paid on the basis of a fee schedule which contains a dollar conversion factor. OBRA 90 specified the dollar conversion factors for these payments through 1997 based on the amount physicians would be paid for these services. Since that time, however, the actual amounts paid to physicians for these services have been lowered as a result of refinements to physician payments. As a result, the dollar conversion factors specified in the law are too high. However, since OBRA 90 also contains a provision which specifies that payments to CRNAs may not exceed the amount paid to physicians for the same service, only payments to medically directed CRNAs require a statutory correction.

HOUSE BILL

No provision.

SENATE AMENDMENT

Specifies that the conversion factor used to determine payments to medically-directed CRNAs would be frozen at $10.75, from 1993 through 1997. This is the same conversion factor used in 1992.

Effective date.—Effective for services furnished on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement follows the Senate amendment with an amendment that continues the update factor for physician anesthesia services for 1997 and subsequent years.

11. Extension of Alzheimer's demonstration projects

PRESENT LAW

ORBA 86 authorized $40 million to conduct up to 10 Alzheimer's disease demonstration projects to provide comprehensive services to Medicare beneficiaries with Alzheimer's disease. The demonstrations were originally authorized for three years, but were extended an additional year in OBRA 90.

HOUSE BILL

No provision.

SENATE AMENDMENT

Extends the Alzheimer's disease demonstration projects for an additional year.

Effective date.—Enactment.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment.

In addition, the conference agreement includes a provision to extend the Medicare Influenza Vaccination Demonstration for 6 months, until April 1, 1993.

12. Nurse practitioners and physicians' assistants

PRESENT LAW

Under current law, nurse practitioners and clinical nurse specialists working in collaboration with a physician and physicians' assistants working under the supervision of a physician may bill Medicare Part B if they are working in specified settings. Payment may not be made directly to physicians' assistants, but must be made to the person or entity employing the physicians' assistant. Payment for nurse practitioners, clinical nurse specialists, certified nurse-midwives and physicians' assistants must be made on an assignment-related basis and are subject to Part B coinsurance and deductible requirements.

Reimbursement varies with the setting in which services are performed. For services provided by physicians' assistants serving as an assistant-at-surgery, payment is limited to the lesser of the actual charge or 65 percent of the amount that would be paid to an physician serving as an assistant-at-surgery. For services rendered in hospitals, other than as an assistant-at-surgery, payment is limited to the lesser of the actual charge or 75 percent of the amount paid to physicians for performing that service. In all other settings, payment is limited to the lesser of the actual charge or 85 percent of the amount that would be paid to physicians for performing that service.

Employers of physicians' assistants may bill Medicare Part B directly for services performed in a rural health professional shortage area (HPSA). Nurse practitioners and clinical nurse specialists may bill Medicare Part B for services performed in a rural area, including hospitals. Physicians who employ physicians' assistants, nurse practitioners and clinical nurse specialists may bill Medicare for services provided by these practitioners as incident to physicians' services.

HOUSE BILL

No provision.

SENATE AMENDMENT

Expands the settings in which nurse practitioners, clinical nurse specialists and physicians' assistants may bill Medicare Part B for services performed to include all outpatient settings. Payment for services in settings not already authorized in law would be established at 80 percent of: (a) the lesser of the actual charge; or (b) 85 percent of the fee schedule amount that would be paid if the services were performed by a physician. Nurse practitioners and clinical nurse specialists would be permitted to bill Medicare independently, but only on an assignment-related basis. Services rendered by physicians' assistants must also be billed on an assignment-related basis by the person employing a physician's assistant, as in current law.

Effective date.—Effective for services furnished on or after January 1, 1994.

CONFERENCE AGREEMENT

The conference agreement does not include the Senate amendment.

13. Oral cancer drugs

PRESENT LAW

Under current law, Medicare coverage for outpatient prescription drugs (with some exceptions for immunosuppressive drugs and erythropoietin) is limited to drugs which can not be self-administered. Drugs which can be taken orally are not covered.

HOUSE BILL

No provision.

SENATE AMENDMENT

Extends Medicare coverage for oral cancer drugs if they are the same chemical entity as anticancer drugs covered by Medicare when administered intravenously. The proposal would also require uniform Medicare coverage for "off-label" cancer drugs if such drugs have been approved by the Food and Drug Administration (FDA), have appeared in specified peer-reviewed medical journals, or are included in one of the three specified major medical compendia.

Effective date.—Effective for items furnished on or after January 1, 1993.

CONFERENCE AGREEMENT

The conference agreement includes the Senate amendment with an amendment. The amendment excludes the provisions relating to coverage of "off-label" drugs.

14. Other provisions relating to Part B of the Medicare program

(a) Part B Premium Penalty for Late Enrollment.—The conference agreement caps the delayed enrollment penalty at 25 percent for Federal employees who meet the following conditions. First, at the time of the initial enrollment period, the individual delayed enrollment because he or she was enrolled in a group health plan that provided items or services covered under Part B. Second, the individual was enrolled in a group health plan that stopped providing coverage of such services subsequent to the individual's initial enrollment period.

The conference agreement includes provisions related to the Part B premium penalty for delayed enrollment. The agreement permits the Secretary, upon the request of a State to enter into an agreement with the State under which the State agrees to pay on a quarterly or other periodic basis to the Secretary an amount equal to the Part B delayed enrollment penalty with respect to individuals specified in the agreement with the State. Individuals covered under such an agreement would not be subject to a delayed enrollment penalty.

(b) Coverage of Speech-language Pathologists and Audiologists.—The conference agreement changes the term "speech pathologist" to "speech-language pathologist" where it appears, except that this amendment would not change the definition of services covered in any setting. A statutory definition of speech-language pathologists and audiologists would be established, consistent with current coverage guidelines.

(c) Municipal Health Service Demonstration Projects.—The conference agreement extends the waivers for the four municipal health service demonstration projects through December 31, 1997. In conducting the study mandated under OBRA 89, HCFA would include consideration of costs to Medicaid and other payers, access to care, outcomes, beneficiary satisfaction, and utilization differences among the different populations being served by the centers.

(d) Treatment of Certain Indian Health Programs and Facilities as Federally Qualified Health Centers.—The conference agreement revised the current definition of Federally Qualified Health Centers to include programs and facilities operated by Indian tribes under the Indian Self-Determination Act.

15. Other technical provisions pertaining to physician payments

PRESENT LAW

(a) Overvalued Procedures.—OBRA 90 subjected all unsurveyed overvalued services to a 6.5 percent reduction unless the law specifically exempted them from the reduction. Unsurveyed services are those not included in earlier surveys conducted to determine relative values of physicians' services; these unsurveyed services were considered to be overvalued. The list of services specifically exempted from the 6.5 percent reduction contained certain errors.

(b) Radiology Services.—OBRA 90 reduced the conversion factor for radiology services paid on the basis of a radiology fee schedule to a geographically adjusted amount, not to exceed 9.5 percent. However, as drafted, OBRA 90 contained an error that permits the conversion factors for services below the target to increase.

(c) Anesthesia Services.—OBRA 87 established a fee schedule for anesthesia services based on a relative value guide for anesthesia services and local conversion factor. OBRA 90 reduced local conversion factors to a geographical adjusted amount, not to exceed 9.5 percent. However, as drafted, OBRA 90 contained an error that permits the conversion factors for services below the target to increase.

(d) Assistants at Surgery.—OBRA 90 specified that payment to a physician serving as an assistant at surgery cannot exceed 16 percent of the payment made for the global surgical service.

(e) Technical Components of Diagnostic Services.—OBRA 90 capped the reasonable charge for technical components of specialized diagnostic services at the national median charge for the service in all localities.

(f) Statewide Fee Schedules.—OBRA 90 required the Secretary to treat the States of Nebraska and Oklahoma as statewide payment localities if they met certain requirements specified in the law. Each member of the Congressional delegation from those States and organizations representing urban and rural physicians would have to agree to the statewide locality provision. This requirement raised constitutional concerns relating to the separation of powers between the executive and legislative branches.

(g) Reciprocal Billing Arrangements.—OBRA 90 permitted physicians to submit a claim for a service provided by a second physician when the first physician was not available to provide the service. Such billing was permitted only in cases where the arrangement is temporary and reciprocal.

(h) Study of Aggregation Rule for Claims of Similar Physician Services.—OBRA 90 required the Secretary to study the effects of aggregating physician claims and report to Congress by December 31, 1992.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Overvalued Procedures.—Deletes some procedures from the list of exempted services and corrects errors in the names of other services. The procedures deleted from the list of exempted services are: lobectomy; anterectomy; colectomy; cholecystectomy; and sacral laminectomy.

(b) Radiology Services.—Specifies that conversion factors below the geographically adjusted amount could not be increased. The provision makes other technical changes to OBRA 90.

(c) Anesthesia Services.—Specifies that conversion factors below the geographically adjusted amount could not be increased. The provision makes other technical changes to OBRA 90.

(d) Assistants at Surgery.—Clarifies that balance-billing limits apply to physicians serving as assistants at surgery.

(e) Technical Components of Diagnostic Services.—Specifies that the limits on payment for the technical component of diagnostic services do not apply to services whose payments were reduced under the OBRA 89 overvalued procedure list.

(f) Statewide Fee Schedules.—Eliminates the OBRA 90 requirement for agreement from members of Congress and stipulates instead that Nebraska and Oklahoma were statewide localities in 1991.

(g) Reciprocal Billing Arrangements.—Amends OBRA 90 to clarify services that may be covered under reciprocal billing. All physician services, including services incident to physician services, would be covered. The provision would also permit reciprocal billing arrangements that are both informal or reciprocal (as in current law) or involve per diem or other fee-for-time compensation.

(h) Study of Aggregation Rule for Claims of Similar Physician Services.—Changes the date that the study must be submitted to Congress from December 31, 1992 to December 31, 1993.

Corrects a number of technical and drafting errors contained in OBRA 90 through minor and conforming amendments.

CONFERENCE AGREEMENT

(a) Overvalued Procedures.—The conference agreement follows the Senate amendment.

(b) Radiology Services.—The conference agreement follows the Senate amendment.

(c) Anesthesia Services.—The conference agreement follows the Senate amendment.

(d) Assistants at Surgery.—The conference agreement follows the Senate amendment.

(e) Technical Components of Diagnostic Services.—The conference agreement follows the Senate amendment.

(f) Statewide Fee Schedules.—The conference agreement follows the Senate amendment.

(g) Reciprocal Billing Arrangements.—The conference agreement follows the Senate amendment.

(h) Study of Aggregation Rule for Claims of Similar Physician Services.—The conference agreement follows the Senate amendment.

16. Other technical amendments relating to durable medical equipment

PRESENT LAW

(a) Updates to Payment Amounts.—OBRA 90 contains a drafting error that specified that the update to the durable medical equipment fee schedule for 1991 and 1992 was minus 1 percent.

(b) Potentially Overused Items and Advance Determinations of Coverage.—OBRA 90 included two provisions regarding special carrier review of potentially overutilized items and advance determinations of coverage for certain items. These two provisions were combined in drafting so that they do not properly reflect the conference agreement.

(c) Study in Variations in Durable Medical Equipment Supplier Costs.—OBRA 90 provided for a system of upper and lower limits on DME fees. The OBRA 90 conferees agreed to a study of regional variations in DME equipment supplier costs which was not included in the statutory language.

(d) Oxygen Retesting.—OBRA 90 included a provision requiring periodic retesting of beneficiaries receiving oxygen if their initial blood gas reading value was at or above a partial value of 55.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Updates to Payment Amounts.—Corrects the OBRA 90 error by specifying that the 1991 and 1992 update is the CPI-U minus one percentage point.

(b) Potentially Overused Items and Advance Determinations of Coverage.—Modifies OBRA 90 with respect to treatment of potentially overused items. The Secretary may add items to the list of potentially overused items if they are marketed directly to beneficiaries, if offers to waive coinsurance are made, if items have been subject to consistent patterns of overutilization, or if a high proportion of claims for an item are denied based on absence of medical necessity. Payment for items on this list cannot be made unless the carrier has subjected the claim to special scrutiny or has determined in advance whether an item is medically necessary and covered by Medicare. Carriers would also be required to make advance coverage decisions for customized items and to meet criteria developed by the Secretary to assure that advance coverage decisions are made on a timely basis.

(c) Study in Variations in Durable Medical Equipment Supplier Costs.—Requires HCFA to collect data on supplier costs for DME and analyze them to determine costs attributable to service and product components and the extent to which they vary by type of equipment and geographic region. the HCFA administrator would be required to submit a report and recommendations for a geographic cost adjustment index for DME supplies and an analysis of the impact of such an index on Medicare payments.

(d) Oxygen Retesting.—Corrects the OBRA 90 language regarding the arterial blood gas values to require retesting when a beneficiary's initial value is at or above 56.

Also makes technical corrections to Sections 4152 and 4153 of OBRA 90.

CONFERENCE AGREEMENT

(a) Updates to Payment Amounts.—The conference agreement includes the Senate amendment.

(b) Potentially Overused Items and Advance Determinations of Coverage.—The conference agreement includes the Senate amendment.

(c) Study in Variations in Durable Medical Equipment Supplier Costs.—The conference agreement includes the Senate amendment.

(d) Oxygen Retesting.—The conference agreement includes the Senate amendment.

17. Technical amendments relating to ambulatory surgical centers

PRESENT LAW

(a) Payment Amounts.—Current law requires the Secretary to update ambulatory surgery center payment rates by July 1, 1987 and annually thereafter, as determined appropriate by the Secretary. The OBRA 90 conferees had intended to include a provision requiring an annual update to ASC rates, but it was omitted from the law.

(b) Adjustments to Payment Amounts for New Technology Intraocular Lenses.—OBRA 90 included a provision capping payments for IOLs at $200 in 1991 and 1992. As drafted, the statutory language could be interpreted as limiting payments for cataract surgery to $200. The OBRA 90 conferees also agreed to a provision providing for a process by which the fee for new technology intraocular lenses (IOLs) could be adjusted. Statutory language reflecting this agreement was inadvertently omitted from OBRA 90.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Payment Amounts.—Establishes the update for ambulatory surgery services, beginning with fiscal year 1994, at the CPI-U for the 12 month period ending with March of the preceding year. The Secretary would be required to conduct a survey, based on a representative sample of procedures and facilities, beginning by July 1, 1993 and updated every 5 years thereafter, of the actual audited costs of ambulatory surgery facilities. The survey results would be used in establishing payment rates. The Secretary would be required to consult with appropriate trade and professional organizations in updating the list of procedures that can be performed in ambulatory surgery centers.

(b) Adjustments to Payment Amounts for New Technology Intraocular Lenses.—Requires the Secretary to develop and implement a process for reviewing reimbursement for new technology intraocular lenses (IOLs). In order to be considered a new technology IOL, the device would have to be approved by the FDA. The Secretary would also be required to consider specific circumstances in determining whether to adjust the payment amount for new technology IOLs. The provision also specifies administrative procedures for reviewing and approving new technology IOLs.

CONFERENCE AGREEMENT

(a) Payment Amounts.—The conference agreement follows the Senate amendment.

(b) Adjustments to Payment Amounts for New Technology Intraocular Lenses.—The conference agreement follows the Senate amendment.

18. Other technical amendments relating to Part B of the Medicare program

PRESENT LAW

(a) Revision of Information on Part B claims.—Each Part B claim for which the entity submitting the claim knows or has reason to believe that there has been a referral by physician must include the name and provider number of the referring physician and must indicate whether the referring physician is an investor in the entity.

(b) Consultation for Social Workers—OBRA 90 provided for direct reimbursement for the services of clinical psychologists and clinical social workers. The Secretary was required to develop criteria for psychologists' services under which psychologists would be required to consult with a patient's attending physician.

(c) Reports on Hospital Outpatient Payment.—OBRA 87 required the Prospective Payment Assessment Commission (ProPAC) to conduct a study of Medicare payment for hospital outpatient services. Part of the study was to be submitted to Congress by July 1, 1990 and part by March 1, 1991. Section 1135(d)(6) of the Social Security Act also requires the Secretary to report to the Congress on the development of a prospective method for ambulatory surgery services.

(d) Radiology and Diagnostic Services Provided in Hospital Outpatient Departments.—Payment for outpatient radiology and diagnostic services is limited to a blend of the hospital's costs and physician fee schedule that would apply if the procedure were performed in a physician's office.

(e) Payments to Nurse Practitioners in rural Areas.—OBRA 90 provided for direct reimbursement of nurse practitioners and clinical nurse specialists in rural areas. While current law excludes the services of physician assistants, nurse midwives, certified registered nurse anesthetists, and psychologists from the definition of inpatient hospital care, payments for nurse practitioners and clinical nurse specialists were not included in this provision.

(f) Other Technical and Conforming Amendments.—Elderly or disabled employees and their spouses who are covered by employer health plans are not required to enroll in the same enrollment period applicable to others. However, they cannot enroll while enrolled in an employer group health plan. Coverage for such individuals begins generally on he first day of the month in which the individual is no longer enrolled in an employer group health plan. The OBRA 90 conferees intended to modify this provision, but statutory language to that effect was omitted from the law.

HOUSE BILL

No provision.

SENATE AMENDMENT

(a) Revision of Information on Part B Claims.—Requires that the claim form include the unique physician identification number (UPIN) and repeals the requirement that claims indicate whether the referring physician is an investor in the entity.

(b) Consultation for Social Workers.—Requires that clinical social workers consult with a patient's attending physician in the same manner as clinical psychologists.

(c) Reports on Hospital Outpatient Payment.—Repeals Section 6137 of OBRA 89 and Section 1135(d)(6) of the Social Security Act.

(d) RADIOLOGY AND DIAGNOSTIC SERVICES PROVIDED IN HOSPITAL OUTPATIENT DEPARTMENTS.—Clarifies that outpatient payment limits apply to diagnostic services and that the physician component of the limit is based on the resource based relative value scale.

(e) Payments to Nurse Practitioners in Rural Areas.—Adds the services of nurse practitioners and clinical nurse specialists to the list of services excluded from the definition of inpatient hospital services.

(f) Other Technical and Conforming Amendments.—Modifies the special enrollment period to allow individuals who have employer group health coverage to enroll in Part B at any time they are enrolled in the group health plan, rather than after they leave the plan. If an individual enrolls in Part B while enrolled in the group health plan or in the first month after leaving the plan, Medicare coverage would begin on the first day of the month in which the individual enrolled (or, at the option of the individual) on the first day of any of the following three months).

Also makes various technical and conforming amendments to Sections 4154 through 4164 of OBRA 90.

CONFERENCE AGREEMENT

(a) Revision of Information on Part B Claims.—The conference agreement follows the Senate amendment.

(b) Consultation for Social Workers.—The conference agreement follows the Senate amendment.

(c) Report on Hospital Outpatient Payment.—The conference agreement follows the Senate amendment.

(d) Radiology and Diagnostic Services Provided in Hospital Outpatient Department.—The conference agreement follows the Senate amendment.

(e) Payments to Nurse Practitioners in Rural Areas.—The conference agreement follows the Senate amendment.

(f) Other Technical and Conforming Amendments.—The conference agreement follows the Senate amendment.

C. AMENDMENTS RELATING TO PARTS A AND B OF THE MEDICARE PROGRAM AND OTHER HEALTH AMENDMENTS

1. Clarification of self-referral exceptions for physician ownership of clinical laboratories

PRESENT LAW

(a) Modification of General Exceptions.—Physicians with certain ownership and/or compensation arrangements with clinical laboratories are prohibited from referring patients to these clinical laboratories.

There are a series of general exceptions to both the ownership and compensation provisions, including: (1) physicians' services provided by (or under the personal supervision of) a physician or another physician in the same group practice; (2) in-office ancillary services; and (3) hospital financial relationships unrelated to the provision of clinical laboratory services. In-office ancillary services are defined as services furnished by the physician himself, another physician in the same group practice, or employees of the physician or the physician's group practice. To be exempted from the referral ban, the services must be provided in a building in which the physician or other member of the group practice provides services unrelated to laboratory services, or in a central building set up by the group to perform ancillary services for its members. The services must be billed by the physician performing or supervising the service or by that physician's group, or by an entity owned by the physician or group practice. In addition, the ownership or compensation interests in such in-office ancillary services must meet other requirements as the Secretary may impose by regulation as needed to protect against patient fraud and abuse.

A number of group practices own and operate satellite facilities in communities other than the community in which the main clinical facility is located.

(b) Rural providers.—In addition to the general exemptions, the law includes specific exemptions from just the ownership prohibitions and specific exemptions from just the compensation provisions. The law includes an exemption under the ownership prohibition for rural providers. Proposed implementing regulations contain provisions directed at preventing possible abuse of this exemption.

(c) Services Under Arrangements.—Some group practices operate full-service labora-

tories and contract with hospitals and other providers to furnish clinical laboratory services to hospital and other provider patients "under arrangements" with such entities. Medicare requires that the hospital or other provider bill for such services. These "under arrangements" services are therefore not protected under the general exemption for in-office ancillary services.

(d) Shared Laboratory Facilities.—Some group practices, and the hospitals with which they are affiliated, operate a laboratory facility which serves both the hospital inpatients and the group practice's office patients. Current law does not contain a general exemption for this type of arrangement.

(e) Leasing.—The law includes specific exemptions from just the compensation prohibitions.

(f) Definition of Group Practice.—The law contains a definition of group practice for purposes of the self-referral provision. Under this definition, a group practice is defined as a group of two or more physicians legally organized as partnership, professional corporation, foundation, not-for-profit corporation, faculty practice plan or similar association in which: (1) each physician group member furnishes substantially the full range of his or her services through the joint use of shared office space, facilities, equipment, and personnel; (2) substantially all of the services of the physician group members are furnished through the group and billed in the name of the group, with billing receipts treated as receipts of the group; (3) the practice cost expenses and income generated by group members are distributed in accordance with predetermined methodologies; and (4) any additional standards established by the Secretary are satisfied.

Faculty practice plans operated by a hospital fall under the definition of group practice only for those services provided within the faculty practice plan.

The definition of group practice does not specifically address the issue of part-time or independent contractor arrangements. Many group practices, particularly those in smaller communities, arrange for specialists, usually from other communities, to provide services for the group on a part-time basis, usually as independent contractors. Many of these specialists are either already members of another group practice, have their own practice, or have similar contractual arrangements with several smaller group practices.

(g) Reference Laboratories.—No provision.

House Bill

No provision.

Senate Amendment

(a) Modification of General Exceptions.—Exempts ancillary services provided by a group practice with multiple office locations from the prohibition on referrals.

Modifies the exemption for hospital financial relationships unrelated to the provision of clinical laboratory services to include tax-exempt health services entities wholly owned, operated or affiliated with one or more not-for-profit tax exempt hospitals if the financial relationship does not relate to the provision of laboratory services.

Clarifies the billing provision to specify that when services are billed by the group practice, the billing number assigned to the group is to be used.

(b) Rural Providers.—Provides a general exemption for rural laboratories furnishing services in a rural area, as defined for purposes of the hospital prospective payment system.

(c) Services Under Arrangements.—Provides a general exemption for clinical hospital laboratory services provided by a group practice laboratory under arrangements with hospitals or other Medicare providers. Remuneration under the arrangement must be consistent with fair market value of the services and considered commercially reasonable even if no referrals were made between the two parties.

(d) Shared Laboratory Facilities.—Adds an exemption for shared laboratory services in certain specified cases. Specifically, the services must be provided by a university, a medical school, a nonprofit organization or hospital with an approved medical training program. Further, the laboratory must be used in common under a written arrangement with a group practice whose physician members constitute all, or substantially all, of the medical teaching staff of the university, medical school, organization or hospital.

(e) Leasing.—Creates a new exemption for the rental of equipment by a group practice. In order to qualify for the exemption, payments for the rental or lease of the equipment must be provided pursuant to a written agreement signed by the parties. The agreement must: (1) specify the equipment covered by the agreement and dedicated for use of the lessee; (2) provide for a term of rental or lease of at least one year; (3) provide for payment on a periodic basis of an amount consistent with a fair market value; (4) provide for an amount of aggregate payments that does not vary (directly or indirectly) based on the volume or value of any referrals of business between the parties; and (5) be considered to be commercially reasonable even if no referrals were made between the parties.

(f) Definition of Group Practice.—Modifies the definition of group practice so that two or more physicians providing services in an entity who comply with the other requirements specified in current law would also meet the definition of a group practice. The provision would be further modified to expand the definition of faculty practice plans to include those associated with a university or a medical school in addition to those operated by a hospital.

Prohibits the Secretary from imposing any standard which would have the effect of prohibiting a group practice from contracting with physicians on a part-time or intermittent basis, provided such group practice qualifies to receive Medicare payment for the physicians' services.

Specifies that the practice and overhead expenses of not-for-profit entities should be determined in accordance with methods previously determined by the entity consistent with its articles of incorporation and bylaws.

Clarifies the billing provision to specify that when services are billed by the group practice, the billing number assigned to the group practice is to be used.

(g) Reference Laboratories.—Prohibits the Secretary from including requirements in regulations that would have the effect of prohibiting the acceptance of reference work by group practice laboratories.

Effective date—

Effective as if included in the enactment of Section 6204 of the Omnibus Budget Reconciliation Act of 1989.

Conference Agreement

(a) Modification of General Exceptions.—The conference agreement includes the Senate amendment with an amendment deleting the provision related to the modification deleting the provision related to the modification of the exemption for hospital financial relationships unrelated to the provision of clinical laboratory services.

(b) Rural providers.—The conference agreement includes the Senate amendment with an agreement to clarify that to qualify for the exemption, substantially all of the Medicare services furnished by the laboratory are furnished to individuals residing in the rural area.

(c) Services under arrangements.—The conference agreement includes the Senate amendment with a modification. Under the agreement, the definition of group practice is amended to include two or more physicians legally organized as a group who bill in the name of a hospital for which the group provides clinical laboratory services pursuant to an arrangement. The arrangement must meet the following specified requirements. The arrangement must be pursuant to the provision of inpatient hospital services in accordance with Section 1861(b)(3) of the Act. It must have begun before December 19, 1989 and continued in effect without interruption since that date. It must provide substantially all of the clinical laboratory services to the hospital's patients. The arrangement must be pursuant to a written agreement that specifies the services to be provided by the parties and the compensation for services provided under the agreement. The compensation paid over the term of the agreement must be consistent with fair market value; the amount per unit of service must be fixed in advance. The compensation may not be determined in a manner that takes into account the volume or value of any referrals or other business generated between the parties. The compensation must be provided pursuant to an agreement which would be commercially reasonable, even if no referrals we made to the entity. Further, the arrangement must meet such other requirements as the Secretary may impose by regulation as needed to protect against program or patient abuse.

(d) Shared Laboratory Facilities.—The conference agreement includes the Senate amendment with a modification. Under the agreement a general exemption is provided for shared facility services that are: (i) furnished personally by the referring physician who is a shared facility physician or by another individual personally supervised by such a physician or by another shared facility physician and employed under the shared facility arrangement; (ii) furnished by a shared facility arrangement; (ii) furnished by a shared facility in a building in which the referring physician furnishes physician services unrelated to the furnishing of shared facility services, (iii) furnished to a patient of a shared facility physician; and (iv) billed by the referring physician or by an entity that is wholly owned by such physician. The exemption only applies to a shared facility if the facility and the shared facility arrangement was in effect as of June 26, 1992.

The agreement defines a shared facility arrangement as a financial arrangement: (i) which is only between physicians who are providing services (unrelated to shared facility services) in the same building; (ii) in which the overhead expenses of the facility are shared, in accordance with methods previously determined by the physicians in the arrangement, among physicians in the arrangement, and (iii) which, in the case of a corporation, is wholly owned and controlled by shared facility physicians.

The agreement further requires the General Accounting Office to conduct a study of the effect of shared facility arrangements on the utilization of health services. The GAO is required to submit a report to Congress on the results of the study by January 1, 1994.

(e) Leasing.—The conference agreement includes the Senate amendment with an amendment. Under the agreement, the current law provisions relating to compensation exemptions are revised. The exemption for the rental of office space is clarified to apply for the use of premises if: (i) the lease is written, signed by the parties and specifies the premises covered by the lease; (ii) the aggregate space rented or leased is reasonable and necessary for the legitimate business purposes of the lease or rental; (iii) the term of the lease is at least one year; (iv) in the case of a lease that is intended to provide access at periodic intervals, such intervals are specified in the lease; (v) the rental charges are set in advance, are consistent with fair market value, and are not determined in a manner that takes into account the volume or value of any referrals or other business generated between the two parties; (vi) the lease would be commercially reasonable even if no referrals were made between the parties; and (vi) the compensation arrangement meets such other requirements as the Secretary may impose to protect against program or patient abuse.

The agreement adds an exemption for the leasing of equipment. The requirements for the lease of equipment are the same as those applicable to the lease of premises, except that (ii) relates to the equipment rented or leased (rather than the aggregate space).
